BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 8 of Title 34 of the Official Code of Georgia Annotated, relating to employment security, is amended by revising Code Section 34-8-43, relating to most recent employer, as follows:

"34-8-43.

(a) As used in this chapter and except as otherwise provided in subsection (b) of this Code section, the term 'most recent employer' means, for claims with benefit years that begin on or after July 1, 2015, the last employer for whom an individual worked.

~~(a)~~(b) As used in this chapter and except as otherwise provided in subsection ~~(b)~~ (a) of this Code section, the term 'most recent employer' means, for claims with benefit years that begin on or before June 30, 2015, the last liable employer for whom an individual worked and:

- (1) The individual was separated from work for a disqualifying reason;
- (2) The individual was released or separated from work under nondisqualifying conditions and earned wages of at least ten times the weekly benefit amount of the claim; or
- (3) The employer files the claim for the individual by submitting such reports as authorized by the Commissioner.

~~(b) As used in this chapter, the term 'most recent employer' means, for claims with benefit years that begin on or before December 31, 1991, the last liable employer for whom an individual worked and:~~

- ~~(1) From whom the individual was separated from work for a disqualifying reason; or~~
- ~~(2) From whom the individual was released or separated from work under nondisqualifying conditions and earned wages equal to the lesser of \$500.00 or eight times the weekly benefit amount of the claim.~~

(c) Where no employer in subsection ~~(a)~~ or (b) of this Code section meets the definition of most recent employer from the beginning of the base period to the date the claim is filed, the last liable employer for whom the individual worked shall be considered as the most recent employer for determining eligibility for benefits.

(d) Where periods of employment with the same liable employer fail, independently, to meet the definition of most recent employer in subsection (a) or (b) of this Code section, such periods of employment may be used cumulatively to determine the most recent employer and eligibility for benefits shall be determined by the reason for separation from the last employment with such employer."

SECTION 2.

Said chapter is further amended by revising Code Section 34-8-157, relating to charging regular benefits paid against the experience rating account, as follows:

"34-8-157.

~~(a) Regular benefits paid with respect to all benefit years that begin on or before December 31, 1991, shall be charged against the experience rating account of employers in the following manner:~~

~~(1) Benefits paid to an individual with respect to the individual's current benefit year shall be charged against the accounts of the individual's base period employers. Charges shall be based upon the pro rata share of wages paid to the individual during the base period. To receive relief of charges to its account, an employer shall furnish, in a timely manner, detailed and specific information as to the reason for separation from employment. If a disqualification is imposed on the claim and the employer has properly submitted its information, the account shall be relieved of charges;~~

~~(2) When the most recent employer, as that term is defined in Code Section 34-8-43, is not a base period employer, a determination shall be made with respect to potential future charges in the event a second benefit year claim is filed. If an individual files a valid claim for unemployment compensation for a second benefit year and is paid unemployment compensation, then those benefits will be charged or relieved against the experience rating account of such employer as provided in this Code section;~~

~~(3) An employer who provided timely response to the department as specified in the regulations of the department may receive relief of charges for benefits paid to an individual under any of the following circumstances:~~

~~(A) An employer subject to benefit charges offers otherwise suitable work to the individual and the job is refused solely because the individual has moved his or her place of residence too far to commute to the job location. The employer must provide timely notice to the Commissioner of the job offer as provided by regulations of the Commissioner; or~~

~~(B) The individual earned base period wages for part time employment from an employer who:~~

~~(i) Is an interested party because of the individual's loss of other employment;~~

~~(ii) Has provided base period employment and continues to provide employment to the same extent as that part time employment was provided in the base period of the individual; and~~

~~(iii) Has furnished timely information pursuant to the regulations of the Commissioner; and~~

~~(4) Notwithstanding paragraphs (1) through (3) of this subsection, any employer who has elected to make payments in lieu of contributions is not subject to relief of charges for benefits paid with respect to all benefit years that begin on or before December 31, 1991.~~

~~(b)(a) Regular benefits paid with respect to all benefit years that begin on or after January 1, 1992, but prior to July 1, 2015, shall be charged against the experience rating account or reimbursement account of employers in the following manner:~~

~~(1) Benefits paid shall be charged to the account of the most recent employer, as that term is defined in Code Section 34-8-43, including benefits paid based upon insured wages which were earned to requalify following a period of disqualification as~~

provided in Code Section 34-8-194;

(2)(A) Except as otherwise provided in paragraph (3) of this subsection, benefits charged to the account of an employer shall not exceed the amount of wages paid by such employer during the period beginning with the base period of the individual's claim and continuing through the individual's benefit year.

~~(B) In the event the provisions of subparagraph (A) of this paragraph are determined by the United States secretary of labor or by a court of competent jurisdiction at a subsequent level of appeal, such appeal to be taken at the sole discretion of the Commissioner, to be out of conformity with federal law, the provisions of subparagraph (A) of this paragraph shall be considered null and void and the provisions of this subparagraph shall control. Benefits charged to the account of an employer shall not exceed the amount of wages paid by such employer during the period beginning with the base period of the individual's claim and continuing through the individual's benefit year; provided, however, the portion of such charges for benefits paid which exceed the amount of wages paid by such employer shall be charged against the experience rating account of all base period employers in the manner provided in subsection (a) of this Code section.~~

~~(C)~~(B) Except as otherwise provided in paragraph (3) of this subsection, benefits shall not be charged to the account of an employer when an individual's overpayment is waived pursuant to Code Section 34-8-254.

~~(D)~~(C) Except as otherwise provided in paragraph (3) of this subsection, for the purposes of calculating an employer's contribution rate, an account of an employer shall not be charged for benefits paid to an individual for unemployment that is directly caused by a presidentially declared natural disaster;

(3)(A) An employer shall respond in a timely and adequate manner to a notice of a claim filing or a written request by the department for information relating to a claim for benefits as specified in the rules or regulations prescribed by the Commissioner.

(B) Any violation of subparagraph (A) of this paragraph by an employer or an officer or agent of an employer absent good cause may result in the employer's account being charged for overpayment of benefits paid due to such violation even if the determination is later reversed; provided, however, that upon the finding of three violations of subparagraph (A) of this paragraph within a calendar year resulting in an overpayment of benefits, an employer's account shall be charged for any additional overpayment and shall not be relieved of such charges unless good cause is shown; and

(4) Benefits paid to individuals shall be charged against the Unemployment Trust Fund when benefits are paid but not charged against an employer's experience rating account as provided in this Code section.

(b)(1) Regular benefits paid with respect to all benefit years that begin on or after July 1, 2015, shall be charged against the experience rating account or reimbursement account of the most recent employer as defined in subsection (a) of Code Section 34-8-43, provided that:

- (A) The most recent employer is a liable employer, as provided in Code Section 34-8-42; and
- (B)(i) The most recent employer separated the individual from work under nondisqualifying conditions, or files the claim for the individual by submitting such reports as authorized by the Commissioner; or
- (ii) The individual separated from the most recent employer under nondisqualifying conditions.
- (2) Regular benefits to be charged against the experience rating account or reimbursement account of the most recent employer pursuant to paragraph (1) of this subsection shall be charged in the following manner:
- (A) Benefits paid shall be charged to the account of the most recent employer as defined in Code Section 34-8-43, including those benefits paid based upon insured wages which were earned to requalify following a period of disqualification as provided in Code Section 34-8-194;
- (B) Except as otherwise provided in subparagraph (E) of this paragraph, benefits charged to the account of an employer shall not exceed the amount of wages paid by such employer during the period beginning with the base period of the individual's claim and continuing through the individual's benefit year;
- (C) Except as otherwise provided in subparagraph (E) of this paragraph, benefits shall not be charged to the account of an employer when an individual's overpayment is waived pursuant to Code Section 34-8-254;
- (D) Except as otherwise provided in subparagraph (E) of this paragraph, for the purposes of calculating an employer's contribution rate, an account of an employer shall not be charged for benefits paid to an individual for unemployment that is directly caused by a presidentially declared natural disaster;
- (E)(i) An employer shall respond in a timely and adequate manner to a notice of a claim filing or a written request by the department for information relating to a claim for benefits as specified in the rules or regulations prescribed by the Commissioner.
- (ii) Any violation of division (i) of this subparagraph by an employer or an officer or agent of an employer absent good cause may result in the employer's account being charged for overpayment of benefits paid due to such violation even if the determination is later reversed; provided, however, that upon the finding of three violations of division (i) of this subparagraph within a calendar year resulting in an overpayment of benefits, an employer's account shall be charged for any additional overpayment and shall not be relieved of such charges unless good cause is shown; and
- (F) Benefits paid to individuals shall be charged against the Unemployment Trust Fund when benefits are paid but not charged against an employer's experience rating account as provided in this Code section or when the employer is not a liable employer as provided in Code Section 34-8-42.
- (c)(1) Payments of extended benefits as provided in Code Section 34-8-197 shall be charged to an employer's experience rating account in the same proportion as regular

benefits are charged, except an employer shall be charged for only 50 percent of its portion of the extended benefits paid for all weeks after the first week of extended benefits; provided, however, that benefits paid that are attributable to service in the employ of any governmental entity as described in subsection (h) of Code Section 34-8-35 shall be financed in their entirety by such governmental entity which is charged as provided in this Code section.

(2) As provided by 26 U.S.C. Section 3304, only 50 percent of extended benefits paid shall be charged to the individual's employers as described in paragraph (1) of this subsection. However, if the federal government does not reimburse the 50 percent for the first week of extended benefits paid, employers shall be charged 100 percent of such first week of extended benefits paid. When employers have been determined to be relieved from charges, such payments shall be charged against the Unemployment Trust Fund in the appropriate amount.

(d) The Commissioner shall by regulation provide for the notification of each employer of charges made against its account at intervals not less frequent than semiannually. The charges in such notification shall be binding upon each employer for all purposes unless the employer files a request for review and redetermination in writing. Such request must set forth the charges to which the employer objects and the basis of the objection. The request must be made within 15 days of the prescribed notification. Upon such request being filed, the employer shall be granted an opportunity for a fair hearing. However, no employer shall have standing in any proceeding to contest the chargeability to its account of any benefit paid in accordance with a determination, redetermination, or decision pursuant to Articles 7 and 8 of this chapter, except upon the ground that the services upon which such benefits were found to be chargeable did not constitute services performed in employment for the employer and only in the event that the employer was not a party to such determination, redetermination, or decision, or to any other proceedings under this chapter in which the character of such services was determined. The employer shall be promptly notified of the Commissioner's redetermination. The redetermination shall become final unless a petition for judicial review is filed within 15 days after notice of redetermination. Such notice shall be mailed or otherwise delivered to the employer's last known address. The petition for judicial review shall be filed in the Superior Court of Fulton County or in the superior court of the county of residence of the petitioner. In any proceeding under this Code section, the findings of the Commissioner as to the facts, if supported by evidence and in the absence of fraud, shall be conclusive, and the jurisdiction of the court shall be confined to questions of law. No additional evidence shall be received by the court, but the court may order additional evidence to be taken before the Commissioner. The Commissioner may, after hearing such additional evidence, modify the determination and file such modified determination, together with a transcript of the additional record, with the court. Such proceedings shall be heard in a summary manner and shall be given precedence over all other civil cases except cases arising under Articles 7 and 8 of this chapter and Chapter 9 of this title. An appeal may be taken from the decision of the Superior Court of Fulton County or the superior court of the county of residence of

the petitioner to the Court of Appeals of Georgia in the same manner as is provided in civil cases."

Said chapter is further amended by revising Code Section 34-8-164, relating to applications for adjustment or refund, as follows:

"34-8-164.

Applications for an adjustment or a refund of contributions, payments in lieu of contributions, or interest thereon, shall be submitted no later than three years from the date such amounts were assessed. Applications must be in writing. The Commissioner shall determine what amounts, if any, were erroneously collected. Adjustments shall be made against subsequent payments. Refunds will be issued, without interest thereon, when adjustments cannot be made. At the option of the Commissioner, the Commissioner may ~~initiate~~ make any adjustments or refunds deemed appropriate for any amounts erroneously collected where no written request for a refund or an adjustment has been received, provided such amounts were assessed within the last ~~three~~ seven years. Amounts shall be refunded from the fund into which they were deposited."

(B) Good cause in connection with the individual's most recent work shall be determined by the Commissioner according to the circumstances in the case; provided, however, that the following circumstances shall be deemed to establish such good cause and the employer's account shall not be charged for any benefits paid out to an individual who leaves an employer:

~~(i) To leaving an employer to accompany a spouse who has been reassigned from one military assignment to another shall be deemed to be for good cause; provided, however, that the employer's account shall not be charged for any benefits paid out to the person who leaves to accompany a spouse reassigned from one military assignment to another.; or~~

claimant's continued employment would jeopardize the safety of the claimant or the safety of any member of the claimant's immediate family.

For purposes of this subparagraph, the term 'family violence' shall have the same meaning as in Code Section 19-13-1 and the term 'family violence shelter' shall have the same meaning as in Code Section 19-13-20.

(C) To requalify following a disqualification, an individual must secure subsequent employment for which the individual earns insured wages equal to at least ten times the weekly benefit amount of the claim and then becomes unemployed through no fault on the part of the individual.

~~(D) Notwithstanding the foregoing, in the Commissioner's determination the~~ When voluntarily leaving an employer, the burden of proof of good work-connected cause for voluntarily leaving such work in connection with the individual's most recent work shall be on the individual.

(E) Benefits shall not be denied under this paragraph, ~~however,~~ to an individual for separation from employment pursuant to a labor management contract or agreement or pursuant to an established employer plan, program, policy, layoff, or recall which permits the individual, because of lack of work, to accept a separation from employment;"

Provisions applicable to contributing employers in ~~subsection (a) of~~ Code Section 34-8-157 under which employers may not be charged do not apply to employers who make payments in lieu of contributions;"

SECTION 6.

Said chapter is further amended by revising Code Section 34-8-254, relating to overpayments, by adding a new subsection to read as follows:

"(e) Any action to recover an overpayment shall be brought by the Commissioner or an authorized representative of the Commissioner within seven years from the release date of the notice of determination and overpayment by the department."

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 12 of Title 53 of the Official Code of Georgia Annotated, relating to trusts, is amended by revising Code Section 53-12-80, relating to spendthrift provisions, as follows:

"53-12-80.

Except as otherwise provided for in Article 5A of this chapter:

~~(a)~~(1) A spendthrift provision shall only be valid if it prohibits both voluntary and involuntary transfers;

~~(b)~~(2) A term of a trust providing that the interest of a beneficiary is held subject to a spendthrift trust, or words of similar import, shall be sufficient to restrain both voluntary and involuntary transfer of the beneficiary's interest in the manner set forth in this article;

~~(c)~~(3) A beneficiary shall not transfer an interest in a trust in violation of a valid spendthrift provision, and, except as otherwise provided in this Code section, a creditor or assignee of the beneficiary shall not reach the interest or a distribution by the trustee before its receipt by the beneficiary;

~~(d)~~(4) A spendthrift provision shall not be valid as to the following claims against a beneficiary's right to a current distribution to the extent the distribution would be subject to garnishment under Article 2 of Chapter 4 of Title 18 if the distribution were disposable earnings:

~~(1)~~(A) Alimony or child support;

~~(2)~~(B) Taxes or other governmental claims;

~~(3)~~(C) Tort judgments;

~~(4)~~(D) Judgments or orders for restitution as a result of a criminal conviction of the beneficiary; or

~~(5)~~(E) Judgments for necessities.

The ability of a creditor or assignee to reach a beneficiary's interest under this ~~subsection~~ paragraph shall not apply to the extent that it would disqualify the trust as a special needs trust established pursuant to 42 U.S.C. Sections 1396p(d)(4)(A) or 1396p(d)(4)(C);

~~(e)~~(5) A provision in a trust instrument that a beneficiary's interest shall terminate or become discretionary upon an attempt by the beneficiary to transfer it, an attempt by

the beneficiary's creditors to reach it, or upon the bankruptcy or receivership of the beneficiary shall be valid except to the extent of the proportion of trust property attributable to such beneficiary's contribution-;

~~(f)~~(6) If a beneficiary is also a contributor to the trust, a spendthrift provision shall not be valid as to such beneficiary to the extent of the proportion of trust property attributable to such beneficiary's contribution. This ~~subsection~~ paragraph shall not apply to a special needs trust established pursuant to 42 U.S.C. Sections 1396p(d)(4)(A) or 1396p(d)(4)(C); and

~~(g)~~(7) Notwithstanding any other provision in this Code section, a spendthrift provision in a pension or retirement arrangement described in sections 401, 403, 404, 408, 408A, 409, 414, or 457 of the federal Internal Revenue Code of 1986 shall be valid with reference to the entire interest of the beneficiary in the income, principal, or both, even if the beneficiary is also a contributor of trust property, except where a claim is made pursuant to a qualified domestic relations order as defined in 26 U.S.C. Section 414(p)."

If a trust has more than one settlor, the amount the creditors or assignees of a particular settlor may reach shall not exceed the settlor's interest in the portion of the trust attributable to that settlor's contribution; and
- (3) After the death of a settlor, and subject to the settlor's right to direct the source from which liabilities shall be paid, the property of a trust that was revocable at the settlor's death or had become irrevocable as a result of the settlor's incapacity shall be subject to claims of the settlor's creditors to the extent the probate estate is inadequate. Payments that would not be subject to the claims of the settlor's creditors if made by way of beneficiary designation to persons other than the settlor's estate shall not be made subject to such claims by virtue of this Code section unless otherwise provided in the trust instrument."

(1) Would impair the creation, attachment, or perfection of a security interest; or

(2) Provides that the assignment, transfer, creation, attachment, or perfection of the security interest may give rise to a default, breach, right of recoupment, claim, defense, termination, right of termination, or remedy under the promissory note, health care insurance receivable, or general intangible."

In each case, such appropriation is associated with the immediately preceding program or special project name, number, and statement of program or special project purpose. The program or special project purpose is stated immediately below the program or special project name. For authorizations for general obligation debt in Section 50, the indented, bold-faced paragraphs following each Bond number are the lowest level of detail and constitute appropriations in accordance with Article VII, Section IV, Paragraph III(a)(1) of the Georgia Constitution. The caption above the Bond number, the light-faced text immediately following the Bond number before the bold-faced text, and the light-faced after the bold-faced text are information only.

Similarly, text in a group of lines that has a number less than 100 after the decimal (01 through 99) is not part of a statement of purpose but constitutes information as to how the appropriation was derived. Amounts in the columns other than the right-most column are for informational purposes only. The summary and lowest level of detail for the fund source categories "Total Agency Funds" and "Total Intra-State Governmental Transfers," are for informational purposes only. This paragraph shall not permit an agency to include within its flex the appropriations for an agency attached to it for administrative purposes.

For purposes of the appropriations for the "Medicaid: Low-Income Medicaid," "Medicaid: Aged, Blind, and Disabled," and "PeachCare" programs of the Department of Community Health, the appropriation of a particular State fund source for each program shall be the amount stated, and each such program shall also be authorized up to an additional amount of 10 percent (10%) of the amount stated. However, if the additional authority is used, the appropriation of the same State fund source for the other programs to that agency shall be reduced in the same amount, such that the stated total in program appropriations from that State fund source for the three programs shall not be exceeded. However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added.

SECTION 5-13.

Said title is further amended by revising Code Section 48-9-3, relating to an excise tax on motor fuel, as follows:

"48-9-3.

(a)(1) An excise tax is imposed at the rate of ~~7-1/2¢~~ 26¢ per gallon on distributors who sell or use motor fuel, other than diesel fuel, within this state. An excise tax is imposed at the rate of 29¢ per gallon on distributors who sell or use diesel fuel within this state. It is the intention of the General Assembly that the legal incidence of the tax be imposed upon the distributor.

(1.1)(A) Beginning on July 1, 2016, and annually thereafter, the amount of this excise tax per gallon on distributors shall be automatically adjusted on an annual basis in accordance with this paragraph.

(B) Using 2014 as a base year, the department shall determine the average miles per gallon of all new vehicles registered in this state pursuant to Code Section 48-5C-1 using the average of combined miles per gallon published in the United States Department of Energy Fuel Economy Guide. Beginning on July 1, 2016, and each year thereafter, the department shall calculate the average miles per gallon of all new vehicles registered in this state in the previous year. The excise tax rate shall be multiplied by the percentage increase or decrease in fuel efficiency from the previous year, and the resulting increase or decrease shall be added to the excise tax rate to determine the preliminary excise tax rate.

(C) Once the preliminary excise tax rate is established, it shall be multiplied by the annual percentage of increase or decrease in the Consumer Price Index. The resulting calculation shall be added to the preliminary excise tax rate, and the result of such calculation shall be the new excise tax rate for motor fuels for the next calendar year. The Consumer Price Index shall no longer be used after July 1, 2018.

(2) In the event any motor fuels which are not commonly sold or measured by the gallon are used in any motor vehicles on the public highways of this state, the commissioner may assess, levy, and collect a tax upon such fuels, under such regulations as the commissioner may promulgate, in accordance with and measured by the nearest power potential equivalent to that of one gallon of regular grade gasoline. Any determination by the commissioner of the power potential equivalent of such motor fuels shall be prima-facie correct. Upon each such quantity of such fuels used upon the public highways of this state, a tax at the same rate per gallon imposed on motor fuel under paragraph (1) of this subsection shall be assessed and collected.

(3) No county, municipality, or other political subdivision of this state shall levy any fee, license, or other excise tax on a gallonage basis upon the sale, purchase, storage, receipt, distribution, use, consumption, or other disposition of motor fuel. Nothing contained in this article shall be construed to prevent a county, municipality, or other political subdivision of this state from levying license fees or taxes upon any business selling motor fuel.

(4)(A) For purposes of this subsection, and notwithstanding the provisions of paragraph (2) of this subsection and any provision contained in the National Bureau of Standards Handbook or any other national standard that may be adopted by law or regulation, the gallon equivalent of compressed natural gas shall be not less than 110,000 British thermal units and the gallon equivalent of liquefied natural gas shall not be less than 6.06 pounds.

(B) As used in this paragraph, the term:

(i) 'Compressed natural gas' means a mixture of hydrocarbon gases and vapors, consisting principally of methane in gaseous form, that has been compressed for use as a motor fuel.

(ii) 'Liquefied natural gas' means methane or natural gas in the form of a cryogenic or refrigerated liquid for use as a motor fuel.

(b) No tax is imposed by this article upon or with respect to the following sales by duly licensed distributors:

(1) Bulk sales to a duly licensed distributor;

(2) Sales of motor fuel for export from this state when exempted by any provisions of the Constitutions of the United States or this state;

(3) Sales of motor fuel to a licensed distributor for export from this state;

(4) Sales of motor fuel to the United States for the exclusive use of the United States when the motor fuel is purchased and paid for by the United States;

(5) Sales of aviation gasoline to a duly licensed aviation gasoline dealer, except for 1¢ per gallon of the tax imposed by paragraph (1) of subsection (a) of this Code section ~~and all of the tax imposed by Code Section 48-9-14;~~

(6) Bulk sales of compressed petroleum gas or special fuel to a duly licensed consumer distributor;

(7)(A) Sales of compressed petroleum gas or special fuel to a consumer who has no highway use of the fuel at the time of the sale and does not resell the fuel. Consumers of compressed petroleum gas or special fuel who have both highway and nonhighway use of the fuel and resellers of such fuel must be licensed as distributors in order for sales of the fuel to be tax exempt. Each type of motor fuel is to be considered separately under this exemption.

(B)(i) In instances where a sale of compressed petroleum gas has been made to an ultimate consumer who has both highway and nonhighway use of that type of motor fuel and no tax has been paid by the distributor on the sale, the consumer shall become licensed as a consumer distributor of that type of motor fuel. After the consumer is licensed as a consumer distributor and if it is demonstrated to the satisfaction of the commissioner that the motor fuel purchased prior to the

licensee's becoming licensed as a consumer distributor was used for nonhighway purposes, such sales shall be exempt from the tax imposed by this article; provided, however, that, if at the time of demonstration the ultimate consumer does not have both highway and nonhighway use of such fuel but it can be demonstrated by the distributor to the satisfaction of the commissioner that the motor fuel was used for nonhighway purposes, the sales shall be exempt from the tax imposed by this article; and

(ii)(I) Any special fuel sold by a distributor to a purchaser who has a storage receptacle which has a connection to a withdrawal outlet that may be used for highway use, as defined in paragraph (8) of Code Section 48-9-2, is not exempt from the motor fuel and road taxes imposed by this article unless: (1) the purchaser is at the time of sale a valid licensed distributor of that type of motor fuel, or (2) an exemption certificate has been obtained from the purchaser on forms furnished by the Department of Revenue showing that the purchaser has no highway use of such fuels and is not a reseller of such fuels. Each exemption certificate shall be valid for a period of not more than three years and shall be kept by the distributor as one of the records specified in Code Section 48-9-8. It shall be the responsibility of the purchaser to notify the distributor when the purchaser is no longer qualified for the nonhighway exemption. All applicable taxes must be charged the purchaser until the purchaser is granted a valid distributor's license for that type of motor fuel.

(II) Any such purchaser granted an exemption under subdivision (I) of this division who falsely claims the exemption or fails to rescind the purchaser's exemption certificate to the distributor in writing when he or she is no longer eligible for the exemption shall be deemed a distributor for purposes of taxation and is subject to all provisions of this article relating to distributors. This division in no way shall restrict the option of the purchaser to become licensed as a distributor. If the distributor sells special fuel to a purchaser who has a storage receptacle which has a connection to a withdrawal outlet that may be used for highway use, as defined in paragraph (8) of Code Section 48-9-2, and the purchaser is not a valid licensed distributor and has not executed a valid signed exemption certificate, the taxes imposed by this article are due from the distributor and not the purchaser on all sales of that type of fuel to that purchaser;

(8) Sales of fuel oils, compressed petroleum gas, or special fuel directly to an ultimate consumer to be used for heating purposes only. The delivery of fuel oils, compressed petroleum gas, or special fuel directly to an ultimate consumer to be used for heating purposes only shall be made directly into the storage receptacle of the heating unit of the consumer by the licensed distributor. To qualify for this exemption, sales must be delivered into storage receptacles that are not equipped with any secondary withdrawal outlets for the motor fuel;

(9) Sales of dyed fuel oils to a consumer for other than highway use as defined in paragraph (8) of Code Section 48-9-2;

(10)(A) During the period of July 1, 2012, through June 30, 2015, sales of motor fuel, as defined in paragraph (9) of Code Section 48-9-2, for public mass transit vehicles which are owned by public transportation systems which receive or are eligible to receive funds pursuant to 49 U.S.C. Sections 5307 and 5311 for which passenger fares are routinely charged and which vehicles are used exclusively for revenue generating purposes which motor fuel sales occur at bulk purchase facilities approved by the department.

(B) During the period of July 1, 2012, through June 30, 2015, sales of motor fuel, as defined in paragraph (9) of Code Section 48-9-2, for vehicles operated by a public campus transportation system, provided that such system has a policy which provides for free transfer of passengers from the public transportation system operated by the jurisdiction in which the campus is located; makes the general public aware of such free transfer policy; and receives no state or federal funding to assist in the operation of such public campus transportation system and which motor fuel sales occur at bulk purchase facilities approved by the department.

(C) For purposes of this paragraph, the term 'vehicle' or 'vehicles' means buses, vans, minibuses, or other vehicles which have the capacity to transport seven or more passengers; or

(11) For the period of time beginning July 1, 2013, and ending June 30, 2015, sales of motor fuel to public school systems in this state for the exclusive use of the school system in operating school buses when the motor fuel is purchased and paid for by the school system.

(c) Fuel oils, compressed petroleum gas, or special fuel used by a duly licensed distributor for nonhighway purposes is exempt from the tax imposed by this article.

(d) No export from this state shall be recognized as being exempt from tax under paragraphs (2) and (3) of subsection (b) of this Code section unless the exporter informs the seller and the terminal operator of the intention to export and causes to be set out the minimum information specified in subsection (e) of Code Section 48-9-17 on the bill of lading or equivalent documentation under which the motor fuel is transported. In the event that the motor fuel is delivered to any point other than that which is set out on the bill of lading or equivalent documentation, the legal incidence of the tax shall continue to be imposed exclusively upon the exporter who caused the export documentation to be issued and no exemption shall be recognized until suitable proof of exportation has been provided to the commissioner."

SECTION 5-14.

Said title is further amended by repealing in its entirety Code Section 48-9-14, relating to the second motor fuel tax, and designating said Code section as reserved.

SECTION 5-15.

The innkeeper collecting the fee shall remit the fee on a monthly basis to the department.
- (c) The commissioner shall promulgate and make available forms for the use of innkeepers to assist in compliance with this Code section. The commissioner shall promulgate rules and regulations as necessary to implement the provisions of this Code section.
- (d) It is the intention of the General Assembly, subject to appropriations, that the fees collected pursuant to subsection (b) of this Code section shall be made available and used exclusively for transportation purposes in this state.
- (e) If the amount collected under this Code section is ever not appropriated for a fiscal year as provided by subsection (d) of this Code section, as determined jointly by the House Budget and Research Office and the Senate Budget and Evaluation Office, then the amount collected shall be reduced by 50 percent. Upon the conclusion of a second fiscal year in which an amount is not so appropriated, this Code section shall stand repealed and reserved, and such fees shall cease to be collected, on the date the appropriations Act for such fiscal year becomes effective. Such budget offices shall certify any such lack of appropriation to the Code Revision Commission for purposes of updating the Code in accordance with this subsection."

(2) When a qualified municipality or combination of qualified municipalities within the special district whose population within the special district is 90 percent or more of the aggregate population of all qualified municipalities within the special district desires to levy a tax under this article, such qualified municipality or combination of qualified municipalities may deliver or mail written notice to the chief elected official of the governing authority of the county located within the special district calling for a meeting to discuss projects for inclusion in the referendum and the rate of levy of the tax. Such notice shall contain the date, time, place, and purpose of the meeting and shall be delivered or mailed at least ten days prior to the date of the meeting. The meeting shall be held at least 30 days prior to the issuance of the call for a referendum. If the county and all qualified municipalities within the special district do not enter into an intergovernmental agreement meeting the requirements of subsection (b) of this Code section within 30 days after the meeting, the qualified municipality or combination of qualified municipalities within the special district whose population within the special district is 90 percent or more of the aggregate population of all qualified municipalities within the special district may issue the call for a referendum on the levy of a tax under this article.

(b)(1) Following the meeting required by subsection (a) of this Code section and prior to any tax being imposed under this article, the county and all qualified municipalities therein shall execute an intergovernmental agreement memorializing their agreement to the levy of a tax and the rate of such tax.

(2) At a minimum, the intergovernmental agreement authorized by paragraph (1) of this subsection shall include the following:

(A) A list of the projects and purposes qualifying as transportation purposes proposed to be funded from the levy, including an expenditure of at least 30 percent of the estimated revenue from the tax on projects included in the state-wide strategic transportation plan as defined in paragraph (6) of subsection (a) of Code Section 32-2-22;

(B) The estimated or projected dollar amounts allocated for each transportation purpose from proceeds from the levy;

(C) The procedures for distributing proceeds from the levy to qualified municipalities;

(D) A schedule for distributing proceeds from the levy to qualified municipalities which shall include the priority or order in which transportation purposes will be fully or partially funded;

(E) A provision that all transportation purposes included in the agreement shall be funded from proceeds from the levy except as otherwise agreed;

(F) A provision that proceeds from the levy shall be maintained in separate accounts and utilized exclusively for the specified purposes;

(G) Record-keeping and audit procedures necessary to carry out the purposes of

this article; and

(H) Such other provisions as the county and qualified municipalities choose to address.

(c)(1) If an intergovernmental agreement is entered into by the county and all qualified municipalities, the rate of the tax may be up to 1 percent.

(2) If an intergovernmental agreement is not entered into by the county and all qualified municipalities, the maximum rate of the tax shall not exceed .75 percent and shall be determined by the governing authority of the county.

(d)(1) As soon as practicable after the meeting between the governing authorities of the county and qualified municipalities and the execution of an intergovernmental agreement, if applicable, the governing authority of the county may by a majority vote on a resolution offered for such purpose submit the list of transportation purposes and the question of whether the levy should be approved to electors of the district in the next scheduled election and shall notify the county election superintendent within the district by forwarding to the superintendent a copy of such resolution calling for the imposition of the levy. Such list, or a digest thereof, shall be available during regular business hours in the office of the county clerk.

(2) The resolution authorized by paragraph (1) of this subsection shall describe:

(A) The specific transportation purposes to be funded;

(B) The approximate cost of such transportation purposes, which shall also be the maximum amount of net proceeds to be raised by the levy; and

(C) The maximum period of time, to be stated in calendar years, for which the levy may be levied and the rate thereof. The maximum period of time shall not exceed five years.

48-8-263.

(a)(1) The ballot submitting the question of the imposition of the levy to the voters within the district shall have written or printed thereon the following:

' () YES Shall a special _____ percent sales and use tax be imposed in the district consisting of _____ County for a period of time not to exceed

() NO _____ and for the raising of not more than an estimated amount of \$ _____ for transportation purposes?'

(2) If debt is to be issued pursuant to an intergovernmental agreement, the ballot shall also have written or printed thereon, following the language specified by paragraph (1) of this subsection, the following:

'If imposition of the tax is approved by the voters, such vote shall also constitute approval of the issuance of general obligation debt of _____ County in the principal amount of \$ _____ for the above purpose.'

(b) The election superintendent shall issue the call and conduct the election in the manner authorized by general law. The superintendent shall canvass the returns, declare the result of the election, and certify the result to the Secretary of State and to the commissioner. The expense of the election shall be paid from county funds. All

persons desiring to vote in favor of imposing the levy shall vote 'Yes,' and all persons opposed to imposing the levy shall vote 'No.' If more than one-half of the votes cast throughout the entire district are in favor of imposing the levy, then the levy shall be imposed as provided in this article.

(c) Where such question is not approved by the voters, the county may resubmit such question from time to time upon compliance with the requirements of this article.

(d)(1) If the intergovernmental agreement and proposal include the authority to issue general obligation debt and if more than one-half of the votes cast are in favor of the proposal, then the authority to issue such debt in accordance with Article IX, Section V, Paragraph I of the Constitution is given to the proper officers of the county; otherwise, such debt shall not be issued. If the authority to issue such debt is so approved by the voters, then such debt may be issued without further approval by the voters.

(2) If the issuance of general obligation debt is included and approved as provided in this Code section, then the governing authority of the county may incur such debt either through the issuance and validation of general obligation bonds or through the execution of a promissory note or notes or other instrument or instruments. If such debt is incurred through the issuance of general obligation bonds, such bonds and their issuance and validation shall be subject to Articles 1 and 2 of Chapter 82 of Title 36 except as specifically provided otherwise in this article. If such debt is incurred through the execution of a promissory note or notes or other instrument or instruments, no validation proceedings shall be necessary, and such debt shall be subject to Code Sections 36-80-10 through 36-80-14 except as specifically provided otherwise in this article. In either event, such general obligation debt shall be payable first from the separate account in which are placed the proceeds received by the county from the levy. Such general obligation debt shall, however, constitute a pledge of the full faith, credit, and taxing power of the county; and any liability on such debt which is not satisfied from the proceeds of the levy shall be satisfied from the general funds of the county.

48-8-264.

(a) If the imposition of the levy is approved at the election, the tax shall be imposed on the first day of the next succeeding calendar quarter which begins more than 80 days after the date of the election at which the levy was approved by the voters. With respect to services which are regularly billed on a monthly basis, however, the resolution shall become effective with respect to and the levy shall apply to services billed on or after the effective date specified in the previous sentence.

(b) The levy shall cease to be imposed on the earliest of the following dates:

(1) If the resolution calling for the imposition of the tax provided for the issuance of general obligation debt and such debt is the subject of validation proceedings, as of the end of the first calendar quarter ending more than 80 days after the date on which a court of competent jurisdiction enters a final order denying validation of such debt;

(2) On the final day of the maximum period of time specified for the imposition of

the levy; or

(3) As of the end of the calendar quarter during which the commissioner determines that the levy will have raised revenues sufficient to provide to the district net proceeds equal to or greater than the amount specified as the maximum amount of net proceeds to be raised by the levy.

(c)(1) At any time, no more than a single tax under this article shall be imposed within a district. Any tax imposed under this article may be at a rate of up to 1 percent but shall not be more than 1 percent. Any rate less than 1 percent shall be in an increment of .05 percent.

(2) The governing authority of the county in which a levy is in effect under this article may, upon approval of all qualified municipalities, while the levy is in effect, adopt resolutions calling for the reimposition of the levy upon the termination of the levy then in effect; and an election may be held at the next regularly scheduled general election for this purpose while the levy is in effect. Proceedings for the reimposition of a levy shall be in the same manner as proceedings for the initial imposition of the levy, but the newly authorized levy shall not be imposed until the expiration of the levy then in effect.

(3) Following the expiration of a levy under this article, the county may initiate proceedings for the reimposition of a levy under this article in the same manner as provided in this article for initial imposition of such levy.

48-8-265.

A tax levied pursuant to this article shall be exclusively administered and collected by the commissioner for the use and benefit of the county and qualified municipalities within the district imposing the tax. Such administration and collection shall be accomplished in the same manner and subject to the same applicable provisions, procedures, and penalties provided in Article 1 of this chapter; provided, however, that all moneys collected from each taxpayer by the commissioner shall be applied first to such taxpayer's liability for taxes owed the state; and provided, further, that the commissioner may rely upon a representation by or on behalf of the district or the Secretary of State that such a tax has been validly imposed, and the commissioner and the commissioner's agents shall not be liable to any person for collecting any such tax which was not validly imposed. Dealers shall be allowed a percentage of the amount of the tax due and accounted for and shall be reimbursed in the form of a deduction in submitting, reporting, and paying the amount due if such amount is not delinquent at the time of payment. The deduction shall be at the rate and subject to the requirements specified under subsections (b) through (f) of Code Section 48-8-50.

48-8-266.

Each sales tax return remitting taxes collected under this article shall separately identify the location of each retail establishment at which any of the taxes remitted were collected and shall specify the amount of sales and the amount of taxes collected at each establishment for the period covered by the return in order to facilitate the

determination by the commissioner that all taxes imposed by this article are collected and distributed according to situs of sale.

48-8-267.

(a) The proceeds of the tax collected by the commissioner in each special district under this article shall be disbursed as soon as practicable after collection as follows:

(1) One percent of the amount collected shall be paid into the general fund of the state treasury in order to defray the costs of administration; and

(2) Except for the percentage provided in paragraph (1) of this Code section, the remaining proceeds of the tax shall be distributed:

(A) Pursuant to the terms of the intergovernmental agreement, if applicable; or

(B) If no intergovernmental agreement has been entered into, in accordance with subsection (b) of this Code section.

(b) In the event an intergovernmental agreement has not been entered into, distribution of the proceeds shall be as follows:

(1) The state auditor shall determine the most recent three fiscal years for which an audit under Code Section 36-81-7 has or should have been made or for which other equivalent, reliable information is available for the county and all qualified municipalities; and

(2) Utilizing the audit information under paragraph (1) of this subsection, the county and each qualified municipality shall receive a proportional amount of proceeds of the tax based upon the amount of expenditures made for transportation in the fiscal year. The proportional amount for the county and each qualified municipality shall be determined by dividing the average expended on transportation during the most recent three fiscal years by the county or qualified municipality by the aggregate average expended on transportation by the county and all qualified municipalities in the district during the most recent three fiscal years. Amounts expended on transportation include transportation maintenance and operation costs and shall correspond with classifications and subclassifications specified in section 4200, including noncapital expenditures in sections 4210-4270, of the uniform chart of accounts in subsection (e) of Code Section 36-81-3 and shall be reported in the local government audit. Total general fund expenditures by the local government within these categories shall be specified in the footnotes of the audited financial statement. If such transportation expenditures include maintenance and operation costs to support local government airport and transit operations, reported in function 7561 and 7563 of the uniform chart, the general fund costs for those functions shall be included in the footnotes of the local government's audited financial statement.

48-8-268.

(a) The levy shall not be subject to any allocation or balancing of state and federal funds provided for by general law, nor may such proceeds be considered or taken into account in any such allocation or balancing.

(b) The approval of the levy of the tax under this article shall not in any way diminish

the percentage of state or federal funds allocated to any of the local governments within the special district levying the tax under the provisions of Code Section 32-5-27. The amount of state or federal funds expended in the county or any municipality within the special district shall not be decreased or diverted due to the use of proceeds from the tax levied under this article for transportation purposes that have a high priority in the state-wide strategic transportation plan.

48-8-269.

(a) Except as to rate, a tax imposed under this article shall correspond to the tax imposed by Article 1 of this chapter. No item or transaction which is not subject to taxation under Article 1 of this chapter shall be subject to a tax imposed under this article, except that a tax imposed under this article shall not apply to:

(1) The sale or use of any type of fuel used for off-road heavy-duty equipment, off-road farm or agricultural equipment, or locomotives;

(2) The sale or use of jet fuel to or by a qualifying airline at a qualifying airport;

(3) The sale or use of fuel that is used for propulsion of motor vehicles on the public highways;

(4) The sale or use of energy used in the manufacturing or processing of tangible goods primarily for resale;

(5) The sale or use of motor fuel as defined under paragraph (9) of Code Section 48-9-2 for public mass transit; or

(6) The purchase or lease of any motor vehicle pursuant to Code Section 48-5C-1.

(b) Except as otherwise specifically provided in this article, the tax imposed pursuant to this article shall be subject to any sales and use tax exemption which is otherwise imposed by law; provided, however, that the tax levied by this article shall be applicable to the sale of food and food ingredients as provided for in paragraph (57) of Code Section 48-8-3.

48-8-269.1.

Where a local sales or use tax has been paid with respect to tangible personal property by the purchaser either in another local tax jurisdiction within this state or in a tax jurisdiction outside this state, the tax may be credited against the tax authorized to be imposed by this article upon the same property. If the amount of sales or use tax so paid is less than the amount of the levy due under this article, the purchaser shall pay an amount equal to the difference between the amount paid in the other tax jurisdiction and the amount due under this article. The commissioner may require such proof of payment in another local tax jurisdiction as he or she deems necessary and proper. No credit shall be granted, however, against the levy for tax paid in another jurisdiction if the tax paid in such other jurisdiction is used to obtain a credit against any other local sales and use tax levied in the county or in a special district which includes the county.

48-8-269.2.

No levy shall be imposed upon the sale of tangible personal property which is ordered by and delivered to the purchaser at a point outside the geographical area of the county

in which the levy is imposed regardless of the point at which title passes, if the delivery is made by the seller's vehicle, United States mail, or common carrier or by private or contract carrier.

48-8-269.3.

The commissioner shall have the power and authority to promulgate such rules and regulations as shall be necessary for the effective and efficient administration and enforcement of the collection of the levy.

48-8-269.4.

Except as provided in Code Section 48-8-6, the tax authorized under this article shall be in addition to any other local sales and use tax. Except as otherwise provided in this article and except as provided in Code Section 48-8-6, the imposition of any other local sales and use tax within a county or qualified municipality within a special district shall not affect the authority of a county to impose the tax authorized under this article, and provided that a county is not currently collecting a levy under Article 5 of this chapter, the imposition of a tax under this article shall not affect the imposition of any otherwise authorized local sales and use tax within the special district.

48-8-269.5.

(a)(1) The proceeds received from the levy shall be used by the county and qualified municipalities within the district exclusively for the transportation purposes specified in the resolution calling for imposition of the levy. Such proceeds shall be kept in a separate account from other funds of any county and qualified municipality receiving proceeds of the levy and shall not in any manner be commingled with other funds of any county or qualified municipality prior to the expenditure.

(2) The governing authority of each county and the governing authority of each qualified municipality receiving any proceeds from the tax under this article shall maintain a record of each and every purpose for which the proceeds of the tax are used. A schedule shall be included in each annual audit which shows for each purpose in the resolution calling for imposition of the levy the original estimated cost, the current estimated cost if it is not the original estimated cost, amounts expended in prior years, and amounts expended in the current year. The auditor shall verify and test expenditures sufficient to provide assurances that the schedule is fairly presented in relation to the financial statements. The auditor's report on the financial statements shall include an opinion, or disclaimer of opinion, as to whether the schedule is presented fairly in all material respects in relation to the financial statements taken as a whole.

(b) No general obligation debt shall be issued in conjunction with the imposition of the levy unless each county governing authority determines that, and if the debt is to be validated it is demonstrated in the validation proceedings that, during each year in which any payment of principal or interest on the debt comes due, the county will receive from the levy net proceeds sufficient to fully satisfy such liability. General

obligation debt issued under this article shall be payable first from the separate account in which are placed the proceeds received by each county from the levy. Such debt, however, shall constitute a pledge of the full faith, credit, and taxing power of each county; and any liability on said debt which is not satisfied from the proceeds of the levy shall be satisfied from the general funds of the county.

(c) The intergovernmental agreement, if applicable, and resolution calling for imposition of the levy may specify that all of the proceeds of the levy will be used for payment of general obligation debt issued in conjunction with the imposition of the levy. If the intergovernmental agreement, if applicable, and resolution so provide, then such proceeds shall be used solely for such purpose except as provided in subsection (f) of this Code section.

(d) The intergovernmental agreement, if applicable, and resolution calling for the imposition of the levy may specify that a part of the proceeds of the levy will be used for payment of general obligation debt issued in conjunction with the imposition of the tax. The intergovernmental agreement, if applicable, and resolution shall specifically state the other purposes for which such proceeds will be used. In such a case, no part of the net proceeds from the levy received in any year shall be used for such other purposes until all debt service requirements of the general obligation debt for that year have first been satisfied from the account in which the proceeds of the levy are placed.

(e) The resolution calling for the imposition of the tax may specify that no general obligation debt is to be issued in conjunction with the imposition of the tax. The intergovernmental agreement and resolution shall specifically state the purpose or purposes for which the proceeds will be used.

(f)(1)(A) If the proceeds of the levy are specified to be used solely for the purpose of payment of general obligation debt issued in conjunction with the imposition of the levy, then any net proceeds of the levy in excess of the amount required for final payment of such debt shall be subject to and applied as provided in paragraph (2) of this subsection.

(B) If the district receives from the levy net proceeds in excess of the maximum cost of the transportation projects and costs stated in the resolution calling for the imposition of the levy or in excess of the actual cost of such purpose or purposes, then such excess proceeds shall be subject to and applied as provided in paragraph (2) of this subsection unless otherwise specified in the intergovernmental agreement, if applicable.

(C) If the tax is terminated under paragraph (1) of subsection (b) of Code Section 48-8-264 by reason of denial of validation of debt, then all net proceeds received by the special district from the tax shall be excess proceeds subject to paragraph (2) of this subsection.

(2) Excess proceeds subject to this subsection shall be used solely for the purpose of reducing any indebtedness of any county or qualified municipality within the district other than indebtedness incurred pursuant to this article. If there is no such other indebtedness or if the excess proceeds exceed the amount of any such other indebtedness, then the excess proceeds shall next be paid into the general fund of such

county or qualified municipality, it being the intent that any funds so paid into the general fund of such county or qualified municipality be used for the purpose of reducing ad valorem taxes.

48-8-269.6.

Not later than December 31 of each year, the governing authority of each county and each qualifying municipality receiving any proceeds from the tax under this article shall publish annually, in a newspaper of general circulation in the boundaries of such county or municipality, a simple, nontechnical report which shows for each purpose in the resolution calling for imposition of the levy the original estimated cost, the current estimated cost if it is not the original estimated cost, amounts expended in prior years, and amounts expended in the current year. The report shall also include a statement of what corrective action the county or municipality intends to implement with respect to each purpose which is underfunded or behind schedule and a statement of any surplus funds which have not been expended for a purpose."

PART VIII
SECTION 8-1.

This Act shall be known and may be cited as the "Transportation Funding Act of 2015."

SECTION 8-2.

It is the intention of the General Assembly, subject to appropriations and other constitutional obligations of this state, that year to year revenue increases be prioritized to fund education, transportation, and health care in this state.

PART IX
SECTION 9-1.

(a) This Act shall become effective on July 1, 2015.

(b) Tax, penalty, and interest liabilities and refund eligibility for prior taxable years shall not be affected by the passage of this Act and shall continue to be governed by the provisions of Title 48 of the Official Code of Georgia Annotated as it existed immediately prior to the effective date of this Act.

SUBJECT: Fiscal Note
House Bill 170 (LC 34 4437)

Dear Chairman Roberts:

This bill, which is known as the Transportation Funding Act of 2015, changes the motor fuels sales tax exemption, changes motor fuel excise taxes, and repeals the prepaid portion of the tax. Part II Section 2 redefines alternative fuel vehicles and creates a separate fee for said vehicles. Part IV Section 4-2 extends the state sales tax motor fuel tax exemption to the full state sales tax. Part IV Section 4-2 (d) and sections 4-3 through 4-6 disallows any new local option sales taxes to be applied to motor fuels. Part IV Section 4-7 changes the excise rate applied to motor fuel from 7.5 cents per gallon to 29.2 cents per gallon for gasoline and 33 cents per gallon for diesel. The changes would be effective July 1, 2015. The bill has no sunset provision.

Effect on State Revenues

According to analysis by the Georgia State University Fiscal Research Center, the additional revenue to the State from this bill is estimated to range from a low of \$703.3 million in fiscal year (FY) 2016 to a high of \$1.046 billion in FY 2020. Note due to the inherent uncertainty involved in the estimation of motor fuel prices in future years, these estimates have a high degree of uncertainty. Details of the analysis by the Fiscal Research Center are included in the Appendix to this fiscal note.

Table 1 shows the total state transportation funding available as a result of House Bill LC 33 4437. This includes the state baseline motor fuel revenue as well as the new motor fuel revenue generated by House Bill LC 33 4437.

Table 1. Total Transportation Funding to the State Resulting from This Bill
in millions \$/State Fiscal Years

	2016	2017	2018	2019	2020
Low Growth	\$1,779.4	\$1,905.7	\$1,976.4	\$2,049.9	\$2,125.3
High Growth	\$1,792.9	\$1,948.3	\$2,035.6	\$2,127.1	\$2,222.3

Part 2 sections 2-1 and 2-2 changes the definition of alternative fuel vehicles and sets registration fees for said vehicles. Alternative fuel vehicles would be only those powered solely by electricity, natural gas, and propane. A registration fee of \$200 would be charged for noncommercial vehicles and \$300 for commercial vehicles. These fees are to be adjusted annually by the change in the construction price beginning January 1, 2016. Data from the Georgia Department of Revenue (DOR), the Georgia Statistics System and the Energy Information Administration (EIA) was used to estimate the number of qualifying vehicles under the new definition.

The construction index annual average increase was calculated from 2004-2013. As those years include the drop in costs due to the great recession, the full average is used in the low growth estimates while the average annual change, with the low year of 2009 removed, is used to estimate the high growth amount. Table 2 shows the additional estimated revenue to the State from Part 2 section 2-2 of this bill.

Table 2. Additional Revenue to the State from Part 2 Section 2-2
in millions \$/State Fiscal Years

	2016	2017	2018	2019	2020
Low Growth	\$1.8	\$4.1	\$5.1	\$6.2	\$7.3
High Growth	\$1.9	\$4.5	\$6.1	\$8.0	\$10.2

Part IV Section 4-2 (d) and sections 4-3 through 4-6 would disallow any new local option sales taxes to be applied to motor fuels. However some local sales taxes will not expire, such as the LOST and MARTA, thus adjustments are made to include these ongoing local sales taxes in the prices of motor fuel (see Appendix).

Part IV Section 4-7 changes the excise tax from 7.5 cents per gallon for gas and diesel to 29.2 cents per gallon for gas and 33 cents per gallon for diesel. The new excise tax rates will change annually based on the sum of the year over year changes of two metrics, the construction cost index and fleet year over year change in miles per gallon as estimated by DOR. An additional adjustment factor is also included, which accounts for how the changed tax structure and resultant change in International Fuel Tax Association (IFTA) system credits will affect the diesel fuel purchases of long haul truckers. Table 3 shows the additional State revenue raised over the baseline forecasts due to section 4-7.

Table 3. Additional Revenue to the State from Part IV Section 4-7
in millions \$/State Fiscal Years

	2016	2017	2018	2019	2020
Low Fuel Prices	\$701.5	\$837.8	\$902.5	\$969.7	\$1,038.8
High Fuel Prices	\$714.9	\$855.5	\$906.0	\$958.3	\$1,011.5

Note the amounts in Table 3 net out a shift from general fund revenue, raised by the “fourth penny” which can currently be used to fund other types of government spending, to dedicated transportation fund revenue. The amount of this shift is on average \$158.6 million annually in the low fuel cost scenario and \$171.6 million in the high fuel cost scenario. This increases the amount of funds available for transportation funding, resulting in additional transportation funding of \$1.054 billion annually on average in the low fuel cost scenario and \$1.067 billion annually on average in the high fuel cost scenario. Table 4 shows the total additional revenue to the State of this bill.

Table 4. Total Additional Revenue to the State
in millions \$/State Fiscal Years

	2016	2017	2018	2019	2020
Low Fuel Prices	\$703.3	\$841.5	\$906.3	\$973.7	\$1,042.9
High Fuel Prices	\$716.7	\$859.1	\$909.8	\$962.2	\$1,015.4

Effect on Local Government Revenue

Note that local revenue impacts are not estimated in the analysis above. This bill would end local sales taxes on motor fuel as they expire. This would be expected to reduce local revenues over time as these authorized sales taxes expire. However, the bill allows local governments to impose a cents per gallon tax on motor fuel that would reduce these net impacts. Estimated impacts on these effects are in development.

Detailed Analysis

Details of the analysis by the Fiscal Research Center are included in the Appendix to this fiscal note.

Sincerely,

/s/ Greg S. Griffin
State Auditor

Enclosure: Appendix – Details of Analysis by Fiscal Research Center

This bill, which is known as the Transportation Funding Act of 2015, changes the motor fuels sales tax exemption, changes motor fuel excise rates, and repeals the prepaid portion of the tax. Part II Section 2 redefines alternative fuel vehicles and creates a separate fee for said vehicles. Part IV Section 4-2 extends the state sales tax motor fuel tax exemption to the full state sales tax. Part IV Section 4-2 (d) and sections 4-3 through 4-6 would disallow any new local option sales taxes to be applied to motor fuels. Part IV Section 4-7 changes the excise rate applied to motor fuel from 7.5 cents per gallon to 29.2 cents per gallon for gasoline and 33 cents per gallon for diesel. The changes would be effective July 1, 2015. The bill has no sunset provision.

Baseline Estimates

To estimate the State revenue effects of this bill, the estimates of future motor fuel costs from the Energy Information Association (EIA) were used as well as their assumptions on growth of fuel consumption. To estimate the revenue effects of the excise tax increases and other changes, two baseline revenue projections are estimated: a low fuel price revenue estimate and a high fuel price revenue estimate.

The EIA publishes a near-term outlook for fuel prices that is released monthly as well as a long-term outlook that is released annually. The price estimates of gasoline and diesel fuel for the calendar years 2015 and 2016 are taken from the short-term outlook published in January 2015, and take into account the recent large drops in oil prices. The EIA forecasts the average price of regular gasoline in 2015 to be \$2.33, rising to \$2.72 in 2016. This 2016 price forecast, adjusted downward for the current 5 cents per gallon difference in the price of gas nationally and in Georgia, is used as the base year price for both the low price and the high price baseline projections.

The prices of motor fuel for the years 2017-2023 are estimated based on the data in the annual long-term outlook published in 2014, before the recent drop in oil prices. This annual report makes a range of long-run forecasts of gasoline and diesel prices, including a reference forecast as well as low and high price scenarios around the reference forecast. For this estimate, due to the steep drop in oil prices after the report was published, the low price forecast is used to project the low fuel price scenario while the reference forecast is used to project the high fuel price scenario.

In its low price forecast, EIA projects the price of gasoline in 2020 at \$2.88 while the high price scenario (again, EIA's reference forecast) forecasts a 2020 price of \$3.49. These low and high 2020 price forecasts are also adjusted down by the current 5 cents per gallon difference between Georgia and national average prices. To fill in the missing years, the annual average rate of price growth implicit in these 2016 to 2020 price forecasts is used for all years. For the low fuel price scenario, this growth rate is approximately 1.47 percent while for the high price scenario the growth rate is approximately 6.54 percent. For diesel, the same methods are used to project prices.

The EIA long-range reference forecast also projected annual growth rate for fuel consumption from 2012 through 2020 and beyond. The average projected growth rate for gasoline consumption through 2020 was -1.23 percent per annum in the reference forecast (the high fuel price case herein) and -0.75 percent in the low fuel price case. For diesel, the 2012-2020 average consumption growth rates were projected to be 1.56 percent in the reference (high) case and 1.60 percent in the low price case. These longer-run average growth rates were applied to estimated 2013 consumption of gasoline and diesel fuel in Georgia, as reported by the Federal Highway Administration.

Table A1 shows the low fuel price baseline projections, including projected prices per gallon of gasoline and diesel as well as the estimated calendar year revenue at current levels of excise taxation, 7.5 cents per gallon plus additional state revenue from the prepaid portion. Table A2 provides the same baseline forecast information under the high price scenario.

Part II

Part II sections 2-1 and 2-2 change the definition of alternative fuel vehicles and set registration fees for said vehicles. Alternative fuel vehicles would be only those powered solely by electricity, natural gas, and propane. A registration fee of \$200 would be charged for noncommercial vehicles and \$300 for commercial vehicles. These fees are to be adjusted annually by the change in the construction price index, beginning January 1, 2016. (Note that the actual wording of the bill is somewhat unclear in that it mentions only the Construction Price Index published by the United States Census Bureau. This is an index that measures the costs of housing construction, it is not the same as the Federal Highway Construction index that measures changes in the prices of highway construction. Also in this section there is no baseline year given. Thus it is assumed that calendar year 2015 is the baseline).

Data from the Georgia Department of Revenue (DOR) vehicles registered in Georgia solely powered by electricity, natural gas, or propane was used to estimate the number of vehicles subject to the alternative fuel vehicle fee as well as the growth rate. As of 2014, DOR had 16,304 cars and light duty trucks registered in Georgia that were powered solely by electricity, natural gas or propane. Note the growth rate for zero emission vehicles is quite high, estimated to be 45 percent in 2015 in the high growth scenario and falling to 20 percent by 2020. These high growth rates are assumed to be partially due to the state zero emission vehicle tax credit and these estimates reflect it remaining in place. Growth rates for natural gas and propane vehicles are estimated to be lower, six percent, in the high growth scenario. Some additional adjustments were needed to determine commercial trucks and buses. Thus EIA data was used that has detailed counts of these vehicles nationally for 2012. Georgia data for the number of registered cars and trucks comes from the Georgia statistics system. Data from the EIA was used to estimate the share of commercial trucks.

EIA and DOR only list light duty trucks, but other trucks and buses would also be subject to the commercial alternative fuel vehicle fee. Data on the number of buses registered in Georgia is available from the Georgia statistics system. The natural gas association estimates that 20 percent of all new buses in transit services run on compressed natural gas (CNG). Very few other types of buses run on CNG. MARTA has about 500 buses, which represents about 10 percent of the buses in Fulton County. It is assumed that of all registered buses in the state, 10 percent are transit buses and 20 percent of those run on CNG. This generates an estimate of roughly 820 CNG buses in the state. Data on the number of alternative fuel trucks that are not considered light duty was not readily

available. Thus it is assumed that there is the same number of these type trucks as buses. The housing construction index annual average increase was calculated from 2004-2013. As those years include the drop in costs due to the great recession, the full average is used in the low growth estimates while the average change with the low year of 2009 removed is used to estimate the high growth range.

Part III Section 3-1

This section would seem to limit the Governor's ability to freeze the prepaid portion of the motor fuel tax. However, in section 4-8 of the bill, the whole prepaid code section OCGA 48-9-14 is repealed. This Section is deemed to have no revenue effects. Note local governments will still be imposing local sales taxes on motor fuel and will continue to rely on DOR to set the appropriate price for the tax to be applied to based on this code section

Part IV Sections 4-1 and 4-2

This section redefines transportation purposes to include the following: roads, bridges, public transit, rails, airports, buses, seaports, and all accompanying infrastructure and services necessary to provide access to these transportation facilities. This section is relevant to local governments but has no state revenue effects.

Part IV Section 4-2 extends the state sales tax motor fuel tax exemption to the full state sales tax and removes the "fourth penny" from the general fund.

Part IV Section 4-2 (d) and sections 4-3 through 4-6 would disallow any new local option sales taxes to be applied to motor fuels. However, some local sales taxes will not expire, such as the LOST and MARTA taxes; thus adjustments are made to include these ongoing local sales taxes in the prices of motor fuel. To make these adjustments, the top 30 counties in motor fuel sales were examined for FY 2014, which represent 73 percent of all diesel sold and 76 percent of all gas. Based on the data from these counties, a weighted average tax rate was estimated for those counties that will still maintain a 2 percent and 1 percent tax rate due to local option sales taxes that will not expire. For gas this resulted in 42 percent of total state consumption that is taxed at a rate of 1.5 percent without expiration. For diesel this resulted in 55 percent of total state consumption that is taxed at a rate of 1.25 percent without expiration. These rates were converted to a prepaid amount consistent with procedures used in the baseline estimates. The remaining shares of gas and diesel taxed by local option sales taxes are assumed to expire at an equal annual rate over 4 years. This rate was also converted to a prepaid amount consistent with procedures used in the baseline estimates and goes to zero by calendar year 2019. The additional impacts of these sections on local government revenue will be estimated in a later note.

Part IV Section 4-7

Section 4-7 changes the excise tax from 7.5 cents per gallon for gas and diesel to 29.2 cents per gallons for gas and 33 cents per gallon for diesel. The excise tax rates will

change based on the sum of the year over year changes of two metrics. The first is an index that is to be created by DOR and will be calculated in the following manner:

Using 2014 as a base year, the department shall determine the average miles per gallon of all new vehicles registered in this state pursuant to Code Section 48-5C-1 using the average of combined miles per gallon published in the United States Department of Energy Fuel Economy Guide. Beginning on January 1, 2016, the department shall again calculate the average miles per gallon of all new vehicles registered in this state in 2015. Any percentage increase or decrease in fuel efficiency shall be multiplied by the excise tax rate to determine a preliminary excise tax rate.

The second is the Construction Price Index published by the United States Census Bureau, referred to earlier in the act. The excise tax will be adjusted in this manner every year with a new excise rate published at the beginning of each calendar year. As the DOR does not currently compute this change in Georgia fleet average fuel economy, data from the EIA was used. Average new vehicle miles per gallon for 2012 were 32.7 with the estimate for 2020 under low fuel price assumptions of 37.9 and with high fuel price assumptions of 38.6. These generate average annual growth rates of 1.85 percent of the low price fuel scenario and 2.10 percent for the high price fuel scenario. As was shown earlier, the construction price index average annual growth rate under a low growth scenario is estimated to be 2.10 percent and 2.82 percent under a high growth scenario. These growth rates above, are used to adjust the excise tax annually.

An additional adjustment factor is also included. Currently under Georgia's hybrid tax system, the state "fourth penny" and the local sales tax on motor fuel are not credited to long haul truckers under the IFTA system. Thus when IFTA participating trucks purchase diesel in Georgia, roughly 12 cents per gallon in these taxes does not get credited to the IFTA account. This can have the effect of making diesel more expensive in Georgia when compared to other states. By creating an excise-only motor fuel tax and extending the sales tax exemption on motor fuels to cover the full state sales tax, at the state level all motor fuel taxes would be credited to IFTA. By not allowing local governments to apply a sales tax on motor fuels as their local option taxes expire and only allowing locals to replace them with excise taxes, much of the local tax revenue will also be captured in the IFTA system. This initial change in Georgia's motor fuel tax structure may create an incentive for long haul truckers to buy more motor fuel in Georgia.

To account for this change in behavior, data from DOR is used that tracks the gallons of IFTA-credited diesel fuel sold in Georgia in 2014 of 460.3 million gallons, accounting for roughly 36 percent of all diesel purchased in 2014. It is assumed that the current IFTA differential in Georgia credits of 12.2 cents is a price reduction in diesel due to the new excise tax structure. Using the elasticity for gas and diesel of 0.43, as is used in the

baseline estimates, generates an additional 46.3 million gallons of diesel fuel purchased annually in Georgia. As the effective date of the law is July 1, 2015, this additional fuel sale is added half to 2015 and half to 2016. This is used in our low price fuel scenario. It is possible that long haul truckers have a higher price elasticity for diesel than the average diesel consumer, due to the large fuel capacity long haul trucks have, giving them greater choice as to where to fill up. To account for this, the elasticity is increased by 50 percent to 0.645, which increases the amount of diesel fuel purchased to 69.5 million gallons. This adjustment factor is added to the high fuel price scenario in the same manner as the low fuel price scenario.

DOR data indicate that the amount of payments made into the state for miles traveled without fuel purchased generally is offset by payments made by the state for extra fuel purchased in Georgia for miles driven out of state. Thus, the revenue effect is limited to the behavioral change induced by the change in tax structure. Note there are many things that can influence a truck driver’s decision to purchase diesel, beside IFTA tax treatment. Thus these estimated price effects likely represent an upper bound. Also some local governments will continue to charge sales tax on diesel as some local option sales taxes do not expire, such as the LOST and MARTA taxes.

Note the amounts in Table A3 represent a shift from general fund revenue, raised by the “fourth penny” which can be used to fund other types of government spending, to dedicated transportation fund revenue. The amount of this shift of the “fourth penny” is on average \$158.6 million annually in the low fuel cost scenario and \$171.6 million in the high fuel cost scenario. This increases the amount of funds available for transportation funding, resulting in additional transportation funding of \$1.0536 billion annually on average in the low fuel cost scenario and \$1.0670 billion annually on average in the high fuel cost scenario. See tables A3 and A4 for details.

SUBJECT: Fiscal Note
House Bill 170 (LC 34 4630S)

Dear Chairman Williams:

This bill is the Senate version of the Transportation Funding Act of 2015. It proposes to make several changes to the state excise tax on motor fuels, state and local sales taxes on motor fuels, and other provisions of Title 48 as detailed below. The effective date of the proposed changes would be July 1, 2015 with the exception of the income tax credit proposed in Section 5-1A of the bill, which would be effective for tax years beginning on or after January 1, 2016.

According to an analysis by the Georgia State University Fiscal Research Center, The provisions of the bill affecting general fund revenues or revenues dedicated to transportation purposes are as follows:

- Section 2-2 of the bill states that it is the intention of the General Assembly to make \$250 million per year available to the Department of Transportation (GDOT) to be used exclusively for debt service. While this provision does not affect state revenues and is subject to annual appropriations, assuming such funds are appropriated each year, it would reduce general fund balances available for other purposes and increase GDOT funding available for transportation purposes.
- Sections 3-1 and 3-2 are identical to Sections 2-1 and 2-2 of the House passed version of House Bill (HB) 170. General fund revenue effects arise from the

imposition under Section 3-2 of a highway user impact fee on Georgia registered alternative fueled vehicles of \$200 annually for non-commercial vehicles and \$300 annually for commercial vehicles, adjusted annually for consumer price inflation beginning July 1, 2016. Section 3-3 imposes a highway user impact fee on all Georgia registered motor vehicles, including on alternative fueled vehicles (in addition to the amounts under section 3-2), in the amounts of \$50 annually for truck tractors and buses, \$10 annually for motorcycles, and \$25 annually for all other vehicles and are not to be adjusted for future inflation. The fees collected under Section 3-3 of the bill are intended, subject to appropriations, to be used solely for transportation projects in the state.

- Section 5-1 eliminating the low-emission and zero emission vehicles (LEV/ZEV) credit, is identical to Section 4-1 of the House passed version and increases general fund revenues.
- Section 5-1A provides an income tax credit for qualified motor carriers for local sales and use tax on diesel fuel purchased in Georgia when such purchases are reported as tax paid gallons on such carriers' motor fuel tax returns under the International Fuel Tax Agreement (IFTA).
- Section 5-3, corresponding in part to Section 4-2A of the House passed version, eliminates the partial sales and use tax exemption for jet fuel for qualified airlines. Revenue gains from this provision are, to the extent required by federal law, dedicated to aviation or airport related purposes. However, in addition to the jet fuel exemption, this section also repeals both the back-to-school and energy/water efficient products sales tax holidays currently scheduled, respectively, for July 31 to August 1, 2015, and October 2-4, 2015. The revenue gains from repealing the sales tax holidays are to the general fund, but only affect FY 2016.
- Section 5-4 extends the Code Section 48-8-3.1 partial motor fuel tax exemption from the state sales and use tax from the first 3 percent to the full 4 percent state sales tax, the "fourth penny" of which currently goes to the general fund.
- Sections 5-8 through 5-12 set a maximum amount of certain local sales and use taxes due per gallon of motor fuel. The amount of tax per gallon is set semi-annually (or more frequently under certain circumstances) by multiplying the applicable tax rate by the state-wide average retail price per gallon, net of state and local taxes, by motor fuel type as specified in Code Section 48-8-2, paragraph (23), as amended by Section 5-2 of this bill. Under this bill, the retail sale price per gallon used in such calculation may not be more than \$3.39 for any motor fuel type. Local taxes affected by these bill sections are joint county and municipal (LOST), homestead option (HOST), special purpose local option (SPLOST), and water and sewer projects (MOST) sales taxes as well as the sales tax for

educational purposes (ESPLOST). The bill is silent with regard to so-called second LOST taxes under Code Section 48-8-96 and sales taxes levied in eight counties by pre-1983 local constitutional amendments, but these taxes are assumed to be affected by the Section 5-8 changes to LOST for purposes of their application to motor fuels. The bill makes no changes with regard to the MARTA sales tax, which also applies to motor fuels.

- Section 5-13 increases the state excise tax on motor fuels from 7.5 to 24 cents per gallon and provides for annual adjustments for consumer price (CPI) inflation beginning July 1, 2016.
- Section 5-14 repeals the second motor fuels tax, Code Section 48-9-14, in its entirety.
- Section 5-15 imposes a \$5.00 per day fee on rental motor vehicles, as defined in Code Section 48-13-91, for each day such vehicle is rented or leased. Revenues from this fee are intended, subject to appropriations, to be used solely for transportation projects in the state.

Details of the analysis by the Fiscal Research Center are included in the Appendices to this fiscal note. The appendices are organized as follows:

- Appendix I covers the changes to state motor fuels taxes in Sections 5-4, 5-13, and 5-14.
- Appendix II covers all other changes to state taxes.
- Appendix III covers local revenue effects.

Sincerely,

/s/ Greg S. Griffin

Enclosures: Appendix I– State Revenue and Transportation Funding Effects of Motor Fuels Tax Changes
Appendix II – State Revenue and Transportation Funding Effects of Other Provisions
Appendix III – Local Revenue Effects of Sections 5-8 through 5-12

Section 5-4 of the bill extends the Code Section 48-8-3.1 partial motor fuel tax exemption from the state sales and use tax from the first 3 percent to the full 4 percent state sales tax,

the “fourth penny” of which currently goes to the general fund. Section 5-14 repeals the 3 percent state second motor fuels tax, the revenues from which are currently dedicated to transportation.

Section 5-13 increases the state excise tax on motor fuels from 7.5 cents per gallon to 24 cents per gallon effective July 1, 2015. Beginning July 1, 2016, the excise tax rate will be adjusted annually for inflation based on the year-over-year change in the Consumer Price Index (CPI).

The estimation procedures for the effects of these changes first require development of baseline projections for taxes on motor fuels under current law as described below, followed by proforma projections under the proposed law.

Baseline Estimates under Current Law

To estimate the state revenue effects of LC 34 4630S, the estimates of future motor fuel costs from the Energy Information Association (EIA) were used as well as their assumptions on growth of fuel consumption. To estimate the revenue effects of the excise tax increases and other changes, two baseline revenue projections are estimated: a low fuel price revenue estimate and a high fuel price revenue estimate.

The EIA publishes a near term outlook for fuel prices that is released monthly as well as a long-term outlook that is released annually. The price estimates of gasoline and diesel fuel for the calendar years 2015 and 2016 are taken from the short-term outlook published in January 2015, and take into account the recent large drops in oil prices. The EIA forecasts the average price of regular gasoline in 2015 to be \$2.33, rising to \$2.72 in 2016. This 2016 price forecast, adjusted downward for the current 5 cents per gallon difference in the price of gas nationally and in Georgia, is used as the base year price for both the low price and the high price baseline projections.

The prices of motor fuel for the years 2017-2023 are estimated based on the data in the annual long-term outlook published in 2014, before the recent drop in oil prices. This annual report makes a range of long-run forecasts of gasoline and diesel prices, including a reference forecast as well as low and high price scenarios around the reference forecast. For this estimate, due to the steep drop in oil prices after the report was published, the low price forecast is used to project the low fuel price scenario while the reference forecast is used to project the high fuel price scenario.

In its low price forecast, EIA projects the price of gasoline in 2020 at \$2.88 while the high price scenario (again, EIA’s reference forecast) forecasts a 2020 price of \$3.49. These low and high 2020 price forecasts are also adjusted down by the current 5 cents per gallon difference between Georgia and national average prices. To fill in the missing years, the annual average rate of price growth implicit in these 2016 to 2020 price forecasts is used for all years. For the low fuel price scenario, this growth rate is

approximately 1.47 percent while for the high price scenario the growth rate is approximately 6.54 percent. For diesel, the same methods are used to project prices. The EIA long-range reference forecast also projected annual growth rate for fuel consumption from 2012 through 2020 and beyond. The average projected growth rate for gasoline consumption through 2020 was -1.23 percent per annum in the reference forecast (the high fuel price case herein) and -0.75 percent in the low fuel price case. For diesel, the 2012-2020 average consumption growth rates were projected to be 1.56 percent in the reference (high) case and 1.60 percent in the low price case. These longer-run average growth rates were applied to estimated 2013 consumption of gasoline and diesel fuel in Georgia, as reported by the Federal Highway Administration.

Table I.1 shows the low fuel price baseline projections, including projected prices per gallon of gasoline and diesel as well as the estimated calendar year revenue at current levels of excise taxation, 7.5 cents per gallon, plus the second motor fuels tax at the 3 percent rate. Table I.2 provides the same baseline forecast information under the high price scenario. State sales and use tax revenue from the “fourth penny” under the same baseline scenarios is projected as shown in Table I.3.

Proforma Estimates under the Proposed Law

The proposed changes in the state excise tax, combined with the elimination of the second motor fuels tax and the “fourth penny” state sales tax, the capping of local sales taxes on motor fuels under Sections 5-8 through 5-12, and other changes under the bill, are expected to have behavioral effects on fuel consumption and thus revenues. These expected effects arise first if the tax inclusive fuel price changes as a result of the tax changes and second because of the unequal treatment of excise and sales taxes under IFTA.

Under the two fuel price scenarios, the effect of the proposed changes is to increase tax inclusive prices of gasoline by between 2.4 and 3.0 percent and diesel fuel by between 1.2 and 1.9 percent on average over the 2016-2020 period compared to the current law baseline prices, resulting in a behavioral response by fuel purchasers. Inflationary adjustments to the excise tax in the low and high fuel price cases are based, respectively, on the average annual rate of CPI inflation from 2004 through 2014 (about 2.3 percent annually) and the average over the same period excluding 2009 (about 2.6 percent). The price elasticity of fuel purchasers assumed in both cases to estimate the behavioral response is -0.43, based on estimates from the economic literature, or a 0.43 percent decline in consumption for a 1 percent increase in price.

An additional adjustment factor accounts for the IFTA treatment of sales versus excise taxes. Currently, under Georgia’s hybrid tax system, the state “fourth penny” and the local sales taxes on motor fuel are not credited to long haul truckers under the IFTA system while state excise taxes are credited. Thus when IFTA participating trucks purchase diesel in Georgia, roughly 12 cents per gallon in these taxes does not get credited to the IFTA account. This can have the effect of making diesel more expensive in Georgia on an after tax basis when compared to other states. By creating an excise only state motor fuel tax and extending the sales tax exemption on motor fuels to cover the full state sales tax, all state motor fuel taxes would be credited to the carrier under IFTA. The proposed change in Georgia’s motor fuel tax structure reduces the existing disincentive for IFTA carriers to buy motor fuel in Georgia. The proposed income tax credit under Section 5-1A of the bill for local sales taxes on motor fuel for IFTA carriers would likely have a similar effect for those able to utilize the credit against their Georgia income tax liability.

To account for this change in incentives, it is assumed that the current IFTA differential in Georgia credits, when eliminated as a result of the proposed changes, together with the retail price effects of higher total fuel taxes and the income tax credit, represents an average effective price reduction in diesel of 6.4 cents per gallon. DOR reports the gallons of IFTA credited diesel fuel purchased in Georgia in 2014 at 460.3 million gallons, roughly 36 percent of all diesel purchased in the state in 2014. Using the estimated price elasticity for gas and diesel of -0.43, an additional 24 million gallons of diesel fuel would be expected to be purchased annually in Georgia compared to the low price baseline. As the effective date of the law is July 1, 2015, there is a half year effect on diesel sales in calendar 2015. It is possible that the long haul truckers in the IFTA system have a higher price elasticity for diesel than the average diesel consumer due to the large fuel capacity of long haul trucks, giving them greater flexibility as to where or when to fill up. To account for this, the elasticity is increased by 50 percent to -0.65 for the high price scenario, increasing the response in terms of the amount of diesel fuel purchased to 36 million gallons. The additional motor fuel tax revenues from these additional fuel purchases are included in the proforma projections of revenues for each scenario under the proposed law.

Table I.4 below provides the projected state motor fuel tax revenue under the proposed bill and the changes from current law baseline projections, the latter indicating the effect on revenues dedicated to transportation from these bill provisions.

Sections 3-1 through 3-3 – Highway User Impact Fees

Sections 3-1 and 3-2 change the definition of alternative fuel vehicles and set registration fees for said vehicles. Alternative fuel vehicles are now only those powered solely by electricity, natural gas, and propane. A registration fee of \$200 is charged for noncommercial vehicles and \$300 for commercial vehicles. These fees are to be adjusted annually by the change in the Consumer Price Index (CPI) beginning January 1, 2016. Data from the Georgia Department of Revenue (DOR), the Georgia Statistics System and the Energy Information Administration (EIA) were used to estimate the number of qualifying vehicles under the new definition.

The CPI annual average change was calculated from 2003-2014. As those years include the drop in costs due to the great recession the full average is used in the low growth estimates while the average annual change with the low year of 2009 removed, is used to estimate the high growth amount. Table II.1 shows the additional estimated revenue to the state from House Bill LC 34 4630S sections 3-1 and 3-2.

These previous estimates provide the bases for the estimates summarized in Table II.5.

Section 5-3 also repeals the two sales tax holidays have been estimated previously in fiscal notes, the Tax Expenditure Report for FY 2016, or both. These previous estimates provide the bases for the estimates summarized in Table II.5.

Section 5-15 – Rental Car Fee

Section 5-15 imposes a new \$5 daily fee on all vehicles rented from rental car companies located in the state. The estimate assumes that a rental day is defined in the same manner that the rental car operation computes a rental day. The projected revenue gain to the state from this fee is shown in Table II.6. The fee will apply to all vehicles rented on or after July 1, 2015.

The revenue estimate is based on national rental car revenue data shared down to represent activity in Georgia. National revenue and volume data was obtained from Auto Rental News for 2013 and 2014 and from various company annual financial reports. The revenue data was shared to Georgia based on employment figures for 2012 and 2013 from the U.S. Census Bureau for the NAICS code 532111. The Georgia industry revenue was divided by a revenue per day figure of about \$40 to determine the number of transaction days for the rental car industry in Georgia in 2014. The revenue estimate assumes an annual growth rate of 1.9 percent annually.

RE: Estimated Revenue Generated in Georgia from a \$5-Per Day Tax on Hotel/Motel Stays

The Center for Business and Economic Research in the Richards College of Business estimates the revenue generated from a 5-dollar per day tax on hotel and motel stays to be \$158.1 million. The estimate is based on the number of room-days estimated from Georgia's share of U.S. travel visits and the average occupancy rate across the U.S. The exemption for

extended stays of 30 days or more is not broken out separately. However, the estimate provided is conservative. Extended stays account for less than 0.5% of hotel/motel stays nationally, and are not expected to substantially reduce revenues.

SECTION 1.

An Act known as the "Metropolitan Atlanta Rapid Transit Authority Act of 1965," approved March 10, 1965 (Ga. L. 1965, p. 2243), is amended by revising subsections (a) and (b) of Section 6 as follows:

"(a) On and after January 1, 2017, the Board of Directors of the Authority shall be reconstituted and composed of 11 voting members and two nonvoting members. members shall serve an initial term of two years. After the initial two-year terms of those five board members described in this subsection, that governing ~~body~~ authority or caucus which appointed the member for that initial term to that office shall appoint successors thereto for terms of office of four years in the same manner that such governing ~~body~~ authority or caucus makes its other appointments to the Board.

Those board members in office on May 31, 2014, shall serve until December 31, 2016. The Executive Director of the Georgia Regional Transportation Authority and the Commissioner of the Department of Transportation shall ~~become~~ be nonvoting members of the Board ~~on the effective date of this sentence~~ and shall serve while holding their State offices; provided, however, that notwithstanding any provisions of this Act to the contrary, the Executive Director of the Georgia Regional Transportation Authority shall be a voting member of the Board until December 31, 2016.

Except as provided above, all appointments shall be for terms of four years except that a vacancy caused otherwise than by expiration shall be filled for the unexpired portion thereof by the appointing entity which made the original appointment to the vacant position, or its successor in office. Upon the conclusion of the initial terms provided for in this subsection, the local governing body which appointed the member for that initial term shall appoint a successor thereto for a term of office of four years."

"(a) Except in the acquisition or disposition of unique property which for any reason is unobtainable in the open market, and except as hereinafter otherwise provided, competitive bids shall be secured before any acquisition or disposition of properties by contract or otherwise is made by the Authority, or before any contract is awarded for construction, alterations, supplies, equipment, repairs or maintenance, or for rendering any services to the Authority, acquisitions shall be made from, and contracts awarded to, the lowest responsible bidder, and dispositions of property shall be made to the highest responsible bidder. No acquisition or disposition of any unique property unobtainable in the open market shall be made without the express approval of the Board where the amount involved is ~~\$25,000.00~~ \$200,000.00 or more. Nothing in this Section shall apply to contracts for professional services or the personal services of employees, or to contracts for services of individuals or organizations not employed full time by the Authority but who are engaged primarily in the rendition of personal services and not the sale of goods and merchandise, such as but not limited to the services of attorneys, accountants, engineers, architects, consultants and advisors."

SECTION 3.

Said Act is further amended by revising subsection (e) of Section 17 as follows:

"(e) Not later than December 31, 2016, and every four years thereafter, the Authority shall cause to be performed an independent management audit on the condition of management of the Authority, to be supervised and approved by the Metropolitan Atlanta Rapid Transit Overview Committee. Such management audit shall include the

auditor's recommendations based thereon and the auditor's signed written verification that the Metropolitan Atlanta Rapid Transit Authority fully cooperated with such audit and allowed access to all its books, records, and documents to the extent the auditor deemed necessary. The management audit shall be submitted to the Board of the Authority, the Governor, the State Auditor, and the Metropolitan Atlanta Rapid Transit Overview Committee before December 31 of each year in which it is required. The management audit shall be performed at the expense of the Authority."

SECTION 4.

Said Act is further amended by revising subsection (a) of Section 20 as follows:

"(a)(1) The Board may promulgate reasonable rules and regulations, not inconsistent with law, for the control and management of its operations, properties, employees, and patrons.

(2) Violations of such rules and regulations governing the conduct of the public in or upon the Authority's transportation system shall be punishable by a civil fine or penalty in an amount set by the Board. may be punished by a suspension from the use of Authority services and presence on Authority property for a period of time to be set by the Board or a civil fine or both, provided that such fine shall be no more than \$300.00.

(3) A citation shall be issued for violations of such rules and regulations which shall include notice of suspension from the use of Authority services and presence on Authority property or the civil fine amount or both, as applicable. Such citation shall also state at the top of the citation and in a print size no smaller than the largest print size used on the citation:

(A) That the suspension or civil fine or both may be appealed as provided for in paragraph (4) of this subsection;

(B) The procedures by which such appeal shall be requested, including the mailing, overnight delivery, and hand delivery address to be used for such requests, specifying the required methods of delivery;

(C) That such suspension or civil fine or both shall be deemed final if no appeal is made within 30 days; and

(D) That if no appeal is made, use of Authority services or entry upon Authority property is forbidden and subsequent use of services or entry upon property during a period of suspension shall constitute criminal trespass under Code Section 16-7-21 of the O.C.G.A.

(4) A citation may be appealed to the Authority by written request by registered or certified mail, statutory overnight delivery, or hand delivery within 30 days of the issuance of such citation. Within ten days of receipt of a request for a hearing, the Authority shall respond to the person requesting a hearing to schedule a hearing date, which shall be no later than 30 days from the receipt of the request. If no hearing is requested within 30 days of the issuance of a citation, the suspension or fine issued shall be deemed final and become effective immediately.

(5) The Board shall hire a neutral licensed attorney to be known as the hearing officer

to hear the appeal. Such attorney shall be a member in good standing with the State Bar of Georgia, have been in the practice of law for at least five years, and be appointed for one or more terms of two years subject to removal by majority vote of the Board only for good cause. The Board may appoint more than one neutral licensed attorney to serve as hearing officers subject to the requirements of this paragraph should the case load so require.

(6) The hearing shall, with respect to rules of evidence and procedure, be conducted in accordance with Chapter 13 of Title 50 of the O.C.G.A., the 'Georgia Administrative Procedure Act.'

(7) Within 30 days after the final decision from the hearing officer, a petition may be filed in superior court of the county where the alleged conduct occurred that resulted in a citation. A copy of the petition shall be served upon the Authority. The petition shall state that the petitioner is aggrieved by the decision and the grounds upon which the petitioner contends the decision should be reversed. The filing of a petition for judicial review in superior court does not itself stay enforcement of the citation. The court may reverse or modify the decision if substantial rights of the petitioner have been prejudiced because the decision was clearly erroneous in view of the reliable, probative, and substantial evidence on the whole record.

(8) The Authority may pursue any and all legal remedies for the collection of outstanding fines.

(9) All rules and regulations governing the conduct of the public in or upon the Authority's transportation system and the length of suspension or civil fine or penalty for infraction of such rules and regulations shall be posted in a prominent location on the Authority's website."

SECTION 5.

Said Act is further amended by revising paragraph (1) and subparagraph (2)(A) of subsection (b) and subsection (i) of Section 25 as follows:

"(b)(1) Rate of Tax. The tax when levied shall be at the rate of one (1%) percent until and including June 30, ~~2047~~ 2057, and shall thereafter be reduced to one-half (1/2%) of one percent. Said tax shall be added to the State Sales and Use Tax imposed by Article 1 of Chapter 8 of Title 48 of the O.C.G.A., and the State Revenue Commissioner is hereby authorized and directed to establish a bracket system by appropriate rules and regulations to collect the tax herein imposed in the areas affected.

(2)(A) A local governing body which, on January 1, 1988, is not a party to the Rapid Transit Contract and Assistance Agreement specified in subsection (k) of this Section may enter into a rapid transit contract to provide public transportation services and facilities other than any extension of or addition to the Authority's existing rail rapid transit system and may levy a retail sales and use tax authorized under subsection (a) of this Section at the rate of ~~either one half (1/2%) percent or one (1%) percent, as determined by that contract between such local governing body and the Authority.~~ Such contract shall require that the costs of the transportation

services and facilities contracted for, as determined by the Board of Directors on the basis of reasonable estimates, allocation of costs and capital, and projections shall be borne by one or more of the following:

- (i) Fares;
- (ii) The proceeds of the tax levied in accordance with this subparagraph;
- (iii) Other revenues generated by such services and facilities; and
- (iv) Any subsidy provided, directly or indirectly, by or on behalf of that local governing body which is the party to the contract.

Notwithstanding any limitation in subsection (i) of this Section or any other provision of this Act, the proceeds of the retail sales and use tax levied pursuant to this subparagraph may be used in their entirety to pay the operating costs of the system, as defined in that subsection (i)."

"(i) Use of Proceeds. The proceeds of the tax levied pursuant to this Act shall be used solely by each local government to fulfill the obligations incurred in the contracts entered into with the Metropolitan Atlanta Rapid Transit Authority as contemplated in the Metropolitan Atlanta Rapid Transit Authority Act of 1965, as amended; ~~provided, however, that no more than fifty percent (50%) of the annual proceeds of the tax shall be used to subsidize the operating costs of the system, exclusive of depreciation, amortization, and other costs and charges as provided in this subsection, until January 1, 2002. Such restrictions on the use of annual proceeds from local sales and use taxes shall be suspended through June 30, 2017. If the Board of the Metropolitan Atlanta Rapid Transit Authority shall fail to file with the Governor, the State Auditor, and the chairperson of the Metropolitan Atlanta Rapid Transit Overview Committee annually the original and 14 copies of every four years as provided in subsection (e) of Section 17 of this Act a report of the findings of a completed independent management performance audit of the Authority's current operations that was performed under contract with and at the expense of the Authority, along with any auditor's recommendations based thereon and the auditor's signed written verification that the Metropolitan Atlanta Rapid Transit Authority fully cooperated with such audit and allowed access to all its books, records, and documents to the extent the auditor deemed necessary, then for the period four years beginning January 1, 2003, and ending June 30, 2003, and each fiscal year commencing thereafter until July 1, 2032, of the year immediately following the year in which the completed independent management audit was due but not submitted,~~ no more than fifty percent (50%) of the proceeds of the tax shall be used to subsidize the operating costs of the

If the results of operations in the Authority's fiscal year commencing July 1, 1980, or in any subsequent fiscal year reflect that the proceeds of the tax were not used to subsidize operations to the maximum extent herein provided, the Board shall reserve any amounts that could have been used to subsidize operations in that fiscal year and later use said reserved amounts and any interest earned on said reserved amounts to provide an additional subsidy for operations in any future fiscal year or years.~~ The words 'operating costs of the system' for purposes of this subsection 25(i) are defined to include all of the costs of that division of the Authority directly involved and that portion of the nonoperating administrative costs of those divisions of the Authority indirectly involved, through the provision of support services, in providing mass transportation services for the metropolitan area, but exclusive of the costs of the division or divisions directly involved and that portion of the nonoperating administrative costs of those divisions indirectly involved, in the planning, design, acquisition, construction, and improvement of the rapid transit system, according to accepted principles of accounting, and also exclusive of the following costs:

(2) In the case of leases of equipment or facilities that, according to generally accepted principles of accounting, would not be classified as capital leases, payments of rent, and other payments for the property subject to such leases or for the use thereof; provided that any costs for regular maintenance or repair of such equipment or facilities shall not be excluded.

If any proceeds of the tax levied pursuant to this Act are held for the purpose of planning, designing, acquiring, or constructing additional facilities or equipment for or

improvements to the rapid transit system and are invested, then all interest earned from such investments shall be used only for such purposes or for paying the principal of or interest on bonds or certificates issued for such purposes. ~~Commencing July 1, 1988, and until June 30, 2008, and only if expressly authorized by the board, interest earned on reserve funds set aside for rebuilding, repairing, or renovating facilities of the rapid transit system; for replacing, repairing, or renovating equipment or other capital assets thereof; or from the sale or other disposition of real property, may, without regard to the original source of the funds so reserved, be used to pay the operating costs of the system as such costs are defined in this subsection."~~

A BILL TO BE ENTITLED
AN ACT

To amend an Act providing for the compensation of certain officials in Chatham County, approved March 26, 1986 (Ga. L. 1986, p. 4797), as amended, particularly by an Act approved May 29, 2007 (Ga. L. 2007, p. 4351), so as to provide for the compensation of certain Chatham County officials; to provide for the compensation of the Judge of the Probate Court, the Chief Judge of the State Court, the Chief Magistrate, the full-time Magistrates, and the Presiding Judge of the Juvenile Court of Chatham County; to provide for certain salary adjustments; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

An Act providing for the compensation of certain officials in Chatham County, approved March 26, 1986 (Ga. L. 1986, p. 4797), as amended, particularly by an Act approved May 29, 2007 (Ga. L. 2007, p. 4351), is amended in Section 1 by revising subsections (a) and (b) as follows:

"(a)(1) As used in this subsection, the term 'county supplemental salary' means the amount of compensation remaining after subtracting base salary, cost-of-living allocations granted by either the state or local governing authority, longevity or other statutorily granted fees, or other compensation granted by general law. The county supplemental salary for a county officer or official provided for in this section shall be adjusted as provided for in this subsection or by the Board of Commissioners, so long as such supplemental salary is not reduced for an officer or official during a current term of office.

(2) The officers subject to the provisions of this Act shall receive the following compensation:

(A) The tax commissioner shall receive the minimum annual salary provided by Code Section 48-5-183 of the O.C.G.A. and a salary supplement in the amount of \$18,318.00 per year;

(B) The clerk of the superior court shall receive the minimum annual salary provided by Code Section 15-6-88 of the O.C.G.A. and a salary supplement in the amount of \$18,318.00 per year;

(C) The sheriff shall receive the minimum annual salary provided by Code Section 15-16-20 of the O.C.G.A. and a salary supplement in the amount of \$25,241.00 per year; and

(D) The coroner shall receive the minimum annual salary provided by Code Section 45-16-11 of the O.C.G.A. and a salary supplement in the amount of \$54,000.00 per year.

(3)(A) Actual total compensation received upon the effective date of this Act shall be the current compensation of the officer or official, and such compensation shall not be reduced within a current term of office.

(B) For each successive term of office, should there be a change in the officer or official elected or holding such office by other selection method, then the county supplemental salary shall be eliminated unless action is taken by the Board of Commissioners prior to the conclusion of the current term to continue, increase, or decrease the county supplemental salary.

(C) The Board of Commissioners shall exercise its discretion to grant or deny any increase in county supplemental salary to the extent permitted under general law.

(b)(1) The compensation received by any judge on the effective date of this Act, including salaries, cost-of-living increases, and longevity increases, shall not be reduced during any such judge's current term of office. Should the person serving as a full-time judge on the effective date of this Act be receiving more compensation than the compensation as calculated pursuant to subsection (6) of this Act, then such person shall not be entitled to any further salary adjustments, notwithstanding any other provision of this Act, until his or her salary is in an amount as calculated according to paragraph (6) of this subsection.

(2) No judge shall be entitled to any salary adjustment from county funds except as provided in this subsection. Should any general law be enacted mandating an increase in the total compensation of any judge by a method other than granting a general salary increase to the judges of the superior courts, then the salary adjustments provided for in paragraph (6) of this subsection shall be reduced by an amount equal to the additional amount so granted by general law. Such reduction shall become effective on the first day of the next term of office.

(3) Should any judge not currently entitled to longevity pay pursuant to general law be subsequently granted such longevity pay, the amount of longevity pay provided for in paragraph (6) of this subsection shall be reduced by an amount equal to the longevity pay so granted by general law.

(4) This subsection establishes salaries for the respective judicial officers, and no compensation shall be considered a salary supplement.

(5) Any longevity pay described in paragraph (6) of this subsection shall be effective for each term that begins after January 1, 2016, and no term completed before that date shall be used to compute such longevity pay.

(6)(A)(i) The judge of the probate court shall receive an annual salary equal to the sum of 80 percent of the annual salary of a judge of the superior court provided in Code Section 45-7-4 of the O.C.G.A., plus 80 percent of the annual amount of any supplement paid by the governing authority of Chatham County to a judge of the superior court, excluding any longevity pay to a judge of the superior court pursuant to Ga. L. 1997, p. 4108.

(ii) For each four-year term following the initial term of office, the judge of the probate court shall be entitled to an increase in his or her annual salary in the amount of \$800.00, provided that such longevity increase and any cost-of-living adjustment shall be automatically reduced to reflect an increase provided in general law. This subparagraph shall apply to terms beginning on or after January 1, 2016.

(ii) For each four-year term following the initial term of office, the chief judge of the state court shall be entitled to an increase in his or her annual salary in the amount of \$950.00, provided that such longevity increase and any cost-of-living adjustment shall be automatically reduced to reflect an increase provided in general law. This subparagraph shall apply to terms beginning on or after January 1, 2016.

(D)(i) The chief magistrate shall receive an annual salary equal to the sum of 85 percent of the annual salary of a judge of the superior court as provided in Code Section 45-7-4 of the O.C.G.A., plus 85 percent of the annual amount of any supplement paid by the governing authority of Chatham County to a judge of the superior court, excluding any longevity pay to a judge of the superior court pursuant to Ga. L. 1997, p. 4108. In addition, the governing authority of Chatham County shall pay to the chief magistrate of the magistrate court an additional salary supplement as additional compensation for performing the duties incumbent upon a chief judge equal to 85 percent of the salary supplement paid to the Chief Judge of the Eastern Judicial Circuit.

(ii) For each four-year term following the initial term of office, the chief magistrate shall be entitled to an increase in his or her annual salary in the amount of \$850.00, provided that such longevity increase and any cost-of-living adjustment shall be automatically reduced to reflect an increase provided in general law. This subparagraph shall apply to terms served after January 1, 2016.

(E)(i) Each full-time magistrate shall receive an annual salary equal to the sum of 85 percent of the annual salary of a judge of the superior court as provided in Code Section 45-7-4 of the O.C.G.A., plus 85 percent of the annual amount of any supplement paid by the governing authority of Chatham County to a judge of the superior court, excluding any longevity pay to a judge of the superior court pursuant to Ga. L. 1997, p. 4108.

(ii) For each four-year term following the initial term of office, each full-time magistrate shall be entitled to an increase in his or her annual salary in the amount of \$850.00, provided that such longevity increase and any cost-of-living adjustment shall be automatically reduced to reflect an increase provided in general law. This subparagraph shall apply to terms served after January 1, 2016.

(F) With the combined consent of the Board of Commissioners and the judges of the superior court, the presiding judge of the juvenile court and the judges of the juvenile court shall receive an annual salary equal to the sum of 90 percent of the annual salary of the judge of the superior court.

State Representative

SUBJECT: State Auditor's Certification
House Bill 266 (LC 21 3570)

Dear Representative Battles:

This bill would amend general provisions relating to investment and reinvestment of assets of local governments. Under current statute, the board of trustees of any local retirement system has the full power to invest and reinvest assets of the retirement system and to purchase, hold, sell, assign, transfer and dispose of any securities and other investments. This legislation clarifies that these powers shall be subject to all terms, conditions, limitations, and restrictions imposed by Article 7 of Chapter 20 of Title 47 of the Official Code of Georgia Annotated in making and disposing of their investments. Article 7 is the Public Retirement Systems Investment Authority Law, which governs the investment practices of all public retirement systems.

This is to certify that this bill is a nonfiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

/s/ Greg S. Griffin
State Auditor

The Senate Committee on Retirement offered the following substitute to HB 266:

A BILL TO BE ENTITLED
AN ACT

To amend Title 47 of the Official Code of Georgia Annotated, relating to retirement and pensions, so as to correct certain provisions relative to the investment authority of local retirement systems; to correct the name of a certain council; to modify a definition related to the Georgia Municipal Employees Benefit System; to modify provisions related to the return of mandatory employee contributions in the Georgia Municipal Employees Benefit System; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Title 47 of the Official Code of Georgia Annotated, relating to retirement and pensions, is amended in Chapter 1, relating to investment and reinvestment of assets of local retirement system, valuation and limitation on investments, and duties of the state auditor, by revising subsection (a) of Code Section 47-1-12, relating to investment and reinvestment of assets of local retirement system, as follows:

"(a) The board of trustees of any local retirement system shall have full power to invest and reinvest assets of the retirement system and to purchase, hold, sell, assign, transfer, and dispose of any securities and other investments in which assets of the retirement system have been invested, any proceeds of any investments, and any money belonging to the retirement system; provided, however, that, except as otherwise provided in this Code section, such power shall be subject to all terms, conditions, limitations, and restrictions imposed by ~~the laws of this state upon domestic life insurance companies~~ Article 7 of Chapter 20 of this title in making and disposing of their investments."

SECTION 2.

Said title is further amended in Chapter 2, relating to the Employees' Retirement System of Georgia, by revising paragraph (1) of subsection (a) of Code Section 47-2-323, relating to membership in retirement system of employees of the Georgia Public Defender Standards Council, creditable service, and contributions, as follows:

"(1) 'Council' means the Georgia Public Defender ~~Standards~~ Council established by Code Section 17-12-3."

SECTION 3.

Said title is further amended in Chapter 5, relating to the Georgia Municipal Employees Benefit System, by revising paragraph (6) of Code Section 47-5-2, relating to definitions, as follows:

"(6) 'Employee' means any full-time salaried or hourly rated person in the active service of an employer and any employees of the board of trustees. Notwithstanding any laws to the contrary, the term also includes any appointed or elected member of the governing authority of a municipal corporation of this state or of an employer created pursuant to the charter of a municipal corporation of this state, the chief legal officer or any associate legal officer of a municipal corporation, and any municipal officer elected or appointed to preside over the court of a municipal corporation. Said term shall also include part-time employees of an employer for the purposes of participating in employee benefit plans."

SECTION 4.

Said title is further amended in said chapter by revising Code Section 47-5-47, relating to return of contributions to employee or employee's estate, as follows:

"47-5-47.

~~Plans~~ Except as otherwise provided with respect to the provision of death benefits under a plan, plans providing for retirement benefits established under this chapter shall provide that mandatory contributions made by a participating employee shall be returned to such ~~employee~~ employee's surviving spouse or his to the estate of the participant or the participant's pre-retirement beneficiary in the event of death before retirement. If the employee is separated from employment prior to the time he or she is eligible for retirement benefits, such contributions shall be returned unless the employee chooses to claim his or her vested benefits, in which case the employee

contributions shall remain with the fund until such time as the employee becomes eligible for the vested benefits. Such contributions may be returned without interest or with such interest as is provided in the plan."

SECTION 5.

All laws and parts of laws in conflict with this Act are repealed.

SUBJECT: State Auditor's Certification
Substitute to House Bill 266
(LC 43 0150S)

Dear Senator Hufstetler:

This substitute bill would amend general provisions relating to investment and reinvestment of assets of local governments. Under current statute, the board of trustees of any local retirement system has the full power to invest and reinvest assets of the retirement system and to purchase, hold, sell, assign, transfer and dispose of any securities and other investments. Article 7 is the Public Retirement Systems Investment Authority Law, which governs the investment practices of all public retirement systems.

Additionally, this substitute bill would amend provisions under the Employees' Retirement System that relate to the Georgia Public Defender Standards Council. Specifically, this bill would revise references to the name of the Council to coincide with separate legislation that would officially change the entity's name to the 'Georgia Public Defender Council.'

Furthermore, this substitute bill amends certain provisions relating to the Georgia Municipal Employees Benefit System. Specifically, this bill would amend the definition of the term 'employee' to include any appointed or elected member of an employer created pursuant to the charter of a municipal corporation of this state. This substitute bill would also clarify provisions relating to the return of mandatory contributions in the event of a member's death before retirement. If this substitute bill is enacted, such contributions would be returned to the member's surviving spouse or to the estate of the member or the member's pre-retirement beneficiary.

This is to certify that this substitute bill is a nonfiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

/s/ Greg S. Griffin

(b) Special meetings of the city council may be held on call of the mayor or four members of the city council. Notice of such special meeting shall be served on all other members personally, or by telephone personally, at least 48 hours in advance of the meeting. Such notice to councilmembers shall not be required if the mayor and all councilmembers are present when the special meeting is called. Such notice of any special meeting may be waived by a councilmember in writing before or after such a meeting and attendance at the meeting shall also constitute a waiver of notice on any business transacted in such councilmember's presence. Only the business stated in the

call may be transacted at the special meeting.

(c) All meetings of the city council shall be public to the extent required by law and notice to the public of special meetings shall be given as required by law.

No councilmember shall abstain from voting except in the case of a conflict of interest or if absent when a motion being voted upon was made. The councilmember shall provide a specific explanation of the conflict, and the explanation shall be recorded in the journal.

(b) Except as otherwise provided in this charter, the affirmative vote of a majority of the councilmembers present shall be required for the adoption of any ordinance, resolution, or motion.

SECTION 3.16.

An emergency ordinance shall be introduced in the form prescribed for ordinances generally, except that it shall be plainly designated as an emergency ordinance and shall contain, after the enacting clause, a declaration stating that an emergency exists and describing the emergency in clear and specific terms. An emergency ordinance may be adopted, with or without amendment, or rejected at the meeting at which it is introduced, but the affirmative vote of a majority of the councilmembers present shall be required for adoption. It shall become effective upon adoption or at such later time as it may specify. Every emergency ordinance shall automatically stand repealed 30 days following the date upon which it was adopted, but this shall not prevent reenactment of the ordinance in the manner specified in this section if the emergency continues to exist. An emergency ordinance shall also be repealed by adoption of a repealing ordinance in the same manner specified in this section for adoption of emergency ordinances.

SECTION 3.19.

Codes.

(a) The city council may adopt any standard code of technical regulations by reference thereto in an adopting ordinance. The procedure and requirements governing such adopting ordinance shall be as prescribed for ordinances generally except that: (1) the requirements of subsection (b) of Section 3.16 of this charter for distribution and filing of copies of the ordinance shall be construed to include copies of any code of technical

The general codification shall be adopted by the city council by ordinance and shall be published promptly together with all amendments thereto and shall contain such codes of technical regulations and other rules and regulations as the city council may specify. This compilation shall be known and cited officially as "The Code of the City of South Fulton, Georgia." Copies of the code shall be furnished to all officers, departments, and agencies of the city and shall be made available for purchase by the public at a reasonable price as fixed by the city council.

(c) The city council shall cause each ordinance and each amendment to this charter to be promptly delivered in an appropriate format to that entity or agency that the city has retained to facilitate the codification and online viewing and download of all city ordinances, charter amendments, and technical regulations. Ordinances, charter amendments, and technical regulations shall otherwise be available in hard copy format for viewing and copying at the office of the city clerk in conformance with Code Section 50-18-70, et seq., of the O.C.G.A. Following publication of the first code under this charter and at all times thereafter, the ordinances and charter amendments shall be made available, whether in electronic or hard copy format, in substantially the same style as the code then in effect and shall be suitable in form for incorporation within the code. The city council shall make such further arrangements as deemed desirable with reproduction and distribution of any changes in or additions to codes of technical regulations and other rules and regulations included in the code.

SECTION 3.21.

However, if the mayor fails to return an ordinance to the city clerk within ten business days of receipt, it shall become law at 12:00 Midnight on the tenth business day after receipt. If the ordinance is vetoed by the mayor, the mayor shall submit to city council, through the city clerk, the reasons for the mayor's veto. The city clerk shall record upon the ordinance the date of its delivery to and its receipt from the mayor.

(c) An ordinance vetoed by the mayor shall automatically be on the agenda at the next regular meeting of the city council for reconsideration. If the minimum number of councilmembers necessary to vote to override the veto are not present, the action may be continued until the next meeting at which such minimum number of councilmembers are present. The city council may override a veto by the mayor and adopt any ordinance that has been vetoed by the mayor by the affirmative votes of at least five councilmembers, not including the mayor.

(d) In addition, the mayor may disapprove or reduce any item or items of appropriation in any ordinance or resolution. The approved part or parts of any ordinance or resolution making appropriations shall become law, and the part or parts disapproved or reduced shall not become law unless subsequently passed by the city council over the mayor's veto as provided herein. (a) The city council by ordinance shall establish a millage rate for the city property tax, a due date, and the time period within which these taxes must be paid. The city council by ordinance may provide for the payment of these taxes by installments or in one lump sum, as well as authorize the voluntary payment of taxes prior to the time when due.

(b) For all years, the millage rate imposed for ad valorem taxes on real property shall not exceed 13.469 unless a higher millage rate is recommended by resolution of the city council and subsequently approved by a majority of the qualified voters of the city voting in a referendum. For the purposes of this subsection, the term "qualified voters" means those voters of the city who are qualified to vote in city elections and cast a vote for or against such measure in such referendum. This millage rate limit shall apply to the millage rate actually levied and shall not apply to the hypothetical millage rate computed under subsection (a) of Code Section 48-8-91 of the O.C.G.A., relating to conditions on imposition of the joint county and municipal sales tax.

SECTION 6.12.
Occupation taxes and business license fees.

The city council by ordinance shall have the power to levy such occupation or business taxes as are not denied by law. Such taxes may be levied on both individuals and corporations who transact business in this city or who practice or offer to practice any profession or calling within the city to the extent such persons have a constitutionally sufficient nexus to this city to be so taxed. The city council may classify businesses, occupations, professions, or callings for the purpose of such taxation in any way which may be lawful and may compel the payment of such taxes as provided in Section 6.18 of this charter.

SECTION 6.13.

Licenses.

The city council by ordinance shall have the power to require any individual or corporation who transacts business in this city or who practices or offers to practice any profession or calling within the city to obtain a license or permit for such activity from the city and pay a reasonable fee for such license or permit where such activities are not now regulated by general law in such a way as to preclude city regulations. Such fees may reflect the total cost to the city of regulating the activity and, if unpaid, shall be collected as provided in Section 6.18 of this charter. The city council by ordinance may establish reasonable requirements for obtaining or keeping such licenses as the public health, safety, and welfare necessitate.

SECTION 6.14.

SECTION 6.15.

Sewer fees.

The city council by ordinance shall have the power to assess and collect fees, charges, and tolls for sewers, sanitary and health services, or any other services provided or made available inside or outside the corporate limits of the city for the total cost to the city of providing or making available such services. If unpaid, such charges shall be collected as provided in Section 6.18 of this charter.

SECTION 6.16.

Roads.

The city council by ordinance shall have the power to assess, charge, and collect the costs of constructing, reconstructing, widening, or improving any public way, street, sidewalk, curbing, gutters, sewers, or other utility mains and appurtenances from the abutting property owners under such terms and conditions as are reasonable. If unpaid, such charges shall be collected as provided in Section 6.18 of this charter.

SECTION 6.17.

Other taxes.

This city shall be empowered to levy any other tax allowed now or hereafter by law, and the specific mention of any right, power, or authority in this article shall not be construed as limiting in any way the general powers of this city to govern its local affairs.

SECTION 6.18.

Collection of delinquent taxes.

The city council by ordinance may provide generally for the collection of delinquent taxes, fees, or other revenue due the city under Sections 6.10 through 6.17 of this charter by whatever reasonable means as are not precluded by law. This shall include providing for the dates when the taxes or fees are due, late penalties or interest, issuance and execution of fi. fas., creation and priority of liens, making delinquent taxes and fees personal debts of the persons required to pay the taxes or fees imposed, revoking city licenses for failure to pay any city taxes or fees, and providing for the assignment or transfer of tax executions.

SECTION 6.19.

Borrowing.

The city council shall have the power to issue bonds for the purpose of raising revenue to carry out any project, program, or venture authorized under this charter or the laws of the state. Such bonding authority shall be exercised in accordance with the laws governing bond issuance by municipalities in effect at the time said issue is undertaken.

SECTION 6.20.

Revenue bonds.

Revenue bonds may be issued by the city council as state law now or hereafter provides. Such bonds are to be paid out of any revenue produced by the project, program, or venture for which they were issued.
