Section 55: Budgetary Control and Interpretation

The appropriations in this Act consist of the amount stated in the right-most column, for each line at the lowest level of detail for the fund source categories, "Total State Funds" and "Total Federal Funds," under a caption beginning with a program or special project number that has a 100 or a higher number after the decimal and a program or special project name. In each case, such appropriation is associated with the immediately preceding program or special project name, number, and statement of program or special project purpose. The program or special project purpose is stated immediately below the program or special project name. For authorizations for general obligation debt in Section 51, the indented, bold-faced paragraphs following each Bond number are the lowest level of detail and constitute appropriations in accordance with Article VII, Section III, Paragraph I(a) of the Georgia Constitution. The caption above the Bond number, the light-faced text immediately following the Bond number before the bold-faced text, and the light-faced after the bold-faced text are information only.

Similarly, text in a group of lines that has a number less than 100 after the decimal (01 through 99) is not part of a statement of purpose but constitutes information as to how the appropriation was derived. Amounts in the columns other than the right-most column are for informational purposes only. Except for the prior year motor fuel funds re-allocated according to the legal text at the end of Section 48, the summary and lowest level of detail for the fund source categories "Total Agency Funds" and "Total Intra-State Governmental Transfers," are for informational purposes only. The blocks of text and numerals immediately following the section header and beginning with the phrases, "Section Total - Continuation" and "Section Totals - Final" are for informational purposes only. Sections 52, 53, and 54 contain, constitute, or amend appropriations.

Section 56: Flex

Except for the prior year motor fuel funds re-allocated according to the legal text at the end of Section 48, (notwithstanding their fund source character), and otherwise notwithstanding any other statement of purpose, the purpose of each appropriation of federal funds or other funds shall be the stated purpose or any other lawful purpose consistent with the fund source and the general law powers of the budget unit.

In the preceding sentence, "Federal Funds" means any federal funding source, whether specifically identified or not specifically identified; "Other Funds" means all other fund sources except State Funds or Federal Funds, including without limitation, Intra-State Government Transfers. This paragraph does not permit an agency to include within its flex the appropriations for an agency attached to it for administrative purposes.

This paragraph applies to and only to the appropriations for the "Medicaid: Low-Income Medicaid" and "Medicaid: Aged, Blind, and Disabled" programs of the Department of Community Health. The appropriation of a particular State fund source for each program is the amount stated, and each program shall also be authorized up to an additional amount of 2 percent (2%) of the amount stated. However, if the additional authority is used, the appropriation of the same State fund source for the other program to that agency is reduced in the same amount, such that the stated total in program appropriations from that State fund source for the two programs is not exceeded. However, the additional amount must be from a State fund source which is lawfully available for the program to which it is added.

Part II: Effective Date

This Act shall become effective upon its approval by the Governor or upon its becoming law without his approval.

Part III: Repeal Conflicting Laws

SUBJECT: Fiscal Note
House Bill 729 Substitute
(LC 34 3255S)

Dear Chairman Channell:

The Georgia State University Fiscal Research Center provided the following narrative on the revenue impact of this bill:

This fiscal note provides the revenue impact for LC 34 3255S. Section 1 of LC 34 3255S amends the tax code of Georgia to incorporate the 2011 change to the federal income tax code. During 2011 only one federal tax bill was signed into legislation.

The legislation contains only one provision with an implication to Georgia revenues. Passed initially as part of the 2010 Tax Relief Act, the reduction in the self-employed individual's social security tax rate from 12.4 percent to 10.4 percent is extended through February of 2012. Because these employment taxes paid by the self-employed are deductible against self-employment income, the temporary rate reduction serves to increase the taxable income of the self-employed and results in a revenue increase to the state tax base. The revenue effect of adopting this federal provision is shown in the table below.

Revenue Effect of LC 34 3255S – Section 1*

	Fiscal Years/\$ in Millions					
	2012	2013	2014	2015	2016	Total 2012-2016
Revenue Effect of adopting 2011 federal provisions	(2)	1	0	0	0	1

*(2) indicates a revenue gain of less than \$1,000,000. Totals may not add due to rounding.

The modifications to the Official Code of Georgia Annotated contained in sections 2 through 4 of LC 34 3255S codify various existing Department of Revenue regulations and have no revenue consequence to the state.

Sincerely,

/s/ Russell W. Hinton
State Auditor

The Senate Finance Committee offered the following substitute to HB 729:

A BILL TO BE ENTITLED
AN ACT

1954 as it existed on the prior date. Unless otherwise provided in this title, any term used in this title shall have the same meaning as when used in a comparable provision or context in the Internal Revenue Code of 1986, as amended. For taxable years beginning on or after January 1, ~~2010~~ 2011, provisions of the Internal Revenue Code of 1986, as amended, which were as of January 1, ~~2011~~ 2012, enacted into law but not yet effective shall become effective for purposes of Georgia taxation on the same dates upon which they become effective for federal tax purposes."

SECTION 2.

Said title is further amended by revising Code Section 48-5-345, relating to a receipt for a properly prepared county tax digest, as follows:

"48-5-345.

(a)(1) Upon the determination by the commissioner that a county tax digest is in proper form, that the property therein that is under appeal is within the limits of Code Section 48-5-304, and that the digest is accompanied by all documents, statistics, and certifications required by the commissioner, the commissioner shall issue a receipt for the digest and enter an order authorizing the use of said digest for the collection of taxes.

(2) Nothing in this subsection shall be construed to prevent the superior court from allowing the new digest to be used as the basis for the temporary collection of taxes under Code Section 48-5-310.

(b) Each year the commissioner shall determine if the overall assessment ratio for each county, as computed by the state auditor under paragraph (8) of subsection (b) of Code Section 48-5-274, deviates substantially from the proper assessment ratio as provided in Code Section 48-5-7, and if such deviation exists, the commissioner shall assess against the county governing authority additional state tax in an amount equal to the difference between the amount the state's levy, ~~of one quarter of a mill as prescribed in Code Section 48-5-8,~~ would have produced if the digest had been at the proper assessment ratio and the amount the digest that is actually used for collection purposes will produce. The commissioner shall notify the county governing authority annually of the amount so assessed and this amount shall be due and payable not later than five days after all appeals have been exhausted or the time for appeal has expired or the final date for payment of taxes in the county, whichever comes latest, and shall bear interest at the rate specified in Code Section 48-2-40 from the due date."

SECTION 3.

Said title is further amended by revising paragraphs (17), (25), and (33) of Code Section 48-8-2, relating to definitions regarding sales and use taxation, as follows:

"(17) 'Lease or rental' means any transfer of possession or control of tangible personal property for a fixed or indeterminate term for consideration. A lease or rental may include future options to purchase or extend. 'Lease or rental' includes agreements covering motor vehicles and trailers where the amount of consideration may be increased or decreased by reference to the amount realized upon sale or

"(25) 'Prepaid wireless calling service' means a 'telecommunications service' that provides the right to utilize 'mobile wireless service' as well as other nontelecommunications services including the download of digital products 'delivered electronically,' content, and 'ancillary services,' which must be paid for in advance that is sold in predetermined units ~~of~~ or dollars of which the number declines with use in a known amount."

"(33)(A) 'Sale' means any transfer of title or possession, transfer of title and possession, exchange, barter, lease, or rental, conditional or otherwise, in any manner or by any means of any kind of tangible personal property for a consideration except as otherwise provided in subparagraph (B) of this paragraph and includes, but is not limited to:

SECTION 5.

(a) This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

(b) Section 1 of this Act shall be applicable to all taxable years beginning on or after January 1, 2011.

SECTION 6.

All laws and parts of laws in conflict with this Act are repealed.

SUBJECT: State Auditor's Certification
House Bill 805 (LC 25 5992-EC)

Dear Representative Collins:

This bill would remove references to the State Personnel Administration throughout Title 47 of the Official Code of Georgia. These references are replaced, as appropriate, with references to the “state system of personnel administration,” “State Personnel Board,” and/or “commissioner of administrative services.” It should be noted, however, that this legislation will only take effect if the Act abolishing the State Personnel Administration and providing for the transfer of certain functions of such agency to the Department of Administrative Services is enacted and becomes effective on July 1, 2012.

This is to certify that this is a nonfiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 2 of Chapter 7 of Title 48 of the Official Code of Georgia Annotated, relating to imposition, computation, and exemptions from state income tax, is amended by revising subsections (a), (e), (f), (h), and (l) of Code Section 48-7-40, relating to designation of counties as less developed areas, as follows:

"(a) As used in this Code section, the term:

- (1) 'Broadcasting' means the transmission or licensing of audio, video, text, or other programming content to the general public, subscribers, or to third parties via radio, television, cable, satellite, or the Internet or Internet Protocol and includes motion picture and sound recording, editing, production, postproduction, and distribution. 'Broadcasting' is limited to establishments classified under the 2007 North American

Industry Classification System Codes 515, broadcasting; 519, Internet publishing and broadcasting; 517, telecommunications; and 512, motion picture and sound recording industries.

(2) 'Business enterprise' means any business or the headquarters of any such business which is engaged in manufacturing, including, but not limited to, the manufacturing of alternative energy products for use in solar, wind, battery, bioenergy, biofuel, and electric vehicle enterprises, warehousing and distribution, processing, telecommunications, broadcasting, tourism, research and development industries, biomedical manufacturing, and services for the elderly and persons with disabilities. Such term shall not include retail businesses. Businesses are eligible for the tax credit provided by this Code section at an individual establishment of the business based on the classification of the individual establishment under the North American Industry Classification System. For purposes of this Code section, the term 'establishment' means an economic unit at a single physical location where business is conducted or where services or industrial operations are performed. If more than one business activity is conducted at the establishment, then only those jobs engaged in the qualifying activity will be eligible for the tax credit provided by this Code section.

(3) 'Competitive project' means expansion or location of some or all of a business enterprise's operations in this state having significant regional impact where the commissioner of economic development certifies that but for some or all of the tax incentives provided in this Code section, the business enterprise would have located or expanded outside this state.

(4) 'Existing business enterprise' means any business or the headquarters of any such business which has operated for the immediately preceding three years a facility in this state which is engaged in manufacturing, including, but not limited to, the manufacturing of alternative energy products for use in solar, wind, battery, bioenergy, biofuel, and electric vehicle enterprises, warehousing and distribution, processing, telecommunications, broadcasting, tourism, biomedical manufacturing, or research and development industries. Such term shall not include retail businesses. Businesses are eligible for the tax credit provided by this Code section at an individual establishment of the business based on the classification of the individual establishment under the North American Industry Classification System. For purposes of this Code section, the term 'establishment' means an economic unit at a single physical location where business is conducted or where services or industrial operations are performed. If more than one business activity is conducted at the establishment, then only those jobs engaged in the qualifying activity will be eligible for the tax credit provided by this Code section.

(5) 'New full-time employee job' means a newly created position of employment that was not previously located in this state, requires a minimum of 35 hours a week, and pays at or above the average wage earned in the county with the lowest average wage earned in this state, as reported in the most recently available annual issue of the Georgia Employment and Wages Averages Report of the Department of Labor."

"(e)(1) Business enterprises in counties designated by the commissioner of

community affairs as tier 1 counties shall be allowed a tax credit for taxes imposed under this article equal to \$3,500.00 annually per eligible new full-time employee job for five years beginning with the first taxable year in which the new full-time employee job is created and for the four immediately succeeding taxable years; provided, however, that where the amount of such credit exceeds a business enterprise's liability for such taxes in a taxable year, the excess may be taken as a credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 but not to exceed in any one taxable year \$3,500.00 for each new full-time employee job when aggregated with the credit applied against taxes under this article. Each employee whose employer receives credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 shall receive credit against his or her income tax liability under Code Section 48-7-20 for the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit provided for in this paragraph. Credits against quarterly or monthly payments under Code Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this paragraph shall not constitute income to the taxpayer. Business enterprises in counties designated by the commissioner of community affairs as tier 2 counties shall be allowed a job tax credit for taxes imposed under this article equal to \$2,500.00 annually, business enterprises in counties designated by the commissioner of community affairs as tier 3 counties shall be allowed a job tax credit for taxes imposed under this article equal to \$1,250.00 annually, and business enterprises in counties designated by the commissioner of community affairs as tier 4 counties shall be allowed a job tax credit for taxes imposed under this article equal to \$750.00 annually for each new full-time employee job for five years beginning with the first taxable year in which the new full-time employee job is created and for the four immediately succeeding taxable years. Where a business enterprise is engaged in a competitive project located in a county designated by the commissioner of community affairs as a tier 2 county and where the amount of the credit provided in this paragraph exceeds such business enterprise's liability for taxes imposed under this article in a taxable year, or where a business enterprise is engaged in a competitive project located in a county designated by the commissioner of community affairs as a tier 3 or tier 4 county and where the amount of the credit provided in this paragraph exceeds 50 percent of such business enterprise's liability for taxes imposed under this article in a taxable year, the excess may be taken as a credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 but not to exceed in any one taxable year \$2,500.00 for each new full-time employee job when aggregated with the credit applied against taxes under this article. Each employee whose employer receives credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 shall receive credit against his or her income tax liability under Code Section 48-7-20 for the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit provided for in this paragraph. Credits against quarterly or monthly payments under Code

Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this paragraph shall not constitute income to the taxpayer. The number of new full-time employee jobs shall be determined by comparing the monthly average number of full-time employees subject to Georgia income tax withholding for the taxable year with the corresponding period of the prior taxable year. In tier 1 counties, those business enterprises that increase employment by ~~five~~ two or more shall be eligible for the credit. In tier 2 counties, only those business enterprises that increase employment by ten or more shall be eligible for the credit. In tier 3 counties, only those business enterprises that increase employment by 15 or more shall be eligible for the credit. In tier 4 counties, only those business enterprises that increase employment by 25 or more shall be eligible for the credit. The average wage of the new jobs created must be above the average wage of the county that has the lowest average wage of any county in the state to qualify as reported in the most recently available annual issue of the Georgia Employment and Wages Averages Report of the Department of Labor. To qualify for a credit under this paragraph, the employer must make health insurance coverage available to the employee filling the new full-time employee job; provided, however, that nothing in this paragraph shall be construed to require the employer to pay for all or any part of health insurance coverage for such an employee in order to claim the credit provided for in this paragraph if such employer does not pay for all or any part of health insurance coverage for other employees. Credit shall not be allowed during a year if the net employment increase falls below the number required in such tier. ~~In any year in which the net employment increase falls below the number required in such tier, the taxpayer shall forfeit the right to the credit claimed for that taxable year. For the year that the net employment increase falls below the number required in such tier, a taxpayer that forfeits such right is therefore liable for all past taxes imposed by this article for that taxable year and all past payments under Code Section 48-7-103 for that taxable year that were foregone by the state as a result of the credits provided by this Code section; provided, however, that Code Section 48-2-40 shall not apply to any such forfeiture.~~ The state revenue commissioner shall adjust the credit allowed each year for net new employment fluctuations above the minimum level of the number required in such tier.

(2) Existing business enterprises shall be allowed an additional tax credit for taxes imposed under this article equal to \$500.00 per eligible new full-time employee job the first year in which the new full-time employee job is created. The additional credit shall be claimed in the first taxable year in which the new full-time employee job is created. The number of new full-time employee jobs shall be determined by comparing the monthly average number of full-time employees subject to Georgia income tax withholding for the taxable year with the corresponding period of the prior taxable year. In tier 1 counties, those existing business enterprises that increase employment by five or more shall be eligible for the credit. In tier 2 counties, only those existing business enterprises that increase employment by ten or more shall be eligible for the credit. In tier 3 counties, only those existing business enterprises that

increase employment by 15 or more shall be eligible for the credit. In tier 4 counties, only those existing business enterprises that increase employment by 25 or more shall be eligible for the credit. The average wage of the new jobs created must be above the average wage of the county that has the lowest average wage of any county in the state to qualify as reported in the most recently available annual issue of the Georgia Employment and Wages Averages Report of the Department of Labor. To qualify for a credit under this paragraph, the employer must make health insurance coverage available to the employee filling the new full-time job; provided, however, that nothing in this paragraph shall be construed to require the employer to pay for all or any part of health insurance coverage for such an employee in order to claim the credit provided for in this paragraph if such employer does not pay for all or any part of health insurance coverage for other employees. Credit shall not be allowed during a year if the net employment increase falls below the number required in such tier. Any credit generated and utilized for years prior to the year in which the net employment increase falls below the number required in such tier shall not be affected. The state revenue commissioner shall adjust the credit allowed each year for net new employment fluctuations above the minimum level of the number required in such tier. This paragraph shall apply only to new eligible full-time jobs created in taxable years beginning on or after January 1, 2006, and ending no later than taxable years beginning prior to January 1, 2011.

(f) Tax credits for ~~four~~ five years for the taxes imposed under this article shall be awarded for additional new full-time employee jobs created by business enterprises qualified under subsection (b), (c), or (c.1) of this Code section. Additional new full-time employee jobs shall be determined by subtracting the highest total employment of the business enterprise during years two through five, or whatever portion of years two through five which has been completed, from the total increased employment. The state revenue commissioner shall adjust the credit allowed in the event of employment fluctuations during the five years of credit."

~~"(h)(1) Except as provided in paragraph (2) of this subsection, any~~ Any credit claimed under this Code section but not used in any taxable year may be carried forward for ten years from the close of the taxable year in which the qualified jobs were established, subject to forfeiture as provided in paragraph (1) of subsection (e) of this Code section, but in tiers 3 and 4 the credit established by this Code section taken in any one taxable year shall be limited to an amount not greater than 50 percent of the taxpayer's state income tax liability which is attributable to income derived from operations in this state for that taxable year. In tier 1 and 2 counties, the credit allowed under this Code section against taxes imposed under this article in any taxable year shall be limited to an amount not greater than 100 percent of the taxpayer's state income tax liability attributable to income derived from operations in this state for such taxable year.

~~(2) The additional credit claimed by an existing business enterprise pursuant to the provisions of paragraph (2) of subsection (e) of this Code section must be applied against taxes imposed for the taxable year in which such credit is available and may~~

~~not be carried forward to any subsequent taxable year."~~

"(l) Taxpayers that initially claimed the credit under this Code section for any taxable year beginning before January 1, ~~2009~~ 2012, shall be governed, for purposes of all such credits claimed as well as any credits claimed in subsequent taxable years related to such initial claim, by this Code section as it was in effect for the taxable year in which the taxpayer made such initial claim."

SECTION 2.

Said article is further amended by revising subsections (a), (e), (f), and (j) of Code Section 48-7-40.1, relating to tax credits for business enterprises located in less developed areas, as follows:

"(a) As used in this Code section, the term:

(1) 'Broadcasting' means the transmission or licensing of audio, video, text, or other programming content to the general public, subscribers, or to third parties via radio, television, cable, satellite, or the Internet or Internet Protocol and includes motion picture and sound recording, editing, production, postproduction, and distribution. 'Broadcasting' is limited to establishments classified under the 2007 North American Industry Classification System Codes 515, broadcasting; 519, Internet publishing and broadcasting; 517, telecommunications; and 512, motion picture and sound recording industries.

(2) 'Business enterprise' means any business or the headquarters of any such business which is engaged in manufacturing, including, but not limited to, the manufacturing of alternative energy products for use in solar, wind, battery, bioenergy, biofuel, and electric vehicle enterprises, warehousing and distribution, processing, telecommunications, broadcasting, tourism, biomedical manufacturing, and research and development industries. Such term shall not include retail businesses. Businesses are eligible for the tax credit provided by this Code section at an individual establishment of the business based on the classification of the individual establishment under the North American Industry Classification System. For purposes of this Code section, the term 'establishment' means an economic unit at a single physical location where business is conducted or where services or industrial operations are performed. If more than one business activity is conducted at the establishment, then only those jobs engaged in the qualifying activity will be eligible for the tax credit provided by this Code section."

"(e) Business enterprises in areas designated by the commissioner of community affairs as less developed areas shall be allowed a job tax credit for taxes imposed under this article equal to \$3,500.00 annually per eligible new full-time employee job for five years beginning with the first taxable year in which the new full-time employee job is created and for the four immediately succeeding taxable years; provided, however, that where the amount of such credit exceeds a business enterprise's liability for such taxes in a taxable year, the excess may be taken as a credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 but not to exceed in any one taxable year \$3,500.00 for each new

full-time employee job when aggregated with the credit applied against taxes under this article. Each employee whose employer receives credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 shall receive credit against his or her income tax liability under Code Section 48-7-20 for the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit provided for in this subsection. Credits against quarterly or monthly payments under Code Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this subsection shall not constitute income to the taxpayer. The number of new full-time jobs shall be determined by comparing the monthly average number of full-time employees subject to Georgia income tax withholding for the taxable year with the corresponding period of the prior taxable year. Only those business enterprises that increase employment by five or more in a less developed area shall be eligible for the credit; provided, however, that within areas of pervasive poverty as designated under paragraphs (2) and (4) of subsection (c) of this Code section businesses shall only have to increase employment by two or more jobs in order to be eligible for the credit, provided that, if a business only increases employment by two jobs, the persons hired for such jobs shall not be married to one another. The average wage of the new jobs created must be above the average wage of the county that has the lowest wage of any county in the state to qualify as reported in the most recently available annual issue of the Georgia Employment and Wages Averages Report of the Department of Labor. To qualify for a credit under this subsection, the employer must make health insurance coverage available to the employee filling the new full-time job; provided, however, that nothing in this subsection shall be construed to require the employer to pay for all or any part of health insurance coverage for such an employee in order to claim the credit provided for in this subsection if such employer does not pay for all or any part of health insurance coverage for other employees. Credit shall not be allowed during a year if the net employment increase falls below five or two, as applicable. ~~In any year in which the net employment increase falls below five or two, as applicable, the taxpayer shall forfeit the right to the credit claimed for that taxable year. For the year that the net employment increase falls below five or two, as applicable, a taxpayer that forfeits such right is therefore liable for all past taxes imposed by this article for that taxable year and all past payments under Code Section 48-7-103 for that taxable year that were foregone by the state as a result of the credits provided by this Code section; provided, however that Code Section 48-2-40 shall not apply to any such forfeiture.~~ The state revenue commissioner shall adjust the credit allowed each year for net new employment fluctuations above the minimum level of five or two.

(f) Tax credits for ~~four~~ five years for the taxes imposed under this article shall be awarded for additional new full-time employee jobs created by business enterprises qualified under subsection (b) or (c) of this Code section. Additional new full-time employee jobs shall be determined by subtracting the highest total employment of the business enterprise during years two through five, or whatever portion of years two through five which has been completed, from the total increased employment. The

state revenue commissioner shall adjust the credit allowed in the event of employment fluctuations during the additional five years of credit."

"(j) Taxpayers that initially claimed the credit under this Code section for any taxable year beginning before January 1, ~~2009~~ 2012, shall be governed, for purposes of all such credits claimed as well as any credits claimed in subsequent taxable years related to such initial claim, by this Code section as it was in effect for the taxable year in which the taxpayer made such initial claim."

SECTION 3.

Said article is further amended by revising subsection (e) of Code Section 48-7-40.12, relating to tax credit for qualified research expenses, as follows:

"(e) ~~In the first five years of a newly formed business enterprise's operations in this state, where~~ Where the amount of a credit claimed under this Code section exceeds 50 percent of ~~a taxpayer's liability for such taxes~~ the business enterprise's remaining Georgia net income tax liability after all other credits have been applied in a taxable year, the excess may be taken as a credit against such taxpayer's quarterly or monthly payment under Code Section 48-7-103. Each employee whose employer receives credit against such taxpayer's quarterly or monthly payment under Code Section 48-7-103 shall receive a credit against his or her income tax liability under Code Section 48-7-20 for the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit provided for in this subsection. Credits against quarterly or monthly payments under Code Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this subsection shall not constitute income to the taxpayer."

SECTION 4.

Said article is further amended by revising Code Section 48-7-40.15, relating to alternative tax credits for base year port traffic increases, as follows:

provided, however, that in the event the total amount actually imported into this state or exported out of this state during such period was not at least 75 net tons, five containers, or ten twenty-foot equivalent units (TEU's), then 'base year port traffic' means 75 net tons, five containers, or ten twenty-foot equivalent units (TEU's).

(2) 'Broadcasting' means the transmission or licensing of audio, video, text, or other programming content to the general public, subscribers, or to third parties via radio, television, cable, satellite, or the Internet or Internet Protocol and includes motion picture and sound recording, editing, production, postproduction, and distribution. 'Broadcasting' is limited to establishments classified under the 2007 North American Industry Classification System Codes 515, broadcasting; ~~516~~, 519, Internet publishing and broadcasting; 517, telecommunications; and 512, motion picture and sound recording industries.

For purposes of this Code section, the term 'establishment' means an economic unit at a single physical location where business is conducted or where services or industrial operations are performed. If more than one business activity is conducted at the establishment, then only those jobs engaged in the qualifying activity will be eligible for the tax credit provided by this Code section.

(B) For all taxable years beginning on or after January 1, 2010, the total amount of net tons, containers, or twenty-foot equivalent units (TEU's) of product imported into this state or exported out of this state by way of a waterborne ship or vehicle through a port facility.

The department shall promulgate rules defining eligible manufacturing facilities, telecommunications facilities, and qualified investment property pursuant to this Code section.

(b)(1) In the case of any business enterprise which has increased its port traffic of products during the previous 12 month period by more than 10 percent above its base year port traffic and is qualified to claim a job tax credit under Code Section 48-7-40 or 48-7-40.1 for jobs added at any time on or after January 1, 1998, there shall be allowed an additional \$1,250.00 job tax credit against the tax imposed under this article.

(2) The tax credit described in this subsection shall be allowed subject to the conditions and limitations set forth in Code Section 48-7-40 or 48-7-40.1 and shall be in addition to the credit allowed under Code Section 48-7-40 or 48-7-40.1; provided, however, that such credit shall not be allowed during a year if the port traffic does not remain above the minimum level established in this Code section.

(c) In the case of any business enterprise which has increased its port traffic of products during the previous 12 month period by more than 10 percent above its base year port traffic and is qualified to claim a tax credit under Code Section 48-7-40.2, 48-7-40.3, 48-7-40.4, 48-7-40.7, 48-7-40.8, or 48-7-40.9 upon qualified investment property added at any time on or after January 1, 1998, there shall be allowed a credit against the tax imposed under this article in an amount equal to the applicable percentage amount otherwise allowed under Code Section 48-7-40.2 or 48-7-40.7 to business enterprises for the cost of such property. The tax credit described in this subsection shall be allowed subject to the conditions and limitations set forth in Code Section 48-7-40.2 or 48-7-40.7, as applicable, except that such property may be placed in service in any county without regard to its tier designation. Such credit shall also be in lieu of and not in addition to the credit authorized under Code Sections 48-7-40.2, 48-7-40.3, 48-7-40.4, 48-7-40.7, 48-7-40.8, and 48-7-40.9.

(d) No business enterprise shall be authorized to claim the credits provided for in both subsections (b) and (c) of this Code section on a tax return for any taxable year unless such business enterprise has increased its port traffic of products during the previous 12 month period by more than 20 percent above its base year port traffic, has increased employment by 400 or more no sooner than January 1, 1998, and has purchased or acquired qualified investment property having an aggregate cost in excess of \$20 million no sooner than January 1, 1998.

(1) For every year in which a taxpayer claims the credit, the taxpayer shall attach a schedule to the taxpayer's state income tax return which shall set forth the following

(F) The amount of tax credit utilized by the taxpayer in the current taxable year; and

(G) The amount of tax credit to be carried over to subsequent tax years.

(2)(A) Any tax credit claimed under subsection (b) of this Code section but not used in any taxable year may be carried forward for ten years from the close of the taxable year in which the qualified jobs were established, provided that the increase in port traffic remains above the minimum levels established in Code Section 48-7-40 or 48-7-40.1 and this Code section, respectively.

(B) Any tax credit claimed under subsection (c) of this Code section in lieu of Code Section 48-7-40.2, 48-7-40.3, or 48-7-40.4 but not used in any taxable year may be carried forward for ten years from the close of the taxable year in which the qualified investment property was acquired, provided that the increase in port traffic remains above the minimum level established in this Code section and the qualified investment property remains in service.

(C) The tax credit established by this Code section in addition to that pursuant to Code Section 48-7-40 or 48-7-40.1 and taken in any one taxable year shall be limited to an amount not greater than 50 percent of the taxpayer's state income tax liability which is attributable to income derived from operations in this state for that taxable year.

(D) The sale, merger, acquisition, or bankruptcy of any taxpayer shall not create new eligibility for any succeeding taxpayer, but any unused credit may be transferred and continued by any transferee of the taxpayer."

SECTION 5.

Said article is further amended by revising Code Section 48-7-40.17, relating to establishing or relocating headquarters and tax credit, as follows:

"48-7-40.17.

(a) As used in this Code section, the term:

(1) 'Average wage' means the average wage of the county in which a new quality job is located as reported in the most recently available annual issue of the Georgia Employment and Wages Averages Report of the Department of Labor.

(2) 'New quality job' means employment for an individual which:

(A) Is located in this state;

(B) Has a regular work week of 30 hours or more;

(C) Is not a job that is or was already located in Georgia regardless of which taxpayer the individual performed services for; and

(D) Pays at or above 110 percent of the average wage of the county in which it is located; ~~and~~

~~(E) Has no predetermined end date.~~

(b) A taxpayer establishing new quality jobs in this state or relocating quality jobs into this state which elects not to receive the tax credits provided for by Code Sections 48-7-40, 48-7-40.1, 48-7-40.2, 48-7-40.3, 48-7-40.4, 48-7-40.7, 48-7-40.8, and 48-7-40.9 for such jobs and investments created by, arising from, related to, or connected in any way with the same project and, within one year of the first date on which the taxpayer pursuant to the provisions of Code Section 48-7-101 withholds wages for employees in this state and employs at least 50 persons in new quality jobs in this state, shall be allowed a credit for taxes imposed under this article:

(1) Equal to \$2,500.00 annually per eligible new quality job where the job pays 110 percent or more but less than 120 percent of the average wage of the county in which the new quality job is located;

(2) Equal to \$3,000.00 annually per eligible new quality job where the job pays 120 percent or more but less than 150 percent of the average wage of the county in which the new quality job is located;

(3) Equal to \$4,000.00 annually per eligible new quality job where the job pays 150 percent or more but less than 175 percent of the average wage of the county in which the new quality job is located;

(4) Equal to \$4,500.00 annually per eligible new quality job where the job pays 175 percent or more but less than 200 percent of the average wage of the county in which the new quality job is located; and

(5) Equal to \$5,000.00 annually per eligible new quality job where the job pays 200 percent or more of the average wage of the county in which the new quality job is located;

provided, however, that where the amount of such credit exceeds a taxpayer's liability for such taxes in a taxable year, the excess may be taken as a credit against such taxpayer's quarterly or monthly payment under Code Section 48-7-103 but not to exceed in any one taxable year the credit amounts in paragraphs (1) through (5) of this

subsection for each new quality job when aggregated with the credit applied against taxes under this article. Each employee whose employer receives credit against such taxpayer's quarterly or monthly payment under Code Section 48-7-103 shall receive a credit against his or her income tax liability under Code Section 48-7-20 for the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit provided for in this subsection. Credits against quarterly or monthly payments under Code Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this subsection shall not constitute income to the taxpayer. For each new quality job created, the credit established by this subsection may be taken for the first taxable year in which the new quality job is created and for the four immediately succeeding taxable years; provided, however, that such new quality jobs must be created within seven years from the close of the taxable year in which the taxpayer first becomes eligible for such credit. Credit shall not be allowed during a year if the net employment increase falls below the 50 new quality jobs required. Any credit received for years prior to the year in which the net employment increase falls below the 50 new quality jobs required shall not be affected except as provided in subsection (f) of this Code section. The state revenue commissioner shall adjust the credit allowed each year for net new employment fluctuations above the 50 new quality jobs required.

(c) The number of new quality jobs to which this Code section shall be applicable shall be determined by comparing the monthly average of new quality jobs subject to Georgia income tax withholding for the taxable year with the corresponding average for the prior taxable year.

(d) Any credit claimed under this Code section but not used in any taxable year may be carried forward for ten years from the close of the taxable year in which the new quality jobs were established.

(e) Notwithstanding Code Section 48-2-35, any tax credit claimed under this Code section shall be claimed within one year of the earlier of the date the original return was filed or the date such return was due as prescribed in subsection (a) of Code Section 48-7-56, including any approved extensions.

~~(f) If the taxpayer has failed to maintain a new quality job in a taxable year, the taxpayer shall forfeit the right to the credit claimed for such job in that year. For each year such new quality job is not maintained, a taxpayer that forfeits such right is therefore liable for all past taxes imposed by this article for that taxable year and all past payments under Code Section 48-7-103 for that taxable year that were foregone by the state as a result of the credits provided by this Code section; provided, however, that Code Section 48-2-40 shall not apply to any such forfeiture.~~

~~(g)~~ Taxpayers that initially claimed the credit under this Code section for any taxable year beginning before January 1, ~~2009~~ 2012, shall be governed, for purposes of all such credits claimed as well as any credits claimed in subsequent taxable years related to such initial claim, by this Code section as it was in effect for the taxable year in which the taxpayer made such initial claim.

~~(h)~~(g) The state revenue commissioner shall promulgate any rules and regulations

necessary to implement and administer this Code section."

Only additional jobs added in this state that meet the requirements of this Code section shall be counted for purposes of calculating the job creation requirement.

(5) 'Job creation requirement' means the requirement that no later than the close of the sixth taxable year following the withholding start date, the business enterprise will have a minimum of 1,800 eligible full-time employees. If at the close of the sixth taxable year following the withholding start date a minimum of \$600 million in qualified investment property has been purchased or acquired by the business enterprise to be used with respect to a qualified project, the job creation requirement shall be extended for an additional two-year period. If at the close of the eighth taxable year following the withholding start date a minimum of \$800 million in qualified investment property has been purchased or acquired by the business enterprise to be used with respect to a qualified project, the job creation requirement shall be extended for an additional four-year period.

If the taxpayer selects the qualified investment property requirement as one of the conditions for its project, the property shall involve the construction of one or more new facilities in this state or the expansion of one or more existing facilities in this state. The panel shall make its determination within 30 days after receipt from the commissioner

of the taxpayer's application and any necessary supporting documentation. Although the panel's certification may be based upon other criteria, a project that meets the minimum job creation requirement and either the payroll requirement or qualified investment property requirement, as applicable, specified in paragraph (1) of this subsection will have a significant beneficial economic effect on the region for which it is planned if one of the following additional criteria is met:

- (iii) Five percent above such average wage for projects located in tier 3 or tier 4 counties; or

(B) The project demonstrates high growth potential based upon the prior year's Georgia net taxable income growth of over 20 percent from the previous year, if the taxpayer's Georgia net taxable income in each of the two preceding years also grew by 20 percent or more.

(c) Any lease for a period of five years or longer of any real or personal property used in a new or expanded facility or facilities which would otherwise constitute qualified investment property shall be treated as the purchase or acquisition thereof by the lessee. The taxpayer may treat the full value of the leased property as qualified investment property in the year in which the lease becomes binding on the lessor and the taxpayer.

(d) A business enterprise whose application is approved shall be allowed a tax credit for taxes imposed under this article equal to \$5,250.00 annually per new eligible full-time employee job for five years beginning with the year in which such job is created through year five after such creation; provided, however, that where the amount of such credit exceeds a business enterprise's liability for such taxes in a taxable year, the excess may be taken as a credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103. The taxpayer may file an election with the commissioner to take such credit against quarterly or monthly payments under Code Section 48-7-103 that become due before the due date of the income tax return on which such credit may be claimed. In the event of such an election, the commissioner shall confirm with the taxpayer a date, which shall not be later than 30 days after receipt of the taxpayer's election, when the taxpayer may begin to take the credit against such quarterly or monthly payments. For any one taxable year the amounts taken as a credit against taxes imposed under this article and against the business enterprise's quarterly or monthly payments under Code Section 48-7-103 may not in the aggregate exceed \$5,250.00 per eligible full-time employee job. Each employee whose employer receives credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 shall receive a credit against his or her income tax liability under Code Section 48-7-20 for the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit

provided for in this subsection. Credits against quarterly or monthly payments under Code Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this subsection shall not constitute income to the taxpayer. To qualify for a credit under this subsection, the employer must make health insurance coverage available to the employee filling the new full-time job; provided, however, that nothing in this subsection shall be construed to require the employer to pay for all or any part of health insurance coverage for such an employee in order to claim the credit provided for in this subsection if such employer does not pay for all or any part of health insurance coverage for other employees.

(e) The number of new full-time jobs to which this Code section shall be applicable shall be determined by comparing the monthly average number of eligible full-time employees subject to Georgia income tax withholding for the taxable year with the corresponding period for the prior taxable year.

(f) The Subject to the requirements of division (a)(4)(B)(iii) of this Code section, the sale, merger, acquisition, or bankruptcy of any business enterprise shall not create new eligibility in any succeeding business entity, but any unused job tax credit may be transferred and continued by any transferee of the business enterprise.

(g) To qualify for the credit provided by this Code section, a new full-time job must be created by the close of the seventh taxable year following the business enterprise's withholding start date, unless the purchase or acquisition of qualified investment property is made as provided in paragraph (5) of subsection (a) of this Code section, in which case a new full-time job must be created by the close of the eighth taxable year following the business enterprise's withholding start date based on a \$600 million qualified investment or the end of the tenth taxable year based on an \$800 million qualified investment. In no event may a credit be claimed under this Code section for more than 3,300 new full-time employee jobs created by any one project; provided, however, that the taxpayer may claim the credits provided by Code Sections 48-7-40 and 48-7-40.1 for any such additional jobs if the taxpayer meets the terms and conditions thereof.

(h) Any credit claimed under this Code section but not fully used in the manner prescribed in subsection (d) of this Code section may be carried forward for ten years from the close of the taxable year in which the qualified job was established.

(i) Except as provided in subsection (g) of this Code section, a taxpayer who is entitled to and takes credits provided by this Code section for a qualified project shall not be allowed to take any of the credits authorized by Code Section 48-7-40, 48-7-40.1, 48-7-40.2, 48-7-40.3, 48-7-40.4, 48-7-40.6, 48-7-40.7, 48-7-40.8, 48-7-40.9, 48-7-40.10, 48-7-40.11, 48-7-40.15, 48-7-40.17, or 48-7-40.18 for jobs, investments, child care, or ground-water usage shifts created by, arising from, related to, or connected in any way with the same project. Provided such taxpayer otherwise qualifies, such taxpayer may take any credit authorized by Code Section 48-7-40.5 for the costs of retraining an employee located at the site or sites of such project or the facility or facilities resulting therefrom, but only for costs incurred more than five years after the date the facility or facilities first become operational.

(j) Except under those circumstances described in subsection (k) of this Code section, the taxpayer shall, not more than 60 days after the close of the sixth taxable year following its withholding start date, file a report with the commissioner concerning the number of eligible full-time employee jobs created by such project; the wages of such jobs; the qualified investment property purchased or acquired by the taxpayer for the project; and any other information that the commissioner may reasonably require in order to determine whether the taxpayer has met the job creation requirement and either the payroll requirement or the qualified investment property requirement, as selected by the taxpayer, for such project. If the taxpayer has failed to meet any applicable job creation, payroll, or qualified investment property requirement, the taxpayer ~~will~~ shall forfeit the right to claim any credits provided by this Code section for such project. A taxpayer that forfeits the right to claim such credits is liable for all past taxes imposed by this article and all past payments under Code Section 48-7-103 that were foregone by the state as a result of the credits, plus interest at the rate established by Code Section 48-2-40 computed from the date such taxes or payments would have been due if the credits had not been taken. No later than 90 days after notification from the commissioner that any applicable job creation, payroll, or qualified investment property requirement was not met, the taxpayer shall file amended income tax and withholding tax returns for all affected periods that recalculate those liabilities without regard to the forfeited credits and shall pay any additional amounts shown on such returns, with interest as provided ~~herein~~ by Code Section 48-2-40. On such amended returns the taxpayer may claim any credit to which it would have been entitled under this article but for having taken the credit provided by this Code section.

(k) If the recapture period applicable to a qualified project begins with or before the sixth taxable year following the taxpayer's withholding start date, or with or before the eighth taxable year following the taxpayer's withholding start date if the project falls within the \$600 million in qualified investment property category, or within the tenth taxable year following the taxpayer's withholding start date if the project falls within the \$800 million in qualified investment property category, the taxpayer shall, not later than 60 days after the close of the taxable year immediately preceding the recapture period, file a report with the commissioner concerning the number of eligible full-time employee jobs created by such project; the wages of such jobs; the qualified investment property purchased or acquired by the taxpayer for the project; and any other information that the commissioner may reasonably require in order to verify that the taxpayer met the job creation requirement and either the payroll requirement or the qualified investment property requirement in such preceding year.

(l) Not more than 60 days after the close of each taxable year within the recapture period, the taxpayer shall file a report, using such form and providing such information as the commissioner may reasonably require, concerning whether it met the job maintenance requirement and, if applicable, the payroll maintenance requirement for such year. For purposes of this subsection, whether such job maintenance requirement has been satisfied shall be determined by comparing the monthly average number of eligible full-time employees subject to Georgia income tax withholding for the taxable

year with 1,800. For purposes of this subsection, whether such payroll maintenance requirement has been satisfied shall be determined by comparing the total annual Georgia W-2 reported payroll with respect to a qualified project for the taxable year with \$150 million. If the taxpayer has failed to meet the job maintenance requirement or payroll maintenance requirement, or both, for such year, the taxpayer ~~will~~ shall forfeit the right to 20 percent of all credits provided by this Code section for such project. A taxpayer that forfeits such right is liable for 20 percent of all past taxes imposed by this article and all past payments under Code Section 48-7-103 that were foregone by the state as a result of the credits provided by this Code section, plus interest at the rate established by Code Section 48-2-40 computed from the date such taxes or payments would have been due if the credits had not been taken. No later than 90 days after notification by the commissioner that the taxpayer has failed to meet the job maintenance requirement or payroll maintenance requirement, or both, for such year, the taxpayer shall file amended income tax and withholding tax returns for all affected periods that recalculate those liabilities without regard to the forfeited credits and shall pay any additional amounts shown on such returns, with interest as provided ~~herein~~ by Code Section 48-2-40.

(m) A taxpayer ~~who~~ that fails to meet the job maintenance requirement or payroll maintenance requirement, or both, for any taxable year within the recapture period because of force majeure may petition the commissioner for relief from such requirement. Such a petition must be made with and at the same time as the report required by subsection (l) of this Code section. If the commissioner determines that force majeure materially affected the taxpayer's ability to meet the job maintenance requirement or payroll maintenance requirement, or both, for such year, but that the portion of the year so affected was six months or less, for purposes of the job maintenance requirement the commissioner shall calculate the taxpayer's monthly average number of eligible full-time employees for purposes of subsection (l) of this Code section by disregarding the affected months and for purposes of the payroll maintenance requirement the commissioner shall annualize the total Georgia W-2 reported payroll with respect to a qualified project for the portion of the year not so affected. If the commissioner determines that the affected portion of the year was more than six months, the taxable year shall be disregarded in its entirety for purposes of the job maintenance requirement or payroll maintenance requirement, or both, and the recapture period applicable to the qualified project shall be extended for an additional year.

(n) Unless more time is allowed therefor by Code Section 48-7-82 or 48-2-49, the commissioner may make any assessment attributable to the forfeiture of credits claimed under this Code section for the periods covered by any amended returns filed by a taxpayer pursuant to subsection (j) or (l) of this Code section within one year from the date such returns are filed. If the taxpayer fails to file the reports or any amended return required by subsection (j) or (l) of this Code Section, the commissioner may assess additional tax or other amounts attributable to the forfeiture of credits claimed under this Code section at any time.

(o) Projects certified by the panel pursuant to paragraph (2) of subsection (b) of this Code section before January 1, 2009, shall be governed by this Code section as it was in effect for the taxable year the project was certified.

(p) The commissioner shall promulgate any rules and regulations necessary to implement and administer this Code section."

SECTION 7.

(a) This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval and shall be applicable to all taxable years beginning on or after January 1, 2012.

(b) Tax, penalty, and interest liabilities and refund eligibility for prior taxable years shall not be affected by the passage of this Act and shall continue to be governed by the provisions of general law as it existed immediately prior to January 1, 2012.

(c) This Act shall not abate any prosecution, punishment, penalty, administrative proceedings or remedies, or civil action related to any violation of law committed prior to January 1, 2012.

SECTION 8.

All laws and parts of laws in conflict with this Act are repealed.

Such review shall be prepared by the Department of Audits and Accounts and provided to the Office of Planning and Budget in a timely manner for inclusion as part of the budget report. Such review shall detail for each tax expenditure item that amount of tax revenue forgone for at least a three-year period, including the period covered in the Governor's budget submitted the preceding January, the current budget, and an estimate of one future year; a citation of the statutory or other legal authority for the expenditure; the year in which it was enacted; and the tax year in which it became effective. Amend the Senate Economic Development Committee substitute to HB 868 (LC 34 3453S) by striking lines 67 through 168 and inserting in lieu thereof the following:

"(e)(1) Business enterprises in counties designated by the commissioner of community affairs as tier 1 counties shall be allowed a tax credit for taxes imposed under this article equal to \$3,500.00 annually per eligible new full-time employee job for five years beginning with the first taxable year in which the new full-time employee job is created and for the four immediately succeeding taxable years; provided, however, that where the amount of such credit exceeds a business enterprise's liability for such taxes in a taxable year, the excess may be taken as a credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 but not to exceed in any one taxable year ~~\$3,500.00~~ \$3,750.00 for each new full-time employee job when aggregated with the credit applied against taxes under this article. Each employee whose employer receives credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 shall receive credit against his or her income tax liability under Code Section 48-7-20 for the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit provided for in this paragraph. Credits against quarterly or monthly payments under Code Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this paragraph shall not constitute income to the taxpayer. Business enterprises in counties designated by the commissioner of community affairs as tier 2 counties shall be allowed a job tax credit for taxes imposed under this article equal to \$2,500.00 annually; and business enterprises in counties designated by the commissioner of community affairs as tier 3 and tier 4 counties shall be allowed a job tax credit for taxes imposed under this article equal to ~~\$1,250.00~~ \$2,000.00 annually; ~~and business enterprises in counties designated by the commissioner of community affairs as tier 4 counties shall be allowed a job tax credit for taxes imposed under this article equal to \$750.00 annually~~ for each new full-time employee job for five years beginning with the first taxable year in which the new full-time employee job is created and for the four immediately succeeding taxable years. Where a business enterprise is engaged in a competitive project located in a county designated by the commissioner of community affairs as a tier 2 county and where the amount of the credit provided in this paragraph exceeds such business enterprise's liability for taxes imposed under this article in a taxable year, the excess may be taken as a credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 but not to exceed in any one taxable year \$2,750.00 for each new full-time employee job when aggregated with the credit applied against taxes under this article. ~~or where~~ Where a business enterprise is engaged in a competitive project located in a county designated by the commissioner of community affairs as a tier 3 or tier 4 county and where the amount of the credit provided in this paragraph exceeds 50 percent of such business enterprise's liability for taxes imposed under this article in a taxable year, the excess

may be taken as a credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 but not to exceed in any one taxable year ~~\$2,500.00~~ \$2,250.00 for each new full-time employee job when aggregated with the credit applied against taxes under this article. Each employee whose employer receives credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 shall receive credit against his or her income tax liability under Code Section 48-7-20 for the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit provided for in this paragraph. Credits against quarterly or monthly payments under Code Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this paragraph shall not constitute income to the taxpayer. In tier 4 counties, only those business enterprises that increase employment by 25 or more shall be eligible for the credit.~~ The average wage of the new jobs created must be above the average wage of the county that has the lowest average wage of any county in the state to qualify as reported in the most recently available annual issue of the Georgia Employment and Wages Averages Report of the Department of Labor. To qualify for a credit under this paragraph, the employer must make health insurance coverage available to the employee filling the new full-time employee job; provided, however, that nothing in this paragraph shall be construed to require the employer to pay for all or any part of health insurance coverage for such an employee in order to claim the credit provided for in this paragraph if such employer does not pay for all or any part of health insurance coverage for other employees. Credit shall not be allowed during a year if the net employment increase falls below the number required in such tier. ~~In any year in which the net employment increase falls below the number required in such tier, the taxpayer shall forfeit the right to the credit claimed for that taxable year. For the year that the net employment increase falls below the number required in such tier, a taxpayer that forfeits such right is therefore liable for all past taxes imposed by this article for that taxable year and all past payments under Code Section 48-7-103 for that taxable year that were foregone by the state as a result of the credits provided by this Code section; provided, however, that Code Section 48-2-40 shall not apply to any such forfeiture.~~ The state revenue commissioner shall adjust the credit allowed each year for net new employment fluctuations above the minimum level of the number required in such tier.

The expense of other public education shall be provided for in such manner and in such amount as may be provided by law."

SECTION 2.

Article VIII, Section V of the Constitution is amended by revising Paragraph I as follows:

"Paragraph I. ***School systems continued; consolidation of school systems authorized; new independent school systems prohibited.*** Authority is granted to county and area boards of education to establish and maintain public schools within their limits; provided, however, that the authority provided for in this paragraph shall not diminish any authority of the General Assembly otherwise granted under this article, including the authority to establish special schools as provided for in Article VIII, Section V, Paragraph VII. Existing county and independent school systems shall be continued, except that the General Assembly may provide by law for the consolidation of two or more county school systems, independent school systems, portions thereof, or any combination thereof into a single county or area school system under the control and management of a county or area board of education, under such terms and conditions as the General Assembly may prescribe; but no such consolidation shall become effective until approved by a majority of the qualified voters voting thereon in each separate school system proposed to be consolidated. No independent school system shall hereafter be established."

Any special schools shall be operated in conformity with regulations of the State Board of Education pursuant to provisions of law. Special schools may include state charter schools; provided, however, that special schools shall only be public schools. A state charter school under this section shall mean a public school that operates under the terms of a charter between the State Board of Education and a charter petitioner; provided, however, that such state charter schools shall not include private, sectarian, religious, or for profit schools or private educational institutions; provided, further, that this Paragraph shall not be construed to prohibit a local board of education from establishing a local charter school pursuant to Article VIII, Section V, Paragraph I. The state is authorized to expend state funds for the support and maintenance of special schools in such amount and manner as may be provided by law; provided, however, no deduction shall be made to any state funding which a local school system is otherwise authorized to receive pursuant to general law as a direct result or consequence of the enrollment in a state charter school of a specific student or students who reside within the geographic boundaries of the local school system.

(b) Nothing contained herein shall be construed to affect the authority of local boards of education or of the state to support and maintain special schools created prior to June 30, 1983."

The following communication was received by the Secretary:

The following Minority Report on HB 954 was filed with the Secretary:

Senate Democratic Caucus Minority Report

Meeting of the Health and Human Services Committee March 19, 2012

As a member of the Health and Human Services Committee, pursuant to Senate Rule 2-6.1 (a), we, Senators Steve Henson, Lester Jackson, Nan Orrock, Miriam Paris, and Horacena Tate, submit this Minority Report on behalf of the Senate Democratic Caucus.

XX. Parliamentary Concerns during Committee Hearing

Parliamentary procedures were not properly followed during the Health and Human Services Committee hearing on HB 954 on March 19, 2012. Democratic members of the committee offered five amendments to HB 954, the first of which was defeated by a very narrow margin following a roll-call vote (six votes were cast in favor of the amendment; seven votes were cast in opposition). While two subsequent voice votes

on other amendments also sounded to be close, requests of the Chair for additional roll-call votes were ignored.

During voting on the bill, Senator Tommie Williams was allowed to ask a question of a non-committee member, Representative Doug McKillip. When committee member Senator Steve Henson wanted to ask a question of a non-member physician who had testified before the committee during this hearing, he was arbitrarily refused that opportunity.

Lastly, two Democrats on the committee – Senators Lester Jackson and Nan Orrock – made motions to table HB 954 prior to the vote on the bill itself. These motions should have taken precedence over the vote on the bill, but the committee chair refused to hear these motions. Requests for reconsideration were ignored, with the committee chair claiming that since the committee had heard testimony on the bill there would be a vote on the bill.

XXI. HB 954

HB 954 would ban most abortions after 20 weeks, even for high-risk pregnancies, or in the case of rape or incest. SB 954 would impose criminal sanctions, including imprisonment, on physicians performing such abortions.

XXII. Unconstitutional

The U. S. Constitution prohibits a state from enacting a law that bans abortion prior to the point in pregnancy when a fetus is viable--that is, has a realistic potential for long-term survival outside of the uterus.¹ Even if a state wishes to prohibit abortion past the point of viability, there must be an exception provided for when abortion is necessary to preserve the life or health of the woman.² The Supreme Court has explicitly stated that mental health is a facet of health in this context, and has consistently rejected overly narrow health exceptions.³

XXIII. Dangerous for Women

Even if HB 954 were to be considered a post-viability abortion ban, it would still be inappropriate because it does not contain adequate exceptions for women's health.

- **Physical Health Concerns**

Medically necessary abortions past the arbitrary line of 20 weeks would only be allowed if the woman's life was threatened by letting the pregnancy continue, or there would be other irreversible physical impairment of a major bodily function. This

physical health exception is far too narrow. Women may need abortions for many health reasons which would not certainly entail irreversible physical impairment, such as receiving necessary treatment for high blood pressure or cancer.

- **Emotional Health Concerns**

Forcing a woman to deliver a stillborn baby or baby that will otherwise not survive outside of the womb is cruel to the woman and is of no benefit whatsoever to a fetus. Also, not allowing an exception in the case of rape or incest may leave lasting emotional scars on a woman, which may not be considered even if that woman may take her own life due to these scars.

XXIV. Bad for Georgia Doctors

By criminalizing abortions past the arbitrary 20-week line, HB 954 may dissuade OB/GYNs from taking on high-risk pregnancies. Doctors who fail to provide a probable gestational age for a fetus during an abortion procedure also face one to ten years imprisonment. These criminal sanctions, clearly meant as deterrents to performing any abortion procedures, will also damage relationships between women and their doctors by disallowing doctors from considering their patients' wellbeing if the pregnancy is continued, even if continuing the pregnancy would result in the patient committing suicide. Also, the reporting and public disclosure requirements would subject doctors to not only to another unnecessary layer of bureaucracy, but unwelcome scrutiny from political extremists. It is not our role to legislate the practice of medicine, nor is it right to drive a wedge between doctors and patients.

Respectfully Submitted,

/s/ Senator Steve Henson, Democratic Leader

/s/ Senator Lester Jackson

/s/ Senator Nan Orrock

/s/ Senator Miriam Paris

/s/ Senator Horacena Tate

"(a)(1) There is created the board of commissioners of Bibb County to be elected as provided in this section. For the purpose of electing members of the board, Bibb County is divided into four commissioner districts. The separate numeric designations in a district description which are underneath a VTD heading shall mean and describe individual Blocks within a VTD as provided in the report of the Bureau of the Census for the United States decennial census of 2010 for the State of Georgia; and

(B) Except as otherwise provided in the description of any district, whenever the description of any district refers to a named city, it shall mean the geographical boundaries of that city as shown on the census maps for the United States decennial census of 2010 for the State of Georgia.

(3) Any part of Bibb County which is not included in any district described in paragraph (1) of subsection (a) of this section shall be included within that district contiguous to such part which contains the least population according to the United States decennial census of 2010 for the State of Georgia.

A BILL TO BE ENTITLED
AN ACT

To provide for the restructuring of the governments of the City of Macon, the City of Payne City, and Bibb County; to create and incorporate a new political body corporate under the name Macon-Bibb County; to provide for the status, boundaries, and powers of the restructured government; to provide for the form, administration, and affairs of the restructured government; to provide for officers and employees, elections, courts, authorities, taxation, and finance; to provide for related matters; to provide for severability; to provide for a referendum; to provide for effective dates; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

(a) The governmental and corporate powers, duties, and functions now vested in the City of Macon, a municipal corporation created by an Act of the General Assembly, approved March 23, 1977 (Ga. L. 1977, p. 3776), as amended, are restructured with the governmental and corporate powers, duties, and functions of the County of Bibb and the City of Payne City, such restructuring of the governments of the City of Macon, the City of Payne City, and the County of Bibb being pursuant to the constitutional power granted by Article IX, Section III, Paragraph II of the Constitution of Georgia, as amended. Said restructuring shall result in the establishment of a single county-wide government with powers and jurisdiction throughout the territorial limits of Bibb County, which single government shall supersede and replace the governments of the City of Macon, the City of Payne City, and the County of Bibb, and, to the extent provided in this charter, shall also supersede and replace any public authorities and special service districts located and operating within Bibb County. Said county-wide government shall be a new political entity, a body politic and corporate, and a political subdivision of the State of Georgia, to be known as "Macon-Bibb County" (in this charter at times called "the restructured government"), having all of the governmental and corporate powers, duties, and functions heretofore held by and vested in the City of Macon, the City of Payne City, and Bibb County, and also the powers, duties, and functions provided in this charter. The restructured government shall be a public corporation; shall have perpetual existence; shall, without the necessity or formality of a deed, bill of sale, or other instrument of transfer, own, possess, and hold all properties of whatsoever kind or nature, assets, contracts, franchises, things, rights, privileges, immunities, and real and personal property theretofore owned, possessed, enjoyed, or held by the City of Macon, the City of Payne City, and the County of Bibb; by the name of Macon-Bibb County shall be able to contract and be contracted with, sue and be sued as provided by this charter, plead and be impleaded in all courts of this state, and do all other acts relating to its corporate capacity; and shall be able in law and equity to purchase, have and hold, receive, enjoy, accept, possess, and retain for the use and benefit of said Macon-Bibb County, in perpetuity or for any term of years, any estate or estates, real or personal, lands, tenements, or hereditaments of whatsoever kind or nature inside or outside the territorial limits of the restructured government, as may be devised, bequeathed, sold, or by any manner conveyed or dedicated to or otherwise acquired by the restructured government and to use, manage, improve, sell and convey, rent, or lease same; and to have and use a common seal. From and after the effective date of this charter, the political subdivision known as Bibb County, Georgia, and the municipal corporations known as the City of Macon and the City of Payne City shall be merged into the said new political entity created in this charter.

(b) The territory embraced in the restructured government shall be the total area of Bibb County, as the same may be now or hereafter fixed and established by law. Any portion of the City of Macon as it exists on December 31, 2013, which extends in to any other

county shall not be included in the territory of the restructured government and shall on January 1, 2014, become unincorporated land of the county in which it is located.

SECTION 2.

(a) The restructured government shall have and be vested with, to the same extent as if repeated in this charter, all rights, powers, duties, privileges, and authority that the City of Macon, the City of Payne City, or Bibb County, or all collectively, have under the Constitution and general and special laws of Georgia at the time of the adoption of this charter, except as expressly modified in this charter.

(b) In addition to the foregoing, the restructured government shall have all rights, powers, duties, privileges, and authority conferred or enlarged by this charter, and such other rights, powers, duties, privileges, and authority as may be necessary and proper for carrying the same into execution, and also all rights, powers, duties, privileges, and authority, whether express or implied, that may now be vested in or hereafter granted to counties or municipal corporations, or both, by the Constitution and laws of this state, including the powers vested in the restructured government by this charter.

(c) The restructured government, in addition to the rights, duties, powers, privileges, and authority expressly conferred upon it by this charter, shall have the right, duty, power, privilege, and authority to exercise and enjoy all other powers, duties, functions, rights, privileges, and immunities necessary and proper to promote or protect the safety, health, peace, security, and general welfare of said government and its inhabitants and to exercise all implied powers necessary to carry into execution all powers granted in this charter as fully and completely as if such powers were fully enumerated in this charter and to do and perform all of the acts pertaining to its local affairs, property, and government that are necessary or proper in the legitimate exercise of its corporate powers and governmental duties and functions.

(d) No enumeration of any right, power, privilege, or authority hereinafter made shall be construed as limiting or abolishing any right, power, privilege, or authority set forth in this charter.

(e) No repeal of any law under which the restructured government derives any right, power, privilege, or authority, except by amendment of this charter as provided in this charter, shall be construed as limiting or abolishing any such right, power, privilege, or authority set forth in this charter.

(f) The general laws of the State of Georgia of a criminal nature shall be applicable to and within the limits of the restructured government. General laws of local application through classification by population, not in conflict with this charter:

(1) Which on the effective date of this charter apply to the City of Macon or Bibb County shall be applicable to the restructured government; and

(2) Which apply to the restructured government as either a city or a county at the time of their enactment or thereafter shall be effective, but those which did not apply to the City of Macon or Bibb County or the restructured government at the time of their enactment shall not become applicable to the restructured government except through the adoption of a resolution to that effect by the commission.

(g) Local Acts of the State of Georgia which apply specifically to Bibb County, the City of Payne City, or the City of Macon, or all collectively, shall be applicable to the restructured government.

(h) In construing the applicability of provisions of the Constitution and the general laws of Georgia which apply in general terms to either counties or municipalities, or both, and local Acts of the General Assembly that apply specifically to Bibb County, the City of Payne City, or the City of Macon, or all collectively, the following terms as used in such laws shall be construed to include the restructured government as follows:

(1) "City," "town," "municipal corporation," or "municipality" shall be construed to include Macon-Bibb County;

(2) "County" shall be construed to include Macon-Bibb County;

(3) "Commissioners of roads and revenues" and "board of county commissioners" shall be construed to include the commission of Macon-Bibb County;

(4) "Council," "mayor and council," "aldermen," and "board of aldermen" shall be construed to include the commission of Macon-Bibb County, Georgia; and

(5) Any other terms and provisions as used in such Acts to refer specifically to Bibb County or the City of Macon, or both, and the officers, employees, departments, and agencies thereof shall be construed to mean Macon-Bibb County and its officers, employees, departments, and agencies.

(i) In construing the applicability of laws in force to the restructured government, the following order shall prevail:

(1) The Constitution of the State of Georgia;

(2) The general laws of uniform application now in force or hereafter enacted by the General Assembly, as distinguished from general laws of local application through classification by population, applicable to municipal corporations or counties, or both;

(3) The general laws of local application through classification by population as and to the extent provided in subsection (a) of this section;

(4) Special laws applicable to Bibb County, not in conflict with this charter;

(5) Special laws applicable to the City of Macon, not in conflict with this charter;

(6) Special laws applicable to the City of Payne City, not in conflict with this charter;

(7) This charter and all ordinances and resolutions passed pursuant thereto; and

(8) Existing ordinances and resolutions of the former City of Macon and City of Payne City and existing ordinances and resolutions of the former County of Bibb not in conflict with this charter.

(j) The tort and nuisance liability of the restructured government shall follow the law and rules of tort liability applicable to counties in Georgia.

(k) For purposes of all applicable laws, the restructured government shall constitute a municipality and a county, or both. Except as otherwise provided by this charter, if a law applicable to municipalities and the same or another law applicable to counties are in conflict, the law applicable to municipalities shall prevail; provided, however, that the redistricting of commission districts shall be accomplished solely by local law.

(l) The restructured government shall have the power and authority to participate in, cooperate in, and take all necessary action with respect to any and all projects, programs,

and undertakings of any nature authorized by any statute, rule, or regulation of the United States, the State of Georgia, or any federal or state agency or instrumentality, including, but not limited to, community development, highways, aviation, aviation terminals, airports, airport facilities, municipal area or regional development, sewer and sewage disposal, public housing, housing for the aged, and transportation or mass transit or any phase thereof; to borrow money and issue promissory notes, general obligation bonds, or revenue bonds, or a combination thereof, for any such purposes in accordance with the provisions of this charter; and to execute mortgages or deeds of trust in favor of any federal agency, secured by property of which the restructured government is the legal or beneficial or equitable owner, or in favor of any private agency where the loan is guaranteed by a federal agency.

SECTION 3.

(a) Prior to the effective date of this charter, all powers vested in Bibb County, the City of Macon, or the City of Payne City, or any of their respective officers, agents, or agencies shall remain in full force and effect. Upon such effective date, the board of commissioners of Bibb County, the mayor and council of the City of Macon, the mayor and council of the City of Payne City, and the offices of all members thereof shall stand abolished, and all emoluments appertaining thereto shall cease. Thereupon, the governments of Bibb County, the City of Macon, and the City of Payne City shall terminate as such separate political entities and be merged into the government created by this charter.

(b) When an agency of the City of Macon, the City of Payne City, or Bibb County is abolished or restructured by this charter, all books, papers, maps, charts, plans, records, other equipment, and personal property in possession of the same shall be delivered to the agency to which its rights, powers, duties, and obligations are transferred.

(c) Notwithstanding any other provision of this charter, any officer performing duties under the government of the City of Macon, the City of Payne City, or Bibb County may continue to perform the duties thereof until a successor, whether under the same title of office or another, shall be elected or appointed and qualified to perform the duties, it being the intention of this charter that no duty or service shall lapse or be abandoned because of lack of an officer to perform same.

SECTION 4.

(a) All contracts, orders, leases, bonds, and other obligations or instruments entered into by the City of Macon, the City of Payne City, or Bibb County or for its benefit prior to the effective date of this charter shall continue in effect according to the terms thereof as obligations and rights of Macon-Bibb County.

(b) No action or proceeding of any nature, whether civil or criminal, judicial or administrative, or otherwise, pending on the effective date of this charter by or against the City of Macon or its departments and agencies, the City of Payne City or its departments and agencies, or Bibb County or its departments or agencies shall be abated or otherwise affected by the adoption of this charter.

(c) The departmental organization of the cities existing immediately prior to adoption of this charter shall continue in effect upon the effective date of this charter until such organization is changed or reorganized as provided by ordinance of the commission and administrative regulations consistent therewith.

(d) The provisions of this charter notwithstanding, the annual compensation of the mayor and councilmembers of the City of Macon and the City of Payne City for the remainder of their present terms of office shall be the same annual compensation as such officers received in the calendar year immediately preceding the date of adoption of this charter.

SECTION 5.

The governing authority of Macon-Bibb County shall consist of a commission of said county composed of a mayor and nine commissioners. Said board is designated as the Macon-Bibb County Commission, referred to in this charter as the "commission." The members of said commission are designated and referred to in this charter as "commissioners." The commission shall exercise and be subject to all of the rights, powers, duties, and obligations imposed by this charter or previously applicable to the governing authorities of the City of Macon, the City of Payne City, and Bibb County and to any general laws, local laws, or constitutional provisions applicable or effective within the former City of Macon, City of Payne City, and Bibb County. The commission shall constitute a county as well as a municipality for the purpose of the application of the general laws and Constitution of this state. The commission may exercise the powers vested in the governing authority of the municipality and municipalities generally as well as the powers vested in the former governing authority of the county and counties generally.

SECTION 6.

The governing authority shall exercise the jurisdiction, powers, and authorities vested in such body by this charter and perform and discharge the duties, obligations, and responsibilities imposed upon it by law, either directly or through such officers, agents, and employees as it may from time to time ordain, constitute, and appoint in addition to those created and provided for in this charter; and the governing authority shall, except as otherwise provided in this charter, prescribe by ordinances or resolutions the manners and methods in which such jurisdiction, powers, authorities, duties, obligations, and responsibilities shall be exercised, performed, and discharged, and the respective officers, agents, and employees by whom the several portions thereof shall be exercised, performed, and discharged.

SECTION 7.

On the effective date of this charter, the operations and employees of the Municipal Court of the City of Macon shall continue its operations without interruption resulting from the adoption of this charter. The employees of such court shall become employees of the restructured government of Macon-Bibb County. The court shall be known as the Municipal Court of Macon-Bibb County. The judge of the Municipal Court of the City

of Macon shall be authorized to serve as the judge of said court. Vacancies in the office of judge of the Municipal Court of Macon-Bibb County shall be filled by appointment of the mayor. Such court shall have jurisdiction as provided by law for municipal courts for all covered offenses and all code and ordinance violations occurring in Macon-Bibb County.

SECTION 8.

Except as otherwise provided in this charter, the duties of the sheriff, the tax commissioner, the coroner, and the clerk of the superior court shall remain as such duties are presently imposed by law for such respective officers as county officers; provided, however, that such duties may be expanded and enlarged by the governing authority to include like duties and responsibilities in connection with the affairs of the restructured government. The compensation paid to any such officer shall be fixed as heretofore provided by law and may not be reduced during his or her term of office below the amount of such compensation as fixed at the commencement of such term, nor shall his or her compensation during his or her term of office in effect upon the effective date of this charter be reduced below the salary then being paid such officer. Such compensation as so fixed shall be the sole remuneration to such officers for their services and any and all other compensation for such services to Macon-Bibb County, the State of Georgia, or any agency thereof, including salaries, fees, commissions, fines, or forfeitures received from any source whatsoever, shall be the property of Macon-Bibb County and paid into its treasury.

SECTION 9.

(a) The territory of the restructured government shall consist of nine election districts to be designated as Commission Districts 1 through 9 and the boundaries of the initial districts shall be as described in the districting plan attached to and made a part of this charter and further identified as 'Plan: bibbcon12-hd139p2r-rev2 Plan Type: Local Administrator: Bibb Co. User: Gina'.

(b)(1) When used in such attachment, the term 'VTD' (voting tabulation district) shall mean and describe the same geographical boundaries as provided in the report of the Bureau of the Census for the United States decennial census of 2010 for the State of Georgia.

(2) The separate numeric designations in a district description which are underneath a VTD heading shall mean and describe individual Blocks within a VTD as provided in the report of the Bureau of the Census for the United States decennial census of 2010 for the State of Georgia. Any part of Macon-Bibb County which is not included in any such district described in that attachment shall be included within that district contiguous to such part which contains the least population according to the United States decennial census of 2010 for the State of Georgia.

(3) Any part of Macon-Bibb County which is described in that attachment as being in a particular district shall nevertheless not be included within such district if such part is not contiguous to such district. Such noncontiguous part shall instead be included

within that district contiguous to such part which contains the least population according to the United States decennial census of 2010 for the State of Georgia.

(4) Except as otherwise provided in the description of any election district, whenever the description of such district refers to a named city, it shall mean the geographical boundaries of that city as shown on the census map for the United States decennial census of 2010 for the State of Georgia.

(c) The commission shall consist of nine members. The initial commissioners shall be elected at an election held on the Tuesday next following the first Monday in November, 2013, for terms of three years and until their successors are duly elected and qualified. A primary shall be conducted in accordance with law prior to such election. Their successors shall be elected for terms of four years. The members shall be elected from the nine districts specified in subsection (a) of this section by a majority of electors voting in such election from such district. All members of the commission shall be full voting members of the commission. The mayor shall be the presiding officer of the commission but shall not be a voting member of the commission; provided, however, that the mayor may cast a vote on any matter before the commission to break a tie. The mayor may propose ordinances in the same manner as a commissioner.

(d) No person shall be eligible to serve as a commissioner unless he or she:

(1) Has been a resident of Macon-Bibb County for a period of one year immediately prior to the date of the election;

(2) Continues to reside within the commission district from which elected during his or her term of office;

(3) Is a registered and qualified elector of Macon-Bibb County; and

(4) Meets the qualification standards required for members of the Georgia House of Representatives as are now or may in the future be prescribed by the Georgia Constitution.

(e)(1) Each commissioner shall be paid an annual salary of \$15,000.00. Future changes in the salary and expenses of the commissioners shall be effected in accordance with the provisions of Code Section 36-35-4 of the O.C.G.A. and in accordance with the procedures of Code Section 36-5-24 of the O.C.G.A.; provided, however, that any increase in the salary or compensation of commissioners shall equal no more than one-half of the average percentage salary increase granted by such governing authority to the restructured government employees over the preceding three years.

(2) Any action to increase the salary of commissioners shall not become effective until the date of commencement of the terms of those commissioners elected at the next regular election following such action.

(3) In addition to salary and subject to appropriations, commissioners shall be reimbursed for all actual expenses reasonably and necessarily incurred in carrying out the duties and responsibilities of the restructured government as provided by rule or regulation.

(f) The commission shall elect from among its members in January of each year a member to serve as mayor pro tempore, who shall preside over meetings of the

commission in the mayor's absence.

(g) For purposes of eligibility for employee benefits, the commissioners shall be deemed to be part-time employees.

SECTION 10.

(a) Those members of the board of commissioners of Bibb County elected to take office in January, 2013, and the mayor and those members of the commissions of the City of Macon and the City of Payne City who are serving as such on the second Monday of January, 2013, and any persons filling vacancies in such offices shall continue to serve as such members until the second Monday of January, 2014, and then all such offices shall be abolished and all terms of office shall expire. After the second Monday of January, 2013, no further elections shall be conducted to elect members of the board of commissioners of Bibb County and the mayor and members of the commission of the City of Macon and the City of Payne City and all elections for the mayor and the members of the commission shall be conducted pursuant to this charter.

(b) The initial mayor shall be elected in an election to be held on the Tuesday after the first Monday in November, 2013. A primary shall be conducted in accordance with law prior to such election. Candidates shall be nominated and elected by majority vote as provided in this section. The person elected as mayor at such election shall take office on the second Tuesday of January, 2014, for an initial term of three years and until a successor is elected is and qualified. Thereafter, each successor to the office of mayor shall be elected at the general election to be held on the Tuesday following the first Monday in November immediately preceding the expiration of a term of office, shall take office on the second Monday of January immediately following the date of the election, and shall have a term of office of four years and until a successor is elected and qualified. The mayor shall be elected by a majority vote on a county-wide basis by the electors of the entire county.

(c) To be eligible for election to the office of mayor, a person at the time of election shall:

- (1) Have attained the age of 27 years;
- (2) Have resided in Macon-Bibb County for at least one year;
- (3) Be a qualified elector of the restructured government; and
- (4) Meet any other requirements as may be established by general law.

(d) Except as otherwise provided in this section, all primaries and elections for the mayor and members of the commission shall be in accordance with the provisions of Chapter 2 of Title 21 of the O.C.G.A., known as the "Georgia Election Code," as now or hereafter amended. Any person who is a registered voter of Macon-Bibb County shall be eligible to vote in any election under this section.

(e) The mayor shall be limited to serving a total of no more than two four-year terms. Each commission member shall be limited to serving a total of three four-year terms. An initial term of less than four years shall nevertheless be deemed a full term for purposes of this subsection. Prior service as an officer of the City of Macon or Bibb County shall not be computed for such limitations.

SECTION 11.

(a) The commission shall provide by ordinance for the execution of all powers, functions, rights, privileges, duties, and immunities of the restructured government and its officers, agencies, or employees as provided by this charter or general state law.

(b) Without limiting the general legislative powers of the commission, it is empowered to:

(1) Adopt all annual appropriations for the restructured government by ordinance and any supplements or amendments the commission deems necessary from time to time during the fiscal year;

(2) Adopt, by ordinance, a fiscal year for the restructured government and each of its departments, boards, or other agencies and any other ordinances for the regulation and management of the financial affairs of the restructured government it deems necessary;

(3) Adopt, by ordinance, provisions for governmental reorganization including the establishment, alteration, or abolishment of any and all nonelective offices, positions, departments, and agencies of the restructured government unless otherwise established or provided by this charter;

(6) Establish committees of its members for legislative, investigative, and study purposes without the need for approval of the mayor;

(7) Establish and appoint any board or commission of citizens to advise the commission as it deems necessary without the need for approval by the mayor; provided, however, that the term of such boards or commissions shall automatically expire at the end of the term of office of the commission who appointed same, if not earlier abolished by the commission;

(8) Grant franchises or make contract for, or impose taxes on public utilities and public service companies; and to prescribe the rates, fares, regulations and standards, and conditions of service applicable to the service to be provided by the franchise grantee or contractor, insofar as not in conflict with valid regulations of the Public Service Commission;

(9) Provide for the collection of residential solid waste throughout Macon-Bibb County; and

(10) Adopt any other ordinance, resolution, or amendment to this charter as is allowed or not denied now or hereafter under general state law or this charter and exercise any other power as may be provided now or hereafter under general state law, this charter, or ordinance.

SECTION 12.

The commission shall, upon the approval of the mayor and five commissioners or the approval of six commissioners, provide for an independent annual audit of all

restructured government accounts and may provide for more frequent or continuing audits as it deems necessary. Audits shall be made by a certified public accountant or firm of certified public accountants who has no personal interest, direct or indirect, in the fiscal affairs of the restructured government or any of its officers. This notice to commissioners shall not be required if all commissioners are present when the special meeting is called. This notice of any special meeting may be waived by a commissioner in writing before or after such a meeting, and attendance at the meeting shall also constitute a waiver of notice on any business transacted in the commissioner's presence. It shall become effective upon adoption and approval or at any later time as it may specify. Every emergency

An emergency ordinance may also be repealed by adoption of a repealing ordinance in the same manner specified in this section for adoption of emergency ordinances.

(2) Such emergency meetings shall be open to the public to the extent required by law and notice to the public of emergency meetings shall be made as fully as is reasonably possible in accordance with Code Section 50-14-1 of the O.C.G.A. or such other applicable laws as are or may hereafter be enacted.

The following committee reports were read by the Secretary:

Mr. President:

The Education and Youth Committee has had under consideration the following legislation and has instructed me to report the same back to the Senate with the following recommendation:

HB 797 Do Pass by substitute

Respectfully submitted,
Senator Millar of the 40th District, Chairman

The following Minority Report on HB 797 was filed with the Secretary:

**Senate Democratic Caucus
Minority Report**

**Meeting of the Education and Youth Committee
March 20, 2012**

As members of the Education and Youth Committee, pursuant to Senate Rule 2-6.1 (a), we, Senators Vincent Fort, Horacena Tate, Freddie Powell Sims, and Donzella James, submit this Minority Report on behalf of the Senate Democratic Caucus.

XXV. No Opportunity for Public to Review Bill

We oppose the passage of House Bill 797 because it was passed out of committee in a manner inconsistent with the democratic principles of this body. There was no opportunity for the public to view the bill and comment. The version of the bill

considered by the committee on March 20, 2012, was presented to committee members at the start of that committee meeting. The bill's author, Representative Jan Jones, was given time to enumerate the many changes made to this version of the bill, and members of the committee were given the opportunity to ask questions. However, given that most members were reviewing this version of the bill for the very first time, the questions were somewhat limited. While public testimony had been allowed at a prior subcommittee meeting on HB 797, no public comment was allowed during the meeting of the full committee on March 20, 2012. This version was recommended do pass by the committee following a 6-4 vote of the committee members present, as well as significant testimony from committee members regarding the flaws still present in the bill.

- **HB 797**

This legislation re-establishes a State Charter School Commission – the entity that was found to be unconstitutional by the Georgia Supreme Court in May 2011 – as a state-level authorizing entity housed in the Department of Education. This commission will be made up of political appointees by the Governor, the President of the Senate, and the Speaker of the House, and will have the authority to create state charter schools. In addition to enumerating the powers, authorities, and responsibilities of this commission, HB 797 outlines the procedure by which schools may be chartered by the state commission, as well as how these schools will be funded.

- **Funding Concerns**

The funding mechanism created in this bill is fundamentally flawed. It gives commission charter schools the state equivalent of the QBE formula, plus any additional “earned” funds for additional services provided, such as nutrition and transportation. However, this formula does not deduct an amount equal to the local five mill share and does not require that commission charter schools raise any money on their own. Local school systems raise money for traditional public schools through local taxes. The result is that under HB 797, commission charter schools will receive more money per FTE than traditional public schools. This funding formula is a departure from the original funding formula provided in HB 881, the charter school legislation passed previously by the Georgia General Assembly.

- **Local Control**

Under the current version of HB 797, the commission can only act on a petition if a local board denies the petition first. As a result, the commission will only be reviewing petitions that have been first found defective by the local board of education. When a petition is submitted to a local board of education, this bill requires that the local board take action within 60 days. If the local board neither approves nor denies the charter petition within 60 days, the inaction is automatically considered a denial of the petition.

This result has the effect of shutting local school boards out of the process. Committee members voiced concerns that this amount of time is inadequate for the local board to be involved in the vetting of these petitions and for potential issues in the petition to be worked out so that the school can be chartered successfully at the local level where appropriate.

This commission will have the authority to create state charter schools. These schools will be chartered at the state level, which means that local taxpayers would have no choice in the state decision but would be left with the consequences. These schools will be established without the advice or approval of local school boards, and local school boards will be entirely left out of the decision-making process with respect to individual charters.

- **Lack of Ethics Provisions**

While the version of HB 797 recommended by the Education and Youth Committee does include some provisions related to conflicts of interest, these provisions fail to go far enough to protect against self-dealing and corruption, especially with respect to conflicts of interest for the commission and the schools that it charters, and the governing boards of individual state commission charter schools.

Under HB 797, gifts, political contributions, etc. are only barred in cases where they are given to influence the discharge of duties by that member. By not including more substantive protections, HB 797 makes all but the most blatant quid pro quo corruption possible. HB 797 fails to extend conflict of interest prohibitions to members of the appointed commission and individual schools they are chartering, or the management companies involved. Furthermore, HB 797 lacks any requirements of financial disclosure for members of the governing boards of individual state commission charter schools. Governing board members are not elected and are not state appointed officials, and thus are subject to less public scrutiny.

Respectfully Submitted,

SUBJECT: State Auditor's Certification
House Bill 183 (LC 21 0920)

Dear Representative Maxwell:

This bill would amend provisions relating to membership in the Georgia Legislative Retirement System. Specifically, this bill would require all persons who first or again become a member of the General Assembly on or after July 1, 2012 to become a member of the Georgia Legislative Retirement System. Currently, members of the General Assembly may elect not to be a member of this System. Additionally, under the provisions of this bill, any person who is a member of the General Assembly, and previously elected not to be a member of the System, may make an irrevocable election to join this System. Such persons would be authorized to obtain creditable service for prior service as a member of the General Assembly, provided they pay the full actuarial cost of the service.

This bill would also amend provisions relating to the termination of retirement benefits upon return to service for retired members of Georgia Legislative Retirement System. Currently, retired members may continue to receive retirement benefits if they return to work for the State, provided they do not exceed 1,040 work hours annually. If this legislation is enacted, any 'public employer' would be required to notify the Board of Trustees if they hire a retired plan member. Such notification must be done within 30 days of the acceptance for employment, and must indicate the number of work hours the retiree expects to work on an annual basis. If the Board of Trustees is not properly notified, either the retired member or the employer will be held liable for any overpayment of benefits made to the retired member.

This is to certify that this bill is a fiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

/s/ Russell W. Hinton

Honorable Howard Maxwell, Chairman
House Retirement Committee

SUBJECT: Actuarial Investigation
House Bill 183 (LC 21 0920)
Georgia Legislative Retirement System

Dear Chairman Maxwell:

This bill would amend provisions relating to membership in the Georgia Legislative Retirement System. Specifically, this bill would require all persons who first or again become a member of the General Assembly on or after July 1, 2012 to become a member of the Legislative Retirement System. Additionally, any person who is currently a member of the General Assembly, and previously elected not to be a member of the System, may make an irrevocable election to join the System and obtain creditable service for prior service as a member of the General Assembly, provided they pay full actuarial cost of such prior service. Finally, this bill would require any "public employer" to notify the Board of Trustees within 30 days of hiring a retired member of the Legislative Retirement System and to communicate to the Board of Trustees the number of hours the retiree expects to work on an annual basis. If the Board of Trustees

is not properly notified, either the retired member or the employer will be held liable for any overpayment of benefits made to the retired member.

This bill would not result in any additional cost to the Georgia Legislative Retirement System since the member would be required to pay the full actuarial cost of any creditable service for which they are granted. There would be no increase in the employer contribution rate or the unfunded actuarial accrued liability of the Georgia Legislative Retirement System as a result of this legislation.

The following is a summary of the relevant findings of the actuarial investigation for this bill pursuant to a request by the House Retirement Committee. The investigation was to be conducted according to O.C.G.A. 47-20-36, which outlines the factors to be considered in an actuarial investigation. The figures are based on employee data and the most recent actuarial assumptions and methods.

(1)	The amount of the unfunded actuarial accrued liability which will result from the bill.	\$ <u>0</u>
(2)	The amount of the annual amortization of the unfunded actuarial accrued liability which will result from the bill.	\$ <u>0</u>
(3)	The number of years that the unfunded actuarial accrued liability created by this bill would be amortized.	<u>N/A</u>
(4)	The amount of the annual normal cost which will result from the bill.	\$ <u>0</u>
(5)	The employer contribution rate currently in effect.	\$ <u>0</u>
(6)	The employer contribution rate recommended (in conformity with minimum funding standards specified in Code Section 47-20-10).	\$ <u>0</u>
(7)	The total dollar amount of the increase in the annual employer contribution which is necessary to maintain the retirement system in an actuarially sound condition.	\$ <u>0</u>

It should be noted that any subsequent changes in the retirement bill will invalidate the actuarial investigation and the findings included therein.

Respectfully,

Dear Representative Maxwell:

This substitute bill would amend provisions relating to membership in the Georgia Legislative Retirement System. Specifically, this bill would allow each person who first or again becomes a member of the General Assembly on or after July 1, 2012 to make an irrevocable election at the beginning of each term of office to become a member of the Georgia Legislative Retirement System. This election must be made within two months of taking office as a member of the General Assembly. Any member of the System who is elected to a consecutive term of office shall be deemed to have had continuous membership service from term to term. Additionally, under the provisions of this bill, any person who is a member of the General Assembly serving on July 1, 2012, and previously elected not to be a member of the System, may make an irrevocable election to join this System. Such persons would be authorized to obtain creditable service for prior service as a member of the General Assembly, provided they pay the full actuarial cost of the service.

This bill would also amend provisions relating to the termination of retirement benefits upon return to service for retired members of Georgia Legislative Retirement System. Currently, retired members may continue to receive retirement benefits if they return to work for the State, provided they do not exceed 1,040 work hours annually. If this

legislation is enacted, any ‘public employer’ would be required to notify the Board of Trustees if they hire a retired plan member. Such notification must be done within 30 days of the acceptance for employment, and must indicate the number of work hours the retiree expects to work on an annual basis. If the Board of Trustees is not properly notified, either the retired member or the employer will be held liable for any overpayment of benefits made to the retired member.

This is to certify that the changes made in this substitute bill are nonfiscal amendments as defined in the Public Retirement Systems Standards Law. Therefore, the actuarial investigation prepared for House Bill 183 (LC 21 0920) would apply to this bill. A copy of the actuarial investigation and State Auditor’s Summary for House Bill 183 (LC 21 0920) is attached.

Respectfully,

/s/ Russell W. Hinton
State Auditor

SUBJECT: State Auditor's Certification
Substitute to House Bill 208
(LC 21 1696S)

Dear Representative Maxwell:

This substitute bill would amend provisions relating to the employment of retired teachers under the Teachers Retirement System. Currently, a retired teacher may return to full-time service as a classroom teacher, principal, superintendent, media specialist, or

counselor and continue to receive retirement benefits. The provisions allowing this, however, will be automatically repealed on June 30, 2016. This legislation would change the automatic repeal date to June 30, 2013.

This is to certify that this substitute bill is a nonfiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

/s/ Russell W. Hinton
