Section 53: Refunds

In addition to all other appropriations, there is hereby appropriated, as needed, a specific sum of money equal to each refund authorized by law, which is required to make refunds of taxes and other monies collected in error, farmer gasoline tax refunds, and any other refunds specifically authorized by law.

Section 54: Leases

In accordance with the requirements of Article IX, Section III, Paragraph I(a) of the Constitution of the State of Georgia, as amended, there is hereby appropriated payable to each department, agency, or institution of the State sums sufficient to satisfy the payments required to be made in each year under existing lease contracts between any department, agency, or institution of the State and any authority created and activated at the time of the effective date of the aforesaid constitutional provision, as amended, or appropriated for the State Fiscal Year addressed within this Act. If for any reason any of the sums herein provided under any other provision of this Act are insufficient to make the required payments in full, then there shall be taken from other funds appropriated to the department, agency, or institution involved an amount sufficient to satisfy such deficiency in full, and the lease payment shall constitute a first charge on all such appropriations.

Section 55: Budgetary Control and Interpretation

The appropriations in this Act consist of the amount stated in the right-most column, for each line at the lowest level of detail for the fund source categories, "Total State Funds" and "Total Federal Funds," under a caption beginning with a program or special project number that has a 100 or a higher number after the decimal and a program or special project name. In each case, such appropriation is associated with the immediately preceding program or special project name, number, and statement of program or special project purpose. The program or special project purpose is stated immediately below the program or special project name. The most specific level of detail for authorization for general obligation debt in Section 50 shall be the authorizing paragraphs.

Similarly, text in a group of lines that has a number less than 100 after the decimal (01 through 99) is not part of a statement of purpose but constitutes information as to how the appropriation was derived. Amounts in the columns other than the right-most column are for informational purposes only. The summary and lowest level of detail for the fund source categories "Total Agency Funds" and "Total Intra-State Governmental Transfers," are for informational purposes only. The blocks of text and numerals immediately following the section header and beginning with the phrases, "Section Total - Continuation" and "Section Totals - Final" are for informational purposes only. Sections 51, 52, 53 and 54 contain, constitute, or amend appropriations.

Section 56: Flex

Notwithstanding any other statement of purpose, the purpose of each appropriation of federal funds or other funds shall be the stated purpose or any other lawful purpose consistent with the fund source and the general law powers of the budget unit.

In the preceding sentence, "Federal Funds" means any federal funding source, whether specifically identified or not specifically identified; "Other Funds" means all other fund sources except State Funds or Federal Funds, including without

limitation Intra-State Government Transfers. This paragraph shall not permit an agency to include within its flex the appropriations for an agency attached to it for administrative purposes.

For purposes of the appropriations for the "Medicaid: Low-Income Medicaid," "Medicaid: Aged, Blind, and Disabled," and "PeachCare" programs of the Department of Community Health, the appropriation of a particular State fund source for each program shall be the amount stated, and each such program shall also be authorized up to an additional amount of 10 percent (10%) of the amount stated. However, if the additional authority is used, the appropriation of the same State fund source for the other programs to that agency shall be reduced in the same amount, such that the stated total in program appropriations from that State fund source for the three programs shall not be exceeded. However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added.

For purposes of the appropriations for the "Capital Construction Projects," "Capital Maintenance Projects," and "Local Road Assistance Administration" programs of the Department of Transportation, the appropriation of a particular State fund source for each program shall be the amount stated, and each such program shall also be authorized up to an additional amount of 10 percent (10%) of the amount stated. However, if the additional authority is used, the appropriation of the same State fund source for the other programs to that agency shall be reduced in the same amount, such that the stated total in program appropriations from that State fund source for the three programs shall not be exceeded. However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added."

SECTION 3-3.

All laws and parts of laws in conflict with this Act are repealed.

Senator Jordan of the 6th rose on a point of order objecting to the consideration of SB 262. The objection was based on Senate Rule 3-2.2 (b) which requires a minimum number of the signatures of a local delegation on a local bill which has been assigned to committee as local legislation.

The President Pro Tempore considered the point of order, consulted with the Secretary who noted that Senate Rule 3-2.1 (c) provides that: “[a] local bill may be assigned to the Committee on State and Local Government Operations or any other committee as ‘local legislation’ or ‘general legislation.’” This rule creates two distinct procedural paths by which a local bill may come to the floor. SB 262 is a local bill that was assigned on first reading as “general legislation” pursuant to Senate Rule 3-2.1 indicating that the process to be used to bring the bill to the floor would be the same as that used for general bills. Senate Rule 3-1.2 relates only to the process used to bring a local bill to the floor through

a truncated process referred to as “local legislation”. Since the bill was assigned as “general legislation” Senate Rule 3-1.2 does not apply and the signatures are not required. The President Pro Tempore ruled that the point of order was not sustained.

Senator Henson of the 41st appealed the ruling of the Chair.

The President resumed the Chair.

On the motion, a roll call was taken, and the vote was as follows:

Y Albers	Y Hufstetler	Y Payne

SECTION 1-3.

The election superintendent of Henry County shall call and conduct an election as provided in this section for the purpose of submitting this Act to the electors of the territory sought to be deannexed from the City of Stockbridge under this Act for approval or rejection. The election superintendent shall conduct such election on the date of and in conjunction with the 2018 General Primary and shall issue the call and conduct such

election as provided by general law. The election superintendent shall cause the date and purpose of the election to be published once a week for two weeks immediately preceding the date thereof in the official organ of Henry County. The ballot shall have written or printed thereon the words:

"() YES Shall the Act be approved which deannexes certain land into the City of
() NO Stockbridge?"

All persons desiring to vote for approval of the deannexation shall vote "Yes" and all persons desiring to vote for rejection of the deannexation shall vote "No." If more than one-half of the votes cast on such question are for approval of the deannexation, then Section 1-1 of this Act shall become effective on January 1, 2019, provided that an Act to create the City of Eagle's Landing is enacted in the 2018 session of the General Assembly and is ratified by the voters in 2018. If more than one-half of the votes cast on such question are for rejection of the deannexation or if the election is not held as provided in this section, then Section 1-1 of this Act shall automatically be repealed on January 1, 2019, and the area shall not be deannexed from the City of Stockbridge and shall not become a part of the City of Eagle's Landing. The expense of such election shall be borne by the City of Stockbridge. It shall be the election superintendent's duty to certify the result thereof to the Secretary of State.

By striking lines 146 through 150 and inserting in lieu thereof the following:

(a) Part I of this Act shall become effective on January 1, 2019, provided that the deannexation in Section 1-1 is approved by the voters as provided in Section 1-3 and an Act to create the City of Eagle's Landing is enacted in the 2018 session of the General Assembly and is ratified by the voters in 2018. If no such Act is enacted or if it is not ratified by the voters, then Part I of this Act shall not be effective and shall be repealed by operation of law on January 1, 2019.

On the adoption of the amendment, the President asked unanimous consent.

Notice of such special meetings shall be served on all other members personally, or by telephone personally, at least 48 hours in advance of the meeting. Such notice to councilmembers shall not be required if the mayor and all councilmembers are present when the special meeting is called. Such notice of any special meeting may be waived by a councilmember in writing before or after such a meeting, and attendance at the meeting shall also constitute a waiver of notice on any business transacted in such councilmembers presence. Only the business stated in the call may be transacted at the special meeting.

(d) All meetings of the city council shall be public to the extent required by law and notice to the public of special meetings shall be made fully as is reasonably possible as provided by Code Section 50-14-1 of the O.C.G.A., or other such applicable laws as are or may hereafter be enacted.

Except as otherwise provided in this charter, the affirmative vote of three councilmembers shall be required for the adoption of any ordinance, resolution, or motion.

(b) No member of the city council shall abstain from voting on any matter properly brought before the council for official action except when such councilmember has a conflict of interest which is disclosed in writing prior to or at the meeting and made a part of the minutes. An emergency ordinance may be adopted, with or without amendment, or rejected at the meeting at which it is introduced, but the affirmative vote of at least three councilmembers shall be required for adoption. It shall become effective upon adoption or at such later time as it may specify. Every emergency ordinance shall automatically stand repealed 30 days following the date upon which it was adopted, but this shall not prevent reenactment of the ordinance in the manner specified in this section if the emergency still exists. An emergency ordinance may also be repealed by adoption of a repealing ordinance in the same manner specified in this section for adoption of emergency ordinances.

(b) Such meetings shall be open to the public to the extent required by law and notice to

Copies of the code shall be furnished to all officers, departments, and agencies of the city, and made available for purchase by the public at a reasonable price as fixed by the city council.

(c) The city council shall cause each ordinance and each amendment to this charter to be printed promptly following its adoption, and the printed ordinances and charter amendments shall be made available for purchase by the public at reasonable prices to be fixed by the city council. (g) Except for the initial election of the mayor and council, the terms of office of the mayor and councilmembers shall begin on the Monday following such person's election which is at least five days following the certification of the results of such person's election to such office unless a petition to contest the results of such person's election to such office is filed pursuant to Article 13 of Chapter 2 of Title 21 of the O.C.G.A. If a petition to contest the election results is filed, such person shall not be sworn in until a judgment has been entered pursuant to Code Section 21-2-527 of the O.C.G.A. or such petition has been withdrawn or dismissed. I am otherwise qualified to hold said office according to the Constitution and laws of the State of Georgia. I have been a resident of (my district and) the City of Eagle's Landing for the time required by the Constitution and laws of this state and by the municipal charter. (b) The city council by ordinance shall adopt the final operating budget for the ensuing fiscal year not later than 15 days prior to the beginning of such fiscal year. For this purpose, value shall be determined by the most recent approved county ad valorem tax digest.

The written consent provided for in this paragraph shall be submitted to the Henry County tax commissioner, who shall certify whether subparagraphs (A) and (B) of this paragraph have been satisfied with respect to such proposed district. The district or districts or respective board or boards created under this article shall not transact any business or exercise any powers under this article until the foregoing conditions are met. A copy of such resolutions shall be filed with the Secretary of State and with the city clerk of the City of Eagle's Landing, who shall each maintain a record of the district activated under this article. Nothing contained herein shall limit the ability of the governing authority of the City of Eagle's Landing to implement more than one community improvement district so long as the requirements hereof and of the Constitution of the State of Georgia are satisfied. The provisions of this article shall be construed so as to provide for the independent application and exercise of all powers for each district contained herein including the ability to levy taxes as outlined herein as separately and independently authorizing and empowering such separate community improvement districts created hereby. Nothing contained herein shall require the governing authority of the City of Eagle's Landing to create more than one community improvement district, or to require the creation of a new district if the district boundaries of an existing district are changed, added to, supplemented, or modified.

SECTION 8.13.

Administration, appointment, and election of board members.

Each district created pursuant hereto shall be administered either by the governing authority or by a board as prescribed under this article. In the event that a district is to be governed by such a board, the board shall be composed of a minimum of seven board members to be appointed and elected as hereinafter provided:

(1) Two board members shall be appointed by the Mayor of the City of Eagle's Landing, and confirmed by a majority of the city council, one of whom shall be a member of the city council, to serve in Posts 6 and 7. Two board members shall be elected by the vote of electors, and three members shall be elected by the vote of equity electors. The members representing the electors and equity electors shall be elected to serve in post positions 1 through 5, respectively. Each elected board member shall receive a majority of the votes cast for the post for which he or she is a candidate. Votes for Posts 1 and 2 shall be cast by electors, and votes for Posts 3, 4, and 5 shall be cast by the equity electors. The initial term of office for the members representing Posts 1 and 3 shall be one year. The initial term of office for the members representing Posts 2 and 5 shall be two years, and the initial term of office of the members representing Post 3 shall be three years. Thereafter, all terms of office shall be for four years, except the appointed board members who shall serve at the pleasure of the appointing body which appointed him or her. Elected board members shall be subject to recall in the same manner as elected.

(2) The initial board members to be elected as provided in paragraph (1) of this section shall be elected in a caucus of electors which shall be held within 120 days after the adoption of the resolution by the City of Eagle's Landing consenting to the creation of the district, and the obtaining of the written consents herein provided at such time and place within the district as the City of Eagle's Landing shall designate after notice thereof shall have been given to said electors by publishing same in the legal organ of Henry County as hereinafter provided. Thereafter, there shall be conducted annually, not later than 120 days following the last day for filing ad valorem real property tax returns in Henry County, a caucus of said electors at such time and place within the district as the board shall designate in such notice for the purpose of electing board members to those board member positions whose terms expire or are vacant. If a vacancy occurs in an elected position on the board, the board shall, within 60 days thereof, call a special election to fill the same to be held within 60 days of the call unless such vacancy occurs within 180 days of the next regularly scheduled election, in which case a special election may, but need not, be called. For any election held hereunder, notice thereof shall be given to said electors by publishing notice thereof in the legal organ of Henry County at least once each week for four weeks prior to such election.

(3) Board members shall receive no compensation for their services, but shall be reimbursed for actual expenses reasonably incurred in the performance of their duties. They shall elect one of their number as chairperson and another as vice chairperson. They shall also elect a secretary and a treasurer, or a secretary/treasurer, either of whom may, but need not, be a member of the board or an elector.

(4) If the boundaries of a district are subsequently changed after creation of the district to include land within the unincorporated area of the county or a municipality which was not a party to the creation of the district, or if a municipality's boundaries are changed to include land within an existing district, the governing authority of the municipality shall acquire the right to appoint a member to the board of the district

upon entering into the cooperation agreement provided for in Section 8.17 of this article. If, by municipal annexation or by deannexation of land from a district, the district no longer includes land within the incorporated area of the City of Eagle's Landing or within a municipality, respectively, then the board member of the district appointed by such governing authority in which the district is no longer located shall cease to be a board member.

(5) Chapter 2 of Title 21 of the O.C.G.A., the "Georgia Election Code," shall not apply to the election of district board members. Should a vacancy in office of a district board member occur, and the regular caucus of electors is more than six months in the future, a special election shall be called to fill such vacancy, unless it is filled by appointment as hereinabove required. The district board may adopt such bylaws not inconsistent herewith to provide for any matter concerning such elections.

SECTION 8.14.

Taxes, fees, and assessments.

(a) The board may levy taxes, fees, and assessments within the district only on real property used nonresidentially, specifically excluding all property exempt from ad valorem taxation under the Constitution or laws of the State of Georgia; all property used for residential, agricultural, or forestry purposes; and all tangible personal property and intangible property. Any tax, fee, or assessment so levied shall not exceed 2.5 percent of the aggregate assessed value of all such real property, subject to such limitations as the governing authority for the City of Eagle's Landing may implement with the adoption of the resolution consenting to the creation of said district. The taxes, fees, and assessments levied by the board shall be equitably apportioned among the properties subject to such taxes, fees, and assessments according to the need for governmental services and facilities created by the degree of density of development of each such property. The proceeds of taxes, fees, and assessments levied by the board shall be used only for the purpose of providing those governmental services and facilities set forth in Section 8.10 of this article which are specially required by the degree of density of development within the district and not for the purpose of providing those governmental services and facilities provided to the municipality as a whole. Any tax, fee, or assessment so levied shall be collected by the City of Eagle's Landing in the same manner as taxes, fees, and assessments are levied by the City of Eagle's Landing. Delinquent taxes shall bear the same interest and penalties as City of Eagle's Landing ad valorem taxes and may be enforced and collected in the same manner. The proceeds of taxes, fees, and assessments so levied, less a fee to cover the costs of collection of 0.25 percent thereof, but not more than \$10,000.00 in any one calendar year, shall be transmitted as soon as they are acquired by the City of Eagle's Landing to the board, and shall be expended by the board only for the purposes authorized hereby.

(b) The board shall levy the taxes provided for in subsection (a) of this section subsequent to the report of the assessed taxable values for the current calendar year and notify in writing the collecting governing bodies so they may include the levy on their

regular ad valorem tax bills, if possible.

(c) There shall be a segregation of all funds from the levy of taxes, fees, and assessments as described hereunder for the district, and neither the City of Eagle's Landing nor the respective county tax commissioner shall expend for any purpose not authorized by the board of this district any such taxes, fees, or charges assessed and collected hereunder except for such costs as may be attributed to the billing and collection of such fees, levies, and assessments.

(d) If, but for this provision, a parcel of real property is removed from a district or otherwise would become nontaxable, it shall continue to bear the tax millage levied by the district then extant upon such parcel for indebtedness of the district then outstanding until said indebtedness is paid or refunded.

SECTION 8.15.

Boundaries of the district.

(a) The boundaries of the district or districts shall be as designated as such by the City of Eagle's Landing as set forth in the resolution required in Section 8.12 of this article, or as may thereafter be added as hereinafter provided.

(b) The boundaries of the district or districts may be increased after the initial creation of a district if:

- (1) Written consent of the owners of any real property sought to be annexed is first obtained;
- (2) The board of the district adopts a resolution consenting to the annexation; and
- (3) A resolution is adopted which grants consent to the annexation by the governing authority of such municipalities as may have area within the district before or after the annexation.

SECTION 8.16.

Debt.

Except as otherwise provided in this section, the district may incur debt without regard to the requirements of Article IX, Section V of the Constitution of the State of Georgia, which debt shall be backed by the full faith and credit and taxing power of the district but shall not be an obligation of the State of Georgia or any other unit of government of the State of Georgia other than the district; provided, however, that the board and the district may not issue bonds validated under or in accordance with Article 3 of Chapter 82 of Title 36 of the O.C.G.A., known as the "Revenue Bond Law," or in accordance with such other successor provisions governing bond validation generally or as may be provided by law.

SECTION 8.17.

Cooperation with local governments.

The services and facilities provided pursuant hereto may be provided for in a cooperation agreement executed jointly by the board, the governing body of the City of Eagle's

Landing, and any municipalities and other governmental authorities or agencies within which the district is partially located. The provisions of this section shall in no way limit the authority of the City of Eagle's Landing or any such municipality or any such authority to provide services or facilities within the district; and the City of Eagle's Landing or such municipalities shall retain full and complete authority and control over any of its facilities located within its respective areas of any district. Said control shall include, but not be limited to, the modification of, access to, and degree and type of services provided through or by facilities of the municipality or county. Nothing contained in this section shall be construed to limit or preempt the application of any governmental laws, ordinances, resolutions, or regulations to the district or the services or facilities provided therein.

SECTION 8.18.

Powers.

(a) The district and the board created pursuant hereto shall have all of the powers necessary or convenient to carry out and effectuate the purposes and provisions hereof, including, without limiting the generality of the foregoing, the power to:

- (1) Bring and defend actions;

- (6) Borrow money to further or carry out its public purposes and to execute bonds, notes, other obligations, leases, trust indentures, trust agreements, agreements for the sale of its notes, or other obligations, loan agreements, security agreements, assignments, and such other agreements or instruments as may be necessary or desirable, in the judgment of the board, to evidence and to provide security for such

borrowing;

(7) Issue notes or other obligations of the district and use the proceeds thereof for the purpose of paying all or any part of the cost of any project and otherwise to further or carry out the public purposes of the district and to pay all reasonably incurred costs of the board incidental to, or necessary and appropriate to, furthering or carrying out such purposes; provided, however, that the board and the district may not issue bonds validated under or in accordance with Article 3 of Chapter 82 of Title 36 of the O.C.G.A., known as the "Revenue Bond Law," or in accordance with such other successor provisions governing bond validation generally or as may be provided by law;

(11) Grant, mortgage, convey, assign, or pledge its property, revenues or taxes, or fees or assessments to be received as security for its notes, or other indebtedness and obligations;

To amend Article 6 of Chapter 2 of Title 20 of the Official Code of Georgia Annotated, relating to the "Quality Basic Education Act," so as to provide that the agricultural education program is based on a three-component model; to provide for a pilot program to develop and implement agricultural education in elementary schools; to provide for selection of pilot sites; to provide for program requirements; to provide for a program evaluation; to provide for the Professional Standards Commission to extend in-field certification for agricultural education to include kindergarten through grade five; to provide for related matters; to provide for a short title; to provide for an effective date; to repeal conflicting laws; and for other purposes.

SECTION 1.

This Act shall be known and may be cited as the "Georgia Agricultural Education Act."

SECTION 2.

Article 6 of Chapter 2 of Title 20 of the Official Code of Georgia Annotated, relating to the "Quality Basic Education Act," is amended by adding new Code sections to Part 3, relating to educational programs, to read as follows:

"20-2-154.2.

The agricultural education program provided in this state to students in grades six through 12 shall be based on the nationally recognized three-component model of school based agricultural education: daily instruction in an organized classroom and lab environment; hands-on, experiential learning opportunities through a supervised agriculture experience (SAE) program; and leadership and learning opportunities through participation in the Future Farmers of America. The Department of Education, through its agricultural education program employees, shall develop the curriculum and standards for the agricultural education program, with input from agricultural education teachers, so as to include all three components of such model and local school systems shall include all three components of such model whenever offering any agricultural education course approved by the State Board of Education. The Department of Education shall maintain an adequate number of full-time employees, certified in agricultural education and distributed regionally throughout the state, to develop and maintain the agricultural education curriculum and standards, to assist local school systems on matters related to agricultural education, and to coordinate regional and state-wide activities of the Future Farmers of America.

20-2-154.3.

(a) The Department of Education, through its agricultural education program, shall be authorized to establish a pilot program, beginning in the 2019-2020 school year, to provide for agricultural education in elementary schools in this state. The purpose of the pilot program shall be to determine whether and how to implement an elementary agricultural education program state wide.

(b) The Department of Education, through its agricultural education program employees described in Code Section 20-2-154.2, is authorized to select a minimum of six public elementary schools for participation in the pilot program, with one elementary school in each of the six existing regions established by the agricultural education program of the Department of Education. The local board of education for each elementary school selected to be in the pilot program shall agree to implement and fully fund an elementary agricultural education program in such school and to continue to provide such elementary agricultural education program for a period no shorter than three years. The local school system may employ an agricultural education teacher to

provide such program for the elementary school.

(c) The Department of Education, through its agricultural education program employees described in Code Section 20-2-154.2, and local school systems shall collaborate to establish the curriculum for each elementary agricultural education program. Such curriculum shall be grade-appropriate and include instruction in an organized classroom; collaborative learning experiences through investigation and inquiry, including laboratory and site-based learning activities; and personal and leadership development opportunities.

(d) The Department of Education, through its agricultural education program, shall provide for a program evaluation regarding the success and impact of the pilot program upon completion of the third year of the pilot program and shall report the results of such evaluation to the House Committee on Agriculture and Consumer Affairs and the Senate Agriculture and Consumer Affairs Committee and to the House Committee on Education and the Senate Education and Youth Committee."

In no event shall the governing board approve access to health data that identifies, or that may be used to identify, rates of payment by a private entity for the provision of health care services to an individual unless the party seeking access agrees to keep such information confidential and to prevent public disclosure of such data or the rates of payment derived from such data;

(C) Data retention policies identifying that data shall be returned to sponsoring agencies or destroyed when it is no longer in the state's interest to promote analysis of such data and in accordance with applicable HIPAA regulations, data use agreements, and provisions of IRB approvals;

(D) Policies to require researchers to consult with subject matter experts in the data sets being linked on a specific project. The purpose of such consultation shall be to help researchers understand and interpret the data being linked to a specific project; and

(E) Policies that establish processes to engage researchers and academic institutions across Georgia to help set research priorities and promote the use of the iPHD Project to accelerate population health research in this state.

45-12-154.

No later than July 1, 2019, upon the receipt of data by the iPHD Project pursuant to this part, and on an annual basis thereafter, the Georgia Health Policy Center, in consultation with the board, shall publish a report that is made available and accessible to the public and that contains the following information:

- (1) Grants from research or other private entities;
- (2) Fees paid by persons or entities requesting access to iPHD Project data or the performance of analyses by the iPHD Project, which fees have been approved by the governing board to support the cost of preparing data for access or the performance of analyses;
- (3) Federal grants; and
- (4) Grants or other financial assistance from state or local departments, agencies, authorities, and organizations at the discretion of these entities, for specific projects of interest to these entities.

45-12-156.

Any department or agency that creates, receives, or maintains publicly supported programs data or health data shall, only after execution of an enforceable data use, data sharing, or other similar agreement that is acceptable to the department or agency, transmit or allow access to such data as is necessary and appropriate to further the goals of this part and shall cooperate with iPHD Project requests for receipt of or access to such data. Notwithstanding the foregoing, no department or agency shall be required to transmit data it creates, receives, or maintains to the iPHD Project, or to allow access to such data, if the Attorney General's review or the applicable department's or agency's review determines that such transmission or access would violate state or federal law. The Attorney General's review shall include consideration of an analysis from the department or agency whose data is being requested. This Code section shall not prohibit the Georgia Health Policy Center or any department or agency from creating, receiving, maintaining, or transmitting data in data systems that are separate and distinct from the iPHD Project."

Subparagraphs (B) and (C) of this paragraph shall, unless otherwise provided in such subparagraphs, preempt all state laws, regulations, or rules governing reconstruction, alteration, repair, or maintenance of landmark museum buildings. Local governing authorities may recognize the designation of landmark museum buildings by ordinance and authorize the local enforcement authority to incorporate the provisions of subparagraphs (B) and (C) of this paragraph into their local building and fire codes. Subparagraphs (D) and (E) of this paragraph shall apply to other historic buildings or structures.

(B) A landmark museum building shall be subject to the following provisions:

(iii) If a historic building or structure, as a result of proposed work or changes in use, would become eligible and would be so certified as a landmark museum building, and the state historic preservation officer so certifies and such is submitted to the state fire and building code official with the construction or building permit application, then the work may proceed under the provisions of this paragraph.

(C) All landmark museum buildings shall comply with the following requirements:

(i) Every landmark museum building shall have portable fire extinguishers as deemed appropriate by the state or local fire authority having jurisdiction based on the applicable state or local fire safety codes or regulations;

(ii) All landmark museum buildings which contain residential units shall have electrically powered smoke or products of combustion detectors installed within each living unit between living and sleeping areas. Such detectors shall be continuously powered by the building's electrical system. When activated, the detector shall initiate an alarm which is audible in sleeping rooms of that living unit. These unit detectors shall be required in addition to any other protective system that may be installed in the building;

(iii) For all landmark museum buildings, except those protected by a total

automatic fire suppression system and one and two family dwellings, approved automatic fire warning protection shall be provided as follows: install at least one listed smoke or products of combustion detector for every 1,200 square feet of floor area per floor or story. In addition, all lobbies, common corridors, hallways, and ways of exit access shall be provided with listed smoke or products of combustion detectors not more than 30 feet apart. Detectors shall be so connected as to sound an alarm audible throughout the structure or building. With respect to buildings which are totally protected by an automatic fire suppression system, activation of the sprinkler system shall sound an alarm throughout the structure or building;

(iv) Smoke or products of combustion detectors shall be listed by a nationally recognized testing laboratory;

(v) All multistory landmark museum buildings, except one and two family dwellings, with occupancy above or below the street or grade level shall have manual fire alarm pull stations in the natural path of egress. The activation of a manual pull station shall cause the building fire warning system to sound;

(vi) Approved exit signs shall be located where designated by the local or state authority having jurisdiction in accordance with the applicable state or local code, standard, rule, or regulation;

(vii) Except for one and two family dwellings, every landmark museum building occupied after daylight, or which has occupied areas subject to being totally darkened during daylight hours due to a power failure or failure of the electrical system, shall be equipped with approved emergency lighting meeting the provisions of the applicable state or local code, standard, rule, or regulation;

(viii) Occupant loading of landmark museum buildings or structures shall be limited by either the actual structural floor load capacity or by the limitations of means of egress or by a combination of factors. Actual floor load capacity shall be determined by a Georgia registered professional engineer. Said floor load shall be posted at a conspicuous location. The building owner shall submit evidence of this certification and related computations to the enforcement authority having jurisdiction, upon request. Where one or more floors of a landmark museum building have only one means of egress, the occupant load shall be computed and occupancy limited as determined by the state or local fire marshal; and

(ix) The electrical, heating, and mechanical systems of landmark museum buildings shall be inspected and any conditions that create a threat of fire or a threat to life shall be corrected in accordance with applicable standards to the extent deemed necessary by the state or local authority having jurisdiction.

(D) Historic buildings not classified as landmark museum buildings shall meet the requirements of applicable state or local building and fire safety laws, ordinances, codes, standards, rules, or regulations as they pertain to existing buildings. If a historic building or structure is damaged from fire or other casualty, it may be restored to the condition prior to the fire or casualty using techniques and methods consistent with its original construction, or it shall meet the requirements for new

construction of the applicable state or local codes, standards, rules, or regulations, provided that these requirements do not significantly compromise the features for which the building was considered historically significant.

(E) As to any buildings or structures in the State of Georgia which meet the criteria of paragraph (1) of subsection (b) of this Code section and thus fall under the jurisdiction of the ~~Safety Fire Commissioner~~ commissioner and which also have been designated as historically significant by the state historic preservation officer, the appropriate enforcement official, in granting or denying a variance pursuant to subsection (e) of Code Section 25-2-12, shall consider the intent of this chapter, with special attention to paragraph (3) of this subsection, Article 3 of Chapter 2 of Title 8, 'The Uniform Act for the Application of Building and Fire Related Codes to Existing Buildings,' Article 2 of Chapter 10 of Title 44, the 'Georgia Historic Preservation Act,' and the Secretary of Interior's Standards for Preservation Projects.

(4) Nothing in this subsection shall be construed as exempting any building, structure, facility, or premises from ordinances enacted by any municipal governing authority in any incorporated area or any county governing authority in any unincorporated area, except to the extent stated in paragraph (3) of this subsection relative to landmark museum buildings or historic buildings or structures.

(c) Every person who owns or controls the use of any building, part of a building, or structure described in paragraph (1) of subsection (b) of this Code section, which, because of floor area, height, location, use or intended use as a gathering place for large groups, or use or intended use by or for the aged, the ill, the incompetent, or the imprisoned, constitutes a special hazard to property or to the life and safety of persons on account of fire or panic from fear of fire, must so construct, equip, maintain, and use such building or structure as to afford every reasonable and practical precaution and protection against injury from such hazards. No person who owns or controls the use or occupancy of such a building or structure shall permit the use of the premises so controlled for any such specially hazardous use unless he or she has provided such precautions against damage to property or injury to persons by these hazards as are found and determined by the ~~Commissioner~~ commissioner in the manner described in subsection (d) of this Code section to be reasonable and practical.

(d) The ~~Commissioner~~ commissioner is directed to investigate and examine construction and engineering techniques; properties of construction materials, fixtures, facilities, and appliances used in, upon, or in connection with buildings and structures; and fire prevention and protective techniques, including, but not limited to, the codes and standards adopted, recommended, or issued from time to time by the National Fire Protection Association (National Fire Code and National Electric Code), the American Insurance Association (National Building Code), the successor to the National Board of Fire Underwriters, the American Standards Association, and the Standard Building Code Congress (Southern Standard Building Code). Based upon such investigation, the ~~Commissioner~~ commissioner is authorized to determine and by rule to provide what reasonable and practical protection must be afforded property and persons with respect to: exits; fire walls and internal partitions adequate to resist fire and to retard the spread

of fire, smoke, heat, and gases; electrical wiring, electrical appliances, and electrical installations; safety and protective devices, including, but not limited to, fire escapes, fire prevention equipment, sprinkler systems, fire extinguishers, panic hardware, fire alarm and detection systems, exit lights, emergency auxiliary lights, and other similar safety devices; flameproofing; motion picture equipment and projection booths; and similar facilities; provided, however, that any building described in subparagraph (b)(1)(C) of this Code section shall be required to have a smoke or products of combustion detector listed by a nationally recognized testing laboratory; and, regardless of the manufacturer's instructions, such detectors in these buildings shall be located in all interior corridors, halls, and basements no more than 30 feet apart or more than 15 feet from any wall; where there are no interior halls or corridors, the detectors shall be installed in each sleeping room. All detection systems permitted after April 1, 1992, shall be powered from the building's electrical system and all detection systems required by this chapter, permitted after April 1, 1992, shall have a one and one-half hour emergency power supply source. Required corridor smoke detector systems shall be electrically interconnected to the fire alarm, if a fire alarm is required. If a fire alarm is not required, the detectors at a minimum shall be approved single station detectors powered from the building electrical service.

(e) All rules and regulations promulgated before April 1, 1968, by predecessor authority, the ~~Commissioner~~ commissioner, or the state fire marshal and the minimum fire safety standards adopted therein shall remain in full force and effect where applicable until such time as they are amended by the appropriate authority.

(f) The municipal governing authority in any incorporated area or the county governing authority in any unincorporated area of the state shall have the authority to enact such ordinances as it deems necessary to perform fire safety inspections and related activities for those buildings and structures not covered in this Code section.

(g) Notwithstanding any other provision of law or any local ordinance to the contrary, in the event of a conflict between any code or standard of the National Fire Protection Association (National Fire Code and National Electric Code) and of the Standard Building Code Congress (Southern Standard Building Code), the code or standard of the National Fire Protection Association (National Fire Code and National Electric Code) shall prevail. The order of precedence established by this subsection shall apply to all buildings and structures whether or not such buildings and structures are covered under this Code section.

25-2-14.

(a)(1) Plans and specifications for all proposed buildings which come under classification in paragraph (1) of subsection (b) of Code Section 25-2-13 and which come under the jurisdiction of the ~~office of the Commissioner~~ Division of Fire Safety within the Georgia Public Safety Training Center pursuant to Code Section 25-2-12 shall be submitted to and receive approval by either the state fire marshal, the proper local fire marshal, or state inspector before any state, municipal, or county building permit may be issued or construction started. All such plans and specifications

submitted as required by this subsection shall be accompanied by a fee in the amount provided in Code Section 25-2-4.1 and shall bear the seal and Georgia registration number of the drafting architect or engineer or shall otherwise have the approval of the ~~Commissioner~~ commissioner.

(2)(A) If the state fire marshal, the proper local fire marshal, state inspector, or designated code official cannot provide plan review within 30 business days of receiving a written application for permitting in accordance with the code official's plan submittal process, then, in lieu of plan review by personnel employed by such governing authority, any person, firm, or corporation engaged in a construction project which requires plan review, regardless if the plan review is required by subsection (a) of this Code section or by local county or municipal ordinance, shall have the option of retaining, at its own expense, a private professional provider to provide the required plan review. As used in this paragraph, the term 'private professional provider' means a professional engineer who holds a certificate of registration issued under Chapter 15 of Title 43 or a professional architect who holds a certificate of registration issued under Chapter 4 of Title 43, who is not an employee of or otherwise affiliated with or financially interested in the person, firm, or corporation engaged in the construction project to be reviewed.

(B) The state fire marshal, the proper local fire marshal, state inspector, or designated code official shall advise the permit applicant at the time the complete submittal application for a permit in accordance with the code official's plan submittal process is received that the state fire marshal, the proper local fire marshal, state inspector, or designated code official intends to complete the required plan review within the time prescribed by this paragraph or that the applicant may immediately secure the services of a private professional provider to complete the required plan review pursuant to this subsection. The plan submittal process shall include those procedures and approvals required by the local jurisdiction before plan review can take place. If the state fire marshal, the proper local fire marshal, state inspector, or designated code official states its intent to complete the required plan review within the time prescribed by this paragraph, the applicant shall not be authorized to use the services of a private professional provider as provided in this subsection. The permit applicant and the state fire marshal, the proper local fire marshal, state inspector, or designated code official may agree by mutual consent to extend the time period prescribed by this paragraph for plan review if the characteristics of the project warrant such an extension. However, if the state fire marshal, the proper local fire marshal, state inspector, or designated code official states its intent to complete the required plan review within the time prescribed by this paragraph, or any extension thereof mutually agreed to by the applicant and the state fire marshal, the proper local fire marshal, state inspector, or designated code official and does not permit the applicant to use the services of a private professional provider and the state fire marshal, the proper local fire marshal, state inspector, or designated code official fails to complete such plan review in the time prescribed by this paragraph, or any extension thereof mutually agreed to by the

applicant and the state fire marshal, the proper local fire marshal, state inspector, or designated code official, the state fire marshal, the proper local fire marshal, state inspector, or designated code official shall issue the applicant a project initiation permit to allow the applicant to begin work on the project, provided that portion of the initial phase of work is compliant with applicable codes, laws, and rules. If a full permit is not issued for the portion requested for permitting, then the state fire marshal, the proper local fire marshal, state inspector, or designated code official shall have an additional 20 business days to complete the review and issue the full permit. If the plans submitted for permitting are denied for any deficiency, the time frames and process for resubmittal shall be governed by divisions (2)(H)(iii) through (2)(H)(v) of this subsection.

(C) Any plan review or inspection conducted by a private professional provider shall be no less extensive than plan reviews or inspections conducted by state, county, or municipal personnel responsible for review of plans for compliance with the state's minimum fire safety standards and, where applicable, the state's minimum accessibility standards.

(D) The person, firm, or corporation retaining a private professional provider to conduct a plan review shall be required to pay to the state fire marshal, the proper local fire marshal, state inspector, or designated code official which requires the plan review the same regulatory fees and charges which would have been required had the plan review been conducted by the state fire marshal, the proper local fire marshal, state inspector, or designated code official.

(E) A private professional provider performing plan reviews under this subsection shall review construction plans to determine compliance with the state's minimum fire safety standards in effect which were adopted pursuant to this chapter and, where applicable, the state's minimum accessibility standards adopted pursuant to Chapter 3 of Title 30. Upon determining that the plans reviewed comply with the applicable codes and standards as adopted, such private professional provider shall prepare an affidavit or affidavits on a form prescribed by the ~~Safety Fire Commissioner~~ commissioner certifying under oath that the following is true and correct to the best of such private professional provider's knowledge and belief and in accordance with the applicable professional standard of care:

(i) The plans were reviewed by the affiant who is duly authorized to perform plan review pursuant to this subsection and who holds the appropriate license or certifications and insurance coverage and insurance coverage stipulated in this subsection; and

(ii) The plans comply with the state's minimum fire safety standards in effect which were adopted pursuant to this chapter and, where applicable, the state's minimum accessibility standards adopted pursuant to Chapter 3 of Title 30.

(F) All private professional providers providing plan review services pursuant to this subsection shall secure and maintain insurance coverage for professional liability (errors and omissions) insurance. The limits of such insurance shall be not less than \$1 million per claim and \$1 million in aggregate coverage. Such insurance

may be a practice policy or project-specific coverage. If the insurance is a practice policy, it shall contain prior acts coverage for the private professional provider. If the insurance is project-specific, it shall continue in effect for two years following the issuance of the certificate of final completion for the project. The state fire marshal, the proper local fire marshal, state inspector, or designated code official may establish, for private professional providers working within their respective jurisdictions specified by this chapter, a system of registration listing the private professional providers within their areas of competency and verifying compliance with the insurance requirements of this subsection.

(G) The private professional provider shall be empowered to perform any plan review required by the state fire marshal, the proper local fire marshal, state inspector, or designated code official, regardless if the plan review is required by this subsection or by local county or municipal ordinance, provided that the plan review is within the scope of such private professional provider's area of expertise and competency. This subsection shall not apply to hospitals, ambulatory health care centers, nursing homes, jails, penal institutions, airports, buildings or structures that impact national or state homeland security, or any building defined as a high-rise building in the State Minimum Standards Code, provided that interior tenant build-out projects within high-rise buildings are not exempt from this subsection, or plans related to Code Section 25-2-16 or 25-2-17 or Chapter 8, 9, or 10 of this title.

(H)(i) The permit applicant shall submit a copy of the private professional provider's plan review report to the state fire marshal, the proper local fire marshal, state inspector, or designated code official. Such plan review report shall include at a minimum all of the following:

(I) The affidavit of the private professional provider required pursuant to this subsection;

(II) The applicable fees required for permitting;

(III) Other documents deemed necessary due to unusual construction or design, smoke removal systems where applicable with engineering analysis, and additional documentation required where performance based code options are used; and

(IV) Any documents required by the state fire marshal, the proper local fire marshal, state inspector, or designated code official to determine that the permit applicant has secured all other governmental approvals required by law.

(ii) No more than 30 business days after receipt of a permit application and the private professional provider's plan review report required pursuant to this subsection, the state fire marshal, the proper local fire marshal, state inspector, or designated code official shall issue the requested permit or provide written notice to the permit applicant identifying the specific plan features that do not comply with the applicable codes or standards, as well as the specific reference to the relevant requirements. If the state fire marshal, the proper local fire marshal, state inspector, or designated code official does not provide a written notice of the plan deficiencies within the prescribed 30 day period, the permit application shall be

deemed approved as a matter of law and the permit shall be issued by the state fire marshal, the proper local fire marshal, state inspector, or designated code official on the next business day.

(iii) If the state fire marshal, the proper local fire marshal, state inspector, or designated code official provides a written notice of plan deficiencies to the permit applicant within the prescribed 30 day period, the 30 day period shall be tolled pending resolution of the matter. To resolve the plan deficiencies, the permit applicant may elect to dispute the deficiencies pursuant to this chapter, the promulgated rules and regulations adopted thereunder, or, where appropriate for existing buildings, the local governing authority's appeals process or the permit applicant may submit revisions to correct the deficiencies.

(iv) If the permit applicant submits revisions, the state fire marshal, the proper local fire marshal, state inspector, or designated code official shall have the remainder of the tolled 30 day period plus an additional five business days to issue the requested permit or to provide a second written notice to the permit applicant stating which of the previously identified plan features remain in noncompliance with the applicable codes or standards, with specific reference to the relevant requirements. If the state fire marshal, the proper local fire marshal, state inspector, or designated code official does not provide the second written notice within the prescribed time period, the permit shall be issued by the state fire marshal, the proper local fire marshal, state inspector, or designated code official on the next business day.

(v) If the state fire marshal, the proper local fire marshal, state inspector, or designated code official provides a second written notice of plan deficiencies to the permit applicant within the prescribed time period, the permit applicant may elect to dispute the deficiencies pursuant to this chapter, the rules and regulations promulgated thereunder, or, where applicable for existing buildings, the local governing authority's appeals process or the permit applicant may submit additional revisions to correct the deficiencies. For all revisions submitted after the first revision, the state fire marshal, the proper local fire marshal, state inspector, or designated code official shall have an additional five business days to issue the requested permit or to provide a written notice to the permit applicant stating which of the previously identified plan features remain in noncompliance with the applicable codes or standards, with specific reference to the relevant requirements.

(I) The state fire marshal may provide for the prequalification of private professional providers who may perform plan reviews pursuant to this subsection by rule or regulation authorized in Code Section 25-2-4. In addition, any local fire marshal, state inspector, or designated code official may provide for the prequalification of private professional providers who may perform plan reviews pursuant to this subsection; however, no additional local ordinance implementing prequalification shall become effective until notice of the proper local fire marshal, state inspector, or designated code official's intent to require prequalification and the

specific requirements for prequalification have been advertised in the newspaper in which the sheriff's advertisements for that locality are published. The ordinance implementing prequalification shall provide for evaluation of the qualifications of a private professional provider only on the basis of the private professional provider's expertise with respect to the objectives of this subsection, as demonstrated by the private professional provider's experience, education, and training. Such ordinance may require a private professional provider to hold additional certifications, provided that such certifications are required by ordinance or state law for plan review personnel currently directly employed by such local governing authority.

(J) Nothing in this subsection shall be construed to limit any public or private right of action designed to provide protection, rights, or remedies for consumers.

(K) If the state fire marshal, the proper local fire marshal, state inspector, or designated code official determines that the building construction or plans do not comply with the applicable codes or standards, the state fire marshal, the proper local fire marshal, state inspector, or designated code official may deny the permit or request for a certificate of occupancy or certificate of completion, as appropriate, or may issue a stop-work order for the project or any portion thereof as provided by law or rule or regulation, after giving notice and opportunity to remedy the violation, if the state fire marshal, the proper local fire marshal, state inspector, or designated code official determines that noncompliance exists with state laws, adopted codes or standards, or local ordinances, provided that:

(i) The state fire marshal, the proper local fire marshal, state inspector, or designated code official shall be available to meet with the private professional provider within two business days to resolve any dispute after issuing a stop-work order or providing notice to the applicant denying a permit or request for a certificate of occupancy or certificate of completion; and

(ii) If the state fire marshal, the proper local fire marshal, state inspector, or designated code official and the private professional provider are unable to resolve the dispute, the matter shall be referred to the local enforcement agency's board of appeals, except as provided in Code Section 25-2-12 and appeals for those proposed buildings classified under paragraph (1) of subsection (b) of Code Section 25-2-13 or any existing building under the specific jurisdiction of the state fire marshal's office shall be made to the state fire marshal and further appeal shall be under Code Section 25-2-10.

(L) The state fire marshal, the proper local fire marshal, state inspector, local government, designated code official enforcement personnel, or agents of the governing authority shall be immune from liability to any person or party for any action or inaction by an owner of a building or by a private professional provider or its duly authorized representative in connection with building plan review services by private professional providers as provided in this subsection.

(M) Except as provided in this paragraph, no proper local fire marshal, state inspector, or designated code official shall adopt or enforce any rules, procedures, policies, or standards more stringent than those prescribed in this subsection related

to private professional provider services.

(N) Nothing in this subsection shall limit the authority of the state fire marshal, the proper local fire marshal, state inspector, or designated code official to issue a stop-work order for a building project or any portion of such project, as provided by law or rule or regulation authorized pursuant to Code Section 25-2-4, after giving notice and opportunity to remedy the violation, if the official determines that a condition on the building site constitutes an immediate threat to public safety and welfare.

(O) When performing building code plan reviews related to determining compliance with the Georgia State Minimum Standard Codes most recently adopted by the Department of Community Affairs, the state's minimum fire safety standards adopted by the safety fire marshal, or the state's minimum accessibility standards pursuant to Chapter 3 of Title 30, a private professional provider is subject to the disciplinary guidelines of the applicable professional licensing board with jurisdiction over such private professional provider's license or certification under Chapters 4 and 15 of Title 43, as applicable. Any complaint processing, investigation, and discipline that arise out of a private professional provider's performance of the adopted building, fire safety, or accessibility codes or standards plan review services shall be conducted by the applicable professional licensing board or as allowed by state rule or regulation. Notwithstanding any disciplinary rules of the applicable professional licensing board with jurisdiction over such private professional provider's license or certification under Chapters 4 and 15 of Title 43, the state fire marshal, the proper local fire marshal, state inspector, or designated code official enforcement personnel may decline to accept building plan reviews submitted by any private professional provider who has submitted multiple reports which required revisions due to negligence, noncompliance, or deficiencies.

(b) A complete set of approved plans and specifications shall be maintained on the construction site, and construction shall proceed in compliance with the minimum fire safety standards under which such plans and specifications were approved. The owner of any such building or structure or his or her authorized representative shall notify the state fire marshal, the proper local fire marshal, or state inspector upon completion of approximately 80 percent of the construction thereof and shall apply for a certificate of occupancy when construction of such building or structure is completed.

(c) Every building or structure which comes under classification in paragraph (1) of subsection (b) of Code Section 25-2-13 and which comes under the jurisdiction of the ~~office of the Commissioner~~ Division of Fire Safety within the Georgia Public Safety Training Center pursuant to Code Section 25-2-12 shall have a certificate of occupancy issued by the state fire marshal, the proper local fire marshal, or the state inspector before such building or structure may be occupied. Such certificates of occupancy shall be issued for each business establishment within the building, shall carry a charge in the amount provided in Code Section 25-2-4.1, shall state the occupant load for such business establishment or building, shall be posted in a prominent location within such business establishment or building, and shall run for the life of the building, except as provided in subsection (d) of this Code section.

(d) For purposes of this chapter, any existing building or structure listed in paragraph (1) of subsection (b) of Code Section 25-2-13 and which comes under the jurisdiction of the ~~office of the Commissioner~~ Division of Fire Safety within the Georgia Public Safety Training Center pursuant to Code Section 25-2-12 shall be deemed to be a proposed building in the event such building or structure is subject to substantial renovation, a fire or other hazard of serious consequence, or a change in the classification of occupancy. For purposes of this subsection, the term 'substantial renovation' means any construction project involving exits or internal features of such building or structure costing more than the building's or structure's assessed value according to county tax records at the time of such renovation.

(e) In cases where the governing authority of a municipality which is enforcing the fire safety standards pursuant to subsection (a) of Code Section 25-2-12 contracts with the ~~office of the Commissioner~~ Division of Fire Safety within the Georgia Public Safety Training Center for the enforcement of fire safety standards, the ~~office of the Commissioner~~ Division of Fire Safety within the Georgia Public Safety Training Center shall not charge such municipality fees in excess of those charged in this Code section.

25-2-14.1.

(a) Every building and structure existing as of April 1, 1968, which building or structure is listed in paragraph (1) of subsection (b) of Code Section 25-2-13 shall comply with the minimum fire safety standards adopted in the rules and regulations promulgated pursuant to this chapter which were in effect at the time such building or structure was constructed, except that any nonconformance noted under the electrical standards adopted at the time such building or structure was constructed shall be corrected in accordance with the current electrical standards adopted pursuant to this chapter. A less restrictive provision contained in any subsequently adopted minimum fire safety standard may be applied to any existing building or structure.

(b) Every proposed building and structure listed in paragraph (1) of subsection (b) of Code Section 25-2-13 shall comply with the adopted minimum fire safety standards that were in effect on the date that plans and specifications therefor were received by the state fire marshal, the proper local fire marshal, or state inspector for review and approval.

25-2-14.2.

(a) As used in this Code section, the term 'written notification' means a typed, printed, or handwritten notice citing the specific sections of the applicable codes or standards that have been violated and describing specifically where and how the design or construction is noncompliant with such codes or standards.

(b) If the state fire marshal, the proper local fire marshal, state inspector, or designated code official determines that the building construction or plans for any building or structure, which are required under this chapter to meet the state minimum fire safety standards, do not comply with any such applicable codes or standards, the state fire marshal, the proper local fire marshal, state inspector, or designated code official may

deny a permit or request for a certificate of occupancy or certificate of completion, as appropriate, or may issue a stop-work order for the project or any portion thereof as provided by law or rule or regulation, after giving written notification and opportunity to remedy the violation.

25-2-15.

In existing buildings which come under the classification in paragraph (1) of subsection (b) of Code Section 25-2-13, when substandard conditions are found, a temporary occupancy permit may be issued, such permit carrying a time limit adjusted to meet the amount of time deemed necessary to make the proper corrections in order to bring the building up to standard. All certificates of occupancy shall be issued against the building and shall not require renewal because of change of ownership. The same set of fees for certificates of occupancy as are applicable to proposed buildings covered in Code Section 25-2-14 shall apply. The ~~Commissioner~~ commissioner and his or her delegated authorities shall determine the time limit for complying with any of the standards established pursuant to this chapter.

25-2-16.

(a) Some substances constitute a special hazard to property and to the life and safety of persons because of certain characteristics and properties incident to their storage, handling, and transportation. Substances presenting such a special hazard include gasoline, kerosene, and other flammable liquids; liquefied petroleum gases; welding and other gases; dry-cleaning fluids; anhydrous ammonia; and other gases, liquids, or solids of a highly flammable or hazardous nature.

(b) Every person who stores, transports, or handles any of the hazardous substances listed in subsection (a) of this Code section shall so store, transport, and handle the substances as to afford every precaution and protection as may be found by the ~~Commissioner~~ commissioner to be reasonable and practical to avoid injury to persons from exposure, fire, or explosion caused by the storage, transportation, or handling of these substances, including transportation thereof only in vehicles which are in proper condition for that purpose.

(c) The ~~Commissioner~~ commissioner is directed to investigate the nature and properties of such hazardous substances and the known precautionary and protective techniques for their storage, transportation, and handling, including, but not limited to, the codes and standards adopted, recommended, or issued by the National Fire Protection Association and the Agricultural Nitrogen Institute. Based upon the investigation, the ~~Commissioner~~ commissioner is authorized to determine and by rule to provide what precautionary and protective techniques are reasonable and practical measures for the prevention of injury to persons and property from the storage, transportation, and handling of such highly flammable or hazardous substances. Such authorization shall include the power to provide, by rule, the minimum standards that a vehicle shall meet before it is considered to be in proper condition to transport the material. No person shall transport any such material or substance in bulk unless the vehicle in which it is

transported is in the proper condition, as provided by such rules, to transport the material with reasonable safety.

(d)(1) As used in this subsection, the term:

(A) 'Automatic-closing device' means a gasoline or diesel fuel pump nozzle which contains a valve which automatically shuts off the flow of gasoline or diesel fuel through the nozzle when the level of gasoline in a motor vehicle fuel tank reaches a certain level.

(B) 'Hold-open latch' means a device which attaches to a gasoline or diesel fuel pump nozzle, which device mechanically holds the nozzle and valve in an open position.

(C) 'Self-service station' means any place of business which sells gasoline or diesel fuel at retail and which allows customers to dispense the fuel.

(2) No self-service station shall be prohibited from installing and no customer at such station shall be prohibited from using hold-open latches on gasoline or diesel fuel pumps available for operation by the customer. However, if hold-open latches are used on pumps operated by the customer, such pumps shall be equipped with a functioning automatic-closing device.

(e) Plans and specifications for all proposed bulk storage facilities which come under classification in subsection (a) of this Code section shall be submitted to and receive approval by the state fire marshal and the proper local fire marshal before construction is started. All such plans and specifications submitted as required by this subsection shall be accompanied by a \$100.00 fee for screening and shall bear the seal and Georgia registration number of the drafting architect or engineer or shall otherwise have the approval of the ~~Commissioner~~ commissioner.

25-2-17.

(a) As used in this Code section, the term 'explosive' or 'explosives' means any chemical compound or mechanical mixture which is commonly used or intended for the purpose of producing an explosion, which compound or mixture contains any oxidizing and combustible units or other ingredients in such proportions, quantities, or packing that an ignition by fire, by friction, by concussion, by percussion, or by detonator of any part of the compound or mixture may cause such a sudden generation of highly heated gases that the resultant gaseous pressures are capable of producing destructive effects on contiguous objects or of destroying life or limb. Explosives constitute a special hazard to life and safety of persons because of the danger incident to their manufacture, transportation, use, sale, and storage.

(b) Every person who manufactures, transports, uses, sells, or stores explosives shall so manufacture, transport, use, sell, and store them as to afford every precaution and protection against injury to persons as the ~~Commissioner~~ commissioner may determine and by rule declare to be reasonable and practical; provided, however, that nothing contained in this Code section shall be construed to extend to storage, use, or sale of small arms ammunition.

(c) The ~~Commissioner~~ commissioner is directed to investigate and examine the nature

and properties of various explosives and known safety and protective techniques, including the safety standards, recommendations, and codes of the National Fire Protection Association (Explosives Ordinance, National Fire Code), and the American Insurance Association, the successor to the National Board of Fire Underwriters. Based upon the investigation, the ~~Commissioner~~ commissioner is authorized to determine and by rule to provide what reasonable and practical protection must be afforded persons with respect to the manufacture, transportation, use, sale, and storage of explosives.

(d) No person shall manufacture, transport, use, sell, or store explosives without having first obtained a license therefor issued by the ~~Commissioner~~ commissioner in accordance with reasonable rules established by him. The ~~Commissioner~~ commissioner is authorized to make reasonable rules providing for the issuance of such licenses on an annual basis to those applicants who have observed and may be expected to observe safety rules lawfully made under this Code section. Graded fees for such licenses shall be as provided in Code Section 25-2-4.1. The permits for the use only of explosives may be issued by judges of the probate courts or other local elected officials whom the ~~Commissioner~~ commissioner may designate. Fees for such permits to use explosives shall be \$2.00 for each permit issued, which fee shall be retained by the issuing local official.

(e) Every person licensed under this Code section who suffers a larceny or attempted larceny of primer cord, blasting agents, powders, and dynamite shall make a report thereof to local law enforcement agencies and to the state fire marshal, in accordance with rules made by the ~~Commissioner~~ commissioner. The ~~Commissioner~~ commissioner is authorized to make such rules.

25-2-20.

Upon the complaint of any person, the state fire marshal or his or her deputized officials may inspect or cause to be inspected all buildings and premises within their jurisdiction whenever ~~he or they~~ the state fire marshal or his or her deputized officials deem it necessary.

25-2-22.1.

(a) The ~~Commissioner~~ commissioner, his or her delegate, or any other person authorized under this title to conduct inspections of property, in addition to other procedures now or hereafter provided, may obtain an inspection warrant under the conditions specified in this Code section. Such warrant shall authorize the ~~Commissioner~~ commissioner or his or her delegate or such authorized person to conduct a search or inspection of property either with or without the consent of the person whose property is to be searched or inspected if such search or inspection is one that is elsewhere authorized under this title or the rules and regulations duly promulgated hereunder.

(b) Inspection warrants may be issued by any judge of the superior, state, municipal, or magistrate court upon proper oath or affirmation showing probable cause for the purpose of conducting inspections authorized by this title or rules promulgated under this title and for the seizure of property or the taking of samples appropriate to the inspection. For the purposes of issuance of inspection warrants, probable cause exists upon showing a valid public interest in the effective enforcement of this title or rules promulgated under this title sufficient to justify inspection of the area, premise, building, or conveyance in the circumstances specified in the application for the warrant.

(c) A warrant shall be issued only upon affidavit of the ~~Commissioner~~ commissioner or his or her designee or any person authorized to conduct inspections pursuant to this title, sworn to before the judicial officer and establishing the grounds for issuing the warrant. The issuing judge may issue the warrant when he or she is satisfied that the following conditions are met:

(1) The one seeking the warrant must establish under oath or affirmation that the property to be inspected is to be inspected as a part of a legally authorized program of inspection which includes that property or that there is probable cause for believing

that there is a condition, object, activity, or circumstance which legally justifies such an inspection of that property; and

(2) The issuing judge determines that the issuance of the warrant is authorized by this Code section.

(d) The warrant shall:

(1) State the grounds for its issuance and the name of each person whose affidavit has been taken in support thereof;

(2) Be directed to persons authorized by this title to conduct inspections to execute it;

(3) Command the persons to whom it is directed to inspect the area, premise, building, or conveyance identified for the purpose specified and, if appropriate, direct the seizure of the property specified;

The return of the warrant shall be made promptly, accompanied by a written inventory of any property taken. A copy of the inventory shall be delivered upon request to the person from whom or from whose premises the property was taken and to the applicant for the warrant.

(f) The judicial officer who has issued a warrant shall attach thereto a copy of the return and all papers returnable in connection therewith and file them with the clerk of the superior court for the county in which the inspection was made.

25-2-23.

When ~~any of the officers listed~~ the commissioner or his or her delegated authorities as provided for in Code Section 25-2-22 finds any building or other structure which, for want of repair or by reason of age or dilapidated condition or any other cause is especially liable to fire hazard or which is so situated as to endanger other property or the safety of the public, or when, in or around any building, ~~such officer~~ the commissioner or his or her delegated authorities finds combustible or explosive matter, inflammables, or other conditions dangerous to the safety of the building, notice may be given to the owner or agent and occupant of the building to correct such unsafe conditions as may be found.

25-2-24.

If any owner, agent, or occupant fails to comply with the notice prescribed in Code Section 25-2-23 within the time specified in the notice, the state fire marshal or his or her delegated officials, with the approval of the ~~Commissioner~~ commissioner, may petition the court for a rule nisi to show cause why an order should not be issued by the court that the same be removed or remedied. Such court order shall forthwith be

complied with by the owner or occupant of the premises or building within such time as may be fixed in the court order.

25-2-25.

If any person fails to comply with the order of the court made pursuant to Code Section 25-2-24 within the time fixed, the city or county in which the building or premises in question are located shall cause the building or premises to be forthwith repaired, torn down, or demolished, the hazardous materials removed, or the dangerous conditions remedied, as the case may be, at the expense of the city or county in which the property is situated. If the owner thereof, within 30 days after notice in writing of the amount of such expense, fails, neglects, or refuses to repay the city or county the expense thereby incurred, the local authorities shall issue a fi. fa. against the owner of the property for the expense actually incurred.

An order issued under this Code section shall be delivered in accordance with the provisions of subsection (c) of this Code section.

(b) Violation of any provision of this chapter or failure to comply with a cease and desist order is cause for revocation of any or all licenses issued by the ~~Safety Fire Commissioner~~ commissioner for a period of not less than six months and not to exceed five years. PART IX
SECTION 9-1.

Said title is further amended by revising Chapter 11, relating to fire protection sprinkler contractors, as follows:

"CHAPTER 11

25-11-1.

This chapter shall be known and may be cited as the 'Georgia Fire Sprinkler Act.'

25-11-2.

As used in this chapter, the term:

(1) 'Certificate' or 'certificate of competency' means the document issued by the ~~Commissioner~~ commissioner to a certificate holder who has demonstrated adequate technical knowledge and ability to design in accordance with recognized standards as adopted by the ~~Commissioner~~ commissioner and to perform and supervise the installation, repair, alteration, addition, maintenance, or inspection of water-based fire protection systems.

(2) 'Certificate holder' means an individual who has been issued a certificate of competency by the ~~Commissioner~~ commissioner.

(3) 'Commissioner' means the ~~Georgia Safety Fire Commissioner~~ commissioner of fire safety.

(4) 'Fire protection sprinkler contractor' means an individual, partnership, corporation, association, or joint venture that supervises, performs, or supervises and performs the installation, repair, alteration, addition, maintenance, or inspection of water-based fire protection systems. Such term does not include local building officials, fire inspectors, or insurance inspectors when acting in their official capacities.

(5) 'Fire protection sprinkler contractor license' means the document issued by the ~~Commissioner~~ commissioner to the fire protection sprinkler contractor which authorizes the fire protection sprinkler contractor to engage in the business of fabrication, installation, repair, alteration, maintenance, or inspection of water-based fire protection systems.

(6) 'Fire protection sprinkler system' means an integrated system of overhead and underground piping designed in accordance with fire protection engineering standards. The installation includes one or more automatic water supplies. The portion of the system aboveground is a network of specially sized or hydraulically designed piping installed in a building, structure, or area, generally overhead, to which sprinklers are attached in a systematic pattern. The valve controlling each system

riser is located in the system riser or its supply piping. The system is usually activated by heat from a fire and discharges water over the fire area.

(7) 'Fire protection system designer' means a person who develops documents pertaining to water-based fire protection systems.

(8) 'Fire protection system designer license' means a document issued by the ~~Commissioner~~ commissioner which authorizes the fire protection system designer to engage in the business of producing construction shop drawings pertaining to water-based fire protection systems.

(9) 'Fire protection system inspector' means an individual who performs inspections only on water-based fire protection systems in accordance with applicable codes and standards as adopted by the ~~Commissioner~~ commissioner. Such term does not apply to state, local, and insurance inspectors while acting in their official capacities.

(10) 'Fire protection system inspector's license' means a document issued by the ~~Commissioner~~ commissioner which authorizes the fire protection system inspector to engage in the business of inspecting water-based fire protection systems.

(11) 'Fire pump' means a pump supplying water at the flow and pressure required by water-based fire protection systems.

(12) 'Foam-water spray system' means a special system pipe connected to a source of foam concentrate and to a water supply and equipped with foam-water spray nozzles for fire protection agent discharge (foam and water sequentially in that order or in reverse order) and distribution over the area to be protected. System operation arrangements parallel those for foam-water sprinkler systems.

(13) 'Foam-water sprinkler system' means a special system pipe connected to a source of foam concentrates and to a water supply and equipped with appropriate discharge devices for fire protection agent discharge and distribution over the area to be protected. The piping system is connected to the water supply through a control valve that is usually actuated by operation of automatic detection equipment installed in the same area as the sprinklers. When this valve opens, water flows into the piping system, and foam concentrate is injected into the water. The resulting foam solution discharging through the discharge devices generates and distributes foam. Upon exhaustion of the foam concentrate supply, water discharge will follow the foam and continue until manually shut off. Existing deluge sprinkler systems that have been converted to the use of aqueous film forming foam are classified as foam-water sprinkler systems.

(14) 'Inspection' means a visual examination of a water-based fire protection system or portion thereof to verify that it appears to be in operating condition and is free of physical damage.

(15) 'Maintenance' means work performed to keep equipment operable or to make repairs without altering the operation of the water-based system.

(16) 'Private fire service main' means that pipe and its appurtenances on private property that are:

(A) Between a source of water and the base of the system riser for water-based fire protection systems;

- (B) Between a source of water and inlets to foam-making systems;
 - (C) Between a source of water and the base elbow of private hydrants or monitor nozzles;
 - (D) Used as fire pump suction and discharge piping outside of a building; and
 - (E) Beginning at the inlet side of the check valve on a gravity or pressure tank.
- (17) 'Private water tank' means a tank supplying water for water-based fire protection systems which is located on private property.
- (18) 'Standpipe system' means an arrangement of piping, valves, hose connections, and allied equipment installed in a building or structure with the hose connections located in such a manner that water can be discharged in streams or spray patterns through attached hoses and nozzles for the purpose of extinguishing a fire, thus protecting a building or structure, its contents, and its occupants. This is accomplished by connection to water supply systems or by pumps, tanks, and other equipment necessary to provide an adequate supply of water-to-hose connections.
- (19) 'Testing' means a procedure to determine the status of a system as intended by conducting periodic physical checks on water-based fire protection systems such as waterflow tests, fire pump tests, alarm tests, and trip tests of dry pipe, deluge, or preaction valves. These tests follow up on the original acceptance test at intervals specified in the appropriate standards related to such systems.
- (20) 'Water-based fire protection system' means any one system or any combination of a number of systems designed to deliver water to an apparatus designed to extinguish or retard the advancement of fire. Such systems include fire protection sprinkler systems, standpipe systems, private fire service mains, fire pumps, private water tanks, water spray fixed systems, foam-water spray systems, and foam-water sprinkler systems. The term 'fire sprinkler system' is used interchangeably with this term.
- (21) 'Water-spray fixed system' means a special fixed pipe system connected to a reliable fire protection water supply and equipped with water-spray nozzles for specific water discharge and distribution over the surface or area to be protected. The piping system is connected to the water supply through an automatically or manually activated valve that initiates the flow of water. An automatic valve is actuated by operation of automatic detection equipment installed in the same area as the water-spray nozzles.

The device must be listed by a nationally recognized testing laboratory. The device must bear a manufacturer's name and serial number. The listings, approvals, and serial numbers may be stamped on the manufacturer's identification and instruction plate or on a separate plate of the testing laboratory soldered or attached to the extinguisher shell in a permanent manner set forth by the listing or approving organization.
- (8) 'Preengineered fire suppression system' means any system having predetermined flow rates, nozzle pressures, and quantities of an extinguishing agent. These systems

have the specific pipe size, maximum and minimum pipe lengths, flexible hose specifications, number of fittings, and number and types of nozzles prescribed by a nationally recognized testing laboratory. The hazards protected by these systems are specifically limited as to the type and size by the testing laboratory based upon actual fire tests. Limitations on hazards that can be protected by these systems are contained in the manufacturer's installation manual, which is referenced as part of the listing.

25-12-3.

All fire suppression systems required by the ~~Commissioner's~~ commissioner's rules and regulations or by other state or local fire safety rules or regulations must be installed, inspected, repaired, recharged, serviced, or tested only by a firm licensed under the provisions of this chapter, except as otherwise provided by this chapter.

25-12-4.

All portable fire extinguishers required by the ~~Commissioner's~~ commissioner's rules and regulations or by other state or local fire safety rules or regulations must be installed, inspected, repaired, recharged, serviced, or tested only by a firm licensed under the provisions of this chapter, except as otherwise provided by this chapter.

25-12-5.

The provisions of this chapter do not apply to fire chiefs, fire marshals, fire inspectors, or insurance company inspectors with regard to the routine visual inspection of preengineered fire suppression systems or portable fire extinguishers.

25-12-6.

(a) The provisions of this chapter do not apply to any firm that engages only in the routine visual inspection of fire suppression systems or portable fire extinguishers owned by the firm and installed on property under the control of said firm.

(b) The fees required by this chapter shall not apply to employees of federal, state, or local governments or to members of legally organized fire departments while acting in their official capacities.

25-12-7.

Each firm in the business of installing, altering, inspecting, repairing, recharging, servicing, maintaining, or testing fire suppression systems or in the business of inspecting, repairing, recharging, servicing, maintaining, or testing portable fire extinguishers is required to obtain a license from the ~~Commissioner~~ commissioner. The annual fee for said license shall be as established by the ~~Commissioner~~ commissioner by rule or regulation, but such license fee shall not exceed \$50.00.

25-12-8.

Each individual actually performing the installing, inspecting, repairing, recharging, servicing, or testing activities must possess a valid and subsisting permit issued by the

~~Commissioner~~ commissioner. The annual fee for said permit shall be as established by the ~~Commissioner~~ commissioner by rule or regulation, but such permit fee shall not exceed \$75.00. Such permit shall not be required for any individual employed by any firm or governmental entity that engages only in installing, inspecting, recharging, repairing, servicing, or testing of portable fire extinguishers or fire suppression systems owned by the firm and installed on property under the control of said firm. Such individuals shall remain subject to the rules and regulations adopted pursuant to this chapter.

25-12-9.

The licenses and permits required by this chapter shall be issued by the ~~Commissioner~~ commissioner for each license year beginning January 1 and expiring the following December 31. The failure to renew a license or permit by December 31 will cause the license or permit to become inoperative. A license or permit which is inoperative because of the failure to renew it shall be restored upon payment of the applicable fee plus a penalty equal to the applicable fee if said fees are paid within 90 days of expiration. After 90 days, the firm and the employees thereof must apply for new licenses and permits as required for an initial license or permit.

25-12-10.

The forms of such licenses and permits and applications and fees therefor shall be prescribed by the ~~Commissioner~~ commissioner by rule or regulation, subject to the limitations on fees provided for in Code Sections 25-12-7 and 25-12-8. In addition to such other information and data as the ~~Commissioner~~ commissioner determines are appropriate and required for such forms, there shall be included in such forms the following matters:

- (1) Each such application shall be sworn to by the applicant or, if a corporation, by an officer thereof;
- (2) Each application shall clearly state, in detail as set forth by the ~~Commissioner~~ commissioner, the type of activity or activities for which the applicant desires a license or permit to perform;
- (3) An application for a permit shall include the name of the licensee employing such permittee, and the permit issued in pursuance of such application shall also set forth the name of such licensee. For persons covered by Code Section 25-12-8, the application and permit shall bear the business name of the person's employer; and
- (4) The license or permit issued by the ~~Commissioner~~ commissioner shall clearly state the activity or activities for which the firm or individual has been issued the license or permit to perform. The licensee or permittee shall not perform any activity not noted on the license or permit issued by the ~~Commissioner~~ commissioner.

25-12-11.

A license may not be issued by the ~~Commissioner~~ commissioner until:

- (1) The applicant has submitted to the ~~Commissioner~~ commissioner evidence of registration as a Georgia corporation;

(2) The ~~Commissioner~~ commissioner or a person designated by him or her has by inspection determined that the applicant possesses the equipment required for the activities the applicant requests to be licensed to perform. If the applicant includes in the request the high-pressure hydrostatic testing of equipment, the applicant must submit a copy of its United States Department of Transportation approval and renewals. If the applicant includes in the request the transfer of Halogenated fire suppression agents, the applicant must submit a copy of the current Underwriter's Laboratories on-site inspection form for a manufacturer's represented Halon pumping station. The ~~Commissioner~~ commissioner shall give an applicant 60 days to correct any deficiencies discovered by inspection;

(3) The applicant has submitted to the ~~Commissioner~~ commissioner proof of a valid comprehensive liability insurance policy purchased from an insurer authorized to do business in Georgia. The coverage must include bodily injury and property damage, products liability, completed operations, and contractual liability. The proof of insurance must also be provided before any license can be renewed. The minimum amount of said coverage shall be \$1 million or such other amount as specified by the ~~Commissioner~~ commissioner. An insurer which provides such coverage shall notify the ~~Commissioner~~ commissioner of any change in coverage; and

(4) The applicant, when filing an application for an examination, pays a nonrefundable filing fee fixed by rule or regulation of the ~~Commissioner~~ commissioner.

25-12-12.

No permit may be issued to a person for the first time by the ~~Commissioner~~ commissioner until the applicant has submitted a nonrefundable filing fee fixed by rule or regulation of the ~~Commissioner~~ commissioner.

25-12-13.

(a) Any firm or individual holding a valid license or permit desiring to perform an activity not covered by the current permit may submit an application for an amended license or permit at any time between January 1 and the date established by the ~~Commissioner~~ commissioner for filing applications for renewing an annual license or permit.

(b) The provisions of this chapter relating to the requirements for obtaining a license or permit shall apply to applications for an amended license or permit. The ~~Commissioner~~ commissioner shall by rule or regulation establish the fee for obtaining an amended license and the fee for an amended permit, but such fees shall not exceed the respective limits set forth in Code Sections 25-12-7 and 25-12-8.

(c) The fees for an amended license or permit shall not apply if the new activity or activities are included in an application for a renewal of the annual license or permit. The application for renewal must be accompanied by the proof of training and other applicable documentation regarding the activity or activities desired to be included on the new annual license or permit.

25-12-14.

Every permittee must have a valid and subsisting permit upon his or her person at all times while engaging in the installing, inspection, recharging, repairing, servicing, or testing of fire suppression systems or portable fire extinguishers. Every licensee or permittee must be able to produce a valid license or valid permit, as appropriate, upon demand by the ~~Commissioner~~ commissioner or his or her representatives or by any local authority having jurisdiction for fire protection or prevention or by any person for whom the licensee or permittee solicits to perform any of the activities covered by this chapter.

25-12-15.

The ~~Commissioner~~ commissioner may adopt rules and regulations setting forth the proper installation, inspection, recharging, repairing, servicing, or testing of fire suppression systems or portable fire extinguishers. The ~~Commissioner~~ commissioner may adopt by rule the applicable standards of the National Fire Protection Association or another nationally recognized organization, if the standards are judged by him or her to be suitable for the enforcement of this chapter. All fire suppression systems covered by Code Section 25-12-3 and all portable fire extinguishers covered by Code Section 25-12-4 shall be installed, inspected, recharged, repaired, serviced, or tested in compliance with this chapter and with the ~~Commissioner's~~ commissioner's rules and regulations.

25-12-16.

The ~~Commissioner~~ commissioner shall make and promulgate specifications as to the number, type, size, shape, color, and information and data contained thereon of service tags to be attached to all portable fire extinguishers and fire suppression systems covered by this chapter when they are installed, inspected, recharged, repaired, serviced, or tested. It shall be unlawful to install, inspect, recharge, repair, service, or test any portable fire extinguisher or fire suppression system without attaching the required tag or tags completed in detail, including the actual month, day, and year the work was performed, or to use a tag not meeting the specifications set forth by the ~~Commissioner~~ commissioner.

25-12-17.

(a) The violation of any provision of this chapter or any rule or regulation adopted and promulgated pursuant to this chapter or the failure or refusal to comply with any notice or order to correct a violation or any cease and desist order by any person who possesses a license or permit issued pursuant to this chapter or who is required to have a license or permit issued pursuant to this chapter is cause for denial, nonrenewal, revocation, or suspension of such license or permit by the ~~Commissioner~~ commissioner after a determination that such person is guilty of such violations. An order of suspension shall state the period of time of such suspension, which period may not be in excess of two years from the date of such order. An order of revocation shall state the

period of time of such revocation, which period may not be in excess of five years from the date of such order. Such order shall effect suspension or revocation of all licenses and permits then held by the person, and during such period of time no license or permit shall be issued to such person. During the suspension or revocation of any license or permit, the licensee or permittee whose license or permit has been suspended or revoked shall not engage in or attempt or profess to engage in any transaction or business for which a license or permit is required under this chapter or directly or indirectly own, control, or be employed in any manner by any firm, business, or corporation for which a license or permit under this chapter is required. If, during the period between the beginning of proceedings and the entry of an order of suspension or revocation by the ~~Commissioner~~ commissioner, a new license or permit has been issued to the person so charged, the order of suspension or revocation shall operate to suspend or revoke, as the case may be, such new license or permit held by such person.

(b) The department shall not, so long as the revocation or suspension remains in effect, issue any new license or permit for the establishment of any new firm, business, or corporation of any person or applicant that has or will have the same or similar management, ownership, control, employees, permittees, or licensees or will use the same or a similar name as the revoked or suspended firm, business, corporation, person, or applicant.

(c) The ~~Commissioner~~ commissioner may deny, nonrenew, suspend, or revoke the license or permit of:

(1) Any person, firm, business, or corporation whose license has been suspended or revoked under this chapter;

(2) Any firm, business, or corporation if any officer, director, stockholder, owner, or person who has a direct or indirect interest in the firm, business, or corporation has had his or her license or permit suspended under this chapter; and

(3) Any person who is or has been an officer, director, stockholder, or owner of a firm, business, or corporation or who has or had a direct or indirect interest in a firm, business, or corporation whose license or permit has been suspended or revoked under this chapter.

(d) In addition to the grounds set forth in this Code section, it is cause for denial, nonrenewal, revocation, or suspension of a license or permit by the ~~Commissioner~~ commissioner if he or she determines that the licensee or permittee has:

(1) Rendered inoperative a portable fire extinguisher or preengineered or engineered fire suppression system covered by this chapter, except during such time as the extinguisher or preengineered or engineered system is being inspected, recharged, hydrottested, repaired, altered, added to, maintained, serviced, or tested or except pursuant to court order;

(2) Falsified any record required to be maintained by this chapter or rules or regulations adopted pursuant to this chapter or current fire codes enforced by the ~~Commissioner~~ commissioner;

(3) Improperly installed, recharged, hydrottested, repaired, serviced, modified, altered, inspected, or tested a portable fire extinguisher or preengineered or engineered fire

suppression system;

(5) Failed to provide proof of or failed to maintain the minimum comprehensive liability insurance coverage as set forth in paragraph (3) of Code Section 25-12-11;

(6) Failed to obtain, retain, or maintain one or more of the qualifications for a license or permit required by this chapter;

(7) Used credentials, methods, means, or practices to impersonate a representative of the ~~Commissioner~~ commissioner or the state fire marshal or any local fire chief, fire marshal, or other fire authority having jurisdiction;

(8) Installed, recharged, hydrotested, repaired, serviced, modified, altered, inspected, maintained, added to, or tested a portable fire extinguisher or preengineered or engineered fire suppression system without a current, valid license or permit when such license or permit is required by this chapter;

(9) Made a material misstatement or misrepresentation or committed a fraud in obtaining or attempting to obtain a license or permit; or

(10) Failed to notify the ~~Commissioner~~ commissioner, in writing, within 30 days after a change of residence, principal business address, or name.

(e) In addition, the ~~Commissioner~~ commissioner shall not issue a new license or permit if the ~~Commissioner~~ commissioner finds that the circumstance or circumstances for which the license or permit was previously suspended or revoked still exist or are likely to recur.

25-12-18.

(a) Whenever the ~~Commissioner~~ commissioner shall have reason to believe that any individual is or has been violating any provisions of this chapter, the ~~Commissioner~~ commissioner, his or her deputy, his or her assistant, or other designated persons may issue and deliver to the individual an order to cease and desist such violation. An order issued under this Code section may be delivered in accordance with the provisions of subsection (d) of this Code section.

(b) Violation of any provision of this chapter or failure to comply with a cease and desist order is cause for revocation of any or all permits and licenses issued by the ~~Commissioner~~ commissioner for a period of not less than six months and not to exceed five years. If a new permit or license has been issued to the person so charged, the order of revocation shall operate effectively with respect to such new permits and licenses held by such person. In the case of an applicant for a license, certificate, or permit, violation of any provision of this title may constitute grounds for refusal of the application. Decisions under this subsection may be appealed as provided by law.

(c) Any person who violates any provision of this chapter or any rule, regulation, or order issued by the ~~Commissioner~~ commissioner under this chapter shall be subject to a civil penalty imposed by the ~~Commissioner~~ commissioner of not more than \$1,000.00

Prior to subjecting any person or entity to a fine under this subsection, the ~~Commissioner~~ commissioner or his or her agent shall give written notice to the person or entity by hand delivery or by registered or certified mail or statutory overnight delivery, return receipt requested, of the existence of the violations. After a reasonable period of time after notice is given, an order may be issued based on this Code section. Such order must be delivered in accordance with the provisions of subsection (d) of this Code section and must notify the person or entity of the right to a hearing with respect to same.

(d) Any order issued by the ~~Commissioner~~ commissioner under this chapter shall contain or be accompanied by a notice of opportunity for hearing which may provide that a hearing will be held if and only if a person subject to the order requests a hearing within ten days of receipt of the order and notice. The order and notice shall be served by delivery by the ~~Commissioner~~ commissioner or his or her agent or by registered or certified mail or statutory overnight delivery, return receipt requested. Any person who fails to comply with any order under this subsection is guilty of a misdemeanor and may be punished as provided by law.

(e) In addition to other powers granted to the ~~Commissioner~~ commissioner under this chapter, the ~~Commissioner~~ commissioner may bring a civil action to enjoin a violation of any provision of this chapter or of any rule, regulation, or order issued by the ~~Commissioner~~ commissioner under this chapter.

25-12-19.

(a) Any person, firm, or corporation which violates any provision of this chapter or any order, rule, or regulation of the ~~Commissioner~~ commissioner shall be guilty of a misdemeanor.

(b) It shall also constitute a misdemeanor willfully or intentionally to:

(2) Improperly install a fire suppression system or improperly recharge, repair, service, or test any such suppression system or any such portable fire extinguisher;

(3) While holding a permit or license, allow another person to use the permit or license or permit number or license number or to use a license or permit or license number or permit number other than his or her own valid license or permit or license number or permit number;

(4) Use or permit the use of any license by an individual or organization other than the one to whom the license is issued;

(5) To use any credential, method, means, or practice to impersonate a representative of the ~~Commissioner~~ commissioner or the state fire marshal or any local fire chief, fire marshal, or other fire authority having jurisdiction; or

(6) To engage in the business of installing, inspecting, recharging, repairing, servicing, or testing portable fire extinguishers or fire suppression systems except in

conformity with the provisions of this chapter and the applicable rules and regulations of the ~~Commissioner~~ commissioner.

25-12-20.

Any authority, power, or duty vested in the ~~Commissioner~~ commissioner by any provision of this chapter may be exercised, discharged, or performed by a deputy, assistant, or other designated employee acting in the ~~Commissioner's~~ commissioner's name and by his or her delegated authority. The ~~Commissioner~~ commissioner shall be responsible for the official acts of such persons who act in his or her name and by his or her authority.

25-12-21.

(a) All fees collected by the ~~Commissioner~~ commissioner for licenses, permits, and related examinations pursuant to the provisions of this chapter shall be deposited in the general fund of this state in accordance with applicable laws of this state.

(b) The ~~Commissioner~~ commissioner is authorized to receive grants or gifts for the administration of this chapter from parties interested in upgrading and improving the quality of fire protection provided by portable fire extinguishers or fire suppression systems.

25-12-22.

(a) Nothing in this chapter limits the power of a municipality, a county, or the state to require the submission and approval of plans and specifications or to regulate the quality and character of work performed by contractors through a system of permits, fees, and inspections otherwise authorized by law for the protection of the public health and safety.

(b) No municipality or county shall impose any other requirements on persons licensed or permitted by the ~~Commissioner~~ commissioner as set forth in this chapter to prove competency to conduct any activity covered by said license or permit.

25-12-23.

(a) The Division of Fire Safety within the Georgia Public Safety Training Center shall succeed to all rules, regulations, policies, procedures, and pending and finalized administrative orders of the Safety Fire Commissioner under this chapter which are in effect on June 30, 2019. Such rules, regulations, policies, procedures, and orders shall remain in effect until amended, repealed, superseded, or nullified by the commissioner.

(b) All valid agreements, contracts, licenses, permits, certificates, and similar authorizations previously issued by the Safety Fire Commissioner with respect to any function transferred to the Division of Fire Safety within the Georgia Public Safety Training Center shall continue in effect until the same expire by their terms unless they are suspended, revoked, or otherwise made ineffective as provided by law.

(c) Effective July 1, 2019, the Division of Fire Safety within the Georgia Public Safety Training Center shall carry out all of the functions and obligations and exercise all of

the powers formerly held by the Safety Fire Commissioner under this chapter."

PART XI
SECTION 11-1.

Said title is further amended by revising Chapter 14, relating to Georgia fire safety standard and firefighter protection, as follows:

"CHAPTER 14

25-14-1.

This chapter shall be known and may be cited as the 'Georgia Fire Safety Standard and Firefighter Protection Act.'

25-14-2.

As used in this chapter, the term:

(1) 'Agent' means any person authorized by the state revenue commissioner to purchase and affix stamps on packages of cigarettes.

(2) 'Cigarette' means:

(A) Any roll for smoking made wholly or in part of tobacco when the cover of the roll is paper or any substance other than tobacco; or

(B) Any roll for smoking wrapped in any substance containing tobacco which, because of its appearance, the type of tobacco used in the filler, or its packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigarette as described in subparagraph (A) of this paragraph.

(3) 'Commissioner' means the ~~Safety Fire Commissioner~~ commissioner of fire safety.

(C) Any entity which becomes a successor of an entity described in subparagraph (A) or (B) of this paragraph.

(4.1) 'New York Fire Safety Standards for Cigarettes' means those New York Fire Safety Standards for Cigarettes in effect on April 1, 2008.

(5) 'Quality control and quality assurance program' means the laboratory procedures implemented to ensure that operator bias, systematic and nonsystematic methodological errors, and equipment related problems do not affect the results of the testing. Such a program ensures that the testing repeatability remains within the required repeatability values stated in paragraph (6) of subsection (b) of Code Section 25-14-3 for all test trials used to certify cigarettes in accordance with this chapter.

(6) 'Repeatability' means the range of values within which the repeat results of

cigarette test trials from a single laboratory will fall 95 percent of the time.

(7) 'Retail dealer' means any person, other than a manufacturer or wholesale dealer, engaged in selling cigarettes or tobacco products.

(8) 'Sale' means any sale, transfer, exchange, theft, barter, gift, or offer for sale and distribution in any manner or by any means whatever.

A wholesale dealer is also any person who owns, operates, or maintains one or more cigarette or tobacco product vending machines in, at, or upon premises owned or occupied by any other person.

25-14-3.

(a) Except as provided in subsection (h) of this Code section, no cigarettes may be sold or offered for sale in this state or offered for sale or sold to persons located in this state unless the cigarettes have been tested in accordance with the test method and meet the performance standard specified in this Code section, a written certification has been filed by the manufacturer in accordance with Code Section 25-14-4, and the cigarettes have been marked in accordance with Code Section 25-14-5.

(b)(1) Testing of cigarettes shall be conducted in accordance with the American Society of Testing and Materials (ASTM) Standard E2187-04, 'Standard Test Method for Measuring the Ignition Strength of Cigarettes.'

(2) Testing shall be conducted on ten layers of filter paper.

(3) No more than 25 percent of the cigarettes tested in a test trial in accordance with this Code section shall exhibit full-length burns. Forty replicate tests shall comprise a complete test trial for each cigarette tested.

(4) The performance standard required by this Code section shall only be applied to a complete test trial.

(5) Written certifications shall be based upon testing conducted by a laboratory that has been accredited pursuant to standard ISO/IEC 17025 of the International Organization for Standardization (ISO) or other comparable accreditation standard required by the ~~Commissioner~~ commissioner.

(6) Laboratories conducting testing in accordance with this Code section shall implement a quality control and quality assurance program that includes a procedure that will determine the repeatability of the testing results. The repeatability value shall be no greater than 0.19.

(7) This Code section does not require additional testing if cigarettes are tested consistent with this chapter for any other purpose.

(8) Testing performed or sponsored by the ~~Commissioner~~ commissioner to determine a cigarette's compliance with the performance standard required shall be conducted in accordance with this Code section.

(c) Each cigarette listed in a certification submitted pursuant to Code Section 25-14-4 that uses lowered permeability bands in the cigarette paper to achieve compliance with

the performance standard set forth in this Code section shall have at least two nominally identical bands on the paper surrounding the tobacco column. At least one complete band shall be located at least 15 millimeters from the lighting end of the cigarette. For cigarettes on which the bands are positioned by design, there shall be at least two bands fully located at least 15 millimeters from the lighting end and ten millimeters from the filter end of the tobacco column, or ten millimeters from the labeled end of the tobacco column for nonfiltered cigarettes.

(d) A manufacturer of a cigarette that the ~~Commissioner~~ commissioner determines cannot be tested in accordance with the test method prescribed in paragraph (1) of subsection (b) of this Code section shall propose a test method and performance standard for the cigarette to the ~~Commissioner~~ commissioner. Upon approval of the proposed test method and a determination by the ~~Commissioner~~ commissioner that the performance standard proposed by the manufacturer is equivalent to the performance standard prescribed in paragraph (3) of subsection (b) of this Code section, the manufacturer may employ such test method and performance standard to certify such cigarette pursuant to Code Section 25-14-4. If the ~~Commissioner~~ commissioner determines that another state has enacted reduced cigarette ignition propensity standards that include a test method and performance standard that are the same as those contained in this chapter, and the ~~Commissioner~~ commissioner finds that the officials responsible for implementing those requirements have approved the proposed alternative test method and performance standard for a particular cigarette proposed by a manufacturer as meeting the fire safety standards of that state's law or regulation under a legal provision comparable to this Code section, then the ~~Commissioner~~ commissioner shall authorize that manufacturer to employ the alternative test method and performance standard to certify that cigarette for sale in this state, unless the ~~Commissioner~~ commissioner demonstrates a reasonable basis why the alternative test should not be accepted under this chapter. All other applicable requirements of this Code section shall apply to the manufacturer.

(e) Each manufacturer shall maintain copies of the reports of all tests conducted on all cigarettes offered for sale for a period of three years, and shall make copies of these reports available to the ~~Commissioner~~ commissioner and the Attorney General upon written request. Any manufacturer who fails to make copies of these reports available within 60 days of receiving a written request shall be subject to a civil penalty not to exceed \$10,000.00 for each day after the sixtieth day that the manufacturer does not make such copies available.

(f) The ~~Commissioner~~ commissioner may adopt a subsequent ASTM Standard Test Method for Measuring the Ignition Strength of Cigarettes upon a finding that such subsequent method does not result in a change in the percentage of full-length burns exhibited by any tested cigarette when compared to the percentage of full-length burns the same cigarette would exhibit when tested in accordance with ASTM Standard E2187-04 and the performance standard in paragraph (3) of subsection (b) of this Code section.

(g) The ~~Commissioner~~ commissioner shall review the effectiveness of this Code

section and report his or her findings every three years to the General Assembly and, if appropriate, recommendations for legislation to improve the effectiveness of this chapter. The report and legislative recommendations shall be submitted no later than June 30 following the conclusion of each three-year period.

(h) The requirements of subsection (a) of this Code section shall not prohibit:

(1) Wholesale or retail dealers from selling their existing inventory of cigarettes on or after January 1, 2010, if the wholesale or retailer dealer can establish that state tax stamps were affixed to the cigarettes prior to January 1, 2010, and if the wholesale or retailer dealer can establish that the inventory was purchased prior to January 1, 2010, in comparable quantity to the inventory purchased during the same period of the prior year; or

(2) The sale of cigarettes solely for the purpose of consumer testing. For purposes of this paragraph, the term 'consumer testing' shall mean an assessment of cigarettes that is conducted by a manufacturer, or under the control and direction of a manufacturer, for the purpose of evaluating consumer acceptance of such cigarettes, utilizing only the quantity of cigarettes that is reasonably necessary for such assessment.

(i) This chapter shall be implemented in accordance with the implementation and substance of the New York Fire Safety Standards for Cigarettes.

25-14-4.

(a) Each manufacturer shall submit to the ~~Commissioner~~ commissioner a written certification attesting that:

(1) Each cigarette listed in the certification has been tested in accordance with Code Section 25-14-3; and

(b) Each cigarette listed in the certification shall be described with the following information:

(1) Brand or trade name on the package;

(2) Style, such as light or ultra light;

(5) Flavor, such as menthol or chocolate, if applicable;

(6) Filter or nonfilter;

(7) Package description, such as soft pack or box;

(8) Marking approved in accordance with Code Section 25-14-5;

(9) The name, address, and telephone number of the laboratory, if different from the manufacturer that conducted the test; and

(10) The date that the testing occurred.

(c) The certifications shall also be made available to the Attorney General for purposes consistent with this chapter and to the state revenue commissioner for the purposes of ensuring compliance with this Code section.

(d) Each cigarette certified under this Code section shall be recertified every three

years.

(e) For each cigarette listed in a certification, a manufacturer shall pay to the ~~Commissioner~~ commissioner a fee of \$250.00.

(f) If a manufacturer has certified a cigarette pursuant to this Code section and thereafter makes any change to such cigarette that is likely to alter its compliance with the reduced cigarette ignition propensity standards required by this chapter, that cigarette shall not be sold or offered for sale in this state until the manufacturer retests the cigarette in accordance with the testing standards set forth in Code Section 25-14-3 and maintains records of that retesting as required by Code Section 25-14-3. Any altered cigarette which does not meet the performance standard set forth in Code Section 25-14-3 shall not be sold in this state.

25-14-5.

(a) Cigarettes that are certified by a manufacturer in accordance with Code Section 25-14-4 shall be marked to indicate compliance with the requirements of Code Section 25-14-3. The marking shall be in eight-point type or larger and consist of:

(1) Modification of the Universal Product Code to include a visible mark printed at or around the area of the Universal Product Code. The mark may consist of alphanumeric or symbolic characters permanently stamped, engraved, embossed, or printed in conjunction with the Universal Product Code;

(2) Any visible combination of alphanumeric or symbolic characters permanently stamped, engraved, or embossed upon the cigarette packaging or cellophane wrap; or

(3) Printed, stamped, engraved, or embossed text on the cigarette packaging or cellophane wrap that indicates that the cigarettes meet Georgia standards.

(b) A manufacturer shall use only one marking and shall apply this marking uniformly for all packages, including but not limited to packs, cartons, and cases, and brands marketed by that manufacturer.

(c) The ~~Commissioner~~ commissioner shall be notified as to the marking that is selected.

(d) Prior to the certification of any cigarette, a manufacturer shall present its proposed marking to the ~~Commissioner~~ commissioner for approval. Upon receipt of the request, the ~~Commissioner~~ commissioner shall approve or disapprove the marking offered. The ~~Commissioner~~ commissioner shall approve:

(1) Any marking in use and approved for sale in New York pursuant to the New York Fire Safety Standards for Cigarettes; or

(2) The letters 'FSC,' which signifies Fire Standards Compliant, appearing in eight-point type or larger and permanently printed, stamped, engraved, or embossed on the package at or near the Universal Product Code.

Proposed markings shall be deemed approved if the ~~Commissioner~~ commissioner fails to act within ten business days of receiving a request for approval.

(e) No manufacturer shall modify its approved marking unless the modification has been approved by the ~~Commissioner~~ commissioner in accordance with this Code section.

25-15-14.

No boiler or pressure vessel which does not conform to the rules and regulations of the office division governing new construction and installation shall be installed and operated in this state after 12 months from the date upon which the first rules and regulations under this article pertaining to new construction and installation shall have become effective, unless the boiler or pressure vessel is of special design or construction and is not inconsistent with the spirit and safety objectives of such rules and regulations, in which case a special installation and operating permit may at its discretion be granted by the office division.

25-15-15.

(a) The maximum allowable working pressure of a boiler carrying the ASME Code symbol or of a pressure vessel carrying the ASME or API-ASME symbol shall be

Accidents resulting in a fatality shall also be reported immediately to the ~~office~~ division in person or by phone in accordance with regulations adopted by the ~~office~~ division.

25-15-62.

No county, municipality, or other political subdivision shall have the power to pass ordinances, resolutions, or other requirements regulating the construction, installation, inspection, maintenance, repair, or operation of amusement rides within the limits of such county, municipality, or other political subdivision. Any such ordinances, resolutions, or other requirements shall be void and of no effect; provided, however, that the provisions of this Code section shall not apply to local zoning ordinances or ordinances regulating location, siting requirements, or other development standards or conditions relative to amusement rides or their time of operation or noise levels generated. 45-22-7.

(a) The manufacturer, importer, or distributor of any hazardous chemical shall prepare a material safety data sheet which, to the best knowledge of the manufacturer, importer, or distributor, is current, accurate, and complete, based on information then reasonably available to the manufacturer, importer, or distributor, and provide a copy of the material safety data sheet to employers who purchase such hazardous chemicals and an electronic copy to the ~~department~~ Division of Fire Safety within the Georgia Public Safety Training Center annually.

(b) Any person who produces a mixture may, for the purposes of this Code section, prepare and use a mixture material safety data sheet, subject to the provisions of subsection (j) of this Code section.

(c) A manufacturer, importer, distributor, or employer may provide the information required by this Code section on an entire mixture, instead of on each hazardous chemical in it, when all of the following conditions exist:

(1) Toxicity test information exists on the mixture itself or adequate information exists to form a valid judgment of the hazardous properties of the mixture itself and the material safety data sheet indicates that the information presented and the conclusions drawn are from some source other than direct test data on the mixture itself, and that a material safety data sheet on each constituent hazardous chemical identified on the material safety data sheet is available upon request;

(2) Provision of information on the mixture will be as effective in protecting employee health as information on the ingredients;

(3) The hazardous chemicals in the mixture are identified on the material safety data sheet unless it is unfeasible to describe all the ingredients in the mixture, provided that the reason why the hazardous chemicals in the mixture are not identified shall be stated on the material safety data sheet; and

(4) A single mixture material safety data sheet may be provided for more than one formulation of a product mixture if the information provided does not vary for the formulation.

(d) A manufacturer, importer, or distributor who is responsible for preparing and transmitting a material safety data sheet under the provisions of this Code section shall revise such material safety data sheet on a timely basis, as appropriate to the importance of any new information which would affect the contents of the existing material safety data sheet, and in any event within three months of such information becoming available to the manufacturer, importer, or distributor. Each such manufacturer, importer, or distributor shall provide a copy of the material safety data sheet to employers who have purchased such hazardous chemicals and an electronic copy to the

~~department~~ Division of Fire Safety within the Georgia Public Safety Training Center.

(e) Any person subject to the provisions of this Code section shall be relieved of the obligation to provide a direct purchaser of a hazardous chemical with a material safety data sheet if:

(1) He or she has a record of having provided the direct purchaser with the most recent version of the material safety data sheet;

(2) The chemical is labeled pursuant to:

(A) The federal Atomic Energy Act; or

(B) The federal Resource Conservation Recovery Act; or

(3) The article is one sold at retail and is incidentally sold to an employer or the employer's employees in the same form, approximate amount, concentration, and manner as it is sold to consumers, and, to the seller's knowledge, employee exposure to the article is not significantly greater than the consumer exposure occurring during the principal consumer use of the article.

(f) If an employer is not supplied with a material safety data sheet by a manufacturer, importer, or distributor for a hazardous chemical subject to this Code section, such employer shall, within a reasonable amount of time after discovering that a material safety data sheet has not been supplied, use diligent efforts to obtain such material safety data sheet from the manufacturer, importer, or distributor. For purposes of this subsection, 'diligent efforts' means a prompt inquiry by the employer to the manufacturer, importer, or distributor of the hazardous chemicals; provided, however, that an independent contractor or subcontractor shall be responsible for obtaining the material safety data sheet for his or her employees in the workplace of another.

(g) If after having used diligent efforts, an employer still fails to obtain a material safety data sheet, such employer shall notify the ~~department~~ Division of Fire Safety within the Georgia Public Safety Training Center of the employer's inability to obtain such material safety data sheet.

(h) An employer who has used diligent efforts and who has made a documented notification to the ~~department~~ Division of Fire Safety within the Georgia Public Safety Training Center pursuant to this Code section shall not be found in violation of this Code section with respect to the material safety data sheet which was not supplied by the manufacturer, importer, or distributor as required by this Code section.

(i) Every employer who manufactures, produces, uses, applies, or stores hazardous chemicals in the workplace shall post a notice as prescribed by rule or regulation promulgated by the ~~department~~ Division of Fire Safety within the Georgia Public Safety Training Center in a place where notices are normally posted, informing employees of their rights under this chapter.

(j) Every employer who manufactures, produces, uses, applies, or stores hazardous chemicals in the workplace shall maintain a material safety data sheet for each hazardous chemical which is present in such workplace. All material safety data sheets shall be readily available in the workplace; provided, however, that employers who maintain one or more work areas which are not fixed at specific geographic locations shall be authorized to maintain material safety data sheets for each hazardous chemical

used in such work area at a central location.

(k)(1) A material safety data sheet may be kept in any form, including operations procedures, and may be designed to cover groups of hazardous chemicals in a work area where it may be appropriate to address the hazards of a process rather than individual hazardous chemicals. The employer shall ensure that in all cases the required information is provided for each hazardous chemical, and is readily accessible during each workshift to employees when they are in their work area; provided, however, that employers who maintain one or more work areas which are not fixed at specific geographic locations shall be authorized to maintain material safety data sheets for each hazardous chemical used in such work area at a central location.

(2) Any employee may request in writing and shall have the right to examine and obtain the material safety data sheets for the hazardous chemicals to which he or she is, has been, or may be exposed. The employer shall provide any material safety data sheet within its possession within five of the requesting employee's working days, subject to the provisions of subsection (g) of this Code section. The employer may adopt reasonable procedures for acting upon such requests to avoid interruption of normal work operations.

(3) An independent contractor or subcontractor working in the workplace of another employer may request in writing and shall have the right to examine the material safety data sheets for the hazardous chemicals to which such contractor, subcontractor, or employees thereof are, have been, or may be exposed. The employer shall provide any material safety data sheet within its possession within five of the requesting independent contractor's or subcontractor's working days, subject to the provisions of subsection (g) of this Code section. The employer may adopt reasonable procedures for acting upon such requests to avoid interruption of normal work operations.

(4) If an employee who has requested a material safety data sheet pursuant to this chapter has not received such material safety data sheet within five of the requesting employee's working days, subject to the provisions of subsection (g) of this Code section, that employee may refuse to work with the chemical for which he or she has requested the material safety data sheet until such material safety data sheet is provided by the employer; provided, however, that nothing contained in this paragraph shall be construed to permit any employee to refuse to perform essential services, as such term is defined by rule or regulation; provided, further, that nothing in this paragraph shall be construed to interfere with the right of the employer to transfer an employee who so refuses to work to other duties until such material safety data sheet is provided, such a transfer not to be considered as a discriminatory act under Code Section 45-22-10. No pay, position, seniority, or other benefits shall be lost for exercise of any right provided by this chapter as a result of such a transfer.

(l) No employer shall discharge or otherwise discriminate against an employee for the employee's assertion of the employee's rights under this chapter.

(m) For the purposes of this Code section, an employer, independent contractor, or

subcontractor shall maintain material safety data sheets for their own workplaces only; provided, however, that employees of such independent contractor or subcontractor, insofar as they are exposed in the course of their employment to hazardous chemicals in other workplaces, shall have the right to examine material safety data sheets for those chemicals to which they are exposed from the workplace employer through a written request to their own employer as provided in paragraph (2) of subsection (k) of this Code section. Nothing contained in this chapter shall be construed to require an employer to conduct studies to develop new information.

45-22-8.

(a) Each employer shall be required to comply with the minimum information standards set forth in this subsection. Each employee shall be informed of:

- (1) The requirements of this Code section;
- (2) What a material safety data sheet is and the contents of the material safety data sheet for any hazardous chemical to which he or she is exposed, or equivalent information, either in written form or through training programs;
- (3) Any operations in his or her work area where hazardous chemicals are present;
- (4) The location and availability of training programs;
- (5) His or her right to receive information regarding hazardous chemicals to which he or she may be exposed;
- (6) His or her right for his or her physician to receive information regarding hazardous chemicals to which the employee may be exposed; and
- (7) His or her right against discharge or other discrimination due to the employee's exercise of the rights provided by this chapter.

(b) In addition to providing the information required by subsection (a) of this Code section, each employer shall be required to provide a training program for all employees who are exposed to hazardous chemicals in the normal course of their employment. When training employees who are exposed to hazardous chemicals, the employer shall explain any physical or health hazards associated with the use of the chemical or mixture; proper precautions for handling; necessary personal protective equipment or other safety precautions necessary to prevent or minimize exposure to the hazardous chemical; methods of observation that may be used to detect the presence or release of a hazardous chemical in a work area, including, but not limited to, spot check monitoring, continuous monitoring, or methods of visual or olfactory detection; the labeling system and the material safety data sheet, and how employees can obtain and use the appropriate hazard information; and emergency procedures for spills, fire, disposal, and first aid. This information may relate to an entire class of hazardous chemicals to the extent appropriate and related to the job. Whenever any employer receives a new or revised material safety data sheet, such information shall be provided to employees on a timely basis not to exceed 30 days after receipt, if the new information indicates significantly increased risks to or measures necessary to protect employee health as compared to those stated on a material safety data sheet previously provided.

(c) The ~~department~~ Division of Fire Safety within the Georgia Public Safety Training Center shall by rule or regulation establish minimum information and training standards for compliance with this Code section.

45-22-9.

On and after July 1, 1989, each employer shall publish in print or electronically in January and July of each year a list of hazardous chemicals that its employees use or are exposed to in the workplace. Such list shall be available for public inspection at the workplace office. A comprehensive list of all hazardous chemicals used by the employer shall also be available for public inspection at the employer's state headquarters.

45-22-10.

(a) No person shall discharge or cause to be discharged or otherwise discipline or in any manner discriminate against any employee for any of the following reasons:

(1) The employee has requested information regarding hazardous chemicals, filed any complaint or action, or has instituted, or caused to be instituted, any proceeding under this chapter;

(2) The employee has testified or is about to testify in any proceeding in his or her own behalf or on behalf of others; or

(3) The employee has exercised any other right afforded pursuant to the provisions of this chapter.

(b) No pay, position, seniority, or other benefits shall be lost for exercise of any right provided by this chapter.

45-22-11.

(a) In order to enforce the provisions of this chapter, any employee adversely affected by a violation of this chapter by that employee's employer may file a grievance in accordance with the employer's established grievance procedures. Appointing authorities shall pursue all complaints concerning occupational exposure to hazardous chemicals.

(b) Upon any violation of Code Section 45-22-4 by a contractor, the employer under agreement with such contractor shall have the right to terminate the contract without liability.

(c) Nothing in this chapter shall change or modify the right or ability of employers to dismiss or discipline employees in accordance with the laws of this state.

(d) Any employee dissatisfied with a final decision of an appointing authority with regard to a grievance filed pursuant to subsection (a) of this Code section shall be entitled to judicial review in the same manner as provided for judicial review of contested cases in Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.'

45-22-12.

Nothing in this chapter shall be construed to constitute a waiver of the sovereign immunity of the state or any branch, department, board, bureau, commission, authority,

or other agency of the state. A violation of the provisions of this chapter shall not be the basis for an action for damages against the state or any branch, department, board, bureau, commission, authority, or other agency of the state or any member, officer, or employee of the state or any branch, department, board, bureau, commission, authority, or other agency of this state and said entities and persons are granted immunity from civil actions for damages for any violation of the provisions of this chapter."

A BILL to be entitled an Act to amend Title 48 of the Official Code of Georgia Annotated, relating to revenue and taxation, so as to define the terms "Internal Revenue Code" and "Internal Revenue Code of 1986" and thereby incorporate certain provisions of the federal law into Georgia law; to revise the individual exemption amounts; to revise provisions relating to assignment of corporate income tax credits; to provide for related matters; to provide for an effective date and applicability; to provide for automatic repeal; to repeal conflicting laws; and for other purposes.

Senator Gooch of the 51st moved that, upon the dissolution of the Joint Session, the Senate stand adjourned until 10:00 a.m. Friday, February 23, 2018.

The President announced the motion prevailed at 10:50 a.m.

The hour for convening the Joint Session of the Senate and House having arrived, the President, accompanied by the Secretary and Senators, proceeded to the Hall of the House of Representatives, and the Joint Session, called for the purpose of hearing a message by Honorable P. Harris Hines, Chief Justice of the Supreme Court, was called to order by the Speaker of the House. HR 1196 authorizing the Joint Session of the Senate and House was read by the Clerk of the House.

Honorable P. Harris Hines, Chief Justice of the Supreme Court, addressed the Joint Session of the Senate and the House of Representatives as follows:

Lieutenant Governor Cagle, Speaker Ralston, members of the General Assembly, my fellow Justices, Judges of the Court of Appeals, Judges of the other classes of courts, Ladies and Gentlemen.

The year 2018 will be a year of great change and great promise for our state. We will elect a new Governor and Lieutenant Governor, and we will say an appreciative good-bye to a truly outstanding leader, Governor Nathan Deal. And because at my core I am a son of the law, I wish to thank two Lawyer-Representatives, Wendell Willard and Rich Golick who will retire from the house this year, for their service to our state.

By this time next year, new freshmen legislators will walk the halls of this beautiful capitol building, and will have taken their seats among many of you seasoned Senators and Representatives, and will join with you in making the decisions that directly impact the lives of all Georgians.

2018 will also be a year of change and promise for the third branch of government, the Judiciary. Throughout Georgia, many new judges will don their robes of office for the first time. Our citizens will elect a new Justice to our Supreme Court. And, Governor Deal will make his fifth appointment to the court.

The members of the Supreme Court will choose a new Chief Justice, who will lead Georgia's judicial system. And I'll give you a heads up, the smart money is on my good friend, Presiding Justice Harold Melton.

I am confident that when I leave the bench as Georgia's Chief Justice at the end of August, after a legal career that began in 1968, Georgia's Judiciary will be steady, strong, and situated to become the best it has ever been.

On behalf of the Judges of Georgia, I thank you Senators, Representatives, and Governor Deal for your support of Georgia's Judiciary. Your belief in an independent, non-partisan, and nonpolitical third branch of government has been manifested by the creation of additional justices and judges for our state's two appellate courts; by passage of legislation that has made both Georgia's Supreme Court and Court of Appeals more efficient, productive, and effective in interpreting and clarifying the law; and by recognizing the hard work of those who sit upon Georgia's benches of justice by rewarding them with appropriate and appreciated compensation. Construction has already begun on a magnificent structure that will be the first State Judicial Building that is dedicated solely to the appellate courts of Georgia. Each and every Justice of the Supreme Court and each and every Judge of the Court of Appeals recognizes full well that we are being given a building which we did not toil to build, but wherein we are permitted, for a finite period of time, to work and hopefully burnish the Rule of Law.

In my time as a lawyer and a judge, among the most dramatic changes I have seen take place in our state is its dynamic growth. In 2017, we were among the top 10 fastest growing states in the nation and today, we are the eighth most populous. I repeat we are the eighth most populous.

Growth brings opportunity. And it is no surprise that for the fifth year in a row, Georgia has been named the No. 1 state in the nation to do business. One of the necessary pre-conditions to successfully doing business is the Rule of Law – knowing that contracts will be enforced as written, knowing that the law will be applied as drafted by the legislature, and knowing that there is an orderly, reasonable, and fair process for resolving disputes.

The Court Reform Council has recommended the creation of a Statewide Business Court. If you, the members of the General Assembly, approve a constitutional amendment, and the voters endorse it by a two-thirds vote, this court will have jurisdiction similar, in certain ways, to our federal courts and also have the expertise to handle complex

financial cases. It would operate similarly to the specialized business courts now operating in Fulton and Gwinnett Counties. I hope this initiative meets with your approval.

A sea change I have witnessed in my many years as a judge is how we view and respond to criminal behavior. We've become smarter, more precise, and more just. As a result, the courts are doing a better job of protecting society, saving taxpayer dollars, and restoring families.

Criminal justice reform has been a hallmark of Governor Deal's administration, as it has been for many of you legislators, and it is not just the policy changes that you have made in criminal procedures that make Georgia a national leader in this movement, but the non-partisan and collaborative way in which it has been achieved. My friend and colleague, Justice Michael Boggs, has served since 2012 with ability, commitment, and passion as Co-Chair of the Governor's Criminal Justice Reform Council.

Under the leadership of Governor Deal, you ladies and gentlemen of the legislature, and Georgia's judges, policy changes in our criminal justice system have accomplished three goals: they have ensured that we hold accountable those who violate the law. They have improved public safety by reducing the recidivism rate. And they have saved money.

Expensive prison commitments overall are down in Georgia, with 2017 having the lowest number since 2002. Also, the crime rate is down 6 percent. Most dramatically, prison commitments among African-American citizens have dropped more than 30 percent between 2009 and 2016. The number of African-Americans entering the prison system in 2016 was its lowest since 1987. This, ladies and gentlemen, is historic, and worth celebrating.

We have made progress, not just with low-risk adults who commit non-violent property and drug offenses, but also with the young people of our state.

Juveniles often are drivers of the adult criminal justice system. Locking up a youth is not only costly at approximately \$90,000 a year, it is also often ineffective. Nearly two-thirds of juvenile offenders re-offend in three years. Before criminal justice reform, Georgians received a poor public safety return on their investment. Many communities did not have alternative placements for these youth. Thanks to you, the legislature, increasingly they now do.

You rewrote the juvenile code and appropriated \$7 million for communities to develop alternatives to locking up young people in the state's youth jails and prisons. And look what has happened. After challenging the counties that serve 70 percent of Georgia's at-risk youth to divert 15 percent of their delinquents away from incarceration, those counties heeded the call and have diverted 54 percent, resulting in the number of youth in confinement statewide dropping 36 percent.

We know that for many of these young people, what works best to prevent criminal behavior are professional interventions and family therapy.

These alternatives in no way represent a turn toward becoming soft on crime. They represent progress in turning around troubled youth before they graduate to the adult criminal justice system as hardened, institutionalized offenders.

A jump-out-at-you highlight of criminal justice reform has been the success of what are called “accountability” courts - drug courts, mental health courts, veterans courts, and the like. These specialized courts hold accountable low-risk, non-violent offenders, who have made mistakes in their lives, while giving them a second chance. These courts require time, energy, and commitment from our judges, and they are demanding of participants. But they work. Validated studies have proven over and over again that drug courts produce a better public safety outcome than incarceration, and at a significantly reduced cost.

In the past, we dealt with illegal drug use and non-violent illegal behavior caused by mental illness strictly as a criminal justice issue. We often had tunnel vision and saw incarceration as the only solution. As Justice Boggs is fond of saying, “Everybody believes in an eye for an eye and a tooth for a tooth. You do the crime, you do the time. Until it’s your child or other family member who is accused.”

But we have learned we do a much better job of protecting the public by treating the whole person and the root causes of one’s crime. We have learned that a homeless veteran, found passed out on a sidewalk – a man who may have slept with snakes in Vietnam while serving our country – may be suffering from Post-Traumatic Stress Disorder and has turned to alcohol as a result. Locking him up is most probably not the best solution.

Today I am proud to announce that as of last month, every single Judicial Circuit in Georgia now has at least one, if not more, accountability courts. In six years, the number of participants in these courts has nearly tripled. It is thanks to the support of our Governor and you, and to the commitment and foresight of our state’s judges that Georgia is way out front in criminal justice reform. In the future, our successes will, for certain, grow. For I know that our state’s judges – many of whom are here today – are creative people and are committed to making our courts work for a better Georgia.

I want to give you an example of this creativity. Back in 2012, Judge Brian Amero, a Superior Court Judge in Henry County, became increasingly frustrated about the handling of defendants who failed to pay child support. He witnessed numerous litigants representing themselves who were significantly behind in child support payments and hadn’t worked for a year or longer. Most were fathers, and when a prosecutor would ask a man why he wasn’t working and taking care of his children, the man would typically

simply shrug his shoulders. Judge Amero said he got the feeling many had given up trying to pay, believing they were in a hole and could not get out. The only legal remedy was to hold them in contempt of court and put them in jail.

But watching this process, the Judge realized, everybody loses. The father goes to jail, costing the county money, what little stability he had diminishes, and he falls further behind in his payments. The mother loses as she receives no support for their children. And most importantly, the children lose, lacking any support and often believing their father is in jail because of them. It was a bad, repetitive cycle. But one day, Judge Amero thought to himself, why not try a different model.

He began assigning each delinquent parent a case manager who helped the parent obtain job skills if needed, find work, keep work, solve transportation problems, and overcome substance or alcohol abuse. The parent was told you are required to manage your child support responsibilities better. But if you prove you are working 40 hours a week, or looking for work 40 hours a week, and making a legitimate effort to pay your child support, you won't be incarcerated.

Judge Amero is as passionate about these Parental Accountability Courts as Justice Boggs is about criminal justice reform. As he says, "The numbers have been phenomenal." The fact is, once the parents get help with their underlying problems, most start financially supporting their children.

In six years of existence, these courts have helped almost 5,000 parents – mostly fathers – avoid jail time and pay more than \$5 million in support for more than 7,000 Georgia children. Additionally, they have saved counties more than \$10 million in incarceration costs.

As of now, Parental Accountability Courts operate in 33 of Georgia's 49 Judicial Circuits. The goal is to roll them out in every judicial circuit of the state.

With accountability courts, the stories of rehabilitated individuals best illustrate their success. Another such story involves a man who began abusing alcohol after an acrimonious divorce. He became estranged from his children and lost his job. But following his arrest for failing to pay child support, he became a participant in the Parental Accountability Court in Pickens County. Because of that court, he regained his financial footing. With his newfound employment, he began making his child support payments, and most importantly, he restored his relationships with his children.

His best reward came the day he received a call from his oldest daughter. She wanted a dress for her high school prom. With his new lease on life, he was able to step up and buy it for her. He describes it as one of the happiest moments of his life. Since then, he has remained sober for more than three years and spends at least one week a month with his children.

My friends, any time we can safely reunite fathers, mothers, and their children, we are helping to strengthen families, our communities, and our state. This is noble work indeed.

Safely restoring families, protecting babies and children from abuse and neglect, steering troublesome youth, the mentally ill and the drug-addicted away from incarceration are among the ways we can substantially lower the burden on our criminal courts and reduce our prison population.

We live in a technological, fast-paced age, and our courts must keep pace to serve those who have cases before them. One success story of importance has been the establishment of a statewide portal to bring ready access to our courts. Before year's end, it is hoped that lawyers and others will be able to go to a singular website, and using one password, electronically access information about cases in courts throughout Georgia. Presently, people must go, physically or electronically, to individual counties and use as many different passwords as there are vendors to gain information about their cases. This comprehensive, one-stop shop for the Judiciary will change that. Efficiency will be improved, time and money will be saved, and justice will be administered more quickly. It has not been easy achieving reformation of this magnitude within a non-unified Judiciary, and I am most grateful to Presiding Justice Harold Melton for heading this effort. I also thank the legislature for its necessary financial leadership in achieving this long-sought goal.

Other important technological improvements have taken place in the Supreme Court and Court of Appeals. Case filings are now accomplished electronically, and records from trial courts reach our appellate courts by electronic means. Again, efficiency is improved, time and money is saved, and justice is more quickly achieved.

Justice David Nahmias rightfully refers to the architect of this endeavor in the Supreme Court as Mother Teresa, an identity ascribed with respect and affection to our Clerk and Court Executive, Ms. Tee Barnes, who is the personification of grace and professionalism.

If you will, allow me to call to your attention and ask for your help in solving a significant problem facing our state. We do not have enough foster homes, and children who do not grow up in loving families are the ones who often wind up in our courts. By the end of this year, some 14,000 of Georgia's children are expected to be in our foster care system - a surge of 55 percent in the last three years. At the same time, the number of foster families has diminished.

The increase in the number of children in foster care has been fueled in part by illegal drug usage, including illicit use of opioids. Nationally, the number of children in foster care has tripled since 2012.

Even if we had significantly more foster homes, we know that children who grow up in foster care and age out of the system generally do not do as well as those who grow up in intact families. Being removed from their family is traumatic for children, even if it is necessary for their safety. Many develop mental health problems and struggle with addiction. They are more likely to become homeless, and less likely to graduate from high school or attend college. Ladies and gentlemen, at their best, foster homes can only attempt to replicate a loving, nurturing environment for the children who live in them.

But I am an optimist, for I see progress being made. Last year you approved a 19 percent pay raise for child welfare workers and pumped an additional \$19 million into the foster care system, and already we are seeing positive results. The Division of Family and Children Services reports that it has an expanded and more stable workforce of front-line child protective services workers with a turnover rate that has shrunk from nearly 40 percent to 10 percent. The percentage of foster children placed with relatives has increased, and the number of times children must be moved from one placement to the next has decreased. For your helpful action, again, I say thank you.

Our constitution says, “That an adequate public education for the citizens shall be a primary state obligation.” And I ask you to look favorably upon early learning initiatives and the bringing together of community organizations and our schools to ensure that when each child enters his or her classroom he or she is well fed, well clothed, well rested, and ready to learn. I assure you that if we can obtain these goals, grades will improve, graduation rates will increase, and suspensions will decrease. We either invest in our children now, or pay a high price later.

Another challenge facing our state is that far too many of our citizens with mental health problems continue to wind up in our jails and prisons. More than half of all Georgians who were admitted to our prisons in 2016 had a diagnosed mental health issue. We simply cannot let our prisons be our front-line and most populous mental health facilities.

Access to justice remains an issue of concern. Too many hardworking, good, decent Georgians simply cannot afford a lawyer to handle civil matters that often involve ownership of property, debt collection, landlord-tenant disputes and other similar everyday legal matters. Please, ladies and gentlemen of the legislature, look carefully at this situation.

Another area where change is needed is how bail is set, particularly for misdemeanor offenders. In its final year before it is due to sunset, the Council on Criminal Justice Reform is recommending to you measures for changing this system. People cannot be kept in jail because of poverty alone. I ask that you give the Council’s recommendations your careful attention.

Although the serious issues facing our great state are many and complex, I have the utmost faith in our three branches of government to directly confront and solve them. I know that solutions will not be easy, but let us not be deterred from our task to make Georgia a shining beacon of opportunity for all its citizens. I once asked my son, Hap, when he was kicking for the Bulldawgs, if he ever became afraid when he was attempting a last minute, long distance field goal to win or tie a game in front of 90,000 people. His answer was short and to the point. “Sure Dad, but you just have to play through it.” We, the Executive, Legislative, and Judicial Branches of Government just have to play through the problems we face – for our team, the people of Georgia.

As I approach the end of these remarks, please allow me to express some points of personal privilege. I know for certain that the courts of Georgia are in good hands and that Georgia’s Judiciary is better equipped and better prepared to serve a growing population and to correctly resolve the complex issues which are attendant thereto than ever before.

Last year, Governor Deal appointed three new justices to the Supreme Court: Justice Mike Boggs, Justice Nels Peterson, and Justice Britt Grant. Each is as bright as a new penny. They have impeccable credentials. They represent a new generation of Georgians. They bring great energy to this bench, innovative solutions to legal questions, and they are good people and good colleagues.

Ladies and gentlemen, I tell you without reservation that each and every member of the court upon which I am privileged to sit as Chief Justice understands the doctrine of separation of powers: the Legislature writes the law; the Judiciary does its best to interpret and clarify it. And in so doing, we seek to hear the quiet but clear voices of our better angels who speak in our ears the directive emblazoned above the bench of the Supreme Court of Georgia – “fiat justitia ruat caelum” (let justice be done though the heavens may fall).

Presiding Justice Melton, Justice Benham, Justice Hunstein, Justice Nahmias, Justice Blackwell, Justice Boggs, Justice Peterson, and Justice Grant, it is an honor to serve with you, as it has been an honor to serve with the other justices who have preceded me on our state’s highest bench.

Serving as Chief Justice has been the highlight of my legal career. I have been blessed to work with so very many fine public servants. I have made countless friends and benefitted from a wonderful staff.

As I close, I repeat that my legal career began in 1968, when I was admitted to the Bar of our state. I was a young attorney then and now I am an old judge. I have tried cases as an attorney. I have presided over cases as a State Court Judge and a Superior Court Judge, and I now review cases as Chief Justice of the Georgia Supreme Court. I have been

involved with cases from A to Z (Abandonment to Zoning) and many of the letters in between. Now, I am not a social scientist, but I have learned many things. And I am certain that if you legislators, good men and women all, put your primary focus on strengthening, within the ambit of the law, Georgia's families, improving the physical and mental health of our citizens, and providing the young people of our state with the opportunity to obtain an excellent education, you will create a rising tide that will lift all boats and provide the opportunity for happiness and prosperity for generations of Georgians to come.

Finally, I want to thank the lady to whom I gave my best closing argument ever, when I persuaded her to marry me way back in 1969. Helen, you are my rock, my partner, my best friend, my dear one. You have been with me every step of our journey together, and have made me a better man, a better father, and a better Judge. Mother, to me you've always been springtime at the Masters. Will you please stand. And now, may God bless each of you; may God bless your families; and may God bless the great state of Georgia.

Thank you.

(B)(i) Municipalities, counties, authorities, or state agencies may, by formal resolution, apply to the department for financial assistance provided by this paragraph.

(iii) The time of payment and any conditions concerning such funds shall be set forth in the contract.

(C) In addition to subparagraph (A) of this paragraph and subject to general appropriations for such purposes, the department with its own forces or by contract may clear, dredge, or maintain free from obstruction and may widen, deepen, and improve the ports, seaports, or harbors of this state; ~~and~~

(19) Code Sections 32-3-1 and 32-6-115 notwithstanding, the department may by contract grant to any rapid transit authority created by the General Assembly, under such terms and conditions as the department may deem appropriate, the right to occupy or traverse a portion of the right of way of any road on the state highway system by or with its mass transportation facilities. In the proceeding for making such determination, the political subdivision shall have the burden of proving the reasonableness of any function undertaken by such political subdivision as part of the application process and the reasonableness of the costs of such functions.

36-66D-5.

The department shall promulgate any reasonable and necessary rules and regulations to effectuate the provisions of this chapter."

PART V SECTION 5-1.

The General Assembly recognizes that in today's society access to broadband services is essential to everyday life. Broadband access is a necessary utility as important as electricity, gas, or phone service. However, there is a growing need for the government to provide the much needed infrastructure to provide broadband access to homes and businesses that are without such access because of their location in rural and other areas. The General Assembly finds and declares that it is vital that the state provide equitable access to broadband services that will ensure that this necessary utility that provides support for education, work, engagement with government, healthcare, public safety, and leisure is available to all citizens of Georgia. The General Assembly finds and declares that ensuring deployment of broadband services throughout this state is a public necessity, a basic function of government, and would benefit the entire state. The General Assembly further finds and declares that it is in the best interest of the state to spend state funds through the establishment of a grant program to ensure that the much needed infrastructure exists for the public purpose of state-wide deployment of broadband services to unserved areas and underserved areas of the state.

The Senate Committee on Judiciary offered the following substitute to SB 427:

A BILL TO BE ENTITLED
AN ACT

To amend Code Section 19-6-15 of the Official Code of Georgia Annotated, relating to child support in final verdict or decree, guidelines for determining amount of award, continuation of duty to provide support, and duration of support, so as to change provisions relating to the court's discretion in making a final determination of support; to change provisions relating to reliable evidence of income, voluntary unemployment, and involuntary loss of income to account for a parent's incarceration; to change provisions relating to health insurance; to change provisions relating to specific and nonspecific deviations; to change provisions relating to work related child care costs; to amend Article 1 of Chapter 11 of Title 19 of the Official Code of Georgia Annotated, relating to the Child Support Recovery Act, so as to increase fees charged by the department; to provide for related matters; to provide for effective dates; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

PART I
SECTION 1-1.

Code Section 19-6-15 of the Official Code of Georgia Annotated, relating to child support in final verdict or decree, guidelines for determining amount of award, continuation of duty to provide support, and duration of support, is amended by revising subsection (d) as follows:

"(d) **Nature of guidelines; court's discretion.** In the event of a hearing or trial on the issue of child support, the guidelines enumerated in this Code section are intended by the General Assembly to be guidelines only and any court so applying these guidelines shall not abrogate its responsibility in making the final determination of child support based on the evidence presented to it at the time of the hearing or trial. A court's final determination of child support shall take into account the obligor's earnings, income, and other evidence of the obligor's ability to pay. The court shall also consider the basic subsistence needs of the parents and the child for whom support is to be provided."

SECTION 1-2.

Said Code section is further amended by revising subparagraphs (f)(4)(A) and (f)(4)(B) and the introductory language of subparagraph (f)(4)(D) as follows:

"(A) **Imputed income.** When establishing the amount of child support, if a parent fails to produce reliable evidence of income, such as tax returns for prior years, check stubs, or other information for determining current ability to pay child support or ability to pay child support in prior years, and the court or the jury has no other reliable evidence of the parent's income or income potential, gross income for the current year ~~shall be determined by imputing gross income based on a 40 hour workweek at minimum wage~~ may be imputed. When imputing income, the court shall take into account the specific circumstances of the parent to the extent known, including such factors as the parent's assets, residence, employment and earnings history, job skills, educational attainment, literacy, age, health, criminal record and other employment barriers, and record of seeking work, as well as the local job market, the availability of employers willing to hire the parent, prevailing earnings level in the local community, and other relevant background factors in the case. If a parent is incarcerated, income shall not be imputed based upon pre-incarceration wages or other employment related income, but may be imputed based on the actual income and assets available to such incarcerated parent.

(B) **Modification.** When cases with established orders are reviewed for modification and a parent fails to produce reliable evidence of income, such as tax returns for prior years, check stubs, or other information for determining current ability to pay child support or ability to pay child support in prior years, and the court or jury has no other reliable evidence of such parent's income or income

potential, the court or jury may impute income as set forth in subparagraph (A) of this paragraph, or may increase the child support of the parent failing or refusing to produce evidence of income by an increment of at least 10 percent per year of such parent's gross income for each year since the final ~~child support~~ order was entered or last modified and shall calculate the basic child support obligation using the increased amount as such parent's gross income."

"(D) **Willful or voluntary unemployment or underemployment.** In determining whether a parent is willfully or voluntarily unemployed or underemployed, the court or the jury shall ascertain the reasons for the parent's occupational choices and assess the reasonableness of these choices in light of the parent's responsibility to support his or her child and whether such choices benefit the child. A determination of willful or voluntary unemployment or underemployment shall not be limited to occupational choices motivated only by an intent to avoid or reduce the payment of child support but can be based on any intentional choice or act that affects a parent's income. A determination of willful or voluntary unemployment or underemployment shall not be made when an individual's incarceration prevents employment. In determining willful or voluntary unemployment or underemployment, the court may examine whether there is a substantial likelihood that the parent could, with reasonable effort, apply his or her education, skills, or training to produce income. Specific factors for the court to consider when determining willful or voluntary unemployment or underemployment include, but are not limited to:"

SECTION 1-3.

Said Code section is further amended by revising division (h)(2)(B)(iii) as follows:

"(iii) Eligibility for or enrollment of the child in Medicaid, ~~or~~ the PeachCare for Kids Program, or other public health care program shall ~~not~~ satisfy the requirement that the final ~~child support~~ order provide for the child's health care needs. Health coverage through Medicaid, the PeachCare for Kids Program and Medicaid, or other public health care program shall not prevent a court from also ordering either or both parents to obtain other health insurance for the child."

SECTION 1-4.

Said Code section is further amended by revising subparagraph (i)(1)(A), division (i)(2)(B)(iii), and paragraph (3) of subsection (i) as follows:

"(A) The amount of child support established by this Code section and the presumptive amount of child support are rebuttable and the court or the jury may deviate from the presumptive amount of child support in compliance with this subsection. In deviating from the presumptive amount of child support, ~~primary~~ consideration shall be given to the best interest of the child for whom support under this Code section is being determined. A nonparent custodian's expenses may be the basis for a deviation as well as a parent's ability or inability to pay the presumptive amount of child support."

"(iii) The court or the jury shall examine all attributable and excluded sources of income, assets, and benefits available to the noncustodial parent and may consider the noncustodial parent's basic subsistence needs and all of his or her reasonable expenses of the noncustodial parent, ensuring that such expenses are actually paid by the noncustodial parent and are clearly justified expenses."

"(3) **Nonspecific deviations.** Deviations from the presumptive amount of child support may be appropriate for reasons in addition to those established under this subsection when the court or the jury finds it is in the best interest of the child. A nonspecific deviation may also be used when the court or the jury finds that the noncustodial parent has a limited ability to pay the presumptive amount of child support."

SECTION 1-5.

Said Code section is further amended by revising paragraph (1) of subsection (j) as follows:

"(1) In the event a parent suffers an involuntary termination of employment, has an extended involuntary loss of average weekly hours, is involved in an organized strike, incurs a loss of health, becomes incarcerated, or similar involuntary adversity resulting in a loss of income of 25 percent or more, then the portion of child support attributable to lost income shall not accrue from the date of the service of the petition for modification, provided that service is made on the other parent. It shall not be considered an involuntary termination of employment if the parent has left the employer without good cause in connection with the parent's most recent work."

PART II SECTION 2-1.

Article 1 of Chapter 11 of Title 19 of the Official Code of Georgia Annotated, relating to the Child Support Recovery Act, is amended by revising subsection (f) of Code Section 19-11-6, relating to enforcement of child support payments and alimony for public assistance recipients, as follows:

"(f) The department shall be authorized to charge the obligor a federal Deficit Reduction Act of 2005 fee of ~~\$25.00~~ \$35.00 for each case. Such fee shall only apply to an obligor when the obligee has never received public assistance payments pursuant to Title IV-A or Title IV-E of the federal Social Security Act. The department shall retain such fee and collect such fee through income withholding, as well as by any other enforcement remedy available to the entity within the department authorized to enforce a duty of support."

SECTION 2-2.

Said article is further amended by revising subsection (e) of Code Section 19-11-8, relating to the departments' duty to enforce support of abandoned minor public assistance recipient and scope of action, as follows:

"(e) The department shall be authorized to charge the obligor a federal Deficit Reduction Act of 2005 fee of ~~\$25.00~~ \$35.00 for each case. Such fee shall only apply to an obligor when the obligee has never received public assistance payments pursuant to Title IV-A or Title IV-E of the federal Social Security Act. The department shall retain such fee and collect such fee through income withholding, as well as by any other enforcement remedy available to the entity within the department authorized to enforce a duty of support."

The department shall not take any adverse action against a child-placing agency or an organization that seeks to become a child-placing agency on the basis, wholly or partly, that such child-placing agency or organization has declined to accept a referral for adoption or foster care services that do not comply with such child-placing agency's or organization's sincerely held religious beliefs.

(c) For services not referred under a contract with the department, a child-placing agency may decline to perform any service that conflicts with the child-placing agency's sincerely held religious beliefs, and the department shall not take any adverse action against such child-placing agency for declining to perform such service.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Part 3 of Article 7 of Chapter 3 of Title 20 of the Official Code of Georgia Annotated, relating to the Georgia Student Finance Authority, is amended by adding a new subpart to read as follows:

"Subpart 2A

20-3-360.

As used in this subpart, the term:

(A) Has been accepted for enrollment as a first year student in a qualified institution who has qualified for and is receiving a federal Pell Grant, is not qualified to receive a HOPE scholarship, achieved a high school grade point average of 2.3 through 3.0, and meets at least one of the following requirements:

(iv) Has achieved a score of 4 or higher on at least two international baccalaureate examinations;

(v) Has passed an end-of-pathway assessment under the Carl D. Perkins Vocational and Technical Education Act, 20 U.S.C. Section 2301, et seq.; or

(vi) Has completed a work based learning experience in a field related to at least one course in the same pathway of study;

(B) Is an enrolled continuing first year student in a qualified institution who is making satisfactory progress in his or her degree program; or

(C) Is a continuing student in a qualified institution who has become ineligible for a

HOPE scholarship and qualifies under one of the provisions of divisions (i) through (vi) of subparagraph (A) of this paragraph during his or her high school career.

(2) 'Income' means federal adjusted gross income determined pursuant to the Internal Revenue Code of 1986, as amended, from all sources, and income derived from municipal bonds which is not included in federal adjusted gross income for federal income tax purposes.

(3) 'Qualified institution' means an institution of the university system.

20-3-361.

There is awarded to each eligible student a grant in an amount not to exceed \$1,500.00 per academic semester, contingent upon appropriations by the General Assembly. In order to remain eligible to receive such grant, a student must be employed at least 15 hours per week during the semester and maintain at least a 2.3 grade point average.

20-3-362.

Each eligible student wishing to receive the grant provided for in this subpart shall submit to the qualifying institution an application for the grant payment at the time and in accordance with procedures prescribed by the authority. The authority is authorized to define such terms and prescribe such rules, regulations, and procedures as may be reasonable and necessary to carry out the purposes of this subpart. The authority shall not approve payment of any grant until it has received from an appropriate officer of the qualifying institution a certification that the student applying for the grant is an eligible student. Upon timely receipt of such certification, in proper form, the authority is authorized to pay the grant to the qualifying institution on behalf of and to the credit of the student. In the event a student on whose behalf a grant is paid does not enroll as a full-time student for the academic semester for which the grant is paid, the qualifying institution shall make a refund to the authority in accordance with regulations of the authority.

20-3-363.

(a) In the event funds available to the authority are not sufficient to enable the authority to pay on behalf of eligible students the full grant prescribed by the General Assembly, grants payable for the remaining academic semesters shall be reduced by the authority on a pro rata basis.

(b) The authority shall use the following formula in calculating the budget for each qualifying institution: the combined amount of average annual tuition and mandatory fees minus the average annual Pell Grant award multiplied by the number of Pell Grant recipients from which has been subtracted the combined number of HOPE and Zell Miller scholarship recipients.

20-3-364.

Each qualified institution shall be subject to examination by the state auditor for the sole purpose of determining whether the institution has properly certified eligibility and

enrollment of students and credited grants paid on behalf of such students; provided, however, that nothing in this subpart shall be construed to interfere with the authority of the institution to determine admissibility of students or to control its own curriculum, philosophy, purpose, or administration. In the event it is determined that a qualified institution knowingly or through error certified an ineligible student to be eligible for a grant under this subpart, the amount of the grant paid to such institution pursuant to such certification shall be refunded by such institution to the authority.

20-3-365.

Any person who knowingly makes or furnishes any false statement or misrepresentation or who accepts such statement or misrepresentation knowing it to be false for the purpose of enabling an ineligible student to obtain wrongfully a grant under this subpart shall be guilty of a misdemeanor."

SUBJECT: State Auditor's Certification
Senate Bill 293 (LC 43 0676)

Dear Senator Black:

This bill would amend provisions relating to beneficiaries receiving benefits under the Teachers Retirement System of Georgia. Specifically, this bill would repeal current

provisions relating to the employment of beneficiaries of the System. The revised provisions would require an employer that directly or indirectly hires a beneficiary to pay the System the required employer and employee contributions. If this legislation is enacted, the beneficiary would continue to receive his or her retirement allowance while employed. However, the beneficiary would not earn any creditable service.

Under the provisions of this bill, it would be the responsibility of the beneficiary to notify the employer of their status prior to accepting a position and the employer must notify the Board within 30 days of employment of this action. In the event the employer does not make the required contributions, the responsibility for the payment would be placed on the beneficiary.

This is to certify that this bill is a fiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

/s/ Greg S. Griffin

If this legislation were enacted, the member would continue to receive his or her retirement allowance while employed, provided the member is employed part-time. The member would not earn any additional creditable service.

This legislation would not result in any additional cost to the Teachers Retirement System. Instead, the System may generate revenue in the first year since employers would be required to pay both the employee and employer contribution for any retired member that is rehired. An estimated additional \$62 million in contributions would be expected in the first year from employers currently employing retirees who have returned to work part-time. There would be no increase in the employer contribution rate or the unfunded actuarial accrued liability of the Teachers Retirement System because of this legislation. The estimate is based on current member data, actuarial assumptions, and actuarial methods. It should be noted that changes in any of these variables could affect the cost of this legislation. Approximately 54% of any future costs would be paid through State appropriations. The remaining 46% would be paid through federal and other funds.

The following is a summary of the relevant findings of the actuarial investigation for this bill pursuant to a request by the Senate Retirement Committee. The investigation was to be conducted according to O.C.G.A. §47-20-36, which outlines the factors to be considered in an actuarial investigation. The figures are based on employee data and the most recent actuarial assumptions and methods.

(1)	The amount of the unfunded actuarial accrued liability which will result from the bill.	\$ <u>0</u>
(2)	The amount of the annual amortization of the unfunded actuarial accrued liability which will result from the bill.	\$ <u>0</u>
(3)	The number of years that the unfunded actuarial accrued liability created by this bill would be amortized.	<u>N/A</u>
(4)	The amount of the annual normal cost which will result from the bill.	\$ <u>0</u>
(5)	The employer contribution rate currently in effect.	<u>20.90%*</u>
(6)	The employer contribution rate recommended (in conformity with minimum funding standards specified in Code Section §47-20-10).	<u>20.90%</u>
(7)	The total dollar amount of the increase in the annual employer contribution which is necessary to maintain the retirement system in an actuarially sound condition.	\$ <u>0**</u>

**This rate represents the employer contribution rate that has been recommended by the actuary beginning July 1, 2018 for members of the Teachers Retirement System in order to meet the minimum funding standards.*

*** Although this legislation will not result in any additional cost to the Teachers Retirement System, this legislation would result in additional costs to the employers. Under the provisions of this bill, the revenue generated for the System would be funded by employers who would be required to pay the employer and employee contributions of rehired retirees. Based on the current salaries of rehired retirees, the System estimates receiving an additional \$62 million from employee and employer contributions.*

It should be noted that any subsequent changes in the retirement bill will invalidate the actuarial investigation and the findings included therein.

Substitute to Senate Bill 293
(LC 43 0778S)

Dear Senator Black:

This substitute bill would amend provisions relating to the re-employment of retired members under the Teachers Retirement System of Georgia. If this legislation is enacted, employers would be required to pay both the employee and employer contribution for any retired member that renders service for pay either directly or indirectly to an employer that participates in the System. The member will continue to receive a retirement allowance during the period of re-employment provided he or she does not exceed the compensation limitations outlined in O.C.G.A. §47-3-127. It should be noted that members would not earn any additional creditable service in the System if this legislation is enacted.

This is to certify that the changes made in this substitute bill are fiscal amendments as defined in the Public Retirement Systems Standards Law. An actuarial investigation will be necessary to determine the fiscal impact of this legislation.

SUBJECT: Actuarial Investigation
Senate Bill 293 (LC 43 0778S)
Teachers Retirement System of Georgia

Dear Chairman Black:

This substitute bill would amend provisions relating to the re-employment of a retired member under the Teachers Retirement System. Specifically, this bill would require an employer that directly or indirectly hires a retired teacher to pay the System the required employer and employee contributions. If this legislation were enacted, the member would continue to receive his or her retirement allowance while employed, provided the member is employed part-time. The member would not earn any additional creditable service.

This legislation would not result in any additional cost to the Teachers Retirement System. Instead, the System may generate revenue in the first year since employers would be required to pay both the employee and employer contribution for any retired member that is rehired. An estimated additional \$62 million in contributions would be expected in the first year from employers currently employing retirees who have returned to work part-time. There would be no increase in the employer contribution rate or the unfunded actuarial accrued liability of the Teachers Retirement System because of this legislation. The estimate is based on current member data, actuarial assumptions, and actuarial methods. It should be noted that changes in any of these variables could affect the cost of this legislation. Approximately 54% of any future costs would be paid through State appropriations. The remaining 46% would be paid through federal and other funds.

The following is a summary of the relevant findings of the actuarial investigation for this bill pursuant to a request by the Senate Retirement Committee. The investigation was to be conducted according to O.C.G.A. §47-20-36, which outlines the factors to be considered in an actuarial investigation. The figures are based on employee data and the most recent actuarial assumptions and methods.

(1)	The amount of the unfunded actuarial accrued liability which will result from the bill.	\$ <u> 0</u>
(2)	The amount of the annual amortization of the unfunded actuarial accrued liability which will result from the bill.	\$ <u> 0</u>
(3)	The number of years that the unfunded actuarial accrued liability created by this bill would be amortized.	<u> N/A</u>
(4)	The amount of the annual normal cost which will result from the bill.	\$ <u> 0</u>
(5)	The employer contribution rate currently in effect.	<u> 20.90%*</u>
(6)	The employer contribution rate recommended (in conformity with minimum funding standards specified in Code Section §47-20-10).	<u> 20.90%</u>
(7)	The total dollar amount of the increase in the annual employer contribution which is necessary to maintain the retirement system in an actuarially sound condition.	\$ <u> 0**</u>

**This rate represents the employer contribution rate that has been recommended by the actuary beginning July 1, 2018 for members of the Teachers Retirement System in order to meet the minimum funding standards.*

*** Although this legislation will not result in any additional cost to the Teachers Retirement System, this legislation would result in additional costs to the employers. Under the provisions of this bill, the revenue generated for the System would be funded by employers who would be required to pay the employer and employee contributions of rehired retirees. Based on the current salaries of rehired retirees, the System estimates receiving an additional \$62 million from employee and employer contributions.*

It should be noted that any subsequent changes in the retirement bill will invalidate the actuarial investigation and the findings included therein.

Dear Senator Black:

This bill would amend provisions relating to beneficiaries receiving benefits under the Employees' Retirement System of Georgia. Specifically, this bill require an employer that directly or indirectly hires a beneficiary to pay the System the required employer and employee contributions. If this legislation is enacted, the beneficiary would continue to receive his or her retirement allowance while employed. However, the beneficiary would not earn any creditable service. The Senate Committee on Retirement offered the following substitute to SB 294:

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 2 of Title 37 of the Official Code of Georgia Annotated, relating to administration of mental health, developmental disabilities, addictive diseases, and other disability services, so as to remove a cross-reference; to amend Chapter 2 of Title 47 of the Official Code of Georgia Annotated, relating to the Employees' Retirement System of Georgia, so as to require certain public employers to make employer and employee contributions to the Employees' Retirement System of Georgia on behalf of retired members employed by such employers either directly or indirectly; to remove a cross-reference; to provide for related matters; to provide conditions for an effective date and automatic repeal; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 2 of Title 37 of the Official Code of Georgia Annotated, relating to administration of mental health, developmental disabilities, addictive diseases, and other disability services, is amended by revising subsection (k) of Code Section 37-2-6.1, relating to community service boards, executive director, staff, budget, facilities, powers and duties, and exemption from state and local taxation, as follows:

"(k) No community service board shall employ or retain in employment, either directly or indirectly through contract, any person who is receiving a retirement benefit from the Employees' Retirement System of Georgia ~~except in accordance with the provisions of subsection (c) of Code Section 47-2-110~~; provided, however, that any such person who is employed as of July 1, 2004, may continue to be employed."

SECTION 2.

Chapter 2 of Title 47 of the Official Code of Georgia Annotated, relating to the Employees' Retirement System of Georgia, is amended by revising Code Section 47-2-110, relating to retirement ages, application and eligibility for a retirement allowance, suspension of retirement allowance upon reemployment, and health benefits, as follows:

"47-2-110.

(a)(1)(A) Upon written application to the board of trustees, any member in service who has reached 60 years of age or who has 30 years of creditable service may retire on a service retirement allowance, provided that he or she has at least five years of creditable service; provided, further, that if he or she became a member after July 1, 1968, he or she has at least ten years of creditable service. The effective date of retirement shall be the first of the month in which the application is received by the board of trustees, provided that no retirement application will, in any case, be effective earlier than the first of the month following the final month of

the applicant's employment. Applications for retirement shall not be accepted more than 90 days in advance of the effective date of retirement. Separation from service pending approval of the retirement application shall not affect eligibility for a retirement allowance. The provisions of this subsection regarding the effective date of retirement shall apply to all persons making application for retirement on or after March 15, 1979, and to all persons who have made application prior to March 15, 1979, but to whom payments from the retirement system have not commenced as of that date. Each employer shall certify to the board of trustees the date on which the employee's employment is or will be severed.

(B) If the employee has not reached normal retirement age on the effective date of retirement, the employer shall certify that no agreement exists to allow the employee to return to service, including service as or for an independent contractor. Any return to employment or rendering of any paid service by such employee, including service as or for an independent contractor, for any employer within two consecutive calendar months of the effective date of retirement shall render the severance invalid, nullifying the application for retirement.

(2) Normal retirement age, for purposes of the retirement system, shall be the date the employee has reached 60 years of age, provided that he or she has at least ten years of creditable service or the age of an employee on the date he or she attains 30 years of creditable service; provided, however, that the provisions of this paragraph are subject to change by future legislation in order to comply with federal regulations. For those members who are in service with the Uniform Division of the Department of Public Safety as an officer, noncommissioned officer, or trooper, officers and agents of the Georgia Bureau of Investigation, conservation rangers of the Department of Natural Resources, or in the Department of Revenue as an alcohol and tobacco officer or agent, normal retirement age shall be the date the employee has reached 55 years of age, provided that he or she has at least ten years of creditable service. For purposes of Section 402(1) of the federal Internal Revenue Code regarding distributions from governmental plans for health and long-term care insurance for public safety officers, normal retirement age shall be the earliest date when the employee has satisfied the requirements for a retirement allowance under the retirement system. Except as provided under Article 2 of Chapter 1 of this title, a member's right to his or her retirement allowance is nonforfeitable upon attainment of normal retirement age.

~~(b)(1) Reserved. As used in this subsection, in addition to the definition provided in Code Section 47-2-1, the term 'employer' shall also include the retired member's last employer which reported to the retirement system prior to the member's effective date of retirement. Such term shall also include the Board of Regents of the University System of Georgia.~~

~~(2) Except as provided in this subsection, if a member accepts paid employment with or renders services for pay to any employer, including, without limitation, service directly or indirectly as or for an independent contractor, after his or her retirement, payment of his or her retirement allowance shall be suspended and no contributions to the retirement system shall be made on account of such service either by that member~~

~~or his or her employer, provided that, upon termination of such service, all rights shall vest in that member as if he or she had continued his or her option to retire.~~

~~(3) The retirement allowance of a retired member who accepts employment with or renders services to any employer after his or her retirement shall not be suspended if the employee has attained normal retirement age or has not been employed by or rendered service for any employer for at least two consecutive calendar months and performs no more than 1,040 hours of paid employment or paid service, including, without limitation, service as or for an independent contractor, for the employer in any calendar year; provided, however, that return to service as or for an independent contractor shall not result in the suspension of an employee's retirement allowance if the employing agency certifies to the board of trustees that:~~

~~(A) The contracting entity has multiple employees;~~

~~(B) The contracting entity has multiple contracts, and the contracts are not limited to employers, as such term is defined in Code Section 47-2-1; and~~

~~(C) The contractual relationship with the employer was not created to allow a retired employee to continue employment after retirement in a position similar to the one he or she held before retirement.~~

~~(4) Any employer that employs a retired plan member shall within 30 days of the employee's accepting employment notify the board of trustees in writing stating the name of the plan member and the number of hours the employee is expected to work annually and shall provide such other information as the board may request. If the retired plan member performs more than 1,040 hours in any calendar year, the employer shall so notify the board of trustees as soon as such information is available. Any employer that fails to notify the board of trustees as required by this subsection shall reimburse the retirement system for any benefits wrongfully paid. It shall be the duty of the retired plan member seeking employment by the employer to notify the employer of his or her retirement status prior to accepting such position. If a retired plan member fails to so notify the employer and the employer becomes liable to the retirement system, the plan member shall hold the employer harmless for all such liability.~~

(c) The board of trustees is authorized to provide by rule or regulation for the payment of benefits to members or beneficiaries of the retirement system at a time and under circumstances not provided for in this chapter to the extent that such payment is required to maintain the retirement system as a 'qualified retirement plan' for the purposes of federal income tax laws."

SECTION 3.

Said chapter is further amended by adding a new Code section to read as follows:

"47-2-112.

(a) As used in this Code section, in addition to the definition provided in Code Section 47-2-1, the term 'employer' shall also include the retired member's last employer which reported to the retirement system prior to the member's effective date of retirement. Such term shall also include the Board of Regents of the University System of Georgia.

(b) If a member who retired under this chapter accepts paid employment with or renders services for pay to any employer, including, without limitation, services directly or indirectly as or for an independent contractor, after his or her retirement:

(1) Such employer shall pay to the retirement system the employer and employee contributions required by this chapter for members; and

(2) Except as provided in subsection (c) of this Code section, payment of such member's retirement allowance shall be suspended.

Such member shall not receive creditable service as a result of such employment or rendering of services. Upon termination of such employment or rendering of services, all rights shall vest in that member as if he or she had continued his or her option to retire.

(c) The retirement allowance of a retired member who accepts paid employment with or renders services for pay to any employer after his or her retirement shall not be suspended if the employee has attained normal retirement age or has not been employed by or rendered services for pay to any employer for at least two consecutive calendar months and performs no more than 1,040 hours of paid employment or paid service, including, without limitation, services directly or indirectly as or for an independent contractor, for the employer in any calendar year; provided, however, that return to service directly or indirectly as or for an independent contractor shall not result in the suspension of an employee's retirement allowance or the requirement of an employer to pay to the retirement system the employer and employee contributions required by this chapter if the employing agency certifies to the board of trustees that:

(1) The contracting entity has multiple employees;

(2) The contracting entity has multiple contracts, and the contracts are not limited to employers, as such term is defined in Code Section 47-2-1; and

(3) The contractual relationship with the employer was not created to allow a retired employee to continue employment after retirement in a position similar to the one he or she held before retirement.

(d) Any employer that employs a retired plan member shall within 30 days of the employee's accepting employment notify the board of trustees in writing stating the name of the plan member and the number of hours the employee is expected to work annually and shall provide such other information as the board may request. If the retired plan member performs more than 1,040 hours in any calendar year, such employer shall so notify the board of trustees as soon as such information is available. Any employer that fails to notify the board of trustees as required by this subsection shall reimburse the retirement system for any benefits wrongfully paid. It shall be the duty of the retired plan member seeking employment with the employer to notify the employer of his or her retirement status prior to accepting such position. If a retired plan member fails to so notify the employer and such employer becomes liable to the retirement system, the plan member shall hold such employer harmless for all such liability."

SECTION 4.

Said chapter is further amended by revising subsection (c) of Code Section 47-2-290, relating to judges, solicitors, and other employees of state courts subject to merit system, membership in retirement system, contributions, and exemptions, as follows:

"(c) Reserved. ~~Subsection (b) of Code Section 47-2-110 shall not apply to the judges and solicitors of any state court, who may retire at their discretion at any time after becoming eligible to retire.~~"

SECTION 5.

This Act shall become effective on July 1, 2018, only if it is determined to have been concurrently funded as provided in Chapter 20 of Title 47 of the Official Code of Georgia Annotated, the "Public Retirement Systems Standards Law"; otherwise, this Act shall not become effective and shall be automatically repealed in its entirety on July 1, 2018, as required by subsection (a) of Code Section 47-20-50.

SUBJECT: State Auditor's Certification
Substitute to Senate Bill 294
(LC 43 0722S)

Dear Senator Black:

This substitute bill would amend provisions relating to the re-employment of retired members under the Employees' Retirement System of Georgia. If this legislation is enacted, employers would be required to pay both the employee and employer

contribution for any retired member that renders services for pay either directly or indirectly. With respect to independent contractors, however, this provision would not apply if the employing agency certifies to the Board of Trustees that:

- The contracting entity has multiple employees;
- The contracting entity has multiple contracts, and the contracts are not limited to employers covered under the Employees' Retirement System of Georgia; and
- The contractual relationship with the employer was not created to allow a retired employee to continue employment after retirement in a position similar to the one he or she held before retirement.

This is to certify that this substitute bill is a fiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

/s/ Greg S. Griffin

STATE AUDITOR

October 25, 2017

Honorable Ellis Black, Chairman
Senate Retirement Committee
Coverdell Legislative Office Building, Room 304-A
Atlanta, Georgia 30334

SUBJECT: Actuarial Investigation
Senate Bill 294 (LC 43 0722S)
Employees' Retirement System of Georgia

Dear Chairman Black:

This bill would amend provisions relating to the re-employment of retired members under the Employees' Retirement System of Georgia. If this legislation is enacted, employers would be required to pay both the employee and employer contribution for any retired member that renders services for pay either directly or indirectly. The member's retirement allowance will not be suspended provided he or she either has reached normal

retirement age or has not been employed for at least two consecutive months and performs no more than 1,040 hours of paid service annually. Such member will not receive any additional service credit for such time worked. It should be noted that this provision would not apply to persons hired as independent contractors, provided the member meets certain criteria as noted in the Code section.

This legislation would not result in any additional cost to the Employees' Retirement System. Instead, the System may generate revenue since employers would be required to pay both the employee and employer contribution for any retired member that is rehired. There would be no increase in the employer contribution rate or the unfunded actuarial accrued liability of the Employees' Retirement System because of this legislation. The estimate is based on current member data, actuarial assumptions, and actuarial methods. It should be noted that changes in any of these variables could affect the cost of this legislation. Any future costs would be paid through State appropriations.

The following is a summary of the relevant findings of the actuarial investigation for this bill pursuant to a request by the Senate Retirement Committee. The investigation was to be conducted according to O.C.G.A. §47-20-36, which outlines the factors to be considered in an actuarial investigation. The figures are based on employee data and the most recent actuarial assumptions and methods.

(1)	The amount of the unfunded actuarial accrued liability which will result from the bill.	\$ <u>0</u>
(2)	The amount of the annual amortization of the unfunded actuarial accrued liability which will result from the bill.	\$ _____
(3)	The number of years that the unfunded actuarial accrued liability created by this bill would be amortized.	<u>N/A</u>
(4)	The amount of the annual normal cost which will result from the bill.	\$ <u>0</u>
(5)	The employer contribution rate currently in effect for Non-GSEPS Members.	<u>24.66% *</u>
(6)	The employer contribution rate recommended for Non-GSEPS Members (in conformity with minimum funding standards specified in Code Section §47-20-10).	<u>24.66%</u>
(7)	The employer contribution rate currently in effect for GSEPS Members.	<u>21.66%*</u>
(8)	The employer contribution rate recommended for GSEPS Members (in conformity with minimum funding standards specified in Code Section §47-20-10).	<u>21.66%</u>
(9)	The total dollar amount of the increase in the annual employer contribution which is necessary to maintain the retirement system in an actuarially sound condition.	\$ <u>0**</u>

**This rate represents the employer contribution rate that has been recommended by the actuary beginning July 1, 2018 in order to meet the minimum funding standards.*

***Although this legislation will not result in any additional cost to the Employees' Retirement System, this legislation would result in additional costs to the employers. Under the provisions of this bill, the revenue generated for the System would be funded by employers who would be required to pay the employer and employee contributions of rehired retirees. Based on the current salaries of rehired retirees, the System estimates receiving an additional \$5.6 million from employee and employer contributions.*

It should be noted that any subsequent changes in the retirement bill will invalidate the actuarial investigation and the findings included therein.

Respectfully,

/s/ Greg S. Griffin
State Auditor

its customers, as provided in this subsection, the costs of financing associated with the construction of a nuclear generating plant which has been certified by the commission prior to January 1, 2018. The financing charges shall accrue on all applicable certified costs as they are recorded in the utility's construction work in progress accounts pursuant to generally accepted accounting and regulatory principles as approved by the commission. The financing costs shall be based on the utility's actual cost of debt, as reflected in its annual surveillance report filed with the commission, and based on the authorized cost of equity capital and capital structure as determined by the commission when setting the utility's current base rates. These financing costs shall be recovered from each customer through a separate rate tariff and allocated on an equal percentage basis to standard base tariffs which are designed to collect embedded capacity costs. The commission shall retain the discretion to consider the effect of this tariff when setting the level of any senior or low income assistance it may authorize; provided, however, that the income qualification for such assistance shall be 200 percent of the federal poverty level."

When a hearing is required, at least 30 days prior to such hearing, the hearing officer shall notify the office of the prosecuting attorney who initiated the prosecution of the crime in question in order to allow the prosecuting attorney to object to a possible determination that the conviction would not be a bar for the grant or continuation of a license as contemplated within this Code section. If objections are made, the hearing officer shall take such objections into consideration.

(b) The requirements of this Code section are supplemental to any requirements for a license imposed by Article 1 of Chapter 7 of Title 31.

(b)(1) A facility that has obtained a satisfactory determination on an owner, applicant, or employee in accordance with this article, or confirmation that such owner, applicant, or employee has obtained a favorable final appeal decision under Code Section 31-7-358, shall be immune from liability for claims of negligent hiring when such claims are based upon the criminal record of such owner, applicant, or employee, even when the information contained in the criminal background check used by the department is later determined to have been incomplete or inaccurate; provided, however, that such immunity shall not preclude the liability of a facility concerning claims based on information beyond the scope of the criminal record and satisfactory determination about the owner, applicant, or employee which the facility knew or should have known.

(2) When a facility has obtained a satisfactory determination on an owner, applicant, or employee, there shall be a rebuttable presumption of due care for claims related to negligent hiring, negligent retention, or other similar claims as they relate to an owner's applicant's, or employee's criminal record.

(c) Nothing in this article shall require a facility to conduct any other type of criminal history check of an owner, applicant, or employee, and a facility shall not be held liable for claims of negligent hiring, negligent retention, or other similar claims based solely or in part on its failure to conduct other types of criminal history checks.

(d) Nothing in this article shall be construed to waive the sovereign immunity of the state, the department, or any other entity of the state.

31-7-360.

The Department of Community Health shall be authorized to enforce this article and to department shall promulgate written rules and regulations related to the requirements and implementation of this article.

Such employees shall be subject to the employment practices and policies of the department on and after July 1, 2009, but the compensation and benefits of such transferred employees shall not be reduced as a result of such transfer. Employees who are subject to the rules of the State Personnel Board and who are transferred to the department shall retain all existing rights under such rules. Retirement rights of such transferred employees existing under the Employees' Retirement System of Georgia or other public retirement systems on June 30, 2009, shall not be impaired or interrupted by the transfer of such employees and membership in any such retirement system shall continue in the same status possessed by the transferred employees on June 30, 2009. Chapter 2 of Title 21 of the Official Code of Georgia Annotated, relating to primaries and elections generally, is amended by revising Code Section 21-2-403, relating to time for opening and closing of polls, as follows:

"21-2-403.

At all primaries and elections the polls shall be opened at 7:00 A.M. eastern standard time or eastern daylight time, whichever is applicable, and shall remain open continuously until 7:00 P.M. eastern standard time or eastern daylight time, whichever is applicable, at which time they shall be closed; ~~provided, however, that, in all cities having a population of 300,000 or more according to the United States decennial census of 1970 or any future such census, the polls shall remain open continuously until 8:00 P.M. eastern standard time or eastern daylight time, whichever is applicable, during the cities' general elections, at which time they shall be closed and provided, further, that, in a special election held to fill a vacancy in an office in which the district represented~~

~~by such office lies wholly within the boundaries of a city, the polls shall close at the same time as for a municipal general election in such city."~~

SECTION 2.

Said chapter is further amended by revising Code Section 21-2-501, relating to number of votes required for election, as follows:

"21-2-501.

(a)(1) Except as otherwise provided in this Code section, no candidate shall be nominated for public office in any primary ~~for any public office or in a special primary for a federal office~~ or elected to any public office in any election or special election unless such candidate shall have received a majority of the votes cast to fill such nomination or public office. In instances where no candidate receives a majority of the votes cast in such situations, a run-off primary, special primary runoff, run-off election, or special election runoff between the candidates receiving the two highest numbers of votes shall be held. Unless such date is postponed by a court order, such run-off primary, special primary runoff, run-off election, or special election runoff shall be held as provided in this subsection. Notwithstanding any provision of law to the contrary, in a special primary to nominate a candidate for any public office other than a federal office, the candidate receiving the highest number of the votes cast in such special primary shall be declared nominated and no special primary runoff shall be conducted.

(2) In the case of a runoff from a general primary or a special primary or special election held in conjunction with a general primary, the runoff shall be held on the Tuesday of the ninth week following such general primary.

(3) In the case of a runoff from a general election for a federal office or a runoff from a special primary or special election for a federal office held in conjunction with a general election, the runoff shall be held on the Tuesday of the ninth week following such general election.

(4) In the case of a runoff from a general election for an office other than a federal office or a runoff from a special primary or special election for an office other than a federal office held in conjunction with a general election, the runoff shall be held on the twenty-eighth day after the day of holding the preceding general election.

(5) In the case of a runoff from a special primary or special election for a federal office not held in conjunction with a general primary or general election, the runoff shall be held on the Tuesday of the ninth week following such special primary or special election.

(6) In the case of a runoff from a special primary or special election for an office other than a federal office not held in conjunction with a general primary or general election, the runoff shall be held on the twenty-eighth day after the day of holding the preceding ~~special primary or~~ special election; provided, however, that, if such runoff is from a special primary or special election held in conjunction with a special primary or special election for a federal office and there is a runoff being conducted for such federal office, the runoff from the special primary or special election

conducted for such other office may be held in conjunction with the runoff for the federal office.

(7) If any candidate eligible to be in a runoff withdraws, dies, or is found to be ineligible, the remaining candidates receiving the two highest numbers of votes shall be the candidates in the runoff.

(8) The candidate receiving the highest number of the votes cast in such run-off primary, special primary runoff, run-off election, or special election runoff to fill the nomination or public office sought shall be declared the winner.

(9) The name of a write-in candidate eligible for election in a runoff shall be printed on the election or special election run-off ballot in the independent column.

(10) The run-off primary, special primary runoff, run-off election, or special election runoff shall be a continuation of the primary, special primary, election, or special election for the particular office concerned. Only the electors who were duly registered to vote and not subsequently deemed disqualified to vote in the primary, special primary, election, or special election for candidates for that particular office shall be entitled to vote therein, and only those votes cast for the persons designated as candidates in such run-off primary, special primary runoff, run-off election, or special election runoff shall be counted in the tabulation and canvass of the votes cast. No elector shall vote in a run-off primary or special primary runoff in violation of Code Section 21-2-224.

(b) For the purposes of this subsection, the word 'plurality' shall mean the receiving by one candidate alone of the highest number of votes cast. If the municipal charter or ordinances of a municipality as now existing or as amended subsequent to September 1, 1968, provide that a candidate may be nominated or elected by a plurality of the votes cast to fill such nomination or public office, such provision shall prevail. Otherwise, no municipal candidate shall be nominated for public office in any primary or elected to public office in any election unless such candidate shall have received a majority of the votes cast to fill such nomination or public office.

(c) In instances in which no municipal candidate receives a majority of the votes cast and the municipal charter or ordinances do not provide for nomination or election by a plurality vote, a run-off primary or election shall be held between the candidates receiving the two highest numbers of votes. Such runoff shall be held on the twenty-eighth day after the day of holding the first primary or election, unless such run-off date is postponed by court order; provided, however, that, in the case of a runoff from a municipal special election that is held in conjunction with a special election for a federal office and not in conjunction with a general primary or general election, the municipality may conduct such runoff from such municipal special election on the date of the special election runoff for the federal office. Only the electors entitled to vote in the first primary or election shall be entitled to vote in any run-off primary or election resulting therefrom; provided, however, that no elector shall vote in a run-off primary in violation of Code Section 21-2-216. The run-off primary or election shall be a continuation of the first primary or election, and only those votes cast for the candidates receiving the two highest numbers of votes in the first primary or election shall be

counted. No write-in votes may be cast in such a primary, run-off primary, or run-off election. If any candidate eligible to be in a runoff withdraws, dies, or is found to be ineligible, the remaining candidates receiving the two highest numbers of votes shall be the candidates in such runoff. The municipal candidate receiving the highest number of the votes cast in such run-off primary or run-off election to fill the nomination or public office sought shall be declared the winner. The municipality shall give written notice to the Secretary of State of such runoff as soon as such municipality certifies the preceding primary, special primary, election, or special election.

(d) The name of a municipal write-in candidate eligible for election in a municipal runoff shall be printed on the municipal run-off election ballot in the independent column.

(e) In all cities having a population in excess of 100,000 according to the United States decennial census of 1980 or any future such census, in order for a municipal candidate to be nominated for public office in any primary or elected to public office in any municipal election, he or she must receive a majority of the votes cast.

(f) Except for presidential electors, to be elected to public office in a general election, a candidate must receive a majority of the votes cast in an election to fill such public office. To be elected to the office of presidential electors, no slate of candidates shall be required to receive a majority of the votes cast, but that slate of candidates shall be elected to such office which receives the highest number of votes cast."

SECTION 3.

Said chapter is further amended by revising Code Section 21-2-504, relating to special primary or election upon failure to nominate or elect or upon death, withdrawal, or failure of officer-elect to qualify, as follows:

"21-2-504.

(a) Whenever any primary or election shall fail to fill a particular nomination or office and such failure cannot be cured by a run-off primary or election, whenever any person elected to public office shall die or withdraw prior to taking office, or whenever any person elected to public office shall fail to take that office validly, the authority with whom the candidates for such nomination or office file notice of candidacy shall call a special primary ~~or and special~~ election to fill such position. ~~If a special primary will not be held and unless otherwise provided by law, the call of a~~ The call of the special primary and special election shall be made within 45 days after the occurrence of the vacancy.

(b) Whenever any person elected to municipal public office shall, after taking office, die, withdraw, or for any other reason create a vacancy in his or her office and the municipal charter fails to provide a method for the filling of such vacancy, the governing authority shall thereupon call a special election to fill such vacancy."

Article 2 of Chapter 3 of Title 20 of the Official Code of Georgia Annotated, relating to the board of regents and university system, is amended by adding a new part to read as follows:

"Part 1D

20-3-48.

The board of regents shall develop and adopt a policy or policies relevant to free expression that contains, at least, the following concepts:

(1) That the board of regents will honor the First Amendment of the United States Constitution and Paragraph V of Section I, Article I from Georgia's Bill of Rights ensuring that state colleges and universities do not allow policies or practices that curtail or restrain the freedom of speech or of the press and will ensure that all persons shall be held responsible for any abuse of these liberties;

(2) That the primary function of an institution of higher education is the discovery, improvement, transmission, and dissemination of knowledge by means of research, teaching, discussion, and debate. This statement shall provide that, to fulfill this function, the institution must strive to ensure the fullest degree of intellectual freedom and free expression;

(3) That it is not the proper role of the institution to shield individuals from speech protected by the First Amendment of the United State Constitution, including, without limitation, ideas and opinions which they find unwelcome, disagreeable, or even deeply offensive;

(4) That students and faculty have the freedom to discuss any problem that presents itself, as the First Amendment permits and within the limits of reasonable viewpoint neutral and content neutral restrictions on time, place, and manner of expression established by each institution and that are consistent with this part; provided, however, that these restrictions are clear, published, and reasonable pursuant to First Amendment jurisprudence. Students and faculty shall be permitted to assemble and engage in spontaneous expressive activity, as long as such activity is not unlawful and does not materially or substantially disrupt the functioning of the institution, and is not contrary to the institution's time, place, and manner restrictions, subject to the requirements of this paragraph;

(5) That any student or his or her invitee lawfully present on campus may protest or demonstrate there consistent with any time, place and manner policies at such campus, provided that protests and demonstrations that materially and substantially interfere with the ability of others to engage in or listen to previously scheduled or reserved activities on campus occurring at the same time shall not be permitted and shall be subject to sanction pursuant to the institution's time, place and manner policy. This policy does not prohibit professors or other instructors from maintaining order in the classroom;

(6) That a range of disciplinary sanctions shall be established for anyone under the jurisdiction of the institution who materially and substantially interferes with the free expression of others;

(7) That the campuses of the institution are open to any speaker whom students, student groups, or members of the faculty have invited so long as any such speaker complies with any applicable campus policies to reserve the time, place, and manner for such invited expression;

(8) That the institution shall make reasonable efforts and make available reasonable resources to ensure the safety of invited speakers. An institution shall not charge a security fee based on the content of the inviter's speech or the content of the speech of the invited speakers and may restrict the use of its nonpublic facilities to invited individuals. A security fee may be charged based upon the location utilized by the invited speaker pursuant to campus policies;

(9) That no institution may deny a student organization any benefit or privilege available to other campus student organizations, or otherwise discriminate against a religious student organization based on the content of that organization's expression, notwithstanding any requirement that the leaders of such organization:

(A) Affirm and adhere to the organization's sincerely held beliefs;

(B) Comply with the organization's standards of conduct; or

(C) Further the organization's mission or purpose, as defined by the student organization.

20-3-48.1.

The board of regents shall report to the public, the Governor, and the General Assembly on September 1 of every year. The report may include descriptions of the following:

- (1) Any barriers to or disruptions of free expression within state institutions of higher education;
(2) Administrative handling and discipline relating to these disruptions or barriers;
(3) Substantial difficulties, controversies, or successes in maintaining a posture of administrative and institutional neutrality with regard to political or social issues: and
(4) Any assessments, criticisms, commendations, or recommendations the board of regents sees fit to include.

20-3-48.2.

- (a) The board of regents is authorized to adopt regulations to further the purposes of the policies adopted pursuant to this part. Nothing in this part shall be construed to prevent institutions from regulating student speech or activity that is prohibited by law.
(b) Except as further limited by this part, institutions shall be allowed to restrict student expression only for expressive activity not protected by the First Amendment and shall be able to require reasonable time, place, and manner restrictions on expressive activities consistent with paragraph (4) of Code Section 20-3-48."

~~(5)~~(6) The importance and necessity of water for industrial purposes are in no way modified or diminished by this Code section.

The commission shall, provided that adequate funding is received, install and commence operation and maintenance of water measuring devices for all such farm uses by July 1, 2009; provided, however, that the commission shall not install a water measuring device on any irrigation system for such a farm use if such irrigation system is equipped with a meter as of July 1, 2003, and such meter is determined by the commission to be properly installed and operable, but any subsequent replacement or maintenance of such an irrigation system that necessitates replacement of such meter shall necessitate installation of a water-measuring device by the commission The division may refine the priority system from time to time based on the amount of funding received by the division, considerations regarding cost effectiveness, new technical information, changes in resource use or conditions, or other factors as deemed relevant by the director;

~~(D) May charge any permittee the commission's reasonable costs for purchase and installation of a water measuring device for any farm use permit issued by the director after July 1, 2003; however, for permit applications submitted to the division prior to December 31, 2002, Shall, on behalf of the state, purchase and install that subset of water-measuring devices according to the priority system required by this Code section and no charge shall be made to the permittee for such costs. (5) Until a permittee whose permit was issued by the division before July 1, 2003, has a water-measuring device installed in accordance with subsection (b) of this Code section or as provided in paragraphs (2) or (3) of this subsection, such permittee shall have no obligations under this paragraph.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

This Act shall be known and may be cited as the "Consumer Coverage and Protection for Out-of-Network Medical Care Act."

SECTION 2.

Title 33 of the Official Code of Georgia Annotated, relating to insurance, is amended by adding a new chapter to read as follows:

"CHAPTER 20E**33-20E-1.**

This chapter shall apply to all carriers providing a managed care plan that pays for the provision of medical care to covered persons.

33-20E-2.

As used in this chapter, the term:

(1) 'Balance bill' means the amount that a nonparticipating provider may charge a covered person. Such amount charged shall equal the difference between the amount paid by the carrier and the amount of the nonparticipating provider's bill charge but shall not include any amount for coinsurance, copayments, or deductibles due from the covered person.

(2) 'Carrier' means an accident and sickness insurer, fraternal benefit society, hospital service corporation, medical service corporation, health care corporation, health maintenance organization, provider sponsored health care corporation, or any similar entity and any self-insured health benefit plan not subject to the exclusive jurisdiction of the federal Employee Retirement Income Security Act of 1974, 29 U.S.C. Section 1001, et seq., which entity provides for the financing or delivery of emergency medical care or through an emergency medical services system or through a health benefit plan, or the plan administrator of any health benefit plan established pursuant to Article 1 of Chapter 18 of Title 45.

(3) 'Covered person' means an individual who is covered under a managed care plan.

(4) 'Elective medical care' means medical services not defined as 'emergency medical care' under this chapter.

(5) 'Emergency condition' means any medical condition of a recent onset and severity, including but not limited to severe pain that would lead a prudent layperson, possessing an average knowledge of medicine and health, to believe that his or her condition, sickness, or injury is of such a nature that failure to obtain immediate medical care could result in:

(A) Placing the patient's health in serious jeopardy;

(B) Serious impairment to bodily functions; or

(C) Serious dysfunction of any bodily organ or part.

(6) 'Emergency medical care' means emergency services which originate in a hospital emergency department after the onset of a medical or traumatic condition manifesting itself by acute symptoms of sufficient severity, including severe pain, such that the absence of immediate medical or surgical attention could reasonably be expected to result in placing the patient's health in serious jeopardy, serious impairment to bodily functions, or serious dysfunction of any bodily organ or part, and services for the first

24 hours after the covered person's emergency condition has stabilized, whether or not the emergency services and services after stabilization occur in an emergency department. Such term shall include care for an emergency condition that continues once a patient is admitted to the hospital from the hospital emergency department and could include other specialists and providers.

(7) 'Emergency medical provider' means any physician licensed by the Georgia Composite Medical Board who provides emergency medical care and any other health care provider licensed in this state who renders emergency medical care.

(8) 'First dollar coverage' means payment by a carrier directly to a health care provider for services of the entire allowed amount for such services pursuant to Code Section 33-20E-3 without any reduction in payment for the managed care plan's required coinsurance, copayments, deductibles, or other patient financial responsibility. The carrier shall be responsible for collecting these amounts directly from the covered person.

(9) 'Health care provider' means any physician or other person who is licensed or otherwise authorized in this state to furnish emergency medical care.

(10) 'Managed care plan' means a major medical, hospitalization, or dental plan that provides for the financing and delivery of health care services to persons enrolled in such plan through:

(A) Arrangements with selected providers to furnish health care services;

(B) Explicit standards for the selection of participating providers; and

(C) Cost savings for persons enrolled in the plan to use the participating providers and procedures provided for by the plan;

The term 'managed care plan' shall not apply to Chapter 9 of Title 34, relating to workers' compensation.

(11) 'Minimum benefit standard' or 'MBS' means the eightieth percentile of all charges for the particular health care service performed by a health care provider in the same or similar specialty and provided in the same geographical area as reported in a benchmarking data base maintained by a nonprofit organization specified by the Commissioner. The nonprofit organization shall not be affiliated, financially supported, or otherwise supported by a health insurance company.

(12) 'Nonparticipating provider' means a health care provider who has not entered into a direct contract with a carrier for the delivery of emergency medical care to covered persons under a managed care plan.

(13) 'Participating provider' means a health care provider who has entered into a direct contract with a carrier for the delivery of emergency medical care to covered persons under a managed care plan.

(14) 'Stabilized' means the effect of providing medical or surgical treatment for an emergency condition as may be necessary to assure, within reasonable medical probability, that no material deterioration of the condition is likely to result from or occur during the transfer of the patient from a facility, or that with respect to a pregnant woman who is having contractions, the woman has delivered the child and the placenta.

(15) 'Surprise bill' means a bill to a patient after elective medical care where an unanticipated event results in the provision of services by an out-of-network provider.

(16) 'Usual and customary cost' means the charges routinely billed by the provider for its professional services regardless of the payor involved and before any discounts that are applied pursuant to charity or indigent patient charge policies or insurance carrier contracting discounts.

33-20E-3.

(a) A health care provider who is a physician shall provide a patient or prospective patient with the name or practice name, mailing address, and telephone number of any health care provider that the office or surgery center utilizes for the provision of anesthesiology, laboratory, pathology, radiology, or assistant surgeon services in connection with care to be provided in the physician's office or an ambulatory surgery center owned by the physician for the patient at least 48 hours prior to the provision of services where possible. Such information may be provided by publication on the provider's website.

(b) Where an unanticipated event causes a change in the providers of radiology, anesthesiology, pathology, or other services, the physician shall be held harmless for any resulting bills from such provider or providers.

(c) A hospital shall establish, update, and make public through posting on the hospital's website, to the extent required by federal guidelines, a list of the hospital's standard charges for items and services provided by the hospital, including for diagnosis related groups established under Section 1886(d)(4) of the federal Social Security Act.

(d) A hospital shall post on the hospital's website:

(1) The health benefit plans in which the hospital is a participating provider;

(2) A statement that physician services provided in the hospital are not included in the hospital's charges, that physicians who provide services in the hospital may or may not participate with the same health benefit plans as the hospital, and that the prospective patient should check with the physician arranging for the hospital services to determine the health benefit plans in which the physician participates; and

(3) As applicable, the name, mailing address, and telephone number of the physician groups with which the hospital has contracted to provide services, including anesthesiology, pathology, and radiology, and instructions on how to contact these groups to determine the health benefit plan participation of the physicians in such groups.

(e) In registration or admission materials provided in advance of nonemergency hospital services, a hospital shall:

(1) Advise the patient or prospective patient to check with the physician arranging the hospital services to determine:

(A) The name or practice name, mailing address, and telephone number of any other physician whose services will be arranged for by the physician; and

(B) Whether the services of physicians who are employed or contracted by the hospital to provide services, including anesthesiology, pathology, and radiology, are

reasonably anticipated to be provided to the patient; and

(2) Provide patients or prospective patients with information on how to timely determine the health benefit plans in which the physicians participate who are reasonably anticipated to provide services to the patient at the hospital, as determined by the physician arranging the patient's hospital services, and who are employees of the hospital or contracted by the hospital to provide services, including anesthesiology, pathology, and radiology.

(f) Unknown or unanticipated services are not subject to the requirements of this Code section.

33-20E-4.

(a) An insurer shall provide to an enrollee:

(1) Information that an enrollee may obtain a referral to a health care provider outside of the insurer's network or panel when the insurer does not have a health care provider who is geographically accessible to the enrollee and who has appropriate training and experience in the network or panel to meet the particular health care needs of the enrollee and the procedure by which the enrollee can obtain such referral;

(2) Notice that the enrollee shall have direct access to primary and preventive obstetric and gynecologic services, including annual examinations, care resulting from such annual examinations, and treatment of acute gynecologic conditions, or for any care related to a pregnancy, from a qualified provider of such services of her choice from within the plan;

(3) All appropriate mailing addresses and telephone numbers to be utilized by enrollees seeking information or authorization;

(4) A monthly updated listing by specialty, which may be in a separate document, of the name, address, and telephone number of all participating providers, including facilities, and in the case of physicians, the board certification, languages spoken, and any affiliations with participating hospitals. The listing shall also be posted on the insurer's website, and the insurer shall update the website within 15 days of the addition or termination of a provider from the insurer's network or a change in a physician's hospital affiliation;

(5) Where applicable, a description of the method by which an enrollee may submit a claim for health care services;

(6) With respect to out-of-network coverage:

(A) A clear description of the methodology used by the insurer to determine reimbursement for out-of-network health care services;

(B) The amount that the insurer will reimburse under the methodology for out-of-network health care services set forth as a percentage of the usual and customary cost for out-of-network health care services;

(C) Examples of anticipated out-of-pocket costs for frequently billed out-of-network health care services; and

(D) Notice that the patient may be responsible for the balance of the out-of-network provider's fee if the rate paid by the plan is below the provider's billed amount;

- (7) Information in writing and through an Internet website that reasonably permits an enrollee or prospective enrollee to estimate the anticipated out-of-pocket costs for out-of-network health care services in a geographical area or ZIP Code based upon the difference between the amount that the insurer will reimburse for out-of-network health care services, the patient's MBS, and the usual and customary cost for out-of-network health care services;
- (8) The written application procedures and minimum qualification requirements for health care providers to be considered by the insurer; and
- (9) Other information as required by the Commissioner.
- (b) An insurer shall furnish an explanation of benefits to an out-of-network provider within 30 days of receiving a bill from the insured or directly from the out-of-network provider. The explanation of benefits shall conspicuously indicate whether the health care plan coverage for the patient is subject to the requirements of this chapter, or otherwise preempted under 29 U.S.C. Section 1144(a) as a self-funded employee welfare plan regulated under the federal Employee Retirement Income Security Act of 1974, 29 U.S.C. Section 1002(1).
- (c) An insurer shall disclose whether a health care provider scheduled to provide a health care service is an in-network provider and, with respect to out-of-network coverage, disclose the approximate dollar amount that the insurer will pay for a specific out-of-network health care service. Insurers shall also inform an enrollee through such disclosure that such approximation shall not be binding on the insurer and that the approximate dollar amount that the insurer shall pay for a specific out-of-network health care service may change.
- (d) Where services have been precertified or preauthorized by an insurer, the insurer shall guarantee coverage of such services at the usual and customary cost regardless of any changes of network status following the precertification or preauthorization.
- (e) Where an insurer fails to adequately and correctly keep its directory pursuant to Code Section 33-20C-2 and such failure results in the unanticipated provision of out-network services, the insurer shall compensate the provider at the provider's usual and customary cost or MBS, whichever is less.
- (f) Where a delay in the credentialing of a provider causes the service to be deemed out-of-network, the insurer shall compensate the provider at the provider's full rate at no expense to the patient.

33-20E-5.

- (a) Notwithstanding any provision of law to the contrary, a carrier that provides any benefits to covered persons with respect to emergency medical care shall pay for such emergency medical care:
- (1) Without the need for any prior authorization determination and without any retrospective payment denial for services rendered; and
- (2) Regardless of whether the health care provider furnishing emergency medical care is a participating provider with respect to emergency medical care.
- (b) In the event a covered person receives emergency medical care by a

nonparticipating provider, the nonparticipating provider shall bill the carrier directly and the carrier shall directly pay, within 15 days for electronic claims and 30 days for paper claims, the nonparticipating provider as coded, with first dollar coverage, for the emergency medical care rendered to the covered person by the lesser of:

(1) The nonparticipating provider's actual billed charges; or

(2) The minimum benefit standard. The charges shall be tied to 2017 charges and may be adjusted for inflation according to the Consumer Price Index for medical care or another indicator as determined by the department. Such data base shall be accessible to providers without charge.

Payment shall be made without retrospective denials and without deductions for the plan's coinsurance, copayments, and deductibles. The carrier shall collect any required coinsurance, copayments, deductibles, or other patient financial responsibilities directly from the covered person pursuant to the provisions of the managed care plan contract. Patient responsibility is limited to the in-network payment as required under the managed care plan contract.

(c) A managed care plan shall not deny benefits for emergency medical care previously rendered, based upon a covered person's failure to provide subsequent notification in accordance with plan provisions, where the covered person's medical condition prevented timely notification.

(d) In the event a covered person receives emergency medical care by a nonparticipating provider, once such covered person is stabilized, as required by the federal Emergency Medical Treatment and Active Labor Act, the carrier shall arrange for transfer of the covered person to a participating provider at the carrier's cost. If the carrier fails to transfer such covered person within 24 hours after the covered person is stabilized, the carrier shall pay the entirety of the nonparticipating provider's charges for the care of the covered person thereafter in accordance with the payment criteria provided in subsection (b) of this Code section.

(e) Carriers shall not communicate or include in written form false, misleading, or confusing information in their explanation of benefits to patients or guarantors regarding usual and customary costs, balance billing, or mediation disputes between physicians and carriers.

(f) For purposes of an enrollee's financial responsibilities, the health care plan shall treat the health care services the enrollee receives from an out-of-network provider pursuant to this Code section as if the services were provided by an in-network provider, including counting the enrollee's cost sharing for such services toward the enrollee's deductible and maximum out-of-pocket limit applicable to services obtained from in-network providers under the health care plan.

33-20E-6.

No managed care plan shall deny or restrict in-network covered benefits to a covered person solely because the covered person obtained treatment outside the network. Notice of such protection shall be provided in writing to the covered person by the carrier.

33-20E-7.

(a)(1) A managed care plan contract issued, amended, or renewed on or after July 1, 2018, shall provide that if a covered person receives emergency medical care from a nonparticipating provider at either an in-network facility or an out-of-network facility, such covered person shall not be required to pay more to the carrier than the same amount that the covered person would have to pay to the carrier for the same emergency medical care received from a similar participating provider at a similar in-network facility. Such amount shall be referred to as the 'in-network cost-sharing amount.'

(2) Neither a nonparticipating provider nor a participating provider shall bill or collect any amount from the covered person for emergency medical care subject to paragraph (1) of this subsection. Coinsurance, copayments, and deductibles shall be collected by the carrier, and first dollar coverage shall be paid by the carrier directly to the provider in a timely manner, as coded and billed, and without retrospective denials.

(b) A managed care plan contract issued, amended, or renewed on or after July 1, 2018, shall provide that, if a covered person receives emergency medical care from a nonparticipating provider, any cost-sharing amount attributable to an out-of-network deductible shall be applied to such covered person's in-network deductible.

33-20E-8.

(a) A violation of this chapter by a carrier shall be considered an unfair trade practice under Article 1 of Chapter 6 of this title and shall be subject to penalties as determined by the department.

(b) This Code section shall not apply to any health care provider or emergency medical provider.

33-20E-9.

(a) Where a patient obtains elective medical care and an unexpected event arises resulting in a surprise bill to a patient, mediation shall be available from the department where the resulting bill to the patient is greater than \$1,000.00. Surprise bills under such threshold shall not qualify for mediation under this subsection, provided that:

(1) Participants in such a mediation shall include the patient or the patient's authorized representative, the insurer, and the provider of the care resulting in the bill to the patient;

(2) Patients shall submit accurate and complete health insurance information prior to receiving services;

(3) Where possible, mediation shall occur by teleconference;

(4) In determining appropriate payment, the Gould Standard shall be taken into account by the parties involved; and

(5) Costs not specific to any one party shall be shared evenly among all parties to the mediation.

(b) The department shall develop rules in accordance with the requirements of this Code section."

(B) Shall be authorized to create an affiliate that shall be authorized to provide and operate emerging communications technologies within such EMC's assigned area and within a five-mile radius thereof, provided that such affiliate obtains a certificate of authority issued pursuant to Code Section 46-5-163.

(b) Subject to the provisions of subsection (c) of this Code section, an EMC shall be authorized to apply for, accept, repay, and utilize loans, grants, and other financing from the federal government, this state, or any department or agency thereof, or from any other public or private party, in order to provide funding to assist the EMC or an affiliate of such EMC in the planning, engineering, construction, extension, operation, repair, and maintenance of emerging communications technologies which the EMC or an affiliate of such EMC shall be authorized to provide under this article.

Any EMC that provides or operates emerging communications technologies shall:

(1) Ensure that cross-subsidizations do not occur between the electricity services of an EMC, the gas activities of its EMC gas affiliate, and the emerging communications technologies it provides;

(2) Fully allocate all electricity activities costs, gas activities costs, or emerging communications technologies activities costs including costs for any shared services, between the EMC's electricity activities, the gas activities of its EMC gas affiliate, and the EMC's emerging communications technologies activities, in accordance with the applicable uniform system of accounts and generally accepted accounting

46-5-224.

(a) In order for an EMC or its affiliate to offer one or more emerging communications technologies, an EMC shall:

(1) Ensure that any rates and fees charged by such EMC for attachments to utility poles by communications services providers shall be nondiscriminatory regardless of the services provided by the communications services provider and shall not exceed the annual recurring rate permitted under rules and regulations adopted pursuant to 47 U.S.C. Section 224(d) by the Federal Communications Commission, as such existed on January 1, 2018, and any regulations and Federal Communications Commission decisions promulgated thereunder; provided, however, that this paragraph shall only apply if the EMC or its affiliate is providing an emerging technology to an area other than to an unserved area or unserved location;

(b) For purposes of this Code section, an EMC may file a petition with the Georgia Technology Authority along with data demonstrating that no broadband services are offered to a physical address or group of physical addresses in a served area. Upon receipt of such petition and data, the Georgia Technology Authority shall determine whether such physical address or group of addresses is an unserved location. The Georgia Technology Authority shall provide notice of the petition and any data provided by the EMC in support of such petition or that the Georgia Technology Authority has related to the area that is the subject of such petition to any

communications services provider offering broadband services in the served area. The communications services provider shall have 45 days after the date such notice is sent to furnish information to the Georgia Technology Authority showing that the physical address or group of addresses that are the subject of the petition currently have broadband services available. The Georgia Technology Authority shall issue its determination within 75 days of the date the notice is sent to the communications services provider.

46-5-225.

Nothing in this chapter shall authorize an EMC or any other provider of emerging communications technologies to provide cable television or video service without first obtaining a state or local cable or video franchise.

46-5-226.

An EMC or an affiliate of an EMC that was offering retail broadband services prior to January 1, 2018, shall be authorized to continue to offer such retail broadband services and shall not be subject to the provisions of Code Sections 46-5-223 through 46-5-225."

48-8-269.46.

A tax levied pursuant to this article shall be exclusively administered and collected by the commissioner for the use and benefit of the county and qualified municipalities within the special district imposing the tax. Such administration and collection shall be accomplished in the same manner and subject to the same applicable provisions, procedures, and penalties provided in Article 1 of this chapter; provided, however, that all moneys collected from each taxpayer by the commissioner shall be applied first to such taxpayer's liability for taxes owed the state; and provided, further, that the commissioner may rely upon a representation by or on behalf of the special district or the Secretary of State that such a tax has been validly imposed, and the commissioner and the commissioner's agents shall not be liable to any person for collecting any such tax which was not validly imposed. Dealers shall be allowed a percentage of the amount of the tax due and accounted for and shall be reimbursed in the form of a deduction in submitting, reporting, and paying the amount due if such amount is not delinquent at the time of payment. The deduction shall be at the rate and subject to the requirements specified under subsections (b) through (f) of Code Section 48-8-50.

48-8-269.47.

Each sales tax return remitting taxes collected under this article shall separately identify the location of each transaction at which any of the taxes remitted were collected and shall specify the amount of sales and the amount of taxes collected at each such location for the period covered by the return in order to facilitate the determination by the commissioner that all taxes imposed by this article are collected and distributed according to situs of sale.

48-8-269.48.

The proceeds of the tax collected by the commissioner in each special district under this article shall be disbursed as soon as practicable after collection as follows:

- (1) One percent of the amount collected shall be paid into the general fund of the state treasury in order to defray the costs of administration; and
- (2) Except for the percentage provided in paragraph (1) of this Code section, the remaining proceeds of the tax shall be distributed to be paid toward the cost of or debt incurred, if applicable, in relation to the transit projects listed in the resolution provided for in Code Section 48-8-269.42.

48-8-269.49.

(a) The proceeds of a tax under this article shall not be subject to any allocation or balancing of state and federal funds provided for by general law, and such proceeds shall not be considered or taken into account in any such allocation or balancing.

(b) The approval of the tax under this article shall not in any way diminish the percentage of state or federal funds allocated to any of the local governments under Code Section 32-5-27 within the special district levying the tax.

48-8-269.50.

(a) Except as to rate, a tax imposed under this article shall correspond to the tax imposed by Article 1 of this chapter. No item or transaction which is not subject to taxation under Article 1 of this chapter shall be subject to a tax imposed under this article, except that a tax imposed under this article shall not apply to:

- (1) The sale or use of any type of fuel used for off-road heavy-duty equipment, off-road farm or agricultural equipment, or locomotives;
 - (2) The sale or use of jet fuel to or by a qualifying airline at a qualifying airport, as such terms are defined in paragraph (33.1) of Code Section 48-8-3;
 - (3) The sale or use of fuel that is used for propulsion of motor vehicles on the public highways;
 - (4) The sale or use of energy used in the manufacturing or processing of tangible goods primarily for resale, as such sale or use is described in Code Section 48-8-3.2;
 - (5) The sale or use of motor fuel, as defined under paragraph (9) of Code Section 48-9-2, for public mass transit; or
 - (6) The purchase or lease of any motor vehicle pursuant to Code Section 48-5C-1.
- (b) Except as otherwise specifically provided in this article, the tax imposed pursuant

to this article shall be subject to any sales and use tax exemption which is otherwise imposed by law; provided, however, that the tax levied by this article shall be applicable to the sale of food and food ingredients as provided for in paragraph (57) of Code Section 48-8-3.

48-8-269.51.

Where a local sales or use tax has been paid with respect to tangible personal property by the purchaser either in another local tax jurisdiction within this state or in a tax jurisdiction outside this state, the tax may be credited against the tax authorized to be imposed by this article upon the same property. If the amount of sales or use tax so paid is less than the amount of the tax due under this article, the purchaser shall pay an amount equal to the difference between the amount paid in the other tax jurisdiction and the amount due under this article. The commissioner may require such proof of payment in another local tax jurisdiction as he or she deems necessary and proper. No credit shall be granted, however, against the tax under this article for tax paid in another jurisdiction if the tax paid in such other jurisdiction is used to obtain a credit against any other local sales and use tax levied in the county or in a special district which includes the county.

48-8-269.52.

No tax shall be imposed upon the sale of tangible personal property which is ordered by and delivered to the purchaser at a point outside the geographical area of the special district in which the tax is imposed regardless of the point at which title passes, if the delivery is made by the seller's vehicle, United States mail, or common carrier or by private or contract carrier.

48-8-269.53.

The commissioner shall have the power and authority to promulgate such rules and regulations as shall be necessary for the effective and efficient administration and enforcement of the collection of the tax.

48-8-269.54.

Except as provided in Code Section 48-8-6, the tax authorized under this article shall be in addition to any other local sales and use tax. Except as otherwise provided in this article and except as provided in Code Section 48-8-6, the imposition of any other local sales and use tax within a county or qualified municipality within a special district shall not affect the authority of a county to impose the tax authorized under this article, and the imposition of the tax authorized under this article shall not affect the imposition of any otherwise authorized local sales and use tax within the special district.

48-8-269.55.

(a)(1) The proceeds received from the tax shall be used by the county and qualified municipalities within the special district exclusively for the transit projects specified in the resolution calling for imposition of the tax and in the ranking order so specified.

Such proceeds shall be kept in a separate account from other funds of any county or qualified municipality receiving proceeds of the tax and shall not in any manner be commingled with other funds of any county or qualified municipality prior to the expenditure.

(2) The governing authority of each county and the governing authority of each qualified municipality receiving any proceeds from the tax under this article shall maintain a record of each and every purpose for which the proceeds of the tax are used. A schedule shall be included in each annual audit which shows for each purpose in the resolution calling for imposition of the tax the original estimated cost, the current estimated cost if it is not the original estimated cost, amounts expended in prior years, and amounts expended in the current year. The auditor shall verify and test expenditures sufficient to provide assurances that the schedule is fairly presented in relation to the financial statements. The auditor's report on the financial statements shall include an opinion, or disclaimer of opinion, as to whether the schedule is presented fairly in all material respects in relation to the financial statements taken as a whole.

(b) No general obligation debt shall be issued in conjunction with the imposition of the tax unless the county or qualified municipality governing authority determines that, and if the debt is to be validated it is demonstrated in the validation proceedings that, during each year in which any payment of principal or interest on the debt comes due, the county or qualified municipality will receive from the tax net proceeds sufficient to fully satisfy such liability. General obligation debt issued under this article shall be payable first from the separate account in which are placed the proceeds received by the county or qualified municipality from the tax. Such debt, however, shall constitute a pledge of the full faith, credit, and taxing power of the county or qualified municipality; and any liability on such debt which is not satisfied from the proceeds of the tax shall be satisfied from the general funds of the county or qualified municipality.

(c) The intergovernmental agreement, if applicable, and resolution calling for the imposition of the tax may specify that all of the proceeds of the tax will be used for payment of general obligation debt issued in conjunction with the imposition of the tax, and, in that event, such proceeds shall be solely for such purpose except as otherwise provided in subsection (f) of this Code section.

(d) The intergovernmental agreement, if applicable, and resolution calling for the imposition of the tax may specify that a part of the proceeds of the tax will be used for payment of general obligation debt issued in conjunction with the imposition of the tax. The intergovernmental agreement, if applicable, and resolution shall specifically state the other purposes for which such proceeds will be used. In such a case, no part of the net proceeds from the tax received in any year shall be used for such other purposes until all debt service requirements of the general obligation debt for that year have first been satisfied from the account in which the proceeds of the tax are placed.

(e) The resolution calling for the imposition of the tax may specify that no general obligation debt is to be issued in conjunction with the imposition of the tax. The intergovernmental agreement, if applicable, and resolution shall specifically state the

purpose or purposes for which the proceeds will be used.

(f)(1)(A) If the proceeds of the tax are specified to be used solely for the purpose of payment of general obligation debt issued in conjunction with the imposition of the tax, then any net proceeds of the tax in excess of the amount required for final payment of such debt shall be subject to and applied as provided in paragraph (2) of this subsection.

(B) If the special district receives from the tax net proceeds in excess of the maximum cost of the transit projects stated in the resolution calling for the imposition of the tax or in excess of the actual cost of such projects, then such excess proceeds shall be subject to and applied as provided in paragraph (2) of this subsection unless otherwise specified in the intergovernmental agreement, if applicable.

(C) If the tax is terminated under paragraph (1) of subsection (b) of Code Section 48-8-269.45 by reason of denial of validation of debt, then all net proceeds received by the special district from the tax shall be excess proceeds subject to paragraph (2) of this subsection.

(2) Excess proceeds subject to this subsection shall be used solely for the purpose of reducing any indebtedness of any county or qualified municipality within the special district other than indebtedness incurred pursuant to this article. If there is no such other indebtedness or if the excess proceeds exceed the amount of any such other indebtedness, then the excess proceeds shall next be paid into the general fund of such county or qualified municipality, it being the intent that any funds so paid into the general fund of such county or qualified municipality be used for the purpose of reducing ad valorem taxes."

To amend Chapter 2 of Title 21 of the Official Code of Georgia Annotated, relating to primaries and elections generally, so as to provide for uniform election equipment in this state; to provide that direct recording electronic voting systems shall not be used in primaries or elections in this state after January 1, 2024; to provide for definitions; to provide for ballot marking devices and standards and procedures for such devices; to provide for audits of election results and procedures therefor; to provide methods for recounts; to provide for conforming changes; to provide for related matters; to provide for an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 2 of Title 21 of the Official Code of Georgia Annotated, relating to primaries and elections generally, is amended by revising paragraphs (2), (4.1), and (18) of Code Section 21-2-2, relating to definitions, and adding new paragraphs to read as follows:

"(.3) 'Automatic tabulating equipment' means apparatus, including ballot scanning machines, that are utilized to ascertain the manner by which paper ballots have been marked by electors, whether by hand or by means of electronic ballot markers, and that count the votes marked on such ballots."

"(2) 'Ballot labels marking device' means ~~the cards, paper, or other material placed on the front of a voting machine containing the names of offices and candidates and statements of questions to be voted on a pen, pencil, or similar writing tool, or an electronic device designed for use in marking paper ballots so that its elector readable and verifiable mark may be detected as a vote so cast and then counted by automatic tabulating equipment.~~

(2.1) 'Ballot scanner' means an electronic recording device which receives an elector's ballot and tabulates the votes on the ballot by its own devices; also known as a 'tabulating machine.'"

"(4.1) 'Direct recording electronic' or 'DRE' voting equipment means a computer driven unit for casting and counting votes on which an elector touches a video screen or a button adjacent to a video screen to cast his or her vote. Such term shall not encompass ballot marking devices or electronic ballot markers."

"(7.1) 'Electronic ballot marker' means an electronic device that does not compute or retain votes; may integrate components such as a ballot scanner, printer, touch screen monitor, audio output, and a navigational keypad; and uses electronic technology to independently and privately mark a paper ballot at the direction of an elector, interpret ballot selections, communicate such interpretation for elector verification, and print an elector-verifiable paper ballot."

"(18) 'Official ballot' means a ballot, whether paper, mechanical, or electronic, which is furnished by the superintendent or governing authority in accordance with Code Section 21-2-280, including ballots read by optical scanning tabulators that are read by ballot scanners. An electronic image of a scanning ballot shall not be considered an official ballot."

"(19.1) 'Optical scanning voting system' means a system employing paper ballots on which electors cast votes with a ballot marking device or electronic ballot marker after which votes are counted by automatic tabulating equipment."

"(28.1) 'Precinct ballot scanner' is a ballot scanner."

"(32.1) 'Scanning ballot' means a printed paper ballot designed to be marked by an elector with a ballot marking device or electronic ballot marker or a blank sheet of paper designed to be used in a ballot marking device or electronic ballot marker, which is then inserted for casting into a ballot scanner."

SECTION 2.

Said chapter is further amended by revising paragraph (15) of subsection (a) of Code Section 21-2-50, relating to the powers and duties of the Secretary of State and prohibition against serving in a fiduciary capacity, as follows:

"(15) To develop, program, build, and review ballots for use by counties and municipalities on ~~direct recording electronic (DRE)~~ voting systems in use in the state."

A curtain, screen, or door shall not be required, however, for the self-contained units used as voting booths in which direct recording electronic (DRE) voting units or electronic ballot markers are located if such booths have been designed so as to ensure the privacy of the elector. When practicable, every polling place shall consist of a single room, every part of which is within the unobstructed view of those present therein and shall be furnished with a guardrail or barrier closing the inner portion of such room, which guardrail or barrier shall be so constructed and placed that only such persons as are inside such rail or barrier can approach within six feet of the ballot box and voting compartments, or booths, or voting machines, as the case may be. The ballot box and voting compartments or booths shall be so arranged in the voting room within the enclosed space as to be in full view of those persons in the room outside the guardrail or barrier. The voting machine or

machines shall be placed in the voting rooms within the enclosed space so that, unless its construction shall otherwise require, the ballot labels on the face of the machine can be plainly seen by the poll officers when the machine is not occupied by an elector. In the case of direct recording electronic (DRE) voting units or electronic ballot markers, the ~~units devices~~ shall be arranged in such a manner as to ensure the privacy of the elector while voting on such ~~units devices~~, to allow monitoring of the ~~units devices~~ by the poll officers while the polls are open, and to permit the public to observe the voting without affecting the privacy of the electors as they vote."

(b) When it is shown by affidavit that a mistake or omission has occurred in the printing of official ballots or in the programming of the display of the official ballot on DRE voting equipment or electronic ballot markers for any primary or election, the superior court of the proper county may, upon the application of any elector of the county or municipality, require the superintendent to correct the mistake or omission or to show cause why he or she should not do so."

Notwithstanding any provision of law to the contrary, on and after January 1, 2024, only optical scanning voting system equipment shall be used in federal, state, and county primaries and elections in the State of Georgia.

(2) Not later than January 31, 2019, the Secretary of State shall issue a competitive public solicitation to select optical scanning voting system equipment and supporting

(3) Provided that the General Assembly specifically appropriates funding to implement this subsection by not later than July 1, 2019, the Secretary of State shall provide optical scanning voting equipment to counties in Georgia for use in federal, state, and county primaries and elections by not later than the 2020 presidential preference primary.

(4) Notwithstanding any provision of law to the contrary, the Secretary of State is authorized to conduct pilot programs to test and evaluate the use of optical scanning voting systems and voter-verifiable ballots in primaries and elections in this state."

SECTION 6.

Said chapter is further amended by revising paragraph (5) of Code Section 21-2-365, relating to requirements for use of optical scanning voting systems, as follows:

SECTION 8.

Said chapter is further amended by revising Code Section 21-2-372, relating to ballot description, as follows:

"21-2-372.

Ballots shall be of suitable design, size, and stock to permit processing by a ~~tabulating machine~~ ballot scanner and shall be printed in black ink on clear, white, or colored material. ~~In counties using a central count tabulating system, a serially numbered strip shall be attached to each ballot in a manner and form similar to that prescribed in this chapter for paper ballots."~~

SECTION 9.

Said chapter is further amended by revising subsections (a) and (b) of Code Section 21-2-374, relating to proper programming, proper order, testing, and supplies, as follows:

(a) The superintendent of each county or municipality shall order the proper programming to be placed in each ~~tabulator~~ ballot scanner used in any precinct or central tabulating location.

(b) On or before the third day preceding a primary or election, including special primaries, special elections, and referendum elections, the superintendent shall have the ~~optical scanning tabulators~~ ballot scanners tested to ascertain that they will correctly count the votes cast for all offices and on all questions. Public notice of the time and place of the test shall be made at least five days prior thereto; provided, however, that, in the case of a runoff, the public notice shall be made at least three days prior thereto. Representatives of political parties and bodies, candidates, news media, and the public shall be permitted to observe such tests. If any error is detected, the cause therefor shall be ascertained and corrected; and an errorless count shall be made before the ~~tabulator~~ ballot scanner is approved. The superintendent shall cause the pretested ~~tabulators~~ ballot scanners to be placed at the various polling places to be used in the primary or election. The superintendent shall require that each ~~optical scanning tabulator~~ ballot scanner be thoroughly tested and inspected prior to each primary and election in which it is used and shall keep such tested material as certification of an errorless count on each ~~tabulator~~ ballot scanner. In counties using central count ~~optical scanning tabulators~~ ballot scanners, the same test shall be repeated immediately before the start of the official count of the ballots and at the conclusion of such count. Precinct ~~tabulators~~ ballot scanners shall produce a zero tape prior to any ballots being inserted on the day of any primary or election."

Said chapter is further amended by revising Code Section 21-2-375, relating to delivery of equipment to polling places, protection for equipment, and required accessories, as follows:

"21-2-375.

(a) In counties using precinct count ~~optical scanning tabulators~~ ballot scanners, the superintendent shall deliver the proper ~~optical scanning tabulator~~ ballot scanner to the polling places at least one hour before the time set for opening of the polls at each primary or election and shall cause each to be set up in the proper manner for use in voting.

(b) The superintendent shall provide ample protection against molestation of and injury to the ~~optical scanning tabulator~~ ballot scanner and, for that purpose, shall call upon any law enforcement officer to furnish such assistance as may be necessary; and it shall be

the duty of the law enforcement officer to furnish such assistance when so requested by the superintendent.

(c) The superintendent shall at least one hour before the opening of the polls:

21-2-379.23.

(a) Any person or organization owning, manufacturing, or selling, or being interested in the manufacture or sale of, any electronic ballot marker may request that the Secretary of State examine the device. Any ten or more electors of this state may, at any time, request that the Secretary of State reexamine any such device previously examined and approved by him or her. Before any such examination or reexamination, the person, persons, or organization requesting such examination or reexamination shall pay to the Secretary of State the reasonable expenses of such examination or reexamination. The Secretary of State shall publish and maintain on his or her website the cost of such examination or reexamination. (d) Any vendor who completes a sale of an electronic ballot marker that has not been certified by the Secretary of State to a governmental body in this state shall be subject to a penalty of \$100,000.00, payable to the State of Georgia, plus reimbursement of all costs and expenses incurred by the governmental body in connection with the sale. The State Election Board shall have the authority to impose such penalty upon a finding that such a sale has occurred.

(f) Neither the Secretary of State, nor any custodian, nor the governing authority of any county or municipality or a member of such governing authority nor any other person involved in the examination process shall have any pecuniary interest in any device or in the manufacture or sale thereof.

21-2-379.24.

(a) The superintendent of each county or municipality shall cause the proper ballot design and style to be programmed for each electronic ballot marker which is to be used in any precinct within such county or municipality, cause each such device to be placed in proper order for voting, and examine each unit before it is sent to a polling place for use in a primary or election to verify that each device is properly recording votes and producing proper ballots.

(b) The superintendent may appoint, with the approval of the county or municipal governing authority, as appropriate, a custodian of the electronic ballot markers, and deputy custodians as may be necessary, whose duty shall be to prepare the devices to be used in the county or municipality at the primaries and elections to be held therein. Each custodian and deputy custodian shall receive from the county or municipality such compensation as shall be fixed by the governing authority of such county or municipality. Such custodian shall, under the direction of the superintendent, have charge of and represent the superintendent during the preparation of the devices as required by this chapter. The custodian and deputy custodians shall serve at the pleasure of the superintendent. Each custodian and deputy custodian shall take an oath of office prepared by the Secretary of State before each primary or election which shall be filed with the superintendent.

(c) On or before the third day preceding a primary or election, including special primaries, special elections, and referendum elections, the superintendent shall have each electronic ballot marker tested to ascertain that it will correctly record the votes cast for all offices and on all questions and produce a ballot reflecting such choices of the elector in a manner that the State Election Board shall prescribe by rule or regulation. Public notice of the time and place of the test shall be made at least five days prior thereto; provided, however, that, in the case of a runoff, the public notice shall be made at least three days prior thereto. Representatives of political parties and bodies, news media, and the public shall be permitted to observe such tests.

21-2-379.25.

(a) All electronic ballot markers and related equipment, when not in use, shall be properly stored and secured under conditions as shall be specified by the Secretary of State.

(b) The superintendent shall store the devices and related equipment under his or her supervision or shall designate a person or entity who shall provide secure storage of such devices and related equipment when it is not in use at a primary or election. The superintendent shall provide compensation for the safe storage and care of such devices and related equipment if the devices and related equipment are stored by a person or entity other than the superintendent."

This subsection shall not prohibit the use of photographic or other electronic monitoring or recording devices, cameras, or cellular telephones by poll officials for official purposes."

36-66C-2.

(a) The provisions of this Code section shall only apply to the collocation of small wireless facilities on utility poles and wireless support structures, and the deployment of utility poles to support small wireless facilities, by a wireless provider within a right of way.

(b)(1) Subject to the provisions of this Code section and approval of an application pursuant to Code Section 36-66C-3, if required, a wireless provider shall have the right to collocate small wireless facilities and construct, install, maintain, modify, operate, and replace utility poles along, across, upon, and under a right of way.

(2) The utility poles and small wireless facilities provided for in paragraph (1) of this subsection shall be so constructed and maintained as not to obstruct or hinder the usual travel or public safety on such right of way or obstruct the legal use of such right of way by other utilities. Each new or modified utility pole installed in such right of way shall not exceed the greater of:

(A) Ten feet in height above the tallest existing utility pole in place as of January 1, 2018, located within 500 feet of the new pole in the same right of way; or

(B) Fifty feet above ground level.

(3) New small wireless facilities in a right of way may not extend:

(A) More than ten feet above any utility pole or wireless support structure in place as of January 1, 2018; or

(B) Above the height permitted for a new utility pole under this Code section.

(4) A wireless provider may collocate small wireless facilities that exceed the height limits in paragraph (3) of this subsection and construct, install, maintain, modify, operate, and replace utility poles that exceed the height limits in paragraph (2) of this subsection along, across, upon, and under a right of way if the authority approves an application for such activities under Code Section 36-66C-4. A wireless provider may collocate wireless facilities that are not small wireless facilities and construct, install, maintain, modify, operate, and replace wireless support structures along, across, upon, and under a right of way if such wireless provider has an arrangement with the authority allowing such activities and if the authority approves an application for the deployment under Code Section 36-66C-4.

(5) A wireless provider shall comply with reasonable and nondiscriminatory requirements that prohibit communications service providers from installing utility poles in a right of way in an area designated solely for underground or buried cable and utility facilities where the authority:

(A) Has required all cable and utility facilities other than authority poles and attachments to be placed underground by a date certain that is three months prior to the submission of the application;

(B) Does not prohibit the replacement of authority poles or the collocation of small wireless facilities in the designated area; and

- (C) Permits wireless providers to seek a waiver of the underground requirements for the placement of a new utility pole to support small wireless facilities, which waivers shall be addressed in a nondiscriminatory manner that does not have the effect of prohibiting the provision of wireless services to any location.
- (c) The authority, in the exercise of its administration and regulation related to the management of a right of way, shall be competitively neutral with regard to other users of such right of way, and terms shall not be unreasonable or discriminatory and shall not violate any applicable law. The authority shall not enter into an exclusive arrangement with any person for use of the right of way for the collocation of small wireless facilities or the installation, operation, marketing, maintenance, modification, or replacement of utility poles or wireless support structures.
- (d) If the authority determines that a wireless provider's activity in a right of way pursuant to this Code section creates an imminent risk to public safety, the authority may provide written notice to the wireless provider and demand that such provider address such risk. If the wireless provider fails to reasonably address the risk with 24 hours of the written notice, the authority may take or cause to be taken actions to reasonably address such risk and charge such wireless provider the reasonable documented cost of such actions.
- (e) The authority may require a wireless provider to repair all damage to a right of way directly caused by the activities of such wireless provider, while occupying, installing, repairing, or maintaining wireless facilities, wireless support structures, or utility poles in such right of way, and to return such right of way to its functional equivalence before the damage pursuant to the competitively neutral, reasonable requirements and specifications of the authority. If the wireless provider fails to make the repairs required by the authority within 60 days after written notice, the authority may effect those repairs and charge the applicable party the reasonable documented cost of such repairs.
- (f) Nothing in this chapter precludes an authority from adopting reasonable and nondiscriminatory requirements with respect to the removal of abandoned small wireless facilities. A small wireless facility that is not operated for a continuous period of 12 months shall be considered abandoned and the owner of such wireless facility must remove such small wireless facility within 90 days after receipt of written notice from the authority notifying such owner of such small wireless facility of the abandonment. The authority shall send the notice by certified or registered mail, return receipt requested, to such owner at the last known address of such owner of the small wireless facility. If the owner neither provides written notice that the small wireless facility has not been out of operation for a continuous period of 12 months nor removes such small wireless facility within the 90 day period, the authority may remove or cause the removal of such small wireless facility pursuant to the terms of its wireless support structure or utility pole attachment agreement for authority poles or through whatever actions are provided for abatement of nuisances or by other law for removal and cost recovery.
- (g) If, in the reasonable exercise of its police powers, the Department of Transportation

or a local governing authority requires the widening, repair, reconstruction, or relocation of a public road or highway, a wireless provider shall relocate utility poles or wireless support structures it has installed in the right of way for the collocation of wireless facilities pursuant to this Code section at no cost to the Department of Transportation or local governing authority should such poles be found by the Department of Transportation or local governing authority to be unreasonably interfering with the widening, repair, reconstruction, or relocation project. If widening, repair, reconstruction, or relocation is required as a condition or result of a project by an entity other than the Department of Transportation or a local governing authority, the other entity shall bear the cost of relocating such wireless support structures or utility poles. The wireless provider shall relocate the wireless support structures or utility poles after it receives notice from the Department of Transportation or local governing authority and within the time reasonably provided for the relocation of other similarly situated structures.

(h) An authority shall not assess a rate for occupancy of the right of way pursuant to paragraph (1) of subsection (b) of this Code section that exceeds, in total, an amount equal to \$20 per year per small wireless facility.

(i) Subject to Code Section 36-66C-3, and except for facilities excluded from evaluation for effects on historic properties under 47 C.F.R. § 1.1307(a)(4), as such existed on January 1, 2018, an authority may require reasonable, technically feasible, nondiscriminatory and technologically neutral design or concealment measures in a historic district. Any such design or concealment measures shall not have the effect of prohibiting any provider's technology; nor shall any such measures be considered a part of the small wireless facility for purposes of the size restrictions provided in paragraph (26) of Code Section 36-66C-1.

(j) An authority may adopt written guidelines establishing reasonable and objective stealth or concealment criteria for small wireless facilities in designated downtown or residential areas, reasonable and objective design criteria for small wireless facilities to be collocated on decorative poles, and reasonable and objective design criteria for utility poles deployed in areas with decorative poles. Such guidelines may be adopted only if they apply on a nondiscriminatory basis to all other occupants of the right of way, including the authority itself. A wireless provider that seeks to collocate small wireless facilities on a decorative pole shall comply with Code Section 36-66C-3. A wireless provider that is required to replace a decorative pole in compliance with Code Section 36-66C-3 shall conform the new decorative pole to the design aesthetics and material look of the decorative pole being replaced.

36-66C-3.

(a) The provisions of this Code section shall apply to the collocation of small wireless facilities that comply with the height requirements of paragraph (3) of subsection (b) of Code Section 36-66C-2 by a wireless provider inside a right of way and to the permitting of the construction, installation, maintenance, modification, operation, and replacement of utility poles that comply with paragraph (2) of subsection (b) of Code

Section 36-66C-2 by a wireless provider inside such right of way.

(b) The authority may require a wireless provider to certify, as part of an application to install a utility pole, that after diligent investigation such wireless provider has determined that it cannot meet the service objectives of the permit request by collocating small wireless facilities on an existing structure:

(1) On which it has the right to collocate subject to reasonable terms and conditions; and

(2) That collating on an existing structure would impose technical limitations or additional costs.

(c) An authority may require an applicant to obtain one or more permits to collocate a small wireless facility or to construct, install, maintain, modify, operate, or replace a utility pole, provided that such permits are of general applicability and do not apply exclusively to small wireless facilities. An authority shall receive applications for, process, and issue such permits subject to the following requirements:

(1) An authority may not directly or indirectly require an applicant to perform services unrelated to the collocation for which approval is sought, such as in-kind contributions to the authority, including reserving fiber, conduit, or space on a utility pole or a wireless support structure for the authority, and such authority may not require an applicant to transfer small wireless facilities or wireless support structures to the authority, provided that the authority may require transfer of an authority pole replaced by the applicant to accommodate its collocation;

(2) An applicant shall not be required to provide more information to obtain a permit than communications service providers that are not wireless providers; provided, however, that an applicant shall be required to include construction and engineering drawings and information demonstrating compliance with the criteria in paragraph (6) of this subsection;

(3) Within 30 days of receiving an application, an authority shall determine and notify the applicant whether the application is complete. If an application is incomplete, the authority shall specifically identify the missing information and the applicant may cure the deficiencies identified by the authority and resubmit the application within 20 days of the notice without paying an additional application fee. The processing deadline in paragraph (5) of this subsection shall be tolled from the time the authority sends the notice of incompleteness to the time the applicant provides the missing information, and such processing deadline also may be tolled by agreement of the applicant and the authority;

(4) The authority may require an applicant to include an attestation that the small wireless facilities will be operational for use by a wireless services provider within nine months after the permit issuance date, unless the authority and the applicant agree to extend such period or delay occurs due to lack of power to the wireless support structure or utility pole or lack of communications transport facilities to the wireless support structure or utility pole;

(5) An application shall be processed on a nondiscriminatory basis and deemed approved if the authority fails to approve or deny the application within 75 days. An

applicant shall inform the authority in writing when it intends to act upon an application that has been deemed approved pursuant to this subsection;

(6) An authority shall approve an application unless it:

(A) Materially interferes with the operation of traffic control equipment;

(B) Materially interferes with sight lines or clear zones for transportation or pedestrians;

(C) Fails to comply with the Americans with Disabilities Act, 42 U.S.C. Section 12101, et seq., or similar federal or state standards regarding pedestrian access or movement;

(D) Fails to comply with reasonable and nondiscriminatory spacing requirements of general application adopted by ordinance concerning the location of ground mounted equipment or new utility poles. Such spacing requirements shall not prevent a wireless provider from serving any location;

(E) Fails to comply with applicable codes; or

(F) Fails to comply with paragraph (2) of subsection (b) or subsections (i) or (j) of Code Section 36-66C-2.

(7) The authority shall document the basis for a denial, including the specific provisions of law on which the denial was based, and send the documentation to the applicant on or before the day the authority denies an application. The applicant may cure the deficiencies identified by the authority and resubmit the application within 30 days of the denial without paying an additional application fee. The authority shall approve or deny the revised application within 30 days. Any subsequent review shall be limited to the deficiencies cited in the denial;

(8) An applicant seeking to collocate small wireless facilities within the jurisdiction of a single authority shall be allowed at the applicant's discretion to file a consolidated application for the collation of up to 25 small wireless facilities and receive a single permit for the collocation of multiple small wireless facilities; provided, however, that the denial of one or more small wireless facilities in a consolidated application shall not delay processing of any other small wireless facilities in the same application. An authority may prohibit an applicant from submitting an additional application when such applicant has at least ten pending consolidated applications. For purposes of this paragraph, a request to install a utility pole with a collocated small wireless facility shall constitute a single request;

(9) Collocation for which a permit is granted shall be operational for use by a wireless services provider within nine months after the permit issuance date unless the authority and the applicant agree to extend this period or a delay occurs due to lack of power to the wireless support structure or utility pole or lack of communications facilities to the wireless support structure or utility pole. If the wireless services provider fails within such nine-month period to collocate small wireless facilities that are operational for use by a wireless services provider, the permit shall be void and such wireless services provider shall be subject to a fine of not more than \$500.00, unless such time period is extended or the failure is due to delay provided for in this paragraph. Approval of an application authorizes the applicant to:

- (A) Undertake the installation or collocation; and
 - (B) Subject to applicable relocation requirements and the applicant's right to terminate at any time, operate and maintain the small wireless facilities and any associated utility poles covered by the permit for a period of not less than ten years, which shall be renewed for equivalent durations so long as they are in compliance with the criteria set forth in paragraph (6) of this subsection; and
- (10) An authority may not institute, either expressly or de facto, a moratorium on:
 - (A) Filing, receiving, or processing applications; or
 - (B) Issuing permits or other approvals, if any, for the collocation of small wireless facilities.
- (d) Application fees shall be subject to the following requirements:
 - (1) An authority may charge an application fee only if such fee is required for similar types of commercial development within the authority's jurisdiction;
 - (2) An authority shall only charge fees for the actual, direct, and reasonable costs incurred by the authority relating to the granting or processing of an application. Such fees shall be reasonably related in time to the incurring of such costs. Where such costs are already recovered by existing fees, rates, or taxes paid by a wireless provider, no application fee shall be assessed to recover such costs;
 - (3) A fee may not include:
 - (A) Travel expenses incurred by a third party in its review of an application; or
 - (B) Direct payment or reimbursement of third-party rates or fees charged on a contingency basis or a result based arrangement;
 - (4) In any controversy concerning the appropriateness of a fee, the authority shall have the burden of proving that the fee is reasonably related to the actual, direct, and reasonable costs incurred by the authority;
 - (5) Except as provided in paragraph (6) of this subsection, total application fees, where permitted, shall not exceed the lesser of the amount charged by the authority for:
 - (A) A building permit for any similar commercial construction, activity, or land use development; or
 - (B) One hundred dollars each for up to five small wireless facilities addressed in an application and \$50.00 for each additional small wireless facility addressed in the application; and
 - (6) For the collocation of small cell wireless facilities on authority poles that are not owned or operated by an entity through which a municipality furnishes retail electric service, total application fees shall not exceed the lesser of the amount charged by the authority for:
 - (A) A building permit for any similar commercial construction, activity, or land use development; or
 - (B) Two hundred dollars each for up to five small wireless facilities addressed in an application and \$100.00 for each additional small wireless facility addressed in the application.
- (e)(1) An authority shall not require an application for:

- (A) Routine maintenance; or
- (B) The replacement of wireless facilities with wireless facilities that are substantially similar in nature or the same size or smaller.
- (2) An authority may, however, require a permit to work within a right of way for such activities, if applicable. Any such permits shall be subject to the requirements provided in subsections (c) and (d) of this Code section.
- (f) An authority shall not require a permit or any other approval or require fees or rates for the installation, placement, maintenance, operation, or replacement of micro wireless facilities that are suspended on cables or power lines that are strung between utility poles or wireless support structures in compliance with applicable codes. Nothing in this subsection shall be construed to allow the installation, placement, maintenance, operation, or replacement of micro wireless facilities on such cables or power lines without the agreement, authorization, or permission of the person owning, managing, or controlling such cables or power lines.
- (g) If multiple applications are received by the authority to install two or more utility poles that would violate applicable spacing requirements under subparagraph (c)(6)(D) of this Code section, or to collocate two or more small wireless facilities on the same wireless support structure or utility pole, the authority shall resolve conflicting requests in an appropriate, reasonable, and nondiscriminatory manner.

36-66C-4.

- (a) The provisions of this Code section shall apply to reviews of applications for the construction, installation, maintenance, modification, operation, or replacement of wireless facilities, wireless support structures, and utility poles and for substantial modifications inside a right of way. The provisions of the Code section shall not apply to the collocation of small wireless facilities or the permitting of the construction, installation, maintenance, modification, operation, and replacement of utility poles to which Code section 36-66C-3 applies.
- (b) Authorities shall process applications within the following time frames:
 - (1) Within 30 days of receiving an application under this Code section, an authority shall notify the applicant as to whether the application is complete, and if incomplete, the authority shall specifically identify the missing information;
 - (2) An application under this Code section shall be processed on a nondiscriminatory basis and deemed approved if the authority fails to approve or deny the application within 150 calendar days of receipt of an application for installation of a new wireless support structure or within 90 calendar days of receipt of an application described in subsection (a) of this Code section or for a substantial modification. The time period for approval may be tolled to accommodate timely requests for information required to complete the application or may be extended by mutual agreement between the applicant and the authority; and
 - (3) A decision to deny an application pursuant to this Code section shall be in writing and supported by substantial evidence contained in a written record and publicly released contemporaneously. If an authority denies an application, there must be a

reasonable basis for the denial. An authority shall not deny an application if such denial is discriminatory against the applicant with respect to the placement of the facilities of other wireless providers.

(c) Application fees shall be subject to the same requirements as in subsection (d) of Code Section 36-66C-3 and total application fees, where permitted, shall not exceed the lesser of the amount charged by the authority for:

(1) A building permit for any similar commercial construction, activity, or land use development; or

(2) One thousand dollars for a new wireless support structure or a substantial modification of a wireless support structure.

(d) An authority shall receive and process applications under this Code section subject to the following requirements:

(1) An applicant's business decision on the type and location of wireless facilities, wireless support structures, utility poles, or technology to be used shall be presumed reasonable. This presumption shall not apply with respect to the height of wireless facilities, wireless support structures, or utility poles. An authority may consider the height of such structures in its review of an application, provided that it may not unreasonably discriminate between the applicant and other communications service providers;

(2) An authority shall not require an applicant to submit information about an applicant's business decisions with respect to the need for the wireless facilities, wireless support structure, or utility pole;

(3) An authority shall not require an applicant to submit information about or evaluate an applicant's business decisions with respect to its service, customer demand for service, or quality of service;

(4) Any requirements regarding the appearance of facilities, including those relating to materials used for arranging, screening, or landscaping, must be reasonable;

(5) Any setback or fall zone requirements must be substantially similar to such a requirement that is imposed on other types of commercial structures of a similar height;

(6) An approval term of an application shall be without expiration, except that construction of the approved structure or facilities shall commence within one year of final approval, and be diligently pursued to completion; and

(7) An authority may not institute, either expressly or de facto, a moratorium on:

(A) Filing, receiving, or processing applications; or

(B) Issuing approvals for substantial modifications or installations that are subject to this Code section.

36-66C-5.

(a) An authority shall not enter into an exclusive arrangement with any person for the right to attach to authority poles. A person who purchases or otherwise acquires an authority pole is subject to the requirements of this Code section unless such requirements are contrary to federal law.

(b) Except as set forth in subsection (c) of this Code section, the rates and fees for collocations on authority poles shall be nondiscriminatory regardless of the services provided by the collocating wireless provider and shall not exceed \$40.00 per year per authority pole.

(c) To the extent that a written agreement between a wireless provider and an authority providing rates and fees for collocations on poles owned or operated by any entity through which a municipality furnishes retail electric service becomes effective between June 1, 2018, and May 31, 2019, such rates and fees shall apply as set forth in such agreement.

(d) In any controversy concerning the appropriateness of a rate for an authority pole, the authority shall have the burden of proving that the rates are reasonably related to the actual, direct, and reasonable costs incurred for use of space on the pole for such period. This subsection shall not apply to rates and fees for collocations on authority poles set forth in a written agreement described in subsection (c) of this Code section.

(e) Should an authority have an existing authority pole attachment rate, fee, or other term that does not comply with the requirements of this Code section, it shall reform such rate, fee, or term in compliance with this Code section by January 1, 2019.

(f) Authorities shall offer rates, fees, and other terms that comply with subsections (b) through (e) of this Code section. On and after January 1, 2019, an authority shall make available the rates, fees, and terms for the collocation of small wireless facilities on authority poles that comply with the following:

(1) The rates, fees, and terms shall be nondiscriminatory, competitively neutral, and commercially reasonable and shall comply with this chapter. Such rates, fees, and terms shall be made publicly available so that a wireless provider may accept them without negotiation. Documents reflecting the rates, fees, and terms entered into with each wireless provider shall be made publicly available;

(2) For make-ready work required for authority poles that support aerial cables used for the provision of services by communications service providers or for electric service, the parties shall comply with all applicable federal laws and rules and regulations promulgated thereunder as such existed on January 1, 2018, including, but not limited to 47 U.S.C. Section 224. The good faith estimate of the person owning or controlling the authority pole for any make-ready work necessary to enable the authority pole to support the requested collocation shall include authority pole replacement if necessary;

(3) For authority poles that do not support aerial cables used for video, communications service, or electric service, the authority shall provide a good faith estimate for any make-ready work necessary to enable the authority pole to support the requested collocation, including authority pole replacement if necessary, within 60 days after receipt of a complete application. Make-ready work including any authority pole replacement shall be completed within 60 days of written acceptance of the good faith estimate by the applicant; and

(4) An authority shall not require more make-ready work than required to meet applicable codes or the authority's generally applicable safety, reliability, or

engineering standards that reasonably accommodate the collocation of small wireless facilities. Fees for make-ready work shall not include costs related to preexisting or prior damage or noncompliance. Fees for make-ready work including any authority pole replacement shall not exceed actual costs or the amount charged to other communications service providers for similar work and shall not include any consultants' fees or expenses.

(g) An authority shall authorize the collocation of small wireless facilities on authority poles and wireless support structures owned or controlled by an authority that are not located within a right of way to the same extent the authority permits access to such structures for other commercial projects or uses. Such collocations shall be subject to reasonable and nondiscriminatory rates, fees, and terms as provided in an agreement between the authority and the wireless provider.

36-66C-6.

Nothing in this chapter shall authorize this state or any political subdivision thereof, including, but not limited to, an authority, to require wireless facility deployment or to regulate wireless services.

36-66C-7.

A court of competent jurisdiction shall have jurisdiction to determine all disputes arising under this chapter.

36-66C-8.

(a) An authority shall not require a communications service provider to indemnify and hold the authority and its officers and employees harmless against any claims, lawsuits, judgments, costs, liens, losses, expenses, or fees, except when a court of competent jurisdiction has found that the negligence of the communications service provider while installing, repairing, or maintaining caused the harm that created such claims, lawsuits, judgments, costs, liens, losses, expenses, or fees, or to require a communications service provider to obtain insurance naming the authority or its officers and employees an additional insured against any of the foregoing.

(b) In no event shall any authority or any officer, employee, or agent affiliated therewith be liable for any claim related to the siting or location of wireless equipment, facilities, poles, or infrastructure, including, but not limited to, any claim for destruction, damage, business interruption, or signal interference with other communications service providers wherein such siting or location and associated installation and permitting was undertaken in substantial compliance with this chapter. This subsection shall not apply to gross negligence or willful misconduct.

36-66C-9.

A wireless provider that installs utility poles designed to support its own small wireless facilities in the rights of way in this state shall allow another wireless provider to collocate small wireless facilities on such utility poles, subject to technical feasibility and commercially reasonable rates, terms, and conditions, if the other wireless provider

agrees in writing to make available similar utility poles in the rights of way in this state for collocation subject to the same rates, terms, and conditions. The wireless provider seeking collocation shall be entitled to collocate on the same number of utility poles designed to support small wireless facilities as such wireless provider makes available in this state to the wireless provider that installed the poles upon which it seeks to collocate. A wireless provider that installs a utility pole designed to support the small wireless facilities of other wireless providers shall allow more than one wireless provider to collocate on the pole, subject to technical feasibility and commercially reasonable rates, terms and conditions.

36-66C-10.

(a) This chapter fully occupies the entire field governing the placement and regulation of small wireless facilities and associated utility poles in the public rights of way and supersedes and preempts any ordinance, resolution, or similar matter adopted by a municipality or county that purports to address or otherwise regulate the placement of such small wireless facilities and utility poles in the public rights of way.

(b) To the extent an authority does not adopt ordinances or enter into agreements that implement the provisions of this chapter or to the extent such ordinances or agreements are determined not to comply with this chapter or are otherwise determined to be invalid, wireless providers may collocate small wireless facilities and construct, install, maintain, modify, operate, and replace utility poles in the right of way pursuant to the requirements set forth in this chapter.

A BILL TO BE ENTITLED
AN ACT

To amend Title 40 of the Official Code of Georgia Annotated, relating to motor vehicles, so as to provide for criminal offense and minimum fines for improper operation of an authorized emergency or law enforcement vehicle; to provide for an offense of operating an authorized emergency vehicle with a siren, bell, or whistle in certain instances; to provide for the mandatory license suspension of a driver convicted of a third or subsequent violation of such offense; to provide for fines; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Title 40 of the Official Code of Georgia Annotated, relating to motor vehicles, is amended by revising Code Section 40-6-6, relating to authorized emergency vehicles, as follows:

"40-6-6.

(a) The driver of an authorized emergency vehicle or law enforcement vehicle, when responding to an emergency call, when in the pursuit of an actual or suspected violator

of the law, or when responding to but not upon returning from a fire alarm, may exercise the privileges set forth in this Code section.

(b) The driver of an authorized emergency vehicle or law enforcement vehicle may:

(d)(1) The foregoing provisions shall not relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons.

(2) When a law enforcement officer in a law enforcement vehicle is pursuing a fleeing suspect in another vehicle and the fleeing suspect damages any property or injures or kills any person during the pursuit, the law enforcement officer's pursuit shall not be the proximate cause or a contributing proximate cause of the damage, injury, or death caused by the fleeing suspect unless the law enforcement officer acted with reckless disregard for proper law enforcement procedures in the officer's decision to initiate or continue the pursuit. Where such reckless disregard exists, the pursuit may be found to constitute a proximate cause of the damage, injury, or death caused by the fleeing suspect, but the existence of such reckless disregard shall not in and of itself establish causation.

(3) The provisions of this subsection shall apply only to issues of causation and duty and shall not affect the existence or absence of immunity which shall be determined as otherwise provided by law.

(4) Claims arising out of this subsection which are brought against local government entities, their officers, agents, servants, attorneys, and employees shall be subject to the procedures and limitations contained in Chapter 92 of Title 36.

"40-8-94.

(a) Any authorized emergency vehicle may be equipped with a siren, whistle, or bell capable of emitting sound audible under normal conditions from a distance of not less than 500 feet, but such siren shall not be used except when such vehicle is operated in response to an emergency call, in accordance with Code Section 40-6-76 while directing or escorting a funeral procession or in any other honorary procession, or in the immediate pursuit of an actual or suspected violator of the law, in which latter event the driver of such vehicle shall sound the siren when necessary to warn pedestrians and other drivers of the approach thereof.

(b) A person convicted of a violation of subsection (a) of this Code section shall be punished as follows:

(1) Upon conviction of a first offense, the defendant shall be guilty of a misdemeanor and shall be fined \$500.00;

(2) Upon conviction of a second offense, the defendant shall be guilty of a misdemeanor and shall be fined \$1,000.00; and

(3) Upon conviction of a third or subsequent offense, the defendant shall be guilty of a felony and such person's license shall be subject to suspension in accordance with paragraph (2) of subsection (a) of Code Section 40-5-54."

SUBJECT: Fiscal Note
House Bill 918 (LC 34 5383-ECS)

Dear Chairman Powell:

The bill would make a number of changes to Georgia's tax code. Part I would amend Georgia law to conform with Internal Revenue Code changes through February 9, 2018, as well as phased-in changes to the state personal and corporate income taxes. The standard deduction amounts for personal income taxes would be doubled effective January 1, 2018. Effective January 1, 2019, the top corporate and personal income tax rates would be lowered to 5.75 percent. The following year, the rates would be lowered to 5.5 percent, subject to passage of a joint resolution. Part III would create a sales and use

tax exemption for jet fuel. The other parts of the bill, related to replacement vehicle titles and dates affecting bill provisions, would not have an impact on revenue.

Impact on Revenue – Part I

Georgia State University’s Fiscal Research Center (FRC) estimated that Part I of the bill would increase state revenues in fiscal years 2018 through 2020; however, state revenue would decline in the subsequent three years (Table 1). The revenue reductions are largely attributable to changes to personal income tax provisions.
