- (D) Provide data systems to support the professional growth of teachers and leaders and facilitate human capital management.

(7) As used in this subsection, the term 'flexibility contract' means a charter for a charter system or a contract entered into with the State Board of Education for a strategic waivers school system."

SECTION 2.

Said article is further amended by revising Code Section 20-2-281, relating to student assessments, as follows:

20-2-281.

(a) The State Board of Education shall adopt a student assessment program consisting of instruments, procedures, and policies necessary to implement the program and shall fund all costs of providing and scoring such instruments, subject to appropriation by the General Assembly. The student assessment program shall include a comprehensive summative assessment program for grades three through 12. In addition, each local school system shall administer, with state funding, a research based formative assessment with a summative component that is tied to performance indicators in English, language arts/reading, and mathematics in grades one and two, subject to available appropriations. Each local school system may elect to administer, with state funding, nationally norm-referenced instruments in reading, mathematics, science, or social studies in grade three, four, or five and in grade six, seven, or eight, subject to available appropriations, with assistance to such school systems by the State Board of Education with regard to administration guidance, scoring, and reporting of such instruments. Further, the State Board of Education shall adopt a school readiness assessment for students entering first grade and shall administer such assessment pursuant to paragraph (2) of subsection (b) of Code Section 20-2-151. Each local

school system is strongly encouraged to develop and implement a program of multiple formative assessment and intervention assessments in reading and mathematics for kindergarten through third grade and mathematics for kindergarten through fifth grade to ensure that students entering sixth grade are on track to meet grade-level expectations, including mastery in reading by the end of third grade to prepare for the infusion of literacy in subsequent grades and mastery in basic mathematics skills by the end of fifth grade and in accordance with the local school system's five-year strategic plan, performance indicators, and, if applicable, flexibility contract. The State Board of Education shall periodically review, revise, and upgrade the content standards. Following the adoption of such content standards, the State Board of Education shall contract for development of end-of-grade assessments to measure the content standards. ~~Such~~ As part of the comprehensive summative assessment program, end-of-grade assessments in English, language arts/reading, and mathematics shall be administered annually to students in grades three through eight, and such tests in science and social studies shall be administered annually to students in grades three through five and eight. For local school systems that have an existing program of multiple formative assessments during the course of the academic year that result in a single summative score that is valid and reliable in measuring individual student achievement or growth and assessing individual student needs or deficiencies, such local assessments may take the place of an end-of-grade assessment, if provided for in the terms of the local school system's flexibility contract. These tests shall contain features that allow for comparability to other states with whom establishing such comparison would be statistically sound; provided, however, that no such comparison shall be conducted which would relinquish any measure of control over assessments to any individual or entity outside the state. ~~This action shall be completed according to a schedule established by the State Board of Education.~~ Further, as part of the comprehensive summative assessment program, the State Board of Education shall adopt and administer, through the Department of Education, end-of-course assessments for students in grades nine through 12 for all core subjects, as determined by the state board. Writing performance shall be assessed, at a minimum, for students in grades three, five, eight, and 11 and may be assessed for students in additional grade levels as designated by the State Board of Education. Such required writing performance assessment may be embedded within the assessments included in the comprehensive summative assessment program. Writing performance results shall be provided to students and their parents. As used in this subsection, the term 'flexibility contract' means a charter for a charter system or a contract entered into with the State Board of Education for a strategic waivers school system.

(b) The nationally norm-referenced instruments provided for in subsection (a) of this Code section shall provide students and their parents with grade equivalencies and percentile ranks which result from the administration of such instruments. End-of-grade assessments shall provide for results that reflect student achievement at the individual student, classroom, school, system, state, and national levels. The State Board of Education shall participate in the National Assessment of Educational

Progress (NAEP) and may participate in any other tests that will allow benchmarking this state's performance against national or international performance. The results of such testing shall be provided to the Governor, the General Assembly, and the State Board of Education and shall be reported to the citizens of Georgia. ~~Further, the state board shall adopt a school readiness assessment for students entering first grade and shall administer such assessment pursuant to paragraph (2) of subsection (b) of Code Section 20-2-151.~~ One of the components in the awarding of salary supplements as part of a pay for performance or related plan under this article may be assessments of student achievement.

(b.1) The State Board of Education shall notify local school systems and individual schools of the results of the assessment instruments administered under this Code section at the earliest possible date determined by the state board, but not later than the beginning of the subsequent school year. In the event the state board is unable to provide timely results in the first year of implementation of a substantially new assessment instrument, the provisions in paragraphs (2) and (3) of subsection (b) of Code Section 20-2-283 shall not apply.

(c) The State Board of Education shall have the authority to condition the awarding of a high school diploma to a student upon achievement of satisfactory scores on end-of course assessments and other instruments adopted and administered by the state board pursuant to subsection (a) of this Code section ~~and the end-of course assessments adopted and administered by the state board pursuant to subsections (f) and (h) of this Code section.~~ The state board is authorized and directed to adopt regulations providing that any disabled child, as defined by the provisions of this article, shall be afforded opportunities to take any test adopted by the state board as a condition for the awarding of a high school diploma. Such regulations shall further provide for appropriate accommodations in the administration of such test. Such regulations shall further provide for the awarding of a special education diploma to any disabled student who is lawfully assigned to a special education program and who does not achieve a passing score on such test or who has not completed all of the requirements for a high school diploma but who has nevertheless completed his or her Individualized Education Program.

(d)(1) The State Board of Education shall develop or adopt alternate assessments to be administered to those students with significant cognitive disabilities, receiving special education services pursuant to Code Section 20-2-152, who cannot access the state adopted content standards without appropriate accommodations to those standards and for whom the assessment instruments adopted under ~~subsections~~ subsection (a) ~~and (f)~~ of this Code section, even with allowable accommodations, would not provide an appropriate measure of student achievement, as determined by the student's Individualized Education Program team. Such alternate assessments shall be aligned with alternate academic achievement standards that have been adopted through a documented and validated standards-setting process, for students with the most significant cognitive disabilities, provided those standards are aligned with the state standards established pursuant to Code Section 20-2-140 and promote

access to the general education curriculum, consistent with the federal Individuals with Disabilities Education Act. The State Board of Education shall ensure that any alternate assessments developed or adopted pursuant to this subsection are in compliance with applicable federal law, but do not impose requirements in excess of such federal law in a manner that unduly burdens a local school system or that does not benefit students with the most significant cognitive disabilities.

(2) A student's Individualized Education Program team shall determine appropriate participation in assessment and identify necessary accommodations in accordance with the federal Individuals with Disabilities Education Act and state board regulations.

(e) The State Board of Education is authorized to adopt rules, regulations, policies, and procedures regarding accommodations and the participation of limited-English-proficient students, as defined in Code Section 20-2-156, in the assessments described in this Code section.

~~(f) The State Board of Education shall adopt end-of-course assessments for students in grades nine through 12 for all core subjects to be determined by the state board.~~ For those students with an Individualized Education Program, each such student's Individualized Education Program team shall identify necessary accommodations in accordance with the federal Individuals with Disabilities Education Act and state board regulations.

(g) Under rules adopted by the State Board of Education, the Department of Education shall, subject to appropriations by the General Assembly, release some or all of the questions and answers to each end-of-grade assessment and each end-of-course assessment administered under subsection (a) of this Code section ~~and each end-of-course assessment administered under subsection (h) of this Code section~~ after the last time such assessment is administered for a school year.

~~(h) The State Board of Education, through the Department of Education, shall administer the end-of-course assessments for core subject areas as defined by state board policy. By the 2015-2016 school year, the State Board of Education shall make all end-of-course assessments available for administration online and shall establish rules and regulations to maximize the number of students and school systems utilizing such online assessments.~~

(i) The Department of Education shall develop study guides for the end-of-grade assessments and end-of-course assessments administered pursuant to ~~subsections~~ subsection (a) ~~and (h)~~ of this Code section. Each school system shall distribute the study guides to students who do not perform satisfactorily on one or more parts of an assessment instrument administered under this Code section and to the parents or guardians of such students.

(j) The State Board of Education shall adopt rules and regulations requiring the results of core subject end-of-course assessments to be included as a factor in a student's final grade in the core subject course for which the end-of-course assessment is given.

(k) In addition to the assessment instruments adopted by the State Board of Education and administered by the Department of Education, a local school system may adopt and

administer criterion-referenced or norm-referenced assessment instruments, or both, at any grade level. Such locally adopted assessment instruments may not replace the state's adopted assessment instruments for purposes of state accountability programs. A local school system shall be responsible for all costs and expenses incurred for locally adopted assessment instruments. Students with Individualized Education Programs must be included in the locally adopted assessments or provided an alternate assessment in accordance with the federal Individuals with Disabilities Education Act.

(l) In adopting academic skills assessment instruments under this Code section, the State Board of Education or local school system shall ensure the security of the instruments in their preparation, administration, and scoring. Notwithstanding any other provision of law, meetings or portions of meetings held by the state board or a local board of education at which individual assessment instruments or assessment instrument items are discussed or adopted shall not be open to the public, and the assessment instruments or assessment instrument items shall be confidential.

(m) The results of individual student performance on academic skills assessment instruments administered under this Code section shall be confidential and may be released only in accordance with the federal Family Educational Rights and Privacy Act of 1974, 20 U.S.C. Section 1232g.

(n) Overall student performance data shall be disaggregated by ethnicity, sex, socioeconomic status, disability, language proficiency, grade level, subject area, school, system, and other categories determined by policies established by the Office of Student Achievement.

(o) Student performance data shall be made available to the public, with appropriate interpretations, by the State Board of Education, the Office of Student Achievement, and local school system. The information made available to the public shall not contain the names of individual students or teachers.

(p) Teachers in kindergarten through grade 12 shall be offered the opportunity to participate annually in a staff development program on the use of tests within the instructional program designed to improve students' academic achievement. This program shall instruct teachers on curriculum alignment related to tests, disaggregated student test data to identify student academic weaknesses by subtests, and other appropriate applications as determined by the State Board of Education.

(q) The State Board of Education shall consider the passage by a student of an industry certification examination or a state licensure examination which is approved by the State Board of Education or a ~~COMPASS~~ an ACCUPLACER score approved by the State Board of Education when considering whether to grant such student a variance or a waiver of one or more end-of-course assessments or other instruments required by the State Board of Education pursuant to subsection (c) of this Code section in order to obtain a Georgia high school diploma; provided, however, that the state board shall not grant a variance to a student unless the student has attempted and failed to pass the relevant end-of-course assessment or assessments at least four times.

(r) Local boards of education shall have the flexibility to administer state required assessments on any dates within the testing window established by the Department of

Education; provided, however, that local boards of education are strongly encouraged to administer any such state required assessments within the last week of the school system's midyear semester, for assessments administered at the end of a midyear semester, and within the last two weeks of the school year for the school system, for assessments administered at the end of the academic year.

(s) All assessments adopted or developed by the State Board of Education pursuant to this Code section shall be verified for reliability and validity by a nationally recognized, research based, third-party evaluator."

SECTION 3.

Said article is further amended by revising Code Section 20-2-283, relating to specific requirements for students in grades three, five, and eight, as follows:

A BILL to be entitled an Act to amend Part 4 of Article 6 of Chapter 2 of Title 20 of the Official Code of Georgia Annotated, relating to financing under the "Quality Basic Education Act," so as to provide for temporary exemption from certain financial reporting requirements for local school systems participating in a federally authorized pilot program; to provide for related matters; to provide for automatic repeal; to repeal conflicting laws; and for other purposes.

The Senate Committee on Education and Youth offered the following substitute to SB 374:

A BILL TO BE ENTITLED
AN ACT

To amend Part 4 of Article 6 of Chapter 2 of Title 20 of the Official Code of Georgia Annotated, relating to financing under the "Quality Basic Education Act," so as to authorize a pilot program for the 2016-2017 school year to provide for consolidated federal, state, and local funds; to provide for the purposes of the pilot program; to provide for temporary waivers of certain financial reporting requirements for pilot school systems; to provide for reports on the pilot program; to provide for related matters; to provide for automatic repeal; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Part 4 of Article 6 of Chapter 2 of Title 20 of the Official Code of Georgia Annotated, relating to financing under the "Quality Basic Education Act," is amended by adding a new Code section to read as follows:

"20-2-172.

(a) For the 2016-2017 school year only, the Department of Education shall be authorized to conduct a pilot program in which local school systems participating in the pilot program consolidate federal, state, and local funds to support a school-wide program, as allowed by 20 U.S.C. Section 6314(a)(1).

(b) The purpose of the pilot program shall be to:

(1) Determine whether state fiscal and accounting barriers can be modified or eliminated so that schools can easily consolidate federal, state, and local funds to improve educational opportunities and reduce fiscal and accounting requirements, as provided in Section 1005 of the federal Every Student Succeeds Act;

(2) Demonstrate that consolidation of funds creates flexibility to more effectively upgrade the entire educational program of a Title I school, with a focus on academically struggling students;

(3) Simplify the consolidated application and accelerate the approval of the

application and disbursement of federal program funds;

(4) Demonstrate the benefit of not having to identify individual services as supplementary or track individual expenditures by the federal program;

(5) Simplify time and effort relative to documentation;

(6) Determine how state financial reporting requirements can be changed to accommodate local school systems that may want to consolidate funds in future years;

(7) Study various methodologies that might be used by local school systems to demonstrate, in accordance with Section 1012 of the federal Every Student Succeeds Act, within two years of the enactment of such federal act, that the methodology used to allocate state and local funds to each school ensures that each such school receives all of the state and local funds it would otherwise receive if it were not receiving assistance under Title I;

(8) Assist the department in identifying important issues that will help the department optimize the new Title I plan that it will submit to the United States Department of Education as required by the federal Every Student Succeeds Act; and

(9) Identify any other objectives by the department and the local school systems participating in the pilot program that arise during the pilot program.

(c) To allow the department flexibility in operating the pilot program for the 2016-2017 school year, notwithstanding any other provision of law to the contrary, the State Board of Education shall be authorized to waive or provide variances to provisions of this title and state board rules, to the extent reasonably necessary, regarding financial reporting requirements, including but not limited to Code Sections 20-2-320, 20-2-321, 20-14-33, and 20-14-34 and any rule promulgated by the State Board of Education regarding financial reporting requirements, to implement the pilot program in accordance with the purposes established pursuant to subsection (b) of this Code section, allowing, in particular, the pilot school systems to submit financial reports based on consolidated funds rather than segregating state and local funds from the consolidated pool.

(d) The department shall be authorized to add one or more data elements to the certified/classified personnel information data collection procedure for the purpose of allowing the pilot school systems to report personnel paid from a consolidated pool of funds in a manner that will allow the school system to receive the correct amount of state dollars for training and experience and insurance premiums for the state health benefit plan.

(e) The department and the pilot school systems shall continue to comply with all federal laws, regulations, and reporting requirements.

(f) During the pilot program, the department and the pilot school systems shall jointly report each month to the State Board of Education concerning the progress of the pilot program, including an assessment of risks and benefits. The State Board of Education shall be authorized to approve additional waivers of state requirements that may be reasonably necessary to meet the goals of the pilot program.

(g) On or before February 15, 2017, the department and the pilot school systems shall jointly report to the Senate Education and Youth Committee and the House Committee

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 6 of Title 32 of the Official Code of Georgia Annotated, relating to the regulation of maintenance and use of public roads, so as to provide for the purpose of the Roadside Enhancement and Beautification Council; to provide for the issuance of permits for the removal or trimming of vegetation on state rights of way when such vegetation obstructs the target viewing zone of a building, sign, or structure upon commercial property; to provide for procedures, conditions, and limitations for the issuance of such permits; to provide for definitions; to provide for legislative intent; to provide for the department to set standards for applications and fees for such permits; to prohibit the removal or certain types of vegetation; to provide for penalties; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 6 of Title 32 of the Official Code of Georgia Annotated, relating to the regulation of maintenance and use of public roads, is amended in Code Section 32-6-75.1, relating

to membership, purpose, and compensation of the Roadside Enhancement and Beautification Council, by revising subsection (b) as follows:

"(b) The council shall aid the commissioner in formulating policies and discussing problems related to the administration of this article and Part 1 of Article 5 of this chapter. In addition, the council shall:

(1) Review, comment upon, and make recommendations to the commissioner on the standards and policies to be used in the trimming and removal of vegetation on state rights of way in front of legally erected and maintained outdoor advertising signs and commercial sites as such term is defined in subparagraph (a)(1)(A) of Code Section 32-6-136;

(2) Make recommendations to the department regarding standards for vegetation removal and landscape and maintenance plans submitted by permittees including without limitation the use of viewing zones under Code Section 32-6-75.3 and Code Section 32-6-136;

(3) Review the performance of permittees holding current tree and vegetation trimming permits issued under Code Section 32-6-75.3 and Code Section 32-6-136 for compliance with the requirements of such permits including without limitation the implementation of landscaping plans;

(4) Encourage the contribution of funds from appropriate sources to support roadside enhancement and beautification;

(5) Submit to the commissioner annually not later than 30 days after the date of its fourth quarter meeting a written report of findings based upon its reviews of permittees' performances and recommendations including without limitation any recommendations for expenditures for roadside enhancement and beautification; and

(6) Perform such other functions as may be specified for the council by the department.

The council shall have full and complete access to all department records necessary for the performance of its duties."

SECTION 2.

Said chapter is further amended by adding a new Code section to read as follows:

"32-6-136.

(a)(1) For purposes of this Code section, the term:

(A) 'Commercial site' means a building, sign, or structure located upon commercial property when such property is used for commercial or industrial purposes.

(B) 'Removal' or 'removed' means the elimination of trees or other vegetation from a viewing zone.

(C) 'Target view zone' means an area of a viewing zone extending from a commercial site to a roadway which allows for the visibility of the commercial site by passing motorists.

(D) 'Trimming' or 'trimmed' means the pruning of excess limbs or branches from trees or other vegetation which are not removed from a viewing zone.

(E) 'Viewing zone' means a continuous 500 foot horizontal distance parallel to a

state right of way and adjacent to or otherwise within the line of sight of a specific point on a commercial site designated by the property owner in the permit application.

(2) The General Assembly finds and declares that commercial businesses and enterprises provide a substantial service and benefit to Georgia, Georgia's citizens, and the economy of this state. The General Assembly further finds that in the interest of safety to motorists and pedestrians, there is a benefit to the traveling public to be able to locate and identify a commercial site. The General Assembly further finds the economy of this state is benefited and trade is promoted when a traveling motorist can easily identify a place of business. Therefore, the General Assembly declares it to be in the public interest that provisions be made for the visibility of commercial sites located along the highways in this state to provide information regarding businesses offering goods and services available to the general public. Recognizing, however, that the beautification of this state and the health of its environment are absolutely essential and equally as important to the traveling public, the General Assembly finds and declares that such needs must be balanced.

(b) To promote the objectives provided in paragraph (2) of subsection (a) of this Code section, and in accordance with the provisions of this Code section, the commissioner shall provide by rule and regulation for the issuance and annual renewal of permits for the trimming and removal of trees and other vegetation on state rights of way within viewing zones with respect to commercial sites adjacent to such rights of way. Such rules and regulations shall include, without limitation, standards for survival of trees and other vegetation trimmed or planted.

(c) Application for a tree or vegetation trimming or removal permit and the annual renewal thereof shall be made upon the forms prescribed and provided by the department and shall contain the signature of the applicant and such other information as may be required by the department's rules and regulations.

(d) An application fee shall accompany the application for each tree or vegetation trimming or removal permit, and both the application and fee shall be submitted to the department. There shall be an annual renewal of the permit for activities in the original scope of the permit. The department shall promulgate rules and regulations setting forth the application fees and renewal fees. Such application and renewal fees shall be established by the department in reasonable amounts in order to fully recover the costs of administering the tree or vegetation maintenance program.

(e)(1) The department shall evaluate each application for a permit and require as a condition of granting any such permit under this Code section that the value of the landscaping to be either provided or paid for by the applicant is not less than the department's appraised value of the benefit to be conferred by the state upon the applicant by allowing the trimming or removal of trees or other vegetation as requested, which shall be the value of the trees or vegetation to be trimmed or removed; provided, however, that a permit may be granted to an otherwise qualified applicant when the value of the landscaping to be either provided or paid for by the applicant is less than the department's appraised value of the trees or other vegetation

to be trimmed or removed if, in addition, the applicant pays to the department an amount equal to the amount of the difference between the value of the landscaping to be either provided or paid for by the applicant and the department's appraised value of the trees or other vegetation to be trimmed or removed.

(2) Any measurement of vegetation to be removed for valuation purposes shall be made at diameter breast height as shown in the section entitled 'Height of Measurement' in the *Guide for Plant Appraisal (9th Edition)* as published by the International Society of Arboriculture. Based on the substantial benefit to the state when dead or diseased trees are removed from a right of way and the negligible value of dead or diseased trees, such trees shall not be measured or valued in determining the appraised value. Trees shall only be deemed dead or diseased if listed as such in the report of a certified forester or arborist, subject to review and approval by the department. Within 60 days of receipt of a properly completed application, the department shall issue the permit for vegetation maintenance.

(3)(A) For purposes of this paragraph, the term 'historic tree' means a tree or group of trees that are reasonably determined by the department to be:

(i) Identified by a unit of government to recognize an individual or group;

(ii) Located at the site of a historic event and to have a significant impact on an individual's perception of the event;

(iii) Dated to the time of a historic event at the location of the tree or group of trees, as identified by a unit of government; or

(iv) Confirmed as the progeny of a tree or group of trees that meets any of the criteria contained in this subparagraph.

(B) For purposes of this paragraph, the term 'landmark tree' means a tree or group of trees that:

(i) Has been planted and maintained for educational purposes for more than 75 years;

(ii) Was planted as a memorial to an individual, group, event, or cause and is more than 75 years old; or

(iii) Symbolizes a historically significant individual, place, event, or contribution, as recognized by a unit of government prior to July 1, 2016.

(C) For purposes of this paragraph, the term 'specimen tree' means a hardwood tree or group of hardwood trees that is determined to be in excess of 75 years of age as determined by a registered forester or arborist.

(D) The applicant shall be allowed to remove all trees and other vegetation from the target view zone. Tree and other vegetation removal shall be prohibited in all areas of the viewing zone outside of the target view zone; provided, however, that portions of trees and other vegetation, such as tree limbs, which extend into the target view zone from outside the target view zone may be trimmed as necessary to preserve the clear target view zone. The only vegetation which cannot be removed from the target view zone pursuant to this subparagraph shall be historic trees, landmark trees, and specimen trees, as defined in subparagraphs (A) through (C) of this paragraph, and any tree or other vegetation planted as part of a permitted local,

state, or federal government beautification project.

(E) Pruning or trimming of trees or other vegetation under a permit shall conform to industry standards as defined by the National Arborist Association, International Society of Arboriculture, or ANSI A300 pruning standards as of January 1, 2016, or such later edition as may be adopted by rule or regulation of the department.

(4) An applicant's record of conduct regarding disturbance of trees or other vegetation on state rights of way shall be considered by the department as part of the evaluation process for any permit or permit renewal application.

(5) Prior to approving any permit application to remove allegedly dead or diseased trees, the department shall verify that such trees are in fact dead or diseased. Such determination shall be made by the department's landscape architect.

(6) A performance bond in an amount adequate for the requirements of the permit as determined by the department shall be required of each permittee.

(f)(1) No trees or other vegetation on state rights of way shall be trimmed, killed, or removed by any person other than in accordance with a permit issued under this Code section by any person other than the department or an authorized agent or contractor thereof.

(2)(A) In cases where the department has reasonable cause to believe that a violation of this subsection has been committed by any person, the department shall provide notice to the permittee detailing the alleged violation in accordance with Code Section 50-13-13.

(B) Following a notice, a hearing, and a finding that a person has committed a violation of paragraph (1) of this subsection, a civil fine of not less than \$10,000.00 nor more than \$20,000.00 and restitution in an amount equal to the appraised value of the trees or vegetation, or both, which were unlawfully trimmed or removed shall be imposed on such person.

(g) Nothing in this Code section shall supersede any applicable local rules or ordinances. The department shall not deny an applicant a tree or vegetation trimming or removal permit for complying with applicable local rules or ordinances."

 Senate Bill 335 (LC 43 0274)

This bill would amend provisions relating to the Public Retirement Systems Investment Authority Law. If this legislation is enacted, retirement systems would also be authorized to invest in commingled funds and collective investment funds that are maintained by state chartered banks or trust companies.

This is to certify that this bill is a nonfiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

Mr. David Cook
Secretary of the Senate
353 State Capitol
Atlanta, Georgia 30334

Mr. Cook,

On the morning of February 23, 2016, Legislative Day 26, I was incapacitated by violent stomach virus. Out of respect for the members of this body, and those who assist us in our duties, I elected to not come to the Capitol. In keeping with respect for my colleagues and the rules, I called the whip to which I am assigned and asked to be excused due to my illness, and he agreed to do so.

However, that morning a motion was made to suspend the roll call. That motion prevailed, and I was left unexcused. Thus, the records incorrectly reflect that I failed to fulfill my responsibilities to vote that day.

I request that the journal reflect that I had followed the rules to be excused and that if I had been present I would have voted as follows:

Morning Roll Call - Y
Local Consent Calendar - Y
SB 323 - Y
SB 356 - N
SR 954 - Y

Respectfully submitted,

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 5 of Title 26 of the Official Code of Georgia Annotated, relating to drug abuse treatment and education programs, so as to provide for a moratorium on the issuance of new applications for licensure of narcotic treatment programs; to create the State Commission on Narcotic Treatment Programs; to provide legislative findings and intent; to provide for the membership, powers, duties, compensation, and allowances of the commission; to provide for the abolishment of the commission; to suspend the acceptance of applications for licensure of narcotic treatment programs for a certain period; to provide for exceptions; to provide for related matters; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 5 of Title 26 of the Official Code of Georgia Annotated, relating to drug abuse treatment and education programs, is amended by adding a new Code section to read as follows:

"26-5-21.

(a) A temporary moratorium on the acceptance of new applications for licensure of narcotic treatment programs authorized under this chapter through June 30, 2017, would provide the General Assembly with time to study the need for any changes to the licensure requirements for the operation of such programs and the enactment of any other additional laws to ensure the safety of Georgia's citizens. With respect to the licensure of narcotic treatment programs in this state, the General Assembly finds that:

(1) There is a vital need for narcotic treatment programs that provide adequate medical, counseling, vocational, educational, mental health assessment, and social services to patients enrolled in the opioid treatment program with the goal of the individual achieving recovery;

(2) There is a growing concern as to the numbers and concentration of narcotic treatment programs located in certain parts of this state and that concentration of such narcotic treatment programs is in cities along Georgia's borders with neighboring states;

(3) There are reported and documented increases in heroin addiction and overdoses throughout this state;

(4) There is a grave concern over the public's well-being concerning the potential abuses of methadone and its relationship to geographic proximity, the population being served, and whether patients are receiving adequate treatment;

(5) Georgia is eighth in population but third nationally in the number of narcotic treatment programs; and

(6) There is a need to study the narcotic treatment program licensure requirements and enforcement and other issues that may arise out of this study.

(b) There is created the State Commission on Narcotic Treatment Programs to be composed of three members of the House of Representatives to be appointed by the Speaker of the House of Representatives; three members of the Senate to be appointed by the President of the Senate; five members to be appointed by the Governor to include the commissioner of community health or his or her designee, the commissioner of behavioral health and developmental disabilities or his or her designee, and three members who represent a cross section of interests of narcotic treatment program owners, pharmacists, and law enforcement. The Speaker of the House of Representatives and the President of the Senate shall each select a cochairperson. The cochairpersons shall call all meetings of the commission. Administrative support for the commission shall be provided by the staff of the Department of Community Health, as appropriate.

(c) The commission shall perform the following by December 31, 2016:

(1) Examine the current narcotic treatment program licensure requirements for adequacy;

(2) Assess how the current licensure requirements and enforcement of such requirements meet the purpose of providing adequate medical, counseling, vocational, educational, mental health assessment, and social services to patients enrolled in these programs and how these programs can be assessed for meeting the opioid treatment

program goal of the individual achieving recovery;

(3) Determine if the geographic service areas are reasonable and based on an optimal balance between population density and service proximity and whether the sociodemographic in the service area and the projected population to receive services are being considered;

(4) Determine the cause and effect of hospital admittance for overdose and incidents of suicide, if any, in relation to the adequate licensure and oversight of these programs;

(5) Determine what legislative changes need to be made to licensure requirements of narcotic treatment programs or any other changes to the law to address concerns that arise out of this study; and

(6) Solicit expert testimony on the efficacy of nonnarcotic, medically assisted treatments for opioid dependence.

(d) The legislative members of the commission shall be entitled to receive the compensation and allowances provided for in Code Section 28-1-8. Members of the commission who are state officials, other than legislative members, or state employees shall receive no compensation for their services on the commission but may be reimbursed for expenses incurred by them in the performance of their duties as members of the commission in the same manner as they are reimbursed for expenses in their capacities as state officials or employees. Members of the commission who are not legislators, state officials, or state employees shall receive a daily expense allowance in an amount the same as that specified in subsection (b) of Code Section 45-7-21, as well as the mileage or transportation allowance authorized for state employees, and the funds for payment thereof shall come from funds of the Department of Community Health.

(e) This commission may conduct such meetings at such places and at such times as it may deem necessary or convenient to enable it to exercise fully and effectively its powers, perform its duties, and accomplish the objectives and purposes of this Code section.

(f) The commission shall stand abolished on January 1, 2017.

(g) New applications for licensure of narcotic treatment programs in this state shall be temporarily suspended starting from the effective date of this Code section through and including June 30, 2017, in order to permit the commission to complete its report and recommendations and to permit the General Assembly to act on those recommendations during the 2017 legislative session.

(h) Between the effective date of this Code section and June 30, 2017, the department shall not accept any new applications for licensure of a narcotic treatment program.

(i) The temporary suspension of new applications for licensure of narcotic treatment programs shall not affect applications pending on the effective date of this Code section, renewals, program name changes, program location changes, or program ownership changes."

SECTION 2.

This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 3.

All laws and parts of laws in conflict with this Act are repealed.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 31 of Title 36 of the Official Code of Georgia Annotated, relating to incorporation of municipal corporations, is amended by adding new Code sections to read as follows:

"36-31-13.

(a) On and after January 1, 2017, any bill to incorporate a new municipal corporation in any county and any bill for reorganization of local government authorized by Paragraph II of Section III of Article IX of the Constitution, or by any general law adopted pursuant to such Paragraph, may be introduced in the General Assembly during the first year of the term of office.

(b) During the interim between the first and second sessions of the General Assembly, a financial viability, fiscal impact, and service delivery study shall be prepared by a public academic research institution regarding the incorporation of the proposed municipal corporation. Such study shall be based on the interim service delivery strategy required by subsection (c) of this Code section and shall include, but not be limited to, the following issues:

(1) The economic viability of the proposed municipal corporation and the amount of taxes and fees necessary to sustain the services to be provided by the new municipal corporation in the first year of its corporate existence and the estimated amount of taxes and fees necessary to sustain the services projected for the subsequent five- and ten-year periods;

(2) The financial impact of the incorporation of the municipal corporation on the remaining unincorporated area of the county and existing municipal corporations within the county, and the amount of taxes and fees necessary to sustain the services provided by the county to the unincorporated area and existing municipal corporations after the incorporation;

(3) The financial impact of the incorporation of the municipal corporation on the county in which such municipal corporation is located and the amount of taxes and fees necessary to sustain the services provided by the county on a county-wide basis after the incorporation;

(4) An estimate of the financial impact of any pension obligations directly attributable to the provision of local government services by the county in the unincorporated area of the county proposed for incorporation which may be left unfunded as a result of the incorporation. In order to calculate the estimate required by this paragraph, the county shall provide a copy of the most recent actuarial valuation of the county pension fund to the academic research institution preparing the study required by this subsection within 30 days of the request for the valuation being made to the county; and

(5) To the extent the study projects that the new municipal corporation will receive fees or tax revenues for the granting of franchises or contracts pursuant to paragraph (7) of Code Section 36-34-2, the study shall estimate the financial impact of such utility franchise fees or taxes on utility bills of the utility customers within the proposed municipality upon incorporation and an estimate of the increase in total cost to all utility customers affected by changes in the rate base of the utility paying the franchise fees or taxes to the proposed municipality upon incorporation.

(c) Notwithstanding the provisions of paragraph (1) of subsection (e) of Code Section 36-31-8, during the interim between the first and second sessions of the General

Assembly, a service delivery strategy proposal shall be prepared and submitted for the purpose of identifying the information and assumptions required by paragraphs (2) and (3) of subsection (b) of this Code section. The local delegation consisting of all members of the General Assembly whose districts are wholly or partially within the county or counties in which the new municipal corporation is proposed to be located may appoint an advisory committee to assist with the preparation of the service delivery strategy proposal, and any such advisory committee's assistance shall be advisory only in nature and shall not hinder or delay the service delivery strategy proposal's preparation. The proposal shall be prepared for advisory purposes only and shall not be binding on the governing authority of the municipality upon incorporation. The interim service delivery strategy proposal shall generally follow the requirements of Article 2 of Chapter 70 of this title, but shall specifically address the following components:

(1) An identification of all local government services proposed to be provided or primarily funded by the new municipal corporation and any change in services to be provided by the county as a result of the new incorporation;

(2) A description of the source of the proposed funding for each service identified pursuant to paragraph (1) of this subsection; and

(3) An identification of the mechanisms, as that term is defined in paragraph (5.3) of Code Section 36-70-2, to be utilized to facilitate the implementation of the services and funding responsibilities identified pursuant to paragraphs (1) and (2) of this subsection.

(d) The corporate limits of a new municipal corporation shall not create unincorporated islands. As used in this subsection, the term 'unincorporated island' means an unincorporated area:

(1) With its aggregate external boundaries abutting the new municipal corporation; or

(2) With its aggregate external boundaries abutting any combination of the new municipal corporation and one or more other existing municipalities or counties, including areas separated by the width of an interstate highway from the boundaries of the new municipal corporation.

36-31-14.

(3)(A) A driver's privilege card shall be valid only for the privilege of operating a motor vehicle upon a highway in this state and shall not be valid for identification purposes, including but not limited to verifying the identity, residency, or citizenship status of its holder.

(a.2) Any person who is a current recipient of a grant of deferred action from the United States Department of Homeland Security and who has a valid driver's license shall, upon expiration of such driver's license, be subject to the provisions of this chapter relating to a driver's privilege card."

"(c)(1) Except as provided in paragraph (2) of this subsection and in Code Section 40-5-32, no person shall receive a driver's license or driver's privilege card unless and until such person surrenders to the department all valid licenses in such person's

possession issued to him or her by this or any other jurisdiction. All surrendered licenses issued by another jurisdiction shall be destroyed. The license information shall be forwarded to the previous jurisdiction. No person shall be permitted to have more than one valid driver's license or more than one valid driver's privilege card at any time or a valid driver's license and a valid driver's privilege card at the same time.

(2) Any noncitizen who is eligible for issuance of a driver's license or driver's privilege card pursuant to the requirements of this chapter may be issued a driver's license or driver's privilege card without surrendering any driver's license or such other similar licenses previously issued to him or her by any foreign jurisdiction. This exemption shall not apply to a person who is applying for a commercial driver's license or who is required to terminate any previously issued driver's license or similar license pursuant to federal law. The department shall make a notation on the driving record of any person who retains a foreign driver's license, and this information shall be made available to law enforcement officers and agencies on such person's driving record through the Georgia Crime Information Center."

State Senator
Coverdell Legislative Office Building, Room 304-A
Atlanta, Georgia 30334

SUBJECT: State Auditor's Certification
Senate Bill 336 (LC 43 0254)

Dear Senator Black:

This bill would amend provisions relating to the Georgia Municipal Employees Benefit System. Specifically, this bill would now allow each employer to establish a retirement plan or plans by resolution of the governing body of a municipal corporation. Currently, this must be done by ordinance of the governing body of a municipal corporation or by resolution of the governing body of other employers. This bill would also clarify that employee contributions cannot exceed 50 percent of the value of an employee's benefit payable from the plan, except with respect to any employee contributions made to purchase additional service credit.

This bill further amends provisions under the Georgia Municipal Employees Benefit System that relate to the establishment and use of master plans. Currently the Board of Trustees has the authority to establish master plans which may be adopted by any employer that has fewer than 16 employees who are qualified to participate and wish to make such election. If this legislation is enacted, eligibility for participation would be expanded to also allow employers with 16 or more eligible employees to participate in the master plan. Additionally, this bill would clarify that employee contributions into a master plan cannot exceed 50 percent of the value of an employee's benefit payable from the plan, except with respect to any employee contributions made to purchase additional service credit.

This is to certify that this bill is a nonfiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

/s/ Greg S. Griffin
State Auditor

A BILL to be entitled an Act to amend Chapter 2 of Title 20 of the Official Code of Georgia Annotated, relating to elementary and secondary education, so as to revise provisions relating to standards for local board of education members; to provide that establishing a code of ethics is in the discretion of the local board of education; to eliminate required training for local board of education members; to provide for related matters; to repeal conflicting laws; and for other purposes.

The Senate Committee on Education and Youth offered the following substitute to SB 357:

**A BILL TO BE ENTITLED
AN ACT**

To amend Chapter 2 of Title 20 of the Official Code of Georgia Annotated, relating to elementary and secondary education, so as to revise provisions relating to standards for local board of education members; to provide that a code of ethics shall not interfere in rights of free speech; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 2 of Title 20 of the Official Code of Georgia Annotated, relating to elementary and secondary education, is amended by revising Code Section 20-2-49, relating to standards for local board of education members, as follows:

"20-2-49.

The General Assembly finds that local boards of education play a critical role in setting the policies that lead to the operation and success of local school systems. School board members hold special roles as trustees of public funds, including local, state, and federal funds, while they focus on the singular objective of ensuring each student in the local school system receives a quality basic education enabling the student to fulfill his or her God-given potential and equipping him or her for full citizenship in our constitutional republic. Board duties require ~~specialized~~ skills and training in the performance of vision setting, policy making, approving multimillion dollar budgets, and hiring a qualified superintendent. The motivation to serve as a member of a local board of education should be the improvement of schools, which should include maintaining accreditation, and the academic achievement of all students, and the effective representation of parents' and other constituents' interests in the operation of the local school system. Service on a local board of education is important citizen service. ~~Given service and representation, given the specialized nature and unique role of membership on a local board of education, this elected office should be characterized and treated differently from other elected offices where the primary duty is independently to represent constituent views. Local board of education members should abide by~~ A local board of education shall create a code of conduct and conflict of interest policy modeled for their unique roles and responsibilities by which each member should abide, provided that no such code of conduct or conflict of interest policy may interfere with a member's right to free speech under the First Amendment to the United States Constitution and Article I, Section I, Paragraph V of the Georgia Constitution. ~~And although there are many measures of the success of a local board of education, one is clearly essential: maintaining accreditation and the opportunities it allows the school system's students."~~

SECTION 2.

Said chapter is further amended by revising subsection (e) of Code Section 20-2-51, relating to election of local board of education members, persons ineligible to be members or superintendent, ineligibility for local boards of education, and ineligibility for other elective offices, as follows:

"(e) In addition to any other requirements provided by law, no person shall be eligible for election as a member of a local board of education unless he or she:

- (1) Has read and understands the code of ethics and the conflict of interest provisions ~~applicable to members of local boards of education~~ established for service on the local board of education and has agreed to abide by them; and
- (2) Has agreed to annually disclose compliance with the State Board of Education's policy on training for members of local boards of education, the code of ethics of the local board of education, and the conflict of interest provisions applicable to members of local boards of education.

Each person offering his or her candidacy for election as a member of a local board of education shall file an affidavit with the officer before whom such person has qualified

for such election prior to or at the time of qualifying, which affidavit shall affirm that he or she meets all of the qualifications required pursuant to this subsection. This subsection shall apply only to local board of education members elected or appointed on or after July 1, 2010."

SECTION 3.

Said chapter is further amended by revising Code Section 20-2-72, relating to code of ethics for local board of education members, as follows:

"20-2-72.

(a) The State Board of Education shall adopt a model code of ethics for members of local boards of education by October 1, 2010. Such model code of ethics shall also include appropriate consequences for violation of a provision or provisions of such code. The State Board of Education may periodically adopt revisions to such model code as it deems necessary.

(b) Within three months of adoption by the State Board of Education of a model code of ethics pursuant to subsection (a) of this Code section, each local board of education shall adopt a code of ethics that includes, at a minimum, such model code of ethics, provided that no such code of conduct or conflict of interest policy may interfere with a member's right to free speech under the First Amendment to the United States Constitution and Article I, Section I, Paragraph V of the Georgia Constitution. Each local board of education shall incorporate into its code of ethics any revisions adopted by the State Board of Education to the model code of ethics pursuant to subsection (a) of this Code section within three months of adoption of such revisions."

SECTION 4.

All laws and parts of laws in conflict with this Act are repealed.

Senator Williams of the 27th offered the following amendment # 1:

Amend sub to SB 357 by on Line 22 striking, after the word interests, "in the operation of" and replacing with the word "on".

A RESOLUTION

Proposing an amendment to the Constitution so as to declare English as the official language of the State of Georgia; to provide for findings; to provide that official state actions be in English; to prohibit any requirement that any language other than English be used in any documents, regulations, orders, transactions, proceedings, meetings, programs, or publications; to prohibit discrimination, penalties, or other limits on participation against persons who speak only English; to provide for exceptions; to provide for certain rights of action; to provide for severability; to provide for the submission of this amendment for ratification or rejection; and for other purposes.

BE IT RESOLVED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article I, Section II of the Constitution is amended by adding a new Paragraph X to read as follows:

"Paragraph X. *English as Official Language.* (a) The people of Georgia find and declare that:

(1) English is the common language of the State of Georgia and of the United States. The use of a common language removes barriers of misunderstanding and helps to unify the people of this state and of the United States, and a compelling state interest exists in promoting, preserving, and strengthening the use of English;

(2) Since the designation by statutory law in 1996 of the English language as the official language of the State of Georgia, the state has experienced great economic growth, including being named as the number one state to do business in 2014 and 2015;

(3) The government should promote proficiency in English in order to enable the full economic and civic participation of all its citizens;

(4) Proficiency in English and in languages other than English benefits the state both commercially and culturally and should be encouraged; and

(5) Among the powers reserved to each state is the power to establish English as its official language and otherwise to promote the use of English within the state.

(b)(1) English is the official language of the State of Georgia.

(2) Official actions of this state which bind or commit the state or which give the appearance of presenting the official views of the state shall be taken in English.

(3) No law, ordinance, decree, program, or policy of this state or any of its political subdivisions, including, but not limited to, the administration of driver's license examinations for all classes of licenses by the Department of Driver Services, shall use any language other than English for any documents, regulations, orders, transactions, proceedings, meetings, programs, or publications except as provided in subparagraph (c) of this Paragraph.

(4) A person who speaks only English shall be eligible to participate in all programs, benefits, and opportunities, including employment, provided by this state or its political subdivisions, except when required to speak another language as provided in subparagraph (c) of this Paragraph.

(5) No law, ordinance, decree, program, or policy of this state or its political subdivisions shall penalize or impair the rights, obligations, or opportunities available to any person solely because a person speaks only English.

(c) The state and its political subdivisions may use a language other than English for any of the following purposes:

(1) To teach or encourage the learning of languages other than English;

(2) To protect the public health or safety;

(3) To teach English to those who are not fluent in the language;

(4) To permit the use of American Sign Language and to comply with any other applicable federal law;

(5) To protect the rights of victims of crime and criminal defendants;

(6) To ensure equality of access to a court of competent jurisdiction;

(7) To promote diplomacy, trade, commerce, and tourism;

(8) To create or promote state or agency mottos, inscribe public monuments, and perform other acts involving the customary use of a language other than English; and

(9) To utilize terms of art or terms of phrases from other languages which are commonly used in communications otherwise in English.

(d) The declaration and use of English as the official language of the State of Georgia shall not be construed as infringing upon the rights of any person to use a language other than English in private communications or actions, including the right of government officials, including elected officials, to communicate with others while not performing official actions of the state.

(e) Any person who is a resident of or doing business in the State of Georgia shall have standing to sue any agency or official of the State of Georgia to seek a declaratory judgment as to whether this Paragraph has been violated and to seek injunctive relief. A qualified person may file suit even if the Attorney General or other appropriate official of the state has not filed such a suit. A person who prevails, in whole or in part, in such a suit shall be entitled to the costs of bringing and maintaining the suit, including reasonable attorney fees.

(f) If any provision of this Paragraph or the applicability of any provision of this Paragraph to any person or circumstance shall be held to be invalid by a court of competent jurisdiction, the remainder of this Paragraph shall not be affected and shall be given effect to the fullest extent practicable.

(g) Nothing in this Paragraph shall be interpreted as conflicting with the laws of the United States."

SECTION 2.

The above proposed amendment to the Constitution shall be published and submitted as provided in Article X, Section I, Paragraph II of the Constitution. The ballot submitting

the above proposed amendment shall have written or printed thereon the following:

"() YES Shall the Constitution of Georgia be amended so as to provide that
() NO English is the official language of the State of Georgia?"

All persons desiring to vote in favor of ratifying the proposed amendment shall vote "Yes." All persons desiring to vote against ratifying the proposed amendment shall vote "No." If such amendment shall be ratified as provided in said Paragraph of the Constitution, it shall become a part of the Constitution of this state.

The following Minority Report on SR 675 was filed with the Secretary:

Senate Rules Committee
Minority Report
February 26, 2016

The undersigned members of the Senate Rules Committee offer the following report to express our disagreement with the committee report on Senate Resolution 675.

This legislation is completely unnecessary because English is already the official language of Georgia under state law. This resolution extends state law, but only in a problematic way. It would prohibit any other government publications from being in multiple languages. This would limit agencies' and local governments' ability to efficiently serve their customers and constituents. Instead of working to integrate new residents into Georgia culture, this barrier further reduces communication with Georgians and makes assimilation harder for new Americans.

The biggest issue is that this resolution expressly states that the driver's license test would only be administered in English. 13% of Georgians speak a language other than English at home, 5.7% of whom are not fluent in English. Even bilingual people may be more comfortable using another language. For an examination, it makes sense to give people the option to take it in the language that they communicate best in. Not only is this discriminatory, it negatively impacts public safety because an increased barrier to licensed driving means more unlicensed drivers on the road. Additionally, one needs a driver's license to get car insurance. Adding this barrier to obtaining a license means more uninsured drivers on the road.

Finally, we already require verification of citizenship to get a driver's license or other public benefits. This resolution will do *nothing* to combat illegal immigration.

Respectfully Submitted,

/s/ Sen. Steve Henson, District 41

/s/ Sen. Horacena Tate, District 38

/s/ Sen. Gloria Butler, District 55

(b) Prior to an expenditure of any public funds for the establishment, maintenance, and operation of a fixed guideway transit in any county that is a mass transportation regional system participant, the governing authority of such county shall obtain

approval from a majority of qualified voters of the county in a separate referendum question as provided for in this Code section.

(c) Prior to the issuance of the call for the referendum, the governing authority of the county that is a mass transportation regional system participant shall adopt a resolution which shall specify the type and location of a fixed guideway transit, the capital costs to establish such fixed guideway transit, the date upon which the capital costs to establish such fixed guideway transit shall be paid in full, and an estimate of the projected annual costs for maintenance and operation of such fixed guideway transit.

Title 49 of the Official Code of Georgia Annotated, relating to social services, is amended by adding new Code sections to read as follows:

"49-4-12.1.

(a) As used in this Code section, the term 'sanction' means a 100 percent reduction of any assistance provided to a program participant for three months for the first material violation, six months for the second material violation, one year for the third material violation, and termination of any assistance provided to the program participant for a fourth material violation within a time period established by the board; provided, however, that the department may determine that there is good cause not to apply such a sanction in specific circumstances.

(b) A program participant shall be subject to sanction for failing to comply with the state plan if the program participant:

(1) Violates any personal responsibility or work participation requirement; provided, however, that a single custodial parent with a child under 12 months of age may be exempt from any work participation requirement until adequate child care is available;

(2) Except for violations of this chapter which result in the program participant no longer being eligible for assistance, violates any other term or condition specified in the federal Social Security Act, as amended, the state plan, or the rules and regulations of the board; or

(3) Fails to pay child support as required by Chapter 6 of Title 19 or by any similar law of any other state.

49-4-12.2.

(a) No later than July 1, 2017, the department shall conduct data matches using the name, date of birth, address, social security number of each applicant and program participant, and additional data provided by the applicant or program participant relevant to eligibility against public records and other relevant data sources to verify eligibility data.

(b) The contractor selected by the department, upon completing an eligibility data

verification of an applicant or program participant, shall notify the department of the results, except that the contractor shall not verify the eligibility of persons residing in long-term care facilities whose income and resources were at or below the applicable financial eligibility standards at the time of their last review. Within 20 business days of such notification, the department shall make an eligibility determination. The department shall retain final authority over eligibility determinations. The contractor shall keep a record of all eligibility data verifications communicated to the department.

(c) Within 30 days of the end of each calendar year, the department and contractor shall file a joint report on a yearly basis to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The report shall include, but shall not be limited to, the number of applicants and program participants determined ineligible for assistance programs based on the eligibility data verification by the contractor and the stated reasons for the determination of ineligibility by the department.

"49-4-182.

(a) There is created the Georgia Temporary Assistance for Needy Families Program, which shall be known as the 'Georgia TANF Program.' The purpose of such program is to provide necessary assistance to needy families with children on a temporary basis and to provide parents, legal guardians, or other caretaker relatives of children with the necessary support services to enable such parents, legal guardians, or caretaker relatives to become self-sufficient and leave the program as soon as possible. After an initial assessment and once the state determines an applicant is ready for work, applicants for assistance shall be required to engage in a work activity in accordance with Part A of Title IV of the federal Social Security Act, as amended, and the state plan as soon as possible after making application for assistance, but in any event no later than 24 months after first receiving cash assistance.

(b) Assistance shall be provided in accordance with the state plan and any future amendments thereto. Cash assistance to a recipient who is not a minor child and who is a head of a household or married to the head of a household shall be limited to a lifetime maximum of 48 months, whether or not consecutive, beginning January 1, 1997; provided, however, that the lifetime maximum shall not apply to any family to which the department has granted an exemption for reasons of hardship or if the family includes an individual who has been battered or subjected to extreme cruelty, provided that the average monthly number of such families in a fiscal year shall not exceed 20 percent of the average monthly number of families to which TANF is provided during

the current fiscal year or the immediately preceding fiscal year.

(c) Nothing in this article, the state plan, or any rules or regulations adopted pursuant to this article shall be interpreted to entitle any individual or any family to assistance under the Georgia TANF Program."

SECTION 3.

Said article is further amended by revising subsection (b) of Code Section 49-4-183, relating to administration of article by department, promulgation of rules and regulations by board, and duties of the department, as follows:

(1) Methods of administration necessary for the proper and efficient operation of the state plan for implementation of this article;

(2) Reasonable standards for determining eligibility and the extent of assistance available for recipients;

(3) Consideration of the income and resources of an applicant for assistance in determining eligibility; provided, however, that in order to encourage the formation and maintenance of two-parent families, when a TANF recipient marries, the new spouse's income and assets shall be disregarded for six consecutive months. This disregard shall be a once-in-a-lifetime benefit for the recipient;

(4) Personal responsibility obligations and work activity requirements consistent with Part A of Title IV of the federal Social Security Act, as amended, and the state plan, provided that programs included in the personal responsibility obligations established by the board shall include counseling on abstinence until marriage; and provided, further, that a single custodial parent with a child under 12 months of age may be exempt from any work activity requirement until adequate child care is available;

(6) Specific conduct which would authorize the reduction or termination of assistance to a recipient, including but not limited to that specified in Code Section 49-4-185;

(7) Standards whereby certain obligations, requirements, and criteria will be waived for specific applicants or recipients based on hardship;

(8) An administrative hearing process with hearings to be conducted by the Office of State Administrative Hearings in accordance with Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act,' and subsection (b) of Code Section 49-4-13;

(9) Safeguards which restrict the use and disclosure of information concerning applicants for and recipients of assistance under this article and in accordance with Code Section 49-4-14 and Part A of Title IV of the federal Social Security Act, as amended;

(10) Immunizations for specified diseases for preschool age children as a condition of assistance being provided for such children, and the schedule of and standards for administering such immunizations, including the presentation of a certificate of immunization, unless:

(A) There is appropriate evidence from the local health department or a physician that an immunization sequence has been started and can be completed within a period of up to 180 days, in which case a waiver of the immunization requirement for up to 180 days shall be granted;

(B) After examination by the local board of health or a physician, any preschool age child is found to have a physical disability which may make vaccination undesirable, in which case a certificate to that effect issued by the local board of health or the physician may be accepted in lieu of a certificate of immunization and shall exempt the child from obtaining a certificate of immunization until the disability is relieved;

(C) The parent or legal guardian furnishes an affidavit swearing or affirming that the immunization conflicts with the religious beliefs of the parent or legal guardian;
or

(D) The implementation of such an immunization requirement violates any federal law or regulations or would result in the loss of any federal funds to this state; ~~and~~

(11) The establishment and maintenance of individual development accounts. The funds in such accounts may be used for postsecondary educational expenses, the purchase of a first home, or business capitalization. The funds in such accounts shall not be considered in determining eligibility for cash assistance pursuant to 42 U.S.C. Section 604(h); and

"49-4-184.1.

Beginning July 1, 2017, the department shall implement a cash diversion program that grants eligible TANF recipients lump sum cash grants for short-term needs, as well as job referrals or referrals to career centers, in lieu of signing up for the long-term monthly cash assistance program upon a showing of good cause as determined by the department. Such lump sum grants shall be available for use once in a 12 month period and only five times in a lifetime. Good cause may include loss of employment, excluding voluntarily quitting or being dismissed due to poor job performance or failure to meet a condition of employment; catastrophic illness or accident of a family member that requires an employed recipient to leave employment; a domestic violence incident; or any other situation or emergency that renders an employed family member unable to care for the basic needs of the family. The board shall promulgate rules and regulations determining the parameters for the cash diversion program, including good cause determinations, and shall set the lump sum maximum limit at three times the family size allowance and for use once in a 12 month period and only five times in a lifetime."

SECTION 5.

Said article is further amended by revising Code Section 49-4-185, relating to sanctions against recipient for failure to comply, as follows:

"49-4-185.

(a) As used in this Code section, the term 'sanction' means a 25 percent reduction of any cash assistance provided to a family for a time period established by the board for the first material violation and termination of any cash assistance provided to the family for any subsequent material violation within a time period established by the board; provided, however, that the department may determine that there is good cause not to apply such a sanction in specific circumstances.

(b) ~~A~~ Except as otherwise provided in Code Section 49-4-185.1, a recipient shall be subject to sanction for failing to comply with the state plan if the recipient:

SECTION 6.

Said article is further amended by adding new Code sections to read as follows:

"49-4-185.1.

(a) If after an investigation the department determines that a recipient is not cooperating with a work activity requirement under the Georgia TANF Program, a representative of the department shall meet face-to-face with the recipient to explain the potential sanction and the requirements to cure the sanction. After the meeting, such recipient shall have six weeks to comply with the work activity requirement, during which time no sanction of benefits shall occur. If the recipient does not comply with the work activity requirement within that six-week period, the department shall immediately apply a sanction terminating 25 percent of the amount of temporary assistance benefits to or for the recipient and the recipient's family for a maximum of 12 weeks. During such period of sanctions, the recipient shall remain on the caseload in sanction status and a representative of the department shall attempt to meet face-to-face with the recipient to explain the existing sanction and the requirements to cure the sanction. (c) The department shall not impose sanctions under this Code section where a recipient has good cause for any failure to comply with requirements.

(d) Nothing in this article shall be construed to prohibit the state from providing child care or any other related social or support services for a person who is eligible for cash assistance but to whom such assistance is not paid because of the person's failure to cooperate with the work activity."

"49-4-194.

Within 90 days of the conclusion of the state's fiscal year, the department shall produce an annual report which shall account fully for and shall specify the expenditure of funds made pursuant to the program. Within 180 days of the end of the state's fiscal year, the Commissioner shall submit an annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives. Within 20 business days of such notification, the department shall make an eligibility determination. The department shall retain final authority over eligibility determinations. The contractor shall keep a record of all eligibility data verifications communicated to the department.

(c) Within 30 days of the end of each calendar year, the department and contractor shall file a joint report on a yearly basis to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The report shall include, but shall not

be limited to, the number of applicants and recipients determined ineligible for assistance programs based on the eligibility data verification by the contractor and the stated reasons for the determination of ineligibility by the department."

A BILL TO BE ENTITLED
AN ACT

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

This Act shall be known and may be cited as the "Student Protection Act."

SECTION 2.

Chapter 2 of Title 20 of the Official Code of Georgia Annotated, relating to elementary and secondary education, is amended by adding new subsections to Code Section 20-2-281, relating to student assessments, to read as follows:

"(r) With respect to any standardized assessments developed and administered pursuant to this Code section, the State Board of Education or local school system may administer such assessment in a paper-and-pencil format to any student whose parent or guardian requests such format and to any student 18 years of age or older who requests such format; provided, however, that this shall not apply to make-up assessments.

(s) The State School Superintendent shall develop guidelines, approved by the State Board of Education, by September 1, 2016, that identify a range of appropriate policies that may be adopted by a school system when considering how students not participating in a state-wide assessment will be supervised and what, if any, alternative to the assessment will be provided to them during the test administration. The guidelines should prohibit a school system from taking punitive action against a

student, including, but not limited to, the adoption of sit and stare policies, in response to a student's refusal to participate in a federal, state, or locally mandated standardized assessment. The guidelines shall offer positive learning opportunities for students and not be undirected free time. The guidelines shall also address how and when the school system's policy will be communicated to parents, students, and school system staff. As used in this subsection, the term 'sit and stare' means any policy that requires a student whose parent or guardian has given written instructions for such student not to participate in federal, state, or locally mandated standardized assessments to remain with his or her class in the test room or in another location without any alternate instructional activity provided."

Placement or promotion of these students shall follow the same procedures as students who do not achieve grade level on the first administration of the assessment; provided, however, that students who have not taken a federal, state, or locally mandated assessment due to parental refusal or medical or professional exemption shall be offered an appeals process if grade retention is based solely on the fact that the student failed to take the assessment, and teachers, principals, assistant principals, schools, and local school systems shall not be subject to any penalties due to any student's nonparticipation.

(c) If the rating on a school performance report is affected by the number of students excused or otherwise not taking the standardized assessments, the Department of Education shall include on the school performance report:

(B) The student shall be retested with a an end-of-grade assessment, ~~or~~ an alternative assessment instrument that is appropriate for the student's grade level, or any other assessment, as provided for by the State Board of Education and the local board of education, and promotion may be determined based on the student's performance on these assessments; and

(C) The student shall be given an opportunity for accelerated, differentiated, or additional instruction in the applicable subject; and"

Further, notwithstanding any other provisions of law and in order to carry out the provisions of this Code section and Code Section 16-11-172, the center shall be provided information as to whether a person has been adjudicated mentally incompetent to stand trial or not guilty by reason of insanity at the time of the crime, has been involuntarily hospitalized, or both from the records of the clerks of the superior courts concerning persons involuntarily hospitalized after March 22, 1995, in a manner agreed upon by The Council of Superior Court Clerks of Georgia and the Georgia Bureau of Investigation to preserve the confidentiality of patients' rights in all other respects. ~~After five years have elapsed from the date that a person's involuntary hospitalization information has been received by the Georgia Crime Information Center, the center shall purge its records of such information as soon as practicable and in any event purge such records within 30 days after the expiration of such five-year period~~ Pursuant to this Code section, such person may petition the

(iv) Changes in the person's condition or circumstances since such hospitalization.

(C)(i) The judge shall issue an order of his or her decision on the petition for relief provided for under subparagraph (A) of this paragraph no later than 30 days after the hearing.

(ii) The court shall grant the petition for relief if such court finds by a preponderance of the evidence that the person will not likely act in a manner dangerous to himself or herself or public safety and that granting the relief will not be contrary to the public interest. A record shall be kept of the hearing; provided, however, that such record shall remain confidential and be disclosed only to a court or to the parties in the event of an appeal. Any appeal of the court's ruling on the petition for relief shall be de novo review.

(iii) If the court grants such person's petition for relief, the clerk of such court shall report such order to the Georgia Crime Information Center immediately, but in no case later than ten business days after the date of such order, and the center shall purge such record that is the subject of the order as soon as practicable but not later than 30 days after receipt of such order.

The failure by an individual to receive such notice shall not affect any such public officer's or candidate's rights, duties, or obligations under this Code section. The commission shall have until December 31, 2017, to review such reports to determine their sufficiency under this chapter. The commission is authorized and required to promulgate forms for the purpose of filing reports under this subsection such that one report can be used to cover the entire period between January 1, 2010, and January 10, 2014, for each type of filing. (d) If the commission does not make a determination as to the completeness and sufficiency of the reports filed in accordance with this Code section by December 31, 2017, such reports shall be deemed complete and sufficient and no further action to impose or collect late fees shall be taken by the commission with regard to such reports.

(e) Nothing in this Code section shall prevent the commission from pursuing any action against any other public officer or candidate not subject to this Code section at any time or against any public officer or candidate who is subject to this Code section who does not make a complete and proper filing by December 31, 2016, or from pursuing any action against any public officer for those offices defined in subparagraphs (F) and (G) of paragraph (22) of Code Section 21-5-3 or candidate for public office for those offices defined in subparagraphs (F) and (G) of paragraph (22) of

Section 55: Budgetary Control and Interpretation

The appropriations in this Act consist of the amount stated in the right-most column, for each line at the lowest level of detail for the fund source categories, "Total State Funds" and "Total Federal Funds," under a caption beginning with a program or special project number that has a 100 or a higher number after the decimal and a program or special project name. In each case, such appropriation is associated with the immediately preceding program or special project name, number, and statement of program or special project purpose. The program or special project purpose is stated immediately below the program or special project name. For authorizations for general obligation debt in Section 50, the indented, bold-faced paragraphs following each Bond number are the lowest level of detail and constitute appropriations in accordance with Article VII, Section IV, Paragraph III(a)(1) of the Georgia Constitution. The caption above the Bond number, the light-faced text immediately following the Bond number before the bold-faced text, and the light-faced after the bold-faced text are information only.

Similarly, text in a group of lines that has a number less than 100 after the decimal (01 through 99) is not part of a statement of purpose but constitutes information as to how the appropriation was derived. Amounts in the columns other than the right-most column are for informational purposes only. The summary and lowest level of detail for the fund source categories "Total Agency Funds" and "Total Intra-State Governmental Transfers," are for informational purposes only. The blocks of text and numerals immediately following the section header and beginning with the phrases, "Section Total - Continuation" and "Section Totals - Final" are for informational purposes only. Sections 51, 52, 53 and 54 contain, constitute, or amend appropriations.

Section 56: Flex

In the preceding sentence, "Federal Funds" means any federal funding source, whether specifically identified or not specifically identified; "Other Funds" means all other fund sources except State Funds or Federal Funds, including without limitation Intra-State Government Transfers. This paragraph shall not permit an agency to include within its flex the appropriations for an agency attached to it for administrative purposes.

For purposes of the appropriations for the "Medicaid: Low-Income Medicaid," "Medicaid: Aged, Blind, and Disabled," and "PeachCare" programs of the Department of Community Health, the appropriation of a particular State fund source for each program shall be the amount stated, and each such program shall also be authorized up to an additional amount of 10 percent (10%) of the amount stated. However, if the additional authority is used, the appropriation of the same State fund source for the other programs to that agency shall be reduced in the same amount, such that the stated total in program appropriations from that State fund source for the three programs shall not be exceeded. However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added.

Part II: Effective Date

HB 859. By Representatives Jasperse of the 11th, Ballinger of the 23rd, Meadows of the 5th, Powell of the 32nd, Hightower of the 68th and others:

A BILL to be entitled an Act to amend Part 3 of Article 4 of Chapter 11 of Title 16 of the Official Code of Georgia Annotated, relating to carrying and possession of firearms, so as to authorize the carrying and possession of certain weapons by weapons carry license holders in or on certain buildings or real property owned by or leased to public institutions of postsecondary education; to provide for related matters; to repeal conflicting laws; and for other purposes.

Senate Sponsor: Senator Stone of the 23rd.

The following Minority Report on HB 859 was filed with the Secretary:

Senate Judiciary Committee
Minority Report
March 11, 2016

The undersigned members of the Senate Judiciary Committee offer the following report to express our disagreement with the committee report on House Bill 859.

HB 859 would allow guns on college campuses over the objection of Georgia's students, professors, and the schools themselves.

- An overwhelming 78% of people in Georgia oppose allowing guns on campus; only 20% support it.

- Permitting guns on campus would cost Georgia's universities millions of dollars that neither universities nor the State of Georgia have. Our limited tax dollars should go to education students, not to providing security to deal with weapons on campus.
- College campuses are full of young people, many of whom routinely experiment with drugs and alcohol. Adding guns to this mix significantly increases the risk of tragedy.
- Georgia has no requirements for gun-safety instruction or demonstration of basic competencies before getting a gun permit. Allowing guns on campus would recklessly endanger students in what are currently some of the safest places in the United States.
- The argument that only a good guy with a gun can stop a bad guy with a gun is flawed. College students are not prepared to conduct themselves with the tactical judgment and execution we expect from trained law enforcement professionals.
- Overall, there has been no decline in the crime rate on campuses which allow concealed carry.
- When a gunman opened fire last year on a campus which allowed campus carry in Oregon, armed citizens on campus chose not to intervene out of fear of being mistaken for a hostile gunman.

Respectfully Submitted,

/s/ Sen. Vincent Fort, District 39

/s/ Sen. Harold Jones, District 22

/s/ Sen. Curt Thompson, District 5

SUBJECT: Fiscal Note
House Bill 768 (LC 33 6294)

Dear Representative Hawkins:

The bill would establish the Georgia ABLE Program to allow annual contributions to accounts to pay for the qualified expenses of eligible individuals with disabilities. The account would not be considered as an asset when determining the beneficiary's eligibility for certain social services, such as Medicaid. Georgia taxpayers could deduct up to \$2,000 per beneficiary per year for contributions to an ABLE account.

This bill would have the same fiscal impact reported in the January 13, 2016 fiscal note for LC 33 6236. The Office of the State Treasurer estimated first-year administrative costs of approximately \$945,000, with costs dropping to \$320,000 by year three. (If the state pays the account maintenance fees, the costs would be higher.) Additionally, Georgia State University's Fiscal Research Center (FRC) estimates the base revenue loss to the state to be \$9.2 million in the first year and \$9.3 million in the second year. These amounts are dependent on the participation rate of the eligible population. Details are included below.

Estimate of Eligible Individuals and Participation Rate

Using a report from the National Disability Institute that relied upon the 2009-2010 National Survey of Children with Special Health Care Needs and additional research, FRC estimates that 3.14 percent of the population - approximately 300,000 - would be eligible. This matches the estimate provided by the National Disability Institute.

The group most likely to create an account are families of individuals 400 percent or more above the federal poverty line (\$97,000 for a family of four in 2015). In the state of Georgia, the individuals 400% or more above the federal poverty line make up approximately 24% of the estimated eligible population- 76,743 in 2017. This assumes that these individuals will go through the effort of establishing, maintaining and funding an ABLE account in order to receive the associated tax deduction and ability to grow the account free of capital gains taxes.

Estimate of Administrative Costs

Table 1 shows an estimate of the initial startup and reoccurring fixed administrative costs provided by Treasury. The fixed costs include personnel and other operating costs, with a higher amount to cover startup costs in the first two years.

Table 1
Fixed Administrative Costs

	Initial Year	Year 2	Year 3
Personal Services ⁽¹⁾	\$265,000	\$265,000	\$265,000
Regular Operating	\$30,000	\$30,000	\$20,000
Legal Fees ⁽²⁾	\$600,000	\$200,000	\$20,000
Computer Charges	\$50,000	\$25,000	\$25,000
Total Cost Estimate	\$945,000	\$520,000	\$320,000

⁽¹⁾ Primarily the costs of three full time staff dedicated to the program

⁽²⁾ Includes initial compliance and program creation costs

Treasury also provided an estimate of the cost of the annual account maintenance fees charged by investment providers (see **Table 2**). The bill allows Treasury to set fees on account holders to cover administrative costs, but Treasury noted that the state initially paid the fees to the investment providers when the Path2College 529 Plan was created. Now accounts fees are covered by investment fees charged on the assets.

Table 2
Potential Variable Administrative Costs

	Initial Year	Year 2	Year 3
Contracts ⁽¹⁾	\$2,686,005	\$2,718,555	\$2,751,175

⁽¹⁾ Assumes the number of accounts estimated by FRC and annual account maintenance costs of \$35 per account

Other states passing ABLE legislation have begun conversations on establishing a consortium where states can join together with a single investment provider. This could decrease the initial and ongoing administrative costs. It is not known at this time exactly what the cost savings would be if Georgia were to join such a consortium.

Impact on Tax Revenue

The bill would be effective for tax years beginning on or after January 1, 2016, with an impact on tax collections beginning in FY 2017. According to FRC, based on the assumptions detailed in the attached appendix, revenue losses are estimated for FY 2017-21 as shown in **Table 3**. The base estimate of revenue loss for the state of Georgia considers the families of individuals 400% or more above the federal poverty line (\$97,000 for a family of four in 2015), assuming that one ABLE account is created for each of the approximately 77,000-80,000 qualified individuals in this subset. The FRC analysis assumes that each of these families would be willing to establish an ABLE account in order to decrease their state tax liability by up to \$120 per year and grow account contributions tax free.

Table 3
Revenue Loss from LC 33 6236

<i>(\$millions)</i>	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021
Base Estimate	\$9.2	\$9.3	\$9.4	\$9.5	\$9.7

As detailed in the appendix, FRC includes a higher revenue loss if all individuals above the federal poverty level have an ABLE account. This higher estimate includes more than 240,000 accounts and a revenue loss of more than \$26 million annually.

Sincerely,

/s/ Greg S. Griffin
State Auditor

/s/ Teresa A. MacCartney, Director
Office of Planning and Budget

Analysis by Fiscal Research Center

Those eligible to be the beneficiary of an ABLE account include individuals who meet the Supplemental Security Income (SSI) definition of a disability and are currently under the age of 26, and also those older individuals who meet the SSI definition of a disability and were diagnosed prior to their 26th birthday. The National Disability Institute report "Estimated Number of ABLE Act Participants" estimated the number of qualified individuals, both children and adults, nationally in January 2015. The report relied on the Centers for Disease Control's 2009-2010 National Survey of Children with Special Health Care Needs to estimate the number of children eligible for an ABLE account. This

survey also estimates the number of children age 0-17 in the state of Georgia with functional limitations, the category of individuals identified by the National Disability Institute as most likely to meet the ABLE definition. According to the survey, 94,347 children with functional limitations lived in the state of Georgia in 2009-10, about 3.7 percent of the total population in the 0-17 age group. Of the children with functional limitations, 61,964 live in family at or above the federal poverty line.

Research by Jamoom et al. ("Age at disability onset and self-reported health status," *BMC Public Health*, January 2008) finds that in 1998-2000, approximately 2.0 percent of the age 18 or older population in seven states and the District of Columbia had a disability with an onset by the age of 21; an additional 5.5 percent become disabled at ages 22-44, according to the study. Assuming age at onset is uniformly distributed within the 22-44 age group, about 1.0 percent are estimated to become disabled at ages 22-25, bringing the total share of adults becoming disabled prior to age 26 to about 3.0 percent. Assuming Georgia follows a similar pattern, approximately 209,824 adults within the state of Georgia in 2010 would have met the eligibility requirement for an ABLE account. According to the Georgia Council on Developmental Disabilities, approximately 21% of adults with disabilities live in families below the federal poverty line. Together with the estimate for children, the total meeting the eligibility requirement would be about 3.14 percent of the combined population or 304,171 in 2010.

The base estimate of revenue loss for the state of Georgia only considers the families of individuals 400% or more above the federal poverty line (\$97,000 for a family of four in 2015), assuming that one ABLE account is created for each of this subset of qualified individuals, with a deposit of \$2,000 annually. The National Disabilities Institute study identifies this subsection of the eligible population as the group most likely to create an ABLE account. In the state of Georgia, the individuals 400% or more above the federal poverty line make up approximately 24% of the estimated eligible population within the state.

However, given that the funds contributed to an ABLE account need not remain in the account for any length of time, it follows that any money to be spent on eligible expenses could reasonably be expected to be run through an ABLE account in order to capture this subsidy, provided only that those spending the money are aware of the program and have taxable income to offset. For this reason, the numbers of such accounts may be significantly larger than estimated for the base case and an upper bound estimate is provided as well. The upper bound revenue loss estimate assumes one ABLE account is opened for the benefit of every qualified individual who is in a family at or above the federal poverty line, with a deposit of the \$2,000 maximum every taxable year beginning in 2016. This assumption is premised on the likelihood that each such individual will incur (or have incurred on their behalf) at least \$2,000 of eligible expenses and that they, their guardian, or some other interested person would have taxable income to offset with the deduction.

Both estimates assume tax collections are affected at the time of filing returns, during the fiscal year beginning July 1 of the given taxable year (e.g. FY 2017 for TY 2016 contributions). In addition, the estimates assume that non-qualified withdrawals from ABLE accounts are not material. Finally, the high estimate assumes a marginal tax rate of 5.5 percent while the low estimate assumes 6.0 percent. Additional information about the calculations can be found in Tables 2 and 3.

SUBJECT: Fiscal Note
House Bill 768 (LC 33 6510S)

Dear Chairman Powell:

The bill would authorize the establishment of the Georgia ABLE Program to allow annual contributions to accounts to pay for the qualified expenses of eligible individuals with disabilities . The account would not be considered as an asset when determining the beneficiary' s eligibility for certain social services, such as Medicaid. In lieu of establishing its own ABLE program, the bill would allow Georgia to enter into an agreement with another state or a consortium of states with a qualified ABLE program to allow Georgia residents to participate.

The Office of the State Treasurer estimated first-year administrative costs of approximately \$945,000, with costs dropping to \$320,000 by year three, in order to establish the Georgia ABLE Program. (If the state pays the account maintenance fees, the costs would be higher.) However , Treasury estimated no additional costs to enter into an agreement with another state to allow Georgia residents to participate in their ABLE Program. According to Georgia State University's Fiscal Research Center, the bill would have no impact on state revenues.

Estimate of Eligible Individuals and Participation Rate

Using a report from the National Disability Institute that relied upon the 2009-2010 National Survey of Children with Special Health Care Needs and additional research , Georgia State University 's Fiscal Research Center estimates that 3.14 percent of the population-approximately 300,000-would be eligible. This matches the estimate provided by the National Disability Institute.

The group most likely to create an account are families of individuals 400 percent or more above the federal poverty line (\$97,000 for a family of four in 2015). In the state of Georgia, the individuals 400% or more above the federal poverty line make up approximately 24% of the estimated eligible population -76,743 in 2017. This assumes that these individuals will go through the effort of establishing, maintaining and funding an ABLE account in order to receive the ability to grow the account free of capital gains taxes.

Estimate of Administrative Costs

Should Georgia establish its own ABLE program, Table 1 shows an estimate of the initial startup and reoccurring fixed administrative costs provided by Treasury. The fixed costs include personnel and other operating costs, with a higher amount to cover startup costs in the first two years.

Table 1
Fixed Administrative Costs

	Initial Year	Year 2	Year 3
Personal Services ⁽¹⁾	\$265,000	\$265,000	\$265,000

Total Cost Estimate	\$945,000	\$520,000	\$320,000

⁽¹⁾ Primarily the costs of three full time staff dedicated to the program

⁽²⁾ Includes initial compliance and program creation costs

Treasury also provided an estimate of the cost of the annual account maintenance fees charged by investment providers (see Table 2). The amounts are based on an estimated cost per account and the total expected participation rate. The bill allows Treasury to set fees on account holders to cover administrative costs, but Treasury noted that the state initially paid the fees to the investment providers when the Path2College 529 Plan was created. Now account fees are covered by investment fees charged on the assets.

⁽¹⁾ Assumes the number of accounts estimated by FRC and DOAA and annual account maintenance costs of \$35 per account

If Treasury enters into an agreement with another state allowing Georgia residents to participate in the other state's plan, Treasury stated that it can absorb any administrative costs. Treasury anticipates that legal services would be provided pro bono and any startup website costs would be covered by donations. It should be noted that at least one other state has established an ABLE program that will allow individuals from other states to join.

Other states passing ABLE legislation have begun conversations on establishing a consortium where states can join together with a single investment provider. This could decrease the initial and ongoing administrative costs, but Georgia would be required to share in the startup costs. It is not known at this time exactly what the cost savings would be if Georgia were to join such a consortium.

Sincerely,

The Senate Committee on Health and Human Services offered the following substitute to HB 887:

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 9 of Title 19 of the Official Code of Georgia Annotated, relating to child custody proceedings, so as to provide for the creation, authorization, procedure, revocation, and termination of a power of attorney from a parent, guardian, or legal custodian of a child to a kinship caregiver for the temporary delegation of certain power and authority for the care and custody of a child; to provide a short title; to provide for definitions; to provide for procedure; to amend Articles 3 and 4 of Chapter 11 of Title 15 of the Official Code of Georgia Annotated, relating to dependency proceedings and termination of parental rights, respectively, so as to prioritize the placement of a child with an adult who is a relative or fictive kin when such individual is qualified to care for such child and it is in the best interests of the child; to provide for legislative findings; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

PART I
SECTION 1-1.

The General Assembly finds that:

- (1) From time to time, parents experience short-term difficulties that impair their ability to perform the regular and expected functions to provide care and support to their children;
- (2) Parents need a means to confer to a relative or individual with whom a child has a

significant relationship the temporary authority to act on behalf of a child without the time and expense of a court proceeding or the involvement of the Division of Family and Children Services of the Department of Human Services; and

(3) Providing a statutory mechanism for granting such authority enhances family preservation and stability.

SECTION 1-2.

Chapter 9 of Title 19 of the Official Code of Georgia Annotated, relating to child custody proceedings, is amended by adding a new article to read as follows:

"ARTICLE 5

19-9-140.

This article shall be known and may be cited as the 'Supporting and Strengthening Families Act.'

19-9-141.

As used in this article, the term:

(1) 'Child' means an individual who is under the age of 18 years.

(2) 'Fictive kin' means a person who is known to a child as a relative, but who is not, in fact, related by blood or marriage to such child, and with whom such child has resided or had significant contact.

(3) 'Guardian' means an individual appointed pursuant to Title 29 or by a court of law.

(4) 'Kinship caregiver' means a grandparent, aunt, uncle, great aunt, great uncle, cousin, or sibling of a child or a fictive kin.

(5) 'Legal custodian' shall have the same meaning as provided in Code Section 15-11-2.

(6) 'Parent' shall have the same meaning as provided in Code Section 15-11-2.

19-9-142.

(a) A parent, guardian, or legal custodian of a child, by a properly executed power of attorney provided in Code Section 19-9-150, may delegate to a kinship caregiver residing in this state caregiving authority regarding his or her child for a period not to exceed one year, except as provided in Code Section 19-9-149. A parent, guardian, or legal custodian of a child may delegate to such attorney-in-fact any power and authority regarding the care and custody of such child, except the power to consent to the marriage or adoption of such child, the performance or inducement of an abortion on or for such child, or the termination of parental rights to such child. Such power and authority may be delegated without the approval of a court by executing in writing a power of attorney for the care and custody of a child in a form substantially complying with the provisions of this article. A delegation of power and authority under this Code section shall not operate to change or modify any parental or legal rights, obligations, or authority established by an existing court order or deprive a parent, guardian, or legal

custodian of a child of any parental or legal rights, obligations, or authority regarding the custody, visitation, or support of such child.

(b) Except as limited by federal law, this Code section, or the wishes of the parent, guardian, or legal custodian of a child as expressed in the power of attorney, the attorney-in-fact shall have the same rights, duties, and responsibilities that would otherwise be exercised by such parent, guardian, or legal custodian of a child pursuant to the laws of this state.

(c) An attorney-in-fact shall acknowledge in writing his or her acceptance of the responsibility for caring for a child for the duration of the power of attorney. An attorney-in-fact shall certify that he or she is not currently on the state sexual offender registry of this state or the sexual offender registration for any other state, a United States territory, the District of Columbia, or any Indian Tribe nor has he or she ever been required to register for any such registry.

(d) The attorney-in-fact under a power of attorney for the care and custody of a child shall act in the best interest of the child. Such attorney-in-fact shall not be liable for consenting or refusing to consent to medical, dental, or mental health care for a child when such decision is made in good faith and is exercised in the best interest of the child.

(e)(1) The attorney-in-fact shall have the right to enroll the child in a public school serving the area where the attorney-in-fact resides and may enroll the child in a private school, pre-kindergarten program, or home study program.

(2) A public school shall allow such attorney-in-fact with a properly executed power of attorney for the care and custody of a child to enroll such child.

(3) At the time of enrollment, the attorney-in-fact shall provide to such public school such residency documentation as is customary in that school district.

(4) A public school shall not unreasonably deny enrollment of a child. If a public school denies enrollment of a child by an attorney-in-fact, such denial may be appealed and shall be treated as any other denial of enrollment of a child in that school district, including all of the remedies otherwise available when enrollment is denied to a child.

19-9-143.

(a) When only one parent has legal custody of a child, he or she shall provide written notice to the other parent, by certified mail or statutory overnight delivery, 30 days prior to the executing of a power of attorney under this article.

(b) The parent receiving the notice set forth in subsection (a) of this Code section may object to the execution of a power of attorney within 21 days of the delivery of such notice. Such objection shall be filed in the superior court of circuit where the child resides and shall be served by certified mail or statutory overnight delivery. Within 30 days of the objection being filed, the court shall hold an expedited hearing and determine whether the power of attorney is in the best interest of the child. The power of attorney shall not become effective until the court finds it to be in the best interest of the child.

(c) In addition to the notice provided in subsection (a) of this Code section, a parent executing a power of attorney under this article shall comply with any applicable relocation notice requirements under subsection (f) of Code Section 19-9-3.

(d) In the event of an emergency, the written requirement provisions of this Code section may be waived, but in no event shall this provision be interpreted as a means to violate a court order entered pursuant to subsection (f) of Code Section 19-9-3.

19-9-144.

Nothing in this article shall preclude a parent, guardian, legal custodian, or attorney-in-fact from granting temporary written permission to seek emergency medical treatment or other services for a child while in the custody of an adult who is not the parent, guardian, legal custodian, or attorney-in-fact and who is temporarily supervising the child at the request of the parent, guardian, legal custodian, or attorney-in-fact.

19-9-145.

(a) Except as may be permitted by the federal No Child Left Behind Act (P.L. 107-110), a parent, guardian, or legal custodian executing the power of attorney for the care and custody of a child shall swear or affirm under penalty of law that such action is not being taken for the purpose of enrolling the child in a school to participate in the academic or interscholastic athletic programs provided by that school or for any other unlawful purpose. Violation of this subsection shall be punishable in accordance with state law and may require, in addition to any other remedies, repayment by such parent, guardian, or legal custodian of all costs incurred by the school as a result of the violation.

(b) A parent, guardian, or legal custodian shall not execute a power of attorney for the care and custody of a child for the purpose of subverting an investigation of the child's welfare initiated by the Division of Family and Children Services of the Department of Human Services and shall not execute such power of attorney so long as the Division of Family and Children Services has an open child welfare and youth services case with regard to the parent, guardian, or legal custodian, the child, or another child of the parent.

(c) The power of attorney for the care and custody of a child shall be signed and acknowledged before a notary public by the parent, guardian, or legal custodian executing the power of attorney.

19-9-146.

(a) The parent, guardian, or legal custodian of a child shall have the authority to revoke or withdraw the power of attorney authorized by Code Section 19-9-142 at any time. If a parent, guardian, or legal custodian withdraws or revokes the power of attorney, the child shall be returned to the custody of the parent, guardian, or legal custodian as soon as reasonably possible.

(b) Unless the authority is revoked or withdrawn by the parent, guardian, or legal custodian, the attorney-in-fact shall exercise parental or legal authority on a continuous

basis without compensation for the duration of the power of attorney authorized in such power of attorney so long as it does not exceed the length of time authorized in Code Sections 19-9-142 and 19-9-149 and shall not be subject to any provision concerning the licensing or regulation of foster care homes.

19-9-147.

The execution of a power of attorney by a parent, guardian, or legal custodian, as authorized by this article, shall not constitute abandonment under Code Section 19-10-1 nor be reportable as child abuse or neglect under Code Section 19-7-5 unless the parent, guardian, or legal custodian fails to take custody of the child or execute a new power of attorney after the expiration of the power of attorney.

19-9-148.

(a) A child subject to the power of attorney authorized by this article shall not be considered placed in foster care as defined in any other provision of law, and the parties to the power of attorney shall not be subject to any of the requirements or licensing regulations for foster care or other regulations relating to community care for children.

(b) An attorney-in-fact who has been delegated caregiving authority under this article shall not be subject to the requirements of any other child care facility or foster care licensing provisions, and such delegation shall not constitute an out-of-home child placement.

19-9-149.

A parent who is a member of the armed forces of the United States, including any reserve component thereof, or the commissioned corps of the National Oceanic and Atmospheric Administration or the Public Health Service of the United States Department of Health and Human Services detailed by proper authority for duty with the armed forces of the United States, or who is required to enter or serve in the active military service of the United States under a call or order of the President of the United States or to serve on state active duty, may delegate caregiving authority for a period longer than one year if such parent is on active duty service. Such term of delegation, however, shall not exceed the term of active duty service plus 30 days.

19-9-150.

(a) The statutory power of attorney contained in this Code section may be used for the temporary delegation of parental caregiving authority to an attorney-in-fact. This power of attorney is not intended to be exclusive. No provision of this article shall be construed to bar use by a parent, guardian, or legal custodian of any other or different form of power of attorney for the care and custody of a child that substantially complies with this article.

(b) A power of attorney shall be legally sufficient under this Code section if the wording of the form complies substantially with the provisions of this Code section, the form is properly completed, and the signatures of the parties are acknowledged.

6. I am a serving parent as defined by Code Section 19-9-149 of the Official Code of Georgia Annotated. My active duty service is scheduled to begin on _____, 20____, and is estimated to end on _____, 20____. I acknowledge that in no event shall this delegation of power and authority last more than one year or the term of my active duty plus 30 days, whichever is longer. I reserve the right to revoke this power and authority at any time.

7. Except as may be permitted by the federal No Child Left Behind Act (P.L. 107-110), I hereby swear or affirm under penalty of law that this power of attorney is not being executed for the purpose of enrolling a child in a school so that the child may participate in the academic or interscholastic athletic programs provided by that school or for any other unlawful purpose.

(1) DFCS shall give preference for placement to an adult who is a relative or fictive kin over a nonrelated caregiver, provided that the such relative or fictive kin has met all requirements for a DFCS relative or fictive kin placement and such placement is in the best interests of the child; and

(2) Such child shall be placed together with his or her siblings who are also in protective custody or DFCS shall include a statement in its report and case plan of continuing efforts to place the siblings together or document why such joint placement would be contrary to the safety or well-being of any of the siblings. "(a) When a court enters an order terminating the parental rights of a parent or accepts a parent's voluntary surrender of parental rights, or a petition for termination of parental rights is withdrawn because a parent has executed an act of surrender in favor of the department, a placement may be made only if the court finds that such placement is in the best interests of the child and in accordance with such child's court approved permanency plan created pursuant to Code Sections 15-11-231 and 15-11-232. In determining which placement is in a child's best interests, the court shall initially attempt to place the child with an adult who is a relative or fictive kin, if such individual is willing and found by the court to be qualified to receive and care for such child. SUBJECT: State Auditor's Certification
Substitute to House Bill 421
(LC 43 0253-ECS)

Dear Representative Nimmer:

This substitute bill would amend provisions relating to the payment of disability benefits for certain members of the Employees' Retirement System of Georgia. Specifically, this bill would entitle community supervision officers employed by the Department of Community Supervision to receive enhanced disability benefits if they become permanently disabled due to an act of external violence or injury incurred in the line of law enforcement duty. All members who are currently eligible to receive this benefit, based on their job title, would remain eligible for such benefit.

This is to certify that the changes made in this substitute bill are nonfiscal amendments as defined in the Public Retirement Systems Standards Law. Therefore, the initial actuarial investigation prepared for House Bill 421 (LC 21 3669-EC) would apply to this bill. A copy of the actuarial investigation and State Auditor's Summary for House Bill 421 (LC 21 3669-EC) is attached.

SUBJECT: Actuarial Investigation
House Bill 421 (LC 21 3669-EC)
Employees' Retirement System

Dear Chairman Battles:

This bill would amend provisions relating to the payment of disability benefits for certain members of the Employees' Retirement System of Georgia. Specifically, this bill would authorize community supervision officers employed by the Department of Community Supervision to receive enhanced disability benefits if they become permanently disabled due to an act of external violence or injury incurred in the line of law enforcement duty.

The Department of Community Supervision was created as a result of HB 310, which was passed into law during the 2015 Session of the General Assembly. This newly created agency is responsible for: (1) supervising probationers previously assigned to the Department of Corrections, (2) supervising parolees previously assigned to the State Board of Pardons and Paroles, and (3) supervising probation of youthful offenders previously assigned to the Department of Juvenile Justice. Persons in the above mentioned agencies who were responsible for these functions were transferred to this new agency and assumed the new title of 'community supervision officer.' Under the current provisions of O.C.G.A. §47-2-221, persons employed by the Department of Corrections as a probation officer or the State Board of Pardons as a parole officer were already eligible for this benefit. This legislation makes the enhanced disability benefits available to persons who transferred from the Department of Juvenile Justice for the purpose of supervising the probation of youthful offenders.

The cost of this legislation to the Employees' Retirement System, would be negligible, less than \$1,000 in the first year. There would be no increase in the employer contribution rate or the unfunded actuarial accrued liability of the Employees' Retirement System as a result of this legislation. This estimate is based on information that an additional seven members of the Employees' Retirement System would become eligible for this disability benefit. Since the employer is required to pay an additional employer contribution to fund the cost of this additional benefit, the cost of this legislation is covered through the higher contribution rate imposed on the affected employers. It should be noted that changes in any of these variables could affect the cost of this legislation. Any future costs would be paid through State appropriations.

The following is a summary of the relevant findings of the actuarial investigation for this bill pursuant to a request by the House Retirement Committee. The investigation was to be conducted according to O.C.G.A. §47-20-36, which outlines the factors to be considered in an actuarial investigation. The figures are based on employee data and the most recent actuarial assumptions and methods.

(1) The amount of the unfunded actuarial accrued liability which will result from the bill.	\$ <u> 0</u>
(2) The amount of the annual amortization of the unfunded actuarial accrued liability which will result from the bill.	\$ <u> 0</u>
(3) The number of years that the unfunded actuarial accrued liability created by this bill would be amortized.	<u> N/A</u>
(4) The amount of the annual normal cost which will result from the bill.	\$ <u> 0</u>
(5) The employer contribution rate currently in effect for Non-GSEPS Members.	<u> 24.69%*</u>
(6) The employer contribution rate recommended for Non-GSEPS Members (in conformity with minimum funding standards specified in Code Section 47-20-10).	<u> 24.69%</u>
(7) The employer contribution rate currently in effect for GSEPS Members.	<u> 21.69%*</u>
(8) The employer contribution rate recommended for GSEPS Members (in conformity with minimum funding standards specified in Code Section 47-20-10).	<u> 21.69%</u>
(9) The total dollar amount of the increase in the annual employer contribution which is necessary to maintain the retirement system in an actuarially sound condition.	\$ <u> 0</u>

**This rate represents the employer contribution rate that has been recommended by the actuary beginning July 1, 2016 in order to meet the minimum funding standards.*

It should be noted that any subsequent changes in the retirement bill will invalidate the actuarial investigation and the findings included therein.

House Bill 421 (LC 21 3669-EC)

Dear Representative Nimmer:

This bill would amend provisions relating to the payment of disability benefits for certain members of the Employees' Retirement System of Georgia. Specifically, this bill would entitle community supervision officers employed by the Department of Community Supervision to receive enhanced disability benefits if they become permanently disabled due to an act of external violence or injury incurred in the line of law enforcement duty. Community supervision officer is a new job title created for the proposed Department of Community Supervision under House Bill 310. If created, this new Department will assume responsibilities for: (1) supervising probationers currently assigned to the Department of Corrections, (2) supervising parolees currently assigned to the State Board of Pardons and Paroles, and (3) supervising probation of youthful offenders assigned to the Department of Juvenile Justice. All persons who are employed by this Department and are responsible for supervising probationers or parolees would assume the title of community supervision officer.

Under the current provisions of Title 47 of the Official Code of Georgia, members of the Employees' Retirement System who are currently responsible for supervising probationers or parolees under the Department of Corrections or the State Board of Pardons and Paroles, respectively, are already eligible for the enhanced disability benefit. If this legislation is enacted along with House Bill 310, certain current employees of the Department of Juvenile Justice would subsequently become eligible for this enhanced benefit once they are transferred to the Department of Community Supervision and assume the new job title.

This is to certify that this bill is a fiscal retirement bill as defined in the Public Retirement Systems Standards Law.

"50-29-3.

(a) The General Assembly finds that:

(1) As Georgia's state government seeks to provide improved service at a lower cost to its citizens and technology continues to play an increased role in service delivery, the pace of change for state agencies, boards, authorities, and commissions will continue to increase;

(2) An application submitted under this subsection shall identify each store location to which an initial or annual license is applicable; there shall not be a requirement for a separate application for each of the several store locations. enact a temporary moratorium on the use of eminent domain powers for construction of petroleum pipelines so that a commission of elected officials and field experts can conduct a detailed study; to ensure the exercise of eminent domain powers by petroleum pipelines is carried out in a prudent and responsible manner consistent with this state's essential public interests; to provide for the membership, powers, duties, compensation, and allowances of the commission; to provide for the abolishment of the commission; to suspend the exercise of the power of eminent domain by pipeline companies for a certain period; to provide for an exception; to suspend the receipt of certain applications and the issuance of certain approvals; to move existing provisions relating to the use of the power of eminent domain for natural or artificial gas; to provide for applicability; to provide for related matters; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 3 of Title 22 of the Official Code of Georgia Annotated, relating to the exercise of power of eminent domain for special purposes, is amended by revising Article 4, relating to the construction and operation of petroleum pipelines and gas pipelines, as follows:

"ARTICLE 4
Part 1

22-3-80.

~~The General Assembly finds and declares that, based on an authorized study by the Petroleum Pipeline Study Committee created by the General Assembly, while petroleum pipelines are appropriate and valuable for use in the transportation of petroleum and petroleum products, there are certain problems and characteristics indigenous to such pipelines which require the enactment and implementation of special procedures and restrictions on petroleum pipelines and related facilities as a condition of the grant of the power of eminent domain to petroleum pipeline companies. With respect to the siting and regulation of petroleum pipelines in this state, the General Assembly finds that:~~

- (1) The natural resources, environment, and vital areas of the state are of utmost importance to the state and its citizens and the State of Georgia has an essential public interest in establishing minimum standards for land use in order to protect and preserve its natural resources, environment, and vital areas;
- (2) State law presently grants pipeline companies the power to acquire property or interests in property through the use of eminent domain;
- (3) The procedures that pipeline companies are required to use to exercise such statutory powers of eminent domain have not been reviewed since the Petroleum Pipeline Study Committee created in an Act approved March 24, 1994 (Ga. L. 1994,

p. 229) and abolished on January 1, 1995, studied the issue;

(4) Technology has significantly advanced in the past decade and the pipeline industry has also changed;

(5) The vitally important issue of land use impacts associated with pipelines that are presently in use and being developed for future use merits a detailed study by elected officials and experts in this field to ensure that the exercise of eminent domain by pipeline companies is carried out in a prudent and responsible manner consistent with this state's essential public interest in establishing minimum standards for land use in order to protect and preserve its natural resources, environment, and vital areas; and

(6) A temporary moratorium on the exercise of eminent domain powers of pipeline companies through June 30, 2017, would provide the General Assembly with time to study the need for any changes to land use controls or restrictions related to pipeline companies seeking to deliver petroleum to residents of this state or other states, including but not limited to those related to siting of pipelines, and to assess various proposals relating to the eminent domain powers that pipeline companies presently enjoy, the issuance of certain environmental permits to pipeline companies, and the enactment of additional laws to ensure the consistency of pipeline development and operation with the state's land use goals and standards.

(4) Consider the extent to which the powers granted pipeline companies under Part 2 of this article, and more broadly the existing legal and regulatory system pertinent to the siting, construction, and operation of pipelines, are consistent with and implement Georgia's essential public interest in establishing minimum standards for land use in order to protect and preserve its natural resources, environment, and vital areas;

(6) Consider whether any changes to the siting procedures in this article are necessary to protect the residents of this state in consideration of whether the pipeline is delivering petroleum to customers inside or outside this state;

(7) Prepare a report summarizing the findings of the commission and submit such report to the President of the Senate and the Speaker of the House of Representatives and to the chairpersons of each of the standing committees of the Senate and of the House of Representatives which regularly consider proposed legislation related to transportation, energy, or natural resources; and

(8) Recommend to the General Assembly proposed legislation as necessary to accomplish the continuing goal of ensuring that pipeline siting, construction, and operation are consistent with and implement the State of Georgia's essential public interest in establishing minimum standards for land use in order to protect and preserve its natural resources, environment, and vital areas and to best serve the residents of this state.

(b) The legislative members of the commission shall be entitled to receive the compensation and allowances provided for in Code Section 28-1-8. (c) The commission may conduct such meetings at such places and at such times as it may deem necessary or convenient to enable it to exercise fully and effectively its powers, perform its duties, and accomplish the objectives and purposes of this part.

(d) The commission shall stand abolished on January 1, 2017.

Part 2

22-3-85.

(a)(1) The powers of eminent domain granted by this part to pipeline companies shall be temporarily suspended starting from the effective date of this Code section through and including June 30, 2017, in order to allow the commission to complete its report and recommendations and to allow the General Assembly to act on those recommendations during the 2017 legislative session.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Title 43 of the Official Code of Georgia Annotated, relating to professions and businesses, is amended by adding a new chapter to read as follows:

"CHAPTER 22A43-22A-1.

This chapter shall be known and may be cited as the 'Georgia Lactation Consultant Practice Act.'

43-22A-2.

The General Assembly acknowledges that the application of specific knowledge and skills relating to breastfeeding is important to the health of mothers and babies and acknowledges further that the rendering of sound lactation care and services in hospitals, physician practices, private homes, and other settings requires trained and competent professionals. It is declared, therefore, to be the purpose of this chapter to protect the health, safety, and welfare of the public by providing for the licensure and regulation of the activities of persons engaged in lactation care and services.

43-22A-3.

As used in this chapter, the term:

(1) 'Advisory group' means the group appointed pursuant to Code Section 43-22A-4.

(2) 'Applicant' means any person seeking a license under this chapter.

(3) 'International Board Certified Lactation Consultant (IBCLC)' means a person who holds current certification from the International Board of Lactation Consultant Examiners (IBLCE) after demonstrating the appropriate education, knowledge, and experience necessary for independent clinical practice.

(4) 'International Board of Lactation Consultant Examiners (IBLCE)' means the international organization that certifies IBCLCs and is independently accredited by the National Commission of Certifying Agencies.

(5) 'Lactation care and services' means the clinical application of scientific principles and a multidisciplinary body of evidence for evaluation, problem identification, treatment, education, and consultation to childbearing families regarding lactation care and services. Lactation care and services shall include, but not be limited to:

(A) Lactation assessment through the systematic collection of subjective and objective data;

(B) Analysis of data and creation of a lactation care plan;

(C) Implementation of a lactation care plan with demonstration and instruction to parents and communication to the primary health care provider;

(D) Evaluation of outcomes;

(E) Provision of lactation education to parents and health care providers; and

(F) The recommendation and use of assistive devices.

(6) 'Lactation consultant' means:

(A) A person duly licensed under this chapter to practice lactation care and services; or

(B) A health care professional duly licensed pursuant to such health care professional's licensing requirements to perform lactation care and services who is

also an IBCLC in good standing with the IBLCE, or its successor organization; provided, however, that such health care professional shall not be deemed to be licensed under this chapter nor be entitled to use the title 'licensed lactation consultant' or 'licensed L.C.' without having met the requirements of Code Section 43-22A-7.

(7) 'License' means a license to practice as a lactation consultant pursuant to this chapter.

(8) 'Office' means the office of the Secretary of State.

(9) 'Practice' means rendering or offering to render any lactation care and services to any individual, family, or group of individuals.

(10) 'Secretary' means the Secretary of State or his or her designee.

43-22A-4.

(a) There is created within the office a Lactation Consultant Advisory Group which shall consist of five members.

(b) The Secretary shall appoint all members of the advisory group. The advisory group shall consist of persons familiar with the practice of lactation care and services to provide the Secretary with expertise and assistance in carrying out his or her duties pursuant to this chapter.

(c) The Secretary shall appoint members of the advisory group to serve for terms of four years. The Secretary shall appoint four members who are lactation consultants in this state and one member who is a consumer.

(d) Members shall serve without compensation.

(e) Members may serve consecutive terms at the will of the Secretary. Any vacancy shall be filled in the same manner as the regular appointments. The Secretary may remove members of the advisory group for incompetence, neglect of duty, unprofessional conduct, conviction of any felony, failure to meet the qualifications of this chapter, or committing any act prohibited by this chapter.

43-22A-5.

(a) The advisory group shall meet at least once per year or as otherwise called by the Secretary.

(b) The Secretary shall consult with the advisory group prior to setting or changing fees as provided for in this chapter.

(c) The advisory group may facilitate the development of materials that the Secretary may utilize to educate the public concerning lactation consultant licensure, the benefits of lactation care and services, and utilization of lactation care and services by individuals and in facilities or institutional settings.

(d) The advisory group may act as a facilitator of state-wide dissemination of information between lactation consultants, the International Board of Lactation Consultant Examiners or its successor organization, and the Secretary.

(e) The advisory group shall provide analysis of disciplinary actions taken, appeals and denials, and revocation of licenses at least once per year.

(f) The Secretary shall seek the advice of the advisory group for issues related to lactation care and services.

43-22A-6.

The Secretary may grant, upon application and payment of proper fees, a license without examination to a person who, at the time of application, either:

- (1) Holds a valid license to practice lactation care and services issued by another state, political territory, or jurisdiction acceptable to the Secretary if, in the Secretary's opinion, the requirements for that license are substantially equal to or greater than the requirements of this chapter; or
- (2) Presents evidence satisfactory to the Secretary that the applicant is an IBCLC in good standing with the IBLCE, or its successor organization.

43-22A-7.

Except as provided in paragraph (4) of this Code section, each applicant for a license as a lactation consultant shall be at least 18 years of age, shall have submitted a completed application upon a form and in such manner as the Secretary prescribes, accompanied by applicable fees, and shall be in compliance with the following requirements:

- (1) Meeting the international education and clinical standards established for IBCLCs by the IBLCE, or its successor organization;
- (2) Providing proof of successful completion of the IBLCE examination or the examination of any successor organization;
- (3) Having satisfactory results from a criminal background check report conducted by the Georgia Crime Information Center and the Federal Bureau of Investigation, as determined by the Secretary. Application for a license under this Code section shall constitute express consent and authorization for the Secretary to perform a criminal background check. Each applicant who submits an application to the Secretary for licensure agrees to provide the Secretary with any and all information necessary to run a criminal background check, including, but not limited to, classifiable sets of fingerprints. The applicant shall be responsible for all fees associated with the performance of such background check; and
- (4) Completing such other requirements as may be prescribed by the Secretary.

43-22A-8.

After evaluation of an application and other evidence submitted, the Secretary shall notify each applicant that the application and evidence submitted are satisfactory and accepted or unsatisfactory and rejected. If rejected, the notice shall state the reasons for the rejection.

43-22A-9.

- (a) A license issued by the Secretary is the property of the Secretary and must be surrendered on demand.
- (b) The licensee shall display the license in an appropriate and public manner.

(c) The licensee shall inform the Secretary of any change of address.

(d) The license shall be renewed biennially if the licensee is not in violation of this chapter at the time of application for renewal and if the applicant fulfills current requirements of continuing education as established by the Secretary.

(e) Each person licensed under this chapter is responsible for renewing his or her license before the expiration date.

(f) Under procedures and conditions established by the Secretary, a licensee may request that his or her license be declared inactive. The licensee may apply for active status at any time, and upon meeting the conditions set by the Secretary, such license shall be declared active.

43-22A-10.

The Secretary, in consultation with the advisory group, may impose on a licensed lactation consultant any sanction authorized under subsection (c) of Code Section 43-22A-12 upon a finding of any conduct specified in subsection (a) of Code Section 43-22A-12.

43-22A-11.

On and after July 1, 2018, no person without a license as a lactation consultant issued pursuant to this chapter shall use the title 'licensed lactation consultant' or 'licensed L.C.' or practice lactation care and services, provided that this chapter shall not prohibit any practice of lactation care and services that is exempt pursuant to the provisions set forth in Code Section 43-22A-13.

43-22A-12.

(a) The Secretary may revoke, suspend, deny, or refuse to issue or renew a license; place a licensee on probation; or issue a letter of admonition upon proof that the licensee or applicant:

(1) Has procured or attempted to procure a license by fraud, deceit, misrepresentation, misleading omission, or material misstatement of fact;

(2) Has been convicted of a felony or of any crime involving moral turpitude as provided under state law;

(3) Has willfully or negligently acted in a manner inconsistent with the health or safety of persons under such licensee's care;

(4) Has had a license to practice a business or profession suspended or revoked or has otherwise been subject to discipline related to such licensee's practice of a business or profession in any other jurisdiction;

(5) Has committed a fraudulent act that materially affects the fitness of the licensee or applicant to practice a business or profession;

(6) Excessively or habitually uses alcohol or drugs, provided that the Secretary shall not discipline a licensee under this paragraph if such licensee is enrolled in a substance abuse program approved by the office; or

(7) Has a physical or mental disability that renders such licensee incapable of safely

administering lactation care and services.

(b) The Secretary is authorized to conduct investigations into allegations of conduct described in subsection (a) of this Code section.

(c) In addition to revoking, suspending, denying, or refusing to renew a license, the Secretary may fine a licensee found to have violated any provision of this chapter or any rule adopted by the Secretary under this chapter not less than \$100.00 nor more than \$500.00 for each violation.

(d) The provisions of Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act,' shall be applicable to the Secretary and the provisions of this chapter.

43-22A-13.

Nothing in this chapter shall be construed to affect or prevent:

(1) Persons licensed to practice the professions of dentistry, medicine, osteopathy, chiropractic, nursing, physician assistant, or dietetics from engaging in the practice of lactation care and services when incidental to the practice of their profession, except such persons shall not use the title 'licensed lactation consultant' or 'licensed L.C.';

(5) Employees of a department, agency, or division of state, county, or local government from engaging in the practice of lactation care and services within the discharge of the employees' official duties, including, but not limited to, peer counselors working within the Special Supplemental Nutrition Program for Women, Infants, and Children;

(6) Individual volunteers from providing lactation care and services, provided that:

(A) Such volunteers shall not use the title 'licensed lactation consultant' or 'licensed L.C.', shall not state that they are licensed to practice lactation care and services, and shall not designate themselves by any other term or title which implies that such volunteers have the clinical skills and education comparable to a licensed lactation consultant;

(B) Their volunteer service is performed without fee or other form of

compensation, monetary or otherwise, from the individuals or groups served; and

(C) Such volunteers receive no form of compensation, monetary or otherwise, except for administrative expenses, such as mileage;

(7) A nonresident IBCLC from practicing lactation care and services in this state for five days without licensure or up to 30 days with licensure from another state if the requirements for licensure in such other state are substantially equal to the requirements contained in this chapter; or

(8) Other health care related professionals from seeking licensure for their professions."

SUBJECT: Fiscal Note
 House Bill 951 (LC 34 4805)

Dear Chairman Powell:

The bill would exempt from sales and use taxation the cost of admissions to certain major sporting events in Georgia. These include specific events identified in the bill and any other sporting event determined by the commissioners of the Departments of Economic Development and Revenue to be expected to generate \$50 million or more of revenue in the host locality, "including but not limited to spending on lodging, meals, vehicle rentals, and admissions to tourist attractions." The proposed exemption, if passed, would be effective beginning January 1, 2017.

Georgia State University's Fiscal Research Center found that the bill would result in varying revenue losses over the fiscal year 2017-2021 period, depending on the number of expected qualifying events. Revenue effects depend on, among other things, the dates of already-scheduled qualified events, and the terms and success of bids on events for which Georgia entities may compete. The appendix details the events that would qualify due to being specifically identified by the bill language, regardless of revenue generated for the host locality, and those that likely or potentially would qualify based on reaching the revenue threshold. Table 1 summarizes the estimated state and local revenue effects of those events that are certain or highly certain to qualify, and are currently scheduled to be held in Georgia in FY 2017-21. Events that might be held here, subject to a bidding or award process, are evaluated in the appendix, but not included in Table 1 due to high uncertainty as to their being awarded to a Georgia host city or venue.

<i>(\$ millions)</i>	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021
State Revenue Effect	\$0.9	\$2.6	\$0.9	\$2.7	\$1.0
Local Revenue Effect	\$0.9	\$2.6	\$0.9	\$2.7	\$1.0

Analysis by the Fiscal Research Center

The subject bill proposed to exempt from sales and use taxation the cost of admissions to major sporting events in Georgia, including, but not limited to, the following:

- National Football League Championship Game (NFL Super Bowl);
- "any semifinal game or championship game of a national collegiate tournament";
- Major League Baseball (MLB) All-Star Game;
- Major League Soccer (MLS) All-Star Game;
- National Basketball Association (NBA) All-Star Game; and
- "any other major sporting event determined by the commissioner of economic development and the state revenue commissioner to be expected to generate revenue of at least \$50 million in the host locality."

Event category #2 is vague and, interpreted strictly as written, would include national collegiate tournaments for any sport, in any division or level of college sports. The National Collegiate Athletic Association (NCAA) awards national championships in 23 sports, all but three with separate championships for men and women, and each of those with one to four divisions. This results in 42 men's, 44 women's, and three coed sports national championships annually. Though any could qualify based on the language of the bill, only the largest events are evaluated for this fiscal note. These include the men's and women's Division I basketball tournament "Final Four" games (NCAA MFF and WFF, respectively) and the semi-final and final games of the Division I Football Bowl Subdivision College Football Playoff (NCAA CFP).

For event category #6, any event in any sport may qualify if the organizers can show sufficient direct revenues in the host locality arising from the event. Revenues, for purposes of the \$50 million threshold, include any expenditures in the host locality by consumers or businesses, which can be shown to arise from the holding of the event. This is defined to specifically include spending by event attendees and other visitors on lodging, meals, vehicle rentals, and admissions to tourist attractions, but would presumably also include spending on concessions at the event, merchandise (whether or not sold at the event venue), other forms of local transportation, rentals of event spaces in the vicinity by groups or businesses holding related public or private events, rentals of equipment for such related events or by businesses providing services at the primary event, and potentially others. Known events that may qualify in this category are discussed below.

To evaluate the potential revenue cost to the state, it is next necessary to divide the named and potential other qualified events over the next five fiscal years into groups that differ, most importantly, as to the "counter-factual" or the assumptions as to the state revenues generated if the proposed sales tax exemption is not passed. These groups are as follows:

- **Named events currently scheduled:** These events, being already awarded and scheduled, will occur regardless of the existence of the proposed exemption. As such, the revenue loss is simply the estimated sales tax revenue on tickets to the event. In this group are the following events, with date and venue noted, and estimated state and local revenue losses as shown in Table 2:
- NCAA CFP Championship Game (January 2018, Mercedes-Benz Stadium);
- NCAA CFP Semi-Final Game (December 2019, Mercedes-Benz Stadium); and
- NCAA MFF (April 2020, Mercedes-Benz Stadium)

Table 2. Estimate revenue losses for currently scheduled named events
(\$ millions except ticket prices)

Event:	NCAA CFP Final	NCAA CFP Semi-Final	NCAA MFF	Total
Fiscal Year Affected	2018	2020	2020	
Venue Capacity	75,000	75,000	83,000	
Assumed Attendance*	75,000	75,000	166,000	
Assumed Avg Ticket Price	\$550	\$250	\$150	
State Revenue Loss	\$1.65	\$0.75	\$1.00	\$3.40
Local Revenue Loss	\$1.65	\$0.75	\$1.00	\$3.40

* NCAA MFF shows 2-day total attendance.

B. Named events subject to bidding or other award processes: These events arguably would not be held in Georgia absent the proposed exemption, thus this group is further subdivided as follows:

- **NFL Super Bowl** (1st open date Feb 2019, Mercedes-Benz Stadium). The NFL has named Atlanta as one of four finalist cities to host the 2019 Super Bowl; the same four cities plus one additional city were named finalists for 2020. It is generally understood, since the NFL's "Host City Bid Specifications & Requirements" for the 2018 Super Bowl were leaked in 2014, that a condition of bidding is that sales of tickets to the Super Bowl game and also to the NFL Experience, the NFL Honors show, and other NFL Official Events be exempt from all state and local sales taxes. *As such, it is assumed that absent the proposed exemption, this event will not come to Georgia and thus the revenue loss from the sales tax exemption would be zero.*
