~~(1)(2)~~ 'Health benefit policy' means any individual or group plan, policy, or contract for health care services issued, delivered, issued for delivery, executed, or renewed in this state, including, but not limited to, those contracts executed by the State of Georgia on behalf of state employees any health insurance plan established under Article 1 of Chapter 18 of Title 45, by an insurer, or under Article 7 of Chapter 4 of Title 49.

A BILL to be entitled an Act to amend Code Section 15-11-211 of the Official Code of Georgia Annotated, relating to relative search by DFCS, so as to

The House substitute was as follows:

A BILL TO BE ENTITLED
AN ACT

To amend Article 3 of Chapter 11 of Title 15 of the Official Code of Georgia Annotated, relating to dependency proceedings under the Juvenile Code, so as to provide for reasonable efforts in determining a permanent home; to provide relative search requirements; to provide for continuation of placements; to amend Code Section 15-11-321 of the Official Code of Georgia Annotated, relating to custody of child following termination proceedings or surrender of parental rights, so as to provide for determining placements in the best interests of the child; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 3 of Chapter 11 of Title 15 of the Official Code of Georgia Annotated, relating to dependency proceedings under the Juvenile Code, is amended by revising subsection (f) of Code Section 15-11-202, relating to reasonable efforts by DFCS to preserve or reunify families, as follows:

"(f)(1) When determining whether reasonable efforts have been made, the court shall consider whether services to the child alleged to be or adjudicated as a dependent child and his or her family were:

- (1)(A) Relevant to the safety and protection of such child;
- (2)(B) Adequate to meet the needs of such child and his or her family;
- (3)(C) Culturally and linguistically appropriate;
- (4)(D) Available and accessible;
- (5)(E) Consistent and timely; and
- (6)(F) Realistic under the circumstances.

(2) In determining whether reasonable efforts have been made to finalize an alternative permanent home for a child adjudicated dependent, the court shall also consider whether DFCS has completed the diligent search required by subsection (e) of Code Section 15-11-211 and has provided notice to persons identified in such diligent search as required by subsection (c) of Code Section 15-11-211."

SECTION 2.

Said article is further amended by revising subsections (d) and (e) of Code Section 15-11-211, relating to relative search by DFCS, as follows:

"(d) The diligent search required by this Code section and the notification required by

subsection (c) of this Code section shall be completed, documented in writing, and filed with the court within 30 days from the date on which the alleged dependent child was removed from his or her home and at each periodic review hearing required by Code Section 15-11-216.

(e) After the completion of the diligent search required by this Code section, DFCS shall have a continuing duty to search for relatives or other persons who have an ongoing commitment to a child and with whom it may be appropriate to place the alleged dependent child until such relatives or persons are found or until such child is placed for adoption unless the court excuses DFCS from conducting a diligent search. If a relative entitled to notice under subsection (c) of this Code section fails, within six months from the date he or she receives the required notice, to demonstrate an interest in and willingness to provide a permanent home for a child, the court may excuse DFCS from considering such relative as a placement."

SECTION 3.

Said article is further amended by adding a new subsection to and by revising subsections (f) and (g) of Code Section 15-11-215, relating to notice of change in placement hearings, as follows:

"(f) If the court finds that the child has been living in a stable home environment with his or her current caregivers for the past 12 months and that removal of the child from such caregivers would be detrimental to the child's emotional well-being, the court may presume that continuation of the child's placement with his or her current caregivers is in the child's best interests and shall enter a finding that a change of placement is a failure by DFCS to make reasonable efforts to finalize the permanency plan which is in effect at the time of the hearing.

~~(f)~~(g) Placement or a change of legal custody by the court outside DFCS shall relieve DFCS of further responsibility for a child adjudicated as a dependent child except for any provision of services ordered by the court to ensure the continuation of reunification services to such child's family when appropriate.

~~(g)~~(h) A placement change shall not include a temporary absence from the child's identified and ongoing foster care placement, including, but not limited to, visitation with a friend, sibling, relative, or other caretaker, including a pre-placement visit to a possible foster or adoptive placement; hospitalization for medical, acute psychiatric episodes or diagnosis; respite care when the child is expected to return to his or her foster care placement; day or overnight camp; temporary travel with the foster family or child care institution personnel, church, school, or other persons or groups approved by DFCS; trial home visits with the court's permission, if required by subsection (b) of Code Section 15-11-212; and runaway episodes."

SECTION 4.

Code Section 15-11-321 of the Official Code of Georgia Annotated, relating to custody of child following termination proceedings or surrender of parental rights, is amended by revising subsection (a) as follows:

"(a) When a court enters an order terminating the parental rights of a parent or accepts a parent's voluntary surrender of parental rights, or a petition for termination of parental rights is withdrawn because a parent has executed an act of surrender in favor of the department, a placement may be made only if the court finds that such placement is in the best interests of the child and in accordance with such child's court approved permanency plan created pursuant to Code Sections 15-11-231 and 15-11-232. ~~In determining which placement is in a child's best interests, the court shall initially attempt to place the child with an adult who is a relative or fictive kin, if such individual is willing and found by the court to be qualified to receive and care for such child.~~ In determining which placement is in a child's best interests, the court shall enter findings of fact reflecting its consideration of the following:

- (1) Such child's need for a placement that offers the greatest degree of legal permanence and security;
- (2) The least disruptive placement for such child;
- (3) Such child's sense of attachment and need for continuity of relationships;
- (4) The value of biological and familial connections; and
- (5) Any other factors the court deems relevant to its determination."

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

This Act shall be known and may be cited as "Georgia's Hope Act."

SECTION 2.

(a) The General Assembly finds that the establishment of the Low THC Oil Patient Registry in 2015 allows Georgia patients to possess low THC oil but provides no way to access low THC oil. The General Assembly finds that thousands of Georgians have serious medical conditions that can be improved by the medically approved use of cannabis and that the law should not stand between them and treatment necessary for life and health. The General Assembly finds that the purpose of this Act is to allow the legitimate use of medical cannabis for health care, including palliative care. The General Assembly finds that this Act does not in any way diminish this state's strong public policy and laws against illegal drug use, nor should it be deemed in any manner to advocate, authorize, promote, or legally or socially accept the use of marijuana for children or adults for any nonmedical use.

(b) The General Assembly further finds that:

- (1) Low THC oil can offer significant medical benefits to patients;
- (2) Low THC oil can only be derived from the cannabis plant;

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 8 of Title 48 of the Official Code of Georgia Annotated, relating to sales and use tax, so as to revise the definition of dealer; to require the collection and remittance of sales tax by certain persons that facilitate certain retail sales; to define marketplace facilitators and marketplace sellers; to exempt transportation and completed or cancelled journeys from sales and use taxes; to prohibit certain class action suits; to provide for related matters; to provide for an effective date and applicability; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 8 of Title 48 of the Official Code of Georgia Annotated, relating to sales and use tax, is amended in Code Section 48-8-2, relating to definitions, by adding a new subparagraph to paragraph (8) and by adding two new paragraphs to read as follows:

"(M.3) Acts as a marketplace facilitator to facilitate retail sales that are taxable under this chapter to be delivered, held for pickup, used, consumed, distributed, stored for use or consumption, or rendered as a service within this state, if the total value of the sales price of all such retail sales, combined across all its marketplace sellers and the marketplace facilitator itself, equals or exceeds \$100,000.00 in

aggregate in the previous or current calendar year;"

"(18.1) 'Marketplace facilitator' means a person that contracts with a seller in exchange for any form of consideration to make available or facilitate a retail sale that is taxable under this chapter on behalf of such seller by directly or through any agreement or arrangement with another person:

(A) Providing a service that makes available or facilitates such retail sale in any manner, including, but not limited to, promoting, marketing, advertising, taking orders or reservations for, providing the physical or electronic infrastructure that brings purchasers and marketplace sellers together for, or otherwise similarly assisting the seller in making such retail sale, or transmitting or otherwise similarly communicating the offer and acceptance between the marketplace seller and the purchaser for, or otherwise similarly assisting the seller for such retail sale, but excluding merely processing the payments for such retail sale; and

(B) Collecting, charging, processing, or otherwise similarly facilitating payment for such retail sale on behalf of the marketplace seller.

(18.2) 'Marketplace seller' means a person that conducts a retail sale through or facilitated by any physical or electronic marketplace or platform operated directly or indirectly by a marketplace facilitator, regardless of whether such marketplace seller is required to be registered with the department pursuant to Code Section 48-8-59."

SECTION 2.

Said chapter is further amended in Code Section 48-8-3, relating to exemptions from sales and use taxes, by revising paragraph (25) as follows:

"(25) ~~Reserved~~ Transportation or any completed journey that is provided by a limousine carrier, ride share driver, ride share network service, taxi service, transportation referral service, or transportation referral service provider as such terms are defined in Code Section 40-1-190, or any request for such journey for which a customer is charged, whether the journey is completed or not;"

SECTION 3.

Said chapter is further amended in Code Section 48-8-30, relating to imposition of tax, rates, and collection, by repealing and reserving subsection (c.2) of said Code section and by adding a new subsection to read as follows:

"(c.3)(1) A marketplace facilitator that meets the definition of a dealer provided in subparagraph (M.3) of paragraph (8) of Code Section 48-8-2 shall constitute the dealer and retailer for each retail sale taxable under this chapter at retail that it facilitates within or outside this state on behalf of a marketplace seller if such retail sale is sourced, as provided in Code Section 48-8-77, to a location within this state, unless the taxes levied or imposed by this chapter on such retail sales are paid by the marketplace seller or other retailer or dealer.

(2)(A) All taxes levied or imposed by this chapter on retail sales described in paragraph (1) of this subsection shall be paid by the purchaser to the marketplace facilitator that facilitates the retail sale on behalf of a marketplace seller.

(B) The marketplace facilitator shall remit such taxes to the commissioner as provided in this article and, when received by the commissioner, the taxes shall be credited against the taxes imposed on the retail sale.

(C) Each marketplace facilitator shall be liable for the full amount of taxes levied or imposed by this chapter on all retail sales described in paragraph (1) of this subsection or the amount of tax collected by such marketplace facilitator from all purchasers on all such retail sales, whichever is greater.

(3) For the purposes of this subsection, it shall be prima-facie evidence that a retail sale is sourced to a location within this state if it is to be held for pickup, used, consumed, distributed, stored for use or consumption, or rendered as a service within this state.

(4) No retail sale that is not taxable to the purchaser at retail shall be taxable to the marketplace facilitator. Taxes collected and remitted by a marketplace facilitator pursuant to this subsection shall be subject to the credit otherwise granted by this article for like taxes previously paid in another state. This subsection shall not be construed to require a duplication in the payment of any tax.

(5) A marketplace seller shall not be obligated to collect and remit or be liable for the taxes levied or imposed by this chapter on any retail sale for which its marketplace facilitator is obligated and liable.

(6) The department may bring an action for a declaratory judgment in any superior court against any person that meets the definition of a dealer as provided in subparagraph (M.3) of paragraph (8) of Code Section 48-8-2, in order to establish that the collection obligation and liability established by this subsection is applicable and valid under state and federal law with respect to such a dealer. If such action presents a question for judicial determination related to the constitutionality of the imposition of taxes upon such a dealer, the court shall, upon motion, enjoin the state from enforcing the collection obligation against such a dealer. The superior court shall act on such declaratory judgment action and issue a final decision in an expeditious manner.

(7) No class action may be brought against a marketplace facilitator in any court of this state on behalf of customers arising from or in any way related to an overpayment of sales or use tax collected on sales facilitated by the marketplace facilitator, regardless of whether that claim is characterized as a tax refund claim. Nothing in this subsection affects a customer's right to seek a refund.

(8) The department shall solely audit the marketplace facilitator for sales made by marketplace sellers but facilitated by the marketplace facilitator. The department will not audit marketplace sellers for sales facilitated by a marketplace facilitator except to the extent the marketplace facilitator seeks relief under paragraph (9) of this subsection.

(9) A marketplace facilitator shall be relieved of liability under subparagraph (C) of paragraph (2) of this subsection for failure to collect and remit sales and use tax on sales facilitated for marketplace sellers under the following circumstances and up to the amounts permitted under the following circumstances:

- (A) A marketplace facilitator is relieved of liability for failure to collect and remit the correct amount of tax to the extent that the marketplace facilitator demonstrates to the satisfaction of the department that the error was due to insufficient or incorrect information given to the marketplace facilitator by the marketplace seller; provided, however, that this paragraph shall not apply if the marketplace facilitator and the marketplace seller are related members as defined in Code Section 48-7-28.3. Where a marketplace facilitator is relieved of liability under this paragraph, the marketplace seller is solely liable for the amount of uncollected tax; and
- (B) A marketplace facilitator is relieved of liability to the extent that the marketplace facilitator demonstrates to the satisfaction of the department that:
- (i) The marketplace facilitator is not the seller and that the marketplace facilitator and the marketplace seller are not affiliates;
 - (ii) The sale was facilitated for a marketplace seller through a marketplace operated by the marketplace facilitator; and
 - (iii) The failure to collect sales and use tax was due to an error other than an error in sourcing the sale."

SECTION 4.

This Act shall become effective on January 1, 2020 and shall apply to all sales occurring on or after January 1, 2020.

SECTION 5.

All laws and parts of laws in conflict with this Act are repealed.

SUBJECT: Fiscal Note
House Bill 276 (LC 43 1176)

Dear Chairman Harrell:

The bill modifies the definition of a “dealer” for the purpose of responsibility of collecting Georgia sales and use taxes. These taxes must be collected by persons or businesses that facilitate or broker the sale of taxable property or services and have economic nexus in the state. Economic nexus is defined as facilitating the sale or more than \$100,000 of tax property or services in the previous or current calendar year. The law would apply to sales occurring on or after January 1, 2020.

Impact on Revenue

Georgia State University’s Fiscal Research Center (FRC) estimated that the bill would result in additional state revenue of \$78.4 million and local revenue of \$64.5 million in FY 2021, the first full year of the bill’s effect (Table 1). The revenue gains would increase in subsequent years. The attached appendix details the analysis.

Table 1. Estimated State and Local Revenue Effects

(\$ millions)	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024
State Revenue	\$38.4	\$78.4	\$81.1	\$83.7	\$86.5
Local Revenue	\$28.2	\$64.5	\$66.8	\$68.9	\$71.2

Impact on State Expenditures

The Department of Revenue (DOR) would require approximately \$1.0 million for ten additional staff. This includes six additional compliance revenue agents (\$463,245), two additional out-of-state auditors (\$281,896), one additional tax attorney (\$178,073), and one audit tax examiner III (\$87,800). These estimates do not include costs to implement HB 61 (2018 Session). The agency has requested funding in FY 2020 for HB 61.

Sincerely,

/s/ Greg S. Griffin

Analysis by Fiscal Research Center

Three significant categories of businesses have been identified as ones affected by the proposed bill, including ride-sharing networks like Uber and Lyft, lodging network services like Airbnb or HomeAway/VRBO that facilitate short-term rentals of private homes, and tangible personal property auction sites like eBay. In addition, online

“marketplace” sites like Amazon Marketplace that facilitate sales of goods by third-party sellers would be required to collect and remit sales tax, assuming substantial nexus. However, due to lack of data on the amounts of sales through smaller auction and marketplace sites that are not already being taxed, potential revenue gains from auction and marketplace sites other than eBay are not estimated.

The estimates assume that sales taxes are not currently being collected on ride-sharing network or lodging network sales, or on most auction site sales, as explained in the discussion of eBay below. To the extent that any of these providers or sites are already collecting and remitting sales tax (other than as assumed in the case of eBay), or their customers are paying use tax on their purchases, the bill will have a smaller revenue effect.

Ride Sharing

The following summarizes the facts and assumptions used in the ride sharing revenue estimates:

- State and local sales tax is applied to the gross payment for service.
- Because data on gross payment for services provided only in Georgia was not available, we estimate the tax base as follows:
 - According to reporting from CNBC and other news outlets, Uber gross bookings were \$11.3 billion globally in Q1 2018 and \$12 billion in Q2 2018.
 - These Q1 and Q2 2018 figures were added together and then doubled to represent a full year of bookings (though bookings likely have grown in the latter two quarters of the year versus the year earlier periods, insufficient data are available to determine whether there is any seasonality in bookings; this approach is less likely to overestimate revenues). The same source estimated 900,000 of Uber’s 3 million worldwide drivers are in the U.S., suggesting approximately 30% of total revenue was likely earned on U.S. rides.
 - This figure is then adjusted further to account for the operations of other ridesharing services, such as Lyft. Uber is estimated to have about a 71 percent market share as of 2018, according to reporting from CNBC.
 - Grossing up for other providers produces an estimated U.S. tax base of \$18 billion for 2018.
 - To determine the amount that is associated with Georgia services, we multiply the figure of \$18 billion by 1.50 percent, which represents Georgia’s share of the national employment in the taxi and limousine service industry based on data from the Quarterly Census of Employment and Wages for 2017. This results in an estimated sales tax base of \$271 million for Georgia in 2018.
- According to market research firm eMarketer, U.S. adult users of Uber grew by

about 17.4 percent annually from 2016 to 2018, but growth is expected to decelerate over the subsequent years. The estimates assume, based on eMarketer's forecast, annual growth rates for Uber of 11 percent for 2019, trending down to 3.0 percent for years 2023-24. The same article also projected Uber and Lyft's U.S. market shares for the same period. By combining the users and market share projections for Uber, approximate Lyft growth rates were also estimated, trending from approximately 20 percent in 2019 to 5.0 percent in 2023-24. Note that these growth rates are based on numbers of users. Though data are insufficient to estimate this, it is also possible that rides purchased by the average user may grow over the periods of the projections, resulting in faster growth of gross bookings and greater revenue than is shown in Table 2.

- For all estimates, the state and average local (3.29 percent) sales tax rate is applied to the forecasted sales tax base, and the estimated revenue is adjusted to reflect the timing of receipts based on the state fiscal calendar.

Table 2. Estimated State and Local Sales Tax Revenue from Ride-Sharing Services

(\$ millions)	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024
State Revenue Gain	\$6.9	\$14.3	\$15.1	\$15.7	\$16.3
Local Revenue Gain	\$6.6	\$11.8	\$12.5	\$13.0	\$13.4

Lodging Network Services

The following summarizes the facts and assumptions used in the lodging network revenue estimates:

- Based on listing information from Airdna.com, an Airbnb data analytics service, Airbnb's available rooms and nights in Georgia's major cities are estimated to be about 14.8 thousand units and 1.9 million available room-nights annually as of 2018.
- Based on data also from Airdna, the average occupancy rate for Airbnb listings in major Georgia cities is estimated to be 46 percent and the average price paid for these rooms is \$170 per night in 2018. The average price of a night is expected to grow with inflation, two percent annually.
- As part of their preparation for a possible initial public offering, Airbnb released a report discussing its market share, among other financial and growth metrics. The number of Airbnb room-nights available, calculated above, was divided by this reported market share to estimate the approximate size of the overall alternative accommodations market in Georgia's major cities. If Airbnb's market share estimate was inflated, then total room-nights, rental spending, and taxes received would be higher than the estimates presented in Table 3.
- Research firm eMarketer estimates Airbnb's growth from 2015 to 2016 to have been about 44.4 percent in the U.S., but warns of significant regulatory, safety, and other challenges coming for the company and its industry. The same report projects year-over-year growth rates slowing dramatically to 2.4 percent between 2021 and 2022. These eMarketer forecasted growth rates were used to estimate

Airbnb's room-night rental sales through FY 2024, and its market share projections (from the report mentioned previously) were in turn used to estimate the total industry's rental sales.

State Revenue	\$7.7	\$16.0	\$16.5	\$17.2	\$18.0
Local Revenue	\$5.3	\$13.1	\$13.6	\$14.1	\$14.8

Auction Sites for Tangible Personal Property

The following summarizes the facts and assumptions used in the auction site revenue estimates:

- EBay is assumed to dominate the market for merchandise sold through an auction site that would be defined as a facilitator under the proposed legislation, and thus to account for substantially all the potential revenue gains from this market. To the extent there are similar sites that would reach the economic nexus threshold of \$100,000 of sales in Georgia, revenue effects could be larger.
- EBay reports U.S. marketplace sales of \$37.5 billion in gross merchandise value in 2018.
- This amount is shared down to Georgia based on Georgia's share of U.S. households with internet access (about 3 percent as of 2017, according to Census data), resulting in an estimated \$1.14 billion gross merchandise value sold to Georgia purchasers in 2018.
- According to instructions given to sellers by EBay, sellers are responsible for any state or local sales tax that may be due on their sales. However, insufficient data are available from which to estimate EBay marketplace sales on which Georgia taxes are already collected, thus it is assumed that 2.9 percent (Georgia's share of U.S. retail trade as of 2018) of sales to Georgia are made by Georgia sellers and are currently being taxed. This results in an estimate \$1.11 million in 2018 of potentially taxable merchandise sales on EBay that are not currently being taxed.
- EBay's growth has slowed considerably in recent years, and financial news reports suggest analysts expect continued slow growth. Based on these reports, the projections assume an average growth rate of 2.4 percent for all periods.

AN ACT

43-24A-2.

The General Assembly acknowledges that the practice of massage therapy ~~affects~~ is a therapeutic health care service delivered by health care professionals that affects the public health, safety, and welfare of Georgians. Massage is therapeutic, and regulations are necessary to protect the public from unqualified practitioners. It is in the interest of the public to set standards of

qualifications, education, training, and experience for those who seek to practice massage therapy; to promote high standards of professional performance for those licensed to practice massage therapy; and to protect the public from unprofessional conduct by persons and entities licensed to practice or teach massage therapy.

43-24A-3.

(B) Has a regular work week of 30 hours or more;

The taxpayer may treat the full value of the leased property as qualified investment property in the year in which the lease becomes binding on the lessor and the taxpayer.

(4) 'Qualified investment property requirement' means the requirement that a minimum of \$2.5 million in qualified investment property will have been purchased or acquired by the taxpayer to be used with respect to a qualified project. Such qualified investment property must be placed in service by the end of the two-year period specified in subsection (b) of this Code section.

~~(6)~~(7) 'Taxpayer' means any person required by law to file a return or to pay taxes, except that any taxpayer may elect to consider the jobs within its disregarded entities, as defined in the Internal Revenue Code, for purposes of calculating the number of new quality jobs created by the taxpayer under this Code section.

(b) A taxpayer establishing new quality jobs in this state or relocating quality jobs into this state, which elects not to receive the tax credits provided for by Code Sections 48-7-40, 48-7-40.1, 48-7-40.2, 48-7-40.3, 48-7-40.4, 48-7-40.7, 48-7-40.8, and 48-7-40.9 for such jobs and investments created by, arising from, related to, or connected in any way with the same project, that creates: ~~and, within one year of the first date on which the taxpayer pursuant to the provisions of Code Section 48-7-101 withholds wages for employees in this state and employs at least 50 persons in new quality jobs in this state, shall be allowed a credit for taxes imposed under this article; except that if the first date on which the taxpayer, pursuant to the provisions of Code Section 48-7-101, withholds wages for employees in this state occurs in a taxable year beginning on or after January 1, 2017, the taxpayer has two years to employ at least 50 persons in new quality jobs in this state:~~

(1) At least ten new quality jobs within a single rural county within one year of the first date on which the taxpayer withholds wages for employees in this state pursuant to the provisions of Code Section 48-7-101, provided that such county is designated as a tier 1 county by the commissioner of community affairs in accordance with Code Section 48-7-40;

(2) At least 25 new quality jobs within a single rural county within one year of the first date on which the taxpayer withholds wages for employees in this state pursuant to the provisions of Code Section 48-7-101, provided that such county is designated as a tier 2 county by the commissioner of community affairs in accordance with Code Section 48-7-40; or

(3) At least 50 new quality jobs in this state within two years of the first date on which the taxpayer pursuant to the provisions of Code Section 48-7-101 withholds wages for employees in this state

(b.1) The value of the credit allowed pursuant to this Code section shall be:

(5) Equal to \$5,000.00 annually per eligible new quality job where the job pays 200 percent or more of the average wage of the county in which the new quality job is located.;

~~provided, however, that where~~

(b.2)(1) If the amount of ~~such credit~~ the tax credit allowed pursuant to this Code section exceeds a taxpayer's liability for such taxes in a taxable year, the excess may be taken as a credit against such taxpayer's quarterly or monthly payment under Code Section 48-7-103 but shall not to exceed in any one taxable year the credit amounts in paragraphs (1) through (5) of subsection (b.1) of this subsection Code section for each new quality job when aggregated with the credit applied against taxes under this article. Each employee whose employer receives a credit against such taxpayer's quarterly or monthly payment under Code Section 48-7-103 shall receive a credit against his or her income tax liability under Code Section 48-7-20 for the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit provided for in this subsection Code section. Credits against quarterly or monthly payments under Code Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this subsection shall not constitute income to the taxpayer.

(2)(A) For each new quality job created, the credit ~~established by this subsection~~ allowed pursuant to this Code section may be taken for the first taxable year in which the new quality job is created and for the four immediately succeeding taxable years; provided, however, that such new quality jobs must be created within seven years from the close of the taxable year in which the taxpayer first becomes eligible for such credit.

(B) A credit ~~Credit~~ shall not be allowed during a year if the net employment increase falls below the 50 number of new quality jobs required by subsection (b) of this Code section. Any credit received for years prior to the year in which the net employment increase falls below the 50 number of new quality jobs required by subsection (b) of this Code section shall not be affected except as provided in subsection (g) of this Code section. The state revenue commissioner shall adjust the credit allowed each year for net new employment fluctuations above the 50 number of new quality jobs required by subsection (b) of this Code section.

(c) Only a taxpayer that completes the creation of a qualified project in a taxable year beginning on or after January 1, 2017, shall be eligible to begin a subsequent seven-year job creation period for the qualified project, provided that the taxpayer creates 50 or more new quality jobs, at the site or sites of a qualified project or the facility or facilities resulting therefrom, above its single previous high yearly average number of new quality jobs during any prior seven-year job creation period. A subsequent seven-year job creation period is subject to all the requirements of this Code section. A

taxpayer must notify the commissioner of ~~their~~ its intent to begin a subsequent seven-year job creation period. The commissioner shall provide by regulation the time in which such notification shall occur. New quality jobs generated under previous seven-year job creation periods shall continue to be eligible for the credit as provided by this Code section. No new quality jobs may be generated under previous periods of eligibility after a subsequent period of eligibility has begun. New quality jobs created in a subsequent seven-year job creation period shall not be counted as additional new quality jobs under a previous seven-year job creation period; instead those new quality jobs shall count toward the subsequent period. For purposes of determining the number of new quality jobs in a particular year that are attributable to each seven-year job creation period, the taxpayer shall begin with the first seven-year job creation period and then attribute the remainder to each subsequent seven-year job creation period from the oldest to the newest. Such attributions shall be made up to the single high yearly average number of new quality jobs for each seven-year job creation period. A taxpayer may create more than one subsequent seven-year job creation period. If at the time a taxpayer begins a subsequent seven-year job creation period, the taxpayer had a year or years in the prior seven-year job creation period where the number of new quality jobs ~~were~~ was below the single high yearly average number of new quality jobs, the taxpayer shall be allowed to make an irrevocable election to use the average number of new quality jobs for the completed years in the prior seven-year job creation period instead of the single high yearly average number of new quality jobs for all purposes of this subsection. If such election is made, the number of new quality jobs in the years subsequent to the completed years for the prior seven-year job creation period shall be deemed to not exceed the average number of new quality jobs for the completed years in the prior seven-year job creation period. New quality jobs over such average number shall be attributed to the subsequent seven-year job creation period as provided in this subsection.

(d) The number of new quality jobs to which this Code section shall be applicable shall be determined by comparing the monthly average of new quality jobs subject to Georgia income tax withholding for the taxable year with the corresponding average for the prior taxable year.

(e) Any credit claimed under this Code section but not used in any taxable year may be carried forward for ten years from the close of the taxable year in which the new quality jobs were established.

(f) Notwithstanding Code Section 48-2-35, any tax credit claimed under this Code section shall be claimed within one year of the earlier of the date the original return was filed or the date such return was due as prescribed in subsection (a) of Code Section 48-7-56, including any approved extensions.

(g) Taxpayers that initially claimed the credit under this Code section for any taxable year beginning before January 1, ~~2012~~ 2020, shall be governed, for purposes of all such credits claimed as well as any credits claimed in subsequent taxable years related to such initial claim, by this Code section as it was in effect for the taxable year in which the taxpayer made such initial claim.

(h) The state revenue commissioner shall promulgate any rules and regulations necessary to implement and administer this Code section."

(b) In the case of a taxpayer which has operated for the immediately preceding three years an existing manufacturing or telecommunications facility or a manufacturing or telecommunications support facility in this state in a tier 1 county designated pursuant to Code Section 48-7-40, there shall be allowed a credit against the tax imposed under this article in an amount equal to 5 percent of the cost of all qualified investment property purchased or acquired by the taxpayer in such year, subject to the conditions and limitations set forth in this Code section. In the event such qualified investment property purchased or acquired by the taxpayer in such year consists of recycling machinery or equipment, a recycling manufacturing facility, pollution control or prevention machinery or equipment, a pollution control or prevention facility, or the conversion from defense to domestic production, the amount of such credit shall be equal to 8 percent.

(c) The credit granted under subsection (b) of this Code section shall be subject to the following conditions and limitations:

(1) In order to qualify as a basis for the credit, the investment in qualified investment property must occur no sooner than January 1, 1995. (I) First be applied to such taxpayer's state income tax liability which is attributable to income derived from operations in this state for that taxable year, limited to 50 percent of such liability before application of such credit; and

The taxpayer may treat the full value of the leased property as qualified investment property in the taxable year in which the lease becomes binding on the lessor and the taxpayer if all other conditions of this subsection have been met; and

(5) The utilization of the credit granted in subsection (b) of this Code section shall have no effect on the taxpayer's ability to claim depreciation for tax purposes on the assets acquired by the taxpayer, nor shall the credit have any effect on the taxpayer's basis in such assets for the purpose of depreciation."

expended;

(2) In the case of a married couple filing a joint return, the actual amount expended;
or

(3) In the case of an individual who is a member of a limited liability company duly formed under state law, a shareholder of a Subchapter 'S' corporation, or a partner in a partnership, the amount expended; provided, however, that tax credits pursuant to this paragraph shall be allowed only for the portion of the income on which such tax was actually paid by such individual.

(b.1) From January 1 to June 30 each taxable year, an individual taxpayer shall be limited in its qualified rural hospital organization expenses allowable for credit under this Code section, and the commissioner shall not approve qualified rural hospital organization expenses incurred from January 1 to June 30 each taxable year, which exceed the following limits:

(1) In the case of a single individual or a head of household, \$5,000.00;

(2) In the case of a married couple filing a joint return, \$10,000.00; or

(3) In the case of an individual who is a member of a limited liability company duly formed under state law, a shareholder of a Subchapter 'S' corporation, or a partner in a partnership, \$10,000.00.

(c) A corporation or other entity shall be allowed a credit against the tax imposed by this chapter for qualified rural hospital organization expenses in an amount not to exceed the actual amount expended or 75 percent of the corporation's income tax liability, whichever is less.

(d) In no event shall the total amount of the tax credit under this Code section for a taxable year exceed the taxpayer's income tax liability. Any unused tax credit shall be allowed the taxpayer against the succeeding five years' tax liability. No such credit shall be allowed the taxpayer against prior years' tax liability.

(e)(1) In no event shall the aggregate amount of tax credits allowed under this Code section exceed \$60 million per taxable year.

(2)(A) No more than \$4 million of the aggregate limit established by paragraph (1) of this subsection shall be contributed to any individual rural hospital organization in any taxable year. From January 1 to June 30 each taxable year, the commissioner shall only preapprove contributions submitted by individual taxpayers in an amount not to exceed \$2 million, and from corporate donors in an amount not to exceed \$2 million. From July 1 to December 31 each taxable year, subject to the aggregate limit in paragraph (1) of this subsection and the individual rural hospital organization limit in this paragraph, the commissioner shall approve contributions submitted by individual taxpayers and corporations or other entities.

(B) In the event an individual or corporate donor desires to make a contribution to an individual rural hospital organization that has received the maximum amount of contributions for that taxable year, the Department of Community Health shall provide the individual or corporate donor with a list, ranked in order of financial need, as determined by the Department of Community Health, of rural hospital organizations still eligible to receive contributions for the taxable year.

(C) In the event that an individual or corporate donor desires to make a contribution to an unspecified or undesignated rural hospital organization, either directly to the department or through a third party that participates in soliciting, administering, or managing donations, such donation shall be attributed to the rural hospital organization ranked with the highest financial need that has not yet received the maximum amount of contributions for that taxable year, regardless of whether a third party has a contractual relationship or agreement with such rural hospital organization.

Before making a contribution to a rural hospital organization, the taxpayer shall electronically notify the department, in a manner specified by the department, of the total amount of contribution that the taxpayer intends to make to the rural hospital organization. The commissioner shall preapprove or deny the requested amount within 30 days after receiving the request from the taxpayer and shall provide written notice to the taxpayer and rural hospital organization of such preapproval or denial which shall not require any signed release or notarized approval by the taxpayer. In order to receive a tax credit under this Code section, the taxpayer shall make the contribution to the rural hospital organization within 60 days after receiving notice from the department that the requested amount was preapproved. If the taxpayer does not comply with this paragraph, the commissioner shall not include this preapproved contribution amount when calculating the limits prescribed in paragraphs (1) and (2) of this subsection.

(4)(A) Preapproval of contributions by the commissioner shall be based solely on the availability of tax credits subject to the aggregate total limit established under paragraph (1) of this subsection and the individual rural hospital organization limit established under paragraph (2) of this subsection.

(B) Any taxpayer preapproved by the department pursuant to subsection (e) of this Code section shall retain their approval in the event the credit percentage in subsection (b) of this Code section is modified for the year in which the taxpayer was preapproved.

(C) Upon the rural hospital organization's confirmation of receipt of donations that have been preapproved by the department, any taxpayer preapproved by the department pursuant to subsection (c) of this Code section shall receive the full benefit of the income tax credit established by this Code section even though the rural hospital organization to which the taxpayer made a donation does not properly

comply with the reports or filings required by this Code section.

- (5) Notwithstanding any laws to the contrary, the department shall not take any adverse action against donors to rural hospital organizations if the commissioner preapproved a donation for a tax credit prior to the date the rural hospital organization is removed from the Department of Community Health list pursuant to Code Section 31-8-9.1, and all such donations shall remain as preapproved tax credits subject only to the donor's compliance with paragraph (3) of this subsection.
- (f) In order for the taxpayer to claim the tax credit under this Code section, a letter of confirmation of donation issued by the rural hospital organization to which the contribution was made shall be attached to the taxpayer's tax return. However, in the event the taxpayer files an electronic return, such confirmation shall only be required to be electronically attached to the return if the Internal Revenue Service allows such attachments when the return is transmitted to the department. In the event the taxpayer files an electronic return and such confirmation is not attached because the Internal Revenue Service does not, at the time of such electronic filing, allow electronic attachments to the Georgia return, such confirmation shall be maintained by the taxpayer and made available upon request by the commissioner. The letter of confirmation of donation shall contain the taxpayer's name, address, tax identification number, the amount of the contribution, the date of the contribution, and the amount of the credit.
- (g) No credit shall be allowed under this Code section with respect to any amount deducted from taxable net income by the taxpayer as a charitable contribution to a bona fide charitable organization qualified under Section 501(c)(3) of the Internal Revenue Code.
- (h) The commissioner shall be authorized to promulgate any rules and regulations necessary to implement and administer the provisions of this Code section.
- (i) The department shall post the following information in a prominent location on its website:

33-20E-4.

(a) An insurer shall provide to a covered person:

(1) Information that a covered person may obtain a referral to a health care provider outside of the insurer's network or panel when the insurer does not have a health care provider who is geographically accessible to the covered person and who has appropriate training and experience in the network or panel to meet the particular health care needs of the covered person and the procedure by which the covered person can obtain such referral;

(2) Notice that the covered person shall have direct access to primary and preventive obstetric and gynecologic services, including annual examinations, care resulting from such annual examinations, and treatment of acute gynecologic conditions, or for any care related to a pregnancy, from a qualified provider of such services of her choice from within the plan;

(D) Notice that the patient may be responsible for the balance of the nonparticipating provider's fee if the rate paid by the plan is below the provider's usual and customary amount;

(7) Information in writing and through an Internet website that reasonably permits a covered person or prospective covered person to estimate the anticipated out-of-pocket costs for out-of-network health care services in a geographical area or ZIP Code based upon the difference between the amount that the insurer will reimburse for out-of-network health care services, the patient's MBS, and the usual and customary cost for out-of-network health care services;

(8) The written application procedures and minimum qualification requirements for health care providers to be considered by the insurer; and

(9) Other information as required by the Commissioner.

(b) An insurer shall furnish an explanation of benefits to a nonparticipating provider within 30 days of receiving a bill from the covered person or directly from the nonparticipating provider. (e) Where an insurer fails to adequately and correctly keep its directory pursuant to Code Section 33-20C-2 and such failure results in the unanticipated provision of out-of-network services, the insurer shall compensate the provider at the provider's usual and customary cost or MBS, whichever is less.

(f) Where a delay in the credentialing of a provider causes the service to be deemed out-of-network, the insurer shall compensate the provider at the provider's full rate at no expense to the patient.

33-20E-5.

(a) Notwithstanding any provision of law to the contrary, an insurer that provides any benefits to covered persons with respect to emergency medical services shall pay for

such emergency medical services:

- (1) Without the need for any prior authorization determination and without any retrospective payment denial for services rendered; and
 - (2) Regardless of whether the health care provider furnishing emergency medical services is a participating provider with respect to emergency medical services.
- (b) In the event a covered person receives emergency medical services by a nonparticipating provider or hospital, the nonparticipating provider or hospital shall bill the insurer directly and the insurer shall directly pay the nonparticipating provider or hospital as coded for the emergency medical services rendered to the covered person in accordance with Code Section 33-24-59.14 the lesser of:
- (1) The nonparticipating provider or hospital's actual billed charges; or
 - (2) In the case of a health care provider, the minimum benefit standard.

- (d) Insurers shall not communicate or include in written form false, misleading, or confusing information in their explanation of benefits to patients or guarantors regarding usual and customary costs, balance billing, or mediation disputes between physicians and insurers.
- (e) For purposes of the covered person's financial responsibilities, the health benefit plan shall treat the health care services the covered person receives from a nonparticipating provider pursuant to this Code section as if the services were provided by a participating provider, including counting the covered person's cost sharing for such services toward the covered person's deductible and maximum out-of-pocket limit applicable to services obtained from participating providers under the health benefit plan.

33-20E-6.

No health benefit plan shall deny or restrict covered benefits from a participating provider to a covered person solely because the covered person obtained treatment from a nonparticipating provider. Notice of such protection shall be provided in writing to the covered person by the insurer.

33-20E-7.

- (a) A health benefit plan contract issued, amended, or renewed on or after July 1, 2020, shall provide that if a covered person receives emergency medical services from a nonparticipating provider, such covered person shall not be required to pay more than the same amount that the covered person would have to pay for the same emergency medical services received from a similar participating provider at a similar in-network facility. Such amount shall be referred to as the 'in-network cost-sharing amount.'
- (b) Neither a nonparticipating provider nor a participating provider shall bill or collect any amount from the covered person for emergency medical services subject to

subsection (a) of this Code section other than the patient's coinsurance, copayments, and deductibles, which is limited to the in-network cost-sharing amount.

33-20E-8.

(b) A violation of this chapter by a health care provider shall be subject to penalties as determined by the applicable licensing board regulating such health care provider.

33-20E-9.

(2) Patients shall submit accurate and complete health insurance information prior to initiating mediation;

(3) Where possible, mediation shall occur by teleconference;

(4) In determining appropriate payment, the Gould Standard shall be taken into account by the parties involved; and

(5) Costs not specific to any one party shall be shared evenly among all parties to the mediation.

(b) The department shall develop rules in accordance with the requirements of this Code section."

SECTION 4.

This Act shall become effective on July 1, 2019; provided, however, that Section 2 of this Act shall become effective January 1, 2020.

"ARTICLE 1A

40-11-11.

The article shall be known and may be cited as the 'Abandoned Motor Vehicle Act.'

40-11-12.

The intent of the General Assembly is to provide a comprehensive and streamlined process for businesses removing motor vehicles from public rights of way and private or public property to recover the costs associated with this work while balancing the rights of a motor vehicle owner, when a motor vehicle has been abandoned or unclaimed. Businesses removing motor vehicles from public rights of way and private property without the consent of an owner are regulated by the Department of Public Safety pursuant to Code Section 44-1-13 and, as such, the recoverable fees for these businesses are limited. When executed at the request of law enforcement, these businesses perform an essential public function of keeping highways in this state free from obstructions that could cause a threat to public health or safety or cause traffic congestion. As a result of licensure, these businesses often incur great costs in performing this service but are unable to recover the full amounts expended. The intent of the General Assembly is to allow such businesses to continue to remove abandoned vehicles at the request of law enforcement and private property owners, by providing a method for obtaining excess funds from the sale of abandoned and unclaimed vehicles and applying those funds as reimbursements for unrecovered expenses of such businesses, which will allow them to remain viable and to minimize any financial loss in performing this important public safety function.

40-11-13.

As used in this article, the term:

- (1) 'Day' means a business day unless otherwise stated and shall not include Saturdays, Sundays, and legal holidays recognized by the state.

(e) The receipt of a properly notarized form disclaiming ownership in a motor vehicle shall be filed with the action provided for in Code Section 40-11-19.1, but shall not be

deemed to relieve a towing and storage firm, repair facility, or salvage dealer of any obligation to any other owners of such vehicle under this article. Such form shall be evidence to be considered by the court in any action filed pursuant to Code Section 40-11-19.1.

(f) If at any time prior to filing a petition to foreclose a lien pursuant to Code Section 40-11-19.1, a repair facility receives a demand from an owner pursuant to subsection (b) of Code Section 40-3-54, such repair facility shall, within 30 days, institute foreclosure proceedings pursuant to such Code section or to Code Section 40-11-19.1. (b)(1) The party bringing such action shall send a copy of the oath or affirmation page of the filed petition to any person known to be an owner of the motor vehicle by certified mail or statutory overnight delivery, return receipt requested. The court shall accept electronic documentation as proof that such copy of the filed petition was sent and delivered in accordance with the requirements of this subsection. Included in such mailing shall be a copy of a standardized answer form provided by the Council of Magistrate Court Judges for such purpose. Such form shall require oath or affirmation of the respondent and shall include space to set forth:

(2) If notice required under Code Section 40-11-19 was satisfied by advertisement, or the signed proof of receipt of a copy of the petition required to be sent under paragraph (1) of this subsection has not been returned after ten days of such mailing or has been returned as unclaimed, the party filing the petition shall, within 60 days, place an advertisement in a newspaper of general circulation or the legal organ where such action has been filed. No such advertisement shall be required if the return receipt required as proof of delivery has been returned with a notation that the notice of the filing of the petition has been refused. Such notice shall run in the newspaper once a week for two consecutive weeks. Such notice shall include instructions for how an owner may obtain the standardized answer form described in this subsection and shall be deemed as notice to any and all persons having an interest in or right affected by such petition and from any sale of the motor vehicle resulting therefrom.

(3) If the identity of an owner which was previously not ascertained becomes known while an advertisement is run pursuant to paragraph (2) of this subsection, the party filing a petition to foreclose shall send a copy of the filed petition pursuant to the same requirements set forth in paragraph (1) of this subsection within ten days of obtaining such information.

(c) An owner may file an answer to the petition no later than ten days after receipt by using the standardized answer form provided. If service is made by advertisement pursuant to paragraph (2) of subsection (b) of this Code section, an owner may file an answer no later than ten days after the expiration of the required two-week advertisement.

(d) If no answer has been filed at the expiration of the period set forth in subsection (c) of this Code section, the towing and storage firm, repair facility, or salvage dealer may seek to foreclose the lien through a judgment as provided in Code Section 15-10-43 by making such request in writing and submitting to the court proof of service as set forth in subsection (b) of this Code section. Unless providentially hindered, it shall be the duty of the judge to decide all motions for judgment submitted pursuant to this subsection no later than 15 days from when such motion has been made. When a judgment is granted, the vehicle shall be considered abandoned and within five days the court shall issue an order for the disposition of the motor vehicle as provided for in Code Section 40-11-19.2. A certified copy of such order shall be issued by the clerk of court. If no answer has been filed but the court finds that a petition fails to comply with the requirements of this article, a petition may be refiled for such action once within six months of the issuance of denial of a judgment.

(e)(1) If an answer is returned to the court, a trial shall be held within ten days after receipt of such answer; provided, however, that such trial may be continued by the court for good cause shown by either party.

(2) At the trial, the court shall hear evidence of and determine whether the removal of

the vehicle was lawful, whether the lien amount is based upon recoverable fees as set forth in subsection (d) of Code Section 40-11-19, and whether notice to all owners was proper, and shall hear any other facts pertinent to the case to reach a decision on foreclosure of the lien. The court may hear evidence of and make a determination on whether storage fees should accrue after the filing date of the petition. Upon conclusion of the trial, the court shall issue a decision on whether to foreclose the lien for the recoverable fees set forth in subsection (d) of Code Section 40-11-19 and, if foreclosure is granted, the court shall order the disposition of the motor vehicle as provided for in Code Section 40-11-19.2. A fee of no more than \$14.00 may be charged for a certified copy of such order which shall be issued by the clerk of court.

40-11-19.2.

(A) Held at a place reasonably available to persons who might desire to attend and submit bids;

(B) At which those attending shall be given the opportunity to bid on a competitive basis; and

(C) Except as otherwise provided in Title 11 for advertising or dispensing with the advertising of public sales, of which notice is given by advertisement once a week for two weeks in the newspaper in which the sheriff's advertisements are published in the county where the sale is to be held, and which notice shall state the day and hour, between 9:00 A.M. and 5:00 P.M., and the place of sale and shall briefly identify the motor vehicle to be sold.

(2) Upon order of the court issued pursuant to Code Section 40-11-19.1, the towing and storage firm, repair facility, or salvage dealer shall be authorized to sell the motor vehicle to the highest and best bidder at public sale.

(b) After satisfaction of the lien, the towing and storage firm, repair facility, or salvage dealer selling such motor vehicle shall, not later than 15 days after the date of such sale, provide the Department of Revenue with a copy of the bill of sale as provided to the purchaser and turn the remaining proceeds of such sale, if any, over to the department to be treated as unclaimed property pursuant to Article 5 of Chapter 12 of Title 44, the 'Disposition of Unclaimed Property Act.' The towing and storage firm, repair facility, or salvage dealer selling such vehicle may deduct from such proceeds the cost incurred by the advertisement of the public sale, provided that such amount is no greater than \$120.00, and the cost incurred by the holding of the public sale, provided that the cost is no greater than \$200.00. Any deduction so made shall be evidenced by receipts or on a form prescribed by the Department of Revenue for such purpose through rule and regulation. Any person convicted of failing to comply with the requirements of this subsection shall be subject to a civil penalty as provided for in Article 5 of Chapter 12 of Title 44.

40-11-19.3.

The purchaser of a motor vehicle at a sale authorized in this article shall receive a

certified copy of the court order from the seller of the vehicle authorizing such sale. Any such purchaser may obtain a certificate of title to such motor vehicle by filing the required application, paying the required fees, and filing a certified copy of the order of the court with the Department of Revenue. The Department of Revenue shall then issue a certificate of title, which shall be free and clear of all liens and encumbrances.

Notwithstanding the foregoing, such a list shall not be required to include:

(A) A person to whom consumer data was provided, or the specific consumer data provided to such person, if the person was, at the time such consumer data was provided, a service provider, subcontractor, or consultant acting in the course of performance of services on behalf of or for the benefit of the franchisor, manufacturer, distributor, third party, or dealer, provided that the franchisor, manufacturer, distributor, third party, or dealer has entered into an agreement with such person requiring that such person comply with the safeguard requirements of applicable state and federal law, including, but not limited to, those established in the Gramm-Leach-Bliley Act, 15 U.S.C. 6801, et seq.; and

(B) A person to whom consumer data was provided, or the specific consumer data provided to such person, if the dealer has previously consented in writing to such person receiving such consumer data and the dealer has not withdrawn such consent in writing;

(4) May not require that a dealer grant the franchisor, manufacturer, distributor or a third party acting on behalf of a franchisor, manufacturer, or distributor direct or indirect access to such dealer's data management system to obtain consumer data. A franchisor, manufacturer, distributor, or a third party acting on behalf of a franchisor, manufacturer, or distributor must permit a dealer to furnish consumer data in a widely accepted file format, such as comma delimited, and through a third-party vendor selected by the dealer. However, a franchisor, manufacturer, or distributor, or a third party acting on behalf of a franchisor, manufacturer, or distributor may access or obtain consumer data directly from a dealer's data management system with the express consent of the dealer. The consent must be in the form of a written document that is separate from the parties' franchise agreement, is executed by the dealer, and may be withdrawn by the dealer upon 30 days' written notice to the franchisor, manufacturer, or distributor as applicable. For incentive programs beginning on or after July 1, 2019, such consent shall not be required as a condition to a motor vehicle dealer's participation in an incentive program unless such consent is necessary to obtain consumer data to implement the program; and

(5) Shall indemnify the dealer for any third-party claims asserted against or damages incurred by the dealer to the extent caused by access to, use of, or disclosure of consumer data in violation of this section by the franchisor, manufacturer, distributor or a third party to whom the franchisor, manufacturer or distributor has provided consumer data.

(b) Nothing contained in this Code section shall limit the ability of the franchisor, the manufacturer, or distributor, to require that the dealer provide, or use in accordance with the law, such customer information related solely to such manufacturer's or

distributor's own vehicle makes to the extent necessary to do any of the following:

- (1) Satisfy any safety or recall notice obligations or other legal notice obligations on the part of the manufacturer;
- (2) Complete the sale and delivery of a new motor vehicle to a customer;
- (3) Validate and pay customer or dealer incentives;
- (4) Submit to the franchisor, manufacturer, or distributor claims for any services supplied by the dealer for any claim for warranty parts or repairs;
- (5) Market analysis;
- (6) Evaluate sales and service customer satisfaction with the dealer, including surveys; or
- (7) Reasonable marketing purposes that benefit the dealer.

(c) In any cause of action against a franchisor, manufacturer, or distributor for a violation of this Code section, the party bringing the action shall have the burden of proof."

SECTION 3.

Said article is further amended in Code Section 10-1-641, relating to dealer's predelivery preparation, warranty service, and recall work obligations to be provided in writing, recovery of costs, and 'stop-sale' defined, by revising subparagraph (a)(1)(B) and subsection (c) as follows:

"(B) Shall, at the election of the dealer, reasonably compensate the dealer for parts and labor provided for such warranty service work as provided in paragraph (2) of this subsection;"

"(c) Subject to ~~subsection (e) of~~ Code Section 10-1-645, a franchisor, manufacturer, or distributor shall not ~~otherwise~~ recover its costs from dealers within this state, including a surcharge imposed on a dealer solely intended to recover the cost of reimbursing the dealer for parts and labor pursuant to this Code section, provided that a franchisor, manufacturer, or distributor shall not be prohibited from increasing prices for vehicles or parts in the normal course of business."

SECTION 4.

Said article is further amended by revising Code Section 10-1-645, relating to the uniform warranty reimbursement policy amongst dealers, as follows:

"10-1-645.

(a) Any ~~motor vehicle~~ manufacturer or franchisor and at least a majority of its dealers of the same line make may agree to a uniform warranty reimbursement agreement in an express written contract, ~~citing this Code section, upon a uniform warranty reimbursement policy used by contracting dealers to perform warranty repairs executed by a dealer principal or authorized designee of the dealer principal that specifically cites this Code section.~~ The policy agreement shall only involve either reimbursement for parts used in warranty repairs or the use of a uniform time standards manual, or both. Reimbursement for parts under the agreement shall be used instead of the dealers' prevailing retail ~~price~~ rate charged by that dealer for the same parts as defined in Code

Section ~~10-1-644~~ 10-1-641 to calculate compensation due from the franchisor for parts used in warranty repairs. This Code section does not authorize a franchisor and its dealers to establish a uniform hourly labor reimbursement.

(b) A manufacturer or franchisor that proposes a uniform reimbursement agreement must provide all of its line make dealers a minimum of 30 days to consider such proposal which shall be in writing and provided to the dealer principal or authorized designee of the dealer principal via certified mail or other trackable delivery method, including electronic transmission, to which a notice containing the following language in all capital letters shall be affixed:

GEORGIA LAW ALLOWS TWO ALTERNATIVE METHODS OF WARRANTY REIMBURSEMENT:

1. DEALERS MAY SUBMIT A REQUEST TO RECEIVE RETAIL RATE PURSUANT TO O.C.G.A. SECTION 10-1-641; OR

2. A MAJORITY OF LINE MAKE DEALERS MAY AGREE TO A UNIFORM WARRANTY REIMBURSEMENT AGREEMENT, AS PROPOSED WITH THIS NOTICE.

IN THE EVENT A MAJORITY OF THE SAME LINE MAKE DEALERS AGREE TO THE ATTACHED UNIFORM WARRANTY REIMBURSEMENT AGREEMENT, DEALERS THAT OPT TO SEEK RETAIL RATE PURSUANT TO O.C.G.A. SECTION 10-1-641 MAY BE SUBJECT TO A COST RECOVERY SURCHARGE ON ALL NEW VEHICLE INVOICES.

~~(b)~~(c) Each franchisor shall only have one such agreement with each line make. Any such agreement shall:

(1) Establish a uniform parts reimbursement rate. The uniform parts reimbursement rate shall be ~~greater than~~ not less than the greater of the nationally established rate set forth in the franchisor's sales and service agreement or other warranty manual or policy or the franchisor's nationally established national average warranty parts reimbursement rate in effect at the time the first such agreement becomes effective;

(2) Apply to all warranty repair orders written during the period that the agreement is effective;

(3) Be available, during the period it is effective, to any ~~motor vehicle~~ dealer of the same line make at any time and on the same terms; and

(4) Be for a term not to exceed three years so long as any party to the agreement may terminate the agreement upon the annual anniversary of the agreement and with 30 days' prior written notice; however, the agreement shall remain in effect for the term of the agreement regardless of the number of dealers of the same line make that may terminate the agreement.

~~(e)~~(d)(1) As used in this subsection, the term 'costs' means the difference between the uniform reimbursement rate set forth in an agreement entered into pursuant to subsection ~~(b)~~ of this Code section and the ~~prevailing retail price charged by that dealer received by those dealers of the same line make~~ retail rate received by an individual dealer pursuant to Code Section 10-1-641.

(2) A manufacturer or franchisor that enters into a uniform warranty reimbursement

~~agreement as provided in this Code section may seek to recover its costs from only those dealers that are receiving their retail rate pursuant to Code Section 10-1-641. A franchisor that enters into an agreement with its dealers may seek to recover its costs from only those dealers that are receiving their prevailing retail price charged by that dealer under Code Section 10-1-644 as follows:~~

~~(A) The costs shall be recovered only by increasing the invoice price on new vehicles received by those dealers not a party to an agreement under this Code section; and~~

~~(B) Price increases imposed for the purpose of recovering costs under this Code section may vary from time to time and from model to model but shall apply uniformly to all dealers of the same line make in the State of Georgia that have requested reimbursement for warranty repairs at their prevailing retail price charged by that dealer, except that a franchisor may make an exception for vehicles that are titled in the name of a consumer in another state rate.~~

~~(d)(e) If a manufacturer or franchisor enters into a uniform reimbursement agreement with its dealers, the manufacturer or franchisor shall, within 60 days of entering into such agreement, certify under oath to the Department of Revenue that a majority of the dealers of that line make have entered into such an agreement and shall file a sample copy of the agreement, the required notice, a list of the line make dealers that have agreed to the uniform warranty reimbursement, and the date upon which such agreement was made. On an annual basis, the manufacturer shall certify under oath to the department that the parts warranty reimbursement in the agreement is no less than the greater of the franchisor's nationally established rate or the national average parts reimbursement rate and that the reimbursement costs it recovers under subsection (d) of this Code section do not exceed the amounts authorized by subsection (d) of this Code section. The manufacturer or franchisor shall maintain for a period of three years a file that contains the information upon which its certification is based. If a franchisor contracts with its dealers, the franchisor shall certify under oath to the Department of Revenue that a majority of the dealers of that line make did agree to such an agreement and file a sample copy of the agreement. On an annual basis, each dealer shall certify under oath to the department that the reimbursement costs it recovers under subparagraph (c)(2)(A) of this Code section do not exceed the amounts authorized by subparagraph (c)(2)(A) of this Code section. The franchisor shall maintain for a period of three years a file that contains the information upon which its certification is based.~~

~~(e)(f) If a manufacturer or franchisor and its dealers do not enter into an agreement pursuant to this Code section, and for any matter that is not the subject of an agreement, this Code section shall have no effect whatsoever.~~

~~(f)(g) For purposes of this Code section, a uniform time standard manual is a document created by a franchisor that establishes the time allowances for the diagnosis and performance of warranty work and service. The allowances shall be reasonable and adequate for the work and service to be performed. Each franchisor shall have a reasonable and fair process that allows a dealer to request a modification or adjustment of a standard or standards included in such a manual."~~

SECTION 5.

Said article is further amended in Code Section 10-1-651, relating to termination of franchise, grounds, notice, dealer costs reimbursed by franchisor, applicability to distributors, by revising subsection (c) as follows:

"(c) If the failure by the dealer, as ~~defined~~ described in subsection (b) of this Code section, relates to the performance of the dealer in sales or service, then ~~good cause shall be defined as in this Code section the term 'good cause' means~~ the failure of the dealer to comply with reasonable performance criteria established by the franchisor in light of existing circumstances, including, but not limited to, current and forecasted economic conditions, provided the following conditions are satisfied:

- (1) The dealer was notified by the franchisor in writing of such failure;
- (2) Said notification stated that notice was provided of failure of performance pursuant to this Code section; ~~and~~
- (3) The performance criteria established by the franchisor was:
 - (A) Reasonable, fair, and equitable;
 - (B) Based on accurate information;
 - (C) Inclusive of relevant and material local and regional data considered by the franchisor that was provided by the dealer that was beyond the control of the dealer and that adversely affected the dealer's performance; and
 - (D) Based on a statistically significant and valid random sample, if such performance criteria included a survey; and
- ~~(3)~~(4) The dealer was afforded a reasonable opportunity, for a period of not less than six months, to comply with such criteria."

SECTION 6.

Said article is further amended in Code Section 10-1-661, relating to the delivery of motor vehicles, modification of facilities, transfer of sales contracts, and warranties, by revising paragraphs (7) and (8) of subsection (b) and adding new paragraphs to read as follows:

- "(7) To acquire any line-make of motor vehicle or to give up, sell, or transfer any line-make of motor vehicle which has been acquired in accordance with this article once such dealer has notified the franchisor that it does not desire to acquire, give up, sell, or transfer such line-make or to retaliate or take any adverse action against a dealer based on such desire; ~~or~~
- (8) To construct, renovate, or maintain exclusive facilities, personnel, or showroom area dedicated to a particular line-make if the imposition of such a requirement would be unreasonable in light of the existing circumstances, including the franchisor's reasonable business considerations, present economic and market conditions, and forecasts for future economic and market conditions in the dealer's retail territory. The franchisor shall have the burden of proof to demonstrate that its demand for exclusivity is justified by reasonable business considerations and reasonable in light of the dealer's circumstances, but this provision shall not apply to a voluntary agreement when separate and adequate consideration was offered and accepted,

provided that the renewal of a franchise agreement shall not by itself constitute separate and adequate consideration. The franchisor shall have the burden of proof to show that the dealer has entered into a voluntary, noncoerced agreement regarding exclusivity;

(9)(A) To substantially change, alter, or remodel its dealership or to install new signs or other franchisor image elements that replace or substantially alter those improvements, signs, or franchisor image elements completed within the preceding ten years that were required and approved by the franchisor, factory branch, distributor, or distributor branch or one of its affiliates as part of a program, standard, or policy.

(B) If, during such ten-year period, the manufacturer revises or discontinues an existing program, standard, or policy or establishes a new program, standard, or policy or other benefit relating to construction or substantial alteration of a dealership, a motor vehicle dealer that completed construction or substantial alteration of a dealership as part of a prior program, standard, or policy and elects not to participate in the new or revised program, standard, or policy, shall not be entitled to bonus, incentive, benefit, or otherwise under the new or revised program but shall remain entitled to all benefits under the prior program, standard, or policy according to the terms of such prior program, standard, or policy. If the prior program, standard, or policy under which the dealer completed a construction or substantial alteration does not contain a specific time period during which the manufacturer or distributor must provide payments or benefits to a dealer, then the manufacturer or distributor may not deny the dealer payment or benefits under the terms of that prior program, as it existed when the dealer began to perform under the prior program, for the balance of the ten-year term, regardless of whether the manufacturer's or distributor's program, standard, or policy has been revised or discontinued.

(C) The provisions of this paragraph shall not prohibit a franchisor from:

(i) Continuing any facility improvement program in effect on July 1, 2019, with more than one franchised dealer in the state;

(ii) Providing lump sum or regularly scheduled payments to assist a franchised dealer in making a facility improvement, including construction, alteration or remodeling, or installing signage or a franchisor image element; or

(iii) Providing compensation or reimbursement to a franchised dealer on reasonable, written terms for a portion of such franchised dealer's costs of making a facility improvement, including construction; alteration or remodeling; the purchase of goods, building materials or services; or installing signage or a franchisor image element which are not paid on a per vehicle basis.

(D) Nothing in this paragraph shall be construed to permit a dealer to erect or maintain signs that do not conform to the manufacturer's intellectual property rights, trademarks, or trade dress usage guidelines.

(E) As used in this paragraph, the term 'to substantially change, alter, or remodel' means to make an alteration that has a major impact on the architectural features,

characteristics, or integrity of the structure or lot. Such term shall include the relocation or erection of freestanding signs, but shall not include routine maintenance, such as interior painting, reasonably necessary to keep a dealership facility in attractive condition;

(10)(A) To purchase goods or services to make improvements to the dealer's facilities from a vendor selected, identified, or designated by a manufacturer or one of its affiliates by program, incentive provision, or otherwise without making available to the dealer the option to obtain the goods or services of comparable grade, quality, and overall design, and the same or substantially the same materials and characteristics from a vendor chosen by the dealer and approved by the manufacturer; provided, however, that such approval by the manufacturer shall not be unreasonably withheld, and the dealer's option to select a vendor shall not be available if the manufacturer provides substantial reimbursement for the goods or services offered.

(B) If signs, other than signs containing the manufacturer's brand or logo or freestanding signs that are not directly attached to a building, or other franchisor image or design elements or trade dress are to be leased to the dealer by a vendor selected, identified, or designated by the manufacturer, such dealer has the right to purchase the signs or other franchisor image or design elements or trade dress of comparable grade, quality, and overall design, and the same or substantially the same materials and characteristics from a vendor selected by the dealer if such signs, franchisor image or design elements, or trade dress are approved by the manufacturer. Approval by the manufacturer shall not be unreasonably withheld.

(C) Nothing in this paragraph shall be construed to allow a dealer or vendor to impair, infringe upon, or eliminate, directly or indirectly, the intellectual property rights of the manufacturer including, but not limited to, the manufacturer's intellectual property rights in any trademarks or trade dress, or other intellectual property interests owned or controlled by the manufacturer.

(D) As used in this paragraph, the term:

(i) 'Goods' shall not include movable displays, brochures, and promotional materials containing material subject to the intellectual property rights of a manufacturer, including copyright, trademark, or trade dress rights or any manufacturer's design or architectural review service.

(ii) 'Substantial reimbursement' means an amount equal to or greater than the cost savings that would result if the dealer were to utilize a vendor of the dealer's own selection instead of using the vendor identified by the manufacturer; or

(11) Whether by agreement, program, incentive, or otherwise, to sell, lease, offer to sell or lease, solicit, or advertise the sale or lease of new motor vehicles in a manner that violates a law or any properly promulgated rule or regulation of this state."

SECTION 7.

Said article is further amended in Code Section 10-1-662, relating to unlawful activities by franchisors, by revising paragraphs (13), (14), (18), and (19) of subsection (a) and by

adding new paragraphs to read as follows:

"(13) To conduct an audit, investigation, or inquiry of any dealer or dealership as to any activity, transaction, conduct, or other occurrence which took place ~~or as to any promotion or special event which ends~~ more than one year prior to such audit, investigation, or inquiry or to base any decision adverse to the dealer or dealership on any activity, transaction, conduct, or other occurrence which took place ~~or as to any promotion or special event which ends~~ more than one year prior to such decision or which took place any time more than one year prior to the period of time covered by such audit, investigation, or inquiry or to apply the results of an audit, investigation, or inquiry to any activity, transaction, conduct, or other occurrence which took place any time prior to the time covered by such audit, investigation, or inquiry more than one year prior to such audit, investigation, or inquiry. If the franchisor has reason to believe that fraudulent or intentionally false claims have been submitted, the franchisor may extend the audit, investigation, or inquiry period beyond the time periods provided in this paragraph; provided, however, that in no event shall the time period be extended beyond four years prior to such audit, investigation, or inquiry;

(14) To charge back to, deduct from, or reduce any account of a dealer or any amount of money owed to a dealer by a franchisor ~~any amount of money the franchisor alleges is owed to such franchisor by such dealer as a result of an audit, investigation, or inquiry of such dealer or based upon information obtained by the franchisor through other resources which relates to any transaction that occurred more than 12 months~~ one year prior to notice to the dealer of the charge back or deduction, but rather if a franchisor alleges that a dealer owes such franchisor any amount of money as a result of an audit, investigation, or inquiry, such franchisor shall send a notice to such dealer for such amount and the dealer shall have not less than 30 days to contest such amount or remit payment and only if the franchisor can show by a preponderance of evidence that the transaction was fraudulent, intentionally and materially false, not reasonably substantiated, or did not follow the franchisor's written repair or claim submission requirements. A franchisor shall not charge back to, deduct from, or reduce any account of a dealer or any amount owed to a dealer based solely on such dealer's clerical error that does not put into question the legitimacy of the claim. If a claim is rejected for a clerical error, then the dealer may resubmit a corrected claim within 30 days. If a franchisor alleges that a dealer owes such franchisor any amount of money as a result of an audit, investigation, or inquiry, such franchisor shall send a notice to such dealer for such amount and the dealer shall have not less than 30 days to contest such amount or remit payment. If the dealer contests such amount, the charge shall be stayed pending a final resolution as provided in this Code section. Upon the dealer contesting the charge, the parties shall attempt to resolve the dispute through an internal dispute resolution procedure of the franchisor, if available, provided that such procedure occurs within a reasonable amount of time. If the internal dispute resolution procedure is unavailable, unsuccessful, or does not occur in a timely manner, such dealer may file a petition with the commissioner not later than 60 days after receipt of such notice from the

franchisor or not later than 30 days after conclusion of the internal dispute resolution procedure, whichever is later. If such a petition is filed, the commissioner shall inform the franchisor, manufacturer, or distributor that a timely petition has been filed and that a hearing shall be held on such issue. In any hearing held pursuant to this paragraph, the burden of proof shall be upon the franchisor to demonstrate by a preponderance of evidence the transaction was fraudulent, intentionally and materially false, not reasonably substantiated or did not follow the franchisor's written repair or claim submission requirements;"

"(18) To directly or indirectly condition a franchise agreement or renewal of a franchise agreement, addition of a line-make, approval of relocation, or approval of a sale or transfer on the dealer's or prospective dealer's willingness to enter into a site control agreement; provided, however, that this paragraph shall not apply to a voluntary agreement when separate and adequate consideration is paid to the dealer. The franchisor shall have the burden of proof to show the voluntary, noncoerced acceptance of the site control agreement by the dealer; or

(19) To charge back, withhold payment, deny vehicle allocation, or take other adverse action against a dealer when a new vehicle sold by the dealer has been exported to a foreign country unless the franchisor can demonstrate that the dealer knew or reasonably should have known that the customer intended to export or resell the new vehicle. There shall be a rebuttable presumption that the dealer had no such knowledge if the vehicle is titled or registered in any state in this country;

(20) To take any materially adverse action against a dealer, including a dealer's ability to participate in or receive a benefit or payment owed from any incentive or reimbursement program, based on criteria it has established, implemented, or enforced for measuring the performance, including, but not limited to, sales or service performance, of a dealer unless such criteria:

(A) Is fair, reasonable, and equitable; and

(B) Is based on accurate and relevant information; or

(21) To deny, delay payment for, restrict, or bill back a claim by a dealer for payment or reimbursement for incentives, hold-backs, sales or service promotion or other special program money, or any other amount owed to such dealer by the franchisor, if based solely on the dealer's compliance with a specific program requirement of the franchisor that would cause the dealer to violate a law or any properly promulgated rule or regulation of this state."

In the event the petition is found to be valid, it shall be the duty of the mayor to issue the call for an election to coincide with the next city election. Said election shall be governed by the provisions of Chapter 2 of Title 21 of the O.C.G.A., the "Georgia Election Code." The commission is further authorized to trade, exchange, lease, rent, and otherwise contract in its own name concerning any real or personal property that the city may now or hereafter own or have an interest in and which forms a part of the commission's utility system, provided that the commission satisfies any indebtedness thereon. All proceeds from any such sale shall be used solely for the benefit of the utility system, provided that the commission has satisfied any indebtedness thereon or purchased the same, as applicable, from commission proceeds. All such property acquired after July 1, 2019, shall be the property of the commission, but the commission shall have the right and responsibility to manage and operate any real or personal property that the city may now or hereafter own or have an interest in and which forms a part of the commission's utility system; provided, however, that nothing in this paragraph shall impair obligations or covenants entered into in respect of such property or revenues prior to the date of its enactment; and provided, further, that the terms of existing agreements permitting additional and future obligations to be issued or refinanced by the repledging of such property or revenues shall be unaffected by the terms of this Act.

Any such condemnation shall be done in cooperation with the city, and in case it shall become necessary to condemn any property under this section, or for any other public works, the proceedings shall be the same as provided for by the charter of the city, shall utilize the city's power to condemn if necessary, and the city may assist the commission in any such condemnation proceedings, as necessary. The commission shall have power to enforce compliance therewith by suitable penalties as may be necessary for the protection of the utility system, and for the securing the purity and healthfulness of the water supply, and shall have full power and authority to abate, or cause to be abated, and remove through its proper officers anything that may hinder, retard, or impair the usefulness of any utilities under its jurisdiction. The commission shall have full power and authority to make rules and regulations respecting the introduction of utilities into or upon any premises, and from time to time regulate the use thereof in such manner as the commission shall seem necessary and proper, and the officials representing the commission and in its service are hereby authorized and empowered to enter at all reasonable hours any dwelling or other place where any or all of said utilities are taken and used, and where unnecessary waste thereof is known or suspected, and examine and enquire into the cause thereof. They shall have full power to examine all surface pipes, stopcocks, or other apparatus or appliance connected with any such utilities for the purpose of ascertaining whether the same are of the character and

fixed and used in the manner directed in permits issued therefor; and if any person refuses to permit such examination, or opposes or obstructs such officer in the performance of said duties, the person so offending shall be liable to such penalty as the commission may provide; and the utility connection, any or all of them, when necessary to meet the exigencies of the case, may be shut off until the required examination is made and such alterations and repairs are completed as may be necessary and directed by the commission.

(h) The commission is authorized to lay or construct gas mains and gas distribution systems both within and without the corporate limits of the city under applicable service delivery agreements, and to issue gas revenue-anticipation certificates for such purpose in accordance with law, and any certificates heretofore issued by the city or commission for such purpose are hereby ratified and affirmed. The city, acting by and through the commission, shall have the right, power, and authority to exercise police powers over the entire gas system and shall have the right, power, and authority to make rules and regulations governing the operation, maintenance, extensions, and connections with any gas main within or without the corporate limits of the city and shall have the right, power, and authority to require all users of gas who connect with the gas mains within or without the corporate limits of the city to install proper meters and make connections in accordance with the rules and regulations provided therefor and shall further have the right, power, and authority to refuse to sell or furnish gas to any person, firm, corporation, or municipal corporation who fails or refuses to comply with such rules and regulations. Nothing contained herein shall be construed as granting to any person, firm, or private or municipal corporation the right to require said commission to furnish gas and the commission shall not be so required to do, if, in its discretion same is not deemed desirable or feasible.

(i) The commission shall have full power and authority to fix the price and regulate the terms covering the payment of same on all utility rents, fees, dues, or rates within the utility systems operated by it. In the event that any of said utilities are not operated by commission, then and in that event, the commission shall have the right to regulate the charges and to formulate rules and regulations for the installation and use of same, and exercise general supervision over the business thus carried on, and should any person, firm, or corporation refuse to comply with the lawful directives of the commission, then and in that event, said person, firm, or corporation shall be punished as for a misdemeanor in accordance with the city charter for each and every offense. All contracts and agreements between the city or the commission and any authorities, carriers, or providers, including without limitation contracts, agreements, or directions relating to the Municipal Electric Authority of Georgia, in effect on the effective date of this Act shall be unaffected by the terms hereof.

(j) The commission and the city shall have power and authority to enforce by execution the collection of any amount due or to become due to it for utility rents, fees, dues, or rates. Such execution shall be issued by the commission against the person, corporation, or firm by whom any such debt may be due, which execution may be levied by the marshal on the property of the owner against whom such execution shall issue, and the

same sold as provided for municipal sales for taxes.

(k) The commission is vested with the right and authority to set aside revenues realized from utility rents, fees, dues, or rates to be used, from time to time, for the construction, maintenance, and repair of any or all facilities which the commission may consider necessary or proper for the manufacture, sale, production, re-sale, and distribution of such utilities. Said funds may be invested or deposited as provided by law, pending the use of said funds as aforesaid. All contracts and agreements between the city or the commission and any authorities, carriers, or providers, including without limitation contracts, agreements, or directions relating to the Municipal Electric Authority of Georgia, in effect on the effective date of this Act shall be unaffected by the terms hereof. Nothing in this Act shall impair or otherwise interfere with the commission's rights to existing utility funds, including those funds held at or by the Municipal Electric Authority of Georgia.

(l) The city, with the approval of the commission, may use, expend, or invest revenue derived from the operation of utilities under the commission for any cause or purpose in promotion of the common welfare of the city or its citizens, and for this purpose may use the revenue derived from the operation of such utilities to supplement the funds available for the operations and maintenance of the public school system serving the residents of the city, and for such other purpose or purposes as the city and the commission may determine. Before any funds are used as aforesaid for promoting the common welfare of citizens of the city or to supplement funds available to the public school system, the city and the commission, by proper ordinance or resolution of each body, shall agree to such use and the amount to be so used in each instance from the utility rates collected by the commission. Notwithstanding the foregoing, and unless otherwise agreed to by the city and the commission, the commission shall annually pay to the city, in lieu of franchise fees, the greater of \$1.25 million or 6.0 percent of all revenue collected for charges for services for the year, to be paid in twelve monthly installments of \$104,165.00 on or before the 15th day of each month, with a final payment due, if required, within 90 days of the completion of the commission's comprehensive annual financial report for the subject year. This payment shall be known as a payment in lieu of franchise fees. The city may use such payment in lieu of franchise fees funds, once received from the commission, for any lawful purpose without the further consent of the commission. All contracts and agreements between the city or the commission and any authorities, carriers, or providers, including without limitation contracts, agreements, or directions relating to the Municipal Electric Authority of Georgia, in effect on the effective date of this Act shall be unaffected by the terms hereof.

(m) Neither the city nor the commission may, except as otherwise provided for in this Act, sell, lease, or otherwise dispose of any part of the utility system, or grant any franchise, privilege, or right to sell or distribute utilities or electric current to any user of such current in quantities of less than 100 horsepower, or grant any franchise to pump, store, or distribute water within or without the limits of the city unless and until not less than 75 percent of the qualified voters of the city vote in favor of such sale, lease, or other disposition of said facilities at an election called for that purpose by the mayor and city council of the city. A notice of such election shall be published in the official organ of

Peach County once a week for four weeks next preceding the election date, stating the time and place of the election and the purpose for which held.

(D) A person offering, soliciting, or negotiating travel insurance or travel protection plans on an individual or group basis shall not do so by using negative option or opt out that would require a consumer to take an affirmative action to deselect coverage such as unchecking a box on an electronic form when the consumer purchases a trip.

(E) It shall be considered an unfair trade practice to market blanket travel insurance coverage as being free.

(F) If a consumer's destination jurisdiction requires insurance coverage, it shall not be considered an unfair trade practice to require such consumer to choose between the following options as a condition of purchasing a trip or travel package:

(11)(A) Notwithstanding any provision of this title to the contrary, travel insurance shall be classified and filed for purposes of rates and forms as marine and transportation insurance; provided, however, that travel insurance that provides coverage for sickness, accident, disability, or death occurring during travel, either exclusively or in conjunction with related coverages of emergency evacuation or repatriation of remains, or incidental limited property and casualty benefits, such as baggage or trip cancellation, may be filed by an authorized insurer under either an accident and health line of insurance or as marine and transportation insurance.

(B) Travel insurance may be in the form of an individual, group, or blanket policy.

(C) Eligibility and underwriting standards for travel insurance may be developed and provided based on travel protection plans designed for individual or identified marketing or distribution channels, provided that those standards also meet the state's underwriting standards for marine and transportation insurance.

(12) The Commissioner shall be authorized to promulgate rules and regulations necessary to implement and administer the provisions of this subsection."

(e) After a judge has agreed to preside over the proceeding, the administrative judge who selected the judge to hear the matter shall enter an order in the superior court of the county in which the proceeding was filed appointing such judge, and such judge shall promptly begin presiding over such proceedings in such court and shall determine same as soon as practicable. Such judge shall be reimbursed for his or her actual expenses for food and lodging and shall receive the same mileage as any other state officials and employees. Senior judges shall be entitled to compensation and reimbursement as the law provides for senior judge service.

(f) The judge presiding over a proceeding filed under subsection (a) of this Code section may appoint a special master for the purpose of ascertaining and determining whether the electric membership corporation has failed to comply with Code Section 46-3-200.2 and making a recommendation to such judge. In the order appointing the

special master, the court shall give such directions for notice and the service thereof, as well as for the time in which any hearing must be held by the special master and recommendations issued, as are just and appropriate under the circumstances and as are consistent with this Code section. Any special master so appointed must be a competent attorney at law in good standing and have at least three years' experience in the practice of law.

- (1) Only serve the purposes of developing, providing, furnishing, or promoting broadband facilities and broadband services, or a combination of such purposes; and
- (2) Be subject to the provisions of Code Section 46-3-200.2.

46-3-200.5.

(a) As used in this Code section, the term:

- (1) 'Existing agreement' means a pole attachment agreement or joint use agreement in effect as of January 1, 2019.
- (2) 'New agreement' means a pole attachment agreement or joint use agreement that was not in effect as of January 1, 2019.

(b) Except as required by the Tennessee Valley Authority for its distributors in this state, a communications service provider that has an existing agreement with an electric membership corporation shall have the right, through December 31, 2034, to attach to poles of the electric membership corporation and its broadband affiliate after the expiration of the original period of such existing contract:

- (1) Upon terms and conditions that are no less favorable than those in such existing agreement; and
- (2) At rates that shall not exceed the rates in such existing agreement, subject to annual rate adjustments based on the Handy-Whitman Index of Public Utility Construction Costs, and based upon the Consumer Price Index in the event the Handy-Whitman Index of Public Utility Construction Costs is no longer available.

(c) Except as required by the Tennessee Valley Authority for its distributors in this state, any new agreement between an electric membership corporation and a communications service provider shall provide for attachments to poles of the electric membership corporation and its broadband affiliate:

- (A) Upon terms and conditions that are no less favorable than those in existing agreements; and
- (B) At rates that shall not exceed the highest of those rates in any existing agreement, subject to annual rate adjustments based on the Handy-Whitman Index of Public Utility Construction Costs, and based upon the Consumer Price Index in the event the Handy-Whitman Index of Public Utility Construction Costs is no longer available.

(d) An electric membership corporation that terminates, without cause, an existing agreement or new agreement with a communications service provider shall not be permitted to form or utilize a broadband affiliate for a period of one year from the date of the termination of any such agreement, if the number of poles with attachments under such terminated agreement constitutes one-half or more of all electric membership corporations' poles containing an attachment by a communications service provider."

SECTION 4.

Said chapter is further amended by adding a new Code section to read as follows:

"46-3-205.

(a) The General Assembly finds that persons providing broadband services should be permitted to use existing electric easements to provide or expand access to broadband services. The General Assembly also finds that utilizing existing electric easements to provide broadband services, without the placement of additional poles or other ground based structures, does not change the physical use of the easement, interfere with or impair any vested rights of the owner or occupier of the real property subject to the electric easement, or place any additional burden on the property interests of such owner or occupier. Consequently, the installation and operation of broadband services within any electric easement are merely changes in the manner or degree of the granted use as appropriate to accommodate a new technology and, absent any applicable express prohibition contained in the instrument conveying or granting the electric easement, shall be deemed as a matter of law to be a permitted use within the scope of every electric easement.

(b) Subject to compliance with any express prohibitions in an electric easement, a provider of broadband services or the owner of an electric easement may use an electric easement to install, maintain, lease, and operate broadband services without incurring liability to the owner or occupant of the real property subject to the electric easement or paying additional compensation to the owner or occupant of the real property subject to the electric easement, so long as no additional poles or other ground based structures are installed; provided, however, that any electric utility owning an electric easement may assess fees and charges and impose reasonable conditions on the use of its facilities within an electric easement for the purpose of providing or supporting broadband services."

SECTION 5.

This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 6.

All laws and parts of laws in conflict with this Act are repealed.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

PART I
SECTION 1-1.

Title 20 of the Official Code of Georgia Annotated, relating to education, is amended by revising Code Section 20-2-49, relating to standards for local board of education members, as follows:

"20-2-49.

The General Assembly finds that local boards of education play a critical role in setting the policies that lead to the operation and success of local school systems. School board members hold special roles as trustees of public funds, including local, state, and federal funds, while they focus on the singular objective of ensuring each student in the local school system receives a quality basic education. Board duties require specialized skills and training in the performance of vision setting, policy making, approving multimillion dollar budgets, financial management, and hiring a qualified superintendent. The motivation to serve as a member of a local board of education should be the improvement of schools and academic achievement of all students. Service on a local board of education is important citizen service. Given the specialized nature and unique role of membership on a local board of education, this elected office should be characterized and treated differently from other elected offices where the primary duty is independently to represent constituent views. Local board of education members should abide by a code of conduct and conflict of interest policy

modeled for their unique roles and responsibilities. And although there are many measures of the success of a local board of education, one is clearly essential: maintaining accreditation and the opportunities it allows the school system's students."

SECTION 1-2.

Said title is further amended by revising subsection (e) of Code Section 20-2-51, relating to election of local board of education members, persons ineligible to be members or superintendent, ineligibility for local boards of education, and ineligibility for other elective offices, as follows:

"(e) In addition to any other requirements provided by law, no person shall be eligible for election as a member of a local board of education unless he or she:

(1) Has read and understands the code of ethics and the conflict of interest provisions applicable to members of local boards of education and has agreed to abide by them; ~~and~~

(2) Has agreed to annually disclose compliance with the State Board of Education's policy on training for members of local boards of education, the code of ethics of the local board of education, and the conflict of interest provisions applicable to members of local boards of education; and

(3) Has completed all prior annual training requirements established by the local board of education and the State Board of Education pursuant to Code Section 20-2-230 if such person is eligible for reelection as a member of the local board of education.

Each person offering his or her candidacy for election as a member of a local board of education shall file an affidavit with the officer before whom such person has qualified for such election prior to or at the time of qualifying, which affidavit shall affirm that he or she meets all of the qualifications required pursuant to this subsection. This subsection shall apply only to local board of education members elected or appointed on or after July 1, 2010."

SECTION 1-3.

Said title is further amended by revising Code Section 20-2-58, relating to regular monthly meeting of local boards, adjournment, temporary presiding officer, and notice of date, as follows:

"20-2-58.

(a) It shall be the duty of each local board of education to hold a regular meeting during each calendar month for the transaction of business pertaining to the public schools and to review the financial status of the local school system. Any such meeting may be adjourned from time to time, and, in the absence of the president or secretary, the members of the local board may appoint one of their own number to serve temporarily. The local board shall annually determine the date of its meeting and shall publish it either in the official county organ or, at the option of the local board of education, in a newspaper having a general circulation in said county at least equal to that of the official county organ for two consecutive weeks following the setting of the

date; provided, however, that the date shall not be changed more often than once in 12 months and, if changed, the new date shall also be published as provided in this Code section.

(b) The State Board of Education shall create a template for local boards of education to use to review the financial status of their local school systems, which shall include, at a minimum, a statement of revenues, expenditures, and encumbrances."

SECTION 1-4.

Said title is further amended by revising Code Section 20-2-61, relating to fundamental roles of local boards of education and local school superintendents, as follows:

"20-2-61.

(a) The fundamental role of a local board of education shall be to establish policy for the local school system with the focus on student achievement. The fundamental role of a local school superintendent shall be to implement the policy established by the local board. It shall not be the role of the local board of education or individual members of such board to micromanage the superintendent in executing his or her duties, but it shall be the duty of the local board to hold the local school superintendent accountable in the performance of his or her duties; provided, however, that requesting and reviewing financial data and documents shall not constitute micromanaging. Local board of education members should work together with the entire local board of education and shall not have authority as independent elected officials but shall only be authorized to take official action as members of the board as a whole. Nothing in this subsection shall be construed to alter, limit, expand, or enlarge any powers, duties, or responsibilities of local boards of education, local board members, or local school superintendents.

(b) Except as may be allowed by law, no local board of education shall delegate or attempt to delegate its policy-making functions."

SECTION 1-5.

Said title is further amended by revising Code Section 20-2-67, relating to local school system or school subject to corrective action plan for budget deficit, financial operations form, publication, and mailing to Department of Education and local governing body, as follows:

"20-2-67.

(a) When an audit by the Department of Audits and Accounts finds and reports irregularities or budget deficits in the fund accounting information regarding a local school system or a school within the local school system, the Department of Audits and Accounts shall report the findings of irregularities or budget deficits to the State Board of Education and the local board of education. The Department of Audits and Accounts shall designate local school systems that have had reported irregularities or budget deficits for three or more consecutive years as high-risk local school systems and shall designate local school systems that have had reported irregularities or budget deficits for one year or two consecutive years as moderate-risk local school systems.

(b) The State Board of Education shall inform the superintendent of the local school system of the irregularities or budget deficits regarding a local school system's or a school's fund accounting information, including if a local school system has been designated as a high-risk local school system or moderate-risk local school system. The superintendent shall submit to the Department of Education a response to the findings and a corrective action plan approved by the local board of education at a board meeting within 120 days of receiving notice of designation as a high-risk local school system or moderate-risk local school system, as defined by rules and regulations adopted by the State Board of Education designed to correct the financial irregularities or budget deficits for the school or school system. From the time such irregularity or budget deficit is discovered until the time it is eliminated, the local school superintendent shall present to each member of the local board of education for his or her review and written acknowledgment a monthly report containing all anticipated expenditures by budget function for such school or school system during the current month. The report shall be presented to local board members on or before the tenth business day of each month. Each monthly report shall be signed by each member of that local board and recorded and retained in the minutes of the meeting of the local board of education.

(c) Not later than September 30 of the year, each local board of education shall cause to be published in the official county organ wherein the local school system is located once a week for two weeks a statement of actual financial operations for such schools or school system identified by the Department of Audits and Accounts as having financial irregularities. Such statement of actual financial operations shall be in a form to be specified and prescribed by the state auditor for the purpose of indicating the current financial status of the schools or school system. Prior to publication, such form shall be executed by the local board of education and signed by each member of said board and the local school superintendent.

(d) A copy of the actual financial operations form required to be published by subsection (c) of this Code section shall be mailed by each local board of education to the Department of Education and the local county board of commissioners or local municipal governing authority. A current copy of said form shall be maintained on file in the central administrative office of the local school system for public inspection for a period of at least two years from the date of its publication. Copies of the statement shall be made available on request."

SECTION 1-6.

Said title is further amended by revising Code Section 20-2-82, relating to contract terms for local school systems requesting flexibility, as follows:

"20-2-82.

(a) The local board of education and the department shall enter into negotiations on the appropriate terms of the contract, including the accountability, flexibility, and consequences components of the contract in accordance with Code Section 20-2-84, in consultation with the Office of Student Achievement. The accountability, flexibility,

and consequences components may vary between schools and clusters.

(b) The flexibility requested by a local school system pursuant to subsection (b) of Code Section 20-2-84 shall result in consequences in accordance with subsection (c) of Code Section 20-2-84 and Code Section 20-2-84.1 for noncompliance with the accountability requirements established pursuant to subsection (a) of Code Section 20-2-84.

(c) The department, in consultation with the Office of Student Achievement, shall make a recommendation to the state board on whether the proposed terms of the contract should be approved by the state board. Such proposed terms of the contract shall require that a local school system has not been designated as a high-risk local school system by the Department of Audits and Accounts pursuant to Code Section 20-2-67, or if it has been designated as a high-risk local school system, the contract shall require that the local school system has a written corrective action plan in place and that local school system board members and appropriate personnel participate in required training to address the deficiencies.

(d)(1) The state board shall have the authority to approve or deny approval of the proposed terms of the contract but shall give all due consideration to the recommendation and input from the Office of Student Achievement.

(2) In the event that the state board denies approval of the proposed terms of the contract, the local board of education shall work with the department, in consultation with the Office of Student Achievement, for further revisions and resubmission to the state board.

(e) The state board shall be authorized to approve a waiver or variance request of specifically identified state rules, regulations, policies, and procedures or provisions of this chapter upon the inclusion of such request in the local school system's proposed contract and in accordance with subsection (b) of Code Section 20-2-84. The goal for each waiver and variance shall be improvement of student performance. The state board shall not be authorized to waive or approve variances on any federal, state, and local rules, regulations, court orders, and statutes relating to civil rights; insurance; the protection of the physical health and safety of school students, employees, and visitors; conflicting interest transactions; the prevention of unlawful conduct; any laws relating to unlawful conduct in or near a public school; any reporting requirements pursuant to Code Section 20-2-320 or Chapter 14 of this title; the requirements of Code Section 20-2-210; the requirements of Code Section 20-2-211.1; or the requirements in subsection (c) of Code Section 20-2-327. A local school system that has received a waiver or variance shall remain subject to the provisions of Part 3 of Article 2 of Chapter 14 of this title, the requirement that it shall not charge tuition or fees to its students except as may be authorized for local boards by Code Section 20-2-133, and shall remain open to enrollment in the same manner as before the waiver request."

Said title is further amended by revising Code Section 20-2-83, relating to state board approval of local school board flexibility contract, as follows:

"20-2-83.

(a) Upon approval of a proposed contract of a local school system which has requested flexibility, the state board shall enter into such contract with the local board of education.

(b) The terms of the contract shall include, but not be limited to, accountability, flexibility, and consequences components as negotiated pursuant to subsection (a) of Code Section 20-2-82 and in accordance with Code Section 20-2-84.

(c) The terms of the contract shall also include specific requirements relating to maintaining or achieving financial stability of the local school system, including ensuring that the local school system has not been designated as a high-risk local school system by the Department of Audits and Accounts pursuant to Code Section 20-2-67, or if it has been designated as a high-risk local school system, that it has a written corrective action plan in place and that local school system board members and appropriate personnel participate in required training to address the deficiencies.

~~(e)~~(d) Each contract shall be for a term of six years. The terms of the contract may provide for automatic extension of such contract if a local school system has met its accountability requirements.

~~(d)~~(e) The terms of a contract may be amended during the term of the contract only upon approval of the state board and the local board of education."

SECTION 1-8.

Said title is further amended by revising Code Section 20-2-84.2, relating to state monitoring, as follows:

"20-2-84.2.

(a) The Office of Student Achievement shall revise the single state-wide accountability system established pursuant to paragraph (1) of subsection (a) of Code Section 20-14-26 for submission to the state board for approval to integrate the requirements of this article, to the greatest extent practicable, including, but not limited to, the loss of governance consequences provided for in Code Section 20-2-84.1.

(f) A system charter school shall not be precluded from petitioning to become a conversion charter school, in accordance with Code Section 20-2-2064, not subject to the terms of the system charter. Honorable Penny Houston
State Representative

SUBJECT: Fiscal Note
House Bill 85 (LC 33 7525)

Dear Representative Houston:

The bill would provide a sales tax exemption for purchases made by qualified organ procurement organizations beginning January 1, 2020. The exemption would be automatically repealed on December 31, 2025.

Impact on State Revenue

Georgia State University's Fiscal Research Center (FRC) estimated that the bill would reduce state sales tax revenue by \$114,000 to \$171,000 in fiscal year 2021, the first full year of the exemption (Table 1). Local sales tax revenue would be reduced by \$92,000 to \$138,000 in the same year. The losses are estimated to slightly increase over time. Details of the analysis are included in the appendix.

Table 1: Net Revenue Effect of LC 33 7525 Sales Tax Exemption

(\$ thousands)	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024

Local	(\$45)	(\$92)	(\$95)	(\$98)	(\$101)

Impact on State Expenditures

The Department of Revenue stated it would require no additional funding to implement the bill.

Sincerely,

State Auditor

Analysis by the Fiscal Research Center

Organ procurement organizations (OPOs) must be certified by the Centers for Medicare and Medicaid Services (CMS) and abide by CMS regulations. By federal law, all OPOs must be members of the Organ Procurement and Transplantation Network (OPTN). There are 58 OPOs in the United States, each with its own designated service area. Currently, Georgia is served predominantly by one OPO, LifeLink of Georgia, an affiliate of Lifelink of Florida (collectively, LifeLink). Tennessee Donor Services is the OPO for three counties in the northwest corner of the state, Catoosa, Dade and Walker, representing about 0.7 percent of the state population, thus it is assumed that they would not expend sufficient taxable amounts in Georgia to be material to the analysis.

Expenditure data provided by LifeLink from the organization's 2016 IRS 990 form were used to estimate the cost of the proposed sales tax exemption. To estimate the relevant taxable expenditures for Georgia, LifeLink's total relevant expenditures were prorated based on Georgia's share of the total population in the areas served by Lifelink.

Table 1A lists the relevant expenses estimated from the IRS 990 form. Georgia primarily taxes the purchase of physical goods and not services, but several of the categories, including advertising and promotion, information technology, and communications may be a combination of goods and services. For these services, it is assumed that 50 percent of the expenditures would be subject to sales tax. For the remaining categories, sales tax applies to the full amount of expenditures.

Table 1A: LifeLink Purchases Subject to Georgia Sales Tax CY 2016

Type of Spending	GA Est. Spending
Advertising and promotion	\$ 142,536
Office expenses	\$ 678,965
Information Technology	\$ 124,337
Medical Supplies	\$ 2,141,947
Donated property exp.	\$ 2,608
Relevant Spending Total	\$ 3,090,394

Source: LifeLink IRS form 990

To generate the estimates in Table 1, the 3.2 percent annual average growth rate of sales tax collections in Georgia from 2014-2017 is applied to grow the taxable base year spending from Table 1A. As there is uncertainty in the amount of goods purchased by the Georgia OPO as well as annual fluctuations in OPO activity, a high and low estimate is generated assuming variation of 20 percent from the baseline, the results shown as the high and low estimates in Table 1. Local sales tax estimates assume a 3.23 percent average local rate, the population-weighted average local rate as of July 1, 2018, according to the Tax Foundation. FY 2020 estimates are for a partial year, reflecting the effective date of the new law.

On the adoption of the substitute, there were no objections, and the committee substitute was adopted.

A BILL TO BE ENTITLED
AN ACT

To amend Part 2 of Article 4 of Chapter 5 of Title 12 of the Official Code of Georgia Annotated, relating to shore protection, so as to revise various provisions relative to shore protection; to revise and add definitions; to establish authority and powers of the Department of Natural Resources; to revise provisions relating to permit activities and procedures; to strike obsolete language and correct cross-references; to provide for related matters; to provide for effective dates; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Part 2 of Article 4 of Chapter 5 of Title 12 of the Official Code of Georgia Annotated, relating to shore protection, is amended by revising paragraphs (8), (11), (13), (15), and (18) of Code Section 12-5-232, relating to definitions, and by adding a new paragraph to read as follows:

"(8) 'Dynamic dune field' means those elements of the sand-sharing system including the dynamic area of beach and sand dunes, varying in height and width, but does not include stable sand dunes. The the ocean boundary of which the dynamic dune field extends to the ordinary high-water mark and the landward boundary of which is the first occurrence either of live native trees 20 feet in height or greater or of a structure existing on July 1, 1979. The landward boundary of the dynamic dune field shall be the seaward most line connecting any such tree or structure as set forth in this part to any other such tree or structure if the distance between the two is a reasonable distance not to exceed 250 feet. In determining what is a reasonable distance for purposes of this paragraph, topography, dune stability, vegetation, lot configuration, existing structures, distance from the ordinary high water mark, and other relevant information shall be taken into consideration in order to conserve the vital functions of the sand-sharing system. as determined by the department. The landward boundary of the dynamic dune field, as determined by the department, shall be the first occurrence of either the seaward most portion of a structure existing on July 1, 1979, or the landward most line that is 25 feet landward of the landward toe of the most landward sand dune, or 25 feet landward of the crest of a serviceable shoreline stabilization activity. In the absence of any of the aforesaid, the line shall be 25 feet landward of the ordinary high-water mark, except for property owned by the state, in which case the line shall be 100 feet landward of the ordinary high-water mark. If a real estate appraiser certified pursuant to Chapter 39A of Title 43 determines that an existing structure, shoreline engineering activity, or other alteration which forms part of the landward boundary of the dynamic dune field has been more than 80 percent destroyed by storm driven water or erosion, the landward boundary of the dynamic dune field shall be determined as though such structure had not been in existence on

July 1, 1979."

"(10.1) 'Minor activity' means an activity such as the construction or installation of decks, patios, or porches or the alteration of native landscaping, so long as such construction, installation, or alteration, when combined with other structures on the subject parcel or portion thereof, does not impact more than a total of one-third of the subject parcel or portion thereof that is subject to the jurisdiction of this part; or the construction or installation of elevated crosswalks providing access across sand dunes and shoreline stabilization activities.

(11) ~~'Ordinary high-water mark' means the position~~ upper reach of the tide along the shore of the mean monthly spring high tide reached during the most recent tidal epoch. This term is not synonymous with 'mean' high-water mark established by the fluctuations of water and indicated by physical characteristics such as a clear natural line impressed on the shore, shelving, changes in the character of soil, or the presence of litter and debris, as determined by the department."

~~"(13) 'Permit-issuing authority' means the Shore Protection Committee or a local unit of government which has adopted a program of shore protection which meets the standards of this part and which has been certified by the board as an approved program~~ Reserved."

"(15) 'Sand dunes' means mounds of sand within the sand-sharing system deposited along a coastline by wind, tidal, or wave action, or by beach nourishment or dune construction, which mounds are often covered with sparse, pioneer vegetation, such as, but not limited to, sea oats (Uniola paniculate), beach morning glory (Ipomoea pes-caprae), and large salt meadow cordgrass (Spartina patens), and are located landward of the ordinary high-water mark and may extend into the tree line."

"(18) 'Stable sand dune' means a sand dune not in the sand-sharing system that is maintained in a steady state of neither erosion nor accretion by indigenous woody vegetative cover such as, but not limited to, pines (Pinus), oaks (Quercus), and wax myrtles (Morella cerifera)."

SECTION 2.

Said part is further amended by revising Code Section 12-5-233, relating to area of operation of part, as follows:

"12-5-233.

The area of operation of this part shall be:

(1) The dynamic dune fields on the barrier islands of this state as determined by reference to Code Section 12-5-232. Such determination shall be made by the ~~permit-issuing authority~~ committee on the basis of site inspection and evaluation of other pertinent information as provided for in subsection (d) of Code Section 12-5-239;

(2) The submerged shoreline lands of this state from the seaward limit of this state's jurisdiction landward to the dynamic dune fields or to a line projected from the westernmost point of the dynamic dune field on the southern end of a barrier island, to the westernmost point of the dynamic dune field on the northern end of the adjacent barrier island to the south; and

(3) If an area has dynamic dune fields as defined by Code Section 12-5-232, and marshlands as defined by Code Section 12-5-282, it is subject to the jurisdiction of this part and Part 4 of this article. In the event of a conflict between this part and Part 4 of this article, the commissioner shall determine which part shall apply so as to best protect the public interest."

SECTION 3.

Said part is further amended by revising Code Section 12-5-235, relating to the Shore Protection Committee, as follows:

"12-5-235.

(a) There is created the Shore Protection Committee within the department. The committee shall be composed of five members, including the commissioner of natural resources and four people selected by the board. Each of three persons selected by the board shall be a resident of Camden, Glynn, McIntosh, Liberty, Bryan, or Chatham County. Three members of the committee shall constitute a quorum. The members of the committee shall be entitled to and shall be reimbursed from moneys appropriated to the department for their expenses, such as mileage and per diem, as set by the board.

(b) The committee shall have the authority to issue orders and to grant, suspend, revoke, modify, extend, condition, or deny permits as provided in this part. Permits may, at the committee's discretion, be revoked, suspended, or modified upon a finding that the permittee is not in compliance with permit conditions or that the permittee is in violation of any rule or regulation promulgated pursuant to this part.

(c) The ~~chairman~~ chairperson of the committee, upon application by the permittee, may issue renewal of a permit previously granted by the committee. Such action must be based upon recommendations of staff, past committee actions, and the results of public comments. The ~~chairman~~ chairperson may refer the request for renewal to the committee to decide on renewals that, in his or her judgment, should receive broader consideration. A committee member may choose to have the full committee decide on renewals that the member feels should receive broader consideration.

(d) Any permit for minor activity may be issued by the commissioner based on the recommendations of staff, past committee actions, and the results of public comments. The commissioner may refer the application to the committee to decide on permits for minor activities that, in his or her judgment, should receive broader consideration. A committee member may choose to have the full committee decide on permit applications for minor activities that the member feels should receive broader consideration."

SECTION 4.

Said part is further amended by revising Code Section 12-5-238, relating to form and contents of application for permit, as follows:

"12-5-238.

All applications for permits required by this part must be on forms prescribed by the ~~permit issuing authority~~ committee, must be properly executed, and must include the

following:

- (1) The name and address of the applicant;
- (2) A brief description of the proposed project;
- (3) Construction documents showing the applicant's proposed project and the manner or method by which the project shall be accomplished. Such document shall identify the dynamic dune field affected;
- (4) A copy of the deed or other instrument under which the applicant claims title to the property or, if the applicant is not the owner, a copy of the deed or other instrument under which the owner claims the title together with written permission from the owner to carry out the project on ~~his~~ the owner's land. In lieu of a deed or other instrument referred to in this paragraph, the ~~permit-issuing authority~~ committee may accept some other reasonable evidence of ownership of the property in question or other lawful authority to make use of the property. If all or any part of the proposed construction or alteration shall take place on property which is owned by the State of Georgia, the applicant shall present an easement, revocable license, or other written permission from the state to use the property for the proposed project; in the alternative, the ~~permit-issuing authority~~ committee may condition the issuance of the permit on the requirement to obtain written permission from the state. The ~~permit-issuing authority~~ committee will not adjudicate title disputes concerning the property which is the subject of the application; provided, however, that the ~~permit-issuing authority~~ committee may decline to process an application when submitted documents show conflicting deeds;
- (5) A plat showing the boundaries of the proposed project site;
- (6) The names and addresses of all landowners of property adjoining or abutting the parcel of land on which the proposed project is to be located. If the property to be altered is bordered on any side by other property of the applicant, the applicant shall supply the names and addresses of the nearest landowners, other than the applicant, of property adjoining the applicant's property. If the applicant cannot determine the identity of adjoining landowners or their addresses, the applicant shall file in lieu thereof an affidavit stating that a diligent search, including a search of the records of the county tax assessor's office, has been made but that the applicant was not able to ascertain the names or addresses of adjoining landowners;
- (7) ~~An application fee in such reasonable amount as is designated by the permit-issuing authority or, if the committee is the permit-issuing authority, a nonrefundable application fee as set by the board which reflects the cost to the department to evaluate the application. Fees for the renewal of a permit shall be equal to the application fee. Application fees shall not exceed \$1,000.00 for any one proposal. If the committee is the permit issuing authority, such fees shall be paid to the department~~ A nonrefundable application fee to be set by the board in an amount necessary to defray the administrative cost of issuing such permit. Renewal fees shall be equal to application fees, which shall not exceed \$1,000.00 for any one proposal and shall be paid to the department;
- (8) Site plans for the proposed project site showing existing and proposed streets,

utilities, buildings, and any other physical structures;

(9) A certification by a registered architect or engineer licensed by this state certifying that all proposed structures, if any, for which the permit is applied are designed to meet suitable hurricane-resistant standards;

(10) Any and all other relevant data required by the ~~permit-issuing authority~~ committee for the purposes of ascertaining that the proposed improvements, activities, and uses will meet the standards of this part;

(11) A certificate or letter from the local governing authority or authorities of the political subdivision in which the property is located stating that the applicant's proposal ~~is not violative of~~ would not violate any zoning law; and

(12) A statement from the applicant that he or she has made inquiry to the appropriate authorities that the proposed project is not over a landfill or hazardous waste site and that the site is otherwise suitable for the proposed project."

SECTION 5.

Said part is further amended by revising Code Section 12-5-239, relating to completion of permit, notice of proposed activity, and requirements and restrictions regarding issuance of permit, as follows:

"(a) The ~~permit-issuing authority~~ committee shall take action on each permit application within 90 days after the application is completed; provided, however, that this provision may be waived upon the written request of the applicant. An application is complete when it contains substantially all of the written information, documents, forms, fees, and materials required by this part. An application must be completed sufficiently in advance of the ~~permit-issuing authority~~ committee meeting at which the project will be considered to allow for public notice and evaluation by the ~~permit-issuing authority~~ committee.

(b) After receipt of a completed application and at least ~~30~~ 15 days prior to acting on the application, the ~~permit-issuing authority~~ committee shall notify all persons identified by the applicant as owning land adjacent to the location of the proposed project and to all persons who have filed a written request with ~~such permit-issuing authority~~ the committee that their names be placed on a mailing list for receipt of such notice. Any person desiring to be placed on such mailing list must so request in writing and renew such request in December of each year. The name of any person who has not renewed such request shall be removed from the list. The landowners who have not requested to be placed on a mailing list shall be notified in writing if their addresses are known. Such notice shall be in writing and shall include a general description of the proposed project and its location. The applicant shall post such notice in a conspicuous place on the subject property at or prior to the time the ~~permit-issuing authority~~ committee issues public notice of the application. If the applicant has filed an affidavit that the names or addresses of the adjoining landowners were not ascertained after a diligent search, the ~~permit-issuing authority~~ committee shall cause a notice of the proposed activity and a brief description of the land to be affected to be published in the legal organ or a newspaper of general circulation in the county in which such land lies.

Cost of such public notices shall be paid by the applicant. Whenever there appears to be sufficient public interest, the ~~permit-issuing authority~~ committee may call a public hearing.

(c) No permit shall be issued except in accordance with the following provisions:

(1) A permit for a structure or land alteration, including, but not limited to, private residences, motels, hotels, condominiums, and other commercial structures, in the dynamic dune field may be issued only when:

(A) The proposed project shall occupy the landward area of the subject parcel and, if feasible, the area landward of the sand dunes;

(B) At least a reasonable percentage, not less than one-third, of the subject parcel shall be retained in its naturally vegetated and topographical condition;

(C) The proposed project is designed according to applicable hurricane-resistant standards;

(D) The activities associated with the construction of the proposed project are kept to a minimum, are temporary in nature, and, upon project completion, restore the natural topography and vegetation to at least its former condition, using the best available technology; and

(E) The proposed project will maintain the normal functions of the sand-sharing mechanisms in minimizing storm-wave damage and erosion, both to the unaltered section of the subject parcel and at other shoreline locations;

(2) No permits shall be issued for a structure on beaches, eroding sand dune areas, and submerged lands; provided, however, that a permit for a pier, boardwalk, or crosswalk in such an area may be issued, provided that:

(A) The activities associated with the construction of the proposed land alterations are kept to a minimum, are temporary in nature, and, upon project completion, the natural topography and vegetation shall be restored to at least their former condition, using the best available technology; and

(B) The proposed project maintains the normal functions of the sand-sharing mechanisms in minimizing storm-wave damage and erosion, both to the unaltered section of the subject parcel and at other shoreline locations;

(3) A permit for shoreline engineering activity or for a land alteration on beaches, sand dunes, and submerged lands may be issued only when:

(A) The activities associated with the construction of the proposed project are to be temporary in nature, and the completed project will result in complete restoration of any beaches, dunes, or shoreline areas altered as a result of that activity;

(B) The proposed project will insofar as possible minimize effects to the sand-sharing mechanisms from storm-wave damage and erosion both to the subject parcel and at other shoreline locations;

(C) In the event that shoreline stabilization is necessary, either low-sloping porous rock structures or other techniques which maximize the dissipation of wave energy and minimize shoreline erosion shall be used. Permits may be granted for shoreline stabilization activities when the applicant has demonstrated that no reasonable or viable alternative exists; provided, however, that beach restoration and

renourishment techniques are preferable to the construction of shoreline stabilization activities; and

(D) A copy of the permit application has been transmitted to the local unit of government wherein the project site lies, if such local unit of government has been certified by the board, requesting comments on such application.

(d) In evaluating a permit application in order to determine compliance with the provisions set forth in subsection (c) of this Code section, the ~~permit-issuing authority~~ committee may use the following assessment tools and techniques, as appropriate and as available:

(1) Historic photographs and topographic data of the project site, which can be used in determining the impact of a proposed project on the stability of the shoreline;

(2) On-site inspections to determine the impact of a proposed project on topographic and vegetative conditions, erosion or accretion rates, and other factors influencing the life cycles of dune plants;

(3) Any recognized or accepted scientific investigations necessary to determine the proposed project's impacts on the surrounding biological and geological systems, and the historic and archeological resources;

(4) When present, the potential effects of shoreline engineering structures (seawalls, groins, jetties, etc.), their condition, and their apparent influence on the sand-sharing system as it relates to the proposed project;

(5) Historic, climatological, tidal data, and meteorological records of the vicinity of the project and possible potential effects of a proposed project upon erosion and accretion rates; and

(6) New scientific information which, through recent advances, would effect a more competent decision relative to wise use and management of Georgia's sand-sharing system.

(e) Every permit shall require that the proposed project be completed within five years after the date of issuance of the permit and shall expire five years after the date of issuance. Such time may be extended five additional years upon a showing that all due efforts and diligence toward the completion of the project have been made. If ~~a permit~~ the holder of an unexpired permit sells, leases, rents, or otherwise conveys the land or any portion of the land for which the permit was issued, such permit shall be continued in force in favor of the new owner, lessee, tenant, or other assignee so long as there is no change in the use of the land as set forth in the original application. The ~~permittee~~ new owner must notify the ~~permit-issuing authority~~ committee within 30 days after change of ownership of ~~property~~ the land or any portion thereof.

(f) All plans, documents, and materials contained in any application for any permit required by this part shall be made a part of the permit, if granted, and conformance to such plans, documents, and materials shall be a condition of the permit. No change or deviation from any such plans, documents, or materials shall be permitted without the prior notification and approval of the ~~permit-issuing authority~~ committee.

(g) Compliance with all other federal, state, and local statutes, ordinances, and regulations shall also be a condition of every permit issued pursuant to this part. If,

prior to completion of review of an application under this part the committee receives notice of the denial of a permit or authorization necessary for the project, review of the project shall be suspended and, if the denial becomes final, the application shall stand denied.

(h) All permit-issuing authorities may place such conditions on any permit issued under this Code section as are necessary to carry out this part.

(i) In passing upon the application for a permit, the ~~permit-issuing authority~~ committee shall consider the public interest which for purposes of this part shall be deemed to be the following considerations:

(1) Whether or not unreasonably harmful, increased alteration of the dynamic dune field or submerged lands, or function of the sand-sharing system will be created;

(2) Whether or not the granting of a permit and the completion of the applicant's proposal will unreasonably interfere with the conservation of marine life, wildlife, or other resources; and

(3) Whether or not the granting of a permit and the completion of the applicant's proposal will unreasonably interfere with reasonable access by and recreational use and enjoyment of public properties impacted by the project.

(j) Issuance of a permit under this part and construction of the permitted project shall not remove the designated property from the jurisdiction of this part. All changes in permitted uses which increase impacts to any land subject to the provisions of this part must be ruled upon by the ~~permit-issuing authority~~ committee to determine if the proposed change is consistent with this part and the permit. Each permitted alteration within the area of operation of this part shall be reviewed by the ~~permit-issuing authority~~ committee on a five-year basis or when noncompliance with the purpose for which the permit was issued is evident to determine if the use within the area of operation of this part is consistent with the intent of this part. If the permit holder is found not to be in compliance with this part, the ~~permit-issuing authority~~ committee shall take action as authorized under Code Section 12-5-247.

33-41-100.

In addition to the general provisions of Article 1 of this chapter, the provisions of this article shall apply to sponsored captive insurance companies.

33-41-101.

As used in this article, the term:

(1) 'General account' means all the assets and liabilities of a sponsored captive insurance company that are not attributable to a protected cell.

(2) 'Incorporated protected cell' means a protected cell that is established as a stock corporation or manager-managed limited liability company separate from the sponsored captive insurance company of which it is a part.

(3) 'Participant' means a person, and any affiliates thereof, that is insured or reinsured by a sponsored captive insurance company, where the losses of the participant are limited through a participant contract to such participant's protected cell assets or to the pro rata share of the assets of one or more protected cells that are identified in such participant contract.

(4) 'Participant contract' means a contract by which a sponsored captive insurance

company insures or reinsures the risks of a participant, or the controlled unaffiliated business thereof, and limits the losses to the participant's protected cell assets or to the pro rata share of the assets of one or more protected cells that are identified in such participant contract.

(5) 'Protected cell' means a separate and distinct account or accounts established by a sponsored captive insurance company in which an identified pool of assets are maintained for one or more participants in accordance with the terms of one or more participant contracts to fund the liability of the sponsored captive insurance company insured or assumed on behalf of such participants as set forth in such participant contracts. A protected cell may be an incorporated protected cell or an unincorporated protected cell.

(6) 'Protected cell assets' means all assets, contract rights, and general intangibles identified with and attributable to a specific protected cell that may not be used to pay any expenses or claims other than those attributable to such protected cell.

(7) 'Protected cell liability' means all liabilities and other obligations identified with and attributable to a specific protected cell.

(8) 'Sponsor' means any person, other than a risk retention group, that is approved by the Commissioner, in the exercise of his or her sole discretion, to organize and operate a sponsored captive insurance company and to provide all or part of its required capital and surplus.

(9) 'Sponsored captive insurance company' means any domestic stock insurer or manager-managed limited liability company formed by one or more sponsors having been granted a certificate of authority pursuant to this chapter that:

(A) May only be owned by its participants and sponsors, unless the Commissioner has authorized the issuance of nonvoting securities to other persons:

(B) Maintains at least \$250,000.00 in capital and surplus subject to Code Section 33-41-8, which shall at all times be available to pay any expenses of or claims against it;

(C) May only insure or reinsure the risks of its participants, or the controlled unaffiliated business thereof, in accordance with separate participant contracts;

(D) Funds its liabilities to each participant through one or more protected cells and keeps the protected cell assets and protected cell liabilities of each protected cell segregated from the general account and from the protected cell assets and protected cell liabilities of other protected cells: and

(E) Establishes administrative and accounting procedures necessary to allocate, identify, separate, and segregate the protected cell assets, protected cell liabilities, insurance and reinsurance obligations, assets, credits, liabilities, losses, tax benefits and refunds attributable to the protected cells.

(10) 'Unincorporated protected cell' means a protected cell that is not itself a legal entity separate from the sponsored captive insurance company of which it is a part.

33-41-102.

(a) A sponsored captive insurance company may establish one or more protected cells

if the Commissioner has approved in writing a business plan, or an amendment to such plan, with respect to each protected cell that includes information about the participant, the associated participant contract or contracts, and any other information requested by the Commissioner.

(b) No participant contract shall take effect without the Commissioner's prior written approval. The addition of each new protected cell, the withdrawal of any current participant, or the termination of any existing protected cell shall constitute a change in the business plan of the sponsored captive insurance company and shall require the Commissioner's prior written approval.

(c) Each sponsored captive insurance company shall annually file with the Commissioner such financial reports as he or she shall require. Any such financial report shall include, without limitation, accounting statements detailing the financial experience of each protected cell.

(d) Each sponsored captive insurance company shall notify the Commissioner in writing within ten business days of any protected cell becoming insolvent or otherwise unable to meet its claim, expense, insurance, or reinsurance obligations.

33-41-103.

(a) A sponsored captive insurance company licensed under this chapter may establish and maintain one or more protected cells to insure or reinsure risks subject to the provisions, terms, and conditions set forth in this chapter, and it is the intent of the General Assembly to provide sponsored captive insurance companies with the option to establish one or more protected cells as incorporated protected cells without limiting any rights or protections applicable to unincorporated protected cells.

(b) The creation of a protected cell pursuant to this chapter does not create, with respect to such protected cell, a legal person separate from the sponsored captive insurance company of which it is a part unless such protected cell is an incorporated protected cell.

(c) In addition to the provisions required by subparagraphs (c)(1)(B) and (c)(1)(C) of Code Section 33-41-5, an incorporated protected cell must also include the following in its formation documents;

(1) A reference to the sponsored captive insurance company of which it will be a part; and

(2) A statement that the entity is a protected cell incorporated for the limited purposes authorized by the sponsored captive insurance company's certificate of authority.

(d) An incorporated protected cell shall not use any name that is either similar, misleading, or confusing with respect to any other name already in use by any other entity doing business in this state.

(e) An incorporated protected cell shall be entitled to enter into contracts and undertake obligations in its own name and for its own account unless prohibited by an applicable participant contract. In the case of a contract or obligation undertaken directly by an incorporated protected cell to which the sponsored captive insurance company is not a party, either in its own name and for its own account or on behalf of a protected cell,

the counterparts to the contract or obligation shall have no right or recourse against the sponsored captive insurance company, any other protected cell not a party to such contract or obligation or any assets other than against assets properly attributable to the incorporated protected cell that is a party to the contract or obligation.

33-41-104.

(a) All attributions of assets and liabilities to the protected cells and the general account shall be made by the sponsored captive insurance company in accordance with the business plan and applicable participant contracts as approved by the Commissioner, and unless the sponsor consents and the Commissioner has granted prior written approval, the general account shall not be used to pay any expenses or claims attributed solely to a protected cell.

(b) When establishing a protected cell, the sponsored captive insurance company shall attribute to the protected cell assets with a value at least equal to the reserves and other insurance liabilities attributable to such protected cell in cash or in readily marketable securities with established market value.

(c) Amounts attributable to a protected cell under this chapter are owned by the protected cell. No sponsored captive insurance company shall be, or hold itself out to be, a trustee with respect to those protected cell assets of such protected cell account. Notwithstanding this subsection, the sponsored captive insurance company may allow for a security interest to attach to protected cell assets when in favor of a creditor of the protected cell and otherwise allowable under applicable law.

(d) Each protected cell shall be accounted for separately on the books and records of the sponsored captive insurance company to reflect each protected cell's financial condition and results of operations, net income or loss, dividends or other distributions to participants, and such other factors regarding each protected cell as may be provided in the applicable participant contract or required by the Commissioner.

(e) The assets of a protected cell shall not be chargeable with liabilities of any other protected cell or, unless otherwise agreed in the applicable participant contract, of the sponsored captive insurance company generally.

(f) No sale, exchange, transfer of assets, dividend, or distribution, other than a transaction in accordance with the applicable participant contract, may be made with respect to a protected cell by or to a sponsored captive insurance company or participant without the Commissioner's written approval. In no event shall such approval be given if the sale, exchange, transfer, dividend, or distribution would result in the insolvency or impairment of a protected cell.

(g) The remedy of tracing is applicable to protected cell assets if they are commingled with protected cell assets of other protected cells or the general account in violation of this article and any applicable participant contracts. The remedy of tracing shall not be construed as an exclusive remedy.

(h) The sponsored captive insurance company shall attribute all insurance obligations, assets, and liabilities relating to a reinsurance contract entered into with respect to a protected cell to such protected cell as set forth in the business plan and participant

contracts approved by the Commissioner, which may include a tax allocation agreement to which the sponsored captive insurance company is a party.

(i) Notwithstanding any other provision of this chapter, the assets of two or more protected cells may be combined for purposes of investment, and such combination shall not be construed as defeating the segregation of such assets for accounting or other purposes.

(j) Notwithstanding any other provisions of this title, sponsored captive insurance companies shall not be subject to any restrictions on eligible investments whatever; however, the Commissioner may prohibit or limit any investment that threatens the solvency or liquidity of any sponsored captive insurance company.

(k) If required by the Commissioner, in his or her discretion, the business written by a sponsored captive insurance company, with respect to each protected cell, shall be:

(1) Fronted by an insurance company licensed pursuant to the laws of any state;

(2) Reinsured by a reinsurer authorized or approved by the Commissioner; or

(3) Secured by a trust fund in the United States for the benefit of participants, policyholders, and claimants or funded by an irrevocable letter of credit or other arrangement that is acceptable to the Commissioner. The Commissioner, in his or her sole discretion, shall approve the form, terms, and funding amount of any trust, and may require the sponsored captive insurance company to increase the funding of any security arrangement established under this chapter. If the form of security is a letter of credit, the letter of credit must be in conformance with Code Section 33-41-9 and approved by the Commissioner.

33-41-105.

(a) In connection with the conservation, rehabilitation, or liquidation of captive insurance companies set forth in Code Section 33-41-21, including sponsored captive insurance companies, the assets and liabilities of a protected cell shall at all times be kept separate from, and shall not be commingled with, those of other protected cells and the sponsored captive insurance company except to the extent that the assets and liabilities of any one or more protected cells are determined to have not been allocated, segregated, and separated pursuant to the business plan and participant contracts approved by the Commissioner, and which are subject to the tracing provisions set forth in this article.

(b) Notwithstanding the provisions of this title, in the event of the insolvency of a sponsored captive insurance company where the Commissioner determines that one or more protected cells remain solvent, the Commissioner may separate such cells from the sponsored captive insurance company and may allow, on application of the sponsored captive insurance company or participant, for the conversion of such protected cells into one or more new or existing other captive insurance companies.

33-41-106.

All provisions set forth in subsection (c) of Code Section 33-41-16 shall also apply to sponsored captive insurance companies in the same manner."

SECTION 2-15.

Said title is further amended by revising subsection (c) of Code Section 33-1-17, relating to the Special Insurance Fraud Fund, as follows:

"(c)(1) The Commissioner shall prepare, on an annual basis, a separate budget request to the General Assembly which sets forth the anticipated cost and expense of funding the investigation and prosecution of insurance fraud in this state for the ensuing 12 months. Beginning with the year 1997, such budget request shall set forth the annual cost and expense of the investigation and prosecution of insurance fraud in Georgia for the preceding 12 months.

(2) There is imposed upon each foreign, alien, and domestic insurance company doing business in the state an annual assessment under a formula to be established by regulation promulgated by the Commissioner. The formula shall be calculated such that the total proceeds paid or collected from such assessments for any year shall not exceed the amounts appropriated by the General Assembly pursuant to paragraph (3) of this subsection, which appropriation shall be based upon the budget request setting forth the applicable annual cost and expense of the investigation and prosecution of insurance fraud in Georgia submitted by the Commissioner. Such assessments may be measured by kind of company, kind of insurance, income, volume of transactions, or such other factors as the Commissioner determines appropriate. Assessments shall be due and payable for each calendar quarter at the times specified in subsection (b) of Code Section 33-8-6. Any insurance company which fails to report and pay any installment of such assessment shall be subject to penalties and interest as provided by subsection (d) of Code Section 33-8-6. The Commissioner shall provide by regulation for such other terms and conditions for the payment or collection of such assessments as may be necessary to ensure the proper payment and collection thereof. Notwithstanding the foregoing, the provisions of this Code section shall not apply to an agency captive insurance company, dormant captive insurance company, industrial insured captive insurance company, sponsored captive insurance company (including a protected cell thereof), or pure captive insurance company. Foreign and alien captive insurance companies doing business in Georgia shall, however, pay a fixed amount of \$100.00 per year into the Special Insurance Fraud Fund without regard to the amount of the Georgia premium written by such foreign or alien captive. No additional amount shall be assessed against the foreign or alien captive insurance company.

(3) The General Assembly may appropriate to the Insurance Department funds for the investigation of insurance fraud and for the funding of the prosecution of insurance fraud. The Commissioner is authorized to use such funds for investigation of insurance fraud and to reimburse prosecuting attorneys for some or all of the costs of retaining assistant prosecuting attorneys to prosecute insurance fraud cases. The Commissioner shall provide by regulation for such other terms and conditions for the use of the funds for the investigation, reimbursement, and prosecution contemplated by the terms of this paragraph."

A BILL TO BE ENTITLED
AN ACT

To amend Code Section 19-6-15, relating to child support guidelines for determining amount of award, continuation of duty of support, and duration of support, so as to revise and correct defined terms and terminology, grammar, and punctuation; to remove alimony as a specific deviation in certain circumstances; to exclude certain adoption assistance benefits from gross income; to clarify provisions relating to willful or voluntary unemployment or underemployment; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Code Section 19-6-15, relating to child support guidelines for determining amount of award, continuation of duty of support, and duration of support, is amended by revising subsection (a) as follows:

"(a) **Definitions.** As used in this Code section, the term:

(1) Reserved.

(2) 'Adjusted income' means the determination of a parent's monthly income, calculated by deducting from that parent's monthly gross income one-half of the amount of any applicable self-employment taxes being paid by the parent, any preexisting order for current child support which is being paid by the parent, and any theoretical child support order for other qualified children, if allowed by the court. For further reference see paragraph (5) of subsection (f) of this Code section.

(3) 'Basic child support obligation' means the monthly amount of support displayed on the child support obligation table which corresponds to the combined adjusted income and the number of children for whom child support is being determined.

(4) 'Child' means child or children.

(5) Reserved.

(6) 'Child support obligation table' means the chart set forth in subsection (o) of this Code section.

- (6.1) 'Child support services' means the entity within the Department of Human Services and its contractors that are authorized to enforce a duty of support.
- (7) 'Combined adjusted income' means the amount of adjusted income of the custodial parent added to the amount of adjusted income of the noncustodial parent.
- (8) 'Court' means a judge of any court of record or an administrative law judge of the Office of State Administrative Hearings.
- (9) 'Custodial parent' means the parent with whom the child resides more than 50 percent of the time. ~~Where~~ When a custodial parent has not been designated or ~~where~~ when a child resides with both parents an equal amount of time, the court shall designate the custodial parent as the parent with the lesser support obligation and the other parent as the noncustodial parent. ~~Where~~ When the child resides equally with both parents and neither parent can be determined as owing a greater amount than the other, the court shall determine which parent to designate as the custodial parent for the purpose of this Code section.
- (10) 'Deviation' means an increase or decrease from the presumptive amount of child support if the presumed order is rebutted by evidence and the required findings of fact are made by the court or the jury pursuant to subsection (i) of this Code section.
- (11) 'Final child support amount' means the presumptive amount of child support adjusted by any deviations.
- (12) 'Gross income' means all income to be included in the calculation of child support as set forth in subsection (f) of this Code section.
- (13) 'Health insurance' means any general health or medical policy. For further reference see paragraph (2) of subsection (h) of this Code section.
- (14) 'Noncustodial parent' means the parent with whom the child resides less than 50 percent of the time or the parent who has the greater payment obligation for child support. ~~Where~~ When the child resides equally with both parents and neither parent can be determined as owing a lesser amount than the other, the court shall determine which parent to designate as the noncustodial parent for the purpose of this Code section.
- (15) 'Nonparent custodian' means an individual who has been granted legal custody of a child, or an individual who has a legal right to seek, modify, or enforce a child support order.
- (16) 'Parent' means a person who owes a child a duty of support pursuant to Code Section 19-7-2.
- (17) 'Parenting time deviation' means a deviation allowed for the noncustodial parent based upon the noncustodial parent's court ordered visitation with the child. For further reference see subsections (g) and (i) of this Code section.
- (18) 'Preexisting order' means:
- (A) An order in another case that requires a parent to make child support payments for another child, which child support the parent is actually paying, as evidenced by documentation as provided in division (f)(5)(B)(iii) of this Code section; and
 - (B) That the date and time of filing with the clerk of court of the initial order for each such other case is earlier than the date and time of filing with the clerk of court

of the initial order in the case immediately before the court, regardless of the age of any child in any of the cases.

(19) 'Presumptive amount of child support' means the basic child support obligation including health insurance and work related child care costs.

(20) 'Qualified child' or 'qualified children' means any child:

(A) For whom the parent is legally responsible and in whose home the child resides;

(B) Who ~~That~~ the parent is actually supporting;

(C) Who is not subject to a preexisting order; and

(D) Who is not before the court to set, modify, or enforce support in the case immediately under consideration.

Qualified children shall not include stepchildren or other minors in the home ~~that~~ who the parent has no legal obligation to support.

(21) 'Split parenting' can occur in a child support case only if there are two or more children of the same parents, ~~where~~ when one parent is the custodial parent for at least one child of the parents, and the other parent is the custodial parent for at least one other child of the parents. In a split parenting case, each parent is the custodial parent of any child spending more than 50 percent of the time with that parent and is the noncustodial parent of any child spending more than 50 percent of the time with the other parent. A split parenting situation shall have two custodial parents and two noncustodial parents, but no child shall have more than one custodial parent or noncustodial parent.

(22) 'Theoretical child support order' means a hypothetical child support order for qualified children as calculated ~~as set forth~~ in subparagraph (f)(5)(C) of this Code section which allows the court to determine the amount of child support as if a child support order existed.

(23) 'Uninsured health care expenses' means a child's uninsured medical expenses including, but not limited to, health insurance copayments, deductibles, and such other costs as are reasonably necessary for orthodontia, dental treatment, asthma treatments, physical therapy, vision care, and any acute or chronic medical or health problem or mental health illness, including counseling and other medical or mental health expenses, that are not covered by insurance. For further reference see paragraph (3) of subsection (h) of this Code section.

(24) 'Work related child care costs' means expenses for the care of the child for whom support is being determined which are due to employment of either parent. In an appropriate case, the court may consider the child care costs associated with a parent's job search or the training or education of a parent necessary to obtain a job or enhance earning potential, not to exceed a reasonable time as determined by the court, if the parent proves by a preponderance of the evidence that the job search, job training, or education will benefit the child being supported. The term shall be projected for the next consecutive 12 months and averaged to obtain a monthly amount. For further reference see paragraph (1) of subsection (h) of this Code section.

(25) 'Worksheet' or 'child support worksheet' means the document used to record information necessary to determine and calculate monthly child support. For further reference see subsection (m) of this Code section."

SECTION 2.

Said Code section is further amended by revising paragraph (4) of subsection (c) as follows:

"(4) In all cases, the parties shall submit to the court their worksheets and schedules and the presence or absence of other factors to be considered by the court or the jury pursuant to the provisions of this Code section."

SECTION 3.

Said Code section is further amended by revising subsection (d) as follows:

"(d) **Nature of guidelines; court's discretion.** In the event of a hearing or trial on the issue of child support, the guidelines enumerated in this Code section are intended by the General Assembly to be guidelines only and any court so applying ~~these~~ such guidelines shall not abrogate its responsibility in making the final determination of child support based on the evidence presented to it at the time of the hearing or trial. A court's final determination of child support shall take into account the obligor's earnings, income, and other evidence of the obligor's ability to pay. The court or the jury shall also consider the basic subsistence needs of the parents and the child for whom support is to be provided."

SECTION 4.

Said Code section is further amended by revising subparagraph (f)(1)(E); paragraph (2) of subsection (f); subparagraphs (f)(4)(A), (f)(4)(B), and (f)(4)(D); division (f)(5)(B)(i); and subparagraph (f)(5)(C) as follows:

"(E) **Military compensation and allowances.** Income for a parent who is an active duty member of the regular or reserve component of the United States armed forces, the United States Coast Guard, the merchant marine of the United States, the commissioned corps of the Public Health Service or the National Oceanic and Atmospheric Administration, the National Guard, or the Air National Guard shall include:

- (i) Base pay;
- (ii) Drill pay;
- (iii) Basic allowance for subsistence, whether paid directly to the parent or received in-kind; and
- (iv) Basic allowance for housing, whether paid directly to the parent or received in-kind, determined at the parent's pay grade at the without dependent rate, but shall include only so much of the allowance that is not attributable to area variable housing costs.

Except as determined by the court or the jury, special pay or incentive pay, allowances for clothing or family separation, and reimbursed expenses related to the

parent's assignment to a high cost of living location shall not be considered income for the purpose of determining gross income.

(2) **Exclusions from gross income.** Excluded from gross income are the following:

(A) Child support payments received by either parent for the benefit of a child of another relationship;

(B) Benefits received from means-tested public assistance programs such as, but not limited to:

(i) PeachCare for Kids Program, Temporary Assistance for Needy Families Program, or similar programs in other states or territories under Title IV-A of the federal Social Security Act;

(ii) Food stamps or the value of food assistance provided by way of electronic benefits transfer procedures by the Department of Human Services;

(iii) Supplemental security income received under Title XVI of the federal Social Security Act;

(iv) Benefits received under Section 402(d) of the federal Social Security Act for disabled adult children of deceased disabled workers; and

(v) Low-income heating and energy assistance program payments;

(C) Foster care payments paid by the Department of Human Services or a licensed ~~child-placing~~ child-placing agency for providing foster care to a foster child in the custody of the Department of Human Services; ~~and~~

(D) A nonparent custodian's gross income; and

(E) Benefits received under Title IV-B or IV-E of the federal Social Security Act and state funding associated therewith for adoption assistance."

"(A) **Imputed income.** When establishing the amount of child support, if a parent fails to produce reliable evidence of income, such as tax returns for prior years, check stubs, or other information for determining current ability to pay child support or ability to pay child support in prior years, and the court or the jury has no other reliable evidence of the parent's income or income potential, gross income for the current year may be imputed. When imputing income, the court or the jury shall take into account the specific circumstances of the parent to the extent known, including such factors as the parent's assets, residence, employment and earnings history, job skills, educational attainment, literacy, age, health, criminal record and other employment barriers, and record of seeking work, as well as the local job market, the availability of employers willing to hire the parent, prevailing earnings level in the local community, and other relevant background factors in the case. If a parent is incarcerated, the court or the jury shall not assume an ability for earning capacity based upon pre-incarceration wages or other employment related income, but income may be imputed based upon the actual income and assets available to such incarcerated parent.

(B) **Modification.** When cases with established orders are reviewed for modification and a parent fails to produce reliable evidence of income, such as tax returns for prior years, check stubs, or other information for determining current ability to pay child support or ability to pay child support in prior years, and the

court or the jury has no other reliable evidence of such parent's income or income potential, the court or the jury may impute income as set forth in subparagraph (A) of this paragraph, or may increase the child support of the parent failing or refusing to produce evidence of income by an increment of at least 10 percent per year of such parent's gross income for each year since the final order was entered or last modified and shall calculate the basic child support obligation using the increased amount as such parent's gross income."

"(D) **Willful or voluntary unemployment or underemployment.** In determining whether a parent is willfully or voluntarily unemployed or underemployed, the court or the jury shall ascertain the reasons for the parent's occupational choices and assess the reasonableness of these choices in light of the parent's responsibility to support his or her child and whether such choices benefit the child. A determination of willful or voluntary unemployment or underemployment shall not be limited to occupational choices motivated only by an intent to avoid or reduce the payment of child support but can be based on any intentional choice or act that affects a parent's income. A determination of willful or voluntary unemployment or underemployment shall not be made when an individual's incarceration prevents employment. In determining willful or voluntary unemployment or underemployment, the court or the jury may examine whether there is a substantial likelihood that the parent could, with reasonable effort, apply his or her education, skills, or training to produce income. Specific factors for the court or the jury to consider when determining willful or voluntary unemployment or underemployment include, but are not limited to:

- (i) The parent's past and present employment;
- (ii) The parent's education and training;
- (iii) Whether unemployment or underemployment for the purpose of pursuing additional training or education is reasonable in light of the parent's responsibility to support his or her child and, to this end, whether the training or education may ultimately benefit the child in the case immediately under consideration by increasing the parent's level of support for that child in the future;
- (iv) A parent's ownership of valuable assets and resources, such as an expensive home or automobile, that appear inappropriate or unreasonable for the income claimed by the parent;
- (v) The parent's own health and ability to work outside the home; and
- (vi) The parent's role as caretaker of a child of that parent, a disabled or seriously ill child of that parent, or a disabled or seriously ill adult child of that parent, or any other disabled or seriously ill relative for whom that parent has assumed the role of caretaker, which eliminates or substantially reduces the parent's ability to work outside the home, and the need of that parent to continue in the role of caretaker in the future. When considering the income potential of a parent whose work experience is limited due to the caretaker role of that parent, the court or the jury shall consider the following factors:

- (I) Whether the parent acted in the role of full-time caretaker immediately prior

to separation by the married parties or prior to the divorce or annulment of the marriage or dissolution of another relationship in which the parent was a full-time caretaker;

(II) The length of time the parent staying at home has remained out of the work force for this purpose;

(III) The parent's education, training, and ability to work; and

(IV) Whether the parent is caring for a child who is four years of age or younger. If the court or the jury determines that a parent is willfully or voluntarily unemployed or underemployed, child support shall be calculated based on a determination of earning capacity, as evidenced by educational level or previous work experience. In the absence of any other reliable evidence, income may be imputed to the parent ~~pursuant to a determination that gross income for the current year is based on a 40 hour workweek at minimum wage as provided for in subparagraph (f)(4)(A) of this Code section.~~

A determination of willful and voluntary unemployment or underemployment shall not be made when an individual is activated from the National Guard or other armed forces unit or enlists or is drafted for full-time service in the armed forces of the United States."

"(i) In calculating the adjustment for preexisting orders, the court shall include only those preexisting orders meeting the criteria set forth in subparagraph (a)(18)(B) of this Code section;"

"(C) **Theoretical child support orders.** In addition to the adjustments to monthly gross income for self-employment taxes provided in subparagraph (A) of this paragraph and for preexisting orders provided in subparagraph (B) of this paragraph, credits for either parent's other qualified child living in the parent's home for whom the parent owes a legal duty of support may be considered by the court for the purpose of reducing the parent's gross income. To consider a parent's other qualified children for determining the theoretical child support order, a parent shall present documentary evidence of the parent-child relationship to the court. Adjustments to income pursuant to this subparagraph may be considered in such circumstances in which the failure to consider a qualified child would cause substantial hardship to the parent; provided, however, that such consideration of an adjustment shall be based upon the best interest of the child for whom child support is being awarded. If the court, in its discretion, decides to apply the qualified child adjustment, the basic child support obligation of the parent for the number of other qualified children living with such parent shall be determined based upon that parent's monthly gross income. Except for self-employment taxes paid, no other amounts shall be subtracted from the parent's monthly gross income when calculating a theoretical child support order under this subparagraph. The basic child support obligation for such parent shall be multiplied by 75 percent and the resulting amount shall be subtracted from such parent's monthly gross income and entered on the Child Support Schedule B – Adjusted Income."

SECTION 5.

Said Code section is further amended by revising subparagraphs (h)(1)(A) and (h)(1)(D) and division (h)(1)(F)(ii) as follows:

"(A) Work related child care costs necessary for the parent's employment, education, or vocational training that are determined by the court to be appropriate, and that are appropriate to the parents' financial abilities and to the lifestyle of the child if the parents and child were living together, shall be averaged for a monthly amount and entered on the child support worksheet in the column of the parent initially paying the expense. Work related child care costs of a nonparent custodian shall be considered when determining the amount of this expense."

"(D) If child care is provided without charge to the parent, the value of these services shall not be an adjustment to the basic child support obligation. If child care is or will be provided by a person who is paid for his or her services, proof of actual cost or payment shall be shown to the court before the court includes such payment in its consideration."

"(ii) In situations in which work related child care costs may be variable, the court or the jury may, in its discretion, remove work related child care costs from the calculation of support, and divide the work related child care costs pro rata, to be paid within a time specified in the final order. If a parent or nonparent custodian fails to comply with the final order:

(I) The other parent or nonparent custodian may enforce payment of the work related child care costs by any means permitted by law; or

(II) Child support services shall pursue enforcement when such unpaid costs have been reduced to a judgment in a sum certain."

SECTION 6.

Said Code section is further amended by revising divisions (i)(2)(B)(i) and (i)(2)(B)(viii), subparagraph (i)(2)(C), and subparagraphs (i)(2)(F) through (i)(2)(K) as follows:

"(i) If the noncustodial parent can provide evidence sufficient to demonstrate no earning capacity or that his or her pro rata share of the presumptive amount of child support would create an extreme economic hardship for such parent, the court or the jury may consider a low-income deviation."

"(viii) If a low-income deviation is granted pursuant to this subparagraph, such deviation shall not prohibit the court or the jury from granting an increase or decrease to the presumptive amount of child support by the use of any other specific or nonspecific deviation.

(C) **Other health related insurance.** If the court or the jury finds that either parent has vision or dental insurance available at a reasonable cost for the child, the court or the jury may deviate from the presumptive amount of child support for the cost of such insurance."

"(F) **Travel expenses.** If court ordered visitation related travel expenses are substantial due to the distance between the parents, the court may order the allocation of such costs or the jury may, by a finding in its special interrogatory,

allocate such costs by deviation from the presumptive amount of child support, taking into consideration the circumstances of the respective parents as well as which parent moved and the reason for such move.

(G) **Alimony.** Actual payments of alimony shall not be considered as a deduction from gross income but may be considered as a deviation from the presumptive amount of child support. If the court or the jury considers the actual payment of alimony, the court shall make a written finding of such consideration or the jury, in its special interrogatory, shall make a written finding of such consideration as a basis for deviation from the presumptive amount of child support.

(H) **Mortgage.** If the noncustodial parent is providing shelter, such as paying the mortgage of the home, or has provided a home at no cost to the custodial parent in which the child resides, the court or the jury may allocate such costs or an amount equivalent to such costs by deviation from the presumptive amount of child support, taking into consideration the circumstances of the respective parents and the best interest of the child.

(I) **Permanency plan or foster care plan.** In cases ~~where~~ when the child is in the legal custody of the Department of Human Services, the child protection or foster care agency of another state or territory, or any other child-caring entity, public or private, the court or the jury may consider a deviation from the presumptive amount of child support if the deviation will assist in accomplishing a permanency plan or foster care plan for the child that has a goal of returning the child to the parent or parents and the parent's need to establish an adequate household or to otherwise adequately prepare herself or himself for the return of the child clearly justifies a deviation for this purpose.

(J) **Extraordinary expenses.** The child support obligation table includes average ~~child-rearing~~ child-rearing expenditures for families given the parents' combined adjusted income and number of children. Extraordinary expenses are in excess of average amounts estimated in the child support obligation table and are highly variable among families. Extraordinary expenses shall be considered on a case-by-case basis in the calculation of support and may form the basis for deviation from the presumptive amount of child support so that the actual amount of such expense is considered in the final order for only those families actually incurring the expense. Extraordinary expenses shall be prorated between the parents by assigning or deducting credit for actual payments for extraordinary expenses.

(i) **Extraordinary educational expenses.** Extraordinary educational expenses may be a basis for deviation from the presumptive amount of child support. Extraordinary educational expenses include, but are not limited to, tuition, room and board, lab fees, books, fees, and other reasonable and necessary expenses associated with special needs education or private elementary and secondary schooling that are appropriate to the parent's financial abilities and to the lifestyle of the child if the parents and the child were living together.

(I) In determining the amount of deviation for extraordinary educational expenses, scholarships, grants, stipends, and other cost-reducing programs

received by or on behalf of the child shall be considered; and

(II) If a deviation is allowed for extraordinary educational expenses, a monthly average of the extraordinary educational expenses shall be based on evidence of prior or anticipated expenses and entered on the Child Support Schedule E – Deviations.

(ii) **Special expenses incurred for ~~child-rearing~~ child-rearing.** Special expenses incurred for ~~child-rearing~~ child-rearing, including, but not limited to, quantifiable expense variations related to the food, clothing, and hygiene costs of children at different age levels, may be a basis for a deviation from the presumptive amount of child support. Such expenses include, but are not limited to, summer camp; music or art lessons; travel; school sponsored extracurricular activities, such as band, clubs, and athletics; and other activities intended to enhance the athletic, social, or cultural development of a child but not otherwise required to be used in calculating the presumptive amount of child support as are health insurance premiums and work related child care costs. A portion of the basic child support obligation is intended to cover average amounts of special expenses incurred in the rearing of a child. In order to determine if a deviation for special expenses is warranted, the court or the jury shall consider the full amount of the special expenses as described in this division; and when ~~these~~ such special expenses exceed 7 percent of the basic child support obligation, then the additional amount of special expenses shall be considered as a deviation to cover the full amount of the special expenses.

(iii) **Extraordinary medical expenses.** In instances of extreme economic hardship involving extraordinary medical expenses not covered by insurance, the court or the jury may consider a deviation from the presumptive amount of child support for extraordinary medical expenses. Such expenses may include, but are not limited to, extraordinary medical expenses of the child or a parent of the child; provided, however, that any such deviation:

(I) Shall not act to leave a child unsupported; and

(II) May be ordered for a specific period of time measured in months.

When extraordinary medical expenses are claimed, the court or the jury shall consider the resources available for meeting such needs, including sources available from agencies and other adults.

(K) Parenting time.

(i) The child support obligation table is based upon expenditures for a child in intact households. The court may order or the jury may find by special interrogatory a deviation from the presumptive amount of child support when special circumstances make the presumptive amount of child support excessive or inadequate due to extended parenting time as set forth in the order of visitation, the child residing with both parents equally, or visitation rights not being utilized.

(ii) If the court or the jury determines that a parenting time deviation is applicable, then such deviation shall be included with all other deviations.

(iii) In accordance with subsection (d) of Code Section 19-11-8, if any action or

claim for parenting time or a parenting time deviation is brought under this subparagraph, it shall be an action or claim solely between the custodial parent and the noncustodial parent, and not any third parties, including child support services."

SECTION 7.

Said Code section is further amended by revising paragraphs (2) and (5) of subsection (k) as follows:

"(2) No petition to modify child support may be filed by either parent within a period of two years from the date of the final order on a previous petition to modify by the same parent except ~~where~~ when:

- (A) A noncustodial parent has failed to exercise the court ordered visitation;
- (B) A noncustodial parent has exercised a greater amount of visitation than was provided in the court order; or
- (C) The motion to modify is based upon an involuntary loss of income as set forth in subsection (j) of this Code section."

"(5) In proceedings for the modification of a child support award pursuant to the provisions of this Code section, the court may award attorney's fees, costs, and expenses of litigation to the prevailing party as the interests of justice may require. ~~Where~~ When a custodial parent prevails in an upward modification of child support based upon the noncustodial parent's failure to be available and willing to exercise court ordered visitation, reasonable and necessary attorney's fees and expenses of litigation shall be awarded to the custodial parent."

SECTION 8.

Said Code section is further amended by revising subsection (n) as follows:

"(n) **Child support obligation table.** The child support obligation table shall be proposed by the Georgia Child Support Commission and shall be as codified in subsection (o) of this Code section."

SECTION 9.

All laws and parts of laws in conflict with this Act are repealed.

COMMITTEES OF CONFERENCE SUBSTITUTE TO HB 324

A BILL TO BE ENTITLED
 AN ACT

To amend Chapter 12 of Title 16 of the Official Code of Georgia Annotated, relating to offenses against public health and morals, so as to provide for the production, manufacturing, and dispensing of low THC oil in this state; to provide for an exception to possession of certain quantities of low THC oil; to provide for definitions; to require a license to produce, grow, manufacture, or dispense low THC oil in this state; to provide for the creation of the Georgia Access to Medical Cannabis Commission; to provide for

its membership, powers, and duties; to provide for the issuance of designated university licenses and Class 1 and Class 2 production licenses; to authorize the University System of Georgia to obtain cannabis through the National Institute on Drug Abuse or from any available legal source; to provide for the dispensing of low THC oil by pharmacies; to provide for dispensing licenses; to provide for seed-to-sale tracking systems; to provide for retrospective study; to provide for enforcement by the Georgia Bureau of Investigation; to provide for facility inspections and product sample testing; to prohibit certain convicted felons from working as employees for licensees; to provide for confidentiality of records; to provide for transfer of certain licenses; to provide for revocation of licenses; to prohibit ownership by certain physicians in low THC oil manufacturers or distributors; to provide for violations and penalties; to provide for immunity; to provide for reimbursement of legal expenses for state employees; to provide for contracts; to prohibit ingesting low THC oil through vaping; to prohibit regulation by the Department of Agriculture; to amend Chapter 11 of Title 2 of the Official Code of Georgia, relating to seeds and plants generally, so as to provide for an exception; to amend Code Section 31-2A-18 of the Official Code of Georgia Annotated, relating to establishment of the Low THC Oil Patient Registry, so as to require a physician to review information in the prescription drug monitoring program data base; to provide for research to determine the efficacy of low THC oil for treatment of conditions; to provide for related matters; to provide for a short title; to provide for legislative findings; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

This Act shall be known and may be cited as "Georgia's Hope Act."

SECTION 2.

(a) The General Assembly finds that the establishment of the Low THC Oil Patient Registry in 2015 allows Georgia patients to possess low THC oil but provides no way to access low THC oil. The General Assembly finds that thousands of Georgians have serious medical conditions that can be improved by the medically approved use of cannabis and that the law should not stand between them and treatment necessary for life and health. The General Assembly finds that the purpose of this Act is to allow the legitimate use of medical cannabis for health care, including palliative care. The General Assembly finds that this Act does not in any way diminish this state's strong public policy and laws against illegal drug use, nor should it be deemed in any manner to advocate, authorize, promote, or legally or socially accept the use of marijuana for children or adults for any nonmedical use.

(b) The General Assembly further finds that:

- (1) Low THC oil can offer significant medical benefits to patients;
- (2) Low THC oil can only be derived from the cannabis plant;
- (3) A carefully constructed system of in-state cultivation to benefit only those patients authorized by Georgia law and approved by their physician would benefit

patients within the State of Georgia;

(4) The State of Georgia is deeply opposed to any recreational or nonmedical use of marijuana, and any system to help patients access low THC oil should be as limited in scope as possible;

(5) Business opportunities resulting from a system of in-state cultivation should be inclusive of minority, women, and veteran owned businesses;

(6) Businesses resulting from this Act should include at least 20 percent participation by minority, women, and veteran owned businesses as licensees, suppliers, and partners of businesses licensed under this Act; and

(7) The State of Georgia should encourage active participation by minority, women, and veteran owned businesses, as well as take any steps necessary to ensure there is no discrimination in the issuance of licenses or participation in business activities resulting from this Act.

SECTION 3.

Chapter 12 of Title 16 of the Official Code of Georgia Annotated, relating to offenses against public health and morals, is amended by revising Code Section 16-12-191, relating to possession, manufacture, distribution, or sale of low THC oil and penalties, as follows:

"20-2-1185.

(a) As used in this Code section, the term 'site threat assessment' means conducting an evaluation for purposes of most effectively responding to, or preventing or reducing, the threat of violence, mass casualty incidents and other acts of terrorism, natural disasters, and hazardous materials or radiological accidents.

(b)(1) Trained and approved private individuals and entities or government agencies

may provide site threat assessments to public schools. After July 1, 2019, such individuals or entities shall be certified prior to providing a site threat assessment to a public school; provided, however, that no government agency shall be required to obtain a certification for purposes of this Code section in conducting such site threat assessments. The Georgia Emergency Management and Homeland Security Agency shall certify and maintain a list of individuals and entities approved for purposes of this Code section to provide site threat assessments to public schools.

(2) By January 1, 2021, or prior to its opening for use by students, and every five years thereafter, every public school shall have performed a site threat assessment of its buildings, facilities, and campuses by an individual or entity approved pursuant to paragraph (1) of this subsection or by a government agency. Such site threat assessment shall inform the preparation and maintenance of a school safety plan as provided for in subsection (c) of this Code section.

~~(a)~~(c) Every public school shall prepare, and review and update annually as necessary, a school safety plan to help curb the growing incidence of violence in schools, to respond effectively to such incidents, and to provide a safe learning environment for Georgia's children, teachers, and other school personnel. Such plan shall also address preparedness for natural disasters, hazardous materials or radiological accidents, acts of violence, and acts of terrorism. School safety plans of public schools shall be prepared with input from students enrolled in that school, parents or legal guardians of such students, teachers in that school, community leaders, other school employees and school district employees, and local law enforcement, juvenile court, fire service, public safety, and emergency management agencies. The Department of Education shall post a list on its website showing all schools that have completed and all schools that are delinquent in completing the school safety plan. As part of such plans, public schools shall provide for the coordination with local law enforcement agencies and the local juvenile court system. School safety plans shall include, at a minimum, the following strategy areas:

- (1) Training school administrators, teachers, and support staff, including, but not limited to, school resource officers, security officers, secretaries, custodians, and bus drivers, on school violence prevention, school security, school threat assessment, mental health awareness, and school emergency planning best practices;

Such plans shall be reviewed and, if necessary, updated annually. ~~Such plans of public schools shall be submitted to the local emergency management agency and the local law enforcement agency for approval.~~

~~(b)(e)~~ A public school may request funding assistance from the state for facilities, technology, or other safety improvements or initiatives, such as the installation of safety equipment, including, but not limited to, video surveillance cameras, metal detectors, alarms, communications systems, building access controls, and other similar security devices. The Department of Education shall establish criteria that will be applied in reviewing funding requests pursuant to this subsection which shall take into consideration the physical security needs of the public school in evaluating how the school safety plan and funding request will support such physical security needs. Funding may be provided to a public school in accordance with a school safety plan prepared by the school and approved ~~by the local board of education, the local law enforcement agency, the Department of Education, and the Georgia Emergency Management and Homeland Security Agency~~ as provided for in subsection (c) of this Code section; provided, however, that a public school shall be required to match the state funding with local funds unless the school can demonstrate a substantial hardship.

~~(e)~~ ~~School safety plans prepared by public schools shall address security issues in school safety zones as defined in Code Section 16-11-127.1. School safety plans should also address security issues involving the transportation of pupils to and from school and school functions when such transportation is furnished by the school or school system and school functions held during noninstructional hours.~~

~~(d)(f)~~ The Georgia Emergency Management and Homeland Security Agency shall provide training and technical assistance to public school systems, and may provide this same training and technical assistance to private school systems and independent private schools throughout this state in the area of emergency management and safe school operations. safety drills or reacting to potential mass casualty incidents shall be at the discretion of the public school.

(h) Beginning July 1, 2019, each school year every local board of education shall provide an annual report to the public for the prior school year and up to the date of the annual report on all projects, initiatives, and activities initiated, completed, or maintained in furtherance of school safety planning, including, but not limited to, the amount of funding spent for purposes of school safety; provided, however, that nothing in this subsection shall be construed to require a local board of education to disclose operational details or the existence of activities that, by the disclosure of which, would compromise a school safety plan; and provided, further, that nothing in this subsection shall in any way operate or be construed to affect, repeal, or limit the exemption of school safety plans from public disclosure as provided for in paragraph (25.1) of Code Section 50-18-72.
