The following communications from His Excellency, Governor Nathan Deal, were received by the Secretary:

STATE OF GEORGIA  
OFFICE OF THE GOVERNOR  
ATLANTA 30334-0900

Nathan Deal  
GOVERNOR

March 28, 2016

The Honorable David Ralston  
Speaker of the Georgia House  
of Representatives  
332 State Capitol  
Atlanta, Georgia 30334

Dear Speaker Ralston:

I have vetoed House Bill 757 which passed the General Assembly during the 2016 Regular Session.

Article III, Section V, Paragraph XIII of the Georgia Constitution requires that I transmit this bill to you together with the reason for such veto. HB 757 and corresponding reason for the veto is attached.

Sincerely,

/s/ Nathan Deal

**2016 Session of the Georgia General Assembly****General Legislation - Veto Message****Veto Number 1**

The decision surrounding H.B. 757 has generated more intense feelings than most legislation, perhaps because it has highlighted the concerns of many in our religious communities regarding the actions of federal courts, especially the United States Supreme Court in its 5-4 opinion last summer which legalized same sex marriage. (*Obergefell v. Hodges*, 135 S. Ct. 2584, 192 L. Ed. 2d 609 (2015)).

H.B. 757 enumerates certain actions that religious leaders, faith based organizations and people of faith shall not be required to take or perform. These include solemnizing a marriage, attending such marriages, hiring church personnel or renting church property when such acts would be contrary to their sincerely held religious beliefs. While most people would agree that government should not force such actions, there has not been a single instance of such taking place in Georgia. If there has been any case of this type in our state it has not been called to my attention. The examples being cited by the proponents of this bill have occurred in other states that have very different laws than Georgia.

One example that is used is the photographer in New Mexico who refused to photograph a same sex marriage (*Elane Photography, LLC v. Willock*, 2013-NMSC-040, 309 P.3d 53). That state has a Religious Freedom Restoration Act, but it was not applicable. It was the New Mexico Human Rights Act that determined the results in that case. Georgia does not have a Human Rights Act.

The second case that is cited is that of the bakery in Colorado that refused to bake a wedding cake for a same sex couple. There the court ruling was based on Colorado's Public Accommodation Act which prohibited discrimination based on sexual orientation (*Craig v. Masterpiece Cakeshop, Inc.*, 2015 COA 115). Georgia does not have a Public Accommodation Act.

Therefore, as I have examined the protections this bill seeks to provide to religious organizations and people of faith I can find no examples that any of the things this bill seeks to protect us against have ever occurred in Georgia. It is also apparent that the cases being cited from other states occurred because those states had passed statutes that specifically protected their citizens from adverse actions based on their sexual orientation. Georgia has no such statutes.

H.B. 757 appeared in several forms during the recent session of the Georgia General Assembly. I had no objection to the "Pastor Protection Act" that was passed by the House of Representatives. The other versions of the bill, however, contained language

that could give rise to state sanctioned discrimination. I did have problems with that and made my concerns known as did many other individuals and organizations, including some within the faith based community.

I appreciate the efforts of the General Assembly to address these concerns and my actions today in no way disparage their motivations on those who support this bill, their efforts to purge this bill of any possibility that it will allow or encourage discrimination illustrates how difficult it is to legislate on something that is best left to the broad protections of the First Amendment to the United States Constitution.

That may be why our Founding Fathers did not attempt to list in detail the circumstances that religious liberty embraced. Instead, they adopted what the late Supreme Court Justice Antonin Scalia referred to as “negative protection.” That is, rather than telling government what it can do regarding religion, they told government what it could not do, namely, “establish a religion or interfere with the free exercise thereof.” (*Employment Div., Dep’t of Human Res. of Oregon v. Smith*, 494 U.S. 872, 110 S. Ct. 1595, 108 L. Ed. 2d 876 (1990)). They had previously proclaimed in the Declaration of Independence that Man’s Creator had endowed all men “with certain unalienable rights,” including “Liberty” which embraces religious liberty. They made it clear that those liberties were given by God and not by man’s government. Therefore, it was unnecessary to enumerate in statute or constitution what those liberties included.

In light of our history, I find it ironic that today some in the religious community feel it necessary to ask government to confer upon them certain rights and protections. If indeed our religious liberty is conferred by God and not by man-made government, we should need the “hands off” admonition of the First Amendment to our Constitution. When legislative bodies attempt to do otherwise, the inclusions and omissions in their statutes can lead to discrimination, even though it may be unintentional. That is too great a risk to take.

Some of those in the religious community who support this bill have resorted to insults that question my moral convictions and my character. Some within the business community who oppose this bill have resorted to threats of withdrawing jobs from our state.

I do not respond well to insults or threats. The people of Georgia deserve a leader who will make sound judgments based on solid reasons that are not inflamed by emotion. That is what I intend to do.

As I stated before – I do not think we have to discriminate against anyone to protect the faith based community in Georgia of which I and my family are and have been a part of for all of our lives.

Our actions on H.B. 757 are not just about protecting the faith based community or providing a business friendly climate for job growth in Georgia.

This is about the character of our State and the character of its people.

Georgia is a welcoming State filled with warm, friendly and loving people. Our cities and countryside are populated with people who worship God in a myriad of ways and in very diverse settings.

Our people work side by side without regard to the color of our skin, or the religion we adhere to. We are working to make life better for our families and our communities.

That is the character of Georgia. I intend to do my part to keep it that way.

For that reason, I hereby veto H.B. 757.

**2016 Session of the Georgia General Assembly**

**General Legislation – Veto Messages**

**Veto Number 1**

**HB 757** House Bill 757 was vetoed on March 28, 2016. Please refer to the veto letter and message issued on that date.

**Veto Number 2**

**HB 59** House Bill 59 creates a blanket waiver of sovereign immunity, with limited exceptions, as to claims seeking a declaratory judgment or injunctive relief against the state and local governments. This sweeping waiver of sovereign immunity would allow unprecedented judicial intervention into daily management decisions entrusted to the

executive branch of government. While the concept of sovereign immunity is relatively simple on its face, it is complex in application and it is likely that HB 59 would have unforeseen ramifications that would impede government operations. While the purported purpose of HB 59 was to legislatively address a recent judicial decision, the waiver of sovereign immunity contained therein is not sufficiently limited. As I have not been persuaded of the need for this comprehensive waiver of sovereign immunity, **I VETO HB 59.**

### **Veto Number 3**

**HB 216** House Bill 216 expands the eligibility for workers' compensation benefits to firefighters diagnosed with cancer, allowing such benefits for any firefighter in Georgia if a medical expert can prove by a preponderance of the evidence that the cancer was caused from exposure to any risk factor while performing work related duties. Firefighters play an integral role in keeping Georgians safe, their unselfish everyday sacrifice does not go unnoticed by this office and they will continue to have my support. However, while the authors' intent of this bill is respected, I am concerned that codifying an exception for one occupation at this relatively low standard of proof with no time limitation on diagnosis or restriction on eligible types of cancer is a broad solution for a problem not yet abundantly demonstrated in Georgia. The Association County Commissioners of Georgia have also expressed concern that the shift in this burden of proof may potentially lead to tremendous uncertainty in projecting the future financial liability for workers' compensation. Similarly, the Georgia Municipal Association is concerned that HB 216 makes no distinction between paid and volunteer firefighters. Paid employees are automatically granted workers' compensation coverage, while cities and counties must affirmatively vote to include volunteer firefighters in their coverage. Finally, since I took office, I am unaware of any firefighter that has filed a workers' compensation claim for a cancer diagnosis. Signing this bill into law has the potential to exhaust our State Board of Workers' Compensation and our state judicial system with litigation at the expense of our cities and counties. For these reasons, **I VETO HB 216.**

### **Veto Number 4**

**HB 219** House Bill 219 would allow pools located at country clubs, subdivisions, condominiums and townhome associations, which are for 75 persons or less, to opt out of state inspections and regulations. These are pools frequented by children and families who will no longer swim with the security that the pool and grounds have been inspected by a certified public health professional for compliance with health and safety standards to the same level they are currently being evaluated today. Just as Georgians enjoy the protections provided by public health inspections of restaurants where they eat, they expect an equivalent safeguard with respect to the pools where they swim. This bill would add language to the code that further complicates an already complex law, which has the possibility of resulting in increased rates of injury and disease outbreak in patrons

of the affected pools. Therefore, in the interest of providing the necessary safety that Georgians deserve, **I VETO HB 219.**

#### **Veto Number 5**

**HB 370** House Bill 370 would waive all fines, fees, and penalties in association with the failure to file, filing late, or filing incomplete campaign contribution disclosure reports and personal financial disclosure statements by locally elected officials and candidates from January 1, 2010 – January 10, 2014. This retroactive measure amounts to amnesty for individuals who failed to follow correct procedure for the filing of these documents. Moreover, it places an undue burden on the Georgia Government Transparency and Campaign Finance Commission for the distribution of notice, promulgation of forms, and collection of new documents for those local officials or candidates to refile if they had previously failed to file, filed late, or filed incomplete documents during the 2010- 2014 timeframe. Finally, it has the potential to allow for a refund of fines, fees, and penalties that have already been paid by violators. For these reasons, **I VETO HB 370.**

#### **Veto Number 6**

**HB 659** House Bill 659 at its core requires greater public transparency of financial information on both the local system and individual school levels. By doing so, parents, students, teachers, and members of the community will become more knowledgeable and engaged in the strategic planning process and daily operation of our state's schools. Because of this, I will include the fiscal transparency measures of House Bill 659 in my 2017 legislative agenda, in addition to the recommendations from the Education Reform Commission.

However, language in House Bill 659 also authorizes the Georgia Department of Education to conduct a pilot program wherein local school systems may spend and report federal, state, and local funds in a consolidated manner. I strongly believe that the majority of decisions should remain in the hands of those closest to our state's students, and I have made it a priority to promote this type of flexibility. But with increased flexibility, must come increased transparency. While I support the consolidated spending of funds, which is currently allowed by law, I cannot support legislation that would allow districts to not disclose how such funds are spent. For these reasons, **I VETO HB 659.**

#### **Veto Number 7**

**HB 726** House Bill 726 would have a significant impact to the taxable base for cigars, loose tobacco and smokeless tobacco. Given its impact on the upcoming budget and the limited public benefit this legislation would provide, **I VETO HB 726.**

### **Veto Number 8**

**HB 779** House Bill 779 involves the use of unmanned aircraft technology or "drones" which raises a unique concern requiring careful research. I am appreciative of the author of HB 779, the House study committee, and the Georgia Technology Research Institute for their tireless work on this matter and for realizing the impact this aircraft has on the future of our state. I also understand the importance of continuing to study the use of drones and encourage our universities and technical colleges to offer classes and instruction on this new scientific technology and I encourage state agencies to utilize drone technology where it can provide cost savings and improve safety for Georgians—all while following proper FAA regulations. However, I believe that Georgia should first allow the Federal Aviation Authority (FAA) to complete their efforts in creating federal rules and regulations for the use of drones. Signing this bill prior to the release of the FAA guidelines would create a layer of state regulation that may be vitiated by future FAA action and would also grow state government by creating a wholly new quasi-legislative body to produce future rules and regulations. Such layers of potentially inconsistent rules could create a climate contrary to what the business community, the science and technology community, and legislative leaders sought to create by drafting this legislation. In addition, I would urge local governments to refrain from enacting ordinances that would regulate drone activity until the FAA has acted as well. In the interim, I plan by executive order, to establish a commission to propose state-level guidelines until the new FAA regulations are released. For these reasons, **I VETO HB 779.**

### **Veto Number 9**

**HB 859** House Bill 859 seeks to amend O.C.G.A. § 16-11-127.1, which relates to the carrying of weapons within school safety zones. It would add an exception to the prohibition of carrying or possessing a weapon in such school zones, to “any licensed holder when he or she is in any building or on real property owned or leased to any public technical school, vocational school, college or university or other public institution of postsecondary education,” except for “buildings or property used for athletic sporting events or student housing, including, but not limited to fraternity and sorority houses...”

Some supporters of HB 859 contend that this legislation is justified under the provisions of the Second Amendment to the United States Constitution which provides in part that “the right of the people to keep and bear arms, shall not be infringed.” Identical words are contained in Article I, Section, I, Paragraph VIII of the Constitution of the State of Georgia. It would be incorrect to conclude, however, that certain restrictions on the right to keep and bear arms are unconstitutional.

In the 2008 case of District of Columbia v. Heller, United States Supreme Court Justice Antonin Scalia, writing the opinion of the Court, reviews the history of the Second

Amendment and sets forth the most complete explanation of the Amendment ever embodied in a Supreme Court opinion. While the subject matter of HB 859 was not before the Court in the Heller case, the opinion clearly establishes that “Like most rights, the right secured by the Second Amendment is not unlimited. From Blackstone through the 19<sup>th</sup> century cases, commentators and courts routinely explained that the right was not a right to keep and carry any weapon whatsoever in any manner whatsoever and for whatever purpose.” Justice Scalia further states that “nothing in our opinion should be taken to cast doubt on...laws forbidding the carrying of firearms in sensitive places such as schools and government buildings...”

Georgia, like most jurisdictions, has set forth statutory provisions defining what constitutes those “sensitive places” and has imposed specific rules relating to the presence of weapons in those places. Indeed, the Georgia Code section which HB 859 seeks to amend is called the “Georgia Firearms and Weapons Act.”

Since the right to keep and bear arms in sensitive places such as those enumerated in HB 859 is not guaranteed by the Second Amendment nor the Georgia Constitution, the inquiry should then focus on whether or not those places deserve to continue to be shielded from weapons as they are and have been for generations in our state.

Perhaps the most enlightening evidence of the historical significance of prohibiting weapons on a college campus is found in the minutes of October 4, 1824, Board of Visitors of the newly created University of Virginia. Present for that meeting were Thomas Jefferson and James Madison, along with four other members.

In that meeting of the Board of Visitors, detailed rules were set forth for the operation of the University which would open several months later. Under the rules relating to the conduct of students, it provided that “No student shall, within the precincts of the University, introduce, keep or use any spirituous or venomous liquors, keep or use weapons or arms of any kind...”

The approval of these specific prohibitions relating to “campus carry” by the principal author of the Declaration of Independence, and the principal author of the United States Constitution should not only dispel any vestige of Constitutional privilege but should illustrate that having college campuses free of weapons has great historical precedent.

That college campuses should be a “gun free zone” is a concept that has deep roots in Georgia as well. In the 2014 session of the Georgia General Assembly, HB 60 was passed and I signed it into law. That bill greatly expanded the areas where licensed gun owners could take their weapons. At that time, campus carry was considered but not adopted.

While there have been alarming incidents of criminal conduct on college campuses in which students have been victimized during the past two years, do those acts justify such a radical departure from the classification of colleges as “sensitive areas” where weapons are not allowed? The presumed justification is the need for students to provide their own self protection against such criminal conduct. However, since students who are under 21 years of age would be ineligible to avail themselves of such protection under the terms of HB 859, it is safe to assume that a significant portion of the student body would be unarmed.

As for the buildings and places referred to in this legislation, I will simply call “colleges.” In order to carry a weapon onto a college, there is no requirement that the armed individual actually be a student, only that they possess a license to carry a weapon. Since most, if not all, of our colleges are open campuses, this bill will allow any licensed gun owner to bring a concealed weapon onto the campus and neither police nor other law enforcement personnel will be allowed to even ask the individual to produce evidence of his license.

If the intent of HB 859 is to increase safety of students on college campuses, it is highly questionable that such would be the result. However, I understand the concerns of the authors of this legislation and the parents and students who want it to become law. They apparently believe that the colleges are not providing adequate security on their campuses and that civilian police are not doing so on the sidewalks, streets and parking lots students use as they go to and come from classes.

I have today issued an Executive Order directed to the Commissioner of the Technical College System of Georgia and the Chancellor of the University System of Georgia, requesting that they submit a report to me, the Lieutenant Governor and the Speaker of the House by August 1, 2016, as to the security measures that each college within their respective systems has in place. I hereby call on the leaders of the municipalities and counties in which these colleges are located, along with their law enforcement agencies to review and improve, if necessary, their security measures in areas surrounding these colleges. Since each of these municipalities and counties receive significant revenue by virtue of the location of these colleges in their jurisdictions, I believe it is appropriate that they be afforded extra protections.

Since much of the motivation for HB 859 is the commission of crimes involving the use of firearms on college campuses, I suggest to the General Assembly that it consider making the unauthorized possession and/or use of a firearm on a college campus an act that carries an increased penalty or an enhanced sentence for the underlying crime.

From the early days of our nation and state, colleges have been treated as sanctuaries of learning where firearms have not been allowed. To depart from such time honored protections should require overwhelming justification. I do not find that such justification exists. Therefore, **I VETO HB 859.**

**Veto Number 10**

**HB 916** I support efforts to focus Medicaid provider audits on incorrect payment amounts, fraud, and abuse rather than identifying routine clerical errors. This bill, however, would modify the reimbursement policies of every department, agency, board, commission, or authority of state government. This is unnecessary and may interfere with the efficient processing of payments and sound fiscal management practices. For these reasons, **I VETO HB 916.**

**Veto Number 11**

**HB 959** House Bill 959 is a comprehensive piece of legislation that, in its original form, sought to eliminate duplicative testing requirements for dually enrolled, AP, and IB students, encourage inter-agency cooperation, and clean-up other portions of Title 20, which I support. However, during the legislative process, language was added to the bill that mirrored the language found in Senate Bill 329, which I have vetoed for the reasons stated in my message for that bill. As research has demonstrated time and again, high school students with rigorous course loads are more likely to succeed in college, and considering the rich tradition of the HOPE Scholarship as a merit-based program, **I VETO HB 959.**

**Veto Number 12**

**HB 1060** House Bill 1060 is a bill that relates to the carrying and possession of firearms and other matters pertaining to firearms in general. It was presented as a housekeeping bill to clarify certain provisions that were contained in HB 60 that passed the General Assembly in 2014 and which became law upon my signature. While I do not have serious concerns about most of the bill, I do have serious concerns about the change of policy contained in Section 4 relating to the carrying of a weapon or long gun into a place of worship.

Prior to the effective date of the provisions contained in HB 60 of 2014, carrying a weapon or long gun into a place of worship was a criminal act. HB 60 added a proviso that said it would remain a criminal act “unless the governing body or authority of the place of worship permits the carrying of weapons or long guns by license holders...”

At the time HB 60 was being considered, I made it clear that I would not approve the bill if it required every house of worship to post a sign saying that weapons were not permitted. I was assured by the supporters of HB 60 that such would not be required and that only those houses of worship that affirmatively permitted weapons by the actions of its governing body or authority would be affected. In other words, unless a house of worship posted information indicating its permission to allow weapons inside, it would retain its status as an “unauthorized location” for weapons.

Section 4 of HB 1060 breaches the compromise contained in HB 60. If it were to become law, a house of worship would no longer be considered an unauthorized location for weapons, and any license holder could carry a weapon or long gun into a place of worship without penalty unless they refused to leave “upon personal notification by such place of worship that he or she is carrying a weapon or long gun in a place of worship which does not permit the carrying of a weapon or long gun.” This provision also completely reverses the process so that now it will be the places of worship that do not want weapons on their premises that must affirmatively establish such a policy, rather than the other way around.

Section 4 of HB 1060 is an encroachment on the peace and tranquility of those who attend houses of worship because they can no longer have the time-honored assurance that they are in a protected place that is free of weapons and long guns. In fact, quite the opposite would be true. Even the posting of a sign saying “No Weapons Allowed” would do no good. Therefore, only when the carrier of the weapon or long gun is personally notified that he or she is violating the policies of the place of worship will any action be taken. Surely religious leaders and their congregants would be shocked to know that weapons and long guns can be freely and legally brought into their houses of worship and that they can do nothing about it until they personally notify the armed individual that such is not permitted by the governing body of the place of worship.

This provision calls into question basic precepts about the Rule of Law. It would negate the age old principals that “everyone is presumed to know the law” and that “ignorance of the law is no excuse.” If that same approach were used in other settings, the speeding motorist could contend that he should not be guilty of speeding, although signs were posted on the roadway advising him of the limits, because no one personally notified him of those limits.

This section of HB 1060 should be especially objectionable to licensed weapon holders, since it is they who would be protected for not knowing that a place of worship did not permit weapons. It is the reputation of such licensed weapon holders as law abiding citizens who respect and adhere to the rules of society that convinced many to accept the expansive provisions of HB 60 in 2014. With this one section of HB 1060, that reputation will be severely damaged. Surely, such a respected group of citizens who go through the processes of background checks, fingerprinting and other requirements to obtain a license to carry a weapon do not want or need to be tapped on the shoulder in a place or worship and reminded that their pistol or long gun is not allowed. Those who pride themselves on being law abiding citizens do not need ignorance of the law to be an excuse for their actions. For these reasons, **I VETO HB 1060.**

**Veto Number 13**

**SB 243** Senate Bill 243 would permit full-time attorney positions in the Office of Legislative Counsel to become a member of the Georgia Judicial Retirement System (GJRS). Attorneys in this office affected by this legislation currently have access to the Employees' Retirement System of Georgia, which serves nearly all other state employees. GJRS membership, on the other hand, is generally limited to elected or appointed judicial officials, such as Superior Court Judges, District Attorneys, State Court Judges, Solicitors-General of the State Courts and Juvenile Court Judges. Though I support the legislation's goal of improving the recruitment and retention of qualified staff, the issue is not unique to the Office of Legislative Counsel. For these reasons, **I VETO SB 243.**

**Veto Number 14**

**SB 329** Senate Bill 329 adjusts the established coursework rigor requirements of the HOPE Scholarship, and allows the State Board of the Technical College System of Georgia to identify strategic workforce needs for the purpose of updating technical college certificate program requirements.

Since its establishment in 1993, the HOPE Scholarship program has provided Georgia's highest achieving students the means to receive a postsecondary credential, regardless of their family's financial situation. Through HOPE, the state recognizes and rewards students based on individual merit, and merit alone. Shortly after taking office, I was given the choice between reform and the bankruptcy of the HOPE program. It was clear to me then, as it is still clear to me now, the direction our revered HOPE program should take. Not only did these reforms we put in place in 2011 place our Lottery, HOPE, and Pre-K programs back on a solid financial footing, but we also were able to reaffirm our commitment to our college completion, access and achievement goals. Research has demonstrated time and again that high school students with rigorous course loads are more likely to succeed in college. The academic rigor requirements put in place, which required our Georgia high school students to take advanced math, science, Advanced Placement/International Baccalaureate/Dual Enrollment courses and foreign language courses, will be phased in with full implementation of four credits in each category in 2017.

What concerns me about Senate Bill 329, which would allow students who achieve their high school diploma by obtaining a technical college diploma or two technical college certificates to become eligible for the HOPE Scholarship, is that these students will likely not meet the rigor requirements put into place by our reform efforts. By not requiring such students to satisfy the same coursework rigor requirements as students on other pathways to high school graduation, we could unintentionally increase the likelihood that a group of students are unprepared for degree-level coursework, and are therefore more likely to lose the HOPE or Zell Miller Scholarship in the future.

Under current law, students eligible for the HOPE or Zell Miller Grant, including those targeted by Senate Bill 329 who achieve a high school diploma by obtaining a technical college diploma or two technical college certificates, may become eligible for the HOPE Scholarship by completing 30 semester hours or 45 quarter hours with a 3.0 GPA at their postsecondary institution. This means that we are not blocking any student from achieving their highest academic potential in current law, rather, we are ensuring that each student finds success in whichever pathway they choose to follow. For these reasons, **I VETO SB 329.**

**Veto Number 15**

**SB 355** Senate Bill 355 allows federal, state and locally-mandated assessments to be optional for certain students. At present, local school districts have the flexibility to determine opt-out procedures for its students who cannot take the assessments in addition to those who choose not to take such assessments. As there is no need for state-level intervention in addition to the regulations already set in place on a local level, **I VETO SB 355.**

**Veto Number 16**

**SB 383** Senate Bill 383 would allow for an agritourism facility to receive a GDOT permit that would treat an on-premises advertising sign similar to a permitted outdoor advertising sign (e.g. a billboard). However, an on-premises sign at an agritourism facility would be exempt from a five year waiting period required for new permitted outdoor advertisements. With this legislation, an agritourism facility could have a viewing zone on GDOT right-of-way clear cut so that their sign would be viewable to passing motorists. It is concerning that this legislation is so narrowly focused on the needs of one specific industry. Moreover, I do not believe it is in the public interest to clear cut right of way for the benefit of a specific industry when property owners of those facilities could make alternative advertising decisions. For these reasons, **I VETO SB 383.**

**HB 751 – FY 2017 APPROPRIATIONS BILL**

**Line-Item Vetoes by the Governor**

**Section 50, pertaining to the Georgia General Obligation Debt Sinking Fund, page 141, Line 4328:**

This language authorizes the appropriation of \$138,840 in debt service to finance projects and facilities for the Department of Community Affairs, specifically for the construction of a seawall on Hutchinson Island in Savannah, through the issuance of \$600,000 in five

year taxable bonds. Article VII, Section IV, Paragraph I (c) requires that general obligation debt may only be issued to “acquire, construct, develop, extend, enlarge, or improve land, waters, property, highways, buildings, structures, equipment, or facilities of the state.” In this instance, the state does not have ownership of the land identified for the seawall, and thus is prohibited from using general obligation debt to finance this project. Therefore, I veto this language (page 141, line 4328) in the provisions relative to Section 50 State of Georgia General Obligation Debt Sinking Fund and the state general funds of \$138,840.

#### Intent Language Considered Non-Binding

#### **Section 23, pertaining to the Department of Economic Development, page 51, line 1630:**

The General Assembly seeks to appropriate \$100,000 for the National Infantry Museum by only reducing funding by \$400,000. Program funding should be used to promote tourism in accordance with the highest priorities of the state. Therefore, the Department is authorized to utilize the remaining \$100,000 in accordance with the purpose of the program and the general law powers of the Department.

#### **Section 23, pertaining to the Department of Economic Development, page 51, line 1633:**

The General Assembly seeks to appropriate \$100,000 for the Georgia Historical Society. Program funding should be used to promote tourism in accordance with the highest priorities of the state. Therefore, the Department is authorized to operate the program in accordance with the purpose of the program and the general law powers of the Department.

#### **Section 25, pertaining to the Employees’ Retirement System, page 61, line 1948:**

The General Assembly seeks to appropriate \$455,000 to provide retirement benefits to appellate court judges upon reaching the age of 60. Legislation providing authorization for this benefit did not pass during the 2016 legislative session. Therefore, the Department is authorized to operate the program in accordance with the purpose of the program and the general law powers of the Department.

#### **Section 25, pertaining to the Employees’ Retirement System, page 61, line 1949:**

The General Assembly seeks to appropriate \$50,000 to provide for an increase in the employer’s share for the Judicial Retirement System. The Department is authorized to operate the program in accordance with the purpose of the program and the general law powers of the Department.

#### **Section 41, pertaining to the University System of Georgia Board of Regents, page 107, line 3471:**

The General Assembly seeks to appropriate \$25,000 for the Carl Vinson Institute of Government at the University of Georgia to assist in the operations of the DeKalb County

Charter Review Commission in the Teaching program. Local legislation creating the review commission did not pass during the 2016 legislative session. Therefore, the Department is authorized to operate the program in accordance with the purpose of the program and the general law powers of the Department.

**Section 50, pertaining to the Georgia General Obligation Debt Sinking Fund, page 137, line 4282:**

The General Assembly seeks to instruct the Department of Community Supervision to “begin moving towards a ten year replacement cycle” in the conference report that reduced the bond amounts. This language is inconsistent with the state’s purchase and use of motor vehicle policy under O.C.G.A. Section 45-12-73. The policy creates a framework for agencies to utilize to ensure the safety and insurability of the state’s motor vehicles. The policy further outlines the framework for agencies to determine the replacement schedule of motor vehicles, depending upon their use and type of vehicle. The effect of changing the framework to a 10 year cycle of replacement potentially impacts the safety and operations of the vehicles, particularly those whose recommended replacement is based primarily on mileage. Therefore, the department is authorized to continue to plan on replacement cycles consistent with the state policy and to utilize the bond appropriations for the number of vehicles available for the amount of funds appropriated.

**Section 50, pertaining to the Georgia General Obligation Debt Sinking Fund, page 137, line, 4288:**

The General Assembly seeks to instruct the Department of Corrections to “begin moving towards a ten year replacement cycle” in the conference report that reduced the bond amounts. This language is inconsistent with the state’s purchase and use of motor vehicle policy under O.C.G.A. Section 45-12-73. The policy creates a framework for agencies to utilize to ensure the safety and insurability of the state’s motor vehicles. The policy further outlines the framework for agencies to determine the replacement schedule of motor vehicles, depending upon their use and type of vehicle. The hour for convening the Joint Session of the Senate and House having arrived, the President, accompanied by the Secretary and Senators, proceeded to the Hall of the House of Representatives, and the Joint Session, called for the purpose of hearing a message by His Excellency, Governor Nathan Deal, was called to order by the Speaker of the House. HR 7 authorizing the Joint Session of the Senate and House was read by the Clerk of the House.

His Excellency, Governor Nathan Deal, addressed the Joint Session of the Senate and the House of Representatives as follows:

Lt. Gov. Cagle, Speaker Ralston, President Pro Tem Shafer, Speaker Pro Tem Jones, members of the General Assembly, constitutional officers, members of the judiciary, members of the consular corps, my fellow Georgians:

In 1944, Georgia's own Johnny Mercer wrote the lyrics for a song titled "Ac-Cent-Tchu-Ate The Positive." The most memorable lines from that song are: "You've got to accentuate the positive/ Eliminate the negative/ Latch on to the affirmative/ Don't mess with Mister In-Between."

That was great advice for our nation as World War II was drawing to a close and it is great advice for us today. For the past six years, I have reported to you on the State of the State and I do so again today.

That first year, 2011, I was just entering office as your governor. Our state was still in the grip of the Great Recession. Businesses were going bankrupt, homes were being foreclosed upon, jobs were being lost, our unemployment rate was 10.4 percent. Our rainy day fund was dangerously low at roughly \$116 million – hardly enough to operate state government for two days.

Some states that were facing similar circumstances resorted to raising taxes on their citizens. With your support, Georgia did not do that. Instead, without knowing it, we followed Johnny Mercer's advice from other verses of his song which said: "You've got

to spread joy up to the maximum/ Bring gloom down to the minimum/ Have faith or pandemonium's liable to walk upon the scene.”

The result: that 10.4 percent unemployment rate has dropped to 5.3 percent. Our Rainy Day Fund has increased to approximately \$2.033 billion. With prudent budgeting, we have maintained a AAA bond rating. We have set new records in trade, film production and tourism.

We have laid the groundwork to improve our transportation infrastructure dramatically over the next 10 years. We have made our communities safer and offered hope to those with addiction or behavioral disabilities through our accountability courts. We have reduced the rate of recidivism and saved the taxpayers of Georgia millions of dollars, a great example of eliminating the negative. New private sector jobs have reached more than 575,000 and for four consecutive years, Georgia has been named the best state for business.

Why did this happen? Because we had faith and we accentuated the positive.

So, this year, the budget and the legislation I bring to you will continue to accentuate the positive and eliminate the negative.

The budget for FY2018 is based on projected revenue growth of 3.6 percent over the amended FY2017 budget. It will allow us to sustain the important programs that are currently in place as well as address new areas that require attention.

In September of this past year, we had a prime opportunity to accentuate the positive by announcing a 20 percent pay raise for state-level law enforcement. These brave men and women don a badge and vest each day as they go to face uncertainty on their shifts in service of their fellow citizens. They protect our lives and property, and it is only fitting that they should be paid a competitive salary.

I am told that in the month following this announcement, Georgia State Patrol had more trooper applications than in the entire previous year. That's a good example of latching onto the affirmative.

I received a letter from the wife of a state trooper who told me just how much that announcement meant to her and her loved ones. She told me that her husband worked three jobs to make ends meet for their family, and because of that, he wasn't able to go to their children's ball games. Now that the raises have taken effect, no longer does he have to miss those special moments with his children that can never be recaptured.

The second component of that law enforcement improvement announcement was an expansion of training on deescalating violence, community policing and alternatives to

deadly force as well as providing access to local law enforcement for Crisis Intervention Training, which provides instruction on how to safely handle situations involving those with mental impairment.

Selfless public service and dedication are not confined to any one agency of state government. They are replete in our state workforce, including the Division of Family and Children Services (DFACS).

Like the story of Michelle Dorris, who is with us today. She is a DFCS case manager in South Georgia who was recently assigned to a home with an ailing infant. Upon further examination, Ms. Dorris found the child to be in distress and immediately arranged a medical visit. The appointment was 35 miles away and when it became clear that transportation was an issue, Ms. Dorris offered to drive the family to the doctor's office. On the way to the appointment, the infant began to aspirate and stopped breathing. Ms. Dorris stopped the car, tended to the child, cleared her airway and began performing CPR until paramedics arrived on the scene.

The infant then thrived in the hospital, and later in a foster home, with the appropriate care and nutrition. I am happy to say that she has no lasting physical issues from her difficult beginning in life, and even more importantly, she still has life because of the actions of Ms. Dorris and her fellow DFCS colleagues.

Ms. Dorris, we owe your team our thanks and recognition. Would you please stand?

This is the type of meaningful impact caseworkers have on those they serve. These are the types of challenges that they face. In light of that fact, my budget proposal includes, on average, a 19 percent pay raise for DFCS caseworkers so that we can both ensure a competitive salary for those who fill these vital roles and so that we can recruit and retain the best possible candidates to look after the safety of our youngest and most vulnerable citizens.

That same desire to attract and retain quality public servants extends throughout the state workforce, which is why I recommended and this legislative body approved a 3 percent allocation for a merit, recruitment and retention pay increase for state employees last year. My FY2018 budget proposal also accentuates this positive with another increase of a 2 percent allocation.

With these improvements, we aim to serve Georgia's citizens more efficiently and effectively. Our efforts to eliminate the negative and accentuate the positive do not stop there, however. We will soon complete the three-year plan to bring Georgia's physician reimbursement rates in line with Medicare rates. I would point out that we are not mandated to do so, but have chosen to take these steps because we want the best quality of health care for our citizens. Without adequate funding for our physicians, we will not be able to maintain the proper quality of providers in our Medicaid program.

In keeping with the desire to meet the health care needs of Georgians, I will work with the members of this legislature to enhance Medicaid and State Health Benefit Plan coverage for treatments of those diagnosed with autism up to the age of 21. I want to thank Senate Chairman Renee Unterman, House Chairman Sharon Cooper and House Subcommittee Chairman Katie Dempsey for working with us to ensure that we move forward in the proper manner on this issue as we take a deliberate and meaningful approach to this matter that touches so many hearts.

I'd also like to thank Chairman Stephanie Blank and her fellow members of the Child Welfare Reform Council who have so ably advocated for an expansion of behavioral and mental health coverage for children between birth and the age of four. Currently, community behavioral health services are offered only to Medicaid and PeachCare members age four and up. Because of their diligent work in educating us on the importance of early examination and treatment, my budget proposal includes roughly \$2.5 million dollars, dedicated to covering the full child population of Medicaid and PeachCare for children with behavioral and mental health issues.

Stephanie Blank is with us today, and we want to thank you and the members of the Child Welfare Reform Council for your good work. Will you please stand?

I am also asking that this legislature remove barriers to mental health services for our veterans. There are approximately 61,288 active military personnel, 27,233 reservists and 752,000 veterans currently in Georgia. They have given of themselves to protect us. It is only fitting that we should protect them in kind.

Nearly one in four active duty military members show signs of some mental health condition. In light of this, the budget proposal I will submit to you includes funding to train existing employees on services provided by the state and federal governments to better serve our veterans. I have also allocated for a Women Veterans Coordinator position who will work with female veterans that have suffered military sexual trauma, offering counseling and assistance with veteran's claims and appeals.

These measures will complement the \$3 million in bonds included in the current fiscal year budget for a sub-acute rehabilitation facility which will provide behavioral health services to veterans who have traumatic brain injuries or post-traumatic stress disorder. An additional \$3 million in bonds is included in my budget proposal for next fiscal year to fully fund the construction cost of this facility.

During this session, you will have yet another opportunity to accentuate the positive in regards to the hospital Medicaid financing program, more commonly known as the hospital provider fee. Three years ago, the General Assembly granted the Department of Community Health Board the authority to continue to collect this fee. As you may know, this authority will sunset this year unless this body takes action. If we fail to act, we will not be eliminating the negative, we will be inviting it.

The Medicaid program for our state in the next fiscal year's budget will cost over \$10.5 billion. That translates into more than \$1,020 in tax per person in Georgia. One of the funding sources for our Medicaid program comes from the fee paid for by hospitals, amounting to roughly \$311 million annually. That is money the state uses to leverage over \$600 million from the federal government. This authority will expire unless you reauthorize the DCH board to collect it. If that authority is not renewed, the more than \$900 million dollars now available to us for the Medicaid program will have to be made up elsewhere in our allocations. Therefore, I encourage you to reauthorize the authority expeditiously so that we do not have to take away from other portions of the budget.

While we are on the subject of federal mandates, I want to take a moment to caution against taking giant leaps on healthcare policy until we know what Congress and the incoming administration will do. We are very fortunate that former Georgia state senator and Congressman Tom Price is nominated to become the Health and Human Services secretary. Hopefully very soon, the authority to make decisions regarding our state Medicaid program and how to design it in such a way that best fits the needs of our citizens will be returned to Georgia.

While these and other issues in the healthcare arena are determined by federal policy, there are those issues that we have influence over on the state level. One such area of vital concern is an ongoing epidemic that ravages the hearts and minds of not only individuals, but also the communities that they touch. It is an epidemic that hides in plain sight and ensnares its victims without regard to age, ethnicity, socio-economic status, neighborhood or station in life. I am referring to the opioid addiction epidemic.

To address this painful reality with which communities of all nature must now contend, last month I signed an executive order directing the Department of Public Health to issue a standing order to allow naloxone, an emergency drug used to reverse opioid overdoses, to be dispensed over-the-counter by pharmacists across the state. I also requested that the Georgia Board of Pharmacy approve an emergency rule removing naloxone from the dangerous drug list and reclassifying it as a Schedule V exempt drug. They quickly fulfilled this request, and because of that action, lives have already been saved.

During this session, I ask that we not only codify into law the provisions of my executive order, but that we also strengthen our prescription drug monitoring program and ensure healthcare providers of all types are more educated on the dangers of these powerful drugs.

Yet another area where we have endeavored to accentuate the positive and eliminate the negative is education. Our graduation rate, for example, has gone from 67.4 percent in 2011 to 79.2 percent today – a significant improvement that shows we're headed in the right direction. I do not need to tell you how much we owe to the educators that have made such progress possible. Those who are on the frontlines of this field, who mold

young minds every day in the classroom and who answer such a challenging calling are the “everyday heroes” that a successful society requires.

As the husband and son of former educators, I know the impact such champions of knowledge have on the lives they reach, but I think it would be better for you to hear from an actual teacher. Please direct your attention to this video featuring Rep. Amy Carter, who will tell us just what it means to be an educator. Thank you, Rep. Carter, for chairing our Teacher Advisory Committee and for your continued leadership on education matters.

That is the quality of a person who chooses to spend a career imparting knowledge to the next generation. That is what an architect of our future looks like. That is an example of the generous and selfless character that we find in so many classrooms across our state.

In recognition of the crucial roles that they play and the difficult challenges they face in the course of their work, my budget proposal for this upcoming fiscal year includes a 2 percent salary increase built into the pay scale for all authorized state teacher positions. This is in addition to the three percent merit pay increase included in this current fiscal year’s budget.

As our educators accentuate the positives in our children and eliminate the negatives, we should latch onto the affirmative and reward them for that invaluable service. As we do so, we should also seek to eliminate whatever systemic negatives are preventing students and teachers alike from realizing their full potential.

Currently, the greatest negative in the education landscape of Georgia is the number of children trapped in failing schools. Two years ago, there were 127 chronically failing schools with roughly 68,000 enrolled students. Now that we have the data from the last school year, we find that there were 153 schools that had a failing score for three consecutive years. Those 153 chronically underperforming schools served almost 89,000 students last school year – over 20,000 more students than we spoke of last fall. Almost 70 percent of the chronically failing schools – 106 to be exact – serve elementary students.

It should be abundantly clear to everyone, including those in the education community who so staunchly support the status quo, that this is unacceptable. If this pattern of escalation in the number of failing schools does not change, its devastating effects on our state will grow with each passing school year.

Since the vast majority of those chronically failing schools serve elementary-aged children, our proposals for addressing this issue will place an emphasis on elementary schools. If we can reverse this alarming trend early on, if we can eliminate this negative that directly or indirectly impacts all of us, then our reading comprehension scores, math skills, graduation rates and the quality of our workforce will all improve considerably.

To that end, my office is working closely with Lt. Gov. Cagle, Speaker Ralston, House Chairman Brooks Coleman, Rep. Kevin Tanner, Senate Chairman Lindsey Tippins, Sen. Freddie Powell Sims and others to craft legislation that will be presented to you this session. I want to thank them for their efforts to remove this negative so that our children's futures will be brighter, our state's economic prospects more sure and our global reputation all the more notable.

For those who will contend that the real issue is lack of resources, let me remind them that we have increased K-12 spending by 2.017 billion million dollars over the last four years, which includes my fiscal year FY18 proposal. That translates into roughly 50 percent of all new growth in state revenue being dedicated to K-12 public education.

It is not enough to pour more and more money on a problem in hopes that it will go away. By addressing this negative, the students of today will be prepared for the jobs of tomorrow – jobs that are already on their way to our communities.

In 2013, the U.S. Army announced that it would build a new cyber command headquarters alongside the National Security Agency facilities at Fort Gordon in Augusta. Less than two months ago, military officials broke ground on those future headquarters that will cost \$2 billion.

I am pleased to have as my guests in the gallery, Major General John B. Morrison Jr., and Command Sergeant Major Carlos Simmons of the Army Cyber Center of Excellence. We also have Col. Thomas E. Toler, Commander of the National Security Agency-Georgia, and Deputy Commander Brian Goodman.

Gentlemen, we thank you for your service. Will you please stand?

Fort Gordon is already home to the Cyber Center of Excellence, a training facility for cyberspace operations. And soon, we will begin construction on another tool in our arsenal for security and economic development in the form of the Georgia Cyber Innovation and Training Center.

My proposed budget includes \$50 million for this state-owned facility, designed to promote modernization in cybersecurity technology for both private and public industries. In conjunction with the Department of Defense and the NSA, this invaluable resource will put Georgia at the pinnacle of efforts to enhance American cybersecurity in the public and private arenas with a resource unlike any other in the country. This will solidify Georgia's reputation as the Silicon Valley of the South.

I would like to take this opportunity to thank the other partners involved in this endeavor: the Georgia National Guard, Department of Defense, Georgia Technology Authority, our Technical College and University systems, the Department of Economic Development, Georgia Bureau of Investigation and numerous private sector entities.

We will work together to ensure that this facility is an effective education and training center from which all manner of state, local and private organizations can benefit. This initiative will be housed within our Georgia Technology Authority and will, in part, serve as an incubator for startup companies, adding yet another tool for the Department of Economic Development to attract businesses to Georgia. We will also focus on research and development, tapping into the assets of our research universities and other institutions of higher learning.

Finally, we will create a cybercrime lab run by GBI as we work with all state agencies and local governments to ensure that our citizens, employers and their digital information are protected.

This is a statewide initiative, one that will bring together all manner of public and private organizations to further our defense capabilities in a digital age. It will involve financial institutions, public utilities, healthcare providers, banking systems, software development companies, manufacturers and any other entity with a cyber infrastructure. According to a recent white paper on this subject, roughly 90 percent of businesses are vulnerable to at least one security breach, making a cyberattack in effect inevitable. Georgia currently has over 290,000 establishments across 42 major industries, and all are vested in cybersecurity in some way or can be considered cyber businesses in one form or another.

With the Cyber Innovation and Training Center joining our already impressive array of cyber and technological facilities, Georgia will truly be at the forefront of an issue that we see more and more on the front pages of our newspapers and the nightly news reports.

As we enter this new year of 2017 and this session of the Georgia General Assembly, I invite you to join with me as we continue to follow Johnny Mercer's advice from 72 years ago and accentuate the positive, eliminate the negative, latch on to the affirmative and not waste time and resources messing with Mr. In-Between!

The hour for convening the Joint Session of the Senate and House having arrived, the President, accompanied by the Secretary and Senators, proceeded to the Hall of the House of Representatives, and the Joint Session, called for the purpose of hearing a message by Honorable P. Harris Hines, Chief Justice of the Supreme Court, was called to order by the Speaker of the House. HR 8 authorizing the Joint Session of the Senate and House was read by the Clerk of the House.

Honorable P. Harris Hines, Chief Justice of the Supreme Court, addressed the Joint Session of the Senate and the House of Representatives as follows:

Speaker Ralston, Lieutenant Governor Cagle, members of the Georgia General Assembly, my fellow justices and judges, ladies and gentlemen:

Forty years ago, at the invitation of then House Speaker Tom Murphy, Chief Justice H.E. Nichols stood most likely where I stand today and for the first time reported to a joint session of the General Assembly on the State of Georgia's Judiciary.

As your new Chief Justice, I am honored that Speaker Ralston has asked me to carry on this historic annual tradition.

As the head of the third branch of government, it is my duty, and my privilege, to report to you today what the judicial branch has accomplished in the last year, the problems it still faces, and with your help, the steps it will take to solve them.

With gratitude to you and to Governor Deal for your leadership and support of our courts, I say with confidence that Georgia's judicial branch is today strong and on a course toward becoming more efficient and even stronger in the future.

Our mission as judges, however, remains the same: to interpret the laws fairly, clearly, consistently and in a prompt and impartial manner. Our constitutional duty was determined by our forefathers and requires that we uphold the rule of law. I believe the rule of law to be the very lifeblood of our judicial system, and that which gives liberty and justice to all. Judges are mandated to apply it equally to every citizen who comes before us.

But Georgia is a much different state than when Chief Justice Nichols stood here, and Georgia's judiciary must keep up with a growing population, growing caseloads and growing technological advances.

Two thousand and seventeen will be a historic year of change for the judicial branch. When Chief Justice Nichols spoke to this august body, all seven members of the Supreme Court most likely were here. Since 1945, seven is the number of justices Georgia has had on its highest court. But beginning this year, we now have nine.

I am delighted to introduce to you today our three new highly accomplished justices who were appointed by Governor Deal and who just took office this month. Justices Michael Boggs, Nels Peterson, and Britt Grant – would you all please stand.

The growth of our appellate courts is necessary in the face of increasingly complex litigation and a growth in our state's population that has made Georgia the eighth most populous state in the country.

Governor Deal also recently appointed three new judges to the Georgia Court of Appeals. Judges Clyde Reese, Charlie Bethel and Tripp Self, would the three of you also please stand.

This year, Georgia has a highly unusual number of 32 newly elected or appointed superior court judges. Significantly, their average age is only 49, which is nearly a decade younger than the sitting judges of a number of other states.

Many of our new trial court judges are here today, and I would ask all of our judges – new and not so new – who are in the gallery and who represent all classes of courts to please stand so that you, our legislators, can thank them for the work they do.

I also would like to introduce to you my wife, Helen, whom I was so very lucky to convince to marry me way back in 1969. When I met her, my father said, "Harris, Miss Hill is your very best hope. Don't mess this up."

I point out to you, in case you haven't noticed, that this new crop of justices and judges may be a bit younger than I. But I am most hopeful that this old dog – and some other somewhat old dogs – can still teach these young and talented dogs a few tricks.

For they are the face of our future. Today we stand on the brink of a new judiciary in Georgia, fortified by the next generation of judges – a young dynamic team who will infuse energy and new ideas into this important branch of government. They are the ones who will help shape our judiciary for future generations.

Governor Deal had a clear, farseeing vision for the judiciary. He has purposely appointed younger judges to help bring continuity, stability and reliability to the rule of law in Georgia through the opinions and judgments we render.

The efficiency of our appellate courts has been further strengthened by your support last year of an historic shift in jurisdiction – or the kinds of cases our two appellate courts handle. That change is now in place, and with the shift from the Supreme Court to the Court of Appeals of cases involving wills, divorce and titles to land, Georgia’s highest court is now poised to accept more appeals in the most complex and consequential cases that have the greatest implications for the law and society.

Another historic change affecting our courts has been ongoing criminal justice reform. This will be one of Governor Deal’s most significant legacies, and a reflection of the greatness that can come about when all three branches of government come together for a common purpose.

Thanks to the governor; thanks to all of you in the legislature; and thanks to colleagues of mine on the Supreme Court who were on the ground floor of this reform, the last six years have made Georgia a national leader in smart criminal justice reform policy.

Other states now look to emulate us.

We are all grateful to my friend and new colleague, Justice Michael Boggs, and the Council on Criminal Justice Reform that he has co-chaired for the last five years. This bipartisan council, also now co-chaired by Carey Miller, the governor’s executive deputy counsel, has worked hard in coming up with numerous policy recommendations.

Thanks to your legislative support, the accomplishments of this reform have been extraordinary. We have enacted policies that hold criminal offenders accountable, improve public safety and save taxpayer dollars by reserving prison beds for our violent and most serious offenders while steering many non-violent offenders into specialty courts to deal with the underlying behavior that got them into trouble with the law.

Today, across Georgia, we have 139 specialty courts, including drug courts, mental health courts, DUI courts, and veterans courts.

This year, the Council will be addressing another area that needs reform. Today Georgia has the highest probation rate in the nation. Let me repeat that: We have the highest rate of people on probation in the United States. Our prison rate is now comparable to that of other southeastern states, but we place four times as many adults on probation per capita than the national average. And we keep them on probation longer. Half are on probation for misdemeanors, including such infractions as not having enough money to pay a \$100 fine for a broken tail light.

The Council will be making a number of recommendations to you for reforming the probation sentencing of low-risk, non-violent offenders who, based on validated risk and needs assessments, pose low public safety risks. The goal is to shift low-level probationers off supervision rolls, but only after they have successfully completed a defined period of supervision. At an eventual savings of more than \$7 million, the Council recommends freeing up 140 probation officers in the next five years to concentrate on high-level offenders who are more of a risk to our citizens.

We have freed up prison beds for the most hardened, dangerous felons. And it's working. We now want to do the same with probationers and free up the limited resources of the Department of Community Supervision so it can focus on the highest risk offenders.

Because of your support, criminal justice reform in Georgia has saved millions in taxpayer dollars, improved public safety and helped countless Georgia families. The judiciary thanks you for this.

In the time I have at the helm of this branch of government, my hope is to help steer this ship in the direction of a more cohesive and efficient judiciary. I understand that like the other branches of government, we must be good stewards of taxpayer dollars and constantly be looking for ways to reduce duplication of services and efforts, and make our branch the most efficient possible. As we move toward the future, we cannot afford to work at cross purposes as we are far more effective and efficient working together.

I want the judicial branch to be a brand, a good brand, and a good brand is a promise that is always kept. I will therefore be working with the Judicial Council, the Court of Appeals, and all classes of courts to improve the workings of the judicial branch and begin to lay the groundwork for its more efficient management.

There are other areas of the court system that with your help we can improve. One of my priorities is to put more focused attention on the problem of modest income, working-class people who simply cannot afford legal representation. At one end of the scale, people of means can afford to hire lawyers; at the other end, very poor people often qualify for legal aid services. But working class citizens of quite modest means, the working poor, are too often caught in the middle – earning too much to qualify for legal aid but not enough to hire attorneys. The man in the nursing home who wants to leave what little he owns to his only child, should be able to find affordable legal help to write a simple will that complies with the law.

Financially solid individuals and large businesses can afford lawyers, but many mom and pop grocery stores, family farms and working class families struggle mightily to pay for legal services. This leads to too many Georgians having to represent themselves in court.

In the last year, our Georgia courts heard more than 800,000 cases involving self-represented litigants. Not only are people who represent themselves more likely to lose their case due to their lack of legal knowledge, but they also slow down court proceedings.

I in no way suggest that we abandon our efforts to help the indigent, as there is a waiting list of those trying to get help from overworked legal aid attorneys. But we must address this gap into which people of modest means have fallen.

Our courts and the State Bar of Georgia have been working on this problem and have come up with some helpful solutions. Innovative self-help clinics and kiosks, combined with the growing use of technology to help people fill out legal forms and petitions, have certainly helped in courts that have them.

Chief Judge Cassandra Kirk of the Fulton County Magistrate Court has helped create a clinic that provides legal support to tenants who are about to be evicted. Her court also has partnered with the Atlanta Volunteer Lawyers Foundation to provide trained attorneys proficient in landlord-tenant disputes.

I am particularly proud of a program we have developed here in Georgia, under the leadership of John Sammon of the Supreme Court's Office of Bar Admissions, and Professor Clark Cunningham of Georgia State University's College of Law. As a result of the Georgia Supreme Court's adoption of new rules broadening the supervised practice of law students, this year more than 1,000 current law students will be representing low and moderate income Georgians in legal matters who otherwise could not afford a lawyer. It's a win-win for both the law students and the clients, and it does not cost the clients or the State a dime.

But these programs are not enough. For those who are seeking legal help, sometimes it appears that we don't have a system, we have a maze. We must come up with a system to ensure that those who need legal assistance get it – creative solutions for filling this gap, whether through legislation, court rules, or technology. I intend to work with the State Bar of Georgia and law schools to explore how best to address this need.

During my term as Chief Justice, I also want to draw attention to our “courts of first resort.” For most Georgians, their first – and often only – exposure to our judicial system is in a municipal, magistrate or probate court. It is vital that these courts of first resort, which adjudicate more cases than any other class of courts, provide our citizens a speedy, effective and just resolution of their cases. These courts are the face of the rule of law, and our citizens' confidence in our justice system depends on these courts' ability to serve them. Yet our courts of first resort are sorely in need of attention and help in many ways.

Municipal Court Judge Gary Jackson, president of the statewide Council of Municipal Court Judges, works at the busiest court in Georgia – Atlanta Municipal Court. He typically hears more than 100 cases each day. People with traffic tickets, property violations and other matters line up – sometimes for hours – to get justice. For the individuals appearing before Judge Jackson, these are not inconsequential matters. But imagine hearing 100 individual sets of facts a day and issuing 100 decisions.

Our procedures in these courts may be more burdensome and convoluted than necessary.

I believe it is time for a thorough study of the processing of cases in courts of first resort to identify the changes we need to make to guarantee our citizens speedy resolutions of their cases while meeting constitutional requirements of due process.

We must ensure that these courts have the resources they need, that they are presided over by judges who are well trained, and that they run efficiently.

I also want to speak up for our superior court judges, whose jurisdiction includes the most serious crimes and complex civil litigation. Our judicial branch could work far more efficiently if all our superior court judges had law clerks. A judge's work product must be clean and clear so that understandable guidance is given to lawyers and the people and the businesses of Georgia. Our decisions must always uphold the rule of law.

One way to improve the efficiency of our courts and get a lot of bang for the buck is to fund a law clerk for every superior court judge. With law clerks, our judges could handle more cases; they could handle them more efficiently; and they could decide them more speedily.

Perhaps most of all, Georgia's juvenile court judges deserve our support. Our juvenile court judges are on the front line of crime prevention. They are often the first to identify that the reason a child may be creating havoc at school is because at home he's being harmed by his alcoholic father. Whether we're talking about criminal justice reform or the efficiency of our courts, how we deal with our youngest, most vulnerable citizens – whether as victims or as fresh new lawbreakers – must be carefully, compassionately and skillfully handled. Here, more than anywhere else, we have to get it right.

Because of the important work our juvenile court judges do, I believe we need to work toward a system of independent, full-time juvenile court judges. Juvenile law is complex and statutorily driven. We have a new juvenile code. We must attract the best and the brightest, and give them the resources they need.

As one of my administrative duties – apart from my duties as a Justice – I have chaired the Supreme Court Committee on Justice for Children for the last 16 years. It has been perhaps the most fulfilling job I have had as a judge. Like many of you, I was blessed to come up in a wonderful household. I truly had a deliriously happy childhood. My parents

loved me, and they loved and respected each other. But as a judge, I have seen the bad things that some adults do to children. As a justice on our state's highest court, I have labored over appeals of murder convictions of parents who have brutalized and killed their children. You have read the stories. They do seem to be ongoing.

But the Committee on Justice for Children has not stood still. Our work in improving the process for child neglect and abuse cases is one of the most important things government can do. I am so very proud of this outstanding committee, which includes judges, legislators, agency heads, group home owners and pediatricians. Our Cold Case Project has helped move hundreds of children from foster care into permanent homes where they are loved and supported. We have sponsored 54 attorneys who are now certified by the American Bar Association as child welfare specialists. Six of these attorneys have gone on to become juvenile court judges.

One of our Committee members is Bobby Cagle, Director of the Division of Family and Children Services. I am grateful to Governor Deal – himself a former juvenile court judge – for having appointed Mr. Cagle to lead this critical agency.

Bobby was himself a foster child who was adopted from an orphanage when he was 10 months old by two very loving parents in North Carolina. Bobby has told me that he is exactly where he needs to be, because he more than anyone, knows how critical it is for a child to have a loving, intact family. He is deeply committed to the most fragile children and families in our state. He has also taken steps to make the child welfare system more transparent. Under his leadership, today we have a computer data exchange system where every juvenile court judge can see information about foster care children. The purpose is to ensure that everyone involved in a child's life has the same information so that the best decisions are made for that child. This year, the judicial branch has a budget request to institutionalize this successful computer exchange project, and I ask for your support.

Ladies and gentlemen, without our intervention, today's abused and neglected children could easily become tomorrow's juvenile and adult offenders. Our number one criminal justice reform must be to ensure, to the best of our ability, that every child is loved, guided, protected, and supported, not by the State, but by at least one committed adult, preferably more.

Bobby Cagle shares that belief, and I am proud to introduce him to you. Bobby, would you please stand.

Forty years ago, Chief Justice Nichols pointed out that across the street from you, we justices at the Supreme Court of Georgia do a lot more than decide cases. Today – as back then – we also have administrative duties as head of the judicial branch that are apart from normal court administration. I have just described mine as chair of the Committee on Justice for Children, which I am handing over to my most able friend and colleague, Justice David Nahmias.

But all our justices are each involved in providing leadership in every aspect of the judicial system. They serve on, and lead, committees on court technology, the professionalism of lawyers, and access and fairness in the courts. They act as liaisons to the Judicial Qualifications Commission, the State Bar of Georgia, and the Office of Dispute Resolution.

Four decades ago, Chief Justice Nichols specifically stated that without the Supreme Court's leadership, and I quote, "the judiciary devolves into fragments, each trying to do what it can to improve the system but not always acting with the sense of purpose and unity that comes from leadership at the top."

I am grateful for Presiding Justice Harold Melton, my good friend and colleague.

As one of his key administrative duties, Presiding Justice Melton chairs the court system's committee on technology. His vice chairman is Superior Court Judge David Emerson of Douglas County.

Key to the future of our courts – to making our courts more efficient, to serving those who are encountering harsh economic circumstances, and to making our courts accessible to all our citizens – is technology.

We are on the brink of solving many of the courts' problems through technology.

Gwinnett County Probate Judge Christopher Ballar has used technology to streamline the process of issuing birth and death certificates. Using a computer program that searches, retrieves and issues the certificates, the program also helps prevent fraud and identity theft. Also in Gwinnett County, Superior Court Judge Randy Rich and other judges, in cooperation with the sheriff, are regularly using videoconferencing to cut down on having to transport inmates from the county jail to the courthouse. By doing so, they have increased public safety while making substantial cost savings.

Courts across Georgia have made great strides in moving from using paper documents and filings to using "e-filing" – or the electronic filing of court documents and records. In 2017, e-filing will become the norm.

Presiding Justice Melton's outstanding committee has led this effort and established rules that enable different systems to talk to each other. The Committee has worked more cooperatively with court clerks than ever before. The need now in Georgia is to tie the systems together so we have a centralized one-stop shop. Right now, there is no central entry point for e-filing across the state, and that is because there is no single portal. We need a single entryway – such as a website – where individuals can file and look up documents using a single password.

Presiding Justice Melton and his committee members are the experts. I know he has talked to a number of you, and it's time to go forward with a centralized system. The committee has a budget request for making this happen, and I do ask for your support. It will go a long way toward improving the efficiency of Georgia's courts.

In closing, I again thank all of you in the legislature for your support of the judiciary. We share the same mission of serving the citizens of this state. And we could not do our jobs without your help.

I also thank all of the judges of Georgia who each day must make difficult decisions, balancing mercy and justice. They most often make these decisions alone, praying for courage.

And I thank my friends and colleagues on the Supreme Court for having faith in me and allowing me the opportunity to lead it.

In parting, I end with the words of my predecessor of 40 years ago, Chief Justice Nichols:

“Because of my unswerving belief that our system of government is the noblest, the grandest and the greatest system of government ever conceived by mind of man, and for the great honor you have bestowed upon me in inviting me to come here today and address you in Joint Session, and, of course, for your kind attention, I thank you from the depth of my being.”

God bless all of you, and God bless the great state of Georgia.

Representative Burns of the 159th moved that the Joint Session be hereby dissolved.

The motion prevailed, and the Speaker of the House announced the Joint Session dissolved.

Pursuant to the provisions of a previously adopted motion, the Senate stood adjourned until 10:00 a.m. Thursday, January 26, 2017.

A BILL to be entitled an Act to amend Article 7 of Chapter 4 of Title 49 of the Official Code of Georgia Annotated, relating to medical assistance generally, so as to establish the Georgia Mental Health Treatment Task Force; to provide for legislative findings; to provide for the membership, duties, compensation, and expense allowances; to develop applications for a Medicaid waiver and block grant funding; to prohibit the submission of a mental health Medicaid waiver application without legislative approval; to require agencies'

cooperation; to provide for the abolishment; to provide for a short title; to provide for related matters; to provide for an effective date; to repeal conflicting laws; and for other purposes.

The Senate Committee on Health and Human Services offered the following substitute to SB 4:

**A BILL TO BE ENTITLED  
AN ACT**

To amend Article 7 of Chapter 4 of Title 49 of the Official Code of Georgia Annotated, relating to medical assistance generally, so as to establish the Georgia Mental Health Treatment Task Force; to provide for legislative findings; to provide for the membership, duties, compensation, and expense allowances; to develop applications for a Medicaid waiver and block grant funding; to prohibit the submission of a mental health Medicaid waiver application without legislative approval; to require agencies' cooperation; to provide for the abolishment; to provide for a short title; to provide for related matters; to provide for an effective date; to repeal conflicting laws; and for other purposes.

**BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:**

**SECTION 1.**

This Act shall be known and may be cited as the "Enhancing Mental Health Treatment in Georgia Act."

**SECTION 2.**

The General Assembly finds that:

- (1) It is important to understand the needs of Georgia residents with serious mental illness and substance abuse disorders, to assess the ability of the state's health system to meet these needs effectively, and to understand the impact of untreated mental illness and substance abuse disorders on state budgets, hospitals, emergency rooms, jails, prisons, law enforcement, and related institutions and services;
- (2) Access to acute care and crisis intervention is vitally important to the citizens of Georgia, and scenarios involving law enforcement, emergency medical service personnel, and other first responders deserve careful consideration and support to ensure resources are utilized in an efficient and safe manner;
- (3) There is a vital need for this state to assess its ability to provide appropriate and necessary programs and services to Georgia's citizens, and determine where gaps may exist, as well as where the private sector, public sector, and nonprofit and faith-based communities' resources may be leveraged to ensure each citizen has access to the right care, at the right time, at the right place;
- (4) Nationally, 4.1 percent of the population suffers from serious mental illness;
- (5) While 92,118 adults with serious mental illness are currently served by the state

mental health authority, there are an estimated 306,000 adults with serious mental illness in Georgia;

(6) Substance abuse and dependence on alcohol and drugs in Georgia mirrors national rates;

(7) Untreated serious mental illness prevents individuals from functioning normally in society and leading productive, fulfilled lives;

(8) Hospitals and emergency rooms can become overrun when individuals with untreated serious mental illness conflate emergency care with proper mental health treatment;

(9) Valuable law enforcement resources across the state are often diverted to attending to the mentally ill;

(10) Untreated mental illness can lead to institutionalization, prison, and otherwise worse health outcomes;

(11) Early, comprehensive, and regular treatment of individuals with mental illness can prevent adverse effects upon an individual, the health care system, and society at large;

(12) Untreated substance abuse has dire consequences on individuals' and families' lives;

(13) Because mental illness can increase vulnerability to drug abuse and substance addiction, effective treatment of mental illness may also necessitate treatment for a substance abuse disorder;

(14) There is a need to study the effectiveness of the services and health care programs currently available to individuals with, or at risk for, serious mental illness; and

(15) An understanding of the feasibility and consequences of using a Medicaid waiver to improve treatment for those with serious mental illness would enable the General Assembly to make an informed decision as to whether the state should seek a Section 1115 waiver from the Department of Health and Human Services or apply for Medicaid block grant funding for mental health treatment and services, if appropriate.

## SECTION 2.

Article 7 of Chapter 4 of Title 49 of the Official Code of Georgia Annotated, relating to medical assistance generally, is amended by adding a new Code section to read as follows:

"49-4-142.3.

(a) As used in this Code section, the term:

(2) 'Serious and persistent mental illness' means a serious mental illness that requires ongoing treatment and management and causes severe impairment over time.

(3) 'Serious mental illness' means a diagnosable mental, behavioral, or other emotional disorder that results in serious functional impairment which substantially

interferes with or limits one or more of an individual's major life activities. It includes the subset population of individuals with serious and persistent mental illness.

(4) 'Substance abuse disorder' means a pattern of use of an intoxicating substance leading to clinically significant impairment or distress.

(b) There is created the Georgia Mental Health Treatment Task Force to be composed of three members of the House of Representatives to be appointed by the Speaker of the House of Representatives; three members of the Senate to be appointed by the President of the Senate; eleven members to be appointed by the Governor to include the commissioner of community health or his or her designee, the commissioner of behavioral health and developmental disabilities or his or her designee, the commissioner of public health or his or her designee, the commissioner of human services or his or her designee, the commissioner of community affairs or his or her designee, a representative from the Georgia Sheriffs' Association, two representatives from mental health advocacy groups, one member of an acute care hospital that maintains in-patient psychiatric beds, one member from a private free-standing psychiatric institution, and a representative from one of the state's community service boards. The Speaker of the House of Representatives and the President of the Senate shall each select a cochairperson. The cochairpersons shall call all meetings of the task force. Administrative support for the task force shall be provided by the staff of the Department of Community Health, as appropriate.

(c) The legislative members of the task force shall be entitled to receive the compensation and allowances provided for in Code Section 28-1-8. Members of the task force who are state officials, other than legislative members, or state employees shall receive no compensation for their services on the task force but may be reimbursed for expenses incurred by them in the performance of their duties as members of the task force in the same manner as they are reimbursed for expenses in their capacities as state officials or employees.

(d) The task force may conduct such meetings at such places and at such times as it may deem necessary or convenient to enable it to exercise fully and effectively its powers, perform its duties, and accomplish the objectives and purposes of this Code section.

(e) The task force shall perform the following by December 31, 2017:

(1) Examine the current mental health landscape in the state with particular attention to the number of residents affected by serious mental illness and substance abuse disorders and their health insurance coverage status, both public and private;

(2) Assess whether the current Medicaid program provides adequate and effective mental health care services to the portion of the population suffering from, and at risk for, serious mental illness and substance abuse disorders;

(3) Assess how other, non-Medicaid, services work to provide effective health care services to the portion of the population suffering from, and at risk for, serious mental illness and substance abuse disorders;

(4) Determine the impact on the state's hospitals, emergency rooms, law enforcement,

prisons, jails, and related institutions and services resulting from a lack of treatment of those with mental illness and substance abuse disorders;

(5) Understand the link between substance abuse disorders and serious mental illness in order to provide comprehensive, effective treatment to persons suffering from either or both;

(6) Assess which services and practices work best to prevent further deterioration within the mentally ill and substance abuse disorder populations, including, but not limited to, supportive housing, crisis stabilization programs, community residential rehabilitation, assertive community treatment services, telemedicine, data integration, and addiction treatment programs;

If for any reason any of the sums herein provided under any other provision of this Act are insufficient to make the required payments in full, then there shall be taken from other funds appropriated to the department, agency, or institution involved an amount sufficient to satisfy such deficiency in full, and the lease payment shall constitute a first charge on all such appropriations.

*Section 55: Budgetary Control and Interpretation*

The appropriations in this Act consist of the amount stated in the right-most column, for each line at the lowest level of detail for the fund source categories, "Total State Funds" and "Total Federal Funds," under a caption beginning with a program or special project number that has a 100 or a higher number after the decimal and a program or special project name. In each case, such appropriation is associated with the immediately preceding program or special project name, number, and statement of program or special project purpose. The program or special project purpose is stated immediately below the program or special project name. The most specific level of detail for authorizations for general obligation debt in Section 50 shall be the authorizing paragraphs.

Similarly, text in a group of lines that has a number less than 100 after the decimal (01 through 99) is not part of a statement of purpose but constitutes information as to how the appropriation was derived. Amounts in the columns other than the right-most column are for informational purposes only. The summary and lowest level of detail for the fund source categories "Total Agency Funds" and "Total Intra-State Governmental Transfers," are for informational purposes only. The blocks of text and numerals immediately following the section header and beginning with the phrases, "Section Total - Continuation" and "Section Totals - Final" are for informational purposes only. Sections 51, 52, 53 and 54 contain, constitute, or amend appropriations.

*Section 56: Flex*

In the preceding sentence, "Federal Funds" means any federal funding source, whether specifically identified or not specifically identified; "Other Funds" means all other fund sources except State Funds or Federal Funds, including without limitation Intra-State Government Transfers. This paragraph shall not permit an agency to include within its flex the appropriations for an agency attached to it for administrative purposes.

**For purposes of the appropriations for the "Medicaid: Low-Income Medicaid," "Medicaid: Aged, Blind, and Disabled," and "PeachCare" programs of the Department of Community Health, the appropriation of a particular State fund source for each program shall be the amount stated, and each such program shall also be authorized up to an additional amount of 10 percent (10%) of the amount stated. However, if the additional authority is used, the appropriation of the same State fund source for the other programs to that agency shall be reduced in the same amount, such that the stated total in program appropriations from that State fund source for the three programs shall not be exceeded. However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added.**

**For purposes of the appropriations for the "Capital Construction Projects," "Capital Maintenance Projects," and "Local Road Assistance Administration" programs of the Department of Transportation, the appropriation of a particular State fund source for each program shall be the amount stated, and each such program shall also be authorized up to an additional amount of 10 percent (10%) of the amount stated. The following legislation was read the third time and put upon its passage:

SB 12. By Senators Unterman of the 45th, Seay of the 34th, Hufstetler of the 52nd and Kirk of the 13th:

A BILL to be entitled an Act to amend Article 3 of Chapter 11 of Title 43 of the Official Code of Georgia Annotated, relating to dental hygienists, so as to authorize licensed dental hygienists to perform certain functions under general supervision; to provide for legislative findings and intent; to provide for criteria; to require professional liability insurance by licensed dental hygienists performing under general supervision; to provide for definitions; to provide for intent; to provide for related matters; to provide an effective date; to repeal conflicting laws; and for other purposes.

The Senate Committee on Health and Human Services offered the following substitute to SB 12:

A BILL TO BE ENTITLED  
AN ACT

To amend Article 3 of Chapter 11 of Title 43 of the Official Code of Georgia Annotated, relating to dental hygienists, so as to authorize licensed dental hygienists to perform certain functions under general supervision in certain settings; to provide for legislative findings and intent; to provide for definitions; to provide for criteria; to provide for requirements; to collect certain Medicaid data; to provide for statutory construction; to provide for related matters; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

**SECTION 1.**

(a) The General Assembly finds that:

- (1) Statistics show that nearly one-third of older adults have untreated tooth decay and nearly 25 percent of adults ages 65 to 74 have severe gum disease. Statistics also show that a significant percentage of lower income children in Georgia do not have adequate access to dental care, putting them at significant risk of developing tooth decay and other oral health conditions;
- (2) Professional preventative hygiene services can help prevent such conditions before they begin;
- (3) Preventative care is the most cost-effective care that can be delivered to the public;
- (4) In 2016, 4,106 Georgians sought emergency dental care at Grady Memorial Hospital at a cost of \$1.75 million; and
- (5) Of Georgia's 159 counties, 118 are considered dental health professional shortage areas, meaning there are not enough licensed dentists in those areas to meet the dental

care needs of the public, resulting in individuals seeking emergency care for dental issues.

(b) It is the intent of the General Assembly to increase access to preventative dental care for underserved and needy populations. It is further the intent of the General Assembly that the rules and regulations promulgated by the Georgia Board of Dentistry pursuant to this Act effectuate this purpose to the greatest extent allowable.

## SECTION 2.

Article 3 of Chapter 11 of Title 43 of the Official Code of Georgia Annotated, relating to dental hygienists, is amended by revising Code Section 43-11-74, relating to direct supervision requirements, scope of duties, and exceptions to required supervision for dental screenings, as follows:

"43-11-74.

(a) As used in this Code section the term:

(1) 'Direct supervision' means that a licensed dentist is in the dental office or treatment facility, personally diagnoses the condition to be treated, personally authorizes the procedure and remains in the dental office or treatment facility while the procedure is being performed by the dental hygienist, and before dismissal of the patient, examines the patient.

(2) 'General supervision' means that a licensed dentist has authorized the delegable duties of a licensed dental hygienist but does not require that a licensed dentist be present when such duties are performed.

(b) Licensed dental ~~Dental~~ hygienists shall perform their duties only under the direct supervision of a licensed dentist, except as otherwise provided in this Code section. No licensed dental hygienist shall diagnose, prescribe, determine the initial dosage, or increase the initial dosage of nitrous oxide, practice dentistry, or do any kind of dental work other than to remove calcareous deposits, secretions, and stains from the surfaces of the teeth, to apply ordinary wash or washes of a soothing character, and to perform those acts, services, procedures, and practices which the board shall prescribe by rule or regulation. The board shall not delegate to dental hygienists the authority to administer local anesthesia, except that this restriction shall automatically expire July 1, 1992.

~~(b)~~(c) After meeting such additional education and training requirements as the board may require by rule or regulation, a licensed dental hygienist may perform such other acts, practices, services, or procedures under the direct supervision of a licensed dentist, which the board may prescribe by rule or regulation subject, however, to the limitations set forth in subsection ~~(a)~~ (b) of this Code section.

~~(e)~~(d) The requirement of direct supervision shall not apply to the educational training of dental hygiene students at an institution approved by the board and the Commission on Dental Accreditation of the American Dental Association, or its successor agency, when such instruction is carried out under such degree of supervision by a licensed dentist as the board may prescribe by rule or regulation.

~~(d)~~(e) The requirement of direct supervision shall not apply to the performance of dental hygiene duties at approved dental facilities of the Department of Public Health,

county boards of health, or the Department of Corrections or the performance of dental hygiene duties by personnel of the Department of Public Health or county boards of health at approved offsite locations. ~~The board shall provide by rule or regulation for criteria for approval of such facilities and for the appropriate degree of supervision by a licensed dentist over dental hygienists performing duties in such facilities.~~

~~(e)~~(f)(1) As used in this subsection, the term 'dental screening' means a visual assessment of the oral cavity without the use of X-rays, laboratory tests, or diagnostic models to determine if it appears that a more thorough clinical examination and diagnosis should be conducted by a licensed dentist.

(2) The requirement of direct supervision shall not apply to the performance of licensed dental hygienists providing dental screenings in settings which include: schools; hospitals; ~~and~~ clinics; ~~and~~ state, county, local, and federal public health programs; federally qualified health centers; volunteer community health settings; senior centers; and family violence shelters, as defined in Code Section 19-13-20. Other health fair settings must be preapproved by the board.

(3) Each person who receives a dental screening pursuant to this subsection, or the parent or legal guardian if the person is a minor, must be informed in writing of the purpose and limitations of a dental screening and advised to seek a more thorough clinical examination by a licensed dentist to determine whether or not problems exist that might not be discovered in a dental screening. There shall be no fees charged for providing a dental screening pursuant to this subsection except for dental screenings provided by employees of the Department of Public Health or county boards of health. These fees must be paid directly to that department or county board of health and not to the individual who performs the dental screening.

(g)(1) In a private dental office setting, a licensed dental hygienist may perform only the following functions under general supervision:

(A) Application of sealants and oral prophylaxis and assessment;

(B) Fluoride treatment;

(C) Oral hygiene instruction and education; and

(D) Exposure and processing of radiographs if provided for by specific standing orders of the authorizing licensed dentist, including any protocols regarding urgent dental issues that arise.

(2) A licensed dentist in a private dental office setting may authorize general supervision of a licensed dental hygienist only upon meeting the following criteria:

(A) A new patient of record must be clinically examined by the authorizing licensed dentist during the initial visit;

(B) A patient must be examined by the authorizing licensed dentist at a minimum of twelve-month intervals; and

(C) A patient must be notified in advance of the appointment that he or she will be treated by the licensed dental hygienist under general supervision without the authorizing licensed dentist being present or being examined by the authorizing licensed dentist.

(h) In school settings, licensed dental hygienists may apply topical fluoride and

perform the application of sealants and oral prophylaxis under general supervision, with written permission of the student's parent or guardian. Such written permission may be obtained by the school in the same manner as other parental permissions are obtained. Licensed dental hygienists may also, without prior written permission of the student's parent or guardian, provide oral hygiene instruction and counseling. Confidentiality of any records related to services provided to a student pursuant to this subsection shall be maintained by the licensed dental hygienist and authorizing licensed dentist in compliance with the federal Family Educational Rights and Privacy Act of 1974, 20 U.S.C. Section 1232g. School settings shall include only schools that are Title I schools under the federal Elementary and Secondary Education Act, schools in which at least 65 percent of the student population is eligible for free or reduced price lunch under federal guidelines, Head Start programs, and Georgia's Pre-K Program.

(i) In hospitals, nursing homes, long-term care facilities, rural health clinics, federally qualified health centers, health facilities operated by federal, state, county, or local governments, hospices, family violence shelters as defined in Code Section 19-13-20, and free health clinics as defined in Code Section 51-1-29.4, licensed dental hygienists may apply topical fluoride and perform the application of sealants and oral prophylaxis under general supervision.

(j) A licensed dental hygienist providing dental hygiene services pursuant to subsection (h) or (i) of this Code section shall:

(1) Not perform any dental hygiene services on a patient that has dental pain or clearly visible evidence of widespread dental disease. The licensed dental hygienist shall immediately refer such patient to the authorizing licensed dentist for clinical examination and treatment. The licensed dental hygienist shall notate such patient's file and the patient shall not be eligible to receive dental hygiene services pursuant to subsection (h) or (i) of this Code section until a licensed dentist provides written authorization that such services may be performed on the patient;

(2) Prior to providing any dental hygiene services, obtain, study, and comprehend the school's or facility's protocols and procedures regarding medical emergencies and implement and comply with such protocols and procedures if a medical emergency arises during the provision of dental hygiene services; and

(3) Provide to each patient receiving such services written notice containing:

(A) The name and license number of the licensed dental hygienist and the authorizing licensed dentist;

(B) Any dental hygiene issues that the licensed dental hygienist identified during the performance of dental hygiene duties. If dental hygiene services are not performed on the patient pursuant to paragraph (1) of this subsection, the written notice shall include a statement that the patient is not eligible to receive dental hygiene services until a clinical examination is performed by a licensed dentist and a licensed dentist provides written authorization that services may be performed; and

(C) A statement advising each patient who receives dental hygiene services to seek a more thorough clinical examination by a licensed dentist within 90 days, unless

the authorizing licensed dentist performed an initial clinical examination of the patient.

The licensed dental hygienist shall make all reasonable efforts to provide such written notice to parents or legal guardians of minors or incapacitated adults who receive dental hygiene services and to the long-term care facility or nursing home for residents of such facilities who receive dental hygiene services.

(k)(1) Any licensed dental hygienist performing dental hygiene services under general supervision pursuant to this Code section shall have at least two years of experience in the practice of dental hygiene, shall be in compliance with continuing education requirements pursuant to Code Section 43-11-73.1 and cardiopulmonary resuscitation certification requirements contained in Code Section 43-11-73, and shall be licensed in good standing.

(2) Licensed dental hygienists practicing under general supervision shall maintain professional liability insurance in accordance with board rules and regulations.

(l)(1) No licensed dentist shall be required to authorize a licensed dental hygienist or dental hygienists to perform dental hygiene duties pursuant to subsection (g), (h), or (i) of this Code section.

(2) It shall be in the sole discretion of the authorizing licensed dentist as to whether or not to require an initial examination of the patient prior to the performance by a licensed dental hygienist of dental hygiene services under general supervision.

(3) A licensed dentist may only authorize up to four licensed dental hygienists to provide dental hygiene services pursuant to subsection (g), (h), or (i) of this Code section at any one time.

(4) A licensed dentist authorizing one or more licensed dental hygienists to provide dental hygiene services pursuant to subsection (h) or (i) of this Code section shall practice dentistry and treat patients in a physical and operational dental office located in this state within 50 miles of the setting in which the dental hygiene services are to be provided under general supervision.

(m) Dental hygiene services provided by licensed dental hygienists in mobile dental vans shall always be provided under direct supervision.

A BILL to be entitled an Act to amend Article 3 of Chapter 2 of Title 32 of the Official Code of Georgia Annotated, relating to officers in the Department of Transportation, so as to provide for state investment in railways and railroad facilities and equipment; to provide that the commissioner of transportation may administer a Georgia Freight Railroad Program; to provide for subprograms within such program; to provide for annual reporting; to provide for a short title; to provide for legislative findings; to provide for related matters; to repeal conflicting laws; and for other purposes.

The Senate Committee on Transportation offered the following substitute to SB 89:

A BILL TO BE ENTITLED  
AN ACT

To amend Article 3 of Chapter 2 of Title 32 of the Official Code of Georgia Annotated, relating to officers in the Department of Transportation, so as to provide for state investment in railways and railroad facilities and equipment; to provide that the commissioner of transportation may administer a Georgia Freight Railroad Program; to provide for subprograms within such program; to provide for annual reporting; to provide for a short title; to provide for legislative findings; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

**SECTION 1.**

This Act shall be known and may be cited as the "Georgia Right Track Act."

**SECTION 2.**

The General Assembly finds that:

- (1) There are 4,643 miles of main line railroad track in Georgia;
- (2) The State of Georgia owns approximately 1,012 miles of such track, with over 500 route miles operated under leases to various railroad companies;
- (3) There are 189 million tons of freight moved by rail in Georgia by 3.9 million rail cars originating in or traveling through this state;
- (4) The Department of Transportation developed its State Rail Plan in 2015 for the purpose of guiding the state's rail freight and passenger transportation planning through the year 2040;
- (5) The expansion of the Port of Savannah will place significantly more traffic on the rails and roads of this state by 2040;
- (6) The 2015 Rail Plan estimates that total highway freight truck travel demand will grow by 41 percent by 2040;
- (7) Additional freight rail capacity will be needed to provide highway traffic congestion relief;
- (8) The promotion and enhancement of rail safety will require funding for the public grade crossing improvement program;
- (9) Railroad facilities will need substantial improvement and maintenance to ensure safe travel on the roads and highways of this state;
- (10) The state notes that shippers need increased rail access and service to existing and prospective new businesses and industries within this state, which could decrease overall shipping costs, better optimize the state's rail network, and remove more trucks from tax maintained roads;
- (11) The Georgia Freight Rail program would increase safety and reduce the number of trucks on state maintained highways, while providing Georgia businesses safe access to national and international markets via this state's rail networks, including state owned railroad facilities and ports;
- (12) This Georgia Freight Railroad Program is designed to enhance the state's investment in eligible freight rail projects and is not intended to supplant current funding;
- (13) Rail has particularly important impacts on rural areas, as agricultural, manufacturing, and local industries connect with global and national marketplaces; and
- (14) It is in this state's public interest that a safe, balanced, and efficient transportation system is consistently improved upon, developed, and maintained.

**SECTION 3.**

Article 3 of Chapter 2 of Title 32 of the Official Code of Georgia Annotated, relating to officers in the Department of Transportation, is amended by adding a new Code section to read as follows:

"32-2-41.3.

- (a) The Georgia Freight Railroad Program shall be administered, subject to

appropriations, at the discretion of the commissioner, in order to enhance the state's investment in freight rail projects for public benefit and to support a safe and balanced transportation system for the state.

(b) The Georgia Freight Railroad Program shall be composed of three subprograms as follows:

(1) The Rail Enhancement Plan shall acquire, lease, or improve railways or railroad equipment, including rail crossings, rolling stock, rights of way, or rail facilities;

(2) The Rail Preservation Plan shall acquire, lease, or improve short line railways or assist other appropriate entities to acquire, lease, or improve short line railways; and

(3) The Rail Industrial Plan shall build, construct, restructure, or improve industrial access to railroad tracks and related facilities.

(c) In administering the program, the commissioner shall make every effort to balance such program among all regions of this state and among the various applicants.

(d) Following the end of each fiscal year, the commissioner, or his or her appointee, shall submit an annual report on the activities of the Georgia Freight Railroad Program to the Governor, the Lieutenant Governor, and the Speaker of the House of Representatives and shall make such report available to the members of the General Assembly.

(e) Nothing authorized by this Code section shall violate the gratuities clause."

**SECTION 4.**

Chapter 60 of Title 36 of the Official Code of Georgia Annotated, relating to general provisions applicable to counties and municipal corporations, is amended by adding a new Code section to read as follows:

"36-60-27.

(a) As used in this Code section, the term:

(1) 'Administrative fee' means a component of an occupation tax which approximates the reasonable cost of handling and processing the occupation tax.

(2) 'Occupation tax' means a tax levied on persons, partnerships, corporations, or

other entities for engaging in an occupation, profession, or business and enacted by a local government as a revenue-raising ordinance or resolution.

(3) 'Regulatory fee' means payments, whether designated as license fees, permit fees, or by another name, which are required by a local government as an exercise of its police power and as a part of or as an aid to regulation of an occupation, profession, or business other than occupation taxes and administrative fees.

(4) 'Regulatory requirement' means an ordinance, resolution, rule, or regulation that affects an occupation, a profession, or the establishment or operation of a business.

(b) Each county or municipality which imposes regulatory fees or regulatory requirements within its jurisdiction shall establish a schedule of such regulatory fees and regulatory requirements within its jurisdiction which shall include timelines necessary for processing completed applications and a list of all documentation related to such regulatory requirements.

(c)(1) Upon receipt of any application related to regulatory requirements that necessitates a regulatory fee, a county or municipality shall require the applicant to pay 50 percent of regulatory fees due.

(2) Each county or municipality shall notify each applicant upon receipt and verification that an application is complete.

(3) Whenever the county or municipality does not meet an established deadline for processing a completed application, the regulatory fees associated with such deadline shall be reduced by 10 percent of the original fee for each ten days that the county or municipality fails to meet its established deadline.

(4)(A) Upon approval of an application, each county or municipality shall notify and inform the applicant of the amount of regulatory fees due, reduced by the amount, if any, required by paragraph (3) of this subsection, and shall require payment of such fees due prior to the issuance of any license, certificate, or permit.

(5) Any delay in the processing of an application outside the control of the county or municipality that is processing the application and that is directly caused by or attributable to a natural disaster, a state of emergency, or a mandated federal or state agency review or approval shall not count toward days for the purposes of this subsection; provided, however, that the possibility of such delay is included in the schedule required pursuant to subsection (b) of this Code section.

(d) Each county or municipality which imposes regulatory requirements shall establish an expedited licensing and permitting process which will give priority processing for such licenses or permits for which the county or municipality is authorized to charge an additional fee in an amount not to exceed two times the regulatory fee for the license or permit for which the applicant is requesting expedited processing. The expedited licensing and permitting process shall remain subject to the conditions imposed by subsection (c) of this Code section.

(e) Each county or municipality in this state shall annually review its activities which

(f) This Code section shall not apply to any proprietary function of a county or municipality.

(g) Nothing in this Code section shall be construed to create a private cause of action in any person or entity other than the applicant for the license or permit.

(h) To the extent, if any, that a provision of this Code section prevents a county or municipality from receiving federal funds, such provision shall not apply."

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

**SECTION 1.**

Chapter 11 of Title 31 of the Official Code of Georgia Annotated, relating to emergency medical services, is amended by adding a new article to read as follows:

"ARTICLE 7

31-11-130.

The General Assembly finds and declares that:

- (1) Cardiovascular disease is the number one cause of death in the United States and in Georgia;
- (2) Georgia ranks as the thirty-eighth worst in the nation for numbers of deaths from cardiovascular disease;
- (3) There were 79,901 deaths in Georgia in 2015, and cardiovascular disease (excluding stroke) accounted for 23.6 percent of such deaths;
- (4) Approximately 40 percent of cardiac deaths occur suddenly, the result of a heart attack that is manifested by an out-of-hospital cardiac arrest;
- (5) As of 2016, several states, but notably Arizona and Washington, have designated hospitals that are expert in cardiovascular disease care, much in the way that Georgia has stroke and trauma centers; Arizona and Washington have some of the lowest death rates for patients who have heart attacks, in part due to their designated cardiac centers; and
- (6) Therefore, it is in the best interest of the residents of this state to establish a program to identify emergency cardiac care centers throughout the state to ensure the rapid triage, assessment, treatment, and transport of patients experiencing out-of-hospital cardiac arrest or heart attack or its complications.

31-11-131.

As used in this article, the term:

- (1) 'Emergency cardiac care center' means a hospital that has been designated by the office pursuant to this article as meeting the criteria set forth in this article.
- (2) 'Office' means the Office of Cardiac Care established pursuant to this article.

31-11-132.

- (a) There shall be established the Office of Cardiac Care within the Department of Public Health. The office shall administer the designation process provided for in this article, including, but not limited to, data collection, analysis and reporting, and site visits.
- (b) The office shall designate hospitals that meet the criteria set forth in this article as emergency cardiac care centers. Each emergency cardiac care center shall be further designated as Level I, Level II, or Level III by the office. The criteria for each level designation shall be established by the office and shall include, at a minimum, the following:
  - (1) Level I shall have:
    - (A) Cardiac catheterization and angioplasty facilities available 24 hours, seven days per week, 365 days per year;
    - (B) On-site cardiothoracic surgery capability available 24 hours, seven days per week, 365 days per year;
    - (C) Established protocols for therapeutic hypothermia for out-of-hospital cardiac arrest patients;
    - (D) The ability to implant percutaneous left ventricular assist devices for support of hemodynamically unstable patients experiencing out-of-hospital cardiac arrest or

heart attack;

(E) Neurologic protocols to measure functional status at hospital discharge; and

(F) The ability to implant automatic implantable cardioverter defibrillators;

(2) Level II shall have:

(A) Cardiac catheterization and angioplasty facilities available 24 hours, seven days per week, 365 days per year, but no on-site cardiothoracic surgery capability;

(B) Established protocols for therapeutic hypothermia for out-of-hospital cardiac arrest patients;

(C) Neurologic protocols to measure functional status at hospital discharge; and

(D) A written transfer plan with one or more Level I emergency cardiac care centers for patients who need left ventricular assist devices or cardiothoracic surgery;

(3) Level III shall have:

(A) Established protocols for therapeutic hypothermia for out-of-hospital cardiac arrest patients; and

(B) A written plan for systematic transfer to a Level I or Level II facility; and

(4) The department shall be authorized to establish one or more additional levels of cardiac care centers as necessary based upon advancements in medicine and patient care.

(c) Emergency cardiac care centers are encouraged to coordinate, through agreement, with other level emergency cardiac care centers throughout the state to provide appropriate access to care for cardiac patients. The coordinating agreements shall be in writing and include at a minimum:

(1) Transfer agreements for the transport and acceptance of:

(A) Cardiac patients seen by a Level I emergency cardiac care center which a Level II or III emergency cardiac care center is not capable of providing; or

(B) Cardiac patients seen by a Level II emergency cardiac care center which a Level III emergency cardiac care center is not capable of providing; and

(2) Communication criteria and protocols between the emergency cardiac care centers.

31-11-133.

(a) A hospital shall apply to the office for designation as an emergency cardiac care center through an application process to be determined by the office. A hospital shall demonstrate to the satisfaction of the office that the hospital meets the applicable criteria set forth in this article. The application process may include an on-site inspection of the hospital at the discretion of the office.

(b) The office shall establish requirements for the periodic redesignation of emergency cardiac care centers.

(c) The office may suspend or revoke a hospital's identification as an emergency cardiac care center, after notice and hearing, if the office determines that the hospital is not in compliance with the requirements or criteria of this article.

31-11-134.

(a) The office shall establish a data reporting system which may be composed of one or more data bases for the reporting of data on all out-of-hospital cardiac arrest patients and all heart attack patients. The data reporting system may be composed of data bases established or designated by the office, including, but not limited to, data bases newly created and managed by or on behalf of the office, existing state data bases modified to include such additional reporting, existing regional or national data bases, or any combination thereof.

(b) Each emergency cardiac care center shall:

(1) Report to the data base specified by the office data on all out-of-hospital cardiac arrest patients and data on all heart attack patients in accordance with time frame requirements established by the office; and

(2) Have a written system included in the protocols for the hospital for timely submission of all such data required to be submitted pursuant to this Code section and office guidelines.

(c) The office shall, on an ongoing basis, analyze state-wide data collected pursuant to this Code section for out-of-hospital cardiac arrest patients and heart attack patients, with the goal of improving survival rates over the initial three years of the program, and shall improve any processes or adjust any protocols as necessary to implement best practices to improve the cardiac care of patients through emergency cardiac care centers in this state.

(d) The office shall collect the data reported pursuant to this Code section and shall post such information in the form of an annual report card on the office's website and present such report to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The results of this report card may be used by the office to conduct training with the identified hospitals regarding best practices in the treatment of emergency cardiac care patients.

(e) In no way shall this article be construed to require disclosure of any confidential information or other data in violation of the federal Health Insurance Portability and Accountability Act of 1996, P.L. 104-191.

31-11-135.

(a) In order to encourage and ensure the establishment of emergency cardiac care centers throughout the state, the office shall award grants, subject to appropriations from the General Assembly, to hospitals that seek designation as emergency cardiac care centers and demonstrate a need for financial assistance to develop the necessary infrastructure, including personnel and equipment, in order to satisfy the criteria for designation as an emergency cardiac care center pursuant to this article.

(b) A hospital seeking designation as an emergency cardiac care center pursuant to this article may apply to the office for a grant, in a manner and on a form required by the office, and provide such information as the office deems necessary to determine if the hospital is eligible for such grant.

(c) The office may provide grants to as many hospitals as it deems appropriate, subject

to appropriations from the General Assembly, taking into consideration adequate geographic diversity with respect to locations.

(d) The office shall annually prepare and submit to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the chairpersons of the House Committee on Health and Human Services and the Senate Health and Human Services Committee for distribution to its committee members a report indicating the total number of hospitals that have applied for grants pursuant to this Code section, the number of applicants that have been determined by the office to be eligible for such grants, the total number of grants to be awarded, the name and address of each grantee, and the amount of the award to each grantee.

31-11-136.

(a) Beginning June 1, 2018, and each year thereafter, the office shall provide a list of emergency cardiac care centers designated pursuant to this article to the medical director of each licensed emergency medical services provider in this state, shall maintain a copy of such list in the office, and shall post such list on the office's website.

(b) The office shall adopt or develop a sample emergency cardiac care triage assessment tool. The office shall post this sample assessment tool on its website and distribute a copy of the sample assessment tool to each licensed emergency medical services provider no later than December 31, 2017. Each licensed emergency medical services provider shall use an emergency cardiac care triage assessment tool that is substantially similar to the sample emergency cardiac care triage assessment tool provided by the office.

(c) The office shall establish protocols related to the triage, assessment, treatment, and transport of emergency cardiac care patients by licensed emergency medical services providers in this state.

31-11-137.

This article shall not be construed to be a medical practice guideline or to establish a standard of care for treatment and shall not be used to restrict the authority of a hospital to provide services for which it has received a license under state law. The General Assembly intends that all patients be treated individually based on each patient's needs and circumstances.

31-11-138.

A hospital may not advertise to the public, by way of any medium whatsoever, that it is identified by the state as an emergency cardiac care center unless the hospital has been designated as such by the office pursuant to this article.

(f) A hospital shall post on the hospital's website:

(1) The health care plans in which the hospital is a participating provider;

(2) A statement that physician services provided in the hospital are not included in the hospital's charges, that physicians who provide services in the hospital may or may not participate with the same health care plans as the hospital, and that the prospective patient should check with the physician arranging for the hospital services to determine the health care plans in which the physician participates;

(3) As applicable, the name, mailing address, and telephone number of the physician groups that the hospital has contracted with to provide services, including anesthesiology, pathology, or radiology, and instructions on how to contact these groups to determine the health care plan participation of the physicians in these groups; and

(4) As applicable, the name, mailing address, and telephone number of physicians employed by the hospital and whose services may be provided at the hospital with the health care plans in which they participate.

(g) In registration or admission materials provided in advance of nonemergency hospital services, a hospital shall:

(1) Advise the patient or prospective patient to check with the physician arranging the hospital services to determine:

(A) The name, practice name, mailing address, and telephone number of any other physician whose services will be arranged for by the physician; and

(B) Whether the services of physicians who are employed or contracted by the hospital to provide services including anesthesiology, pathology, and radiology, are reasonably anticipated to be provided to the patient; and

(2) Provide patients or prospective patients with information as to how to timely determine the health care plans participated in by physicians who are reasonably anticipated to provide services to the patient at the hospital, as determined by the physician arranging the patient's hospital services, and who are employees of the hospital or contracted by the hospital to provide services, including anesthesiology, radiology, and pathology.

33-20E-3.(a) An insurer shall provide to an enrollee:

(1) Information that an enrollee may obtain a referral to a health care provider outside of the health maintenance organization's network or panel when the health maintenance organization does not have a health care provider who is geographically accessible to the enrollee and who has appropriate training and experience in the network or panel to meet the particular health care needs of the enrollee and the procedure by which the enrollee can obtain such referral;

(2) Notice that the enrollee shall have direct access to primary and preventive obstetric and gynecologic services, including annual examinations, care resulting from such annual examinations, and treatment of acute gynecologic conditions, or for any care related to a pregnancy, from a qualified provider of such services of her choice from within the plan;

(3) All appropriate mailing addresses and telephone numbers to be utilized by enrollees seeking information or authorization; and

(4) An annually updated listing by specialty, which may be in a separate document, of the name, address, and telephone number of all participating providers, including facilities, and in the case of physicians, the board certification, languages spoken, and any affiliations with participating hospitals. The listing shall also be posted on the health maintenance organization's website and the health maintenance organization shall update the website within 15 days of the addition or termination of a provider from the health maintenance organization's network or a change in a physician's hospital affiliation;

(5) Where applicable, a description of the method by which an enrollee may submit a claim for health care services;

(6) With respect to out-of-network coverage:

(A) A clear description of the methodology used by the health maintenance organization to determine reimbursement for out-of-network health care services;

(B) The amount that the health maintenance organization will reimburse under the methodology for out-of-network health care services set forth as a percentage of the usual and customary cost for out-of-network health care services; and

(C) Examples of anticipated out-of-pocket costs for frequently billed out-of-network health care services;

(7) Information in writing and through an Internet website that reasonably permits an enrollee or prospective enrollee to estimate the anticipated out-of-pocket cost for out-of-network health care services in a geographical area or ZIP code based upon the difference between what the health maintenance organization will reimburse for out-of-network health care services and the usual and customary cost for out-of-network health care services;

(8) The written application procedures and minimum qualification requirements for health care providers to be considered by the insurer; and

(9) Other information as required by the Commissioner.

(b) An insurer shall disclose whether a health care provider scheduled to provide a

health care service is an in-network provider and, with respect to out-of-network coverage, disclose the approximate dollar amount that the insurer will pay for a specific out-of-network health care service. Insurers shall also inform an enrollee through such disclosure that such approximation is not binding on the insurer and that the approximate dollar amount that the insurer will pay for a specific out-of-network health care service may change.

33-20E-4.

An out-of-network referral denial means a denial of a request for an authorization or referral to an out-of-network provider on the basis that the health care plan has a health care provider in the network benefits portion of its network with appropriate training and experience to meet the particular health care needs of an enrollee and who is able to provide the requested health service. The notice of an out-of-network referral denial provided to an enrollee shall have information explaining what information the enrollee must submit in order to appeal the out-of-network referral denial. An out-of-network denial shall not constitute an adverse determination.

33-20E-5.

(a) An insurer shall provide a description of the method by which an enrollee may submit a claim for health care services.

(b) An insurer shall provide a clear description of the methodology used by such insurer to determine reimbursement for out-of-network health care services and the amount that the insurer will reimburse under the methodology for out-of-network health care services set forth as a percentage of the usual and customary cost for out-of-network health care services.

(c) An insurer shall provide examples of anticipated out-of-pocket costs for frequently billed out-of-network health care services and information in writing and through an Internet website that reasonably permits an enrollee or prospective enrollee to estimate the anticipated out-of-pocket cost for out-of-network health care services in a geographical area or ZIP code based upon the difference between what the insurer will reimburse for out-of-network health care services and the usual and customary cost for out-of-network health care services.

(d) An insurer shall disclose whether a health care provider scheduled to provide a health care service is an in-network provider and, with respect to out-of-network coverage, disclose the approximate dollar amount that the health maintenance organization will pay for a specific out-of-network health care service. The insurer shall also inform an enrollee through such disclosure that such approximation is not binding on the health maintenance organization and that the approximate dollar amount that the health maintenance organization will pay for a specific out-of-network health care service may change.

33-20E-6.

(a) The Commissioner shall establish a dispute resolution process by which a dispute for a bill for emergency services or a surprise bill may be resolved. The Commissioner

shall have the power to grant and revoke certifications of independent dispute resolution entities to conduct the dispute resolution process.

(b) The Commissioner shall promulgate regulations establishing standards for the dispute resolution process, including a process for certifying and selecting independent dispute resolution entities. An independent dispute resolution entity shall use licensed physicians in active practice in the same or similar specialty as the physician providing the service that is subject to the dispute resolution process. To the extent practicable, the physician shall be licensed in this state.

(c) This chapter shall not apply to health care services, including emergency services, where physician fees are subject to schedules or other monetary limitations under any other law, including workers' compensation law.

(d) The dispute resolution process established in this chapter shall not apply when:

(1) The amount billed for American Medical Association current procedural terminology (CPT) codes 99281 through 99285, 99288, 99291 through 99292, 99217 through 99220, 99224 through 99226, and 99234 through 99236 meets the requirements set forth in subsection (f) of this Code section, after any applicable coinsurance, copayment and deductible; and

(2) The amount billed for any such CPT code does not exceed 120 percent of the usual and customary cost for such CPT code.

(e) The health care plan shall ensure that a covered person shall not incur any greater out-of-pocket costs for emergency services billed under a CPT code as set forth in this Code section than the covered person would have incurred if such emergency services were provided by a participating physician.

(f) Beginning January 1, 2018, and on each January 1 thereafter, the Commissioner shall publish on a website maintained by the department, and provide in writing to each health care plan, a dollar amount for which bills for the procedure codes identified in this Code section shall be exempt from the dispute resolution process established in this chapter. Such amount shall equal the amount from the prior year, beginning with \$600.00 in 2018, adjusted by the average of the annual average inflation rates for the medical care commodities and may consider medical care services components of the Consumer Price Index. In no event shall an amount exceeding \$1,200.00 for a specific CPT code billed be exempt from the dispute resolution process established in this chapter.

### 33-20E-7.

In determining the appropriate amount to pay for a health care service, an independent dispute resolution entity shall consider all relevant factors, including whether there is a gross disparity between the fee charged by the physician for services rendered as compared to:

(1) Fees paid to the involved physician for the same services rendered by the physician to other patients in health care plans in which the physician is not participating;

(2) In the case of a dispute involving a health care plan, fees paid by the health care

plan to reimburse similarly qualified physicians for the same services in the same region who are not participating in the health care plan;

(3) The level of training, education, and experience of the physician;

(4) The physician's usual charge for comparable services with regard to patients in health care plans in which the physician is not participating;

(5) The circumstances and complexity of the particular case, including time and place of the service;

(6) Individual patient characteristics; and

(7) The usual and customary cost of the service pursuant to Code Section 33-20E-7.1.

#### 33-20E-7.1

The Department of Community Health shall develop and maintain the benchmarking data base to establish usual and customary cost under Code Section 33-20E-7. Such usual and customary cost shall mean the eightieth percentile of all charges for the particular health care service performed by a provider in the same or similar geographical area as reported in such benchmarking data base. Such data base shall develop a benchmark utilizing data from a nonprofit organization specified by the Commissioner of Community Health, which is not affiliated with a health care plan.

#### 33-20E-8.

(a) When a health care plan receives a bill for emergency services from a nonparticipating physician, the health care plan shall pay an amount that it determines is reasonable for the emergency services rendered by the nonparticipating physician in accordance with Code Section 33-20E-7 except for the covered person's copayment, coinsurance, or deductible, if any, and shall ensure that the covered person shall incur no greater out-of-pocket costs for the emergency services than the covered person would have incurred with a participating physician.

(b) A nonparticipating physician or a health care plan may submit a dispute regarding a fee or payment for emergency services for review to an independent dispute resolution entity. The independent dispute resolution entity shall make a determination within 30 days of receipt of the dispute for review.

(c) In determining a reasonable fee for the services rendered, an independent dispute resolution entity shall select either the health care plan's payment or the nonparticipating physician's fee. The independent dispute resolution entity shall determine which amount to select based upon the conditions and factors set forth in Code Section 33-20E-7 of this chapter. If an independent dispute resolution entity determines, based on the health care plan's payment and the nonparticipating physician's fee, that a settlement between the health care plan and nonparticipating physician is reasonably likely, or that both the health care plan's payment and the nonparticipating physician's fee represent unreasonable extremes, then the independent dispute resolution entity may direct both parties to attempt a good faith negotiation for settlement. The health care plan and nonparticipating physician may be granted up to ten business days for this negotiation, which shall run concurrently with the 30 day

period for dispute resolution.

(d) A patient who is not a covered person or the patient's physician may submit a dispute regarding a fee for emergency services for review to an independent dispute resolution entity upon approval of the Commissioner. An independent dispute resolution entity shall determine a reasonable fee for the services based upon the same conditions and factors pursuant to Code Section 33-20E-7 of this chapter.

(e) A patient who is not a covered person shall not be required to pay the physician's fee in order to be eligible to submit the dispute for review to an independent dispute resolution entity.

(f) The determination of an independent dispute resolution entity shall be binding on the health care plan, physician, and patient and shall be admissible in any court proceeding between the health care plan, physician, or patient, or in any administrative proceeding between this state and the physician.

#### 33-20E-9.

When a covered person assigns benefits for a surprise bill in writing to a nonparticipating physician who knows that the covered person is insured under a health care plan, the nonparticipating physician shall not bill the covered person except for any applicable copayment, coinsurance, or deductible that would be owed if the covered person utilized a participating physician.

#### 33-20E-10.

(a) If a covered person assigns benefits to a nonparticipating physician, the health care plan shall pay the nonparticipating physician in accordance with subsections (c) and (d) of this Code section.

(b) The nonparticipating physician may bill the health care plan for the health care services rendered, and the health care plan shall pay the nonparticipating physician the billed amount or attempt to negotiate reimbursement with the nonparticipating physician.

(c) If the health care plan's attempts to negotiate reimbursement for health care services provided by a nonparticipating physician does not result in a resolution of the payment dispute between the nonparticipating physician and the health care plan, the health care plan shall pay the nonparticipating physician an amount the health care plan determines is reasonable for the health care services rendered, except for the covered person's copayment, coinsurance, or deductible.

(d) Either the health care plan or the nonparticipating physician may submit the dispute regarding the surprise bill for review to an independent dispute resolution entity; provided, however, that the health care plan may not submit the dispute unless it has complied with the requirements of subsections (a), (b), and (c) of this Code section.

(e) The independent dispute resolution entity shall make a determination within 30 days of receipt of the dispute for review.

(f) When determining a reasonable fee for the services rendered, the independent dispute resolution entity shall select either the health care plan's payment or the

nonparticipating physician's fee. An independent dispute resolution entity shall determine which amount to select based upon the conditions and factors set forth in Code Section 33-20E-7. If an independent dispute resolution entity determines, based on the health care plan's payment and the nonparticipating physician's fee, that a settlement between the health care plan and nonparticipating physician is reasonably likely, or that both the health care plan's payment and the nonparticipating physician's fee represent unreasonable extremes, then the independent dispute resolution entity may direct both parties to attempt a good faith negotiation for settlement. The health care plan and nonparticipating physician may be granted up to ten business days for this negotiation, which shall run concurrently with the 30 day period for dispute resolution.

(g) A covered person who does not assign benefits under subsection (a) of this Code section or a patient who is not a covered person and who receives a surprise bill may submit a dispute regarding the surprise bill for review to an independent dispute resolution entity.

(h) The independent dispute resolution entity shall determine a reasonable fee for the services rendered based upon the conditions and factors set forth in Code Section 33-20E-7.

(i) A patient or covered person who does not assign benefits in accordance with subsection (a) of this Code section shall not be required to pay the physician's fee to be eligible to submit the dispute for review to the independent dispute entity.

(j) The determination of an independent dispute resolution entity shall be binding on the patient, physician, and health care plan, and shall be admissible in any court proceeding between the patient or covered person, physician or health care plan, or in any administrative proceeding between this state and the physician.

(k) In disputes involving a covered person, when the independent dispute resolution entity determines the health care plan's payment is reasonable, payment for the dispute resolution process shall be the responsibility of the nonparticipating physician. When the independent dispute resolution entity determines the nonparticipating physician's fee is reasonable, payment for the dispute resolution process shall be the responsibility of the health care plan. When a good faith negotiation directed by the independent dispute resolution entity pursuant to Code Sections 33-20E-8 and 33-20E-9 of this chapter results in a settlement between the health care plan and nonparticipating physician, the health care plan and the nonparticipating physician shall evenly divide and share the prorated cost for dispute resolution.

(l) When there is a dispute involving a patient who is not a covered person and the independent dispute resolution entity determines the physician's fee is reasonable, payment for the dispute resolution process shall be the responsibility of the patient unless payment for the dispute resolution process would pose a hardship to the patient. The Commissioner shall promulgate a regulation to determine payment for the dispute resolution process in cases of hardship. When the independent dispute resolution entity determines the physician's fee is unreasonable, payment for the dispute resolution process shall be the responsibility of the physician.

33-20E-10.1.

In the event a covered person incurs an out-of-pocket expense for a covered procedure for less than the procedure cost to the insurer by an in network provider, the insurer shall provide a credit to the covered person's deductible for the amount of the out-of-pocket expense. The credit or credits are cumulative for the policy period incurred and shall not be transferable to the next policy period.

33-20E-11.

(a) An out-of-network reimbursement rate workgroup shall be established consisting of the Commissioner, four members appointed by the Governor, two members appointed by the Speaker of the House of Representatives, and two members appointed by the President of the Senate. The workgroup shall consist of: two physicians, one of each appointed by the Speaker of the House of Representatives and by the President of the Senate; two representatives of health plans, one of each appointed by the Speaker of the House of Representatives and by the President of the Senate; and two consumers, and shall be chaired by the Commissioner. Such representatives of the workgroup shall represent different regions of the state. The members shall receive no compensation for their services, but shall be allowed their actual and necessary expenses incurred in the performance of their duties.

(b) The workgroup shall review the current out-of-network reimbursement rates used by health insurers licensed under this title and make recommendations regarding an alternative rate methodology, taking into consideration the following factors:

- (1) Current physician charges for out-of-network services;
- (2) Trends in medical care and the actual costs of medical care;
- (3) Regional differences regarding medical costs and trends;
- (4) The current methodologies and levels of reimbursement for out-of-network services currently paid by health plans, including insurers, health maintenance organizations, medicare, and Medicaid;
- (5) The current in-network rates paid by health plans, including insurers, health maintenance organizations, medicare, and Medicaid for the same service and by the same provider;
- (6) The impact different rate methodologies would have on out-of-pocket costs for consumers who access out-of-network services;
- (7) The impact different rate methodologies would have on premium costs in different regions of the state;
- (8) Reimbursement data from all health plans, both public and private, as well as charge data from medical professionals and hospitals available through an all-payor data base to be developed and maintained by the Department of Community Health; and
- (9) Other issues deemed appropriate by the Commissioner.

(c) The workgroup shall review out-of-network coverage in the individual and small group markets and make recommendations regarding the availability and adequacy of the coverage, taking into consideration the following factors:

- (1) The extent to which out-of-network coverage is available in each rating region in this state;
- (2) The extent to which a significant level of out-of-network benefits is available in every rating region in this state, including the prevalence of coverage based on the usual and customary cost as well as coverage based on other set reimbursement methodologies, such as medicare; and
- (3) Other issues deemed appropriate by either the commissioner of revenue or the commissioner of public health.
- (d) The workgroup shall report its findings and make recommendations for legislation and regulations to the Governor, the Speaker of the House of Representative, the President of the Senate, and the chairpersons of the House Committee on Insurance and the Senate Insurance and Labor Committee no later than January 1, 2018."

The Senate Committee on Higher Education offered the following substitute to SB 5:

A BILL TO BE ENTITLED  
AN ACT

To amend Code Section 50-27-13 of the Official Code of Georgia Annotated, relating to disposition of lottery proceeds, budget report by Governor, appropriations by General Assembly, and shortfall reserve subaccount, so as to establish the percentage of the lottery proceeds for each fiscal year which must equal the net proceeds to be transferred to the state treasury for credit to the Lottery for Education Account; to provide for exceptions; to provide for verification of certain information by the Department of Audits and Accounts; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

**SECTION 1.**

Code Section 50-27-13 of the Official Code of Georgia Annotated, relating to disposition of lottery proceeds, budget report by Governor, appropriations by General Assembly, and shortfall reserve subaccount, is amended by revising subsection (a) as follows:

"(a)(1) All lottery proceeds shall be the property of the corporation.

(2) From its lottery proceeds the corporation shall pay the operating expenses of the corporation. As nearly as practical, at least 45 percent of the amount of money from the actual sale of lottery tickets or shares shall be made available as prize money; provided, however, that this paragraph shall be deemed not to create any lien, entitlement, cause of action, or other private right, and any rights of holders of tickets or shares shall be determined by the corporation in setting the terms of its lottery or lotteries.

(3)(A) For fiscal year 2018, net proceeds shall equal at least 26.5 percent of the lottery proceeds. For fiscal year 2019, net proceeds shall equal at least 27.5 percent of the lottery proceeds. Beginning with fiscal year 2020 and As nearly as practical, for each fiscal year thereafter, net proceeds shall equal at least 35 28.5 percent of the lottery proceeds. However, for the first two full fiscal years and any partial first fiscal year of the corporation, net proceeds need only equal 30 percent of the proceeds as nearly as practical.

(B) If for fiscal year 2018 the net sales revenue of tickets is 5 percent less than the net sales revenue of tickets for fiscal year 2017 as verified by the Department of Audits and Accounts as provided in subparagraph (C) of this paragraph, then the increase of the net proceeds to at least 27.5 percent of the lottery proceeds for fiscal year 2019, as provided in subparagraph (A) of this paragraph, shall not be required and instead the net proceeds shall remain equal to at least 26.5 percent of the lottery proceeds for each fiscal year thereafter. If for fiscal year 2019 the net sales revenue of tickets is 5 percent less than the net sales revenue of tickets for fiscal year 2018 as verified by the Department of Audits and Accounts as provided in subparagraph (C) of this paragraph, then the increase of the net proceeds to at least 28.5 percent of the lottery proceeds for fiscal year 2020, as provided in subparagraph (A) of this paragraph, shall not be required and instead the net proceeds shall remain equal to at least 27.5 percent of the lottery proceeds for each fiscal year thereafter. For purposes of this subparagraph, the term 'net sales revenue' means the total amount of revenue derived from ticket sales minus the value of any tickets that are provided as prizes.

(C) The contingencies provided in subparagraph (B) of this paragraph shall not be applicable unless and until the Department of Audits and Accounts or a third party designated by the Department of Audits and Accounts shall verify that there has been a decrease in the net sales revenue of tickets of at least 5 percent and that such decrease was caused by the increased percentage of net proceeds the corporation was required to transfer to the general fund of the state treasury as provided for in subparagraph (A) of this paragraph."
