Summary of Conformity Provisions

During 2017 several federal tax bills with consequences to state revenues were signed into law. These bills include the Tax Cuts and Jobs Act (TCJA) and the Disaster Tax Relief and Airport Extension Act of 2017 (DTRAEA). Although additional bills were also signed at the federal level in 2017, the Georgia Department of Revenue has determined that the provisions contained in these additional bills have no revenue impact to the State. In addition, the Bipartisan Budget Act (BBA) of 2018 was signed into law on February 9, 2018.

The TCJA, the DTRAEA, and the BBA make several changes to the federal income tax code and the subject bill adopts multiple provisions in these acts. Adoption of this legislation aligns the tax code of Georgia with the Internal Revenue Code of 1986 as amended on or before February 9, 2018.

HB 918 adopts all provisions applicable to Georgia included in the DTRAEA and the BBA. All provisions of the TCJA which are applicable to Georgia are being adopted as part of this legislation with the exception of the provisions relating to the following:

- the special 20 percent deduction from qualified business income
- bonus depreciation
- expansion of qualified property under section 179
- modifications of the depreciation rules for new farm machinery and equipment
- modifications related to contributions of capital
- limitations on the deduction of net business income

Table 2 shows the state revenue effects of adopting these provisions for FY 2018-FY 2023. In the case of TCJA provisions affecting state PIT revenues, certain of these are analyzed along with the phased-in changes discussed in the next section of this appendix, and thus are not included in the figures in Table 2. See that section for the list of these provisions.

Summary of Phased-In Provisions

This appendix section provides estimates of the state revenue effects of specified federal personal income tax changes under the TCJA together with the phased-in modifications to the state personal income tax. In addition, the effects of changes to the state corporate income tax rate to match the top personal rate are estimated separately and also shown in combination with the personal tax changes.

The modeled estimates with regard to the TCJA include most, but not all provisions affecting Georgia taxpayers; provisions included are as follows:

- Itemized deduction changes
 - Reduced floor for medical expense deductions to 7.5 percent of AGI from 10 percent, applicable for tax years 2017-18
 - Limitation on state and local tax (SALT) deductions to no more than \$10,000 per year
 - Elimination of casualty and theft loss deduction
 - Elimination of miscellaneous deductions subject to the 2 percent of AGI floor
 - Repeal of Pease limitations on itemized deductions
- Increased federal standard deduction, including induced switching from itemized to standard deductions (taxpayer chooses deduction type that minimizes combined state and federal taxes)
- Repeal of the moving expense deduction (taken before as a reduction in AGI)

Except as noted for the medical expense deduction, all modeled changes are effective for all tax years beginning after December 31, 2017. Because of data limitations, certain changes could not be modeled, including the following, the effects of which are included in the conformity estimates discussed above:

- Reduced limit on the size of new mortgages for which interest may be deducted
- Elimination of deduction for home equity loan interest
- Increased limit for deduction of charitable contributions
- Changes to deductibility or exclusion of alimony payments
- Changes to or clarification of the deductibility of certain gambling-related expenses

Estimates presented herein are derived from a microsimulation model of Georgia taxpayers using an anonymized sample of tax year (TY) 2015 tax return data, consisting

of approximately 3.45 million returns representing about 77 percent of all filers in the state for that year. Adjustments are made to the sample results to make them approximately representative of all filers. Modeled changes in aggregate tax liabilities are then applied to baseline PIT revenue projections for the state fiscal years affected, through FY 2023. Baseline projections through FY 2022 were provided by the Office of Planning and Budget; the FY 2023 baseline number is an FRC extension from the trend up to that point.

Modeled HB 918 modifications to the Georgia PIT are as follows:

- Effective January 1, 2018, double Georgia standard deduction amounts from \$2,300 to \$4,600 for Single and Head of Household filers, from \$3,000 to \$6,000 for Married Joint filers, and from \$1,500 to \$3,000 for Married Separate filers.
- Effective January 1, 2019, cut top bracket marginal tax rate from 6.0 percent to 5.75 percent.
- Effective January 1, 2020, cut top bracket marginal tax rate from 5.75 percent to 5.50 percent.

CIT revenue effects included below reflect the following:

- Effective for tax years beginning on or after January 1, 2019, cut state CIT rate from 6.0 percent to 5.75 percent.
- Effective for tax years beginning on or after January 1, 2020, cut state CIT rate from 5.75 percent to 5.50 percent.

The third of the phased-in PIT changes and the second of the CIT, in both cases a reduction in rate to 5.50 percent, are contingent on the passage and signing by the governor on or after January 13, 2020, of a joint resolution ratifying the effectiveness of these provisions. For this reason, estimated revenue effects absent effectiveness of these final rate reductions are also provided (see lines in Table A3 labeled “+ 5.75% Top Rate”).

Finally, rate cuts on both the PIT and the CIT would have the effect of reducing the gains or losses from other federal tax changes to which the state is anticipated to conform, so these effects are also presented below in summary form. Note that the “Other PIT Conformity” effects included in this final adjustment are only those that could not be included in the microsimulation modeling of federal changes as discussed above. The effects of rate cuts on the magnitude of gains from the business provisions, as well as on baseline CIT revenues, also reflect a degree of shifting (delaying) of income recognition by businesses from TY 2018-19 to TY 2019-20 to take advantage of the scheduled rate reductions.

State Revenue Effects of Phased-In and Conformity Provisions

Allocation of PIT tax year effects on tax liabilities to fiscal years assume that, for the early years, higher state tax liabilities for some filers will lead to those filers delaying filing or obtaining extensions on the time to file their returns. In addition, where changes

in tax liabilities would normally be assumed to be reflected in changes in withholding and estimated tax payments, the ability of taxpayers to make adjustments to those payments is assumed to be limited at least for TY 2018. These factors considered, TY effects are spread to FYs as shown in Table 3. By TY 2021, the FY effects of TY tax liability changes are assumed to be stabilized, with the spread across fiscal years largely reflecting the timing of withholding and estimated tax payments.

Table 4 below provides baseline revenue projections as well as proforma projections reflecting the federal changes and the phased-in changes listed above. Intermediate step estimates are also provided, as if the given set of changes were all effective January 1, 2018. Each set of estimates reflects the combined effects of i) the federal changes and ii) the particular scenario. The final two lines of the table reflect the combined effects of the federal changes and the phased-in changes, one with all three steps phased in and the other with only the first two steps.

Impact on Revenue – Part III

Under the proposed bill, part III of the bill would change the tax treatment of jet fuel within Georgia. Jet fuel would be exempt from all local sales taxes except for those joint county/municipal LOSTs and MARTA taxes in affect prior to December 30, 1987, which would continue to apply at no more than the rate then in effect.

Under current law, jet fuel is subject to an estimated local sales tax rate of 2.1 percent. This is the average of local sales tax rates weighted by the estimated amount of jet fuel sold in each county. As such, this average rate is heavily influenced by the current two percent local sales tax rate for jet fuels in Clayton County. The grandfathered local taxes apply in counties where relatively small amounts of jet fuel are sold, thus the effective local tax rate for jet fuel would decrease to 0.01 percent statewide, on average.

The wide range of jet fuel prices experienced over recent years indicates there are a wide range of revenue impacts that are feasible under this proposed legislation. Georgia Department of Revenue (DOR) began in July 2015 requiring separate reporting of jet fuel sales and has provided data on sales tax collections from jet fuel for FY 2016, FY 2017 and the first six months of FY 2018. A key challenge in estimating the impact of this change over time is the extreme volatility of jet fuel prices. In July 2015 when DOR began collecting this revenue data, the price of spot jet fuel averaged \$1.56 per gallon. By January of 2016, the price had fallen to \$0.95 per gallon, a drop of 40% in a six-month period. This volatility is even more extreme in light of jet fuel prices ranging from \$2.50 per gallon to more than \$3.00 per gallon for 2011 through 2014.

Table 5 contains recent sales tax collections from jet fuel since DOR began requiring separate reporting. Note that this collections data through FY 2017 corresponds to a period of low jet fuel prices. In recent months jet fuel prices have fluctuated. In July 2017, jet fuel prices averaged \$1.41 per gallon. By December 2017, the average price had increased to \$1.81, a 40% increase. The FY 2019 budget estimates state revenue for jet fuel at \$35.2M.

Table 5. Sales Tax Collections from Jet Fuel

<i>(\$ millions)</i>	FY 2016	FY 2017	FY 2018*
State	\$31.4	\$34.9	\$19.4
Local	\$17.4	\$20.8	\$11.9

*FY 2018 reflects collections through December 31, 2017

Commodities such as oil and its refined products can experience highly volatile price changes that extend for multiple years. Changes in production capacity, demand, and geo-political conditions are just a few factors that contribute to this volatility. It is possible to devise feasible scenarios in which jet fuel prices are much lower than those assumed in these two pricing scenarios or are much higher.

Impact on State Expenditures

Given the recent revisions to the bill, the Department of Revenue (DOR) has not yet produced a cost estimate of complying with the changes.

Sincerely,

/s/ Greg S. Griffin
State Auditor

Office of Planning and Budget

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 17 of Title 43 of the Official Code of Georgia Annotated, relating to charitable solicitations, so as to implement additional requirements for use of collection

receptacles for donations; to revise penalties and provide additional penalties for violation of said chapter; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 17 of Title 43 of the Official Code of Georgia Annotated, relating to charitable solicitations, is amended by revising paragraph (4.1) of Code Section 43-17-2, relating to definitions, as follows:

"(4.1) 'Collection receptacle' means an unattended container, located outdoors, for the purpose of collecting donations of clothing, books, personal or household items, or other goods. Such term shall not include containers used for the purpose of collecting monetary donations."

SECTION 2.

Said chapter is further amended by adding new subsections to Code Section 43-17-8.1, relating to requirements for use of collection receptacles for donations, to read as follows:

"(e)(1) A person placing and operating any collection receptacle on property in which such person has no ownership or leasehold interest shall, prior to such placement and operation, obtain notarized, written permission from all owners of such property, a property management service, or all holders of a leasehold interest in such property to place and operate such collection receptacle on such property. Copies of such notarized, written permission shall be maintained by the person placing and operating such collection receptacle and provided to every owner or leaseholder of such property at any time upon request by any such owner or leaseholder. If such permission is obtained from such property owner or owners, the person placing and operating the collection receptacle shall provide written notification to any leaseholders, tenants, or other occupants of such property of the consent of such property owner or owners to such placement and operation. The notarized, written permission required by this subsection shall include the signature of the person placing and operating the collection receptacle, or such person's authorized agent, and of all owners or leaseholders of the property, as applicable.

(2) A person with an existing collection receptacle located on property in which such person has no ownership or leasehold interest shall have until December 31, 2018, to comply with the requirements of this subsection.

(f)(1) Any owner or leaseholder of property on which a collection receptacle is placed and operated in conformance with subsection (e) of this Code section may demand removal of such collection receptacle in writing by United States mail, return receipt requested, or statutory overnight delivery to the address listed on the collection receptacle pursuant to this Code section. Such owner or leaseholder shall also send a copy of any such demand to the office of the Secretary of State. The person placing the collection receptacle shall remove the collection receptacle as well as any contents left in and around the collection receptacle within 30 days of the date such demand is

either deposited in the United States mail, return receipt requested, or received by statutory overnight delivery.

(2) If the person placing and operating the collection receptacle on another's property fails to remove such collection receptacle as required by paragraph (1) of this subsection, any owner or any leaseholder of such property shall have the immediate right to take possession of, remove, and dispose of such collection receptacle and its contents without incurring any civil or criminal liability for such actions. Any expenses incurred in such removal and disposal by such owner or leaseholder shall be invoiced to, and paid by, the person who placed and operated such collection receptacle on such property. The owner or leaseholder may also request that law enforcement personnel take possession of, remove, and dispose of such collection receptacle and the contents thereof. If law enforcement personnel, in their discretion, honor such request, they will be immune from any civil or criminal liability for such actions.

(g) Any owner or any leaseholder of the property may demand immediate removal of a collection receptacle if the person who placed and operated the collection receptacle on the property fails to comply with subsection (e) of this Code section.

(h) The person placing and operating the collection receptacle shall maintain such receptacle in a structurally sound, clean, and sanitary condition and regularly empty such receptacle at least every two weeks. Such person shall also be responsible for ensuring that no donations are present on the ground area surrounding the collection receptacle for a time period exceeding 48 hours.

(i) Any owner or leaseholder of property who incurs expenses in removing or disposing of any collection receptacle or its contents following the expiration of the period referred to in paragraph (1) of subsection (f) of this Code section, or as a result of any violation of this Code section, may bring a civil action to recover actual damages. The action shall be brought in a court of competent jurisdiction in the county in which the collection receptacle was located, in the county in which the person who placed and operated the collection receptacle conducts, transacts, or has transacted business, or, if such person cannot be found in any of the foregoing locations, in the county in which such receptacle is located.

(j) Any violation of this Code section shall constitute a misdemeanor."

(i) If the Secretary of State revokes the registration of a charitable organization or paid solicitor or bars a person from association with a charitable organization or paid solicitor under subparagraph (A) of this paragraph, the imposition of that sanction precludes imposition of the ~~sanction~~ sanctions specified in ~~division (iv)~~ divisions (iv) and (v) of subparagraph (A) of this paragraph; and

(ii) The imposition by the Secretary of State of one or more sanctions under this paragraph with respect to a specific violation precludes the Secretary of State from later imposing any other sanctions under this paragraph with respect to the violation; or"

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

(a) As used in this Act, the term:

(3) "Change in homestead value" means value, including any final determination of value on appeal pursuant to Code Section 48-5-311 of the O.C.G.A., as amended, derived from additions or improvements to, or the removal of real property of, the homestead after the lowest base year value is determined.

(4) "Homestead" means homestead as defined and qualified in Code Section 48-5-40 of the O.C.G.A., as amended, with the additional qualification that it shall include only the primary residence and not more than five contiguous acres of land immediately surrounding such residence.

(5) "Inflation rate" means the Consumer Price Index for all urban consumers, U.S. City Average, all items 1967-100, or a successor index as reported by the United States Department of Labor Bureau of Labor statistics.

(6) "Lowest base year value" means:

(B) In all other cases, the lower of the assessed value, including any final determination of value on appeal pursuant to Code Section 48-5-311 of the O.C.G.A., as amended, of the homestead, from the taxable year immediately preceding the taxable year in which the exemption under this Act is first granted to the most recent owner of such homestead or the assessed value, including any final determination of value on appeal pursuant to Code Section 48-5-311 of the O.C.G.A., as amended, of the homestead, from the taxable year in which the exemption under this Act is first granted to the most recent owner of such homestead, with respect to an exemption under this Act which is first granted to a person on that person's homestead in the 2020 taxable year or who thereafter reapplies for and is granted such exemption in the 2021 taxable year, or thereafter, solely because of a change in ownership to a joint tenancy with right of survival.

(7) "Previous adjusted base year value" means:

(A) With respect to an exemption under this Act that is first granted to a person on that person's homestead, the lowest base year value; or

- (b) Each resident of the Fulton County school district is granted an exemption on that person's homestead from Fulton County school district property taxes for educational purposes in an amount equal to the amount by which the current year assessed value, including any final determination of value on appeal pursuant to Code Section 48-5-311 of the O.C.G.A., as amended, of that homestead exceeds the adjusted base year value of the homestead. The value of that property in excess of such exempted amount shall remain subject to taxation.
- (c) The surviving spouse of the person who has been granted the exemption provided for in subsection (b) of this section shall continue to receive the exemption provided under subsection (b) of this section, so long as that surviving spouse continues to occupy the home as a residence and homestead.
- (d) A person shall not receive the homestead exemption granted by subsection (b) of this section unless the person or person's agent files an application with the tax commissioner of Fulton County giving such information relative to receiving such exemption as will enable the governing authority, or its designee, to make a determination regarding the initial and continuing eligibility of such owner for such exemption. The tax commissioner of Fulton County shall provide application forms for this purpose.
- (e) The exemption shall be claimed and returned as provided in Code Section 48-5-50.1 of the O.C.G.A., as amended. The exemption shall be automatically renewed from year to year so long as the owner occupies the residence as a homestead. After a person has filed the proper application as provided in subsection (d) of this section, it shall not be necessary to make application thereafter for any year and the exemption shall continue to be allowed to such person. It shall be the duty of any person granted the homestead exemption under subsection (b) of this section to notify the tax commissioner of Fulton County in the event that person for any reason becomes ineligible for that exemption.
- (f) The exemption granted by subsection (b) of this section shall not apply to or affect state ad valorem taxes, municipal or independent school district ad valorem taxes for educational purposes, or county ad valorem taxes for county purposes. The homestead exemption granted by subsection (b) of this section shall be in addition to and not in lieu of any other homestead exemption applicable to property taxes for educational purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

An Act to create a Board of Commissioners for Rockdale County, approved March 4, 1977 (Ga. L. 1977, p. 2817), as amended, is amended by revising Sections 2 and 3 as follows:

"SECTION 2.

(a) On and after January 1, 2021, the board of commissioners established pursuant to this Act shall consist of five members, of which one shall be known as the chairperson and the other four as commissioners. The chairperson shall be elected by a majority vote of the voters of the entire county voting at the elections provided for in this Act. For the purpose of electing the other four members of the board of commissioners, Rockdale County is divided into four commissioner districts. One member of the board shall be elected from each such district by a majority vote of the voters of such district voting at the elections provided for in this Act. Those four districts shall be and

correspond to those four numbered districts described in and attached to and made a part of this Act and further identified as 'Plan: rockdale-p2-2017 Plan Type: Local Administrator: rockdale User: bak'.

(b)(1) For the purposes of such plan:

(A) The term 'VTD' shall mean and describe the same geographical boundaries as provided in the report of the Bureau of the Census for the United States decennial census of 2010 for the State of Georgia. The separate numeric designations in a district description which are underneath a VTD heading shall mean and describe individual Blocks within a VTD as provided in the report of the Bureau of the Census for the United States decennial census of 2010 for the State of Georgia; and

(B) Except as otherwise provided in the description of any district, whenever the description of any district refers to a named city, it shall mean the geographical boundaries of that city as shown on the census maps for the United States decennial census of 2010 for the State of Georgia.

(2) Any part of Rockdale County which is not included in any district described in subsection (a) of this section shall be included within that district contiguous to such part which contains the least population according to the United States decennial census of 2010 for the State of Georgia.

(3) Any part of Rockdale County which is described in subsection (a) of this section as being included in a particular district shall nevertheless not be included within such district if such part is not contiguous to such district. Such noncontiguous part shall instead be included within that district contiguous to such part which contains the least population according to the United States decennial census of 2010 for the State of Georgia.

(c) The chairperson shall be a citizen of this state who has attained the age of 30 years and who has been a resident of Rockdale County for not less than one year next preceding the date of his or her election and shall hold no other elective public office. The chairperson shall be a full voting member of the board of commissioners.

(d) Members of the commission, other than the chairperson, shall be citizens of this state who have attained the age of 25 years and who have been residents of Rockdale County for not less than one year next preceding the date of their election and shall hold no other elective public office.

SECTION 3.

(a) All members of the board of commissioners serving in office on the effective date of this section shall continue to serve until the expiration of the terms for which they were elected and until their respective successors are elected and qualified unless otherwise removed from office as provided by the Constitution and laws of this state; provided, however, that the member who is elected in 2018 shall serve for a term of two years and until his or her successor is elected and qualified.

(b) In the 2020 November general election, there will be an election to fill the seats for the chairperson and members from Commission Districts 1, 2, 3, and 4. The chairperson and the members from Commission Districts 1 and 3 shall be elected to

initial four-year terms of office and until their respective successors are elected and qualified. The members from Commission Districts 2 and 4 shall be elected to initial two-year terms of office.

(c) Thereafter, successors to the chairperson and members of the board of commissioners shall be elected in the November general election immediately preceding the end of their respective terms of office and shall take office on January 1 following such election for four-year terms of office and until their respective successors are elected and qualified.

(d) All elections shall be conducted in accordance with Chapter 2 of Title 21 of the O.C.G.A., the 'Georgia Election Code.'

SECTION 2.

The election superintendent of Rockdale County shall call and conduct an election as provided in this section for the purpose of submitting this Act to the electors of Rockdale County for approval or rejection. The election superintendent shall conduct such election on the date of and in conjunction with the 2018 November General Election and shall issue the call and conduct such election as provided by general law. The election superintendent shall cause the date and purpose of the election to be published once a week for two weeks immediately preceding the date thereof in the official organ of Rockdale County. The ballot shall have written or printed thereon the words:

 () NO Rockdale County from a three member board to a five member board
 with a chairperson elected at large and four members elected by

The expense of such election shall be borne by Rockdale County. It shall be the election superintendent's duty to certify the result thereof to the Secretary of State.

State Representative

SUBJECT: State Auditor's Certification
House Bill 135 (LC 43 0501)

Dear Representative Carter:

This bill would amend provisions relating to creditable service for certain 'law enforcement officers' under the Employees' Retirement System. Currently, 'law enforcement officers' are eligible to obtain up to five years of creditable service for certain prior service with a local government provided they were not eligible for a defined benefit or defined contribution retirement or pension plan while employed by the local governing authority. This legislation clarifies that creditable service will only be granted for such prior service with a local government in this state. Additionally, if this legislation is enacted, 'law enforcement officers' would now be authorized to obtain such creditable service if they are not eligible to receive a present or future benefit from the local governing authority in which they were employed. Members wishing to purchase such creditable service would be required to pay the full actuarial cost of the service granted. It should be noted that no member may purchase such creditable service until he or she has been a member of the Employees' Retirement System for at least ten years.

Furthermore, this bill would expand the definition of 'law enforcement officer' to include any investigator of the Department of Driver Services. Therefore, if this legislation is enacted, members who hold such title would also be authorized to obtain creditable service for certain prior employment with a local government in this state in accordance with the provisions of O.C.G.A. §47-2-226.

This is to certify that this bill is a fiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

/s/ Greg S. Griffin

Honorable Paul Battles, Chairman
House Retirement Committee
State Capitol, Room 401-K
Atlanta, Georgia 30334

SUBJECT: Actuarial Investigation
House Bill 135 (LC 43 0501)
Employees' Retirement System of Georgia

Dear Chairman Battles:

This bill would amend provisions relating to creditable service for certain 'law enforcement officers' under the Employees' Retirement System. Specifically, this bill would expand the definition of 'law enforcement officer' to include any investigator of the Department of Driver Services. If this bill is enacted, this change would authorize such investigators to obtain creditable service in the Employees' Retirement System for prior service as a law enforcement officer, provided the service was obtained while employed by a local government in this state. This bill would also amend the eligibility criteria to specify that law enforcement officers may only purchase such creditable

service if they are not eligible to receive a present or future benefit from the local governing authority in which they were employed. Any member wishing to purchase such creditable service would be required to pay the full actuarial cost of the service granted. It should be noted that no member may purchase such creditable service until he or she has been a member of the Employees' Retirement System for at least ten years.

This legislation would not result in any additional cost to the Employees' Retirement System since eligible members would be required to pay the full actuarial cost of the service granted. There would be no increase in the employer contribution rate or the unfunded actuarial accrued liability of the Employees' Retirement System as a result of this legislation. The estimate is based on current member data, actuarial assumptions, and actuarial methods. It should be noted that changes in any of these variables could affect the cost of this legislation. Any future costs would be paid through State appropriations.

The following is a summary of the relevant findings of the actuarial investigation for this bill pursuant to a request by the House Retirement Committee. The investigation was to be conducted according to O.C.G.A. §47-20-36, which outlines the factors to be considered in an actuarial investigation. The figures are based on employee data and the most recent actuarial assumptions and methods.

(1)	The amount of the unfunded actuarial accrued liability which will result from the bill.	\$ <u> 0</u>
(2)	The amount of the annual amortization of the unfunded actuarial accrued liability which will result from the bill.	\$ <u> 0</u>
(3)	The number of years that the unfunded actuarial accrued liability created by this bill would be amortized.	<u> N/A</u>
(4)	The amount of the annual normal cost which will result from the bill.	\$ <u> 0</u>
(5)	The employer contribution rate currently in effect for Non-GSEPS Members.	<u> 24.66%*</u>
(6)	The employer contribution rate recommended for Non-GSEPS Members (in conformity with minimum funding standards specified in Code Section §47-20-10).	<u> 24.66%</u>
(7)	The employer contribution rate currently in effect for GSEPS Members.	<u> 21.66%*</u>
(8)	The employer contribution rate recommended for GSEPS Members (in conformity with minimum funding standards specified in Code Section §47-20-10).	<u> 21.66%</u>
(9)	The total dollar amount of the increase in the annual employer contribution which is necessary to maintain the retirement system in an actuarially sound condition.	\$ <u> 0</u>

**This rate represents the employer contribution rate that has been recommended by the actuary beginning July 1, 2018 in order to meet the minimum funding standards.*

It should be noted that any subsequent changes in the retirement bill will invalidate the actuarial investigation and the findings included therein.

Respectfully,

/s/ Greg S. Griffin
State Auditor

The Senate Committee on Retirement offered the following substitute to HB 135:

A BILL TO BE ENTITLED
AN ACT

To amend Code Section 47-2-226 of the Official Code of Georgia Annotated, relating to certain law enforcement officers permitted to obtain creditable service in the Employees' Retirement System of Georgia under certain conditions, so as to expand the class of law enforcement officers that may obtain creditable service in such retirement system under certain conditions; to provide for related matters; to provide conditions for an effective date and automatic repeal; to repeal conflicting laws; and for other purposes.

SUBJECT: State Auditor's Certification
Substitute to House Bill 135
(LC 43 0849S)

Dear Senator Black:

This substitute bill would amend provisions relating to creditable service for certain 'law enforcement officers' under the Employees' Retirement System. Specifically, this bill would expand the definition of 'law enforcement officer' to include any investigator of the Department of Driver Services and law criminal investigators or K9 handlers of the Department of Corrections. If enacted, such members would be authorized to obtain creditable service in the Employees' Retirement System for prior service as a law enforcement officer, provided the service was obtained while employed by a local government in this state. This bill would also amend the eligibility criteria to specify that law enforcement officers may only purchase such creditable service if they are not eligible to receive a present or future benefit from the local governing authority in which they were employed. Any member wishing to purchase such creditable service would be required to pay the full actuarial cost of the service granted. It should be noted that no member may purchase such creditable service until he or she has been a member of the Employees' Retirement System for at least ten years.

This is to certify that the changes made in this substitute bill are nonfiscal amendments as defined in the Public Retirement Systems Standards Law. Therefore, the actuarial investigation prepared for House Bill 135 (LC 43 0501) would still apply. A copy of the actuarial investigation and State Auditor's Summary are attached.

Respectfully,

COMMITTEES OF CONFERENCE SUBSTITUTE TO HB 205

A BILL TO BE ENTITLED AN ACT

To amend Article 2 of Chapter 4 of Title 12 of the Official Code of Georgia Annotated, relating to mining and drilling, so as to regulate the exploration and extraction of gas and oil in this state; to provide for definitions; to provide for authority to create an Oil and Gas Board under certain circumstances; to require the promulgation of rules and regulations related to drilling and extraction; to amend provisions relating to drilling permits; to increase the amount of bond security for drilling operations; to provide for authority of local governments; to provide for a severance tax on the extraction of oil and

gas; to provide for related matters; to provide for an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 2 of Chapter 4 of Title 12 of the Official Code of Georgia Annotated, relating to mining and drilling, is amended by revising Part 2, relating to deep drilling for oil, gas, and other minerals, as follows:

"Part 2

12-4-40.

This part shall be known and may be cited as the 'Oil and Gas and Deep Drilling Act of 1975.'

12-4-41.

The General Assembly finds and declares that its duty to protect the health, safety, and welfare of the citizens of this state requires that adequate protection of underground fresh water supplies be assured in any drilling operation which may penetrate through any stratum which contains fresh water. This duty further requires that adequate protection be assured in any drilling or the use of such drilled wells in certain other environmentally sensitive areas or in other circumstances where the result of such drilling and use may endanger the health, safety, and welfare of the citizens of this state. It is not the policy of the General Assembly to regulate the drilling of shallow exploration or engineering holes except in such environmentally sensitive areas as defined in this part. The General Assembly further finds and declares that, ~~with the current energy shortage which this state and nation face, it must encourage~~ oil and gas exploration to identify new sources of energy, ~~but not~~ should not occur at the expense of our important natural resources such as residential, municipal, and industrial supplies of fresh water. The General Assembly further finds and declares that it should continue to encourage oil and gas exploration. The General Assembly further finds and declares that with an increase in oil exploration, it must provide assurances to persons engaging in such exploration that adequate safeguards regarding results of exploration will remain privileged information for a specified time. The General Assembly further finds and declares that it is in the public interest to obtain, protect, and disseminate all possible geologic information associated with drilling operations in order to further the purposes of future energy related research.

12-4-42.

As used in this part, the term:

(1) 'Board' means the Board of Natural Resources.

(1.1) 'Director' means the director of the Environmental Protection Division of the

Department of Natural Resources.

(2) 'Drilling' means the boring of a hole in the earth by remote mechanical means and all associated activities, including but not limited to casing, perforating, plugging, cementing, and capping.

(3) 'Environmentally sensitive area of the coastal zone' means that area of the coastal zone where salt-water-bearing strata overlie the fresh-water aquifer system.

(4) 'Field' means the general area which is underlaid or appears to be underlaid by at least one pool. This term shall include the underground reservoir or reservoirs containing crude petroleum oil or natural gas, or both. The words 'field' and 'pool' mean the same thing when only one underground reservoir is involved; however, 'field,' unlike 'pool,' may relate to two or more pools.

(5) 'Gas' means all natural gas, including casing-head gas, and all other hydrocarbons not defined as oil in paragraph (10) of this Code section.

(5.1) 'Hydraulic fracturing' means those operations conducted in an individual well bore designed to increase the flow of hydrocarbons from the rock formation to such well bore through modification of the permeability of reservoir rock by fracturing it through application of fluids under pressure.

(6) 'Illegal mineral' means any mineral, including oil or gas, which has been produced within the State of Georgia in violation of this part, any rule or regulation adopted and promulgated pursuant to this part, or any order issued under this part.

(7) 'Illegal product' means any product of oil, gas, or other mineral, any part of which was processed or derived, in whole or in part, from an illegal mineral.

(8) 'Mineral' means any naturally occurring substance found in the earth which has commercial value. This term shall include oil and gas, as defined in this Code section, but shall not include fresh water.

(9) 'Mineral product' means any commodity made from any mineral.

(10) 'Oil' means crude petroleum oil and other hydrocarbons, regardless of gravity, which are produced at the well in liquid form by ordinary production methods and which are not the result of condensation of gas after it leaves the reservoir.

(11) 'Owner' means the person who has the right to drill into and produce from any pool and to appropriate the production either for himself or herself and another, or himself or herself and others.

(12) 'Person' means any natural person, corporation, joint venture, association, partnership, receiver, trustee, guardian, executor, administrator, fiduciary or representative of any kind, all agencies or instrumentalities of the state, and all county or municipal governments or any authority.

(13) 'Pool' means an underground reservoir containing a common accumulation of crude petroleum oil or natural gas, or both. Each zone of a general structure which is completely separated from any other zone in the structure is covered by the term 'pool' as used in this part.

(14) 'Producer' means the owner of a well or wells capable of producing oil or gas, or both.

(15) 'Tender' means a permit or certificate of clearance for the transportation of

minerals, including oil and gas, or mineral products produced under this part, approved and issued or registered under the authority of the board.

(16) 'Unitization agreement' means a voluntary agreement between operators to create operation units.

(17) 'Waste,' in addition to its ordinary meaning, means 'physical waste' as that term is generally understood in the oil and gas industry. The term shall also include, but not be limited to:

(A) The inefficient, excessive, or improper use or dissipation of reservoir energy and the locating, spacing, drilling, equipping, operating, or producing of any oil or gas well or wells in a manner which results, or tends to result, in a reduction in the quantity of oil or gas ultimately to be recovered from any pool in this state;

(B) The inefficient storing of oil and the locating, spacing, drilling, equipping, operating, or producing of any oil or gas well or wells in a manner causing, or tending to cause, unnecessary or excessive surface loss or destruction of oil or gas;

(C) Abuse of the correlative rights and opportunities of each owner of gas or oil in a common reservoir due to nonuniform, disproportionate, and unratable withdrawals causing undue drainage between tracts of lands;

(D) The production of oil or gas in such a manner as to cause unnecessary water channeling or zoning;

(E) The operation of any oil well or wells with an inefficient gas-oil ratio;

(F) The drowning with water of any stratum or part thereof capable of producing gas or oil, except where approval for such a project has been granted by the department;

(G) Underground waste, however caused and whether or not defined, as the same relates to any activity regulated by this part;

(H) The creation of unnecessary fire hazards as the same relates to any activity regulated by this part;

(I) The escape into the open air, from a well producing both oil and gas, of gas in excess of the amount which is necessary in the efficient drilling or operation of the well; and

(J) Permitting gas produced from a gas well to escape into the air, except for testing purposes.

(18) 'Well' means any boring drilled in the search for or the production of oil, gas, or other minerals or water.

12-4-43.

For the purpose of this part:

(1) The board shall have the authority to make such inquiries as it may deem necessary into any matter over which it has jurisdiction;

(2) The board shall have the jurisdiction of and authority over the drilling of and subsequent use of any well for the exploration or production of oil and gas; any well for the exploration or production of any other mineral drilled to a depth greater than 1,800 feet; any well for the exploration or production of any mineral located in the

environmentally sensitive area of the coastal zone and which is drilled to a depth sufficient to penetrate the fresh-water aquifer system; any underground storage well with the exception of those wells covered by Article 3 of Chapter 4 of Title 46; any well for the underground disposal of waste materials; any well for the production of fresh water drilled to a depth greater than 1,800 feet; and any well for the exploration or production of brine or salt water;

(3) The board shall have the authority to regulate the spacing of wells and the production of all oil and gas and the production of any other minerals produced through a well or bore hole in liquid or slurry form to a depth greater than 1,800 feet or located in the environmentally sensitive area; provided, however, that this authority does not extend to the drilling of wells for the production of fresh water used for drinking, residential, industrial, or agricultural purposes, except as provided for in paragraph (2) of this Code section;

(4) The board shall have the power to adopt and promulgate rules and regulations necessary to effectuate the purposes of this part;

(5) The board may delegate to the director the administrative duties and powers, including, without limitation, the power to consider and issue permits to drill wells and to establish drilling and operation units, created under the authority of this part; and

(6) Upon receipt of at least 12 applications during a calendar year for any permit to drill any well for the exploration or production of oil or gas, the board may delegate to the director the authority to create an Oil and Gas Board to review and issue permits and regulate drilling activity. Any such Oil and Gas Board shall consist of the state geologist and three other members appointed by the Governor.

12-4-44.

(a) The board shall have the authority to adopt and promulgate rules and regulations dealing with the control of matters over which it has jurisdiction under this part. Such rules and regulations shall include, but shall not be limited to, rules and regulations for the following purposes:

(1) To require the drilling, casing, and plugging of wells regulated under this part to be done in such a manner as to prevent the escape of oil or gas out of one stratum into another stratum; to prevent the pollution of ~~fresh water supplies~~ surface-water and ground-water supplies by oil, gas, salt water, or other contaminants; and to require reasonable bonds;

(2) To require the making of reports showing the location of all wells regulated under this part, including the filing of drill cutting samples, cores, and copies of all logs, and to further require that the operator submit the name classification used for each of the subsurface formations penetrated and the depth at which each such formation was penetrated;

(3) To prevent the drowning by water of any stratum or part thereof capable of producing oil or gas in paying quantities and to prevent the premature and irregular encroachment of water which reduces the total ultimate recovery of oil or gas from

any pool;

(4) To require the operation of wells regulated under this part with efficient gas-oil ratios and to fix such ratios;

(5) To prevent 'blowouts,' 'caving,' and 'seepage' in the sense that conditions indicated by such terms are generally understood in the oil and gas business;

(6) To prevent fires, waste, and spillage as same relates to any activity regulated by the provisions of this part;

(7) To identify the ownership of all oil or gas wells, producing leases, refineries, tanks, plants, structures, and all storage and transportation equipment and facilities;

(8) To regulate the 'shooting,' perforating, fracturing, hydraulic fracturing, and chemical treatment of wells;

(9) To regulate secondary recovery methods, including, but not limited to, the introduction of gas, oil, water, or other substances into producing formations;

(10) To limit and prorate the production of oil or gas, or both, from any pool or field for the prevention of waste as defined in Code Section 12-4-42;

(11) To require, either generally or in or from particular areas, certificates of clearance or tenders in connection with the transportation of oil or gas produced in Georgia;

(12) To regulate the spacing of wells and to establish drilling units;

(13) To prevent, insofar as is practical, avoidable drainage from each developed unit which is not equalized by counterdrainage;

(14) To establish procedures for the plugging and abandonment of wells regulated under this part and to establish procedures for the restoration and reclamation of well sites;

(15) To require that accurate records be kept on forms to be prescribed by the director, which records shall be reported to the director within the time specified in such rules and regulations; reports shall include such information as the director may prescribe, including, but not limited to, information concerning cuttings, subsurface samples, and lithologic and geophysical logs;

(16) To require that geologic and testing information obtained from a well regulated under this part be held in confidence by the director for a period of at least six months from the time of drilling to total depth, or, if the director approves, a longer period, if the operator makes a written request for the same stating the length of the extension desired and the reasons therefor; provided, however, that the guarantee of confidentiality provided for in this paragraph shall in no way impair the ability of the board or the director to enforce this part;

(17) To regulate the issuance, denial, and revocation of permits and to regulate bonds required under this part, except as to persons provided for in paragraph (18) of this ~~Code section~~ subsection;

(18) To regulate the issuance of permits to persons who have been found to have violated any provision of this part, any rule or regulation adopted and promulgated pursuant to this part, or any order or permit issued under this part, and to establish the amount of bond for such persons;

(19) To regulate the cooperative development or operation of all or part of an oil or gas pool as a unit;

(20) To require that certain geophysical logging and other tests be conducted to ensure that the requirements of paragraphs (1), (8), and (14) of this ~~Code section~~ subsection are met; and

(21) To regulate the underground storage or disposal of substances other than those substances covered by the provisions of Article 3 of Chapter 4 of Title 46.

(b) On or before July 1, 2019, the board shall adopt regulations governing hydraulic fracturing operations. Such regulations shall include, at a minimum:

(1) Provisions for public notice of any application for any permit for any hydraulic fracturing well, such notice to be given before any decision on the permit application.

The contents of such public notice shall include, at a minimum:

(A) The name, address, and telephone number of the division contact where further information can be obtained;

(B) The name and address of the applicant;

(C) The location of the well proposed to be fractured and the route of any directional borehole to the end point of such borehole;

(D) A brief description of the project, including information regarding the sources of water to be used as base fluid and estimated amounts and methods of waste-water disposal; and

(E) A brief description of the public comment period and procedures the director will follow to determine whether to issue the permit;

(2) Provisions for the identification of ground-water sources within one-half mile of any proposed wellhead and within one-half mile along the route of any directional borehole to the end point of such borehole, and for ground-water quality monitoring before, during, and after drilling operations;

(3) Provisions providing for the mandatory disclosure of the chemicals in the fluids used in hydraulic fracturing projects to the director and to the commissioner of public health, and a fair process for the disclosure of fracturing fluids to facilitate transparency, while protecting valuable trade secrets and allowing well owners, operators, and service companies to protect their right to obtain an advantage over competitors;

(4) Provisions for the safe disposal of all hydraulic fracturing fluids; and

(5) Provisions for the restoration and reclamation of abandoned well sites, storage facility sites, pits, and access roads.

12-4-45.

(a) In regard to the establishment of drilling units and operation units, the allocation of production, the integration of separately owned tracts of land, and agreements in the interest of conservation, the board, in addition to the jurisdiction, authority, or powers granted elsewhere in this part, shall have the specific powers with respect to the exploration or production of oil or gas enumerated below.

(1) **Drilling units.** For the prevention of waste and to avoid the augmenting and

accumulation of risk arising from the drilling of an excessive number of wells, the board shall, after due investigation and a hearing, have full power and authority to establish such drilling unit or units as may, in its discretion, seem most reasonable and practicable. The board shall have control of the allocation of production over such units and shall, after investigation and hearing, set up, establish, and allocate to each unit its just and equitable share of production, and shall make such orders, rules, and regulations as will give to each producer the opportunity to use his or her just and equitable share of the reservoir energy of any pool. The board shall have power after notice and hearing to review and approve, or disapprove, agreements made among owners or operators, or among owners and operators in the interest of conservation of oil or gas or both or for the prevention of waste. When two or more separately owned tracts of land are embraced within an established drilling unit, the owners thereof may validly agree to integrate their interests and to develop their lands as a drilling unit. Where, however, such owners have not agreed to integrate their interests, the board may, for the prevention of waste or to avoid the drilling of unnecessary wells, after notice and hearing, require such owners to do so and to develop their lands as a drilling unit. Should the owners of separate tracts embraced within a drilling unit fail to agree upon the integration of the tracts and the drilling of a well on the unit, and should it be established that the board is without authority to require integration as provided for above, then subject to all other applicable provisions of this part, the owner of each tract embraced within the drilling unit may drill on his or her tract, but the allowable production from said tract shall be such proportion of the allowable production for the full drilling unit as the area of such separately owned tracts bears to the full drilling unit.

(2) Operation units.

(A) For the prevention of waste and to assure the ultimate recovery of gas or oil, the board may hold a hearing to consider the need for the operation as a unit of an entire field, or of any pool or any portion thereof, or combination of pools, within a field, for the production of oil or gas or both and other minerals which may be associated and produced therewith by additional recovery methods.

(B) At the conclusion of the hearing the board shall issue an order requiring unit operation if it finds that:

(i) Unit operation of the field, or of any pool or of any portion or combinations thereof within the field, is reasonably necessary to prevent waste as defined in Code Section 12-4-42 or to increase the ultimate recovery of oil or gas by additional recovery methods; and

(ii) The estimated additional cost incident to the conduct of such operation will not exceed the value of the estimated additional recovery of oil or gas; provided, however, that the board shall be authorized to prohibit the production of gas or oil by any recovery method if it has determined that such recovery method will result in waste or reduce the ultimate recovery of gas or oil from any field or pool or portion or combination thereof.

(C) The phrase 'additional recovery methods' as used in this ~~Code section~~

subsection shall include, but shall not be limited to, the maintenance or partial maintenance of reservoir pressures by any method recognized by the industry and approved by the board; recycling; flooding a pool or pools, or parts thereof, with air, gas, water, liquid hydrocarbons or any other substance, or any combination or combinations thereof; or any other secondary method of producing hydrocarbons recognized by the industry and approved by the board.

(D) The order provided for in subparagraph (B) of this paragraph shall be fair and reasonable under all the circumstances, shall protect the rights of interested parties, and shall include:

- (i) A description of the area embraced, termed the unit area; and a description of the affected pool or pools, or portions thereof, which lie within the unit area;
- (ii) A statement of the nature of the operations contemplated;
- (iii) A method of allocation among the separately owned tracts in the unit area of all the oil or gas or both produced from the unit pool within the unit area and not required in the conduct of such operation or unavoidably lost, such method of allocation to be on a formula that is fair and equitable and will protect the correlative rights of all interested parties;
- (iv) A provision for adjustment among the owners of the unit area (not including royalty owners) of their respective investments in wells, tanks, pumps, machinery, materials, equipment, and other things and services of value attributable to the unit operations. The amount to be charged unit operations for any such item shall be determined by the owners of the unit area (not including royalty owners); provided, however, that if such owners of the unit area are unable to agree upon the amount of such charges, or to agree upon the correctness thereof, the board shall determine the amount after due notice and hearing thereon. The net amount charged against the owners of a separately owned tract shall be considered expense of unit operation chargeable against such tract. The adjustment provided for in this division may be treated separately and handled by agreements separate from the unitization agreement;
- (v) A provision that the costs and expenses of unit operations, including investment, past and prospective, be charged to the separately owned tracts in the same proportions that such tracts share in unit productions. The expenses chargeable to a tract shall be paid by the person or persons not entitled to share in production free of operating costs, and who, in the absence of unit operation, would be responsible for the expense of developing and operating such tracts, and such person's or persons' interest in the separately owned tract shall be primarily responsible therefor. The obligation or liability of such persons in the several, separately owned tracts for the payment of unit expense shall at all times be several and not joint or collective. The unit operator shall have a first and prior lien upon the leasehold estate exclusive of the royalty interest provided thereby and unleased oil and gas rights, exclusive of one-eighth interest therein, in and to each separately owned tract, and the interest of the owners thereof in and to the unit production and all equipment in possession of the unit, to secure the payment

of the amount of the unit expense charged to and assessed against such separately owned tract;

(vi) The designation of, or a provision for the selection of, a unit operator. The conduct of all unit operations by the unit operator and the selection of a successor to the unit operator shall be governed by the terms and provisions of the unitization agreements;

(vii) A provision that when the full amount of any charge made against any interest in a separately owned tract is not paid when due by the person or persons primarily responsible therefor, then all of the oil and gas production allocated to the interest in default in such separately owned tract, upon which production the unit operator has a lien, may be appropriated by the unit operator and marketed and sold for the payment of such charge, together with interest at a fair and equitable rate as determined by the board thereon. The remaining portion of the unit production or the proceeds derived therefrom allocated to each separately owned tract shall in all events be regarded as royalty to be paid to the owners, free and clear of all unit expense and free and clear of any lien therefor. The owner of any overriding royalty, oil and gas payment, or other interest, who is not primarily responsible for the unpaid obligation, shall, to the extent of any payment or deduction from his or her share, be subrogated to all the rights of the unit operator with respect to the interest or interests primarily responsible for such payment. Any surplus received by the operator from any such sale of production shall be credited to the person or persons from whom it was deducted in the proportion of their respective interest; and

(viii) The time the unit operation shall become effective, and the manner in which, and the circumstances under which, the unit operation shall terminate.

(E) An order requiring unit operation shall not become effective unless and until a contract incorporating the unitization agreement has been signed or in writing ratified or approved by the owners of at least ~~75~~ 85 percent in interest as costs are shared under the terms of the order and by ~~75~~ 85 percent in interest, as production is to be allocated, of the royalty owners in the unit area, and unless and until a contract incorporating the required arrangements for operations has been signed or in writing ratified or approved by the owners of at least ~~75~~ 85 percent in interest as costs are shared, and unless and until the board has made a finding, either in the order or in a supplemental order, that those contracts have been signed, ratified, or approved. Both contracts may be encompassed in a single document. In the event the required percentage interests have not signed, ratified, or approved such agreements within six months from and after the date of such order, or within such extended period as the board may prescribe, the order shall be automatically revoked.

(F)(i) The board, by entry of new or amending orders, may from time to time add to unit operations portions of pools not theretofore included, and may add to unit operations new pools or portions thereof, and may extend the unit area as required. Any such order, in providing for allocation of production from a unitized zone of

the unit area, shall first allocate to such pool or pools, or portion thereof so added, a portion of the total production of oil or gas, or both, from all pools affected within the unit area, as enlarged and not required in the conduct of unit operations or unavoidably lost. Such allocation shall be based on a formula for sharing that is considered to treat each tract and each owner fairly and equitably during the remaining course of unit operations. The production so allocated to such added pool or pools or portions thereof shall be allocated to the separately owned tracts which participate in such production on a fair and equitable basis. The remaining portion of unit production shall be allocated among the separately owned tracts within the previously established unit area in the same proportions as those specified prior to the enlargement unless such proportions are shown to be erroneous by data developed subsequent to the former determination, in which event the errors shall be corrected. Orders promulgated under this Code section shall become operative at 7:00 A.M. on the first day of the month next following the day on which the order becomes effective.

(ii) An order promulgated by the board under this subparagraph shall not become effective unless and until:

(I) All of the terms and provisions of the unitization agreement relating to the extension or enlargement of the unit area or to the addition of pools or portions thereof to unit operations have been fulfilled and satisfied, and evidence thereof has been submitted to the board; and

(II) The extension or addition effected by such order has been agreed to in writing by the owners of at least ~~75~~ 85 percent in interest as costs are shared in the area or pools or portions thereof to be added to the unit operation by such order and by ~~75~~ 85 percent in interest, as production is to be allocated, of the royalty owners in the area or pools or portions thereof to be added to the unit operations by such order, and evidence thereof has been submitted to the board.

(iii) In the event both of the requirements specified in subdivisions (I) and (II) of division (ii) of this subparagraph are not fulfilled within six months from and after the date of such order or within such extended period as the board may prescribe, the order shall be automatically revoked.

(G) When the contribution of a separately owned tract with respect to any unit pool has been established, such contribution shall not be subsequently altered except to correct a mathematical or clerical error that caused the tract contribution to be erroneous, unless an enlargement of the unit is effected. No change or correction of the contribution of any separately owned tract shall be given retroactive effect, but appropriate adjustment shall be made for the investment charges as provided in this Code section.

(H) The portion of unit production allocated to a separately owned tract within the unit area shall be deemed, for all purposes, to have been actually produced from such tract, and operations with respect to any unit pool within the unit area shall be deemed, for all purposes, to be the conduct of operations for the production of oil or gas, or both, from each separately owned tract in the unit area.

(b) Owners, operators, and royalty owners who have separate holdings in the same oil or gas pool or in any area that appears from geological or other data to be underlaid by a common accumulation of oil or gas or both are authorized to make agreements among themselves for establishing and carrying out a plan for the cooperative development and operation of the pool or area, provided that such agreements must be approved by the board; provided, further, that such agreements must be for the purpose of conserving gas or oil or both, or for the prevention of waste, or to assure the ultimate recovery of gas or oil or both. Such agreements shall not be held or construed to violate any of the laws of this state relating to trusts, monopolies, or contracts and combinations in restraint of trade.

12-4-46.

(a) Before any well covered by this part, other than wells for the production of fresh water, may be drilled, the person desiring to drill the well shall apply to the director for a drilling permit, using such forms as the director may prescribe, and shall pay a fee of ~~\$25.00~~ \$500.00 for each permit.

(b) The director shall, within 30 days after the receipt of a properly completed application from any person desiring to drill a well covered by this part, ~~either issue or deny a permit for the well~~ issue a public notice for the permit application by posting such notice to the division website and by sending such notice via mail or e-mail to any persons who have requested notification of permit applications from the division. The director shall allow for a 30 day public comment period to begin running from the date the public notice is posted on the division website and as outlined in subsection (c) of this Code section. The director shall review and consider the public comments received during the public comment period.

(c) The permit applicant shall provide the director's public notice of the proposed well directly to property owners and residents who may be impacted by the issuance of the permit within ten days of the date of the public notice by, at a minimum:

(1) Posting the public notice along the road nearest to the proposed well;

(2) Providing the public notice to all persons owning real property within one-half mile of the proposed wellhead and within one-half mile along the route of any directional borehole and any residence that has any drinking water wells within one-half mile of the proposed wellhead and within one-half mile along the route of any directional borehole; and

(3) Publishing the public notice in at least one legal organ in the county where the well will be located.

(d) After considering the permit application, the director shall either issue or deny a permit for the well. The director shall notify the public of the final permit decision by posting the decision to the division website and by sending notice of the decision via mail or e-mail to any persons who have requested notification of permit applications from the division.

~~(e)~~(e) In issuing or denying a permit for the drilling of a well covered by this part, the director shall consider the extent to which the proposed well complies with this part, all

rules and regulations adopted and promulgated pursuant to this part, or any order under this part.

~~(d)~~(f) In issuing a permit for the drilling of any well covered by this part, the director shall specify therein such terms and conditions as he or she deems necessary to receive the permit and to lawfully operate thereunder. Permits shall include the following requirements:

(1) Requirements for testing the integrity of well casings;

(2) Requirements for maintenance and repair of roadways significantly impacted by drilling operations, including hydraulic fracturing activities; and

(3) Requirements for buffers around wells and property line setbacks that are sufficient to protect affected property owners from any noise, light, water, or air pollution resulting from any drilling operations.

(g) Any permit issued under this Code section shall become final unless ~~the~~ any person ~~or persons~~ named therein ~~request~~ requests in writing a hearing before an administrative law judge appointed by the board no later than 30 days after the issuance of such permit.

~~(e)~~(h) The director shall have the power and the authority to revoke a permit for noncompliance with any of the provisions of this part, any rules and regulations promulgated under this part, or the special conditions contained in any permit.

~~(f)~~(i) The issuance of a permit under this part in no way indicates a determination by the director as to property or contractual rights of the applicant to drill such a well at the designated location.

12-4-47.

(a) Prior to the issuance of a permit to drill any well covered by this part, the owner, operator, contractor, driller, or other person responsible for the conduct of the drilling operation shall furnish the state a bond or undertaking in the form prescribed by the board and in an amount set by the board, executed by a bonding, surety, or insurance company authorized to do business in this state in the favor of the state. Alternatively, the board in its discretion may require a similar undertaking executed only by such person to ensure a faithful performance of the requirements of this part, of any rules or regulations adopted pursuant thereto, or of any condition of a permit. Such bond or undertaking is intended to protect the state or any citizen thereof from any injury which may result from improper drilling.

(b) Any bond required under this part shall be released two years from the date of receipt by the director of all geological information required under this part or any rule or regulation adopted pursuant to this part; provided, however, that the director shall have examined and approved the abandoned well for which the bond was furnished.

(c) No bond required under this part shall exceed ~~\$50,000.00~~ \$100,000.00.

12-4-48.

(a) Whenever the director has reason to believe that any person is violating the provisions of this part or any rule or regulation adopted pursuant to this part, the

director may issue an administrative order to that person. The order shall specify the provisions of this part alleged to have been violated and shall order that corrective action be taken within a reasonable period of time prescribed in the order. Any such order shall become final and enforceable unless the person or persons named therein request in writing a hearing before an administrative law judge appointed by the board no later than 30 days after the issuance of the order.

(b) Whenever the director finds that an emergency exists requiring immediate action to protect the public interest, the director may issue a provisional order reciting the existence of such an emergency and requiring that such action be taken as is reasonably necessary to meet the emergency under the circumstances, provided that such an emergency order shall be issued only after an affidavit has been filed with the director showing specific facts of such an emergency condition. Such order shall be effective immediately. Any person against whom such order is directed shall upon appropriate notice comply therewith immediately but on application to the director shall be afforded a hearing before an administrative law judge appointed by the board within ten days of receipt of such application by the director or, if the party applying so requests, within 48 hours of receipt of such application by the director. Prior to such hearing, the director shall be authorized to modify or revoke such order. After the hearing, the administrative law judge shall be authorized to make such order as is just and reasonable, including an order continuing, revoking, or modifying such provisional order.

(c) Whenever the director has reason to believe that any person is violating any provision of this part or any rule or regulation adopted pursuant to this part, the director may bring an action against such person in the proper superior court to restrain such person or persons from continuing such violations. In such action, the director may seek injunctions, including temporary restraining orders and temporary injunctions, without the necessity for showing lack of an adequate remedy at law.

(d) Any person who willfully or negligently violates any provision of this part, any rule or regulation adopted under this part, or any permit or final or emergency order of the director shall be subject to a civil penalty of not less than \$50.00, but in any event not to exceed \$10,000.00 for each act of violation. Each day of continued violation shall subject such person to a separate civil penalty. An administrative law judge appointed by the board, after a hearing shall determine whether or not any person has violated any provision of this part or any rule or regulation adopted under this part or any permit or final or emergency order of the director, and shall upon proper finding issue an order imposing such civil penalties as provided in this Code section. Any person so penalized under this Code section is entitled to judicial review. In this connection, all hearings and proceedings for judicial review under this Code section shall be in accordance with Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' All civil penalties recovered by the director as provided by this chapter shall be paid into the state treasury to the credit of the general fund.

(e) In addition to any other enforcement remedy available to the director under this part, all illegal minerals and illegal products are declared to be contraband and forfeited

to the state in accordance with the procedures set forth in Chapter 16 of Title 9, except that:

- (1) Any seizure of contraband shall be delivered to the director or his or her duly authorized agent;
 - (2) Illegal minerals shall only be forfeited as provided for in Code Section 9-16-12; and
 - (3) Property seized pursuant to this subsection shall not be required to be stored in an area within the jurisdiction of the court if such storage is not possible.
- (f) Nothing in this Code section shall deny or abridge any cause of action a royalty owner, lienholder, or other claimant may have against any persons whose acts result in the forfeiture of the illegal oil, illegal gas, or illegal product.

12-4-49.

In the administration and enforcement of this part, all hearings before an administrative law judge shall be subject to Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' Any party to said hearings (including the director) shall have the right of judicial review in accordance with Chapter 13 of Title 50.

12-4-50.

In any contested administrative hearing under this part, no person shall be excused from attending and testifying, or from producing books, papers, and records before the administrative law judge, or from obedience to the subpoena of the administrative law judge, on the ground or for the reason that the testimony or evidence, documentary or otherwise, required by him or her may tend to incriminate him or her or subject him or her to a penalty or forfeiture, provided that nothing contained in this Code section shall be construed as requiring any person to produce any books, papers, or records, or to testify in response to any inquiry, not pertinent to a question lawfully before the administrative law judge for determination. No evidence given by or required of any natural person shall be used or admitted against such a person in any criminal prosecution for any transaction, matter, or thing concerning which he or she may be required to testify or produce evidence, documentary or otherwise, before the administrative law judge in obedience to its subpoena; provided, however, that no person testifying shall be exempt from prosecution and punishment for perjury committed in so testifying.

12-4-51.

Any provision of Part 2 of Article 3 of Chapter 5 of this title which is inconsistent with this part shall not be repealed by this part and shall govern over this part.

12-4-52.

This part shall not be construed as limiting the authority or functions of any officer or agency of this state under any other law or regulation not inconsistent with this part.

12-4-52.1.

This part shall not be construed as limiting the authority of local governments to adopt local zoning or land use ordinances limiting the location or timing of activities defined herein for the purposes of protecting natural resources or human health and welfare.

12-4-53.

The following activities are prohibited:

- (1) The waste of oil or gas as defined in this part;
- (2) The sale, purchase, or acquisition or the transportation, refining, processing, or handling of illegal minerals or illegal products;
- (3) The sale, purchase, or acquisition or the transportation, refining, processing, or handling in any other way of any mineral, including oil and gas, or any mineral product without complying with this part or any rule or regulation of the board promulgated pursuant to this part;
- (4) Intentionally or negligently permitting any gas or oil well to get out of control;
- (5) The drilling of any well covered by the provisions of this part by any person without a permit for such drilling; and
- (6) Any other violation of any provision of this part or any rule or regulation promulgated under this part.

12-4-54.

(a) As used in this Code section, the term 'extractor' means any person removing oil or gas from the ground pursuant to this part.

(b)(1) A severance tax shall be levied on oil or gas removed from the ground in this state by an extractor as follows:

- (A) Three cents per barrel of oil; and
- (B) One cent per thousand cubic feet of gas.

(2) The Department of Revenue shall promulgate rules and regulations as necessary to implement and administer the provisions of this subsection and shall promulgate and make available forms for the use of extractors to assist in compliance with this subsection.

(c)(1) In addition to the tax provided for in subsection (b) of this Code section, the governing authority of each county and each municipal corporation is authorized to provide by local ordinance or resolution for the levy, assessment, and collection of a severance tax on oil or gas removed from the ground by an extractor within the jurisdiction of such county or municipality as follows:

- (A) An amount not to exceed nine cents per barrel of oil; and
- (B) An amount not to exceed two cents per thousand cubic feet of gas.

(2) The severance tax provided for in paragraph (1) of this subsection shall be collected by the Department of Revenue in the same manner and under the same procedures as provided for pursuant to subsection (b) of this Code section on behalf of each county and municipality electing to exercise the powers conferred herein and shall be remitted to each such county and municipality accordingly."

SECTION 2.

This Act shall become effective upon this Act's approval by the Governor or upon its becoming law without such approval.

SECTION 3.

All laws and parts of laws in conflict with this Act are repealed.

The cost estimate for each recommended improvement included in the plan shall be based on these schedules. Any increase in cost or square footage for a project beyond that allowed by state board schedules for such projects shall be the responsibility of the local school system and shall not count toward present or future required local participation. (4) 'College and career academy' means a specialized school established as a charter school or pursuant to a contract for a strategic waivers school system or charter system, which formalizes a partnership that demonstrates a collaboration between business, industry, and community stakeholders to advance work force development between one or more local boards of education, a private individual, a private organization, or a state or local public entity in cooperation with one or more postsecondary institutions.

(5) 'Focused program of study' means a rigorous academic core combined with a focus in mathematics and science; a focus in humanities, fine arts, and foreign language; or a coherent sequence of career pathway courses that is aligned with graduation requirements established by the State Board of Education and content standards established pursuant to Part 2 of this article that prepares a student for postsecondary education or immediate employment after high school graduation.

The goal of a small learning community is to achieve greater personalization of learning with each community led by a principal or instructional leader. A small learning community blends academic studies around a broad career or academic theme where teachers have common planning time to connect teacher assignments and assessments to college and career readiness standards. Students voluntarily apply for enrollment in a small learning community but must be accepted, and such enrollment must be approved by the student's parent or guardian. A small learning community also includes a college and career academy organized around a specific career theme which integrates academic and career instruction, provides work based learning opportunities, and prepares students for postsecondary education and employment, with support through partnerships with local employers, community organizations, and postsecondary institutions.

(10) 'Teacher adviser system' means a system where an individual professional educator in the school assists a small group of students and their parents or guardians throughout the students' high school careers to set postsecondary goals and help them prepare programs of study, utilizing assessments and other data to track academic progress on a regular basis; communicates frequently with parents or guardians; and provides advisement, support, and encouragement as needed.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

furnished by such board. Such application shall be filed in the year in which exemption from taxation is sought no later than the date on which the tax receiver or tax commissioner of the county in which the property is located closes the books for the return of taxes.

(b) The application for the level 1 freeport exemption shall provide for:

(1) A ~~schedule~~ summary, as prescribed by the department, of the inventory of goods in the process of manufacture or production which shall include all partly finished goods and raw materials held for direct use or consumption in the ordinary course of the taxpayer's manufacturing or production business in the State of Georgia;

(2) A ~~schedule~~ summary, as prescribed by the department, of the inventory of finished goods manufactured or produced within the State of Georgia in the ordinary course of the taxpayer's manufacturing or production business when held by the original manufacturer or producer of such finished goods;

(3) A ~~schedule~~ summary, as prescribed by the department, of the inventory of finished goods which on January 1 are stored in a warehouse, dock, or wharf, whether public or private, and which are destined for shipment outside the State of Georgia and the inventory of finished goods which are shipped into the State of Georgia from outside this state and which are stored for transshipment to a final destination outside this state. (c)(1) For purposes of this subsection, the term 'file properly' shall mean and include the timely filing of the completed application and ~~complete schedule of the inventory~~ for which exemption is sought on or before the due date specified in subsection (a) of this Code section. Any clerical error, including, but not limited to, a typographical error, scrivener's error, or any unintentional immaterial error or omission in the application shall not be construed as a failure to file properly.

The denial letter shall list the type and total fair market value of all property listed on the application for which the exemption has been approved and the type and total fair market value of all property listed on the application for which the exemption has been denied. The applicant shall have the right to appeal from the denial of the exemption for any property listed and such appeal shall proceed as provided in Code Section 48-5-311. (1) 'Destined for shipment to a final destination outside this state' means, for purposes of a level 1 freeport exemption, that portion or percentage of an inventory of finished goods which the taxpayer can establish, through a historical sales or shipment analysis, either of which utilizes information from the preceding calendar year, or

other reasonable, documented method, is reasonably anticipated to be shipped to a final destination outside this state. Such other reasonable, documented method may only be utilized in the case of a new business, in the case of a substantial change in scope of an existing business, or in other unusual situations where a historical sales or shipment analysis does not adequately reflect future anticipated shipments to a final destination outside this state. It is not necessary that the actual final destination be known as of January 1 in order to qualify for the exemption.

(2) 'Finished goods' means, for purposes of a level 1 freeport exemption, goods, wares, and merchandise of every character and kind but shall not include unrecovered, unextracted, or unsevered natural resources or raw materials or goods in the process of manufacture or production or the stock in trade of a retailer.

(3) 'Foreign merchandise in transit' means, for purposes of a level 1 freeport exemption, any goods which are in international commerce where the title has passed to a foreign purchaser and the goods are temporarily stored in this state while awaiting shipment overseas.

(4) 'Fulfillment center' means, for purposes of a level 1 freeport exemption, a business location in Georgia which is used to pack, ship, store, or otherwise process tangible personal property sold by electronic, Internet, telephonic, or other remote means, provided that such a business location does not allow customers to purchase or receive goods onsite at such business location.

(5) 'Raw materials' means, for purposes of a level 1 freeport exemption, any material, whether crude or processed, that can be converted by manufacture, processing, or a combination thereof into a new and useful product but shall not include unrecovered, unextracted, or unsevered natural resources.

(6) 'Stock in trade of a fulfillment center' means, for purposes of a level 1 freeport exemption, goods, wares, and merchandise held by one in the business of making sales of such goods when such goods are held or stored at a fulfillment center.

(7) 'Stock in trade of a retailer' means, for purposes of a level 1 freeport exemption, finished goods held by one in the business of making sales of such goods at retail in this state, within the meaning of Chapter 8 of this title, when such goods are held or stored at a business location from which such retail sales are regularly made. Goods stored in a warehouse, dock, or wharf, including a warehouse or distribution center which is part of or adjoins a place of business from which retail sales are regularly made, shall not be considered stock in trade of a retailer to the extent that the taxpayer can establish, through a historical sales or shipment analysis, either of which utilizes information from the preceding calendar year, or other reasonable, documented method, the portion or percentage of such goods which is reasonably anticipated to be shipped outside this state for resale purposes.

(c) The governing authority of any county or municipality may, subject to the approval of the electors of such political subdivision, exempt from ad valorem taxation, including all such taxes levied for educational purposes and for state purposes, all or any combination of the following types of tangible personal property:

(1) Inventory of goods in the process of manufacture or production which shall

include all partly finished goods and raw materials held by the taxpayer or the taxpayer's designated agent for direct use or consumption in the ordinary course of the taxpayer's manufacturing or production business in this state. The exemption provided for in this paragraph shall apply only to tangible personal property which is substantially modified, altered, combined, or changed in the ordinary course of the taxpayer's manufacturing, processing, or production operations in this state. For purposes of this paragraph, the following activities shall constitute substantial modification in the ordinary course of manufacturing, processing, or production operations:

(A) The cleaning, drying, pest control treatment, or segregation by grade of grain, peanuts or other oil seeds, or cotton;

(B) The remanufacture of aircraft engines or aircraft engine parts or components, meaning the substantial overhauling or rebuilding of aircraft engines or aircraft engine parts or components; ~~and~~

(C) The blending of fertilizer bulk materials into a custom mixture, whether performed at a commercial fertilizer blending plant, retail outlet, or any application site; and

(D) The substantial assembly of finished parts;

(2) Inventory of finished goods manufactured or produced within this state in the ordinary course of the taxpayer's manufacturing or production business when held by the original manufacturer or producer of such finished goods. The exemption provided for in this paragraph shall be for a period not exceeding 12 months from the date such property is produced or manufactured;

(3) Inventory of finished goods which, on January 1, are stored in a warehouse, dock, or wharf, whether public or private, and which are destined for shipment to a final destination outside this state and inventory of finished goods which are shipped into this state from outside this state and stored for transshipment to a final destination outside this state, including foreign merchandise in transit. The exemption provided for in this paragraph shall be for a period not exceeding 12 months from the date such property is stored in this state. Such period shall be determined based on application of a first-in, first-out method of accounting for the inventory. The official books and records of the warehouse, dock, or wharf where such property is being stored shall contain a full, true, and accurate inventory of all such property, including the date of the receipt of the property, the date of the withdrawal of the property, the point of origin of the property, and the point of final destination of the same, if known. The official books and records of any such warehouse, dock, or wharf, whether public or private, pertaining to any such property for which a freeport exemption has been claimed shall be at all times open to the inspection of all taxing authorities of this state and of any political subdivision of this state; or

(4) Stock in trade of a fulfillment center which, on January 1, is stored in a fulfillment center and which is made available to remote purchasers who may make such purchases by electronic, Internet, telephonic, or other remote means, and where such stock in trade of a fulfillment center will be shipped from the fulfillment center

and delivered to the purchaser at a location other than the location of the fulfillment center. The exemption provided for in this paragraph shall be for a period not exceeding 12 months from the date such property is stored in this state. Such period shall be determined based on application of a first-in, first-out method of accounting for the inventory. The official books and records of the fulfillment center where such property is being stored shall contain a full, true, and accurate inventory of all such property, including the date of the receipt of the property and the date of the withdrawal of the property. The official books and records of any such fulfillment center pertaining to any such property for which a freeport exemption has been claimed shall be at all times open to the inspection of all taxing authorities of this state and of any political subdivision of this state.

(d) Whenever the governing authority of any county or municipality wishes to exempt such tangible property from ad valorem taxation, as provided in this Code section, the governing authority thereof shall notify the election superintendent of such political subdivision, and it shall be the duty of said election superintendent to issue the call for an election for the purpose of submitting to the electors of the political subdivision the question of whether such exemption shall be granted. The referendum ballot shall specify as separate questions the type or types of property as defined in this Code section which are being proposed to be exempted from taxation. The election superintendent shall issue the call and shall conduct the election on a date and in the manner authorized under Code Section 21-2-540.

(e) The governing authority of any county or municipality wherein an exemption has been approved by the voters as provided in this Code section may, by appropriate resolution, a copy of which shall be immediately transmitted to the state revenue commissioner, exempt from taxation 20 percent, 40 percent, 60 percent, 80 percent, or all of the value of such tangible personal property as defined in this Code section; provided, however, that once an exemption has been granted, no reduction in the percent of the value of such property to be exempted may be made until and unless such exemption is revoked or repealed as provided in this Code section. An increase in the percent of the value of the property to be exempted may be accomplished by appropriate resolution of the governing authority of such county or municipality, and a copy thereof shall be immediately transmitted to the state revenue commissioner, provided that such increase shall be in increments of 20 percent, 40 percent, 60 percent, or 80 percent of the value of such tangible personal property as defined in this Code section, within the discretion of such governing authority.

(f)(1) If more than one-half of the votes cast on such question are in favor of such exemption, then such exemption may be granted by the governing authority commencing on the first day of any ensuing calendar year; otherwise, such exemption may not be granted. This paragraph is intended to clearly provide that following approval of such exemption in such referendum, such exemption may be granted on the first day of any calendar year following the year in which such referendum was conducted. This paragraph shall not be construed to imply that the granting of such exemption could not previously be delayed to any such calendar year.

- (2) Exemptions may only be revoked by a referendum election called and conducted as provided in this Code section, provided that the call for such referendum shall not be issued within five years from the date such exemptions were first granted and, if the results of said election are in favor of the revocation of such exemptions, then such revocation shall be effective only at the end of a five-year period from the date of such referendum.
- (g) Level 1 freeport exemptions effected pursuant to this Code section may be granted either in lieu of or in addition to level 2 freeport exemptions under Code Section 48-5-48.6.
- (h) The commissioner shall by regulation adopt uniform procedures and forms for the use of local officials in the administration of this Code section."

SECTION 3.

Said part is further amended by revising Code Section 48-5-48.5, relating to the application for the level 2 freeport exemption, as follows:

"48-5-48.5.

(a) Any person, firm, or corporation seeking a level 2 freeport exemption from ad valorem taxation of certain tangible personal property inventory when such exemption has been authorized by the governing authority of any county or municipality after approval of the electors of such county or municipality pursuant to the authority of the Constitution of Georgia and Code Section 48-5-48.6 shall file a written application and schedule summary, as prescribed by the department, of property with the county board of tax assessors on forms furnished by such board. Such application shall be filed in the year in which exemption from taxation is sought no later than the date on which the tax receiver or tax commissioner of the county in which the property is located closes the books for the return of taxes.

(b) The application for the level 2 freeport exemption shall provide for a schedule summary, as prescribed by the department, of the inventory of finished goods held by one in the business of making sales of such goods in this state.

(c)(1) For purposes of this subsection, the term 'file properly' shall mean and include the timely filing of the application and complete schedule summary, as prescribed by the department, of the inventory for which exemption is sought on or before the due date specified in subsection (a) of this Code section. Any clerical error, including, but not limited to, a typographical error, scrivener's error, or any unintentional immaterial error or omission in the application shall not be construed as a failure to file properly.

(2) The failure to file properly the application and schedule summary, as prescribed by the department, shall constitute a waiver of the exemption on the part of the person, firm, or corporation failing to make the application for such exemption for that year as follows:

(A) The failure to report any inventory for which such exemption is sought in the schedule summary, as prescribed by the department, provided for in the application shall constitute a waiver of the exemption on the part of the person, firm, or corporation failing to so report for that taxable year in an amount equal to the

difference between fair market value of the inventory as reported and the fair market value finally determined to be applicable to the inventory for which the exemption is sought; and

(B) The failure to file timely such application and schedule summary, as prescribed by the department, shall constitute a waiver of the exemption until the first day of the month following the month such application and schedule summary, as prescribed by the department, are filed properly with the county tax assessor; provided, however, that unless the application and schedule are filed on or before June 1 of such year, the exemption shall be waived for that entire year.

(d) Upon receiving the application required by this Code section, the county board of tax assessors shall determine the eligibility of all types of tangible personal property listed on the application. If any property has been listed which the board believes is not eligible for the exemption, the board shall issue a letter notifying the applicant that all or a portion of the application has been denied. The denial letter shall list the type and total fair market value of all property listed on the application for which the exemption has been approved and the type and total fair market value of all property listed on the application for which the exemption has been denied. The applicant shall have the right to appeal from the denial of the exemption for any property listed, and such appeal shall proceed as provided in Code Section 48-5-311. Except as otherwise provided in subparagraph (c)(2)(A) of this Code section, the county board of assessors shall not send a second letter of notification denying the exemption of all or a portion of such property listed on the application on new grounds that could and should have been discerned at the time the initial denial letter was issued.

(e) If the level 2 freeport exemption has been granted to a taxpayer for a taxable year, the county board of tax assessors shall issue a notice of renewal to the taxpayer for the immediately following taxable year. Such notice of renewal shall be issued not later than January 15 of such immediately following taxable year to facilitate the filing of a timely application and schedule summary, as prescribed by the department, by the taxpayer for such taxable year."

SECTION 4.

Said part is further amended by adding a new Code section to read as follows:

"48-5-48.7.

(a) Any document required to be filed under Code Section 48-5-48.1 or 48-5-48.5 shall be considered properly and timely filed if the postal date on the mailed document, whether metered or stamped, is on or before the date on which the tax receiver or tax commissioner of the county in which the property is located closes the book for the return of taxes.

(b) Any document properly and timely filed pursuant to subsection (a) of this Code section and incorrectly determined to be untimely filed, upon sufficient proof thereof, shall entitle the applicant to a credit against future ad valorem assessments from the county which improperly denied the applicant the exemption under Code Section 48-5-48.1 or 48-5-48.5."

SECTION 5.

This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 6.

All laws and parts of laws in conflict with this Act are repealed.

(b) No local government of the State of Georgia shall be required to release, indemnify, defend, or hold harmless any emergency 9-1-1 system provider from any loss, claim, demand, suit, or other action or any liability whatsoever which arises out of subsection (a) of this Code section, unless the local government agrees or has agreed to assume such obligations."

SECTION 2-11.

Said title is further amended in Code Section 46-5-133, relating to authority of local government to adopt resolution to impose monthly 9-1-1 charge, by adding a new subsection to read as follows:

The authority is authorized to adopt rules and regulations consistent with this subsection to ensure that emergency callers receive public safety services in an efficient, effective, and responsive manner and that responding public safety personnel are provided the necessary information to provide such services."

SECTION 2-12.

Said title is further amended in Code Section 46-5-134, relating to billing of subscribers, liability of subscriber for service charge, taxes on service, establishment of Emergency Telephone System Fund, records, and use of funds, by revising subsections (a), (b), (d), (e), and (i) as follows:

"(a)(1)(A)(i) Unless exempt, the ~~The~~ telephone subscriber of any telephone service ~~may~~ shall be billed for the monthly 9-1-1 charge, if any, imposed with respect to such telephone service by the service supplier. Such 9-1-1 charge ~~may not exceed~~ shall be \$1.50 per month per telephone service provided to the telephone subscriber except as reduced pursuant to paragraph (4) of subsection (d) of this Code section. ~~In the event that any telephone service supplier, due to its normal billing practices, is unable to charge differing amounts set by each local government as the 9-1-1 charge, such telephone service supplier shall collect on behalf of local governments that have authorized a 9-1-1 charge \$1.50 per month per telephone service provided to the telephone subscribers to whom it provides telephone service in every area served by the emergency 9-1-1 system.~~

(ii) In computing the amount due under this subsection, the number of 9-1-1 charges a telephone subscriber shall be assessed shall not exceed the number of simultaneous outbound calls that can be made from voice channels the service supplier has activated and enabled. For telephone service that provides to multiple locations shared simultaneous outbound voice channel capacity configured to and capable of accessing a 9-1-1 system in different states, the monthly 9-1-1 charge shall be assessed only for the portion of such shared voice channel capacity in this state as identified by the service supplier's books and records. In determining the portion of shared capacity in this state, a service supplier may rely on, among other factors, a customer's certification of its allocation of capacity in this state, which may be based on each end user location, the total number of end users, and

the number of end users at each end user location.

(B) All telephone services billed to federal, state, or local governments shall be exempt from the 9-1-1 charge. Each service supplier shall, on behalf of the local government, collect the 9-1-1 charge from those telephone subscribers to whom it provides telephone service in the area served by the emergency 9-1-1 system. As part of its normal billing process, the service supplier shall collect the 9-1-1 charge for each month a telephone service is in service, and it shall list the 9-1-1 charge as a separate entry on each bill. Nothing in this Code section shall be construed to require a service supplier to list the 9-1-1 charge as a surcharge or separate entry on each bill. Service suppliers that do not list the 9-1-1 charge as a separate entry on each bill shall remit the 9-1-1 charge for each telephone subscriber that pays the bill; provided, however, that this information shall be maintained in a form auditors can access. If a service supplier receives a partial payment for a bill from a telephone subscriber, the service supplier shall apply the payment against the amount the telephone subscriber owes the service supplier first.

(C) This paragraph shall not apply to wireless service or prepaid wireless service or the telephone subscribers or service suppliers of such services.

(2)(A) If the governing authority body of a local government operates or contracts for the operation of ~~an emergency 9-1-1 system which~~ a public safety answering point that is capable of providing or provides automatic number identification of a wireless telecommunications connection and the location of the base station or cell site which receives a 9-1-1 call from a wireless telecommunications connection, the subscriber of a wireless telecommunications connection whose ~~billing address~~ place of primary use is within the geographic area that is served by the local government or that would be served by the local government for the purpose of such ~~an emergency 9-1-1 system~~ a public safety answering point may be billed for the monthly wireless enhanced 9-1-1 charge, if any, imposed with respect to that connection by the wireless service supplier. Such wireless enhanced 9-1-1 charge ~~may not exceed the amount of the monthly 9-1-1 charge imposed upon other telephone subscribers pursuant to paragraph (1) of this subsection nor exceed \$1.00~~ shall be \$1.50 per month per wireless telecommunications connection provided to the telephone subscriber except as otherwise provided in paragraph (4) of subsection (d) of this Code section.

(B) If the governing authority body of a local government operates or contracts for the operation of an emergency 9-1-1 system which is capable of providing or provides automatic number identification and automatic location identification of a wireless telecommunications connection, the subscriber of a wireless telecommunications connection whose place of primary use is within the geographic area that is served by the local government or that would be served by the local government for the purpose of such an emergency 9-1-1 system may be billed for the monthly wireless enhanced 9-1-1 charge, if any, imposed with respect to that connection by the wireless service supplier. Such wireless enhanced 9-1-1 charge may not exceed the amount of the monthly 9-1-1 charge imposed upon other

telephone subscribers pursuant to paragraph (1) of this subsection and shall be imposed on a monthly basis for each wireless telecommunications connection provided to the telephone subscriber.

(C) All wireless telecommunications connections billed to federal, state, or local governments shall be exempt from the wireless enhanced 9-1-1 charge. Each wireless service supplier shall, on behalf of the local government, collect the wireless enhanced 9-1-1 charge from those telephone subscribers whose place of primary use is within the geographic area that is served by the local government or that would be served by the local government for the purpose of such an emergency 9-1-1 system. As part of its normal billing process, the wireless service supplier shall collect the wireless enhanced 9-1-1 charge for each month a wireless telecommunications connection is in service, and it ~~shall~~ may list the wireless enhanced 9-1-1 charge as a separate entry on each bill. Nothing in this Code section shall be construed to require a wireless service supplier to list the 9-1-1 charge as a separate entry on each bill. Wireless service suppliers that do not list the 9-1-1 charge as a separate entry on each bill shall remit the 9-1-1 charge for each telephone subscriber that pays the bill; provided, however, that this information shall be maintained in a form auditors can access. If a wireless service supplier receives partial payment for a bill from a telephone subscriber, the wireless service supplier shall apply the payment against the amount the telephone subscriber owes the wireless service supplier first.

(D) Notwithstanding the foregoing, the application of any 9-1-1 service charge with respect to a mobile telecommunications service, as defined in 4 U.S.C. Section 124(7), shall be governed by the provisions of Code Section 48-8-6.

(E) This paragraph shall not apply to prepaid wireless service or the telephone subscribers or service suppliers of such service.

(b) Every telephone subscriber in the area served by the emergency 9-1-1 system shall be liable for the 9-1-1 charges and the wireless enhanced 9-1-1 charges imposed under this Code section until it has been paid to the service supplier. A service supplier shall have no obligation to take any legal action to enforce the collection of the 9-1-1 charge or wireless enhanced 9-1-1 charge. The service supplier shall provide the governing authority within 60 days with the name and address of each subscriber who has refused to pay the 9-1-1 charge or wireless enhanced 9-1-1 charge after such 9-1-1 charge or wireless enhanced 9-1-1 charge has become due. A collection action may be initiated against the subscriber by the authority ~~local government that imposed the charges,~~ and reasonable costs and attorneys' fees associated with that collection action may be awarded to the authority ~~local government collecting the 9-1-1 charge or wireless enhanced 9-1-1 charge."~~

"(d)(1) Each service supplier that collects 9-1-1 charges or wireless enhanced 9-1-1 charges on behalf of the local government is entitled to retain as an administrative fee an amount equal to ~~3~~ 1 percent of the gross 9-1-1 or wireless enhanced 9-1-1 charge receipts to be remitted to the local government; provided, however, that such amount shall not exceed ~~3¢~~ 1¢ for every dollar so remitted. ~~The remaining amount shall be~~

~~due quarterly to the local government and shall be remitted to it no later than 60 days after the close of a calendar quarter.~~

(2) The 9-1-1 charges and the wireless enhanced 9-1-1 charges collected by the service supplier and transmitted to the authority for distribution to local governments pursuant to Code Section 38-3-185 shall, upon being received by a local government, be deposited and accounted for in a separate restricted revenue fund known as the Emergency Telephone System Fund maintained by the local government. The local government may invest the money in the fund in the same manner that other moneys of the local government may be invested and any income earned from such investment shall be deposited into the Emergency Telephone System Fund.

(3) On or before July 1, 2005, any funds that may have been deposited in a separate restricted wireless reserve account required by this Code section prior to such date shall be transferred to the Emergency Telephone System Fund required by paragraph (2) of this subsection.

~~(4) The local government may on an annual basis, and at its expense, audit or cause to be audited the books and records of service suppliers with respect to the collection and remittance of 9-1-1 charges.~~

~~(5) Such monthly 9-1-1 charges and wireless enhanced 9-1-1 charges may be reduced at any time by the governing authority by resolution; provided, however, that said governing authority~~ The governing body of a local government shall be required to reduce such monthly 9-1-1 charge or wireless enhanced 9-1-1 charge at any time the projected revenues from 9-1-1 charges or wireless enhanced 9-1-1 charges will cause the unexpended revenues in the Emergency Telephone System Fund at the end of the fiscal year to exceed by one and one-half times the unexpended revenues in such fund at the end of the immediately preceding fiscal year or at any time the unexpended revenues in such fund at the end of the fiscal year exceed by one and one-half times the unexpended revenues in such fund at the end of the immediately preceding fiscal year. Such reduction in the 9-1-1 charge or wireless enhanced 9-1-1 charge shall be in an amount which will avert the accumulation of revenues in such fund at the end of the fiscal year which will exceed by one and one-half times the amount of revenues in the fund at the end of the immediately preceding fiscal year.

(e)(1) A ~~wireless~~ service supplier may recover its costs expended on the implementation and provision of ~~wireless enhanced~~ 9-1-1 services to subscribers ~~in an amount not to exceed 30¢ of each 9-1-1 charge collected from a place of primary use that is within the geographic area that is served by the local government or would be served by the local government for the purpose of such emergency 9-1-1 system; provided, however, that such amount may be increased to 45¢ upon implementation of step two of the state plan governing 9-1-1 enhanced communications as provided in subsection (g) of this Code section. Such cost recovery amount shall be based on the actual cost incurred by the wireless service supplier in providing wireless enhanced 9-1-1 services~~ by imposing a cost recovery fee not to exceed 45¢ per month or including such costs in existing cost recovery or regulatory recovery fees billed to the subscriber. In no event shall a service supplier deduct any amounts for cost recovery

or otherwise from the charges to be remitted to the authority pursuant to Code Section 38-3-185 or 46-5-134.2.

(2) A wireless service supplier shall not be authorized to recover any costs under paragraph (1) of this subsection with respect to any prepaid wireless services."

"(i) The service supplier shall maintain records of the amount of the 9-1-1 charges and wireless enhanced 9-1-1 charges collected for a period of at least three years from the date of collection. ~~The local government may, at its expense, require an annual audit of the service supplier's books and records with respect to the collection and remittance of the 9-1-1 charges and wireless enhanced 9-1-1 charges.~~"

SECTION 2-13.

Said title is further amended by revising Code Section 46-5-134.1, relating to counties where the governing authorities of more than one local government have adopted a resolution to impose an enhanced 9-1-1 charge, as follows:

"46-5-134.1.

(a) This Code section shall apply in counties where the governing ~~authorities~~ bodies of more than one local government have adopted a resolution to impose a 9-1-1 charge in accordance with the provisions of subsection (a) of Code Section 46-5-133 and notwithstanding any contrary provision of Code Section 46-5-133 or 46-5-134.

(b) A wireless service supplier may certify to any of the governing ~~authorities~~ bodies described in subsection (a) of this Code section that the wireless service supplier is unable to determine whether the billing addresses of its subscribers are within the geographic area that is served by such local government. Upon such certification, the wireless service supplier shall be authorized to collect the 9-1-1 charge for wireless enhanced 9-1-1 services from any of its subscribers whose billing address is within the county and is within an area that is as close as reasonably possible to the geographic area that is served by such local government. The wireless service supplier shall notify such subscribers that if such subscriber's billing address is not within the geographic area served by such local government, such subscriber is not obligated to pay the 9-1-1 charge for wireless enhanced 9-1-1 service.

(c) Unless otherwise provided in an agreement among the governing ~~authorities~~ bodies described in subsection (a) of this Code section, the charges collected by a wireless service supplier pursuant to this Code section shall be remitted to such governing ~~authorities~~ bodies based upon the number of calls from wireless telecommunications connections that each such individual local government receives and counts relative to the total number of calls from wireless telecommunications connections that are received and counted by all of such local governments.

(d) The ~~authority~~ powers granted to a wireless service supplier pursuant to this Code section shall terminate:

(1) On the date that the wireless service supplier certifies to a governing ~~authority~~ body of a local government described in subsection (a) of this Code section that the wireless service supplier is able to determine whether the billing addresses of its subscribers are within the geographic area that is served by such governing ~~authority~~

body; or

(2) On the date which is 180 days from the date that any of its subscribers were first billed under this Code section, whichever is earlier.

Upon termination of such authority powers, the wireless service supplier shall collect the 9-1-1 charge for wireless enhanced 9-1-1 service as provided in Code Section 46-5-134."

SECTION 2-14.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 7 of Title 44 of the Official Code of Georgia Annotated, relating to landlord and tenant, is amended by adding a new article to read as follows:

"ARTICLE 6

44-7-110.

This article shall be known and may be cited as the 'Abandoned Mobile Home Act.'

44-7-111.

The General Assembly finds that abandoned mobile homes are a nuisance that cause blight and depress property values. This article is intended to provide local governing authorities with the authority to appoint an agent to determine the condition of mobile homes in order for landowners to remove or restore abandoned mobile homes left on their property. It is the further purpose of this article to provide landowners with the guidance necessary to efficiently and properly identify and dispose of abandoned mobile homes in this state while protecting the rights of any owner, lienholder, or other interested parties by performing a due diligence search, notification, and hearing process.

44-7-112.

As used in this article, the term:

(1) 'Abandoned mobile home' means a mobile home that has been left vacant by all tenants for at least 90 days without notice to the landowner and when there is evidence of one or more of the following:

(A) A tenant's failure to pay rent or fees for 90 days;

(B) Removal of most or all personal belongings from such mobile home;

(C) Cancellation of insurance for such mobile home;

(D) Termination of utility services to such mobile home; or

(E) A risk to public health, safety, welfare, or the environment due to such mobile home.

(2) 'Derelict' means an abandoned mobile home which is in need of extensive repair and is uninhabitable and unsafe due to the presence of one or more of the following conditions:

(A) Inadequate provisions for ventilation, light, air, or sanitation; or

(B) Damage caused by fire, flood, hurricane, tornado, earthquake, storm, or other natural catastrophe.

(3) 'Dispose' means to destroy, recycle, or repurpose for use not as living quarters.

(4) 'Intact' means an abandoned mobile home which is in livable condition under applicable state law and the building and health codes of a local governing authority.

(5) 'Landowner' means the owner of real property upon which a mobile home is located.

(6) 'Local government agent' means a person appointed by a local governing authority who is qualified to inspect an abandoned mobile home by demonstrating that he or she is qualified to determine if the abandoned mobile home is derelict or intact.

(7) 'Manufactured home' shall have the same meaning as set forth in Code Section 8-2-160.

(8) 'Mobile home' shall have the same meaning as set forth in Code Section 8-2-160 and shall include a manufactured home.

(9) 'Responsible party' means any person with an ownership interest in an abandoned mobile home as evidenced by the last payor of record as identified by a search of deeds or instruments of title, and shall include any holder of a recorded lien or the holder of any type of secured interest in such abandoned mobile home or a local government with a claim for unpaid taxes.

44-7-113.

(a) At the request of a landowner, a local government agent shall be authorized to assess the condition of such abandoned mobile home. Upon inspection, the local government agent shall classify such abandoned mobile home as either intact or derelict and provide documentation citing such determination to the requesting landowner within 20 days of such request.

(b) If a local government agent determines an abandoned mobile home to be intact, a landowner shall have a right to file a lien on such abandoned mobile home in the superior court for the circuit where such abandoned mobile home is located and in the amount of any unpaid rent as of the date on which such lien is filed and accrued fees. Such lien may be foreclosed pursuant to the procedure set forth in Code Section 44-7-115.

(c) If a local government agent determines an abandoned mobile home to be derelict, such agent shall post notice of such determination in a conspicuous location on such abandoned mobile home. Such notice shall include a date of issuance and shall be in substantially the following form:

'You are hereby notified that this mobile home (describe make, model, and color, if known) located at (address or description of location) has been deemed abandoned and derelict. You are entitled to a hearing in magistrate court to contest this determination. If you fail to request a hearing within 90 days from the date that appears on this notice or if it is confirmed by a court that this abandoned mobile home is derelict, the owner of the land upon which this mobile home sits shall be entitled to dispose of the mobile home.'

(d)(1) Upon receipt of a determination that an abandoned mobile home is derelict by a local government agent, and on the same date the notice required by subsection (c) of this Code section is posted, a landowner shall send notice, which notice shall include a listing of all responsible parties and last known addresses, to all responsible parties by registered or certified mail or statutory overnight delivery. Such notice shall contain a description of the abandoned mobile home, including the make of the mobile home, the location of such mobile home, and the fact that such abandoned mobile home has been deemed derelict. Such notice shall include a statement that such responsible party is entitled to request a hearing in magistrate court within 90 days from the date that appears on such notice to contest the determination that such abandoned mobile home is derelict and that failure to request such hearing within 90 days of receipt of such notice shall entitle such landowner to dispose of the derelict mobile home.

(2) If no responsible party can be ascertained, the landowner shall place an advertisement in a newspaper of general circulation in the county where such mobile home is located; if there is no newspaper in such county, shall post such advertisement at the county courthouse in such place where other public notices are posted. Such advertisement shall run in the newspaper once a week for two consecutive weeks or shall remain posted at the courthouse for two consecutive weeks. The advertisement shall contain a description of the mobile home, including the make of the mobile home, the location of such mobile home, and the fact that such mobile home has been deemed derelict. Such advertisement shall include a statement that such responsible party is entitled to request a hearing in magistrate court by a date certain and the advertisement shall state the specific end date to contest the determination that such abandoned mobile home is derelict and that failure to request such hearing by such date shall entitle such landowner to dispose of the derelict mobile home.

(e) Neither the local governing authority nor the local government agent shall bear any liability with respect to any lawful actions taken to make a determination that a mobile home is abandoned or derelict.

44-7-114.

(a) Within the 90 day period described in Code Section 44-7-113, a responsible party, or after the expiration of such 90 day period, a landowner shall petition a magistrate court to hold a hearing to confirm or deny the decision of a local government agent that an abandoned mobile home is derelict. If a petition is filed pursuant to this Code

section, a hearing on such issue shall be held within ten days of the filing of such petition.

(b) The court shall hear evidence of the condition of the abandoned mobile home, which may include introduction of a copy of the determination from the local government agent, and whether the notice provisions set forth have been met.

(c) If, after a full hearing, the court determines the abandoned mobile home to be derelict, the court shall issue an order finding such mobile home to be derelict and authorizing the landowner to dispose of such derelict mobile home. A landowner issued such order shall dispose of such derelict mobile home within 180 days of the date of such order. Within 30 days of disposal of a derelict mobile home, the landowner shall notify the Department of Revenue and local tag agent of such disposal and such department shall cancel the certificate of title for such derelict mobile home, if such certificate exists.

44-7-115.

Notwithstanding any conflicting provisions in Code Section 44-14-349, all liens acquired upon an abandoned mobile home or intact mobile home under Code Section 44-7-113 shall be foreclosed as follows:

(1) Any proceeding to foreclose a lien on an abandoned mobile home determined to be intact by a local government agent shall be instituted in the magistrate court of the county where such mobile home is located within one year from the time the lien is recorded;

(2) The person desiring to foreclose a lien on an abandoned mobile home determined to be intact by a local government agent shall, by certified or registered mail or statutory overnight delivery, make a demand upon the responsible party in the amount of the lien and for the payment of rent and fees accrued after the filing of the lien; provided that the amount of such rent shall not exceed \$3.00 per day. If the responsible party cannot be located, notice shall be published in a newspaper of general circulation for two consecutive weeks;

(3)(A) If, within 30 days of delivery to the appropriate address of the written demand required by paragraph (2) of this Code section or within 30 days after the last publication in a newspaper, the responsible party fails to respond to such demand or refuses to pay, or if the responsible party cannot be ascertained, the landowner may move to foreclose such lien. The person asserting such lien may move to foreclose by making an affidavit to a magistrate court showing all facts necessary to constitute such lien and the amount claimed to be due. Such affidavit shall aver that the notice requirements of Code Section 44-7-113 have been complied with, and such affidavit shall also aver that a demand for payment has been made and refused or that the identity of the responsible party cannot be ascertained. The landowner shall verify the statement by oath or affirmation with a signature affixed thereto.

(B) In addition to the filing fees required by Code Section 15-10-80, the fee for filing such affidavit shall be \$5.00 per abandoned mobile home upon which a lien is

asserted;

(4)(A) Upon the filing of such affidavit, the person asserting such lien shall give the clerk or judge of the court the address, if known, of all responsible parties and the clerk or judge of the court shall serve notice informing such responsible parties of a right to a hearing to determine if reasonable cause exists to believe that a valid debt exists; that such hearing shall be petitioned for within 30 days of receipt of such notice; and that, if no petition for such hearing is filed within the time allowed, the lien shall conclusively be deemed a valid one, foreclosure thereof allowed, and a public sale pursuant to Code Section 44-7-116 shall be authorized.

(B) Any notice required by this paragraph shall be by certified mail or statutory overnight delivery or, if the responsible party is unknown, by posting such notice at the county courthouse in such place where other public notices are posted;

(5) If a petition for a hearing is filed within the time allowed pursuant to paragraph (4) of this Code section, the magistrate court shall set such a hearing within ten days of filing of the petition. Upon the filing of such petition by a party defendant, neither the prosecuting lienholder nor the court may sell the mobile home. If, at the hearing, the magistrate court determines there is reasonable cause to believe that a valid debt exists, then the person asserting the lien shall retain possession of the mobile home or the court shall obtain possession of the mobile home, as ordered by the court;

(6) If no petition for a hearing is filed, or if, after a full hearing, the magistrate court determines that a valid debt exists, the court shall authorize foreclosure upon and sale of the mobile home subject to the lien to satisfy the debt if such debt is not otherwise immediately paid. The holder of a security interest in or a lien on the mobile home, other than the holder of a lien created by Code Section 44-7-113, shall have the right, in the order of priority of such security interest or lien, to pay the debt and court costs no later than 15 days after a magistrate court's order to authorize the foreclosure. If the holder of a security interest or lien does so pay the debt and court costs, such person shall have the right to possession of the mobile home, and that person's security interest in or lien on such mobile home shall be increased by the amount so paid. A magistrate court order shall be issued to this effect, and in this instance there shall not be a sale of the mobile home. If the debt owed is not timely paid by the holder of a security interest or an appeal of the magistrate court decision has not been timely filed pursuant to paragraph (8) of this Code section, the court shall issue an order authorizing the sale of such mobile home;

(7) If the magistrate court finds the actions of the person asserting the lien in retaining possession of the mobile home were not taken in good faith, then the court, in its discretion, may award damages to the mobile home owner and to any party which has been deprived of the rightful use of the mobile home; and

(8) Any order issued by the magistrate court shall be appealable pursuant to Article 2 of Chapter 3 of Title 5, provided that any such appeal shall be filed within seven days of the date such order was entered and provided, further, that, after the notice of appeal is filed with the clerk of the trial court, the clerk shall immediately notify the magistrate court of the notice of appeal. If the order of the magistrate court is against

the responsible party and the responsible party appeals such order, the responsible party shall be required to pay into the registry of the court all sums found by the magistrate court to be due in order to remain in possession of the mobile home. The responsible party shall also be required to pay all future rent into the registry of the court as it becomes due in such amounts specified in paragraph (2) of this Code section until the issue has been finally determined on appeal.

44-7-116.

(a)(1) As used in this subsection, the term 'public sale' means a sale:

(A) Held at a place reasonably available to persons who might desire to attend and submit bids;

(B) At which those attending shall be given the opportunity to bid on a competitive basis;

(C) At which the sale, if made, shall be made to the highest and best bidder; and

(D) Except as otherwise provided in Title 11 for advertising or dispensing with the advertising of public sales, of which notice is given by advertisement once a week for two weeks in the newspaper in which the sheriff's advertisements are published in the county where the sale is to be held, and which notice shall state the day and hour, between 10:00 A.M. and 4:00 P.M., and the place of sale and shall briefly identify the goods to be sold.

(2) Upon order of the magistrate court, the person holding the lien on the abandoned mobile home shall be authorized to sell such mobile home at public sale.

(b) After satisfaction of the lien, the person selling such mobile home shall, not later than 30 days after the date of such sale, provide the clerk of the court with a copy of the bill of sale as provided to the purchaser and remit the remaining proceeds of such sale, if any, to the clerk of the court. Any person who fails to comply with the requirements of this subsection shall be guilty of a misdemeanor.

44-7-117.

The clerk of the magistrate court shall retain the remaining balance of the proceeds of a sale under Code Section 44-7-116, after satisfaction of liens, security interests, and debts, for a period of 12 months; and, if no claim has been filed against such proceeds by the owner of the abandoned mobile home or any interested party, then the clerk shall pay such remaining balance into the general fund of the municipality or county that employs the local government agent that made the determination that such mobile home was intact pursuant to Code Section 44-7-113.

44-7-118.

The purchaser at a sale as authorized by this article shall receive a certified copy of the court order authorizing such sale. Any such purchaser may obtain a certificate of title to such mobile home by filing the required application, paying the required fees, and filing a certified copy of the order of the court with the Department of Revenue. The Department of Revenue shall then issue a certificate of title, which shall be free and clear of all liens and encumbrances.

44-7-119.

Nothing in this article shall be construed to require a local governing authority to appoint a local government agent."

SECTION 2.

Code Section 15-10-2 of the Official Code of Georgia Annotated, relating to general jurisdiction of magistrate courts, is amended by revising paragraphs (14) and (15) and adding a new paragraph to read as follows:

- "(14) The trial and sentencing of misdemeanor violations of other Code sections as provided by Article 13 of this chapter; ~~and~~
- (15) The foreclosure of liens on animals as established in Title 4; and
- (16) The foreclosure of liens on abandoned mobile homes as established in Article 6 of Chapter 7 of Title 44."

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 2 of Chapter 5 of Title 48 of the Official Code of Georgia Annotated, relating to property tax exemptions and deferral, is amended by adding a new Code section to read as follows:

"48-5-44.1.

(a) For purposes of this Code section, the term:

(1) 'Ad valorem taxes' means all ad valorem taxes for municipal purposes levied by, for, or on behalf of any municipality in this state, but excluding any ad valorem taxes to pay interest on and to retire municipal bonded indebtedness.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

- (a) As used in this Act, the term:
- (1) "Ad valorem taxes for educational purposes" means all ad valorem taxes for educational purposes levied by, for, or on behalf of the City of Atlanta independent school district, including, but not limited to, any ad valorem taxes to pay interest on and to retire independent school district bonded indebtedness.

If the total exceeds \$10 million in the aggregate, such tax commissioner shall calculate the amount by which the total exceeds \$10 million and shall reduce the amount of homestead exemptions claimed by such senior citizens in an amount equal to such difference so that the total amount of homestead exemptions being claimed under this Act shall equal \$10 million. Such reduction shall be applied on proportionate basis.
- (c) A person shall not receive the homestead exemption granted by subsection (b) of this section unless such person or person's agent files an application with the tax commissioner of Fulton County, giving the person's age and such additional information relative to receiving such exemption as will enable the tax commissioner of Fulton County to make a determination regarding the initial and continuing eligibility of such person for such exemption. The tax commissioner of Fulton County shall provide application forms for this purpose.
- (d) The exemption shall be claimed and returned as provided in Code Section 48-5-50.1 of the O.C.G.A., as amended. The exemption shall be automatically renewed from year to year as long as the person granted the homestead exemption under subsection (b) of this section occupies the residence as a homestead. After a person has filed the proper application as provided in subsection (c) of this section, it shall not be necessary to make

application thereafter for any year, and the exemption shall continue to be allowed to such person. It shall be the duty of any person granted the homestead exemption under subsection (b) of this section to notify the tax commissioner of Fulton County in the event that person for any reason becomes ineligible for that exemption.

(e) The exemption granted by subsection (b) of this section shall not apply to or affect any state ad valorem taxes, municipal ad valorem taxes for municipal purposes, county ad valorem taxes for county purposes, or county school district ad valorem taxes for educational purposes. (1) 'Capacity' means the maximum number of persons who may be reasonably expected to be present in any building or on any floor thereof at a given time according to the use which is made of such building. The ~~Commissioner~~ commissioner shall determine and by rule declare the formula for determining capacity for each of the uses described in this Code section.

(2) 'Historic building or structure' means any individual building or any building which contributes to the historic character of a historic district, so designated by the state historic preservation officer pursuant to rules and regulations adopted by the Board of Natural Resources, or as so designated pursuant to the provisions of Article 2 of Chapter 10 of Title 44, the 'Georgia Historic Preservation Act.'

(3) 'Landmark museum building' means a historic building or structure used as an exhibit of the building or structure itself which exhibits a high degree of architectural integrity and which is open to the public not fewer than 12 days per year; however, additional uses, original or ancillary, to the use as a museum shall be permitted within the same building subject to the provisions of paragraph (3) of subsection (b) of this Code section. Landmark museum buildings must be so designated by the state historic preservation officer pursuant to rules and regulations adopted by the Board of Natural Resources.

(b)(1) Certain buildings and structures, because of construction or use, may constitute a special hazard to property or to the life and safety of persons on account of fire or panic from fear of fire. Buildings constructed or used in the following manner present such a special hazard:

(A) Buildings or structures more than three stories in height; provided, however, that nothing in this Code section shall apply to any individually owned residential unit within any such building;

(B) Any building three or more stories in height and used as a residence by three or

more families, with individual cooking and bathroom facilities for each family; provided, however, that nothing in this Code section shall apply to any individually owned residential unit within any such building;

(C) Any building in which there are more than 15 sleeping accommodations for hire, with or without meals but without individual cooking facilities, whether designated as a hotel, motel, inn, club, dormitory, rooming or boarding house, or by any other name;

(D) Any building or group of buildings which contain schools and academies for any combination of grades one through 12 having more than 15 children or students in attendance at any given time and all state funded kindergarten programs;

(E) Hospitals, health care centers or facilities, mental health institutions, orphanages, nursing homes, convalescent homes, old age homes, assisted living facilities or communities, jails, prisons, reformatories, and all administrative, public assembly, and academic buildings of colleges, universities, and vocational-technical schools. As used in this subparagraph, the terms 'nursing homes,' 'convalescent homes,' and 'old age homes' mean any building used for the lodging, personal care, or nursing care on a 24 hour basis of four or more invalids, convalescents, or elderly persons who are not members of the same family;

(F) Racetracks, stadiums, and grandstands;

(G) Theaters, auditoriums, restaurants, bars, lounges, nightclubs, dance halls, recreation halls, and other places of public assembly having an occupant load of 300 or more persons, except that the occupant load shall be 100 or more persons in those buildings where alcoholic beverages are served;

(G.1) Churches having an occupant load of 500 or more persons in a common area or having an occupant load greater than 1,000 persons based on total occupant load of the building or structure;

(H) Department stores and retail mercantile establishments having a gross floor area of 25,000 square feet on any one floor or having three or more floors that are open to the public. For purposes of this subparagraph, shopping centers and malls shall be assessed upon the basis of the entire area covered by the same roof or sharing common walls; provided, however, that nothing in this Code section shall apply to single-story malls or shopping centers subdivided into areas of less than 25,000 square feet by a wall or walls with a two-hour fire resistance rating and where there are unobstructed exit doors in the front and rear of every such individual occupancy which open directly to the outside;

(I) Child care learning centers, as such term is defined in Code Section 20-1A-2. Fire safety standards adopted by rules of the ~~Commissioner~~ commissioner pursuant to Code Section 25-2-4 which are applicable to child care learning centers shall not require staff-to-child ratios; and

(J) Personal care homes ~~and assisted living communities~~ required to be licensed as such by the Department of Community Health and having at least seven beds for nonfamily adults, and the ~~Commissioner~~ commissioner shall, pursuant to Code Section 25-2-4, by rule adopt state minimum fire safety standards for those homes,

and any structure constructed as or converted to a personal care home on or after April 15, 1986, shall be deemed to be a proposed building pursuant to subsection (d) of Code Section 25-2-14 and that structure may be required to be furnished with a sprinkler system meeting the standards established by the ~~Commissioner~~ commissioner if he or she deems this necessary for proper fire safety.

(2) Any building or structure which is used exclusively for agricultural purposes and which is located in an unincorporated area shall be exempt from the classification set forth in paragraph (1) of this subsection.

(3)(A) The provisions of this paragraph relating to landmark museum buildings shall apply only to those portions of such buildings which meet all the requirements of a landmark museum building, except as otherwise provided in subparagraphs (B) and (C) of this paragraph. Subparagraphs (B) and (C) of this paragraph shall, unless otherwise provided in such subparagraphs, preempt all state laws, regulations, or rules governing reconstruction, alteration, repair, or maintenance of landmark museum buildings. Local governing authorities may recognize the designation of landmark museum buildings by ordinance and authorize the local enforcement authority to incorporate the provisions of subparagraphs (B) and (C) of this paragraph into their local building and fire codes. Subparagraphs (D) and (E) of this paragraph shall apply to other historic buildings or structures.

(B) A landmark museum building shall be subject to the following provisions:

(i) Repairs, maintenance, and restoration shall be allowed without conformity to any state building or fire safety related code, standard, rule, or regulation, provided that the building is brought into and remains in full compliance with this paragraph;

(ii) In the case of fire or other casualty to a landmark museum building, it may be rebuilt, in total or in part, using such techniques and materials as are necessary to restore it to the condition prior to the fire or casualty and use as a totally preserved building; or

(iii) If a historic building or structure, as a result of proposed work or changes in use, would become eligible and would be so certified as a landmark museum building, and the state historic preservation officer so certifies and such is submitted to the state fire and building code official with the construction or building permit application, then the work may proceed under the provisions of this paragraph.

(C) All landmark museum buildings shall comply with the following requirements:

(i) Every landmark museum building shall have portable fire extinguishers as deemed appropriate by the state or local fire authority having jurisdiction based on the applicable state or local fire safety codes or regulations;

(ii) All landmark museum buildings which contain residential units shall have electrically powered smoke or products of combustion ~~detectors~~ alarms installed within each living unit between living and sleeping areas. Such ~~detectors~~ alarms shall be continuously powered by the building's electrical system. When activated, the ~~detector~~ alarm shall initiate ~~an alarm~~ a warning sound which is

audible in sleeping rooms of that living unit. These unit ~~detectors~~ alarms shall be required in addition to any other protective system that may be installed in the building;

(iii) For all landmark museum buildings, except those protected by a total automatic fire suppression system and one and two family dwellings, approved automatic fire warning protection shall be provided as follows: install at least one listed smoke or products of combustion detector for every 1,200 square feet of floor area per floor or story. In addition, all lobbies, common corridors, hallways, and ways of exit access shall be provided with listed smoke or products of combustion detectors not more than 30 feet apart. Detectors shall be so connected as to sound an alarm audible throughout the structure or building. With respect to buildings which are totally protected by an automatic fire suppression system, activation of the sprinkler system shall sound an alarm throughout the structure or building;

(iv) Smoke or products of combustion detectors or, where otherwise specified, smoke alarms shall be listed by a nationally recognized testing laboratory;

(v) All multistory landmark museum buildings, except one and two family dwellings, with occupancy above or below the street or grade level shall have manual fire alarm pull stations in the natural path of egress. The activation of a manual pull station shall cause the building fire warning system to sound;

(vi) Approved exit signs shall be located where designated by the local or state authority having jurisdiction in accordance with the applicable state or local code, standard, rule, or regulation;

(vii) Except for one and two family dwellings, every landmark museum building occupied after daylight, or which has occupied areas subject to being totally darkened during daylight hours due to a power failure or failure of the electrical system, shall be equipped with approved emergency lighting meeting the provisions of the applicable state or local code, standard, rule, or regulation;

(viii) Occupant loading of landmark museum buildings or structures shall be limited by either the actual structural floor load capacity or by the limitations of means of egress or by a combination of factors. Actual floor load capacity shall be determined by a Georgia registered professional engineer. Said floor load shall be posted at a conspicuous location. The building owner shall submit evidence of this certification and related computations to the enforcement authority having jurisdiction, upon request. Where one or more floors of a landmark museum building have only one means of egress, the occupant load shall be computed and occupancy limited as determined by the state or local fire marshal; and

(ix) The electrical, heating, and mechanical systems of landmark museum buildings shall be inspected and any conditions that create a threat of fire or a threat to life shall be corrected in accordance with applicable standards to the extent deemed necessary by the state or local authority having jurisdiction.

(D) Historic buildings not classified as landmark museum buildings shall meet the requirements of applicable state or local building and fire safety laws, ordinances,

codes, standards, rules, or regulations as they pertain to existing buildings. If a historic building or structure is damaged from fire or other casualty, it may be restored to the condition prior to the fire or casualty using techniques and methods consistent with its original construction, or it shall meet the requirements for new construction of the applicable state or local codes, standards, rules, or regulations, provided that these requirements do not significantly compromise the features for which the building was considered historically significant.

(E) As to any buildings or structures in the State of Georgia which meet the criteria of paragraph (1) of subsection (b) of this Code section and thus fall under the jurisdiction of the ~~Safety Fire Commissioner~~ commissioner and which also have been designated as historically significant by the state historic preservation officer, the appropriate enforcement official, in granting or denying a variance pursuant to subsection (e) of Code Section 25-2-12, shall consider the intent of this chapter, with special attention to paragraph (3) of this subsection, Article 3 of Chapter 2 of Title 8, 'The Uniform Act for the Application of Building and Fire Related Codes to Existing Buildings,' Article 2 of Chapter 10 of Title 44, the 'Georgia Historic Preservation Act,' and the Secretary of Interior's Standards for Preservation Projects.

(4) Nothing in this subsection shall be construed as exempting any building, structure, facility, or premises from ordinances enacted by any municipal governing authority in any incorporated area or any county governing authority in any unincorporated area, except to the extent stated in paragraph (3) of this subsection relative to landmark museum buildings or historic buildings or structures.

(c) Every person who owns or controls the use of any building, part of a building, or structure described in paragraph (1) of subsection (b) of this Code section, which, because of floor area, height, location, use or intended use as a gathering place for large groups, or use or intended use by or for the aged, the ill, the incompetent, or the imprisoned, constitutes a special hazard to property or to the life and safety of persons on account of fire or panic from fear of fire, must so construct, equip, maintain, and use such building or structure as to afford every reasonable and practical precaution and protection against injury from such hazards. No person who owns or controls the use or occupancy of such a building or structure shall permit the use of the premises so controlled for any such specially hazardous use unless he or she has provided such precautions against damage to property or injury to persons by these hazards as are found and determined by the ~~Commissioner~~ commissioner in the manner described in subsection (d) of this Code section to be reasonable and practical.

(d) The ~~Commissioner~~ commissioner is directed to investigate and examine construction and engineering techniques; properties of construction materials, fixtures, facilities, and appliances used in, upon, or in connection with buildings and structures; and fire prevention and protective techniques, including, but not limited to, the codes and standards adopted, recommended, or issued from time to time by the National Fire Protection Association (National Fire Code and National Electric Code), the American Insurance Association (National Building Code), the successor to the National Board of Fire Underwriters, the American Standards Association, and the ~~Standard Building~~

~~Code Congress (Southern Standard Building Code)~~ International Code Council (the International Building Code, the International Fire Code, the International Mechanical Code, and the International Fuel Gas Code). Based upon such investigation, the ~~Commissioner~~ commissioner is authorized to determine and by rule to provide what reasonable and practical protection must be afforded property and persons with respect to: exits; fire walls and internal partitions adequate to resist fire and to retard the spread of fire, smoke, heat, and gases; electrical wiring, electrical appliances, and electrical installations; safety and protective devices, including, but not limited to, fire escapes, fire prevention equipment, sprinkler systems, fire extinguishers, panic hardware, fire alarm and detection systems, exit lights, emergency auxiliary lights, and other similar safety devices; flameproofing; motion picture equipment and projection booths; and similar facilities; provided, however, that any building described in subparagraph (b)(1)(C) of this Code section shall be required to have a smoke or products of combustion detector or, where otherwise specified, smoke alarm listed by a nationally recognized testing laboratory; and, regardless of the manufacturer's instructions, such detectors in these buildings shall be located in all interior corridors, halls, and basements no more than 30 feet apart or more than 15 feet from any wall; where there are no interior halls or corridors, the ~~detectors~~ single station smoke alarms shall be installed in each sleeping room. All detection systems permitted after April 1, 1992, shall be powered from the building's electrical system and all detection systems required by this chapter, permitted after April 1, 1992, shall have a one and one-half hour emergency power supply source. Required corridor smoke detector systems shall be electrically interconnected to the fire alarm, if a fire alarm is required. If a fire alarm is not required, the detectors at a minimum shall be approved single station ~~detectors~~ smoke alarms powered from the building electrical service interconnected to each other.

(e) All rules and regulations promulgated before April 1, 1968, by ~~predecessor authority, the Commissioner~~ commissioner, or the state fire marshal and the minimum fire safety standards adopted therein shall remain in full force and effect where applicable until such time as they are amended by the appropriate authority.

(f) The municipal governing authority in any incorporated area or the county governing authority in any unincorporated area of the state shall have the authority to enact such ordinances as it deems necessary to perform fire safety inspections and related activities for those buildings and structures not covered in this Code section.

(g) Notwithstanding any other provision of law or any local ordinance to the contrary, in the event of a conflict between any code or standard of the National Fire Protection Association (National Fire Code and National Electric Code) and of the ~~Standard Building Code Congress (Southern Standard Building Code)~~ International Code Council (the International Building Code, the International Fire Code, the International Mechanical Code, and the International Fuel Gas Code), the code or standard of the National Fire Protection Association (National Fire Code and National Electric Code) shall prevail. The order of precedence established by this subsection shall apply to all buildings and structures whether or not such buildings and structures are covered under this Code section.

25-2-14.

(a)(1) Plans and specifications for all proposed buildings which come under classification in paragraph (1) of subsection (b) of Code Section 25-2-13 and which come under the jurisdiction of the ~~office of the Commissioner~~ department pursuant to Code Section 25-2-12 shall be submitted to and receive approval by either the state fire marshal, the proper local fire marshal, or state inspector before any state, municipal, or county building permit may be issued or construction started. All such plans and specifications submitted as required by this subsection shall be accompanied by a fee in the amount provided in Code Section 25-2-4.1 and shall bear the seal and Georgia registration number of the drafting architect or engineer or shall otherwise have the approval of the ~~Commissioner~~ commissioner.

(2)(A) If the state fire marshal, the proper local fire marshal, state inspector, or designated code official cannot provide plan review within 30 business days of receiving a written application for permitting in accordance with the code official's plan submittal process, then, in lieu of plan review by personnel employed by such governing authority, any person, firm, or corporation engaged in a construction project which requires plan review, regardless if the plan review is required by subsection (a) of this Code section or by local county or municipal ordinance, shall have the option of retaining, at its own expense, a private professional provider to provide the required plan review. As used in this paragraph, the term 'private professional provider' means a professional engineer who holds a certificate of registration issued under Chapter 15 of Title 43 or a professional architect who holds a certificate of registration issued under Chapter 4 of Title 43, who is not an employee of or otherwise affiliated with or financially interested in the person, firm, or corporation engaged in the construction project to be reviewed.

(B) The state fire marshal, the proper local fire marshal, state inspector, or designated code official shall advise the permit applicant at the time the complete submittal application for a permit in accordance with the code official's plan submittal process is received that the state fire marshal, the proper local fire marshal, state inspector, or designated code official intends to complete the required plan review within the time prescribed by this paragraph or that the applicant may immediately secure the services of a private professional provider to complete the required plan review pursuant to this subsection. The plan submittal process shall include those procedures and approvals required by the local jurisdiction before plan review can take place. If the state fire marshal, the proper local fire marshal, state inspector, or designated code official states its intent to complete the required plan review within the time prescribed by this paragraph, the applicant shall not be authorized to use the services of a private professional provider as provided in this subsection. The permit applicant and the state fire marshal, the proper local fire marshal, state inspector, or designated code official may agree by mutual consent to extend the time period prescribed by this paragraph for plan review if the characteristics of the project warrant such an extension. However, if the state fire marshal, the proper local fire marshal, state inspector, or designated code official

states its intent to complete the required plan review within the time prescribed by this paragraph, or any extension thereof mutually agreed to by the applicant and the state fire marshal, the proper local fire marshal, state inspector, or designated code official and does not permit the applicant to use the services of a private professional provider and the state fire marshal, the proper local fire marshal, state inspector, or designated code official fails to complete such plan review in the time prescribed by this paragraph, or any extension thereof mutually agreed to by the applicant and the state fire marshal, the proper local fire marshal, state inspector, or designated code official, the state fire marshal, the proper local fire marshal, state inspector, or designated code official shall issue the applicant a project initiation permit to allow the applicant to begin work on the project, provided that portion of the initial phase of work is compliant with applicable codes, laws, and rules. If a full permit is not issued for the portion requested for permitting, then the state fire marshal, the proper local fire marshal, state inspector, or designated code official shall have an additional 20 business days to complete the review and issue the full permit. If the plans submitted for permitting are denied for any deficiency, the time frames and process for resubmittal shall be governed by divisions (2)(H)(iii) through (2)(H)(v) of this subsection.

(C) Any plan review or inspection conducted by a private professional provider shall be no less extensive than plan reviews or inspections conducted by state, county, or municipal personnel responsible for review of plans for compliance with the state's minimum fire safety standards and, where applicable, the state's minimum accessibility standards.

(D) The person, firm, or corporation retaining a private professional provider to conduct a plan review shall be required to pay to the state fire marshal, the proper local fire marshal, state inspector, or designated code official which requires the plan review the same regulatory fees and charges which would have been required had the plan review been conducted by the state fire marshal, the proper local fire marshal, state inspector, or designated code official.

(E) A private professional provider performing plan reviews under this subsection shall review construction plans to determine compliance with the state's minimum fire safety standards in effect which were adopted pursuant to this chapter and, where applicable, the state's minimum accessibility standards adopted pursuant to Chapter 3 of Title 30. Upon determining that the plans reviewed comply with the applicable codes and standards as adopted, such private professional provider shall prepare an affidavit or affidavits on a form prescribed by the ~~Safety Fire Commissioner~~ commissioner certifying under oath that the following is true and correct to the best of such private professional provider's knowledge and belief and in accordance with the applicable professional standard of care:

(i) The plans were reviewed by the affiant who is duly authorized to perform plan review pursuant to this subsection and who holds the appropriate license or certifications and insurance coverage and insurance coverage stipulated in this subsection; and

(ii) The plans comply with the state's minimum fire safety standards in effect which were adopted pursuant to this chapter and, where applicable, the state's minimum accessibility standards adopted pursuant to Chapter 3 of Title 30.

(F) All private professional providers providing plan review services pursuant to this subsection shall secure and maintain insurance coverage for professional liability (errors and omissions) insurance. The limits of such insurance shall be not less than \$1 million per claim and \$1 million in aggregate coverage. Such insurance may be a practice policy or project-specific coverage. If the insurance is a practice policy, it shall contain prior acts coverage for the private professional provider. If the insurance is project-specific, it shall continue in effect for two years following the issuance of the certificate of final completion for the project. The state fire marshal, the proper local fire marshal, state inspector, or designated code official may establish, for private professional providers working within their respective jurisdictions specified by this chapter, a system of registration listing the private professional providers within their areas of competency and verifying compliance with the insurance requirements of this subsection.

(G) The private professional provider shall be empowered to perform any plan review required by the state fire marshal, the proper local fire marshal, state inspector, or designated code official, regardless if the plan review is required by this subsection or by local county or municipal ordinance, provided that the plan review is within the scope of such private professional provider's area of expertise and competency. This subsection shall not apply to hospitals, assisted living facilities or communities, ambulatory health care centers, nursing homes, jails, penal institutions, airports, buildings or structures that impact national or state homeland security, or any building defined as a high-rise building in the State Minimum Standards Code, provided that interior tenant build-out projects within high-rise buildings are not exempt from this subsection, or plans related to Code Section 25-2-16 or 25-2-17 or Chapter 8, 9, or 10 of this title.

(H)(i) The permit applicant shall submit a copy of the private professional provider's plan review report to the state fire marshal, the proper local fire marshal, state inspector, or designated code official. Such plan review report shall include at a minimum all of the following:

(I) The affidavit of the private professional provider required pursuant to this subsection;

(II) The applicable fees required for permitting;

(III) Other documents deemed necessary due to unusual construction or design, smoke removal systems where applicable with engineering analysis, and additional documentation required where performance based code options are used; and

(IV) Any documents required by the state fire marshal, the proper local fire marshal, state inspector, or designated code official to determine that the permit applicant has secured all other governmental approvals required by law.

(ii) No more than 30 business days after receipt of a permit application and the

private professional provider's plan review report required pursuant to this subsection, the state fire marshal, the proper local fire marshal, state inspector, or designated code official shall issue the requested permit or provide written notice to the permit applicant identifying the specific plan features that do not comply with the applicable codes or standards, as well as the specific reference to the relevant requirements. If the state fire marshal, the proper local fire marshal, state inspector, or designated code official does not provide a written notice of the plan deficiencies within the prescribed 30 day period, the permit application shall be deemed approved as a matter of law and the permit shall be issued by the state fire marshal, the proper local fire marshal, state inspector, or designated code official on the next business day.

(iii) If the state fire marshal, the proper local fire marshal, state inspector, or designated code official provides a written notice of plan deficiencies to the permit applicant within the prescribed 30 day period, the 30 day period shall be tolled pending resolution of the matter. To resolve the plan deficiencies, the permit applicant may elect to dispute the deficiencies pursuant to this chapter, the promulgated rules and regulations adopted thereunder, or, where appropriate for existing buildings, the local governing authority's appeals process or the permit applicant may submit revisions to correct the deficiencies.

(iv) If the permit applicant submits revisions, the state fire marshal, the proper local fire marshal, state inspector, or designated code official shall have the remainder of the tolled 30 day period plus an additional five business days to issue the requested permit or to provide a second written notice to the permit applicant stating which of the previously identified plan features remain in noncompliance with the applicable codes or standards, with specific reference to the relevant requirements. If the state fire marshal, the proper local fire marshal, state inspector, or designated code official does not provide the second written notice within the prescribed time period, the permit shall be issued by the state fire marshal, the proper local fire marshal, state inspector, or designated code official on the next business day.

(v) If the state fire marshal, the proper local fire marshal, state inspector, or designated code official provides a second written notice of plan deficiencies to the permit applicant within the prescribed time period, the permit applicant may elect to dispute the deficiencies pursuant to this chapter, the rules and regulations promulgated thereunder, or, where applicable for existing buildings, the local governing authority's appeals process or the permit applicant may submit additional revisions to correct the deficiencies. For all revisions submitted after the first revision, the state fire marshal, the proper local fire marshal, state inspector, or designated code official shall have an additional five business days to issue the requested permit or to provide a written notice to the permit applicant stating which of the previously identified plan features remain in noncompliance with the applicable codes or standards, with specific reference to the relevant requirements.

(I) The state fire marshal may provide for the prequalification of private professional providers who may perform plan reviews pursuant to this subsection by rule or regulation authorized in Code Section 25-2-4. In addition, any local fire marshal, state inspector, or designated code official may provide for the prequalification of private professional providers who may perform plan reviews pursuant to this subsection; however, no additional local ordinance implementing prequalification shall become effective until notice of the proper local fire marshal, state inspector, or designated code official's intent to require prequalification and the specific requirements for prequalification have been advertised in the newspaper in which the sheriff's advertisements for that locality are published. The ordinance implementing prequalification shall provide for evaluation of the qualifications of a private professional provider only on the basis of the private professional provider's expertise with respect to the objectives of this subsection, as demonstrated by the private professional provider's experience, education, and training. Such ordinance may require a private professional provider to hold additional certifications, provided that such certifications are required by ordinance or state law for plan review personnel currently directly employed by such local governing authority.

(J) Nothing in this subsection shall be construed to limit any public or private right of action designed to provide protection, rights, or remedies for consumers.

(K) If the state fire marshal, the proper local fire marshal, state inspector, or designated code official determines that the building construction or plans do not comply with the applicable codes or standards, the state fire marshal, the proper local fire marshal, state inspector, or designated code official may deny the permit or request for a certificate of occupancy or certificate of completion, as appropriate, or may issue a stop-work order for the project or any portion thereof as provided by law or rule or regulation, after giving notice and opportunity to remedy the violation, if the state fire marshal, the proper local fire marshal, state inspector, or designated code official determines that noncompliance exists with state laws, adopted codes or standards, or local ordinances, provided that:

(i) The state fire marshal, the proper local fire marshal, state inspector, or designated code official shall be available to meet with the private professional provider within two business days to resolve any dispute after issuing a stop-work order or providing notice to the applicant denying a permit or request for a certificate of occupancy or certificate of completion; and

(ii) If the state fire marshal, the proper local fire marshal, state inspector, or designated code official and the private professional provider are unable to resolve the dispute, the matter shall be referred to the local enforcement agency's board of appeals, except as provided in Code Section 25-2-12 and appeals for those proposed buildings classified under paragraph (1) of subsection (b) of Code Section 25-2-13 or any existing building under the specific jurisdiction of the state fire marshal's office shall be made to the state fire marshal and further appeal shall be under Code Section 25-2-10.

(L) The state fire marshal, the proper local fire marshal, state inspector, local

government, designated code official enforcement personnel, or agents of the governing authority shall be immune from liability to any person or party for any action or inaction by an owner of a building or by a private professional provider or its duly authorized representative in connection with building plan review services by private professional providers as provided in this subsection.

(M) Except as provided in this paragraph, no proper local fire marshal, state inspector, or designated code official shall adopt or enforce any rules, procedures, policies, or standards more stringent than those prescribed in this subsection related to private professional provider services.

(N) Nothing in this subsection shall limit the authority of the state fire marshal, the proper local fire marshal, state inspector, or designated code official to issue a stop-work order for a building project or any portion of such project, as provided by law or rule or regulation authorized pursuant to Code Section 25-2-4, after giving notice and opportunity to remedy the violation, if the official determines that a condition on the building site constitutes an immediate threat to public safety and welfare.

(O) When performing building code plan reviews related to determining compliance with the Georgia State Minimum Standard Codes most recently adopted by the Department of Community Affairs, the state's minimum fire safety standards adopted by the ~~safety~~ state fire marshal, or the state's minimum accessibility standards pursuant to Chapter 3 of Title 30, a private professional provider is subject to the disciplinary guidelines of the applicable professional licensing board with jurisdiction over such private professional provider's license or certification under Chapters 4 and 15 of Title 43, as applicable. Any complaint processing, investigation, and discipline that arise out of a private professional provider's performance of the adopted building, fire safety, or accessibility codes or standards plan review services shall be conducted by the applicable professional licensing board or as allowed by state rule or regulation. Notwithstanding any disciplinary rules of the applicable professional licensing board with jurisdiction over such private professional provider's license or certification under Chapters 4 and 15 of Title 43, the state fire marshal, the proper local fire marshal, state inspector, or designated code official enforcement personnel may decline to accept building plan reviews submitted by any private professional provider who has submitted multiple reports which required revisions due to negligence, noncompliance, or deficiencies.

(b) A complete set of approved plans and specifications shall be maintained on the construction site, and construction shall proceed in compliance with the minimum fire safety standards under which such plans and specifications were approved. The owner of any such building or structure or his or her authorized representative shall notify the state fire marshal, the proper local fire marshal, or state inspector upon completion of approximately 80 percent of the construction thereof and shall apply for a certificate of occupancy when construction of such building or structure is completed.

(c) Every building or structure which comes under classification in paragraph (1) of subsection (b) of Code Section 25-2-13 and which comes under the jurisdiction of the ~~office of the Commissioner~~ department pursuant to Code Section 25-2-12 shall have a

certificate of occupancy issued by the state fire marshal, the proper local fire marshal, or the state inspector before such building or structure may be occupied. Such certificates of occupancy shall be issued for each business establishment within the building, shall carry a charge in the amount provided in Code Section 25-2-4.1, shall state the occupant load for such business establishment or building, shall be posted in a prominent location within such business establishment or building, and shall run for the life of the building, except as provided in subsection (d) of this Code section.

(d) For purposes of this chapter, any existing building or structure listed in paragraph (1) of subsection (b) of Code Section 25-2-13 and which comes under the jurisdiction of the ~~office of the Commissioner~~ department pursuant to Code Section 25-2-12 shall be deemed to be a proposed building in the event such building or structure is subject to substantial renovation, a fire or other hazard of serious consequence, or a change in the classification of occupancy. For purposes of this subsection, the term 'substantial renovation' means any construction project involving exits or internal features of such building or structure costing more than the building's or structure's assessed value according to county tax records at the time of such renovation.

(e) In cases where the governing authority of a municipality which is enforcing the fire safety standards pursuant to subsection (a) of Code Section 25-2-12 contracts with the ~~office of the Commissioner~~ department for the enforcement of fire safety standards, the ~~office of the Commissioner~~ department shall not charge such municipality fees in excess of those charged in this Code section.

25-2-14.1.

(a) Every building and structure existing as of April 1, 1968, which building or structure is listed in paragraph (1) of subsection (b) of Code Section 25-2-13 shall comply with the minimum fire safety standards adopted in the rules and regulations promulgated pursuant to this chapter which were in effect at the time such building or structure was constructed, except that any nonconformance noted under the electrical standards adopted at the time such building or structure was constructed shall be corrected in accordance with the current electrical standards adopted pursuant to this chapter. A less restrictive provision contained in any subsequently adopted minimum fire safety standard may be applied to any existing building or structure.

(b) Every proposed building and structure listed in paragraph (1) of subsection (b) of Code Section 25-2-13 shall comply with the adopted minimum fire safety standards that were in effect on the date that plans and specifications therefor were received by the state fire marshal, the proper local fire marshal, or state inspector for review and approval.

25-2-14.2.

(a) As used in this Code section, the term 'written notification' means a typed, printed, or handwritten notice citing the specific sections of the applicable codes or standards that have been violated and describing specifically where and how the design or construction is noncompliant with such codes or standards.

(b) If the state fire marshal, the proper local fire marshal, state inspector, or designated code official determines that the building construction or plans for any building or structure, which are required under this chapter to meet the state minimum fire safety standards, do not comply with any such applicable codes or standards, the state fire marshal, the proper local fire marshal, state inspector, or designated code official may deny a permit or request for a certificate of occupancy or certificate of completion, as appropriate, or may issue a stop-work order for the project or any portion thereof as provided by law or rule or regulation, after giving written notification and opportunity to remedy the violation.

25-2-15.

In existing buildings which come under the classification in paragraph (1) of subsection (b) of Code Section 25-2-13, when substandard conditions are found, a temporary occupancy permit may be issued, such permit carrying a time limit adjusted to meet the amount of time deemed necessary to make the proper corrections in order to bring the building up to standard. All certificates of occupancy shall be issued against the building and shall not require renewal because of change of ownership. The same set of fees for certificates of occupancy as are applicable to proposed buildings covered in Code Section 25-2-14 shall apply. The ~~Commissioner~~ commissioner and his or her delegated authorities shall determine the time limit for complying with any of the standards established pursuant to this chapter.

(b) Every person who stores, transports, or handles any of the hazardous substances listed in subsection (a) of this Code section shall so store, transport, and handle the substances as to afford every precaution and protection as may be found by the ~~Commissioner~~ commissioner to be reasonable and practical to avoid injury to persons from exposure, fire, or explosion caused by the storage, transportation, or handling of these substances, including transportation thereof only in vehicles which are in proper condition for that purpose.

(c) The ~~Commissioner~~ commissioner is directed to investigate the nature and properties of such hazardous substances and the known precautionary and protective techniques for their storage, transportation, and handling, including, but not limited to, the codes and standards adopted, recommended, or issued by the National Fire Protection Association and the Agricultural Nitrogen Institute. Based upon the investigation, the ~~Commissioner~~ commissioner is authorized to determine and by rule to provide what precautionary and protective techniques are reasonable and practical measures for the

prevention of injury to persons and property from the storage, transportation, and handling of such highly flammable or hazardous substances. Such authorization shall include the power to provide, by rule, the minimum standards that a vehicle shall meet before it is considered to be in proper condition to transport the material. No person shall transport any such material or substance in bulk unless the vehicle in which it is transported is in the proper condition, as provided by such rules, to transport the material with reasonable safety.

(d)(1) As used in this subsection, the term:

Explosives constitute a special hazard to life and safety of persons because of the danger incident to their manufacture, transportation, use, sale, and storage.

(b) Every person who manufactures, transports, uses, sells, or stores explosives shall so manufacture, transport, use, sell, and store them as to afford every precaution and

protection against injury to persons as the ~~Commissioner~~ commissioner may determine and by rule declare to be reasonable and practical; provided, however, that nothing contained in this Code section shall be construed to extend to storage, use, or sale of small arms ammunition.

(c) The ~~Commissioner~~ commissioner is directed to investigate and examine the nature and properties of various explosives and known safety and protective techniques, including the safety standards, recommendations, and codes of the National Fire Protection Association (Explosives Ordinance, National Fire Code), and the American Insurance Association, the successor to the National Board of Fire Underwriters. Based upon the investigation, the ~~Commissioner~~ commissioner is authorized to determine and by rule to provide what reasonable and practical protection must be afforded persons with respect to the manufacture, transportation, use, sale, and storage of explosives.

The permits for the use only of explosives may be issued by judges of the probate courts or other local elected officials whom the ~~Commissioner~~ commissioner may designate. Upon finding that a distributor has met the requirements of subsection (a) of this Code section and upon payment of such license fee, such initial license shall be issued by the ~~Safety Fire Commissioner~~ commissioner and shall identify the permanent consumer fireworks retail sales facility applicable to such license. Such initial license shall expire on January 31 of the year after such initial license was issued or as otherwise provided for under this subsection. After such initial license, such distributor may annually renew such initial license, which shall then become an annual license, for \$1,000.00 per year, payable to the ~~Safety Fire Commissioner~~ commissioner. Upon finding that a distributor has met the requirements of subsection (a) of this Code section and upon payment of such license fee, such annual license shall be issued by the ~~Safety Fire Commissioner~~ commissioner and shall identify the permanent consumer fireworks retail sales facility applicable to such license. Such annual license shall expire on January 31 of each year or as otherwise provided for under this subsection; provided, however, that a distributor shall apply for an annual license or renewal of an annual license by December 1 in the year preceding the expiration date of such initial or annual license; and provided, further, that if an initial license is issued to a distributor on or after December 1, then such distributor shall apply for an annual license by the first business day of the next year.

(2) The determination by the ~~Safety Fire Commissioner~~ commissioner of whether a distributor has met requirements for the issuance of a license required by this subsection shall be made within 30 days of the submission of an application for any initial or annual license; provided, however, that if a license will expire prior to the expiration of such 30 days and no such determination has been made by the ~~Safety Fire Commissioner~~ commissioner, then the expiration date for such license shall be extended until the date of such determination by the ~~Safety Fire Commissioner~~ commissioner but for no more than 30 days. If a determination has not been made within the time provided for by this paragraph, or for an appeal of a determination by the ~~Safety Fire Commissioner~~ commissioner, a distributor may seek review from the judge of the probate court of the county of the location or proposed location of the permanent consumer fireworks retail sales facility. Such judge may provide for the issuance or nonissuance of a license and for the payment of license fees in such manner as is consistent with the provisions of this subsection.

(c)(1) The license fee for a distributor selling consumer fireworks from a temporary consumer fireworks retail sales stand shall be \$500.00 per location, payable to the

governing authority of the county, municipality, or other political subdivision of this state in whose boundaries such temporary consumer fireworks retail sales stand shall be located or is proposed to be located. Upon finding that a distributor has met the requirements of subsection (a) of this Code section, has a license pursuant to subsection (b) or (d) of this Code section, has no more than the allowable temporary consumer fireworks retail sales stands pursuant to subparagraph (b)(6)(B) of Code Section 25-10-2, that the sales of consumer fireworks from such temporary consumer fireworks retail sales stand shall accrue to the benefit of a nonprofit group, and upon payment of such license fee, such license shall be issued by the fire department of the county, municipality, or other political subdivision or the chartered fire department legally organized to operate in this state pursuant to Chapter 3 of this title and having operational authority of the area in which such temporary consumer fireworks retail sales stand shall be located or is proposed to be located. Such license shall identify the temporary consumer fireworks retail sales stand applicable to such license and shall expire on the next January 31 after the issuance of such license.

(2) A determination by a fire department as provided for under paragraph (1) of this subsection of whether a distributor has met requirements for the issuance of a license pursuant to this subsection shall be made within 30 days of the submission of an application for any such license. Such application shall be in writing and, if such fire department provides for a written form for the application for a license pursuant to this Code section, upon such form as may be provided by such fire department. If a determination has not been made within the time provided for by this paragraph, or for an appeal of a determination by such fire department, a distributor may seek review from the judge of the probate court of the county of the location or proposed location of the temporary consumer fireworks retail sales stand. Such judge may provide for the issuance or nonissuance of a license and for the payment of license fees in such manner as is consistent with the provisions of this subsection.

(3) For at least one of the temporary consumer fireworks retail sales stands provided for under subparagraph (b)(6)(B) of Code Section 25-10-2, a nonprofit group benefiting from the sale of consumer fireworks from such temporary consumer fireworks retail sales stand shall directly participate in operating such temporary consumer fireworks retail sales stand. It shall be unlawful for a nonprofit group or any agent or bona fide representative of a nonprofit group to knowingly lend the name of the nonprofit group or allow the identity of the nonprofit group to be used for the license under this subsection if such nonprofit group is not directly participating in operating, or benefiting from the operation of, such temporary consumer fireworks retail sales stand.

(4) The governing authority of a county, municipality, or other political subdivision receiving fees pursuant to this Code section shall expend such fees for public safety purposes.

(5) A distributor licensed pursuant to this subsection shall submit a list of the names and addresses, including the counties, of each temporary consumer fireworks retail sales stand at which such distributor has consumer fireworks offered for sale pursuant

to this Code section to the ~~Safety Fire Commissioner~~ commissioner. Such list shall be submitted not less than 30 days prior to first having a temporary consumer fireworks retail sales stand at which such distributor has consumer fireworks offered for sale and not less than 30 days prior to having such distributor's consumer fireworks offered for sale at a location not previously included on such list. The ~~Safety Fire Commissioner~~ commissioner shall make such list publicly available for inspection. In making determinations as provided for under this subsection, fire departments shall reference the list provided for by this paragraph.

(6) A revocation or suspension of a license provided for under subsection (b) or (d) of this Code section shall operate as a revocation or suspension of a distributor's license under this subsection for the term of such revocation or suspension.

(d)(1) The initial license fee for a distributor selling consumer fireworks from a store shall be \$1,500.00 in addition to \$250.00 per store location, payable to the ~~Safety Fire Commissioner~~ commissioner. Upon finding that a distributor has met the requirements of subsection (a) of this Code section, such initial license shall be issued by the ~~Safety Fire Commissioner~~ commissioner; provided, however, that such distributor has been operating and open to the public no less than 30 days prior to July 4 or December 31 in the year of an application for an initial license that is filed within 30 days of July 4 or December 31; and provided, further, that a distributor holding an initial license may add additional store locations to such license prior to the expiration of such license upon payment of \$250.00 per added store location. Such initial license shall expire on January 31 of the year after such initial license was issued or as otherwise provided for under this subsection. After such initial license, such distributor may annually renew such initial license, which shall then become an annual license, for \$1,000.00 in addition to \$100.00 per store location, payable to the ~~Safety Fire Commissioner~~ commissioner; provided, however, that a distributor holding an annual license may add additional store locations to such license prior to the expiration of such license upon payment of \$250.00 per added store location. Upon finding that a distributor has met the requirements of subsection (a) of this Code section, such annual license shall be issued by the ~~Safety Fire Commissioner~~ commissioner. Such annual license shall expire on January 31 of each year or as otherwise provided for under this subsection; provided, however, that a distributor shall apply for an annual license or renewal of an annual license by December 1 in the year preceding the expiration date of such initial or annual license; and provided, further, that if an initial license is issued to a distributor on or after December 1, then such distributor shall apply for an annual license by the first business day of the next year.

(2) An application submitted under this subsection shall identify each store location to which an initial or annual license is applicable; there shall not be a requirement for a separate application for each of the several store locations. The determination by the ~~Safety Fire Commissioner~~ commissioner of whether a distributor has met requirements for the issuance of a license required by this subsection shall be made within 30 days of the submission of an application for any initial or annual license;

provided, however, that if a license will expire prior to the expiration of such 30 days and no such determination has been made by the ~~Safety Fire Commissioner~~ commissioner, then the expiration date for such license shall be extended until the date of such determination by the ~~Safety Fire Commissioner~~ commissioner but for no more than 30 days. If a determination has not been made within the time provided for by this paragraph, or for an appeal of a determination by the ~~Safety Fire Commissioner~~ commissioner, a distributor may seek review from the judge of the probate court of the county of the location or proposed location of the store from which consumer fireworks will be sold. Such judge may provide for the issuance or nonissuance of a license and for the payment of license fees in such manner as is consistent with the provisions of this subsection.

25-10-6.

(a) The state fire marshal shall enforce the provisions of this chapter; provided, however, that, in addition, any law enforcement officer or agency of this state or political subdivision thereof may enforce provisions relating to using or igniting or causing to be ignited consumer fireworks. Applicable fire departments of a county, municipality, or other political subdivision or a chartered fire department shall refer cases for enforcement under subsection (c) of Code Section 25-10-5.1 to the state fire marshal. All fireworks or consumer fireworks manufactured, offered for sale, exposed for sale, or stored in violation of this chapter are declared to be contraband and may be seized, taken, and removed, or caused to be removed and destroyed or disposed of at the expense of the owner thereof by the state fire marshal, the Georgia State Patrol, or any sheriff or local police official.

(b) Any property declared as contraband pursuant to this Code section shall be forfeited in accordance with the procedures set forth in Chapter 16 of Title 9.

25-10-7.

This chapter shall not apply to the high explosives covered by Code Section 25-2-17 over which the ~~Safety Fire Commissioner~~ commissioner has regulatory control.

25-10-8.

(a) Any person, firm, corporation, association, or partnership that violates Code Section 25-10-3.2 shall be guilty of a felony and shall be punished by imprisonment for not less than two nor more than ten years, or by a fine of not more than \$10,000.00, or both.

(b) Any person, firm, corporation, association, or partnership that violates any other provision of this chapter shall be guilty of a misdemeanor.

25-10-9.

Notwithstanding any provision of this chapter to the contrary, the ~~Safety Fire Commissioner~~ commissioner shall have the authority to subject any person, firm, corporation, association, or partnership that knowingly violates this chapter to a

monetary penalty of up to \$2,500.00 for each and every act in violation of this chapter; provided, however, that the ~~Safety Fire Commissioner~~ commissioner shall have the authority to subject any person, firm, corporation, association, or partnership that knowingly sells consumer fireworks from a tent, canopy, or membrane structure to a monetary penalty of up to \$5,000.00 and, if any such person, firm, corporation, association, or partnership is a distributor, then a license revocation for not more than two years. Each sales transaction in violation of this chapter shall be a separate offense.

It shall be unlawful for any person, firm, corporation, association, or partnership to release or cause to be released any balloon, bag, parachute, or other similar device which requires fire underneath for propulsion or to release or cause to be released any floating water lantern or wish lantern which uses a flame to create a lighting effect in any public waterway, lake, pond, stream, or river.

25-10-11.

(a) Whenever the ~~Safety Fire Commissioner~~ commissioner shall have reason to believe that any person is or has been violating any provisions of this chapter, the ~~Safety Fire Commissioner~~ commissioner, his or her deputy, his or her assistant, or other designated persons may issue and deliver to the person an order to cease and desist such violation. An order issued under this Code section shall be delivered in accordance with the provisions of subsection (c) of this Code section.

(b) Violation of any provision of this chapter or failure to comply with a cease and desist order is cause for revocation of any or all licenses issued by the ~~Safety Fire Commissioner~~ commissioner for a period of not less than six months and not to exceed five years. If a new license has been issued to the person so charged, the order of revocation shall operate effectively with respect to such new license held by such person. In the case of an applicant for a license, violation of any provision of this title or regulations promulgated thereunder may constitute grounds for refusal of the application. Decisions under this subsection may be appealed as provided by law.

(c) Any order issued by the ~~Safety Fire Commissioner~~ commissioner under this chapter shall contain or be accompanied by a notice of opportunity for hearing which shall provide that a hearing will be held if and only if a person subject to the order requests a hearing in writing within ten days of receipt of the order and notice. The order and notice shall be served by delivery by the ~~Safety Fire Commissioner~~ commissioner or his or her agent or by registered or certified mail or statutory overnight delivery, return receipt requested. Any person who fails to comply with any order under this subsection is guilty of a misdemeanor and may be punished by law.

25-10-12.

(a) In addition to the grounds set forth in Code Section 25-10-11, it is cause for revocation or suspension, refusal, or nonrenewal by the ~~Safety Fire Commissioner~~ commissioner of any license issued under this chapter if it is determined that the licensee or applicant has:

25-10-13.

(a) The Board of Fire Safety, the commissioner, and the Department of Fire Safety shall succeed to all rules, regulations, policies, procedures, and pending and finalized administrative orders of the Safety Fire Commissioner under this chapter which are in effect on June 30, 2019. (b) All valid agreements, contracts, licenses, permits, certificates, and similar authorizations previously issued by the Safety Fire Commissioner with respect to any function transferred to the Department of Fire Safety shall continue in effect until the same expire by their terms unless they are suspended, revoked, or otherwise made ineffective as provided by law.

(c) Effective July 1, 2019, the commissioner and the Department of Fire Safety shall carry out all of the functions and obligations and exercise all of the powers formerly held by the Safety Fire Commissioner under this chapter."

PART IX SECTION 9-1.

Said title is further amended by revising Chapter 11, relating to fire protection sprinkler contractors, as follows:

"CHAPTER 11

25-11-1.

This chapter shall be known and may be cited as the 'Georgia Fire Sprinkler Act.'

25-11-2.

As used in this chapter, the term:

(1) 'Certificate' or 'certificate of competency' means the document issued by the ~~Commissioner~~ commissioner to a certificate holder who has demonstrated adequate technical knowledge and ability to design in accordance with recognized standards as adopted by the ~~Commissioner~~ commissioner and to perform and supervise the installation, repair, alteration, addition, maintenance, or inspection of water-based fire protection systems.

(2) 'Certificate holder' means an individual who has been issued a certificate of competency by the ~~Commissioner~~ commissioner.

(3) 'Commissioner' means the ~~Georgia Safety Fire Commissioner~~ commissioner of fire safety.

(4) 'Fire protection sprinkler contractor' means an individual, partnership, corporation, association, or joint venture that supervises, performs, or supervises and performs the installation, repair, alteration, addition, maintenance, or inspection of water-based fire protection systems. Such term does not include local building officials, fire inspectors, or insurance inspectors when acting in their official capacities.

(5) 'Fire protection sprinkler contractor license' means the document issued by the ~~Commissioner~~ commissioner to the fire protection sprinkler contractor which authorizes the fire protection sprinkler contractor to engage in the business of fabrication, installation, repair, alteration, maintenance, or inspection of water-based fire protection systems.

(6) 'Fire protection sprinkler system' means an integrated system of overhead and underground piping designed in accordance with fire protection engineering standards. The installation includes one or more automatic water supplies. The portion of the system aboveground is a network of specially sized or hydraulically designed piping installed in a building, structure, or area, generally overhead, to which sprinklers are attached in a systematic pattern. The valve controlling each system riser is located in the system riser or its supply piping. The system is usually activated by heat from a fire and discharges water over the fire area.

(7) 'Fire protection system designer' means a person who develops documents pertaining to water-based fire protection systems.

(8) 'Fire protection system designer license' means a document issued by the ~~Commissioner~~ commissioner which authorizes the fire protection system designer to engage in the business of producing construction shop drawings pertaining to water-based fire protection systems.

(9) 'Fire protection system inspector' means an individual who performs inspections only on water-based fire protection systems in accordance with applicable codes and standards as adopted by the ~~Commissioner~~ commissioner. Such term does not apply to state, local, and insurance inspectors while acting in their official capacities.

(10) 'Fire protection system inspector's license' means a document issued by the ~~Commissioner~~ commissioner which authorizes the fire protection system inspector to

engage in the business of inspecting water-based fire protection systems.

(11) 'Fire pump' means a pump supplying water at the flow and pressure required by water-based fire protection systems.

(12) 'Foam-water spray system' means a special system pipe connected to a source of foam concentrate and to a water supply and equipped with foam-water spray nozzles for fire protection agent discharge (foam and water sequentially in that order or in reverse order) and distribution over the area to be protected. System operation arrangements parallel those for foam-water sprinkler systems.

(13) 'Foam-water sprinkler system' means a special system pipe connected to a source of foam concentrates and to a water supply and equipped with appropriate discharge devices for fire protection agent discharge and distribution over the area to be protected. The piping system is connected to the water supply through a control valve that is usually actuated by operation of automatic detection equipment installed in the same area as the sprinklers. When this valve opens, water flows into the piping system, and foam concentrate is injected into the water. The resulting foam solution discharging through the discharge devices generates and distributes foam. Upon exhaustion of the foam concentrate supply, water discharge will follow the foam and continue until manually shut off. Existing deluge sprinkler systems that have been converted to the use of aqueous film forming foam are classified as foam-water sprinkler systems.

(14) 'Inspection' means a visual examination of a water-based fire protection system or portion thereof to verify that it appears to be in operating condition and is free of physical damage.

(15) 'Maintenance' means work performed to keep equipment operable or to make repairs without altering the operation of the water-based system.

(16) 'Private fire service main' means that pipe and its appurtenances on private property that are:

(A) Between a source of water and the base of the system riser for water-based fire protection systems;

(B) Between a source of water and inlets to foam-making systems;

(C) Between a source of water and the base elbow of private hydrants or monitor nozzles;

(D) Used as fire pump suction and discharge piping outside of a building; and

(E) Beginning at the inlet side of the check valve on a gravity or pressure tank.

(17) 'Private water tank' means a tank supplying water for water-based fire protection systems which is located on private property.

(18) 'Standpipe system' means an arrangement of piping, valves, hose connections, and allied equipment installed in a building or structure with the hose connections located in such a manner that water can be discharged in streams or spray patterns through attached hoses and nozzles for the purpose of extinguishing a fire, thus protecting a building or structure, its contents, and its occupants. This is accomplished by connection to water supply systems or by pumps, tanks, and other equipment necessary to provide an adequate supply of water-to-hose connections.

(19) 'Testing' means a procedure to determine the status of a system as intended by conducting periodic physical checks on water-based fire protection systems such as waterflow tests, fire pump tests, alarm tests, and trip tests of dry pipe, deluge, or preaction valves. These tests follow up on the original acceptance test at intervals specified in the appropriate standards related to such systems.

(20) 'Water-based fire protection system' means any one system or any combination of a number of systems designed to deliver water to an apparatus designed to extinguish or retard the advancement of fire. Such systems include fire protection sprinkler systems, standpipe systems, private fire service mains, fire pumps, private water tanks, water spray fixed systems, foam-water spray systems, and foam-water sprinkler systems. The term 'fire sprinkler system' is used interchangeably with this term.

(21) 'Water-spray fixed system' means a special fixed pipe system connected to a reliable fire protection water supply and equipped with water-spray nozzles for specific water discharge and distribution over the surface or area to be protected. The piping system is connected to the water supply through an automatically or manually activated valve that initiates the flow of water. An automatic valve is actuated by operation of automatic detection equipment installed in the same area as the water-spray nozzles.

The installing contractor shall be responsible for the installation of proper underground facilities and piping which provide an adequate flow of water from the fire protection water supply to the water-based fire protection system.

(b) Evidence of inspection shall be given to the owner or his or her representative in the form of a letter indicating the inspector or certificate of competency holder and the license number or certificate number.

(c) Before any local building official shall issue any license or building permit which authorizes the construction of any building or structure containing a water-based fire protection system, such local official shall require a copy of a valid fire protection sprinkler contractor license from the fire protection sprinkler contractor. The fire protection sprinkler contractor shall be required to pay any fees normally imposed for local licenses or permits, but the local official shall impose no requirements on the fire protection sprinkler contractor to prove competency other than proper evidence of a valid certificate of competency, as issued by the ~~Commissioner~~ commissioner.

(d) Nothing in this chapter limits the power of a municipality, county, or the state to require the submission and approval of plans and specifications or to regulate the quality and character of work performed by contractors through a system of permits, fees, and inspections otherwise authorized by law for the protection of the public health and safety.

25-11-14.

This chapter shall also apply to any fire protection sprinkler contractor performing work for the state or any municipality, county, or other political subdivision. Officials of the state or any municipality, county, or other political subdivision are required to determine compliance with this chapter before awarding any contracts for the installation, repair, alteration, addition, maintenance, or inspection of a water-based fire protection system. Bids tendered for such contracts shall be accompanied by a copy of a valid certificate of competency.

25-11-15.

(a) All fees collected pursuant to the provisions of this chapter shall be deposited with the Fiscal Division of the Department of Administrative Services.

(b) The ~~Commissioner~~ commissioner shall be authorized to receive grants for the administration of this chapter from parties interested in upgrading and improving the quality of water-based fire protection systems, education of the public pertaining to water-based fire protection systems, or the upgrading of fire protection, in general, in Georgia.

25-11-16.

(a) Whenever the ~~Commissioner~~ commissioner shall have reason to believe that any individual is or has been violating any provisions of this chapter, the ~~Commissioner~~ commissioner, his or her deputy, his or her assistant, or other designated persons may issue and deliver to the individual an order to cease and desist such violation. An order issued under this Code section may be delivered in accordance with the provisions of subsection (d) of this Code section.

(b) Violation of any provision of this chapter or failure to comply with a cease and

desist order is cause for revocation of any or all certificates and licenses issued by the ~~Commissioner~~ commissioner for a period of not less than six months and not to exceed five years. If a new certificate or license has been issued to the person so charged, the order of revocation shall operate effectively with respect to such new certificates and licenses held by such person. In the case of an applicant for a license, certificate, or permit, violation of any provision of this title or regulations promulgated thereunder may constitute grounds for refusal of the application. Decisions under this subsection may be appealed as provided by law.

(c) Any person who violates any provision of this chapter or any rule, regulation, or order issued by the ~~Commissioner~~ commissioner under this chapter shall be subject to a civil penalty imposed by the ~~Commissioner~~ commissioner of not more than \$1,000.00 for a first offense, not less than \$1,000.00 and not more than \$2,000.00 for a second offense, and not less than \$2,000.00 or more than \$5,000.00 for a third or subsequent offense. Prior to subjecting any person or entity to a fine under this subsection, the ~~Commissioner~~ commissioner or his or her agent shall give written notice to the person or entity by hand delivery or by registered or certified mail or statutory overnight delivery, return receipt requested, of the existence of the violations. After a reasonable period of time after notice is given, an order may be issued based on this Code section. Such order must be delivered in accordance with the provisions of subsection (d) of this Code section and must notify the person or entity of the right to a hearing with respect to same.

(d) Any order issued by the ~~Commissioner~~ commissioner under this chapter shall contain or be accompanied by a notice of opportunity for hearing which may provide that a hearing will be held if and only if a person subject to the order requests a hearing within ten days of receipt of the order and notice. The order and notice shall be served by delivery by the ~~Commissioner~~ commissioner or his or her agent or by registered or certified mail or statutory overnight delivery, return receipt requested. Any person who fails to comply with any order under this subsection is guilty of a misdemeanor and may be punished by law.

(e) In addition to other powers granted to the ~~Commissioner~~ commissioner under this chapter, the ~~Commissioner~~ commissioner may bring a civil action to enjoin a violation of any provision of this chapter or of any rule, regulation, or order issued by the ~~Commissioner~~ commissioner under this chapter.

25-11-17.

In addition to the grounds set forth in Code Section 25-11-16, it is cause for revocation or suspension, refusal, or nonrenewal of certificates or licenses by the ~~Commissioner~~ commissioner if it is determined that the holder or applicant has:

- (1) Rendered inoperative a water-based fire protection system covered by this chapter, except during a reasonable time during which the system is being repaired, altered, added to, maintained, inspected, or except pursuant to a court order;
- (2) Falsified any record required to be maintained by this chapter or rules or regulations adopted pursuant to this chapter or current fire codes enforced by the

~~Commissioner~~ commissioner;

- (3) Improperly installed, repaired, serviced, modified, altered, inspected, or tested a water-based fire protection system;
- (4) While holding a certificate or license, allowed another person to use the certificate or license or certificate number or license number other than his or her own valid certificate or license or certificate number or license number;
- (5) While holding a certificate or license, used a certificate or license or certificate number or license number other than his or her own valid certificate or license or certificate number or license number;
- (6) Used credentials, methods, means, or practices to impersonate a representative of the ~~Commissioner~~ commissioner or the state fire marshal or any local fire chief, fire marshal, or other fire authority having jurisdiction;
- (7) Failed to maintain the minimum insurance coverage as set forth in this chapter;
- (8) Failed to obtain, retain, or maintain one or more of the qualifications and requirements to obtain a certificate of competency or other licenses required by this chapter;
- (9) Installed, serviced, modified, altered, inspected, maintained, added to, or tested a water-based fire protection system without a current, valid license or certificate, when such license or certificate is required by this chapter;
- (10) Made a material misstatement or misrepresentation or committed a fraud in obtaining or attempting to obtain a license or certificate; or
- (11) Failed to notify the ~~Commissioner~~ commissioner, in writing, with 30 days after a change of residence, principal business address, or name.

In addition to other grounds set forth in this Code section, the ~~Commissioner~~ commissioner shall not issue a new license or certificate if the ~~Commissioner~~ commissioner finds that the circumstance or circumstances for which the license or certificate was previously suspended or revoked still exist or are likely to recur.

25-11-18.

The failure to renew a certificate or license by the expiration date as set forth in this chapter will cause the certificate or license to become inoperative. A certificate or license which is inoperative because of the failure to renew it shall be restored upon payment of the applicable fee plus a penalty of not more than \$250.00 if said fees are paid within 90 days of expiration. After 90 days new certificates and licenses must be applied for as required for an initial certificate or license.

25-11-19.

The provisions of this chapter shall not apply to water-based automatic sprinkler systems for use in single-family dwellings or limited water-based systems permitted to be connected directly to a domestic water supply system as allowed by the NFPA Life Safety Code adopted by the ~~Commissioner's~~ commissioner's rules and regulations.

25-11-20.

(a) The Board of Fire Safety, the commissioner, and the Department of Fire Safety shall succeed to all rules, regulations, policies, procedures, and pending and finalized administrative orders of the Safety Fire Commissioner under this chapter which are in effect on June 30, 2019. Such rules, regulations, policies, procedures, and orders shall remain in effect until amended, repealed, superseded, or nullified by the board.

(b) All valid agreements, contracts, licenses, permits, certificates, and similar authorizations previously issued by the Safety Fire Commissioner with respect to any function transferred to the Department of Fire Safety shall continue in effect until the same expire by their terms unless they are suspended, revoked, or otherwise made ineffective as provided by law.

(c) Effective July 1, 2019, the commissioner and the Department of Fire Safety shall carry out all of the functions and obligations and exercise all of the powers formerly held by the Safety Fire Commissioner under this chapter."

PART X SECTION 10-1.

Said title is further amended by revising Chapter 12, relating to regulation of fire extinguishers and suppression systems, as follows:

"CHAPTER 12

25-12-1.

It is unlawful for any firm to engage in the business of installing, inspecting, recharging, repairing, servicing, or testing of portable fire extinguishers or fire suppression systems, as defined by this chapter, in this state except in conformity with the provisions of this chapter. Each firm engaging in any such business must possess a valid and subsisting license issued by the ~~Commissioner~~ commissioner. Such license shall not be required for any firm or governmental entity that engages only in installing, inspecting, recharging, repairing, servicing, or testing of portable fire extinguishers or fire suppression systems owned by the firm and installed on property under the control of said firm. Such firms shall remain subject to the rules and regulations adopted pursuant to this chapter.

25-12-2.

As used in this chapter, the term:

- (1) 'Commissioner' means the ~~Safety Fire Commissioner~~ commissioner of fire safety.
- (2) 'Engineered fire suppression system' means any fire suppression system having pipe lengths, number of fittings, number and types of nozzles, suppression agent flow rates, and nozzle pressures as determined by calculations derived from the appropriate standards of the National Fire Protection Association, whether those calculations are performed by hand or by a computer program or by other method of calculation.

These systems may consist of other components, including, but not limited to, detection devices, alarm devices, and control devices as tested and approved by a nationally recognized testing laboratory and shall be manufacturer listed as compatible with the fire suppression system involved.

(3) 'Fire suppression system' means any fire-fighting system employing a suppression agent with the purpose of controlling, suppressing, or extinguishing a fire in a specific hazard. The suppression agent shall be a currently recognized agent or water additive required to control, suppress, or extinguish a fire. The term ~~fire~~ 'fire suppression system' shall include engineered and preengineered systems as defined in this chapter and shall not include those systems addressed in Chapter 11 of this title.

(4) 'Firm' means any business, person, partnership, organization, association, corporation, contractor, subcontractor, or individual.

(5) 'License' means the document issued by the ~~Commissioner~~ commissioner which authorizes a firm to engage in the business of installation, repair, alteration, recharging, inspection, maintenance, service, or testing of fire suppression systems or portable fire extinguishers.

(6) 'Permit' means the document issued by the ~~Commissioner~~ commissioner which authorizes an individual to install, inspect, repair, recharge, service, or test fire suppression systems or portable fire extinguishers.

(7) 'Portable fire extinguisher' means a portable device containing an extinguishing agent that can be expelled under pressure for the purpose of suppressing or extinguishing a fire. The device must be listed by a nationally recognized testing laboratory. The device must bear a manufacturer's name and serial number. The listings, approvals, and serial numbers may be stamped on the manufacturer's identification and instruction plate or on a separate plate of the testing laboratory soldered or attached to the extinguisher shell in a permanent manner set forth by the listing or approving organization.

(8) 'Preengineered fire suppression system' means any system having predetermined flow rates, nozzle pressures, and quantities of an extinguishing agent. These systems have the specific pipe size, maximum and minimum pipe lengths, flexible hose specifications, number of fittings, and number and types of nozzles prescribed by a nationally recognized testing laboratory. The hazards protected by these systems are specifically limited as to the type and size by the testing laboratory based upon actual fire tests. Limitations on hazards that can be protected by these systems are contained in the manufacturer's installation manual, which is referenced as part of the listing.

25-12-3.

All fire suppression systems required by the ~~Commissioner's~~ commissioner's rules and regulations or by other state or local fire safety rules or regulations must be installed, inspected, repaired, recharged, serviced, or tested only by a firm licensed under the provisions of this chapter, except as otherwise provided by this chapter.

25-12-4.

All portable fire extinguishers required by the ~~Commissioner's~~ commissioner's rules and regulations or by other state or local fire safety rules or regulations must be installed, inspected, repaired, recharged, serviced, or tested only by a firm licensed under the provisions of this chapter, except as otherwise provided by this chapter.

25-12-5.

The provisions of this chapter do not apply to fire chiefs, fire marshals, fire inspectors, or insurance company inspectors with regard to the routine visual inspection of preengineered fire suppression systems or portable fire extinguishers.

25-12-6.

(a) The provisions of this chapter do not apply to any firm that engages only in the routine visual inspection of fire suppression systems or portable fire extinguishers owned by the firm and installed on property under the control of said firm.

(b) The fees required by this chapter shall not apply to employees of federal, state, or local governments or to members of legally organized fire departments while acting in their official capacities.

25-12-7.

Each firm in the business of installing, altering, inspecting, repairing, recharging, servicing, maintaining, or testing fire suppression systems or in the business of inspecting, repairing, recharging, servicing, maintaining, or testing portable fire extinguishers is required to obtain a license from the ~~Commissioner~~ commissioner. The annual fee for said license shall be as established by the ~~Commissioner~~ commissioner by rule or regulation, but such license fee shall not exceed \$50.00.

25-12-8.

Each individual actually performing the installing, inspecting, repairing, recharging, servicing, or testing activities must possess a valid and subsisting permit issued by the ~~Commissioner~~ commissioner. The annual fee for said permit shall be as established by the ~~Commissioner~~ commissioner by rule or regulation, but such permit fee shall not exceed \$75.00. Such permit shall not be required for any individual employed by any firm or governmental entity that engages only in installing, inspecting, recharging, repairing, servicing, or testing of portable fire extinguishers or fire suppression systems owned by the firm and installed on property under the control of said firm. Such individuals shall remain subject to the rules and regulations adopted pursuant to this chapter.

25-12-9.

The licenses and permits required by this chapter shall be issued by the ~~Commissioner~~ commissioner for each license year beginning January 1 and expiring the following December 31. The failure to renew a license or permit by December 31 will cause the

license or permit to become inoperative. A license or permit which is inoperative because of the failure to renew it shall be restored upon payment of the applicable fee plus a penalty equal to the applicable fee if said fees are paid within 90 days of expiration. After 90 days, the firm and the employees thereof must apply for new licenses and permits as required for an initial license or permit.

25-12-10.

The forms of such licenses and permits and applications and fees therefor shall be prescribed by the ~~Commissioner~~ commissioner by rule or regulation, subject to the limitations on fees provided for in Code Sections 25-12-7 and 25-12-8. In addition to such other information and data as the ~~Commissioner~~ commissioner determines are appropriate and required for such forms, there shall be included in such forms the following matters:

- (1) Each such application shall be sworn to by the applicant or, if a corporation, by an officer thereof;
- (2) Each application shall clearly state, in detail as set forth by the ~~Commissioner~~ commissioner, the type of activity or activities for which the applicant desires a license or permit to perform;
- (3) An application for a permit shall include the name of the licensee employing such permittee, and the permit issued in pursuance of such application shall also set forth the name of such licensee. For persons covered by Code Section 25-12-8, the application and permit shall bear the business name of the person's employer; and
- (4) The license or permit issued by the ~~Commissioner~~ commissioner shall clearly state the activity or activities for which the firm or individual has been issued the license or permit to perform. The licensee or permittee shall not perform any activity not noted on the license or permit issued by the ~~Commissioner~~ commissioner.

25-12-11.

A license may not be issued by the ~~Commissioner~~ commissioner until:

- (1) The applicant has submitted to the ~~Commissioner~~ commissioner evidence of registration as a Georgia corporation;
- (2) The ~~Commissioner~~ commissioner or a person designated by him or her has by inspection determined that the applicant possesses the equipment required for the activities the applicant requests to be licensed to perform. If the applicant includes in the request the high-pressure hydrostatic testing of equipment, the applicant must submit a copy of its United States Department of Transportation approval and renewals. If the applicant includes in the request the transfer of Halogenated fire suppression agents, the applicant must submit a copy of the current Underwriter's Laboratories on-site inspection form for a manufacturer's represented Halon pumping station. The ~~Commissioner~~ commissioner shall give an applicant 60 days to correct any deficiencies discovered by inspection;
- (3) The applicant has submitted to the ~~Commissioner~~ commissioner proof of a valid comprehensive liability insurance policy purchased from an insurer authorized to do

business in Georgia. The coverage must include bodily injury and property damage, products liability, completed operations, and contractual liability. The proof of insurance must also be provided before any license can be renewed. The minimum amount of said coverage shall be \$1 million or such other amount as specified by the ~~Commissioner~~ commissioner. An insurer which provides such coverage shall notify the ~~Commissioner~~ commissioner of any change in coverage; and

(4) The applicant, when filing an application for an examination, pays a nonrefundable filing fee fixed by rule or regulation of the ~~Commissioner~~ commissioner.

25-12-12.

No permit may be issued to a person for the first time by the ~~Commissioner~~ commissioner until the applicant has submitted a nonrefundable filing fee fixed by rule or regulation of the ~~Commissioner~~ commissioner.

25-12-13.

(a) Any firm or individual holding a valid license or permit desiring to perform an activity not covered by the current permit may submit an application for an amended license or permit at any time between January 1 and the date established by the ~~Commissioner~~ commissioner for filing applications for renewing an annual license or permit.

(b) The provisions of this chapter relating to the requirements for obtaining a license or permit shall apply to applications for an amended license or permit. The ~~Commissioner~~ commissioner shall by rule or regulation establish the fee for obtaining an amended license and the fee for an amended permit, but such fees shall not exceed the respective limits set forth in Code Sections 25-12-7 and 25-12-8.

(c) The fees for an amended license or permit shall not apply if the new activity or activities are included in an application for a renewal of the annual license or permit. The application for renewal must be accompanied by the proof of training and other applicable documentation regarding the activity or activities desired to be included on the new annual license or permit.

25-12-14.

Every permittee must have a valid and subsisting permit upon his or her person at all times while engaging in the installing, inspection, recharging, repairing, servicing, or testing of fire suppression systems or portable fire extinguishers. Every licensee or permittee must be able to produce a valid license or valid permit, as appropriate, upon demand by the ~~Commissioner~~ commissioner or his or her representatives or by any local authority having jurisdiction for fire protection or prevention or by any person for whom the licensee or permittee solicits to perform any of the activities covered by this chapter.

25-12-15.

The ~~Commissioner~~ commissioner may adopt rules and regulations setting forth the proper installation, inspection, recharging, repairing, servicing, or testing of fire suppression systems or portable fire extinguishers. The ~~Commissioner~~ commissioner may adopt by rule the applicable standards of the National Fire Protection Association or another nationally recognized organization, if the standards are judged by him or her to be suitable for the enforcement of this chapter. All fire suppression systems covered by Code Section 25-12-3 and all portable fire extinguishers covered by Code Section 25-12-4 shall be installed, inspected, recharged, repaired, serviced, or tested in compliance with this chapter and with the ~~Commissioner's~~ commissioner's rules and regulations.

25-12-16.

The ~~Commissioner~~ commissioner shall make and promulgate specifications as to the number, type, size, shape, color, and information and data contained thereon of service tags to be attached to all portable fire extinguishers and fire suppression systems covered by this chapter when they are installed, inspected, recharged, repaired, serviced, or tested. It shall be unlawful to install, inspect, recharge, repair, service, or test any portable fire extinguisher or fire suppression system without attaching the required tag or tags completed in detail, including the actual month, day, and year the work was performed, or to use a tag not meeting the specifications set forth by the ~~Commissioner~~ commissioner.

25-12-17.

(a) The violation of any provision of this chapter or any rule or regulation adopted and promulgated pursuant to this chapter or the failure or refusal to comply with any notice or order to correct a violation or any cease and desist order by any person who possesses a license or permit issued pursuant to this chapter or who is required to have a license or permit issued pursuant to this chapter is cause for denial, nonrenewal, revocation, or suspension of such license or permit by the ~~Commissioner~~ commissioner after a determination that such person is guilty of such violations. An order of suspension shall state the period of time of such suspension, which period may not be in excess of two years from the date of such order. An order of revocation shall state the period of time of such revocation, which period may not be in excess of five years from the date of such order. Such order shall effect suspension or revocation of all licenses and permits then held by the person, and during such period of time no license or permit shall be issued to such person. During the suspension or revocation of any license or permit, the licensee or permittee whose license or permit has been suspended or revoked shall not engage in or attempt or profess to engage in any transaction or business for which a license or permit is required under this chapter or directly or indirectly own, control, or be employed in any manner by any firm, business, or corporation for which a license or permit under this chapter is required. If, during the period between the beginning of proceedings and the entry of an order of suspension or

revocation by the ~~Commissioner~~ commissioner, a new license or permit has been issued to the person so charged, the order of suspension or revocation shall operate to suspend or revoke, as the case may be, such new license or permit held by such person.

(b) The department shall not, so long as the revocation or suspension remains in effect, issue any new license or permit for the establishment of any new firm, business, or corporation of any person or applicant that has or will have the same or similar management, ownership, control, employees, permittees, or licensees or will use the same or a similar name as the revoked or suspended firm, business, corporation, person, or applicant.

(c) The ~~Commissioner~~ commissioner may deny, nonrenew, suspend, or revoke the license or permit of:

(1) Any person, firm, business, or corporation whose license has been suspended or revoked under this chapter;

(2) Any firm, business, or corporation if any officer, director, stockholder, owner, or person who has a direct or indirect interest in the firm, business, or corporation has had his or her license or permit suspended under this chapter; and

(3) Any person who is or has been an officer, director, stockholder, or owner of a firm, business, or corporation or who has or had a direct or indirect interest in a firm, business, or corporation whose license or permit has been suspended or revoked under this chapter.

(d) In addition to the grounds set forth in this Code section, it is cause for denial, nonrenewal, revocation, or suspension of a license or permit by the ~~Commissioner~~ commissioner if he or she determines that the licensee or permittee has:

(1) Rendered inoperative a portable fire extinguisher or preengineered or engineered fire suppression system covered by this chapter, except during such time as the extinguisher or preengineered or engineered system is being inspected, recharged, hydrottested, repaired, altered, added to, maintained, serviced, or tested or except pursuant to court order;

(2) Falsified any record required to be maintained by this chapter or rules or regulations adopted pursuant to this chapter or current fire codes enforced by the ~~Commissioner~~ commissioner;

(6) Failed to obtain, retain, or maintain one or more of the qualifications for a license or permit required by this chapter;

(7) Used credentials, methods, means, or practices to impersonate a representative of

the ~~Commissioner~~ commissioner or the state fire marshal or any local fire chief, fire marshal, or other fire authority having jurisdiction;

(8) Installed, recharged, hydrotested, repaired, serviced, modified, altered, inspected, maintained, added to, or tested a portable fire extinguisher or preengineered or engineered fire suppression system without a current, valid license or permit when such license or permit is required by this chapter;

(9) Made a material misstatement or misrepresentation or committed a fraud in obtaining or attempting to obtain a license or permit; or

(10) Failed to notify the ~~Commissioner~~ commissioner, in writing, within 30 days after a change of residence, principal business address, or name.

(e) In addition, the ~~Commissioner~~ commissioner shall not issue a new license or permit if the ~~Commissioner~~ commissioner finds that the circumstance or circumstances for which the license or permit was previously suspended or revoked still exist or are likely to recur.

25-12-18.

(a) Whenever the ~~Commissioner~~ commissioner shall have reason to believe that any individual is or has been violating any provisions of this chapter, the ~~Commissioner~~ commissioner, his or her deputy, his or her assistant, or other designated persons may issue and deliver to the individual an order to cease and desist such violation. An order issued under this Code section may be delivered in accordance with the provisions of subsection (d) of this Code section.

(b) Violation of any provision of this chapter or failure to comply with a cease and desist order is cause for revocation of any or all permits and licenses issued by the ~~Commissioner~~ commissioner for a period of not less than six months and not to exceed five years. If a new permit or license has been issued to the person so charged, the order of revocation shall operate effectively with respect to such new permits and licenses held by such person. In the case of an applicant for a license, certificate, or permit, violation of any provision of this title may constitute grounds for refusal of the application. Decisions under this subsection may be appealed as provided by law.

(c) Any person who violates any provision of this chapter or any rule, regulation, or order issued by the ~~Commissioner~~ commissioner under this chapter shall be subject to a civil penalty imposed by the ~~Commissioner~~ commissioner of not more than \$1,000.00 for a first offense, not less than \$1,000.00 and not more than \$2,000.00 for a second offense, and not less than \$2,000.00 or more than \$5,000.00 for a third or subsequent offense. Prior to subjecting any person or entity to a fine under this subsection, the ~~Commissioner~~ commissioner or his or her agent shall give written notice to the person or entity by hand delivery or by registered or certified mail or statutory overnight delivery, return receipt requested, of the existence of the violations. After a reasonable period of time after notice is given, an order may be issued based on this Code section. Such order must be delivered in accordance with the provisions of subsection (d) of this Code section and must notify the person or entity of the right to a hearing with respect to same.

(d) Any order issued by the ~~Commissioner~~ commissioner under this chapter shall contain or be accompanied by a notice of opportunity for hearing which may provide that a hearing will be held if and only if a person subject to the order requests a hearing within ten days of receipt of the order and notice. The order and notice shall be served by delivery by the ~~Commissioner~~ commissioner or his or her agent or by registered or certified mail or statutory overnight delivery, return receipt requested. Any person who fails to comply with any order under this subsection is guilty of a misdemeanor and may be punished as provided by law.

(e) In addition to other powers granted to the ~~Commissioner~~ commissioner under this chapter, the ~~Commissioner~~ commissioner may bring a civil action to enjoin a violation of any provision of this chapter or of any rule, regulation, or order issued by the ~~Commissioner~~ commissioner under this chapter.

25-12-19.

25-12-20.

Any authority, power, or duty vested in the ~~Commissioner~~ commissioner by any provision of this chapter may be exercised, discharged, or performed by a deputy, assistant, or other designated employee acting in the ~~Commissioner's~~ commissioner's name and by his or her delegated authority. The ~~Commissioner~~ commissioner shall be responsible for the official acts of such persons who act in his or her name and by his or her authority.

(b) All valid agreements, contracts, licenses, permits, certificates, and similar authorizations previously issued by the Safety Fire Commissioner with respect to any function transferred to the Department of Fire Safety shall continue in effect until the same expire by their terms unless they are suspended, revoked, or otherwise made ineffective as provided by law.

(c) Effective July 1, 2019, the commissioner and the Department of Fire Safety shall carry out all of the functions and obligations and exercise all of the powers formerly held by the Safety Fire Commissioner under this chapter."

25-14-3.

- (a) Except as provided in subsection (h) of this Code section, no cigarettes may be sold

or offered for sale in this state or offered for sale or sold to persons located in this state unless the cigarettes have been tested in accordance with the test method and meet the performance standard specified in this Code section, a written certification has been filed by the manufacturer in accordance with Code Section 25-14-4, and the cigarettes have been marked in accordance with Code Section 25-14-5.

(b)(1) Testing of cigarettes shall be conducted in accordance with the American Society of Testing and Materials (ASTM) Standard E2187-04, 'Standard Test Method for Measuring the Ignition Strength of Cigarettes.'

(2) Testing shall be conducted on ten layers of filter paper.

(3) No more than 25 percent of the cigarettes tested in a test trial in accordance with this Code section shall exhibit full-length burns. Forty replicate tests shall comprise a complete test trial for each cigarette tested.

(4) The performance standard required by this Code section shall only be applied to a complete test trial.

(5) Written certifications shall be based upon testing conducted by a laboratory that has been accredited pursuant to standard ISO/IEC 17025 of the International Organization for Standardization (ISO) or other comparable accreditation standard required by the ~~Commissioner~~ commissioner.

(6) Laboratories conducting testing in accordance with this Code section shall implement a quality control and quality assurance program that includes a procedure that will determine the repeatability of the testing results. The repeatability value shall be no greater than 0.19.

(7) This Code section does not require additional testing if cigarettes are tested consistent with this chapter for any other purpose.

(8) Testing performed or sponsored by the ~~Commissioner~~ commissioner to determine a cigarette's compliance with the performance standard required shall be conducted in accordance with this Code section.

(c) Each cigarette listed in a certification submitted pursuant to Code Section 25-14-4 that uses lowered permeability bands in the cigarette paper to achieve compliance with the performance standard set forth in this Code section shall have at least two nominally identical bands on the paper surrounding the tobacco column. At least one complete band shall be located at least 15 millimeters from the lighting end of the cigarette. For cigarettes on which the bands are positioned by design, there shall be at least two bands fully located at least 15 millimeters from the lighting end and ten millimeters from the filter end of the tobacco column, or ten millimeters from the labeled end of the tobacco column for nonfiltered cigarettes.

(d) A manufacturer of a cigarette that the ~~Commissioner~~ commissioner determines cannot be tested in accordance with the test method prescribed in paragraph (1) of subsection (b) of this Code section shall propose a test method and performance standard for the cigarette to the ~~Commissioner~~ commissioner. Upon approval of the proposed test method and a determination by the ~~Commissioner~~ commissioner that the performance standard proposed by the manufacturer is equivalent to the performance standard prescribed in paragraph (3) of subsection (b) of this Code section, the

manufacturer may employ such test method and performance standard to certify such cigarette pursuant to Code Section 25-14-4. If the ~~Commissioner~~ commissioner determines that another state has enacted reduced cigarette ignition propensity standards that include a test method and performance standard that are the same as those contained in this chapter, and the ~~Commissioner~~ commissioner finds that the officials responsible for implementing those requirements have approved the proposed alternative test method and performance standard for a particular cigarette proposed by a manufacturer as meeting the fire safety standards of that state's law or regulation under a legal provision comparable to this Code section, then the ~~Commissioner~~ commissioner shall authorize that manufacturer to employ the alternative test method and performance standard to certify that cigarette for sale in this state, unless the ~~Commissioner~~ commissioner demonstrates a reasonable basis why the alternative test should not be accepted under this chapter. All other applicable requirements of this Code section shall apply to the manufacturer.

(e) Each manufacturer shall maintain copies of the reports of all tests conducted on all cigarettes offered for sale for a period of three years, and shall make copies of these reports available to the ~~Commissioner~~ commissioner and the Attorney General upon written request. Any manufacturer who fails to make copies of these reports available within 60 days of receiving a written request shall be subject to a civil penalty not to exceed \$10,000.00 for each day after the sixtieth day that the manufacturer does not make such copies available.

(f) The ~~Commissioner~~ commissioner may adopt a subsequent ASTM Standard Test Method for Measuring the Ignition Strength of Cigarettes upon a finding that such subsequent method does not result in a change in the percentage of full-length burns exhibited by any tested cigarette when compared to the percentage of full-length burns the same cigarette would exhibit when tested in accordance with ASTM Standard E2187-04 and the performance standard in paragraph (3) of subsection (b) of this Code section.

(g) The ~~Commissioner~~ commissioner shall review the effectiveness of this Code section and report his or her findings every three years to the General Assembly and, if appropriate, recommendations for legislation to improve the effectiveness of this chapter. The report and legislative recommendations shall be submitted no later than June 30 following the conclusion of each three-year period.

(h) The requirements of subsection (a) of this Code section shall not prohibit:

(1) Wholesale or retail dealers from selling their existing inventory of cigarettes on or after January 1, 2010, if the wholesale or retailer dealer can establish that state tax stamps were affixed to the cigarettes prior to January 1, 2010, and if the wholesale or retailer dealer can establish that the inventory was purchased prior to January 1, 2010, in comparable quantity to the inventory purchased during the same period of the prior year; or

(2) The sale of cigarettes solely for the purpose of consumer testing. For purposes of this paragraph, the term 'consumer testing' shall mean an assessment of cigarettes that is conducted by a manufacturer, or under the control and direction of a manufacturer,

for the purpose of evaluating consumer acceptance of such cigarettes, utilizing only the quantity of cigarettes that is reasonably necessary for such assessment.

(i) This chapter shall be implemented in accordance with the implementation and substance of the New York Fire Safety Standards for Cigarettes.

25-14-4.

(a) Each manufacturer shall submit to the ~~Commissioner~~ commissioner a written certification attesting that:

(1) Each cigarette listed in the certification has been tested in accordance with Code Section 25-14-3; and

(2) Each cigarette listed in the certification meets the performance standard set forth in paragraph (3) of subsection (b) of Code Section 25-14-3.

(b) Each cigarette listed in the certification shall be described with the following information:

(1) Brand or trade name on the package;

(2) Style, such as light or ultra light;

(3) Length in millimeters;

(4) Circumference in millimeters;

(5) Flavor, such as menthol or chocolate, if applicable;

(6) Filter or nonfilter;

(7) Package description, such as soft pack or box;

(8) Marking approved in accordance with Code Section 25-14-5;

(9) The name, address, and telephone number of the laboratory, if different from the manufacturer that conducted the test; and

(c) The certifications shall also be made available to the Attorney General for purposes consistent with this chapter and to the state revenue commissioner for the purposes of ensuring compliance with this Code section.

(d) Each cigarette certified under this Code section shall be recertified every three years.

(e) For each cigarette listed in a certification, a manufacturer shall pay to the ~~Commissioner~~ commissioner a fee of \$250.00.

(f) If a manufacturer has certified a cigarette pursuant to this Code section and thereafter makes any change to such cigarette that is likely to alter its compliance with the reduced cigarette ignition propensity standards required by this chapter, that cigarette shall not be sold or offered for sale in this state until the manufacturer retests the cigarette in accordance with the testing standards set forth in Code Section 25-14-3 and maintains records of that retesting as required by Code Section 25-14-3. Any altered cigarette which does not meet the performance standard set forth in Code Section 25-14-3 shall not be sold in this state.

25-14-5.

(a) Cigarettes that are certified by a manufacturer in accordance with Code Section 25-

14-4 shall be marked to indicate compliance with the requirements of Code Section 25-14-3. The marking shall be in eight-point type or larger and consist of:

- (1) Modification of the Universal Product Code to include a visible mark printed at or around the area of the Universal Product Code. The mark may consist of alphanumeric or symbolic characters permanently stamped, engraved, embossed, or printed in conjunction with the Universal Product Code;
 - (2) Any visible combination of alphanumeric or symbolic characters permanently stamped, engraved, or embossed upon the cigarette packaging or cellophane wrap; or
 - (3) Printed, stamped, engraved, or embossed text on the cigarette packaging or cellophane wrap that indicates that the cigarettes meet Georgia standards.
- (b) A manufacturer shall use only one marking and shall apply this marking uniformly for all packages, including but not limited to packs, cartons, and cases, and brands marketed by that manufacturer.
- (c) The ~~Commissioner~~ commissioner shall be notified as to the marking that is selected.
- (d) Prior to the certification of any cigarette, a manufacturer shall present its proposed marking to the ~~Commissioner~~ commissioner for approval. Upon receipt of the request, the ~~Commissioner~~ commissioner shall approve or disapprove the marking offered. The ~~Commissioner~~ commissioner shall approve:

- (1) Any marking in use and approved for sale in New York pursuant to the New York Fire Safety Standards for Cigarettes; or
- (2) The letters 'FSC,' which signifies Fire Standards Compliant, appearing in eight-point type or larger and permanently printed, stamped, engraved, or embossed on the package at or near the Universal Product Code.

Proposed markings shall be deemed approved if the ~~Commissioner~~ commissioner fails to act within ten business days of receiving a request for approval.

- (e) No manufacturer shall modify its approved marking unless the modification has been approved by the ~~Commissioner~~ commissioner in accordance with this Code section.
- (f) Manufacturers certifying cigarettes in accordance with Code Section 25-14-4 shall provide a copy of the certifications to all wholesale dealers and agents to which they sell cigarettes and shall also provide sufficient copies of an illustration of the package marking utilized by the manufacturer pursuant to this Code section for each retail dealer to which the wholesale dealers or agents sell cigarettes. Wholesale dealers and agents shall provide a copy of these package markings received from manufacturers to all retail dealers to which they sell cigarettes. Wholesale dealers, agents, and retail dealers shall permit the ~~Commissioner~~ commissioner, the state revenue commissioner, the Attorney General, and their employees to inspect markings of cigarette packaging marked in accordance with this Code section.

25-14-6.

- (a) A manufacturer, wholesale dealer, agent, or any other person or entity who knowingly sells or offers to sell cigarettes, other than through retail sale, in violation of

Code Section 25-14-3, for a first offense shall be subject to a civil penalty not to exceed \$100.00 ~~dollars~~ for each pack of such cigarettes sold or offered for sale, provided that in no case shall the penalty against any such person or entity exceed \$100,000.00 during any 30 day period.

(b) A retail dealer who knowingly sells or offers to sell cigarettes in violation of Code Section 25-14-3 shall be subject to a civil penalty not to exceed \$100.00 for each pack of such cigarettes, provided that in no case shall the penalty against any retail dealer exceed \$25,000.00 during any 30 day period.

(c) In addition to any penalty prescribed by law, any corporation, partnership, sole proprietor, limited partnership, or association engaged in the manufacture of cigarettes that knowingly makes a false certification pursuant to Code Section 25-14-4 shall be subject to a civil penalty of at least \$75,000.00 and not to exceed \$250,000.00 for each such false certification.

(d) Any person violating any other provision in this chapter shall be subject to a civil penalty for a first offense not to exceed \$1,000.00, and for a subsequent offense subject to a civil penalty not to exceed \$5,000.00, for each such violation.

Such cigarettes shall be turned over to the state revenue commissioner and shall be forfeited to the state. Cigarettes seized pursuant to this subsection shall be destroyed; provided, however, that prior to the destruction of any cigarette seized pursuant to this subsection, the true holder of the trademark rights in the cigarette brand shall be permitted to inspect the cigarette.

25-14-7.

(a) The ~~Commissioner~~ commissioner may promulgate rules and regulations, pursuant to Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act,' necessary to effectuate the purposes of this chapter.

(b) The state revenue commissioner in the regular course of conducting inspections of

wholesale dealers, agents, and retail dealers, as authorized under Chapter 11 of Title 48, may inspect such cigarettes to determine if the cigarettes are marked as required by Code Section 25-14-5. If the cigarettes are not marked as required, the state revenue commissioner shall notify the ~~Commissioner~~ commissioner.

25-14-8.

To enforce the provisions of this chapter, the Attorney General and the ~~Commissioner~~ commissioner, their duly authorized representatives, and other law enforcement personnel shall be authorized to examine the books, papers, invoices, and other records of any person in possession, control, or occupancy of any premises where cigarettes are placed, stored, sold, or offered for sale, as well as the stock of cigarettes on the premises. 25-14-10.

This chapter shall cease to be applicable if federal reduced cigarette ignition propensity standards that preempt this chapter are enacted.

25-14-11.

may adopt sections of the Inspection Code of the National Board of Boiler and Pressure Vessel Inspectors or API 510 of the American Petroleum Institute, as applicable.

(b) The rules and regulations and any subsequent amendments thereto formulated by the ~~office~~ department shall, immediately following a hearing upon not less than 20 days' notice as provided in this article, be approved and published and when so promulgated shall have the force and effect of law, except that the rules applying to the construction of new boilers and pressure vessels shall not become mandatory until 12 months after their promulgation by the ~~office~~ department. Notice of the hearing shall give the time and place of the hearing and shall state the matters to be considered at the hearing. Such notice shall be given to all persons directly affected by such hearing. In the event all persons directly affected are unknown, notice may be perfected by publication in a newspaper of general circulation in this state at least 20 days prior to such hearing.

(c) Subsequent amendments to the rules and regulations adopted by the ~~office~~ department shall be permissive immediately and shall become mandatory 12 months after their promulgation.

25-15-14.

No boiler or pressure vessel which does not conform to the rules and regulations of the ~~office~~ department governing new construction and installation shall be installed and operated in this state after 12 months from the date upon which the first rules and regulations under this article pertaining to new construction and installation shall have become effective, unless the boiler or pressure vessel is of special design or construction and is not inconsistent with the spirit and safety objectives of such rules and regulations, in which case a special installation and operating permit may at its discretion be granted by the ~~office~~ department.

25-15-15.

(a) The maximum allowable working pressure of a boiler carrying the ASME Code symbol or of a pressure vessel carrying the ASME or API-ASME symbol shall be determined by the applicable sections of the code under which it was constructed and stamped. (3) To publish in print or electronically and make available to anyone requesting them copies of the rules and regulations promulgated by the ~~office~~ department;

(4) To issue or to suspend or revoke for cause inspection certificates as provided for in Code Section 25-15-24; and

25-15-18.

The ~~Commissioner~~ commissioner may employ deputy inspectors who shall be responsible to the chief inspector and who shall have had at the time of appointment not less than three years' experience in the construction, installation, inspection, operation, maintenance, or repair of high pressure boilers and pressure vessels as a mechanical engineer, steam operating engineer, boilermaker, or boiler inspector and who shall have passed the examination provided for in Code Section 25-15-20.

25-15-19.

(a) In addition to the deputy inspectors authorized by Code Section 25-15-18 the ~~Commissioner~~ commissioner shall, upon the request of any company licensed to insure and insuring in this state boilers and pressure vessels or upon the request of any company operating pressure vessels in this state for which the owner or user maintains a regularly established inspection service which is under the supervision of one or more technically competent individuals whose qualifications are satisfactory to the ~~office~~ department and causes such pressure vessels to be regularly inspected and rated by such inspection service in accordance with applicable provisions of the rules and regulations adopted by the ~~office~~ department pursuant to Code Section 25-15-13, issue to any inspectors of such insurance company certificates of competency as special inspectors and to any inspectors of such company operating pressure vessels certificates of competency as owner or user inspectors, provided that each such inspector before receiving his or her certificate of competency shall satisfactorily pass the examination provided for by Code Section 25-15-20 or, in lieu of such examination, shall hold a commission or a certificate of competency as an inspector of boilers or pressure vessels for a state that has a standard of examination substantially equal to that of this state or a commission as an inspector of boilers and pressure vessels issued by the National Board of Boiler and Pressure Vessel Inspectors. A certificate of competency as an

owner or user inspector shall be issued to an inspector of a company operating pressure vessels in this state only if, in addition to meeting the requirements stated in this Code section, the inspector is employed full time by the company and is responsible for making inspections of pressure vessels used or to be used by such company and which are not for resale.

(b) Such special inspectors or owner or user inspectors shall receive no salary from nor shall any of their expenses be paid by the state, and the continuance of their certificates of competency shall be conditioned upon their continuing in the employ of the boiler insurance company duly authorized or in the employ of the company so operating pressure vessels in this state and upon their maintenance of the standards imposed by this article.

(c) Such special inspectors or owner or user inspectors may inspect all boilers and pressure vessels insured or all pressure vessels operated by their respective companies; and, when so inspected, the owners and users of such boilers and pressure vessels shall be exempt from the payment to the state of the inspection fees as prescribed in rules and regulations promulgated by the ~~Commissioner~~ commissioner.

25-15-20.

The examination for chief, deputy, special, or owner or user inspectors shall be in writing and shall be held by the ~~office~~ department or by an examining board appointed in accordance with the requirements of the National Board of Boiler and Pressure Vessel Inspectors, with at least two members present at all times during the examination. Such examination shall be confined to questions the answers to which will aid in determining the fitness and competency of the applicant for the intended service and may be those prepared by the National Board of Boiler and Pressure Vessel Inspectors. In case an applicant fails to pass the examination, he or she may appeal to the ~~office~~ department for another examination which shall be given by the ~~office~~ department or the appointed examining board after 90 days. The record of an applicant's examination shall be accessible to the applicant and his or her employer.

25-15-21.

(a) An inspector's certificate of competency may be suspended by the ~~Commissioner~~ commissioner after due investigation for the incompetence or untrustworthiness of the holder thereof or for willful falsification of any matter or statement contained in his or her application or in a report of any inspection made by him or her. department's determination and the right to an appeal as provided in Code Section 25-15-28. If, as a result of such hearing, the inspector has been determined to be no longer qualified to hold his or her certificate of competency, the ~~Commissioner~~ commissioner shall thereupon revoke such certificate of competency forthwith.

(c) A person whose certificate of competency has been suspended shall be entitled to apply, after 90 days from the date of such suspension, for reinstatement of such certificate of competency.

25-15-23.

(a) The ~~Commissioner~~ commissioner, the chief inspector, or any deputy inspector shall have free access, during reasonable hours, to any premises in this state where a boiler or pressure vessel is being constructed for use in, or is being installed in, this state for the purpose of ascertaining whether such boiler or pressure vessel is being constructed and installed in accordance with the provisions of this article.

(b)(1) On and after January 1, 1986, each boiler and pressure vessel used or proposed to be used within this state, except for pressure vessels covered by an owner or user inspection service as described in subsection (d) of this Code section or except for boilers or pressure vessels exempt under Code Section 25-15-16 (owners and users may request to waive this exemption), shall be thoroughly inspected as to their construction, installation, and condition as follows:

(A) Power boilers and high pressure, high temperature water boilers shall receive a certificate inspection annually which shall be an internal inspection where construction permits; otherwise, it shall be as complete an inspection as possible. Such boilers shall also be externally inspected while under pressure, if possible;

(B) Low pressure steam or vapor heating boilers shall receive a certificate inspection biennially with an internal inspection every four years where construction permits;

(C) Hot water heating and hot water supply boilers shall receive a certificate inspection biennially with an internal inspection at the discretion of the inspector;

(D) Pressure vessels subject to internal corrosion shall receive a certificate inspection triennially with an internal inspection at the discretion of the inspector. Pressure vessels not subject to internal corrosion shall receive a certificate of inspection at intervals set by the ~~office~~ department; and

(E) Nuclear vessels within the scope of this article shall be inspected and reported in such form and with such appropriate information as the ~~office~~ department shall designate.

(2) A grace period of two months beyond the periods specified in subparagraphs (A) through (D) of this paragraph may elapse between certificate inspections.

(3) The ~~office~~ department may provide for longer periods between certificate

inspection in its rules and regulations.

(4) Under the provisions of this article, the ~~office~~ department is responsible for providing for the safety of life, limb, and property and therefore has jurisdiction over the interpretation and application of the inspection requirements as provided for in the rules and regulations which it has promulgated. The person conducting the inspection during construction and installation shall certify as to the minimum requirements for safety as defined in the ASME Code. Inspection requirements of operating equipment shall be in accordance with generally accepted practice and compatible with the actual service conditions, such as:

- (A) Previous experience, based on records of inspection, performance, and maintenance;
- (B) Location, with respect to personnel hazard;
- (C) Quality of inspection and operating personnel;
- (D) Provision for related safe operation controls; and
- (E) Interrelation with other operations outside the scope of this article.

Based upon documentation of such actual service conditions by the owner or user of the operating equipment, the ~~office~~ department may, in its discretion, permit variations in the inspection requirements.

(c) The inspections required in this article shall be made by the chief inspector, by a deputy inspector, by a special inspector, or by an owner or user inspector provided for in this article.

(d) Owner or user inspection of pressure vessels is permitted, provided that the owner or user inspection service is regularly established and is under the supervision of one or more individuals whose qualifications are satisfactory to the ~~office~~ department and said owner or user causes the pressure vessels to be inspected in conformance with the National Board Inspection Code or API 510, as applicable.

(e) If, at the discretion of the inspector, a hydrostatic test shall be deemed necessary, it shall be made by the owner or user of the boiler or pressure vessel.

(f) All boilers, other than cast iron sectional boilers, and pressure vessels to be installed in this state after the 12 month period from the date upon which the rules and regulations of the ~~office~~ department shall become effective shall be inspected during construction as required by the applicable rules and regulations of the ~~office~~ department by an inspector authorized to inspect boilers and pressure vessels in this state or, if constructed outside of the state, by an inspector holding a commission issued by the National Board of Boiler and Pressure Vessel Inspectors.

25-15-24.

(a) Each company employing special inspectors shall, within 30 days following each certificate inspection made by such inspectors, file a report of such inspection with the chief inspector upon appropriate forms as promulgated by the ~~Commissioner~~ commissioner. The filing of reports of external inspections, other than certificate inspections, shall not be required except when such inspections disclose that the boiler or pressure vessel is in a dangerous condition.

(b) Each company operating pressure vessels covered by an owner or user inspection service meeting the requirements of subsection (a) of Code Section 25-15-19 shall maintain in its files an inspection record which shall list, by number and such abbreviated description as may be necessary for identification, each pressure vessel covered by this article, the date of the last inspection of each pressure vessel, and the approximate date for the next inspection. The inspection record shall be available for examination by the chief inspector or the chief inspector's authorized representative during business hours.

(c) If the report filed pursuant to subsection (a) of this Code section shows that a boiler or pressure vessel is found to comply with the rules and regulations of the ~~office~~ department, the chief inspector, or his or her duly authorized representative, shall issue to such owner or user an inspection certificate bearing the date of inspection and specifying the maximum pressure under which the boiler or pressure vessel may be operated. Such inspection certificate shall be valid for not more than 14 months from its date in the case of power boilers, 26 months in the case of heating and hot water supply boilers, and 38 months in the case of pressure vessels. In the case of those boilers and pressure vessels covered by subparagraphs (b)(1)(A) through (b)(1)(D) of Code Section 25-15-23 for which the ~~office~~ department has established or extended the operating period between required inspections pursuant to the provisions of paragraphs (3) and (4) of subsection (b) of Code Section 25-15-23, the certificate shall be valid for a period of not more than two months beyond the period set by the ~~office~~ department. Certificates for boilers shall be posted under glass, or similarly protected, in the room containing the boiler. Pressure vessel certificates shall be posted in like manner, if convenient, or filed where they will be readily accessible for examination.

(d) No inspection certificate issued for an insured boiler or pressure vessel based upon a report of a special inspector shall be valid after the boiler or pressure vessel for which it was issued shall cease to be insured by a company duly authorized by this state to provide such insurance.

(e) The ~~Commissioner~~ commissioner or the ~~Commissioner's~~ commissioner's authorized representative may at any time suspend an inspection certificate after showing cause that the boiler or pressure vessel for which it was issued cannot be operated without menace to the public safety or when the boiler or pressure vessel is found not to comply with the rules and regulations adopted pursuant to this article. Each suspension of an inspection certificate shall continue in effect until such boiler or pressure vessel shall have been made to conform to the rules and regulations of the ~~office~~ department and until such inspection certificate shall have been reinstated.

(f) The ~~Commissioner~~ commissioner or the ~~Commissioner's~~ commissioner's authorized representative may issue a written order for the temporary cessation of operation of a boiler or pressure vessel if it has been determined after inspection to be hazardous or unsafe. Operations shall not resume until such conditions are corrected to the satisfaction of the ~~Commissioner~~ commissioner or his or her authorized representative.

25-15-25.

(a) Boilers and pressure vessels, subject to operating certificate inspections by special, owner, or user inspectors, shall be inspected within 60 calendar days following the required reinspection date. Inspections not performed within this 60 calendar day period shall result in a civil penalty of \$500.00 for each boiler or pressure vessel not inspected.

(b)(1) Inspection fees due on boiler and pressure vessels subject to inspection by the chief or deputy inspectors or operating certificate fees due from inspections performed by special, or owner or user, inspectors shall be paid within 60 calendar days of completion of such inspections.

(2) Inspection fees or operating certificate fees unpaid within 60 calendar days shall bear interest at the rate of 1.5 percent per month or any fraction of a month. Interest shall continue to accrue until all amounts due, including interest, are received by the ~~Commissioner~~ commissioner.

(c) The ~~Commissioner~~ commissioner may waive the collection of the penalties and interest assessed as provided in subsections (a) and (b) of this Code section when it is reasonably determined that the delays in inspection or payment were unavoidable or due to the action or inaction of the ~~office~~ department.

25-15-26.

It shall be unlawful for any person, firm, partnership, or corporation to operate in this state a boiler or pressure vessel, except a pressure vessel covered by owner or user inspection service as provided for in Code Section 25-15-24, without a valid inspection certificate. The operation of a boiler or pressure vessel without such inspection certificate or at a pressure exceeding that specified in such inspection certificate or in violation of this article shall constitute a misdemeanor.

25-15-27.

The owner or user of a boiler or pressure vessel required by this article to be inspected by the chief inspector or a deputy inspector shall pay directly to the chief inspector, upon completion of inspection, fees as prescribed in rules and regulations promulgated by the ~~Commissioner~~ commissioner; provided, however, that, with respect to pressure vessel certificates of inspection, such fees shall not exceed \$10.00 per annum. The chief inspector shall transfer all fees so received to the general fund of the state treasury. All funds so deposited in the state treasury are authorized to be appropriated by the General Assembly to the ~~Safety Fire Commissioner~~ commissioner.

25-15-28.

(a) Any person aggrieved by an order or an act of the ~~Commissioner~~ commissioner or the chief inspector under this article may, within 15 days of notice thereof, request a hearing before an administrative law judge of the Office of State Administrative Hearings, as provided by Code Section 50-13-41.

(b) Any person aggrieved by a decision of an administrative law judge may file an appeal pursuant to Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.'

25-15-29.

No county, municipality, or other political subdivision shall have the power to make any laws, ordinances, or resolutions providing for the construction, installation, inspection, maintenance, and repair of boilers and pressure vessels within the limits of such county, municipality, or other political subdivision; and any such laws, ordinances, or resolutions shall be void and of no effect.

25-15-30.

Neither this article nor any provision of this article shall be construed to place any liability on the State of Georgia, the ~~office~~ department, or the ~~Commissioner~~ commissioner with respect to any claim by any person, firm, or corporation relating in any way whatsoever to boilers and pressure vessels and any injury or damages arising therefrom.

25-15-53.

(a) The ~~office~~ department shall formulate standards and regulations, or changes to such standards and regulations, for the safe assembly, disassembly, repair, maintenance, use, operation, and inspection of all amusement rides. The standards and regulations shall be reasonable and based upon generally accepted engineering standards, formulas, and practices pertinent to the industry. Formulation and promulgation of such standards and regulations shall be subject to Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' It is recognized that risks presented to the general public by amusement rides which are frequently assembled and disassembled are different from those presented by amusement rides which are not frequently assembled and disassembled. Accordingly, the ~~office~~ department is authorized to formulate different standards and regulations with regard to such differing classes of amusement rides.

(b) The ~~office~~ department shall:

25-15-58.

The ~~office~~ department shall issue a permit to operate an amusement ride to the owner thereof upon successful completion of a safety inspection of the amusement ride conducted by a licensed inspector and upon receiving an application for permit with a certificate of insurance. The permit shall be valid for the calendar year in which issued.

The owner of the amusement ride shall report to the ~~office~~ department any accident resulting in a fatality or an injury requiring immediate inpatient overnight hospitalization incurred during the operation of any amusement ride. The report shall be in writing, shall describe the nature of the occurrence and injury, and shall be mailed by first-class mail no later than the close of the next business day following the accident. Accidents resulting in a fatality shall also be reported immediately to the ~~office~~ department in person or by phone in accordance with regulations adopted by the ~~office~~ department.

The imposition of a penalty for a violation of this article or the rules and regulations promulgated under this article shall not excuse the violation or permit it to continue.

25-15-67.

The owner or operator of an amusement ride may deny entry to a person to an amusement ride if in the owner's or operator's opinion the entry may jeopardize the safety of such person or the safety of any other person. Nothing in this Code section shall permit an owner or operator to deny an inspector access to an amusement ride when such inspector is acting within the scope of his or her duties under this article.

25-15-68.

Neither this article nor any provision of this article shall be construed to place any

liability on the State of Georgia, the ~~office~~ department, or the ~~Commissioner~~ commissioner with respect to any claim by any person, firm, or corporation relating in any way whatsoever to amusement rides and any injury or damages arising therefrom.

25-15-69.

No county, municipality, or other political subdivision shall have the power to pass ordinances, resolutions, or other requirements regulating the construction, installation, inspection, maintenance, repair, or operation of amusement rides within the limits of such county, municipality, or other political subdivision. Any such ordinances, resolutions, or other requirements shall be void and of no effect; provided, however, that the provisions of this Code section shall not apply to local zoning ordinances or ordinances regulating location, siting requirements, or other development standards or conditions relative to amusement rides or their time of operation or noise levels generated. Nothing in this article preempts the imposition of regulatory fees or occupation taxes imposed by counties and municipalities pursuant to Chapter 13 of Title 48.

25-15-87.

The office department may waive the requirement of Code Section 25-15-86 if the owner of a carnival ride gives satisfactory proof to the office department that the carnival ride has passed an inspection conducted by a federal agency or by another state whose standards and regulations for the inspection of such a carnival ride are at least as stringent as those adopted pursuant to this article.

25-15-88.

The office department shall issue a permit to operate a carnival ride to the owner thereof upon successful completion of a safety inspection by a licensed inspector, upon completion by the owner of the application for a permit, and upon presentation of a certificate of inspection or waiver thereof by the office department. The permit shall be valid for the calendar year in which issued.

25-15-89.

25-15-95.

This article shall not be construed so as to prevent the use of any existing carnival ride found to be in a safe condition and to be in conformance with the standards and regulations adopted pursuant to this article.

25-15-96.

(a) The ~~Commissioner~~ commissioner or the ~~Commissioner's~~ commissioner's authorized representative may issue a written order for the temporary cessation of operation of a carnival ride if it has been determined after inspection to be hazardous or unsafe. Operations shall not resume until such conditions are corrected to the satisfaction of the ~~Commissioner~~ commissioner or the ~~Commissioner's~~ commissioner's authorized representative.

(b) In the event that an owner or operator knowingly allows the operations of a carnival ride after the issuing of a temporary cessation, the ~~Commissioner~~ commissioner or the ~~Commissioner's~~ commissioner's authorized representative may initiate in the superior court any action for an injunction or writ of mandamus upon the petition of the district attorney or Attorney General. An injunction, without bond, may be granted by the superior court to the ~~Commissioner~~ commissioner for the purpose of enforcing this article.

(c)(1) Any person, firm, partnership, or corporation violating the provisions of this article shall be guilty of a misdemeanor. Each day of violation shall constitute a separate offense.

(2) In addition to the penalty provisions in paragraph (1) of this subsection, the ~~Commissioner~~ commissioner shall have the power, after notice and hearing, to levy civil penalties as prescribed in the rules and regulations of the ~~office~~ department in an amount not to exceed \$5,000.00 upon any person, firm, partnership, or corporation failing to adhere to the requirements of this article and the rules and regulations promulgated under this article. The imposition of a penalty for a violation of this article or the rules and regulations promulgated under this article shall not excuse the violation or permit it to continue.

25-15-97.

The owner or operator of a carnival ride may deny entry to a person to a carnival ride if in the owner's or operator's opinion the entry may jeopardize the safety of such person or the safety of any other person. Nothing in this Code section shall permit an owner or

operator to deny an inspector access to a carnival ride when such inspector is acting within the scope of his or her duties under this article.

25-15-98.

(a) The owner or operator of a carnival ride shall post a clearly visible sign at the location of each ride and at the location of ~~tickets~~ ticket sales for each ride which states any age, weight, or height requirements of the ride which are necessary as a safeguard against injury.

(b) It shall be unlawful for any owner or operator to permit entry to a carnival ride to any person who does not meet the posted age, size, and weight requirements for such ride.

25-15-99.

The owner of any itinerant carnival ride which is located within this state shall continuously maintain in this state a registered agent of record who may be an individual who resides in the state and whose business address is identical with the address of the owner's required office.

25-15-100.

Neither this article nor any provision of this article shall be construed to place any liability on the State of Georgia, the ~~office~~ department, or the ~~Commissioner~~ commissioner with respect to any claim by any person, firm, or corporation relating in any way whatsoever to carnival rides and any injury or damages arising therefrom.

25-15-101.

No county, municipality, or other political subdivision shall have the power to pass ordinances, resolutions, or other requirements regulating the construction, installation, inspection, maintenance, repair, or operation of carnival rides within the limits of such county, municipality, or other political subdivision. Any such ordinances, resolutions, or other requirements shall be void and of no effect; provided, however, that the provisions of this Code section shall not apply to local zoning ordinances or ordinances regulating location, siting requirements, or other development standards or conditions relative to carnival rides or their time of operation or noise levels generated. Nothing in this article preempts the imposition of regulatory fees or occupation taxes imposed by counties and municipalities pursuant to Chapter 13 of Title 48.

ARTICLE 5

(2) ~~The Commissioner~~ commissioner of fire safety shall attach to every scaffold, staging, mechanism, or mechanical device inspected by him or her a certificate bearing the ~~Commissioner's~~ commissioner of fire safety's name and the date of inspection, and the certificate shall plainly state whether he or she has found the scaffolding, staging, or mechanical device 'safe' or 'unsafe.'

(3) If the ~~Commissioner~~ commissioner of fire safety finds any scaffolding, staging, or mechanical device complained of to be unsafe, the ~~Commissioner~~ commissioner of fire safety shall at once notify in writing the person responsible for the erection and maintenance of the scaffolding, staging, or mechanical device that the ~~Commissioner~~ commissioner of fire safety has found it to be unsafe. Such notice may be served personally upon the person responsible under the law or may be perfected by affixing such notice in a conspicuous place on the scaffold, staging, or mechanical device found unsafe. The manner of service shall be within the discretion of the ~~Commissioner~~ commissioner of fire safety. The ~~Commissioner~~ commissioner of fire safety shall then prohibit the use of such scaffolding, staging, or mechanical device by any person until all danger has been removed or until it has been made to comply with the terms of this Code section by alteration, reconstruction, demolition, or replacement, as the ~~Commissioner~~ commissioner of fire safety may direct.

- (b) Any person who produces a mixture may, for the purposes of this Code section, prepare and use a mixture material safety data sheet, subject to the provisions of subsection (j) of this Code section.
- (c) A manufacturer, importer, distributor, or employer may provide the information

required by this Code section on an entire mixture, instead of on each hazardous chemical in it, when all of the following conditions exist:

(1) Toxicity test information exists on the mixture itself or adequate information exists to form a valid judgment of the hazardous properties of the mixture itself and the material safety data sheet indicates that the information presented and the conclusions drawn are from some source other than direct test data on the mixture itself, and that a material safety data sheet on each constituent hazardous chemical identified on the material safety data sheet is available upon request;

(2) Provision of information on the mixture will be as effective in protecting employee health as information on the ingredients;

(3) The hazardous chemicals in the mixture are identified on the material safety data sheet unless it is unfeasible to describe all the ingredients in the mixture, provided that the reason why the hazardous chemicals in the mixture are not identified shall be stated on the material safety data sheet; and

(4) A single mixture material safety data sheet may be provided for more than one formulation of a product mixture if the information provided does not vary for the formulation.

(e) Any person subject to the provisions of this Code section shall be relieved of the obligation to provide a direct purchaser of a hazardous chemical with a material safety data sheet if:

(1) He or she has a record of having provided the direct purchaser with the most recent version of the material safety data sheet;

(2) The chemical is labeled pursuant to:

(A) The federal Atomic Energy Act; or

(B) The federal Resource Conservation Recovery Act; or

(3) The article is one sold at retail and is incidentally sold to an employer or the employer's employees in the same form, approximate amount, concentration, and manner as it is sold to consumers, and, to the seller's knowledge, employee exposure to the article is not significantly greater than the consumer exposure occurring during the principal consumer use of the article.

(f) If an employer is not supplied with a material safety data sheet by a manufacturer, importer, or distributor for a hazardous chemical subject to this Code section, such employer shall, within a reasonable amount of time after discovering that a material safety data sheet has not been supplied, use diligent efforts to obtain such material

safety data sheet from the manufacturer, importer, or distributor. For purposes of this subsection, 'diligent efforts' means a prompt inquiry by the employer to the manufacturer, importer, or distributor of the hazardous chemicals; provided, however, that an independent contractor or subcontractor shall be responsible for obtaining the material safety data sheet for his or her employees in the workplace of another.

(g) If after having used diligent efforts, an employer still fails to obtain a material safety data sheet, such employer shall notify the department of the employer's inability to obtain such material safety data sheet.

(h) An employer who has used diligent efforts and who has made a documented notification to the department pursuant to this Code section shall not be found in violation of this Code section with respect to the material safety data sheet which was not supplied by the manufacturer, importer, or distributor as required by this Code section.

(i) Every employer who manufactures, produces, uses, applies, or stores hazardous chemicals in the workplace shall post a notice as prescribed by rule or regulation promulgated by the department in a place where notices are normally posted, informing employees of their rights under this chapter.

(j) Every employer who manufactures, produces, uses, applies, or stores hazardous chemicals in the workplace shall maintain a material safety data sheet for each hazardous chemical which is present in such workplace. All material safety data sheets shall be readily available in the workplace; provided, however, that employers who maintain one or more work areas which are not fixed at specific geographic locations shall be authorized to maintain material safety data sheets for each hazardous chemical used in such work area at a central location.

(k)(1) A material safety data sheet may be kept in any form, including operations procedures, and may be designed to cover groups of hazardous chemicals in a work area where it may be appropriate to address the hazards of a process rather than individual hazardous chemicals. The employer shall ensure that in all cases the required information is provided for each hazardous chemical, and is readily accessible during each workshift to employees when they are in their work area; provided, however, that employers who maintain one or more work areas which are not fixed at specific geographic locations shall be authorized to maintain material safety data sheets for each hazardous chemical used in such work area at a central location.

(2) Any employee may request in writing and shall have the right to examine and obtain the material safety data sheets for the hazardous chemicals to which he or she is, has been, or may be exposed. The employer shall provide any material safety data sheet within its possession within five of the requesting employee's working days, subject to the provisions of subsection (g) of this Code section. The employer may adopt reasonable procedures for acting upon such requests to avoid interruption of normal work operations.

(3) An independent contractor or subcontractor working in the workplace of another employer may request in writing and shall have the right to examine the material

safety data sheets for the hazardous chemicals to which such contractor, subcontractor, or employees thereof are, have been, or may be exposed. The employer shall provide any material safety data sheet within its possession within five of the requesting independent contractor's or subcontractor's working days, subject to the provisions of subsection (g) of this Code section. The employer may adopt reasonable procedures for acting upon such requests to avoid interruption of normal work operations.

(4) If an employee who has requested a material safety data sheet pursuant to this chapter has not received such material safety data sheet within five of the requesting employee's working days, subject to the provisions of subsection (g) of this Code section, that employee may refuse to work with the chemical for which he or she has requested the material safety data sheet until such material safety data sheet is provided by the employer; provided, however, that nothing contained in this paragraph shall be construed to permit any employee to refuse to perform essential services, as such term is defined by rule or regulation; provided, further, that nothing in this paragraph shall be construed to interfere with the right of the employer to transfer an employee who so refuses to work to other duties until such material safety data sheet is provided, such a transfer not to be considered as a discriminatory act under Code Section 45-22-10. No pay, position, seniority, or other benefits shall be lost for exercise of any right provided by this chapter as a result of such a transfer.

(l) No employer shall discharge or otherwise discriminate against an employee for the employee's assertion of the employee's rights under this chapter.

(m) For the purposes of this Code section, an employer, independent contractor, or subcontractor shall maintain material safety data sheets for their own workplaces only; provided, however, that employees of such independent contractor or subcontractor, insofar as they are exposed in the course of their employment to hazardous chemicals in other workplaces, shall have the right to examine material safety data sheets for those chemicals to which they are exposed from the workplace employer through a written request to their own employer as provided in paragraph (2) of subsection (k) of this Code section. Nothing contained in this chapter shall be construed to require an employer to conduct studies to develop new information.

45-22-8.

(a) Each employer shall be required to comply with the minimum information standards set forth in this subsection. Each employee shall be informed of:

- (1) The requirements of this Code section;
- (2) What a material safety data sheet is and the contents of the material safety data sheet for any hazardous chemical to which he or she is exposed, or equivalent information, either in written form or through training programs;
- (3) Any operations in his or her work area where hazardous chemicals are present;
- (4) The location and availability of training programs;
- (5) His or her right to receive information regarding hazardous chemicals to which he or she may be exposed;

(6) His or her right for his or her physician to receive information regarding hazardous chemicals to which the employee may be exposed; and

(7) His or her right against discharge or other discrimination due to the employee's exercise of the rights provided by this chapter.

(b) In addition to providing the information required by subsection (a) of this Code section, each employer shall be required to provide a training program for all employees who are exposed to hazardous chemicals in the normal course of their employment. When training employees who are exposed to hazardous chemicals, the employer shall explain any physical or health hazards associated with the use of the chemical or mixture; proper precautions for handling; necessary personal protective equipment or other safety precautions necessary to prevent or minimize exposure to the hazardous chemical; methods of observation that may be used to detect the presence or release of a hazardous chemical in a work area, including, but not limited to, spot check monitoring, continuous monitoring, or methods of visual or olfactory detection; the labeling system and the material safety data sheet, and how employees can obtain and use the appropriate hazard information; and emergency procedures for spills, fire, disposal, and first aid. This information may relate to an entire class of hazardous chemicals to the extent appropriate and related to the job. Whenever any employer receives a new or revised material safety data sheet, such information shall be provided to employees on a timely basis not to exceed 30 days after receipt, if the new information indicates significantly increased risks to or measures necessary to protect employee health as compared to those stated on a material safety data sheet previously provided.

(c) The department shall by rule or regulation establish minimum information and training standards for compliance with this Code section.

45-22-9.

On and after July 1, 1989, each employer shall publish in print or electronically in January and July of each year a list of hazardous chemicals that its employees use or are exposed to in the workplace. Such list shall be available for public inspection at the workplace office. A comprehensive list of all hazardous chemicals used by the employer shall also be available for public inspection at the employer's state headquarters.

45-22-10.

(a) No person shall discharge or cause to be discharged or otherwise discipline or in any manner discriminate against any employee for any of the following reasons:

(1) The employee has requested information regarding hazardous chemicals, filed any complaint or action, or has instituted, or caused to be instituted, any proceeding under this chapter;

(2) The employee has testified or is about to testify in any proceeding in his or her own behalf or on behalf of others; or

(3) The employee has exercised any other right afforded pursuant to the provisions of

this chapter.

(b) No pay, position, seniority, or other benefits shall be lost for exercise of any right provided by this chapter.

45-22-11.

(a) In order to enforce the provisions of this chapter, any employee adversely affected by a violation of this chapter by that employee's employer may file a grievance in accordance with the employer's established grievance procedures. Appointing authorities shall pursue all complaints concerning occupational exposure to hazardous chemicals.

(b) Upon any violation of Code Section 45-22-4 by a contractor, the employer under agreement with such contractor shall have the right to terminate the contract without liability.

(c) Nothing in this chapter shall change or modify the right or ability of employers to dismiss or discipline employees in accordance with the laws of this state.

(d) Any employee dissatisfied with a final decision of an appointing authority with regard to a grievance filed pursuant to subsection (a) of this Code section shall be entitled to judicial review in the same manner as provided for judicial review of contested cases in Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.'

45-22-12.

Nothing in this chapter shall be construed to constitute a waiver of the sovereign immunity of the state or any branch, department, board, bureau, commission, authority, or other agency of the state. A violation of the provisions of this chapter shall not be the basis for an action for damages against the state or any branch, department, board, bureau, commission, authority, or other agency of the state or any member, officer, or employee of the state or any branch, department, board, bureau, commission, authority, or other agency of this state and said entities and persons are granted immunity from civil actions for damages for any violation of the provisions of this chapter."

Honorable Paul Battles, Chairman
House Retirement Committee
State Capitol, Room 401-K

SUBJECT: Actuarial Investigation
House Bill 398 (LC 43 0574)
Peace Officers' Annuity and Benefit Fund

Dear Chairman Battles:

This bill would amend provisions relating to membership in the Peace Officers' Annuity and Benefit Fund. Specifically, this bill would allow persons employed as investigators by the Georgia Board of Dentistry to become members of the Fund, provided they are P.O.S.T. certified. The provisions of this bill would require the Georgia Board of Dentistry to pay an employer contribution for each member that is equivalent to the full actuarial cost of participation.

The first year cost of this bill would be \$936 in order to meet the concurrent funding requirements of O.C.G.A. §47-20-50. This is the cost necessary to fund the normal cost. This cost estimate is based on current member data, actuarial assumptions, and actuarial methods. It should be noted that changes in any of these variables could affect the cost estimate for this legislation. Any future costs would be paid through revenue generated from fines, fees, and bond forfeitures.

The following is a summary of the relevant findings of the actuarial investigation for this bill pursuant to a request by the House Retirement Committee. The investigation was to be conducted according to O.C.G.A. §47-20-36, which outlines the factors to be considered in an actuarial investigation. The figures are based on employee data and the most recent actuarial assumptions and methods.

(1)	The amount of the unfunded actuarial accrued liability which will result from the bill.	\$ <u>0</u>
(2)	The amount of the annual amortization of the unfunded actuarial accrued liability which will result from the bill.	\$ <u>0</u>
(3)	The number of years that the unfunded actuarial accrued liability created by this bill would be amortized.	<u>N/A</u>
(4)	The amount of the annual normal cost which will result from the bill.	\$ <u>936</u>
(5)	The employer contribution rate currently in effect.	<u>A portion of fines, fees, and bond forfeitures</u>
(6)	The employer contribution rate recommended (in conformity with minimum funding standards specified in Code Section §47-20-10).	<u>A portion of fines, fees, and bond forfeitures</u>
(7)	The total dollar amount of the increase in the annual employer contribution which is necessary to maintain the retirement system in an actuarially sound condition.	\$ <u>0*</u>

**According to the actuary, the first year cost of this legislation is \$936. However, the required employer contribution would not need to increase since this Fund is in a well-funded position. Currently, the amount of revenue generated from fines, fees, and bond forfeitures is sufficient to cover the additional costs associated with this bill and to ensure the Fund remains funded in accordance with the State's minimum funding standards.*

It should be noted that any subsequent changes in the retirement bill will invalidate the actuarial investigation and the findings included therein.

Respectfully,

/s/ Greg S. Griffin
State Auditor

SECTION 6.

Said chapter is further amended by adding a new Code section to read as follows:

"7-1-296.

(a) For purposes of this Code section, the term 'federal power' means any banking or corporate power, right, benefit, privilege, or immunity of a national bank, the deposits of which are federally insured, that may be exercised by a national bank doing business in this state pursuant to the National Bank Act, 12 U.S.C. Section 1, et seq.; any other federal statute; or any regulation, ruling, circular, bulletin, order, or interpretation issued by the Office of the Comptroller of the Currency. Such term shall include only the provisions set forth above which were effective on January 1, 2018.

(b) Notwithstanding any other provisions of law, a bank may exercise any federal power while a national bank may also exercise such power subject to the same limitations and restrictions as are applicable to national banks, provided that the requirements of subsection (d) of this Code section have been satisfied. Nothing in this subsection shall be construed as authorizing a bank chartered by this state to exercise a federal power prior to compliance with subsection (d) of this Code section.

(c) Notwithstanding any other provisions of law, to the extent the National Bank Act, 12 U.S.C. Section 1, et seq., or any other federal law or regulation in effect on January 1, 2018, precludes or preempts or has been determined to preclude or preempt the application of any provision of law, rule, or regulation of this state, as to any national bank doing business in this state, a bank may also exercise such power authorized by the preclusion or preemption subject to the same limitations and restrictions as are applicable to a national bank, provided that the requirements of subsection (d) of this Code section have been satisfied. Nothing in this subsection shall be construed as authorizing a bank chartered by this state to exercise a federal power prior to compliance with subsection (d) of this Code section.

(d) In furtherance of the commissioner's statutory duties to regulate, supervise, and examine, a bank shall notify the commissioner in writing by certified or registered mail that, pursuant to subsection (b) or (c) of this Code section, it intends to exercise a federal power or to avail itself of any federal preclusion or preemption of any provision of law, rule, or regulation of this state. Such notice shall include the specific federal authorization of the activity to be utilized, the proposed action to be undertaken by the bank, documentation indicating that the bank satisfies the prescribed federal standards, if any, to engage in the activity, and such other information as may be required by the department. Upon receipt of such notice, the commissioner shall determine whether the

exercise of any federal power or the availing of any federal preclusion or preemption, or any part thereof, by the bank is inconsistent with the purposes of this chapter or presents undue risk to the safety and soundness of the banking system. In making such a determination, the commissioner shall consider the financial condition of the bank, the regulatory safety and soundness ratings of the bank, the ability of bank management to administer and supervise the activity, and the overall impact on the safety and soundness to all other state chartered banks. Based on such a determination, the commissioner may object to the exercise of the federal power, in whole or in part, or to the federal preclusion or preemption of the law, rule, or regulation of this state, in whole or in part, including objecting to a level or quantity above which a bank may be seeking to exercise a federal power or availing itself of any federal preclusion or preemption of law, rule, or regulation of this state. If the commissioner so objects, the commissioner shall deliver such objection in writing by certified or registered mail to the bank within 45 days of receipt of the notice; provided, however, that the commissioner may extend such period of review for an additional 45 days by providing the bank with written notice of such extension prior to the expiration of the initial notice period. If the commissioner sends such an objection, the federal power, preclusion, or preemption, or the part thereof, objected to by the commissioner shall not be exercised by the bank pursuant to subsections (b) and (c) of this Code section. The objection by the commissioner of a bank's intent to exercise a federal power or avail itself of any federal preclusion or preemption shall not preclude such bank from providing notice to the department of its intent to exercise the same federal power or to avail itself of the same federal preclusion or preemption at a later date; provided, however, that the requirements of this subsection shall be applicable for any such additional notice. Further, in the event a bank determines, after satisfying the notice provisions of this subsection, that it no longer wishes to exercise a federal power or avail itself of any federal preclusion or preemption, then such bank shall provide written notice of such fact to the commissioner by certified or registered mail.

(e) Notwithstanding the provisions of Code Section 7-1-70, the department shall publish information stating the federal powers that are being exercised or federal preemptions or preclusions that are being utilized by each bank. All other information related to the notices or objections provided under subsection (d) of this Code section are governed by Code Section 7-1-70.

(f) Notwithstanding any other provisions of law, a bank may exercise any power that was granted through an order or ruling declared by the commissioner on or before January 1, 2018, pursuant to the current or former provisions of Code Section 7-1-61, 7-1-61.1, or 7-6A-12 and which has not been rescinded or withdrawn.

(g) Any federal power or activity authorized and exercised or conducted pursuant to this Code section shall be independent from, and in addition to, any other powers granted to banks under applicable laws of this state or rules or regulations promulgated thereunder. The express and incidental powers granted to banks under the Official Code of Georgia Annotated are not limited or otherwise restricted by this Code section.

(h) Nothing in this Code section shall be construed as limiting the commissioner's

authority conferred by this chapter, including the powers granted under Code Sections 7-1-61 and 7-1-61.1.

(i) Nothing in this Code section shall be construed as authorizing the imposition of interest rates by a bank in excess of those authorized by Chapter 4 of this title nor shall any provision of this Code section be construed as permitting a bank to make loans in violation of Chapter 17 of Title 16."

SECTION 7.

Said chapter is further amended in Code Section 7-1-414, relating to purchase, redemption, and convertibility of shares and debt securities, by revising subsection (c) as follows:

"(c) With the written approval of the department, and a resolution of the board of directors, ~~and a two-thirds' affirmative vote of the shares entitled to vote,~~ a bank or trust company may acquire issued shares of its own common stock, which will then be considered treasury shares. The department shall consider whether the acquisition has a legitimate corporate purpose, whether any capital impairment would result, and whether the price of the shares reflects fair market value."

SECTION 8.

Said chapter is further amended in Code Section 7-1-484, relating to oath of directors of banks and trust companies and liability of persons who have not subscribed to such oath, by adding a new subsection to read as follows:

(C) The appropriation, in violation of his or her duties, of any business opportunity of the bank or trust company;

(2) To enjoin a proposed unlawful conveyance, assignment, or transfer of corporate

assets or other unlawful corporate transaction, where there is sufficient evidence that it will be made;

(3) To set aside an unlawful conveyance, assignment, or transfer of corporate assets, where the transferee knew of its unlawfulness and is made a party to the action."

"(e) Notwithstanding the foregoing, a bank or trust company may provide ~~through and amendment to~~ in its articles of incorporation for the elimination or limitation of the personal liability of a director to the bank or trust company or its shareholders ~~of the bank or trust company~~ to the same extent as a business corporation incorporated under the provisions of Chapter 2 of Title 14, ~~provided that such an amendment to the articles of incorporation must be adopted by the affirmative vote of two thirds of the total shares outstanding.~~"

(3) Whenever a meeting of shareholders is called for the purpose of taking action on a plan, the notice for such meeting ~~The notice~~ shall include a copy or summary of the plan and a full statement of the rights and remedies of dissenting shareholders, the method of exercising them, and the limitations on such rights and remedies."

The approval of all loans to officers, directors, and committee members, ~~and employees~~ of the credit union shall be reported to the board of directors at its next meeting."

SECTION 17.

Said chapter is further amended by adding a new Code section to read as follows:

"7-1-671.

(a) For purposes of this Code section, the term 'federal power' means any banking or corporate power, right, benefit, privilege, or immunity of a federal credit union, the deposits of which are federally insured, that may be exercised by a federal credit union doing business in this state pursuant to the Federal Credit Union Act, 12 U.S.C. Section 1751, et seq.; any other federal statute; or any regulation, ruling, circular, bulletin, order, or interpretation issued by the National Credit Union Administration. Such term shall include only the provisions set forth above which were effective on January 1, 2018.

(b) Notwithstanding any other provisions of law, a credit union may exercise any federal power while a federal credit union may also exercise such power subject to the same limitations and restrictions as are applicable to federal credit unions, provided that the requirements of subsection (d) of this Code section have been satisfied. Nothing in this subsection shall be construed as authorizing a credit union incorporated or organized in this state to exercise a federal power prior to compliance with subsection (d) of this Code section.

(c) Notwithstanding any other provisions of law, to the extent the Federal Credit Union Act, 12 U.S.C. Section 1751, et seq., or any other federal law or regulation in effect on January 1, 2018, precludes or preempts or has been determined to preclude or preempt the application of any provision of law, rule, or regulation of this state as to any federal

credit union doing business in this state, a credit union may also exercise such power authorized by the preclusion or preemption subject to the same limitations and restrictions as are applicable to a federal credit union, provided that the requirements of subsection (d) of this Code section have been satisfied. Nothing in this subsection shall be construed as authorizing a credit union incorporated or organized in this state to exercise a federal power prior to compliance with subsection (d) of this Code section.

(d) In furtherance of the commissioner's statutory duties to regulate, supervise, and examine, a credit union shall notify the commissioner in writing by certified or registered mail that, pursuant to subsection (b) or (c) of this Code section, it intends to exercise a federal power or to avail itself of any federal preclusion or preemption of any provision of law, rule, or regulation of this state. Such notice shall include the specific federal authorization of the activity to be utilized, the proposed action to be undertaken by the credit union, documentation indicating that the credit union satisfies the prescribed federal standards, if any, to engage in the activity, and such other information as may be required by the department. Upon receipt of such notice, the commissioner shall determine whether the exercise of any federal power or the availing of any federal preclusion or preemption, or any part thereof, by the credit union is inconsistent with the purposes of this chapter or presents undue risk to the safety and soundness of the banking system. In making such a determination, the commissioner shall consider the financial condition of the credit union, the regulatory safety and soundness ratings of the credit union, the ability of credit union management to administer and supervise the activity, and the overall impact on the safety and soundness to all other state chartered credit unions. Based on such a determination, the commissioner may object to the exercise of the federal power, in whole or in part, or to the federal preclusion or preemption of the law, rule, or regulation of this state, in whole or in part, including objecting to a level or quantity above which a credit union may be seeking to exercise a federal power or availing itself of any federal preclusion or preemption of law, rule, or regulation of this state. If the commissioner so objects, the commissioner shall deliver such objection in writing by certified or registered mail to the credit union within 45 days of receipt of the notice; provided, however, that the commissioner may extend such period of review for an additional 45 days by providing the credit union with written notice of such extension prior to the expiration of the initial notice period. If the commissioner sends such an objection, the federal power, preclusion, or preemption, or the part thereof, objected to by the commissioner shall not be exercised by the credit union pursuant to subsections (b) and (c) of this Code section. The objection by the commissioner of a credit union's intent to exercise a federal power or avail itself of any federal preclusion or preemption shall not preclude such credit union from providing notice to the department of its intent to exercise the same federal power or to avail itself of the same federal preclusion or preemption at a later date; provided, however, that the requirements of this subsection shall be applicable for any such additional notice. Further, in the event a credit union determines, after satisfying the notice provisions of this subsection, that it no longer wishes to exercise a federal power or avail itself of any federal preclusion or preemption, then such credit union

shall provide written notice of such fact to the commissioner by certified or registered mail.

(e) Notwithstanding the provisions of Code Section 7-1-70, the department shall publish information stating the federal powers that are being exercised or federal preclusions or preemptions that are being utilized by each credit union. All other information related to the notices or objections provided under subsection (d) of this Code section are governed by Code Section 7-1-70.

(f) Notwithstanding any other provisions of law, a credit union may exercise any power that was granted through an order or ruling declared by the commissioner on or before January 1, 2018, pursuant to the current or former provisions of Code Section 7-1-61, 7-1-61.1, or 7-6A-12 and which has not been rescinded or withdrawn.

(g) Any federal power or activity authorized and exercised or conducted pursuant to this Code section shall be independent from, and in addition to, any other powers granted to credit unions under applicable laws of this state or rules or regulations promulgated thereunder. The express and incidental powers granted to credit unions under the Official Code of Georgia Annotated are not limited or otherwise restricted by this Code section.

(h) Nothing in this Code section shall be construed as limiting the commissioner's authority conferred by this chapter, including the powers granted under Code Sections 7-1-61 and 7-1-61.1.

(i) Nothing in this Code section shall be construed as authorizing the imposition of interest rates by a credit union in excess of those authorized by Chapter 4 of this title nor shall any provision of this Code section be construed as permitting a credit union to make loans in violation of Chapter 17 of Title 16."

SECTION 18.

Said chapter is further amended in Code Section 7-1-687, relating to notice of action against licensee by creditor or claimant and other notification requirements relative to the sale of payment instruments, by revising subsection (a) and adding a new subsection to read as follows:

"(a) A licensee shall give written notice to the department by registered or certified mail of any action which may be brought against it by any creditor or claimant where such action relates to the activities authorized under this article or involves a claim against the bond filed with the department under Code Section 7-1-683.2. The notice shall provide details sufficient to identify the action and shall be sent within 30 days after the commencement of any such action. The licensee shall also give notice to the department by registered or certified mail within 30 days of the entry of any judgment ~~which may be entered~~ against the licensee."

"(e) Unless prior approval of a change in executive officer is required under Code Section 7-1-688 and notwithstanding subsection (e) of Code Section 7-1-684 requiring a criminal background check prior to the initial date of hire, a licensee shall notify the department in writing of any change of executive officer in such a manner that the notice is received by the department no later than ten business days after the effective

date of the change. In the event of such change, the licensee shall initiate a criminal background check no later than ten business days after the effective date of the change."

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 1 of Chapter 80 of Title 36 of the Official Code of Georgia Annotated, relating to general provisions applicable to counties, municipal corporations, and other governmental entities, is amended by adding a new Code section to read as follows:

"36-80-26.

(a) As used in this Code section, the term 'consultant' means an individual or company, whether paid or unpaid, that develops or drafts specifications or requirements for a solicitation or that serves in a consultative role during the bid or proposal evaluation or negotiation process.

(b) Consultants who enter into contracts or arrangements with counties, municipalities, and other local governmental entities to prepare or develop specifications or requirements for bids, requests for proposals, procurement orders, or purchasing orders for such county, municipality, or other local governmental entity shall, at the time of entering into such contract or arrangement, execute an agreement which provides that:

(1) The consultant shall avoid any appearance of impropriety and shall follow all policies and procedures of the county, municipality, or other local governmental

entity with whom the consultant is entering into contract or arrangement;

(2) The consultant shall immediately disclose to such county, municipality, or other local governmental entity any material transaction or relationship, including, but not limited to, that of the consultant, the consultant's employees, or the consultant's agents or subsidiaries, that reasonably could be expected to give rise to a conflict of interest, including, but not limited to, past, present, or prospective engagements, involvement in litigation or other dispute, client relationships, or other business or financial interest, and shall immediately disclose any material transaction or relationship subsequently discovered during the pendency of the contract or arrangement;

(3) The consultant shall use best efforts to avoid a conflict of interest and that any funds paid to the consultant prior to discovery of a conflict of interest that is unable to be mitigated to the reasonable satisfaction of such county, municipality, or other local governmental entity shall be returned to such county, municipality, or other local governmental entity;

(4) The consultant shall not submit a bid or proposal in response to any solicitation in which the consultant has developed or drafted specifications or requirements thereof and shall not otherwise perform work on any contract or subcontract directly resulting from that particular solicitation document, unless such county, municipality, or other local governmental entity expressly waives such restriction in writing and the consultant agrees that a designated representative of such county, municipality, or other local governmental entity may interview the consultant's employees who will be participating in the solicitation development or evaluation or negotiation process in order to ensure that no impermissible conflicts of interest exist;

(5) Throughout the evaluation or negotiation process, the consultant shall maintain the confidentiality of the process and of the information contained in suppliers' responses. The consultant shall not transmit, communicate, or otherwise convey preliminary conclusions or results concerning suppliers' responses or the likely outcome of the evaluation or negotiation process and the consultant shall agree to keep confidential all internal workings of the evaluation or negotiation process until the results of such process have been officially announced by such county, municipality, or other local governmental entity;

(6) In the course of participating in the procurement process, the consultant may have access to protected information which means all proprietary or confidential information provided by the county, municipality, or other local governmental entity or the supplier, including (A) information relating to such county, municipality, or other local governmental entity and its business, products, or employees that becomes available to the consultant due to the consultant's access to such county's, municipality's, or other local governmental entity's property, products, or employees; (B) information that was or is created, conceived, developed, reduced to practice, or discovered by the consultant, whether alone or jointly with others, using any protected information or any property or materials supplied to the consultant by such county, municipality, or other local governmental entity or the supplier; and (C) information that was or is created, conceived, developed, reduced to practice, or discovered by the

consultant, whether alone or jointly with others, during the period of the consultant's assignment with such county, municipality, or other local governmental entity. For purposes of illustration, such protected information shall include without limitation: inventions, discoveries, developments, improvements, trade secrets, know-how, ideas, techniques, technology, designs, processes, formulae, data and software programs or subroutines, source or object code, algorithms; plans for research and development, new products, marketing and selling; budgeting and financial information; production and sales information, including prices, costs, and quantities, and information about suppliers and customers; information about business relationships; and information about skills and compensation of state employees, consultants, or other state personnel. The consultant shall agree to hold such protected information in strictest confidence and shall ensure that its employees who have access to such protected information have signed a nonuse and nondisclosure agreement similar in content to the provisions hereof, prior to any disclosure of such protected information to such employees; not to disclose protected information to any third party without the written consent of such county's, municipality's, or other local governmental entity's representatives authorized to grant such consent except as required by law; to take all reasonable steps to safeguard such protected information, taking at least those measures it takes to protect its own most highly confidential information; and to not use protected information for any purpose other than for purposes of completing the consultant's duties as part of the procurement process. The consultant shall not take, copy, or retain any such protected information in any written, electronic, or physical form whatsoever without the written permission of such county, municipality, or other local governmental entity and shall return all such protected information to such county, municipality, or other local governmental entity upon conclusion of negotiations of the procurement or upon request of such county, municipality, or other local governmental entity. In the event that such county, municipality, or other local governmental entity determines that the consultant's participation warrants the execution of a separate nondisclosure agreement, the consultant will enter into such agreement and shall ensure that its employees enter into such agreement;

(7) In addition to maintaining the confidentiality of the evaluation or negotiation process, upon issuance of the solicitation by such county, municipality, or other local governmental entity, the consultant is strictly prohibited from having any contact with suppliers participating in the solicitation process except through such county, municipality, or other local governmental entity. Contact includes, but is not limited to, any interaction with such suppliers such as telephonic communications, e-mails, faxes, letters, or personal meetings such as lunch, entertainment, or otherwise. Any questions from suppliers or anyone else shall be referred to such county, municipality, or other local governmental entity conducting such solicitation. If the consultant anticipates having contact with a potential supplier during the procurement process after issuance of the solicitation, this potential conflict shall be immediately disclosed to such county, municipality, or other local governmental entity for appropriate action in accordance with the conflicts of interest provisions of the agreement. If the

consultant is contacted for any reason by a supplier potentially interested in the solicitation, including, but not limited to, potential future employment or other personal or financial interest in the supplier, the consultant shall promptly report the information to such county, municipality, or other local governmental entity. Such county, municipality, or other local governmental entity may consider removing individuals who have received such contact from any further participation in the solicitation or evaluation process;

(8) In the course of participating in the evaluation or negotiation process, the consultant acknowledges that the consultant may develop working documents, including, but not limited to, those which capture thoughts, questions, or discussions of the suppliers' responses. The consultant shall agree that all working documents are records of and the property of such county, municipality, or other local governmental entity and shall be submitted to such county, municipality, or other local governmental entity at the end of the evaluation or negotiation process. Such working documents are subject to public inspection as provided in Article 4 of Chapter 18 of Title 50;

(9) The obligations of the parties with respect to paragraphs (1), (2), and (3) shall survive until a contract award has been made or until the procurement has been abandoned by such county, municipality, or other local governmental entity. The obligations of the parties with respect to paragraph (4) shall survive expiration or termination of the agreement. The obligations of the parties with respect to paragraphs (5) and (6) shall survive until such time as all confidential information which was disclosed becomes publicly known and made generally available through no action or inaction of the receiving party. The obligations of the parties with respect to paragraph (7) shall survive until final contract award. The obligations of the parties with respect to paragraph (8) shall survive until the time that those records are no longer required to be maintained pursuant to such county's, municipality's, or other local governmental entity's records retention policies and procedures; and

(10) Any violation or threatened violation of the agreement may cause irreparable injury to the county, municipality, or other local governmental entity, entitling such county, municipality, or other local governmental entity to seek injunctive relief in addition to all other legal remedies."
