SECTION 4.

Said chapter is further amended by revising Code Section 12-5-7, relating to local variances from state restrictions on outdoor watering, as follows:

"12-5-7.

(a)(1) Any political subdivision of this state or local government authority may, upon application to and approval by the director of the Environmental Protection Division of the department for good cause shown, impose more stringent restrictions on outdoor water use during nondrought periods or state declared periods of drought than those applicable restrictions, if any, imposed by the state during such periods. For purposes of this subsection, 'good cause' means evidence sufficient to support a reasonable conclusion, considering available relevant information, that such additional restrictions are necessary and appropriate to avoid or relieve a local water shortage. A variance granted pursuant to this subsection shall be valid for such period as determined by the director.

(2) Paragraph (1) of this subsection shall not prohibit a political subdivision or local government authority from imposing more stringent restrictions on outdoor water use in case of an emergency which immediately threatens the public health, safety, or welfare; provided, however, that such emergency restrictions shall be valid for a period not exceeding seven days unless a variance is granted by the director pursuant to paragraph (1) of this subsection. If the director determines that a political subdivision or local government authority is exercising emergency powers granted by this paragraph in a manner to circumvent the necessity of obtaining such a variance, he or she may suspend the emergency powers granted by this paragraph to such political subdivision or local government authority.

(3) In the event that a political subdivision of this state or local government authority is unable to satisfy reduced water consumption or other permit requirements under its water withdrawal or operating permit due to its inability under this subsection to impose more stringent restrictions on outdoor water use during periods of drought than those applicable restrictions, if any, imposed by the state, such political subdivision or local government authority shall be exempt from fines, sanctions, or other penalties applicable for such failure upon the approval of the director of the Environmental Protection Division of the department. The director shall consider all measures implemented by such political subdivision or local government authority
prior to issuing fines, sanctions, or other penalties applicable, if any, for such failure. The political subdivision or local government authority shall notify the director of the Environmental Protection Division of the department within ten business days following the discovery of such failure. The director may request additional information at any time to substantiate such a claim.

(4) The director of the Environmental Protection Division may revoke, suspend, or modify, upon not less than three days' written notice, a political subdivision's or local government authority's water withdrawal or waste treatment permit issued pursuant to this chapter consistent with the health, safety, and welfare of the citizens of this state for violation of paragraph (1) or (2) of this subsection or any variance granted pursuant thereto.

(a.1)(1) Persons may irrigate outdoors daily for purposes of planting, growing, managing, or maintaining ground cover, trees, shrubs, or other plants only between the hours of 4 P.M. and 10:00 A.M.

(2) Paragraph (1) of this subsection shall not create any limitation upon the following outdoor water uses:

(A) Commercial agricultural operations as defined in Code Section 1-3-3;
(B) Capture and reuse of cooling system condensate or storm water in compliance with applicable local ordinances and state guidelines;
(C) Reuse of gray water in compliance with Code Section 31-3-5.2 and applicable local board of health regulations adopted pursuant thereto;
(D) Use of reclaimed waste water by a designated user from a system permitted by the Environmental Protection Division of the department to provide reclaimed waste water;
(E) Irrigation of personal food gardens;
(F) Irrigation of new and replanted plant, seed, or turf in landscapes, golf courses, or sports turf fields during installation and for a period of 30 days immediately following the date of installation;
(G) Drip irrigation or irrigation using soaker hoses;

(K) Irrigation of athletic fields, golf courses, or public turf grass recreational areas;
(L) Installation, maintenance, or calibration of irrigation systems; or
(M) Hydroseeding.

(3) Governing authorities of counties and municipalities shall adopt the provisions of paragraphs (1) and (2) of this subsection by ordinance, to become effective not later than January 1, 2011, and violations of such adopted provisions shall be punished as ordinance violations.

(b) Any political subdivision of this state or local government authority may apply for and, upon approval by the director of the Environmental Protection Division of the department for good cause shown, shall be granted an exemption from nonstatutory
outdoor watering restrictions or water use reductions imposed by the state. For purposes of this subsection, 'good cause' means evidence sufficient to support a reasonable conclusion, considering available relevant information, that such restrictions, reductions, or both are not necessary and appropriate to avoid or relieve a local water shortage. A variance granted pursuant to this subsection shall be valid for such period as determined by the director.

(c) The director shall render a decision on an application made by a political subdivision or local government authority under subsection (a) or (b) of this Code section within five business days after receipt thereof.

(d) This Code section shall stand repealed and reserved on July 1, 2010.

(d)(1) Any permittee who is aggrieved or adversely affected by any order or action of the director of the Environmental Protection Division pursuant to this Code section shall have a right to a hearing pursuant to the provisions of Code Section 12-2-2.

(2) Notwithstanding the stay provisions of subparagraph (c)(2)(B) of Code Section 12-2-2, the filing of a petition for a hearing before an administrative law judge from an action taken pursuant to this Code section stays the order of the director of the Environmental Protection Division for not more than five days and such stay shall automatically be lifted without further action by the director if the petition has not been ruled upon by the end of the fifth day following filing of the petition; provided, however, that the petitioner's right to a hearing remains in full force and effect."

(2) An inactive farm use surface water withdrawal permit means one where the permit holder has requested inactive status in order to retain ownership of the permit for possible future use or reuse. Inactive permits shall be retained by the permit holder without modification;
(3) An unused farm use surface water withdrawal permit means one that has never been used for allowable purposes. Unused permits expire after two years unless changed to active or inactive status by notification to the director. Unused permits shall not be transferred or assigned to subsequent owners of the lands as provided in paragraph (3) of subsection (a) of this Code section;

(1) An active farm use ground-water withdrawal permit means one that has been acted upon and used for allowable purposes;

(2) An inactive farm use ground-water withdrawal permit means one where the permit holder has requested inactive status in order to retain ownership of the permit for possible future use or reuse. Inactive permits shall be retained by the permit holder without modification;

(3) An unused farm use ground-water withdrawal permit means one that has never been used for allowable purposes. Unused permits expire after two years unless changed to active or inactive status by notification to the director. Unused permits shall not be transferred or assigned to subsequent owners of the lands as provided in paragraph (1) of subsection (b) of this Code section;

(4) An inactive farm use ground-water withdrawal permit shall be reclassified to active when the permit holder has given the director 60 days' written notice and paid any applicable fees in accordance with subsection (a) of this Code section;

(5) The director shall, via certified mail, return receipt requested, contact, or cause to be contacted, any person who holds a permit that the director has determined is unused. The notification shall include the permit identification and information regarding the classifications and procedures for changing classifications. (b) Except as otherwise provided in subsections (c) and (d) of this Code section, the owner or operator of a building containing residential units may charge tenants separately for water and waste-water service, provided that the total amount of the charges to the tenants of such a building shall not exceed the total charges paid by the owner or operator for water and waste-water service for such building plus a reasonable fee for establishing, servicing, and billing for water and waste-water service and provided, further, that the terms of the charges are disclosed to the tenants prior to any contractual agreement.
(c) All new multiunit residential buildings permitted on or after July 1, 2012, shall be constructed in a manner which will permit the measurement by a county, municipal, or other public water system or by the owner or operator of water use by each unit. This subsection shall not apply to any building constructed or permitted prior to July 1, 2012, which is thereafter: (1) renovated; or (2) following a casualty or condemnation, renovated or rebuilt.
(d) All new multiunit retail and light industrial buildings permitted or with a pending permit application on or after July 1, 2012, shall be constructed in a manner which will permit the measurement by the owner or operator of water use by each unit. This subsection shall not apply to any building constructed or permitted prior to July 1, 2012, which is thereafter: (1) renovated; or (2) following a casualty or condemnation, renovated or rebuilt. This subsection is not intended to apply to newly constructed multiunit office buildings or office components of mixed use developments. Multiunit office buildings and the office component of mixed use developments may seek reimbursement from office tenants for water and waste-water use through an economic allocation which approximates the water use of each tenant based on square footage. The retail component of a mixed use development shall be constructed in a manner which will permit the measurement by the owner or operator of water use by each retail unit.
(e)(1) A county, municipal, or other public water system, if applicable, or the owner or operator of a building which is subject to subsection (c) or (d) of this Code section shall seek reimbursement for water and waste-water usage by the units through an economic allocation methodology which is based on the measured quantity of water
used by each unit.

(2) The owner or operator of such a building which includes common areas for the benefit of the units may also seek reimbursement for common area water and waste-water use through an economic allocation which approximates the portion of the common area water and waste-water services allocable to each unit.

(3) The total amount of charges to the units under paragraphs (1) and (2) of this subsection shall not exceed the total charges paid by the owner or operator for water and waste-water service for the building, plus a reasonable fee for establishing, servicing, and billing water and waste-water consumption.

(4) The director shall be empowered to issue a temporary waiver of this subsection upon a showing by an owner or operator of a building subject to this subsection that compliance with this subsection has temporarily become impracticable due to circumstances beyond the control of the owner or operator. Such waiver shall be limited in duration to the period during which such circumstances remain in effect and beyond the control of the owner or operator to change.

(5) The owner or operator who seeks reimbursement for water and waste-water usage as required by this chapter shall be relieved of liability for actions or inactions that occur as a result of billing or meter-reading errors by an unaffiliated third-party billing or meter-reading company.

(f) A county, municipal, or other public water system shall be prohibited from charging any fee or levy for the installation or use of privately owned meters or other devices which measure or assist in the measurement of water use under subsection (c) of this Code section; provided, however, a county, municipal or other public water system shall be permitted to charge a fee or levy for the installation or use of publicly owned meters or other devices which measure or assist in the measurement of water use.

(g) Subsections (c), (d), and (e) of this Code section shall not apply to any construction of a building the permit for which was granted prior to July 1, 2012."

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 37 of Title 36 of the Official Code of Georgia Annotated, relating to the acquisition and disposition of real and personal property generally, so as to provide for definitions; to provide that a municipal corporation may determine when it is appropriate to establish a conservation easement; to provide for related matters; to provide for an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 37 of Title 36 of the Official Code of Georgia Annotated, relating to the acquisition and disposition of real and personal property generally, is amended by revising subsection (a) of Code Section 36-37-6, relating to the sale or disposition of municipal property, as follows:

"(a) Except as otherwise provided in subsections (b) through (i)(j) of this Code section, the governing authority of any municipal corporation disposing of any real or personal property of such municipal corporation shall make all such sales to the highest responsible bidder, either by sealed bids or by auction after due notice has been given. Any such municipal corporation shall have the right to reject any and all bids or to cancel any proposed sale. The governing authority of the municipal corporation shall cause notice to be published once in the official legal organ of the county in which the
municipality is located or in a newspaper of general circulation in the community, not less than 15 days nor more than 60 days preceding the day of the auction or, if the sale is by sealed bids, preceding the last day for the receipt of proposals. The legal notice shall include a general description of the property to be sold if the property is personal property or a legal description of the property to be sold if the property is real property. If the sale is by sealed bids, the notice shall also contain an invitation for proposals and shall state the conditions of the proposed sale, the address at which bid blanks and other written materials connected with the proposed sale may be obtained, and the date, time, and place for the opening of bids. If the sale is by auction, the notice shall also contain the conditions of the proposed sale and shall state the date, time, and place of the proposed sale. Bids received in connection with a sale by sealed bidding shall be opened in public at the time and place stated in the legal notice. A tabulation of all bids received shall be available for public inspection following the opening of all bids. All such bids shall be retained and kept available for public inspection for a period of not less than 60 days from the date on which such bids are opened. The provisions of this subsection shall not apply to any transactions authorized in subsections (b) through (j)(j) of this Code section.

SECTION 2.

Said chapter is further amended in Code Section 36-37-6, relating to the sale or disposition of municipal property, by revising subsection (j) as follows:

"(j)(1) As used in this subsection, the term:

(A) 'Conservation easement' shall have the same meaning as set forth in Code Section 44-10-2.

(B) 'Holder' shall have the same meaning as set forth in Code Section 44-10-2.

(2) Notwithstanding any provision of this Code section or of any other law or ordinance to the contrary, whenever the governing authority of any municipal corporation determines that the establishment of a conservation easement would be of benefit to the municipal corporation and to its citizens, such governing authority may sell or grant to any holder a conservation easement over any of its real property, including but not limited to any of its real property set aside for use as a park. These powers shall be cumulative of other powers and shall not be deemed to limit their exercise in any way.

(k)(1) Notwithstanding any provision of this Code section or any other law to the contrary, the General Assembly by local Act may authorize the governing authority of any municipal corporation to lease or enter into a contract for a valuable consideration for the operation and management, and renewals and extensions thereof, of any real or personal property comprising fairgrounds, ballfields, golf courses, swimming pools, or other like property used primarily for recreational purposes for a period not to exceed five years to a nonprofit corporation which is qualified as exempt from taxation under the provisions of Section 501(c)(3) of the Internal Revenue Code of 1986 that will covenant to use and operate the property for annual regional fair purposes or to continue the recreational purpose for which the property was formerly
used and intended on a nondiscriminatory basis for the use and benefit of all citizens of the community; provided, however, that nothing in this subsection shall have the effect of authorizing alienation of title to such property in derogation of rights, duties, and obligations imposed by prior deed, contract, or like document of similar import or that would cause the divesting of title to property dedicated to public use and not subsequently abandoned; and provided further, that the lessee or contractee under a management contract shall not mortgage or pledge the property as security for any debt or incur any encumbrance that could result in a lien or claim of lien against the property. The lease or management contract may provide for options to renew such lease or management contract for not more than three renewal periods and each such renewal period shall not be greater than the original length of such lease or management contract. As a condition of any lease or management contract, the lessee or contractee shall provide and maintain in force and effect throughout the term of such lease or management contract sufficient liability insurance, in an amount not less than $1 million per claim, no aggregate, naming the municipality as a named insured; shall assume sole responsibility for or incur liability for any injury to person or property caused by any act or omission of such person while on the property; and shall agree to indemnify the municipality and hold it harmless from any claim, suit, or demand made by such person. As an additional condition of any such lease or management contract, the lessee or contractee shall provide to and maintain with the municipality a current copy of the liability insurance policy, including any changes in such policy or coverages as such changes occur, and shall provide proof monthly in writing to the municipality that the lessee or contractee has in force and effect the liability insurance required by this paragraph which the municipality shall retain on file. As a further condition of any lease or management contract, the lessee or contractee shall agree to indemnify the municipality and hold it harmless from any claim, suit, or demand arising out of any improvements to the property or any indebtedness or obligations incurred by the lessee or contractee in making any such improvements to such property. When the lessee or contractee charges any person to enter or go upon the land for the purpose of attending the annual regional fair or for attending or participating in recreational purposes, the consideration received by the municipal corporation for the lease or management contract shall not be deemed a charge within the meaning of Article 2 of Chapter 3 of Title 51.

(2) Any governing authority entering into a lease as provided in paragraph (1) of this subsection shall have the right unilaterally to terminate such lease after giving three months' notice of its intention to do so.

(3) Any lease entered into as provided in paragraph (1) of this subsection shall be automatically terminated upon conviction of the lessee or contractee for any offense involving the conduct of unlawful activity. In such event, any improvements to the property made by the lessee shall be forfeited. The municipality shall not be liable in any manner or subject to suit for any indebtedness or other obligations of the lessee or contractee associated with any such improvements to the property and shall take such improvements free and clear of any such indebtedness or other obligations.
(1)(1) In addition to any other authorization or power, the governing authority of any municipal corporation may lease or enter into a contract for valuable consideration for the use, operation, or management of any real or personal property of the municipal corporation; provided, however, that:

(A) Any lease or contract for the use, operation, or management of any real or personal property for longer than 30 days shall be by sealed bids or by auction as provided in subsection (a) of this Code section;

(B) Nothing in this subsection shall have the effect of authorizing alienation of title to such property in derogation of rights, duties, and obligations imposed by prior deed, contract, or like document of similar import or shall cause the divesting of title to property dedicated to public use and not subsequently abandoned; and

(C) The lessee or contractee shall not mortgage or pledge the property, lease or contract the property as security for any debt, or incur any encumbrance that could result in a lien or claim of lien against the property, lease, or contract.

(2) As a condition of any lease or contract for the use, operation, or management of any real or personal property for longer than 30 days:

(A) The lessee or contractee shall provide and maintain in force in effect throughout the term of such lease or contract sufficient liability insurance, in an amount not less than $1 million per claim, no aggregate, naming the municipality as a named insured;

(B) The lessee or contractee shall assume sole responsibility for or incur liability for any injury to person or property caused by any act or omission of any person while on the property and shall agree to indemnify the municipality and hold it harmless from any claim, suit, or demand made by any person; and

(C) The lessee or contractee shall agree to indemnify the municipality and hold it harmless from any claim, suit, or demand arising out of any improvements to the property or any indebtedness or obligations incurred by the lessee or contractee in making any such improvement to such property.

(3) The initial term of a lease or contract for the use of real property shall be no longer than five years and there may be one renewal period of no longer than five years, after which the lease or contract shall again be subject to sealed bids or auction. When the lessee or contractee charges any person to enter or go upon the real property for recreational purposes, the consideration received by the municipal corporation for the lease or contract shall not be deemed a charge within the meaning of Article 2 of Chapter 3 of Title 51.

(4) This subsection shall apply to any lease or contract entered into or renewed on or after July 1, 2010. This subsection shall not effect any provisions of subsection (k) of this Code section."

SECTION 3.

This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.
SECTION 4.
All laws and parts of laws in conflict with this Act are repealed.

SR 822. By Senators Mullis of the 53rd, Stoner of the 6th, Pearson of the 51st, Murphy of the 27th, Jackson of the 24th and others:

A RESOLUTION urging the Georgia Department of Transportation to seek a waiver from the Federal Highway Administration in order to allow retail
developments in rest areas along the interstate highway system; and for other purposes.

The Senate Transportation Committee offered the following substitute to SR 822:

A RESOLUTION

Urging the Georgia Department of Transportation to seek a waiver from the Federal Highway Administration in order to allow retail developments in rest areas along the interstate highway system; and for other purposes.

WHEREAS, the earliest form of rest areas for weary travelers appeared in the 1920's; and

WHEREAS, the rest areas travelers are familiar with today came into being after the 1956 creation of the Interstate Highway System; and

WHEREAS, states have the responsibility for creating and maintaining rest areas; and

WHEREAS, the Federal Highway Administration, in 23 C.F.R. Section 752.5, prevents the Georgia Department of Transportation from allowing the operation of commercial retail operations within rest areas along the interstate highway system; and

WHEREAS, the State of Georgia, in general, and the Georgia Department of Transportation, in particular, are experiencing an unprecedented downturn in the amount of funds available to maintain and operate rest stops along the interstate highway system; and

WHEREAS, one way to alleviate the cost to the state of maintaining and operating the rest stops would be to allow certain commercial retail operations, excluding retail operations that store or dispense motor fuel, to operate within the rest areas and to assume the cost for the operation and maintenance of such rest areas.

NOW, THEREFORE, BE IT RESOLVED BY THE GENERAL ASSEMBLY OF GEORGIA that the members of this body urge the Georgia Department of Transportation to seek a waiver from the Federal Highway Administration in order to allow commercial retail operations in rest areas along the interstate highway system in this state.

A BILL to be entitled an Act to amend Title 36 of the Official Code of Georgia Annotated, relating to local government, so as to provide procedures for reviewing applications for the modification or collocation of wireless communication facilities; to provide a short title; to provide legislative findings
The Senate Regulated Industries and Utilities Committee offered the following substitute to SB 432:

A BILL TO BE ENTITLED
AN ACT

To amend Title 36 of the Official Code of Georgia Annotated, relating to local government, so as to provide procedures for reviewing applications for the modification or collocation of wireless communication facilities; to provide a short title; to provide legislative findings and intent; to provide definitions; to provide for related matters; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.
Title 36 of the Official Code of Georgia Annotated, relating to local government, is amended by adding a new chapter to read as follows:

"CHAPTER 66B

36-66B-1. This chapter shall be known and may be cited as the 'Advanced Broadband Collocation Act.'

36-66B-2. (a) The General Assembly finds that the enactment of this chapter is necessary to:
(1) Ensure the safe and efficient integration of facilities necessary for the provision of broadband and other advanced wireless communication services throughout this state;
(2) Ensure the ready availability of reliable wireless communication services to the public to support personal communications, economic development, and the general welfare; and
(3) Encourage where feasible the modification or collocation of wireless facilities on existing wireless support structures over the construction of new wireless support structures in the deployment or expansion of commercial wireless networks.
(b) While recognizing and confirming the purview of local governments to exercise zoning, land use, and permitting authority within their territorial boundaries with regard to the location, construction, and modification of wireless communication facilities, it is the intent of this chapter to establish procedural standards for the exercise of such authority so as to streamline and facilitate the modification of such facilities, including the placement of new or additional wireless facilities on existing wireless support structures. It is not the intent of this chapter to limit or preempt the scope of a local government's review of zoning, land use, or permitting applications for the siting of
wireless facilities or wireless support structures or to require a local government to exercise its zoning power.

36-66B-3. As used in this chapter, the term:

(1) 'Accessory equipment' means any equipment serving or being used in conjunction with a wireless facility or wireless support structure and includes, but is not limited to, utility or transmission equipment, power supplies, generators, batteries, cables, equipment buildings, cabinets, and storage sheds, shelters, or similar structures.

(2) 'Antenna' means communications equipment that transmits and receives electromagnetic radio signals used in the provision of all types of wireless communication services.

(3) 'Application' means a formal request submitted to the local governing authority to construct or modify a wireless support structure or a wireless facility. An application shall be deemed complete when all documents, information, and fees specifically enumerated in the local governing authority's regulations, ordinances, and forms pertaining to the location, construction, modification, or operation of wireless facilities are submitted by the applicant to the authority.

(4) 'Collocation' means the placement or installation of new wireless facilities on previously approved and constructed wireless support structures, including monopoles and towers, both self-supporting and guyed, in a manner that negates the need to construct a new freestanding wireless support structure. Such term includes the placement of accessory equipment within an existing equipment compound.

(5) 'Equipment compound' means an area surrounding or adjacent to the base of a wireless support structure within which accessory equipment is located.

(6) 'Local governing authority' means a municipality or county that has adopted land use or zoning regulations for all or the majority of land uses within its jurisdiction or has adopted separate regulations pertaining to the location, construction, modification, or operation of wireless facilities.

(7) 'Modification' or 'modify' means the improvement, upgrade, expansion, or replacement of existing wireless facilities on an existing wireless support structure or within an existing equipment compound, provided such improvement, upgrade, expansion, or replacement does not increase the height of the wireless support structure or increase the dimensions of the equipment compound.

(8) 'Wireless facility' means the set of equipment and network components, exclusive of the underlying wireless support structure, including antennas, transmitters, receivers, base stations, power supplies, cabling, and accessory equipment, used to provide wireless data and telecommunication services.

(9) 'Wireless support structure' means a freestanding structure, such as a monopole, tower, either guyed or self-supporting, or suitable existing or alternative structure designed to support or capable of supporting wireless facilities. Such term shall not include any electrical utility pole or tower used for the distribution or transmission of electrical service.
36-66B-4.

(a) Applications for collocation or modification of a wireless facility entitled to streamlined processing under this Code section shall be reviewed for conformance with applicable site plan and building permit requirements, including zoning and land use conformity, but shall not otherwise be subject to the issuance of additional zoning, land use, or special use permit approvals beyond the initial zoning, land use, or special permit approvals issued for such wireless support structure or wireless facility. The intent of this Code section is to allow previously approved wireless support structures and wireless facilities to be modified or accept collocations without additional zoning or land use review beyond that which is typically required by the local governing authority for the issuance of building or electrical permits.

(b) The streamlined process set forth in subsection (a) of this Code section shall apply to applications for all modifications and to applications for all proposed collocations that meet the following requirements:

1. The proposed collocation shall not increase the overall height or width of the wireless support structure to which the wireless facilities are to be attached;
2. The proposed collocation shall not increase the dimensions of the equipment compound approved by the local governing authority;
3. The proposed collocation shall comply with applicable conditions of approval, if any, applied to the initial wireless facilities and wireless support structure, as well as any subsequently adopted amendments to such conditions of approval; and
4. The proposed collocation shall not exceed the applicable weight limits for the wireless support structure, as demonstrated by a letter from a structural engineer licensed to practice in this state.

(c) A local governing authority's review of an application to modify or collocate wireless facilities on an existing wireless support structure shall not include an evaluation of the technical, business, or service characteristics of such proposed wireless facilities. A local governing authority shall not require an applicant to submit radio frequency analyses or any other documentation intended to demonstrate the proposed service characteristics of the proposed wireless facilities, to illustrate the need for such wireless facilities, or to justify the business decision to collocate such wireless facilities; provided, however, that the local governing authority may require the applicant to provide a letter from a radio frequency engineer certifying the applicant's proposed wireless facilities will not interfere with emergency communications.

(d) Within 90 calendar days of the date an application for modification or collocation of wireless facilities is filed with the local governing authority, unless another date is specified in a written agreement between the local governing authority and the applicant, the local governing authority shall:

1. Make its final decision to approve or disapprove the application; and
2. Advise the applicant in writing of its final decision.

(e) Within 30 calendar days of the date an application for modification or collocation is filed with the local governing authority, the local governing authority shall notify the applicant in writing of any information required to complete the application. To the
extent additional information is required to complete the application, the time required by the applicant to provide such information shall not be counted toward the 90 calendar day review period set forth in subsection (d) of this Code section."

SECTION 2.
This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 3.
All laws and parts of laws in conflict with this Act are repealed.

On the adoption of the substitute, there were no objections, and the committee substitute was adopted.

SECTION 1-2.

Said title is further amended by adding a new Code section to read as follows:

"48-5-306.2. The commissioner shall establish by rule and regulation a uniform appeal form that the taxpayer may use and a uniform notice of assessment."

PART II

SECTION 2-1.

Said title is further amended by revising Code Section 48-5-311, relating to county boards of equalization and appeals of ad valorem tax assessments, as follows:

"48-5-311. (a) Establishment. (1) There is established in each county of the state a county board of equalization to consist of three members and three alternate members appointed in the manner and for the term set forth in this Code section. In those counties having more than 10,000 parcels of real property, the county governing authority, by appropriate resolution adopted on or before November 1 of each year, may elect to have selected one additional county board of equalization for each 10,000 parcels of real property in the county or for any part of a number of parcels in the county exceeding 10,000 parcels.

(2) Notwithstanding any part of this subsection to the contrary, at any time the governing authority of a county makes a request to the grand jury of the county for additional alternate members of boards of equalization, the grand jury shall appoint the number of alternate members so requested to each board of equalization, such number not to exceed a maximum of 21 alternate members for each of the boards. The alternate members of the boards shall be duly qualified and authorized to serve on any of the boards of equalization of the county. The grand jury of any such county may designate a chairperson and two vice chairpersons of each such board of equalization. The chairperson and vice chairpersons shall be vested with full administrative authority in calling and conducting the business of the board. Any
combination of members or alternate members of any such board of equalization of the county shall be competent to exercise the power and authority of the board. Any person designated as an alternate member of any such board of equalization of the county shall be competent to serve in such capacity as provided in this Code section upon appointment and taking of oath.

(3) Notwithstanding any provision of this subsection to the contrary, in any county of this state having a population of 400,000 or more according to the United States decennial census of 1990 or any future such census, the governing authority of the county, by appropriate resolution adopted on or before November 1 of each year, may elect to have selected one additional county board of equalization for each 10,000 parcels of real property in the county or for any part of a number of parcels in the county exceeding 10,000 parcels. In addition to the foregoing, any two members of a county board of equalization of the county may decide an appeal from an assessment, notwithstanding any other provisions of this Code section. The decision shall be in writing and signed by at least two members of the board of equalization; and, except for the number of members necessary to decide an appeal, the decision shall conform to the requirements of this Code section.

(4) Reserved The governing authorities of two or more counties may by intergovernmental agreement establish regional boards of equalization for such counties which shall operate in the same manner and be subject to all of the requirements of this Code section specified for county boards of equalization. The intergovernmental agreement shall specify the manner in which the members of the regional board shall be appointed by the grand jury of each of the counties. All hearings and appeals before a regional board shall be conducted in the county in which the property which is the subject of the hearing or appeal is located.

(b) Qualifications.

(1) Each person who is, in the judgment of the appointing grand jury, qualified and competent to serve as a grand juror, who is the owner of real property, and who is at least a high school graduate shall be qualified, competent, and compellable to serve as a member or alternate member of the county board of equalization. No member of the governing authority of a county, municipality, or consolidated government; member of a county or independent board of education; member of the county board of tax assessors; employee of the county board of tax assessors; or county tax appraiser shall be competent to serve as a member or alternate member of the county board of equalization.

(2)(A) Within the first year after a member's initial appointment to the board of equalization on or after January 1, 1981, each member shall satisfactorily complete not less than 40 hours of instruction in appraisal and equalization processes and procedures, as prepared and required by the commissioner. The failure of any member to fulfill the requirements of this subparagraph shall render that member ineligible to serve on the board; and the vacancy created thereby shall be filled in the same manner as other vacancies on the board are filled.

(B) No person shall be eligible to hear an appeal as a member of a board of
equalization on or after January 1, 1995, unless prior to hearing such appeal, that person shall satisfactorily complete the 40 hours of instruction in appraisal and equalization processes and procedures required under subparagraph (A) of this paragraph. Any person appointed to such board shall be required to complete annually a continuing education requirement of at least eight hours of instruction in appraisal and equalization procedures, as prepared and required by the commissioner. The failure of any member to fulfill the requirements of this subparagraph shall render that member ineligible to serve on the board; and the vacancy created thereby shall be filled in the same manner as other vacancies on the board are filled.

(c) Appointment.

(1) Except as provided in paragraph (2) of this subsection, each member and alternate member of the county board of equalization shall be appointed for a term of three calendar years next succeeding the date of such member or such alternate member's selection. Each term shall begin on January 1.

(2) The grand jury in each county at any term of court preceding November 1 of 1991 shall select three persons who are otherwise qualified to serve as members of the county board of equalization and shall also select three persons who are otherwise qualified to serve as alternate members of the county board of equalization. The three individuals selected as alternates shall be designated as alternate one, alternate two, and alternate three, with the most recent appointee being alternate number three, the next most recent appointee being alternate number two, and the most senior appointee being alternate number one. One member and one alternate shall be appointed for terms of one year, one member and one alternate shall be appointed for two years, and one member and one alternate shall be appointed for three years. Each year thereafter, the grand jury of each county shall select one member and one alternate for three-year terms.

(3) If a vacancy occurs on the county board of equalization, the individual designated as alternate one shall then serve as a member of the board of equalization for the unexpired term. If a vacancy occurs among the alternate members, the grand jury then in session or the next grand jury shall select an individual who is otherwise qualified to serve as an alternate member of the county board of equalization for the unexpired term. The individual so selected shall become alternate member three, and the other two alternates shall be redesignated appropriately.

(4) Within five days after the names of the members and alternate members of the county board or boards of equalization have been selected, the clerk of the superior court shall issue and deliver to the sheriff or deputy sheriff a precept containing the names of the persons so selected. Within ten days of receiving the precept, the sheriff or deputy sheriff shall cause the persons whose names are written on the precept to be served personally or by leaving the summons at their place of residence. The summons shall direct the persons named on the summons to appear before the clerk of the superior court on a date specified in the summons, which date shall not be later than December 15.
(5) Each member and alternate member of the county board of equalization, on the date prescribed for appearance before the clerk of the superior court and before entering on the discharge of such member and alternate member's duties, shall take and subscribe **execute in writing** before the clerk of the superior court the following oath:

'I, __________________, agree to serve as a member of the board of equalization of the County of ______________ and will decide any issue put before me without favor or affection to any party and without prejudice for or against any party. I will follow and apply the laws of this state. I also agree not to discuss any case or any issue with any person other than members of the board of equalization except when all of the parties are present. I shall faithfully and impartially discharge the duty of members and alternate members of the board of equalization for the County of ______________, my duties in accordance with the Constitution and laws of this state, to the best of your skill and knowledge. So help you God.

Signature of member or alternate member'

In addition to the oath of office prescribed in this paragraph, the judge of the superior court shall charge each member and alternate member of the county board of equalization with the law and duties relating to such office.

(6) Upon the failure of the grand jury to appoint members, alternate members, or both of county boards of equalization, either a taxpayer of the county or the county board of tax assessors shall be authorized to request in writing that the grand jury appoint such members. Upon receipt of such written request, the grand jury shall make such appointments no later than 30 days following the commencement of the next term.

(d) **Duties and powers.**

(1) The county board of equalization shall hear and determine appeals from assessments and denials of homestead exemptions as provided in subsection (e) of this Code section.

(2) If in the course of determining an appeal the county board of equalization finds reason to believe that the property involved in an appeal or the class of property in which is included the property involved in an appeal is not uniformly assessed with other property included in the digest, the board shall request the respective parties to the appeal to present relevant information with respect to that question. If the board determines that uniformity is not present, the board may order the county board of tax assessors to take such action as is necessary to obtain uniformity, except that, when a question of county-wide uniformity is considered by the board, the board may order a partial or total county-wide revaluation only upon a determination by a majority of all the members of the board that the clear and convincing weight of the evidence requires such action. The board of equalization may act pursuant to this paragraph whether or not the appellant has raised the issue of uniformity; provided, however, bank sales, foreclosures, or distress sales used for the determination of fair market value in the first year that the property is sold shall not be used in determining
uniformity.
(3) The board shall establish by regulation procedures, not in conflict which comply strictly with the regulations promulgated by the commissioner pursuant to subparagraph (e)(5)(B) of this Code section, for the conducting of appeals before the board. The procedures shall be entered into the minutes of the board and a copy of the procedures shall be made available to any individual upon request.
(4) The clerk of the superior court of the county shall have oversight of all boards of equalization of the county.

(e) Appeal.
(1)(A) Any resident or nonresident taxpayer or property owner as of the last date for filing an appeal may appeal from an assessment by the county board of tax assessors to the county board of equalization or to an arbitrator or arbitrators as to matters of taxability, uniformity of assessment, and value, and, for residents, as to denials of homestead exemptions. In the case of condominiums or tracts of land with common ownership or with common management, group appeals shall be authorized; however, a separate decision shall be rendered for each tax parcel.
(B) In addition to the grounds enumerated in subparagraph (A) of this paragraph, any resident or nonresident taxpayer having property that is located within a municipality, the boundaries of which municipality extend into more than one county, may also appeal from an assessment on such property by the county board of tax assessors to the county board of equalization or to an arbitrator or arbitrators as to matters of uniformity of assessment of their such property with other properties located within such municipality, and any uniformity adjustments to the assessment that may result from such appeal shall only apply for municipal ad valorem tax purposes.
(C) Appeals to the county board of equalization shall be conducted in the manner provided in paragraph (2) of this subsection. Appeals to an arbitrator or arbitrators shall be conducted in the manner specified in subsection (f) of this Code section. Such appeal proceedings shall be conducted between the hours of 8:00 A.M. and 7:00 P.M. on a business day. Following the notification of the taxpayer of the date and time of their such taxpayer's scheduled hearing, the taxpayer shall be authorized to exercise a one-time option of changing the date and time of the taxpayer's scheduled hearing to a day and time acceptable to the taxpayer. The chairperson of the county board of equalization shall grant additional extensions to the taxpayer or the county board of tax assessors for good cause shown.
(2)(A) An appeal shall be effected by mailing to or filing with the county board of tax assessors a notice of appeal within 45 days from the date of mailing the notice pursuant to Code Section 48-5-306 except that for counties or municipal corporations providing for the collection and payment of ad valorem taxes in installments the time for filing the notice of appeal shall be 30 days. A written objection to an assessment of real property received by a county board of tax assessors stating the location of the real property and the identification number, if any, contained in the tax notice shall be deemed a notice of appeal by the taxpayer
under the grounds listed in paragraph (1) of this subsection. Any such notice of appeal which is mailed pursuant to this subparagraph shall be deemed to be filed as of the date of the United States Postal Service postmark on such notice of appeal. A written objection to an assessment of personal property received by a county board of tax assessors giving the account number, if any, contained in the tax notice and stating that the objection is to an assessment of personal property shall be deemed a notice of appeal by the taxpayer under the grounds listed in paragraph (1) of this subsection. The county board of tax assessors shall review the valuation or denial in question and, if any changes or corrections are made in the valuation or decision in question, the board shall send a notice of the changes or corrections to the taxpayer pursuant to Code Section 48-5-306. Such notice shall also explain the taxpayer's right to appeal to the county board of equalization as provided in subparagraph (C) of this paragraph if the taxpayer is dissatisfied with the changes or corrections made by the county board of tax assessors.

(B) If no changes or corrections are made in the valuation or decision, the county board of tax assessors shall send written notice thereof to the taxpayer and to the county board of equalization which notice shall also constitute the taxpayer's appeal to the county board of equalization without the necessity of the taxpayer's filing any additional notice of appeal to the county board of tax assessors or to the county board of equalization. The county board of tax assessors shall also send or deliver all necessary papers to the county board of equalization. If, however, the taxpayer and the county board of tax assessors execute a signed agreement as to valuation, the appeal shall terminate as of the date of such signed agreement.

(C) If changes or corrections are made by the county board of tax assessors, the board shall notify the taxpayer in writing of such changes. If the taxpayer is dissatisfied with such changes or corrections, the taxpayer shall, within 21-30 days of the date of mailing of the change notice, institute an appeal to the county board of equalization by mailing to or filing with the county board of tax assessors a written notice of appeal. Any such notice of appeal which is mailed pursuant to this subparagraph shall be deemed to be filed as of the date of the United States Postal Service postmark on such notice of appeal, receipt for delivery by statutory overnight delivery, or if the board of tax assessors consents, receipt of a copy to the board of tax assessors via e-mail in portable document format using an e-mail address provided by the board of tax assessors and showing in the subject line of the e-mail message the words 'STATUTORY ELECTRONIC SERVICE' in capital letters. Service by mail, statutory overnight delivery, or electronic transmittal is complete upon such service. Proof of service shall be made within 45 days of receipt of notice of the current assessment to the taxpayer by certificate of the taxpayer, his or her attorney, or his or her employee by written admission or by affidavit. Failure to make proof of service shall not affect the validity of service. The county board of tax assessors shall send or deliver the notice of appeal and all necessary papers to the county board of equalization.

(D) The written notice to the taxpayer required by this paragraph shall contain a
statement of the grounds for rejection of any position the taxpayer has asserted with regard to the valuation of the property. No addition to or amendment of such grounds as to such position shall be permitted before the county board of equalization or in any arbitration proceedings.

(3) In any year in which no county-wide revaluation is implemented, the county board of tax assessors shall make its determination and notify the taxpayer within 180 days after receipt of the taxpayer's notice of appeal. If the county board of tax assessors fails to respond to the taxpayer within such 180 day period during such year, the appeal shall be automatically referred to the county board of equalization. This paragraph shall not apply to any county whose digest for the current year cannot be approved by the commissioner pursuant to subsection (a) of Code Section 48-5-304.

(4) The determination by the county board of tax assessors of questions of factual characteristics of the property under appeal, as opposed to questions of value, shall be prima-facie correct in any appeal to the county board of equalization. However, the board of tax assessors shall have the burden of proving its opinions of value and the validity of its proposed assessment by a preponderance of evidence.

(5)(A) The county board of equalization shall determine all questions presented to it on the basis of the best information available to the board.

(B) The commissioner, by regulation, may shall within 180 days following the effective date of this Code section adopt uniform procedures and standards which, when approved by the State Board of Equalization, shall be followed by county boards of equalization in determining appeals. Such rules shall be updated and revised periodically but in no event no less frequently than every five years.

(6)(A) Within 15 days of the receipt of the notice of appeal, the county board of equalization shall set a date for a hearing on the questions presented and shall so notify the taxpayer and the county board of tax assessors in writing. A taxpayer may appear before the board concerning any appeal in person, by his or her authorized agent or representative, or both. The taxpayer shall specify in writing to the board the name of any such agent or representative prior to any appearance by the agent or representative before the board.

(B) Within 30 days of the date of notification to the taxpayer of the hearing required in this paragraph but not earlier than 20 days from the date of such notification to the taxpayer, the county board of equalization shall hold such hearing to determine the questions presented.

(C) If more than one contiguous property of a taxpayer is under appeal, the board of equalization shall, upon request of the taxpayer, consolidate all such appeals in one hearing and render separate decisions as to each parcel or item of property. Any appeal from such a consolidated board of equalization hearing to the superior court as provided in this subsection shall constitute a single civil action, and, unless the taxpayer specifically so indicates in his or her notice of appeal, shall apply to all such parcels or items of property.

(D)(i) The decision of the county board of equalization shall be in writing, shall be signed by each member of the board, shall specifically decide each question
presented by the appeal, shall specify the reason or reasons for each such decision as to the specific issues of taxability, uniformity of assessment, value, or denial of homestead exemptions depending upon the specific issue or issues raised by the taxpayer in the course of such taxpayer's appeal, shall state that with respect to the appeal no member of the board is disqualified from acting by virtue of subsection (j) of this Code section, and shall certify the date on which notice of the decision is given to the parties. Notice of the decision shall be given to each party by sending a copy of the decision by registered or certified mail or statutory overnight delivery to the appellant and by filing the original copy of the decision with the county board of tax assessors. Each of the three members of the county board of equalization must be present and must participate in the deliberations on any appeal. A majority vote shall be required in any matter. All three members of the board must sign the decision indicating their vote. The board of equalization shall render its decision within 12 months of receiving an appeal if no extensions are granted.

(ii) Except as otherwise provided in subparagraph (g)(4)(B) of this Code section, the county board of tax assessors shall use the valuation of the county board of equalization in compiling the tax digest for the county for the year in question and shall indicate such valuation as the previous year's value on the property tax notice of assessment of such taxpayer for the immediately following year rather than substituting the valuation which was changed by the county board of equalization.

(iii)(I) If the county's tax bills are issued before the county board of equalization has rendered its decision on property which is on appeal, the county board of tax assessors shall specify to the county tax commissioner the higher of the taxpayer's return valuation or 85 percent of the current year's valuation as set by the county board of tax assessors. This amount shall be the basis for a temporary tax bill to be issued. Such tax bill shall be accompanied by a notice to the taxpayer that the bill is a temporary tax bill pending the outcome of the appeal process. Such notice shall also indicate that upon resolution of the appeal, there may be additional taxes due or a refund issued.

(II) If the final determination of the value on appeal is less than the valuation thus used, the taxpayer shall receive a deduction in such taxpayer's taxes for the year in question. Such deduction shall be refunded to the taxpayer and shall include interest on the amount of such deduction at the same rate as specified in Code Section 48-2-35 which shall accrue from November 15 of the taxable year in question or the date the final installment of the tax was due or was paid, whichever is later. In no event shall the amount of such interest exceed $150.00.

(III) If the final determination of value on appeal is greater than the valuation thus used, the taxpayer shall be liable for the increase in taxes for the year in question due to the increased valuation fixed on appeal with interest at the rate as specified in Code Section 48-2-35. Such interest shall accrue from November 15 of the taxable year in question or the date the final installment of the tax was due to the date the additional taxes are remitted, but in no event shall the amount
of such interest exceed $150.00. Any taxpayer shall be exempt each taxable year from any such interest owed under this subdivision with respect to such taxpayer's homestead property.

(7) The county governing authority shall furnish the county board of equalization necessary facilities and secretarial and clerical help. The secretary of the county board of tax assessors shall see that the records and information of the county board of tax assessors are transmitted to the county board of equalization. The county board of equalization must consider in the performance of its duties the information furnished by the county board of tax assessors and the taxpayer.

(8) The taxpayer or his or her agent or representative may submit in support of his or her appeal the most current report of the sales ratio study for the county conducted pursuant to Code Section 48-5-274. The board must consider the study upon any such request.

(9) All computations of time under this subsection shall be determined under this paragraph so that when a period of time measured in days, weeks, months, years, or other measurements of time except hours is prescribed for the exercise of any privilege or the discharge of any duty, the first day shall not be counted but the last day shall be counted; and, if the last day falls on Saturday or Sunday, the party having such privilege or duty shall have through the following Monday to exercise the privilege or to discharge the duty. When the last day prescribed for such action falls on a public and legal holiday as set forth in Code Section 1-4-1, the party having the privilege or duty shall have through the next business day to exercise the privilege or to discharge the duty. When the period of time prescribed is less than seven days, intermediate Saturdays, Sundays, and legal holidays shall be excluded in the computation.

(10) If at any time during the appeal process to the county board of equalization and after certification by the county board of tax assessors to the county board of equalization, the county board of tax assessors and the taxpayer mutually agree in writing on the fair market value, then the county board of tax assessors, or the county board of equalization, as the case may be, shall enter the agreed amount in all appropriate records as the fair market value of the property under appeal, and the appeal shall be concluded. The provisions in subsection (c) of Code Section 48-5-299 shall apply to the valuation unless otherwise waived by both parties.

(11) Appeals under this subsection may utilize the uniform appeal form following its adoption and distribution by the commissioner.

(e.1)(1) For any dispute involving the value of nonhomestead real property with a fair market value in excess of $1 million, at the option of the taxpayer an appeal may be submitted to a hearing officer in accordance with this subsection.

(2) Appeals to the hearing officer under this subsection shall be conducted between the hours of 8:00 A.M. and 5:00 P.M. on a business day. Following the notification of the taxpayer of the date and time of the scheduled hearing, the taxpayer shall be authorized to exercise an option of changing the date and time of the taxpayer's scheduled hearing for good cause.
(3) An appeal shall be effected by filing with the county board of tax assessors a notice of appeal to a hearing officer within 45 days from the date of mailing the notice pursuant to Code Section 48-5-306. A written objection to an assessment of real property received by a county board of tax assessors stating the taxpayer's election to appeal to a hearing officer and showing the location of the real property contained in the assessment notice shall be deemed a notice of appeal by the taxpayer. Any such notice of appeal which is mailed pursuant to this subparagraph shall be deemed to be filed as of the date of the United States Postal Service postmark on such notice of appeal.

(4) The county board of tax assessors shall review the taxpayer's written appeal and if changes or corrections are made by the county board of tax assessors, the board shall notify the taxpayer in writing of such changes. If the taxpayer is dissatisfied with such changes or corrections, the taxpayer shall, within 30 days of the date of mailing of the change notice, institute an appeal to the hearing officer by filing with the county board of tax assessors a written notice of appeal. Any such notice of appeal which is mailed pursuant to this subparagraph shall be deemed to be filed as of the date of the United States Postal Service postmark on such notice of appeal. The county board of tax assessors shall send or deliver the notice of appeal and all necessary papers to the hearing officer's secretary. If no changes or corrections are made in the valuation or decision, the county board of tax assessors shall send written notice thereof to the taxpayer and the hearing officer's secretary; the notice shall also constitute the taxpayer's appeal to the hearing officer without the necessity of the taxpayer's filing any additional notice of appeal. The secretary of the county board of tax assessors shall see that the records and information of the county board of tax assessors are transmitted to the hearing officer's secretary. At the conclusion of the hearing, the hearing officer shall determine the fair market value based on the information furnished verbally or in writing by the county board of tax assessors and the taxpayer. The secretary of the hearing officer shall notify both parties of the decision in writing.

(5) The taxpayer or the board of tax assessors may appeal the fair market value as determined by the hearing officer to the superior court as provided in subsection (g) of this Code section.

(6) Individuals desiring to serve as hearing officers shall complete and submit an application and be approved by the commissioner to serve as a hearing officer. The commissioner shall furnish a list of qualified and approved hearing officers to each county board of tax assessors.

(7) The secretary and clerical help described in paragraph (7) of subsection (e) of this Code section shall randomly select hearing officers for each day of hearings and shall perform scheduling, notification, and other duties required to administer appeals under this subsection.

(8) The county governing authority shall furnish the county hearing officer necessary facilities and secretarial and clerical help.

(9) If, at any time during the appeal under this subsection, the taxpayer and the
county board of tax assessors execute a signed written agreement on the fair market value, the appeal shall terminate as of the date of such signed agreement and the fair market value as set forth in such agreement shall become final.

(10) No hearing officer shall hear or review any appeal if he or she would be subject to a challenge for cause if he or she were a member of a panel of jurors in a civil case involving the same subject matter. The commissioner shall develop and make available to each hearing officer a standard questionnaire regarding possible disqualification for cause. Each question shall be phrased so that it can be answered by an affirmative or negative response. The hearing officer shall, in writing under oath within five days of his or her receipt of the appeal, complete the questionnaire. The completed questionnaire shall be part of the decision of the hearing officer and shall be served on each party by first-class mail. Unless the hearing officer recuses himself or herself for a potential conflict, the determination of disqualification shall be made by the judge of the superior court upon the request by either party when the request is made within five days of the response of the hearing officer to the questions.

(11) Each hearing officer shall be compensated by the county for time expended in considering appeals. The compensation shall be paid at a rate of not less than $25.00 per hour as determined by the county governing authority. Compensation pursuant to this paragraph shall be paid from the county treasury upon certification by the hearing officer and verified by the hearing officer's secretary of the hours expended in hearing of appeals. The attendance at any training required by the commissioner shall be part of the qualifications of the hearing officer, and any nominal cost of such training shall be paid by the hearing officer.

(12) The commissioner shall promulgate rules and regulations for the proper administration of this subsection, including but not limited to a uniform appeal form, qualifications, training, disqualification questionnaire, selection, removal, and any other matters necessary to the proper administration of this subsection. The commissioner shall seek input from all interested parties prior to such promulgation.

(f) Arbitration

Binding arbitration.

(1) As used in this subsection, the term 'certified appraisal' means an appraisal or appraisal report given, signed, and certified as such by a registered real estate appraiser as classified by the Georgia Real Estate Appraisers Board.

(2) At the option of the taxpayer an appeal shall be submitted to binding arbitration in accordance with this subsection.

(2) Following an election by the taxpayer under paragraph (1) of this subsection, an arbitration appeal shall be effected by the taxpayer's filing a written notice of arbitration with the county board of tax assessors. The notice of arbitration shall specifically state the grounds for arbitration. The notice shall be filed within 45 days from the date of mailing the notice pursuant to Code Section 48-5-306 except that for counties or municipal corporations providing for the collection and payment of ad valorem taxes in installments the time for filing the notice of appeal shall be 30 days. The county board of tax assessors shall certify to the clerk of the superior court the
notice of arbitration and any other papers specified by the person seeking arbitration including, but not limited to, the staff information from the file used by the county board of tax assessors. All papers and information certified to the clerk shall become a part of the record on arbitration. Within 15 days of the filing of the certification to the clerk of the superior court, the judge shall issue an order authorizing the arbitration and appointing a referee.

(3) The arbitration of the correctness of the decision of the county board of tax assessors shall be conducted pursuant to the procedures outlined in Article 2 of Chapter 9 of Title 9 with the following exceptions:

(A) If both parties agree, the matter may be submitted to a single arbitrator. If both parties agree, the referee may serve as the single arbitrator;

(B) If the parties do not agree to a single arbitrator, then three arbitrators shall hear the appeal. Such arbitrators shall be appointed as provided in Code Section 9-9-67. If one or both parties are unable to select an arbitrator, the appeal shall be heard by a single arbitrator who shall be appointed by the judge of the superior court as provided in Code Section 9-9-67;

(C) In order to be qualified to serve as an arbitrator, a person must be at least a registered real estate appraiser as classified by the Georgia Real Estate Appraisers Board;

(D) The arbitrator or a majority of the arbitrators, as applicable, within 30 days after their appointment shall render a decision regarding the correctness of the decision of the county board of tax assessors and, if correction of the decision is required, regarding the extent and manner in which the decision should be corrected. The decision of the arbitrator or arbitrators, as applicable, may be appealed to the superior court in the same manner as a decision of the board of equalization;

(E) The taxpayer shall be responsible for the fees and costs of such taxpayer's arbitrator and the county shall be responsible for the fees and costs of such county's arbitrator. The two parties shall each be responsible for one half of the fees and costs of the third arbitrator. In the event the appeal is submitted to a single arbitrator, the two parties shall each be responsible for one half of the fees and costs of such arbitrator; and

(F) The board of tax assessors shall have the burden of proving their opinions of value and the validity of their proposed assessment by a preponderance of evidence.

(4) For any dispute involving the value of real property, at the option of the taxpayer, an appeal may be submitted to binding arbitration in accordance with this paragraph:

(3)(A) Following an election by the taxpayer to use the binding arbitration provisions of this subsection, a binding arbitration appeal shall be effected by the taxpayer filing a written notice of binding arbitration appeal with the county board of tax assessors. The notice of binding arbitration appeal shall specifically state the grounds for arbitration. The notice shall be filed within 45 days from the date of mailing the notice pursuant to Code Section 48-5-306 except that for counties or municipal corporations providing for the collection and payment of ad valorem
taxes in installments, the time for filing the notice of appeal shall be 30 days. Within ten days of receipt of a taxpayer's notice of binding arbitration appeal, the board of tax assessors shall send to the taxpayer an acknowledgment of receipt of the appeal; a notice that the taxpayer must, within 45 days of the filing of the notice, provide to the board of assessors for consideration a copy of a certified appraisal; and a confirmation of the amount of the filing fees, if any, required under Code Section 15-6-77 and notice that within 45 days the taxpayer shall pay to the clerk of the superior court the fees. Failure of the taxpayer to provide such certified appraisal and filing fees within such 45 days shall terminate the appeal unless the taxpayer within such 45 day period elects to have the appeal forwarded to the board of equalization. Prior to appointment of the arbitrator and within 30 days of filing the notice of appeal, the taxpayer shall provide a copy of the value certified appraisal by a professional real estate appraiser as classified by the Georgia Real Estate Appraisers Board as specified in this paragraph to the board of assessors for consideration. If, within 30 days of receiving the taxpayer's certified appraisal, the board of assessors accepts the taxpayer's appraisal, in which case that value shall become final. If the county board of tax assessors rejects the taxpayer's appraisal, in which case the county board of tax assessors shall certify within 30 days the appeal to the clerk of the superior court of the circuit in which the property is located along with any other papers specified by the person seeking binding arbitration under this subsection, including, but not limited to, the staff information from the file used by the county board of tax assessors. In the event that the county board of tax assessors neither accepts nor rejects the value set out in the certified appraisal within such 45 day period, then the certified appraisal shall become the final value. In any case where a taxpayer properly filed for the 2009 tax year a notice of binding arbitration appeal and provided the required certified appraisal in accordance with this paragraph and the board of assessors neither accepted nor rejected the value set out in such certified appraisal within the 30 day period formerly specified under this subparagraph, then for purposes of the 2009 tax year, the value set forth in the taxpayer's certified appraisal shall be deemed the final value. All papers and information certified to the clerk shall become a part of the record on arbitration. At the time of certification of the appeal, the county board of tax assessors shall serve the taxpayer and his or her attorney of record, if any, or employee with a copy of the certification along with any other papers specified by the person seeking arbitration along with the civil action file number assigned to the appeal. If more than one property is under appeal, upon request of the taxpayer, all such appeals shall be consolidated in one hearing and separate decisions shall be rendered for each parcel or item of property. Within 15 days of filing the certification to the clerk of the superior court, the chief judge of the superior court of the circuit in which the property is located shall issue an order authorizing the arbitration. (B) The arbitration shall be conducted pursuant to the following procedure:

(i) If the parties agree, the matter shall be submitted to a single arbitrator chosen
by the parties. If the parties cannot agree on the single arbitrator, the arbitrator shall be chosen by the chief judge of the superior court of the circuit in which the property is located;

(ii) In order to be qualified to serve as an arbitrator, a person shall be classified as a State Certified General Property Appraiser pursuant to the rules and regulations of the Georgia Real Estate Appraisers Board and shall have experience or expertise in appraising the type of property that is the subject of the arbitration;

(iii) The arbitrator, within 30 days after his or her appointment, shall set a time and place to hear evidence and testimony from both parties. He or she shall provide written notice to the parties personally or by registered or certified mail or statutory overnight delivery not less than ten days before the hearing. The arbitrator may adjourn or postpone the hearing. The chief judge of the superior court of the circuit in which the property is located may direct the arbitrator to proceed promptly with the hearing and the determination of the appeal upon application of any party;

(iv) At the hearing, the parties shall be entitled to be heard, to present documents, testimony, and other matters, and to cross-examine witnesses. The arbitrator may hear and determine the controversy upon the documents, testimony, and other matters produced notwithstanding the failure of a party duly notified to appear;

(v) The arbitrator shall maintain a record of all pleadings, documents, testimony, and other matters introduced at the hearing. The arbitrator or any party to the proceeding may have the proceedings transcribed by a court reporter;

(vi) The provisions of this paragraph may be waived at any time by written consent of the taxpayer and the board of tax assessors;

(vii) Within 30 days of the date of the hearing, the arbitrator shall render a decision regarding the value of the property subject to arbitration;

(viii) In order to determine the value, the arbitrator shall consider a single value for the property submitted by the board of assessors and a single value submitted by the taxpayer. The taxpayer shall be responsible for the cost of any appraisal by the taxpayer's appraiser;

(ix) Upon consideration of the single value submitted by the board of assessors and the single value submitted by the taxpayer, and evidence supporting the values submitted by the board of assessors and the taxpayer, the arbitrator shall determine which value is the value for the property under appeal;

(x) If the taxpayer's value is determined by the arbitrator to be the value, the county shall be responsible for the clerk of the superior court's fees, if any, and the fees and costs of such arbitrator. If the board of tax assessors' value is determined by the arbitrator to be the value, the taxpayer shall be responsible for the clerk of the superior court's fees, if any, and the fees and costs of such arbitrator; and

(xi) The board of tax assessors shall have the burden of proving its opinion of value and the validity of its proposed assessment by a preponderance of evidence.

(5)(4) The provisions in subsection (e) of Code Section 48-5-299 shall not apply to the valuation established or rendered by any arbitrator or board of arbitration
binding arbitration or to appeals to superior court from the county board of equalization.

(6)(5) If the county's tax bills are issued before an arbitrator or board of arbitration has rendered its decision on property which is on appeal, the county board of tax assessors shall specify to the county tax commissioner the higher of the taxpayer's return valuation or 85 percent of the current year's valuation as set by the county board of tax assessors. This amount shall be the basis for a temporary tax bill to be issued. Such tax bill shall be accompanied by a notice to the taxpayer that the bill is a temporary tax bill pending the outcome of the appeal process. Such notice shall also indicate that upon resolution of the appeal, there may be additional taxes due or a refund issued.

(6) An attorney acting on behalf of or representing a taxpayer shall be provided a copy of all notices required to be provided to the taxpayer regarding hearing times, dates, certifications, or official actions within the same time period that such notices are required to be provided to the taxpayer.

(g) Appeals to the superior court.

(1) The taxpayer or, except as otherwise provided in this paragraph and except for a determination of value by an arbitrator under binding arbitration pursuant to paragraph (4) of subsection (f) of this Code section, the county board of tax assessors may appeal decisions of the county board of equalization, the arbitrator, or the arbitrators, as applicable, to the superior court of the county in which the property lies. By mutual written agreement, the taxpayer and the county board of tax assessors may waive an appeal to the county board of equalization and initiate an appeal under this subsection. A county board of tax assessors shall not appeal a decision of the county board of equalization or arbitrator or board of arbitration, as applicable, other than an arbitration pursuant to paragraph (4)(3) of subsection (f) of this Code section changing an assessment by 20 percent or less unless the board of tax assessors gives the county governing authority a written notice of its intention to appeal, and, within ten days of receipt of the notice, the county governing authority by majority vote does not prohibit the appeal. In the case of a joint city-county board of tax assessors, such notice shall be given to the city and county governing authorities, either of which may prohibit the appeal by majority vote within the allowed period of time.

(2) An appeal by the taxpayer as provided in paragraph (1) of this subsection shall be effected by mailing to or filing with the county board of tax assessors a written notice of appeal. Any such notice of appeal which is mailed pursuant to this paragraph shall be deemed to be filed as of the date of the United States Postal Service postmark on such notice of appeal. An appeal by the county board of tax assessors shall be effected by giving notice to the taxpayer. The notice to the taxpayer shall be dated and shall contain the name and the last known address of the taxpayer. The notice of appeal shall specifically state the grounds for appeal. The notice shall be mailed or filed within 30 days from the date on which the decision of the county board of equalization is mailed pursuant to subparagraph (e)(6)(D) of this Code section or within 30 days from the date on which the arbitration decision is rendered pursuant to
subparagraph (f)(3)(D) paragraph (3) of subsection (f) of this Code section, whichever is applicable. The county board of tax assessors shall certify to the clerk of the superior court the notice of appeal and any other papers specified by the person appealing including, but not limited to, the staff information from the file used by either the county board of tax assessors or the county board of equalization. All papers and information certified to the clerk shall become a part of the record on appeal to the superior court. At the time of certification of the appeal, the county board of tax assessors shall serve the taxpayer and his or her attorney of record, if any, with a copy of the notice of appeal and with the civil action file number assigned to the appeal. Such service shall be effected in accordance with subsection (b) of Code Section 9-11-5. No discovery, motions, or other pleadings may be filed by the county board of tax assessors in the appeal until such service has been made.

(3) The appeal shall constitute a de novo action. The board of tax assessors shall have the burden of proving their opinions of value and the validity of their proposed assessment by a preponderance of evidence. Upon a failure of the board of tax assessors to meet such burden of proof, the court may, upon motion or sua sponte, authorize the finding that the value asserted by the taxpayer is unreasonable and authorize the determination of the final value of the property.

(4)(A) The appeal shall be heard before a jury at the first term placed on the court's next available jury or bench trial calendar, at the taxpayer's election, following the filing of the appeal unless continued by the court upon a showing of good cause. If only questions of law are presented in the appeal, the appeal shall be heard as soon as practicable before the court sitting without a jury. Each hearing before the court sitting without a jury shall be held within 30 days following the date on which the appeal is filed with the clerk of the superior court. The time of any hearing shall be set in consultation with the taxpayer and at a time acceptable to the taxpayer between the hours of 8:00 A.M. and 7:00 P.M. on a business day.

(B)(i) The county board of tax assessors shall use the valuation of the county board of equalization or the arbitrator or arbitrators, as applicable, in compiling the tax digest for the county. If the final determination of value on appeal is less than the valuation set by the county board of equalization, the arbitrator, or the arbitrators, as applicable, the taxpayer shall receive a deduction in such taxpayer's taxes for the year in question. Such deduction shall be refunded to the taxpayer and shall include interest on the amount of such deduction at the same rate as specified in Code Section 48-2-35 which shall accrue from November 15 of the taxable year in question or the date the final installment of the tax was due or was paid, whichever is later. In no event shall the amount of such interest exceed $150.00.

(ii) If the final determination of value on appeal is 80 percent or less of the valuation set by the county board of equalization as to commercial property, or 85 percent or less of the valuation set by the county board of tax assessors as to other property, the taxpayer, in addition to the interest provided for by this paragraph, shall recover costs of litigation and reasonable attorney's fees incurred in the
action. This division shall not apply when the property owner has failed to return for taxation the property that is under appeal.

(iii) If the final determination of value on appeal is greater than the valuation set by the county board of equalization, the arbitrator, or the arbitrators, as applicable, the taxpayer shall be liable for the increase in taxes for the year in question due to the increased valuation fixed on appeal with interest at the same rate as specified in Code Section 48-2-35. Such interest shall accrue from November 15 of the taxable year in question or the date the final installment of tax was due to the date the additional taxes are remitted, but in no event shall the amount of such interest exceed $150.00. Any taxpayer shall be exempt each taxable year from any such interest owed under this subparagraph with respect to such taxpayer's homestead property.

(h) Recording of interviews. In the course of any assessment, appeal, or arbitration, or any related proceeding, the taxpayer shall be entitled to make audio recordings of any interview with any officer or employee of the taxing authority relating to the valuation of the taxpayer's property subject to such assessment, appeal, arbitration, or related proceeding, at the taxpayer's expense and with equipment provided by the taxpayer, and no such officer or employee may refuse to participate in an interview relating to such valuation for reason of the taxpayer's choice to record such interview.

(i) Alternate members. Alternate members of the county board of equalization in the order in which selected shall serve:

(1) As members of the county board of equalization in the event there is a permanent vacancy on the board created by the death, ineligibility, removal from the county, or incapacitating illness of a member or by any other circumstances. An alternate member who fills a permanent vacancy shall be considered a member of the board for the remainder of the unexpired term;

(2) In any appeal with respect to which a member of the board is disqualified and shall be considered a member of the board; or

(3) In any appeal at a regularly scheduled or called meeting in the absence of a member and shall be considered a member of the board.

(j) Disqualification.

(1) No member of the county board of equalization shall serve with respect to any appeal concerning which he or she would be subject to a challenge for cause if he or she were a member of a panel of jurors in a civil case involving the same subject matter.

(2) The parties to an appeal to the county board of equalization shall file in writing with the appeal, in the case of the person appealing, or, in the case of the county board of tax assessors, with the certificate transmitting the appeal, questions relating to the disqualification of members of the county board of equalization. Each question shall be phrased so that it can be answered by an affirmative or negative response. The members of the county board of equalization shall, in writing under oath within two days of their receipt of the appeal, answer the questions and any question which may be adopted pursuant to subparagraph (e)(5)(B) of this Code section. Answers of the
county board of equalization shall be part of the decision of the board and shall be
served on each party by first-class mail. Determination of disqualification shall be
made by the judge of the superior court upon the request of any party when the
request is made within two days of the response of the board to the questions. The
time prescribed under subparagraph (e)(6)(A) of this Code section shall be tolled
pending the determination by the judge of the superior court.

(k) **Compensation.** Each member of the county board of equalization shall be
compensated by the county per diem for time expended in considering appeals. The
compensation shall be paid at a rate of not less than $25.00 per day and shall be
determined by the county governing authority. The attendance at required approved
appraisal courses shall be part of the official duties of a member of the board, and he or
she shall be paid for each day in attendance at such courses and shall be allowed
reasonable expenses necessarily incurred in connection with such courses.
Compensation pursuant to this subsection shall be paid from the county treasury upon
certification by the member of the days expended in consideration of appeals.

(l) **Military service.** In the event of the absence of an individual from such individual's
residence because of duty in the armed forces, the filing requirements set forth in
subparagraph (e)(2)(A) of this Code section and paragraph (2) (3) of subsection (f) of
this Code section shall be tolled for a period of 90 days. During this period any
member of the immediate family of the individual, or a friend of the individual, may
notify the tax receiver or the tax commissioner of the individual's absence due to
military service and submit written notice of representation for the limited purpose of
the appeal. Upon receipt of this notice, the tax receiver or the tax commissioner shall
initiate the appeal.

(m) **Refunds.** In the event a refund is owed to the taxpayer, such refund shall be paid to
the taxpayer within 60 days of the last date upon which an appeal may be filed, or the
date the final determination of value is established on appeal, whichever is later. Any
refund paid after the sixtieth day shall accrue interest from the sixtieth day until paid
with interest at the same rate as specified in Code Section 48-2-35.

(n) **Service of notice.** A notice of appeal to a board of equalization under subsection (e)
of this Code section or a notice of binding arbitration under subsection (f) of this Code
section shall be deemed filed as of the date of the United States Postal Service
postmark, receipt of delivery by statutory overnight delivery, or, if the board of tax
assessors consents, by transmitting a copy to the board of tax assessors via e-mail in
portable document format using all e-mail addresses provided by the board of tax
assessors and showing in the subject line of the e-mail message the words
'STATUTORY ELECTRONIC SERVICE' in capital letters. Service by mail, statutory
overnight delivery, or electronic transmittal is complete upon such service. Proof of
service may be made within 45 days of receipt of the notice of current assessment to the
taxpayer by certificate of the taxpayer, his or her attorney, or his or her employee by
written admission or by affidavit. Failure to make proof of service shall not affect the
validity of service."

SECTION 3-8.

Said title is further amended by revising Code Section 48-5-17, relating to proceedings regarding returns and payment of taxes, as follows:

"48-5-17.

(a)(1) If a county claims to be entitled to the return and taxation of any personal property returned or about to be returned in another county, the county claiming to be so entitled may apply to the superior court of the county in which the personal property has been or is about to be returned, in a petition to which the taxpayer and all the counties claiming the taxes shall be made parties, for direction and judgment as to which county is entitled under the law to the return and taxes.

(2) If a county claims to be entitled to the return and taxation of any personal property returned or about to be returned in another county by any person to the commissioner, the county disputing the return may apply to the superior court of the county in which the taxpayer has located the personal property in return to the commissioner for direction and judgment as to which county under the law is entitled to the return and taxes. All counties claiming the taxes, the taxpayer, and the commissioner shall be made parties to the action.

(3) The proceedings under this Code section shall be the same in all respects as in other actions seeking equitable relief except that the petition shall be triable at the first term of the court and, as in other cases, shall be reviewed by appeal to the Supreme Court of Georgia.

(4) This subsection shall not affect the law relating to returns to be made to the commissioner other than by providing a venue for determining a dispute on tax rights as set forth in this subsection.

(b) If any officer having charge of the fiscal affairs of the county bringing the action
can make the affidavit required by Code Section 9-10-51, the judge of the superior court before whom the action is brought shall change the venue to an adjoining county. The losing party in the contest shall pay all costs.

(c) The taxes due the state and the undisputed taxes due the counties contesting shall not be held up by an action brought pursuant to this Code section, and the restraint shall apply only to the taxes in dispute under the issue, which shall be plainly set forth in the petition.

(d) Pending the determination of the case, accruing taxes shall be collected by the officers of the county to which the return has been made by the taxpayer. Should another county be found to be entitled to the taxes, judgment shall be entered in favor of the county entitled to the taxes and against the county collecting the taxes for the portion of the taxes paid into the treasury of the collecting county.

(e) Should the amount of taxes recovered by an entitled county for any year exceed the amount that would have been assessed for that year on the return as made by the taxpayer had the return been made in the county entitled, the excess shall be returned to the taxpayer. Should the amount of taxes recovered fall short, execution shall be issued, as in the case of defaulting taxpayers, by the officer of the county entitled.

(f) No commission shall be paid to the tax receiver, tax collector, or tax commissioner on state and county taxes collected when an action concerning the collection is pending as provided in this Code section. The county's portion of the tax, together with commissions on state and county taxes allowed the tax receiver, tax collector, or tax commissioner shall be paid into the county treasury of the county collecting to await the outcome of the litigation. Upon the final determination, the officers of the county determined to be entitled to the taxes shall receive their legal commissions. The state taxes collected pending the action shall be forwarded to the commissioner by the officer collecting as though no such action were pending. Commissions allowed on state taxes shall be paid into the county treasury of the county collecting to await the determination of the action, as provided in this Code section."

**SECTION 3-9.** Said title is further amended by revising Code Section 48-5-18, relating to time for making returns, as follows:

(e) The commissioner shall not accept for review the digest of any county which does not submit simultaneously with such digest evidence of compliance with this Code section by the levying authorities and recommending authorities with the exception of municipal governing authorities. The commissioner shall not accept a digest for review or issue an order authorizing the collection of taxes if the recommending authority or levying authority other than municipal governing authorities has established a millage rate that is in excess of the correct rollback without complying fully with the procedures required by this Code section. The levies of each of the levying authorities other than the county governing authority shall be invalid and unenforceable until such time as the provisions of this Code section have been met.

The following resolution was read and put upon its adoption:

HR 1682. By Representative Ralston of the 7th:

A RESOLUTION calling a joint session of the House of Representatives and the Senate for the purpose of hearing a message from the Chief Justice of the Supreme Court; and for other purposes.

On the adoption of the resolution, there were no objections, and the resolution was adopted.

Senator Harbison of the 15th introduced the doctor of the day, Dr. Joseph G. Saulsbury II.

Senator Rogers of the 21st moved that the Senate stand in recess until dissolution of the Joint Session.

The President announced the motion prevailed at 10:55 a.m.

The hour for convening the Joint Session of the Senate and House having arrived, the President, accompanied by the Secretary and Senators, proceeded to the Hall of the House of Representatives, and the Joint Session, called for the purpose of hearing a message by Honorable Carol W. Hunstein, Chief Justice of the Supreme Court, was called to order by the Lieutenant Governor. HR 1682 authorizing the Joint Session of the Senate and House was read by the Clerk of the House.

Honorable Carol W. Hunstein addressed the Joint Session of the Senate and the House of Representatives as follows:

Lt. Governor Cagle, Speaker Ralston, President Pro Tem Williams, Speaker Pro Tem Jones, other members of the legislative and executive branches, fellow members of the judicial branch, ladies and gentlemen:

On behalf of the Judicial Branch of Georgia, I am honored as your Chief Justice to come before this distinguished body to deliver the State of the Judiciary Address. Through this annual tradition of inviting the Chief Justice to address you, you show your interest in the well-being of the Judicial Branch. And for that, we are grateful.

I want to acknowledge my friends and colleagues who serve with me on the Georgia Supreme Court: Presiding Justice George Carley, and Justices Robert Benham, Hugh Thompson, Harris Hines, Harold Melton and David Nahmias. I also want to recognize Chief Judge Yvette Miller and other members of the Georgia Court of Appeals. I am particularly grateful to those of you here today who have so generously offered your
encouragement and support. I look forward to working with you and to getting to know you better.

The judiciary is the third branch of government. Our founding fathers, in their brilliant concept of balancing powers, created three co-equal branches: the legislative branch to make the laws; the executive branch to execute the laws; and the judicial branch to interpret the laws in strict adherence to the Constitutions of our nation and our state.

Each branch has its own separate function, and each must be independent of the other. Our state and U.S. Constitutions make that clear. The separation of powers is the very bedrock of our nation’s democracy.

I have been a judge for 25 years, 17 of them on the Georgia Supreme Court. And I have come to realize through the years that most Georgians have little understanding of what we in the judicial branch actually do. Perhaps we inadvertently allow our robes to separate us from our brothers and sisters in other branches of government, as if we work under a veil. My goal today is to lift that veil and tell you some things about our courts that you might not already know.

The mission of Georgia’s judicial system is to impartially interpret the constitutions and laws of the United States and Georgia, and to provide open, just, and timely resolution of all matters before the courts. Georgia’s judiciary is critical to this state’s public safety and well-being, and I am honored to stand shoulder-to-shoulder with the best judges this country has to offer. You can be sure that every day in Georgia, not only the judges of this state, but also the prosecutors, defense attorneys, probation officers, sheriffs, clerks and countless others who support the courts, provide the utmost in public service by upholding the constitutional rights of our citizens and ensuring that all Georgians, no matter their life’s circumstances, receive justice.

Every day, thousands of Georgians around the state enter our courthouses. As I speak to you this morning, an untold number of our citizens are on their way to court. They’re the business owner, who’s embroiled in a contract dispute; they’re the woman, who’s seeking a protective order because she’s in fear of her husband; they’re the middle-aged couple, whose car was stolen from them at gunpoint; they’re the 5-year-old boy, who’s been living in foster care since he was found wandering alone outside in the cold; and they’re the elderly man, who can no longer take care of himself and has no relatives. They go to court, often with fear and trepidation, always in search of justice. They go to court with the promise that regardless of their walk of life, they will be treated with fairness. Our Constitutions demand it.

In Georgia, we have five classes of trial courts: magistrate, probate, juvenile, state and superior courts. In addition, we have 378 municipal courts in towns and cities around the state. We have two appellate-level courts: the Court of Appeals and the Supreme Court.
I know you are familiar with Georgia’s municipal courts. These are the courts located in cities and towns across the state. Where they exist, municipal court judges decide cases involving violations of local ordinances, and they conduct preliminary hearings in criminal cases. The majority of their cases are traffic offenses. Although they are locally funded, many of us who travel in and out of Atlanta have perhaps paid a visit or two to Atlanta’s traffic court including me. Indeed, these are the courts people are most likely to have contact with.

I’m sure you have also heard of magistrate courts. I think of them as the entry point into the criminal justice system. The breadth of their work is staggering. Last year, the magistrate courts issued more than 300,000 arrest warrants and nearly 10,000 search warrants. Perhaps you know a magistrate court judge. The late Fulton Superior Court Judge Rowland Barnes started out as one. He was a single dad with a young daughter at the time, and like the other magistrate judges who serve every county of this state, Judge Barnes did not hesitate to bundle up his little girl in the middle of the night and drive her in his Volkswagen bug to go sign time-sensitive warrants. Magistrate courts conduct preliminary hearings on criminal felonies and misdemeanors. Last year they held more than 34,000 warrant application hearings, and more than 184,000 first appearance hearings. But they also dealt with nearly one half million civil cases. In tough economic times, it is no surprise that their caseload is growing.

Few people know all that our probate courts do. Yet they have extraordinary power over the everyday lives of our people. In addition to certifying peoples last will and testament and appointing executors to deceased Georgians’ estates, our probate courts have the exclusive authority to appoint guardians for the elderly and incapacitated adults, as well as for minors. Our state’s probate judges are dedicated and caring people who serve their communities well, but also see our citizens at their worst. These judges must use their authority to commit adult alcoholics, drug addicts, and mentally ill persons to institutions, sometimes against their will. Sadly, during the economic downturn, the number of these cases has also grown.

Juvenile courts are another part of our judicial system where our most vulnerable citizens turn for justice. Our juvenile judges deal with the most tragic of human circumstances. They must possess the wisdom of King Solomon to know when a child is better off in a home of strangers than with his own mother and father or other relatives. They must send children who commit crimes to jail, even knowing that some of those children may have committed those crimes because they were mentally ill, abused at home, or abandoned by adults to raise themselves. When juvenile judges are not in the courtroom, they’re busy searching for resources for families who need them; or to find resources to turn children on the right path before they are damaged beyond repair. As with all judges in all classes of courts, being in the courtroom is only part of the job. We have nearly 150 juvenile judges in Georgia who handle more than 140,000 cases in a given year. One hundred and forty thousand cases, all involving our children. We should all be grateful to these judges.
Georgia has 70 state courts, and they are among our busiest, as they handle civil cases and misdemeanor criminal cases, including driving under the influence and traffic offenses. In the last two years, our state courts’ caseload has grown by 10 percent, and filings now exceed one million a year.

Other than traffic court, you may be most familiar with this state’s superior courts. These are the courts that make the most news because these are the courts from which our most high-profile criminal cases emanate. Our superior courts have exclusive authority over felony crimes. They also try cases involving civil lawsuits and preside over the adoption of children, divorce cases and property disputes. Every one of these cases can be life-changing for the people involved. In the last five years, their caseloads have increased by 20 percent and yet, the appointment of new judges has not kept pace. Recent data indicate that Georgia now has a shortfall of 72 superior court judges. With the elimination of senior judges and the furloughing of judges and staff, our superior courts face serious backlogs.

In addition, thanks in large part to your support, Georgia’s DUI, mental health and drug courts remain a model for the rest of the country. These accountability courts save taxpayer dollars, and they save lives, by breaking the cycle of addiction and mental illness that clogs our jails.

When people are not satisfied with decisions made by any of these lower courts, they may ask to appeal to our appellate courts. The Georgia Court of Appeals, with its 12 judges, is one of the busiest, most efficient and well-respected in the country, issuing more than a thousand opinions in a given year. Its timely resolution of many types of appeals, from cases involving the termination of parental rights to those involving wrongful death suits and criminal violations, is critical to the safety and well-being of Georgia citizens.

This state’s highest court, the Supreme Court of Georgia, is also one of the busiest, most efficient and most highly regarded in the nation. As you may know, it has been rated the No.1 most productive state Supreme Court in the country. That is thanks to the hard work of the dedicated justices, staff, and attorneys. It is also due in part to our Constitution, which requires both appellate courts to dispose of all direct appeals within two court terms from the time they are filed, or approximately six months. That is a positive time requirement. Even though the Georgia Supreme Court now has fewer staff than it had a decade ago, and death penalty cases alone have increased 68 percent, we face no backlog in cases and we remain committed to delivering timely justice to all who come before us.

Your judicial system does all that I have just outlined for less than 1 percent of the state’s annual budget. Less than 1 percent. At the same time, your judicial system is a significant source of revenue for the state government and for county governments.
Court fees and fines generate approximately $500 million each year, with nearly $90 million returned to the state general fund. That revenue will go down if core court functions are reduced more than they already have been.

Ladies and gentlemen, the state of Georgia’s judiciary stands at a crossroads. There is no question that we all have to do our fair share to help balance our state’s budget. However, it has become increasingly difficult to do our constitutionally mandated duties. And that is due to budget reductions. In 2009, the judicial branch received less than eight-tenths of one percent of the total state appropriations. That represents the judiciary’s smallest share of state appropriations in recent history, even as we have watched our state’s population and needs grow.

We have not resisted sharing the burden of bad economic times. Our judges have volunteered to take furloughs. We have eliminated positions and laid off people whose livelihoods depended on them. We have stopped hiring and giving salary increases. We have closed down law libraries. At the state’s highest court, our operating budget has shrunk so low that we had to return a copy machine that we desperately needed.

Just as Georgia’s courts have received national praise, today we are receiving national attention of a different sort. A recent article in the Wall Street Journal began like this: “The wheels of justice in Georgia are grinding more slowly each day.”

Cuts in state courts, the article says, have led to a growing backlog of cases, with months-long delays for many civil and domestic cases. Those hit hardest are already our most vulnerable citizens; abused children, battered women, the elderly, and others who turn to us for justice. The consequences of these cuts, though, hit everyone, threatening the basic constitutional rights of civil litigants and criminal defendants as core court functions go by the wayside. And, according to the Wall Street Journal article, while judiciaries are being squeezed nationwide, “Georgia’s situation appears particularly severe.”

With cuts in county budgets, the crisis is compounded across the state, putting some court systems on the edge of an abyss.

Gwinnett County District Attorney Danny Porter recently said that a 9 percent funding cut his county commission was considering, would require his office to stop prosecuting cases for five weeks this year. He asked: “Which 9 percent of these victims do you want me to tell, “I can’t prosecute your case’?”

The unthinkable has already begun in Hall County, where the courts now close one day a month.

One superior court judge recently told me she had 16 death penalty cases pending. That backup can be blamed in part on the elimination of funding for senior judges. Senior
judges were one of the best bargains this state ever had. They helped process cases through the system, and they enabled elected judges to spend time on critical cases.

We cannot talk about our court system without acknowledging the Judicial Council, our policy-making body, which is made up of leaders of every class of court. The Judicial Council includes the Administrative Office of the Courts, which provides critical research, technical and administrative support to our state’s courts. In the last five years, the Council’s budget has decreased by more than 20 percent.

Our Constitution guarantees the right to a speedy trial in criminal cases. That means that if the demand for a speedy trial is not met, that criminal defendant could go free. Due to the speedy trial requirement in criminal cases, some judges have been forced to put civil cases on hold. One judge had to suspend all civil jury trials for six months. In some parts of the state, it now takes up to two months to get a hearing in a temporary child custody case, when it used to take a couple of weeks. The precedence that criminal cases must take threatens the civil justice system, one that is critical to the health of our businesses, which depend on the courts to enforce contracts.

The reality is this: Our state’s largest court system, Fulton County’s, said earlier this year that it could face the surreal prospect of having to shut its doors some days of the month. Right now in Fulton County, there are 183 murder cases waiting to be tried; half are more than a year old. That county’s three domestic judges each get 160 cases a month. Chief Judge Dee Downs put it this way: “This isn’t justice,” she said. “We’re losing the rule of law.”

We cannot afford in Georgia to lose the rule of law.

Aristotle said: “It is in justice that the ordering of society is centered.” The courts are the core of the nation’s legal system, the administrators of justice, the arbiters of right and wrong, guilt and innocence. In Georgia, it is the judicial branch’s allegiance to the letter of the law, our commitment to follow the laws that you write and pass, that safeguard our citizens’ freedom and security. The need for justice does not diminish with a shrinking economy. Indeed as our caseloads attest, it grows. But our citizens suffer when business and personal disputes are not heard and resolved. Our public safety is at risk when crimes are not prosecuted, and criminals are not punished. As the legendary jurist Learned Hand said: “If we are to keep our democracy, there must be one commandment: Thou shalt not ration justice.”

As I have said here today, Georgia’s judiciary is at an historic juncture. But with your help, it will survive.

I am confident that just as we in the judiciary care deeply about the laws you pass and have taken an oath to uphold them, you care deeply about maintaining our courts and
ensuring that they thrive. Although we are three separate co-equal branches of government, we share a common mission: We are all public servants here to serve the people of Georgia. We are all bound to conserve taxpayer dollars. And we are all committed to providing our citizens with the best government possible.

In closing, on behalf of all the state’s judges, I want to invite each of you to spend a morning or a day observing one of the courts in your community. Recently, a group of Cobb County legislators spent a “Day on the Bench” in their county’s state court.

I believe that like them, you would walk away with a better understanding of your judiciary.

And you would walk away proud. Proud of the many men and women who work so hard to administer justice, safeguard the public safety, and uphold the rule of law.

Thank you.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 8 of Chapter 3 of Title 35 of the Official Code of Georgia Annotated, relating to the alert system for unapprehended murder and rape suspects under the administration of the Georgia Bureau of Investigation, is amended by adding a new Code section to read as follows:

"35-3-191.
(a) There is established a state-wide alert system known as 'Blue Alert' which shall be developed and implemented by the director.
(b) As used in this Code section, the term:
(1) 'Law enforcement agency' means a law enforcement agency with jurisdiction over the search for a suspect in a case involving the death or serious injury of a peace
officer or an agency employing a peace officer who is missing in the line of duty.

(2) 'Peace officer' means a person who is certified to exercise the powers of arrest.

(c) The 'Blue Alert' system may be activated when a suspect for a crime involving the death or serious injury of a peace officer has not been apprehended and law enforcement personnel have determined that the suspect may be a serious threat to the public and also when a peace officer becomes missing while in the line of duty under circumstances warranting concern for such peace officer's safety.

(d) The provisions of Code Sections 35-3-173, 35-3-175, and 35-3-178 shall also apply to 'Blue Alert' as set forth in this Code section.

(e) Upon notification by a law enforcement agency that a suspect in a case involving the death or serious injury of a peace officer has not been apprehended and may be a serious threat to the public, the director shall activate the 'Blue Alert' system and notify appropriate participants in the 'Blue Alert' system, as established by rule, if:

(1) A law enforcement agency believes that a suspect has not been apprehended;
(2) A law enforcement agency believes that the suspect may be a serious threat to the public; and
(3) Sufficient information is available to disseminate to the public that could assist in locating the suspect.

The area of the alert may be less than statewide if the director determines that the nature of the event makes it probable that the suspect did not leave a certain geographic location.

(f) Upon notification by a law enforcement agency that a peace officer is missing while in the line of duty under circumstances warranting concern for such peace officer's safety, the director shall activate the 'Blue Alert' system and notify appropriate participants in the 'Blue Alert' system if sufficient information is available to disseminate to the public that could assist in locating the missing peace officer. The area of the alert may be less than statewide if the director determines that the nature of the event makes it probable that the officer is within a certain geographic location.

(g) Before requesting activation of the 'Blue Alert' system, a law enforcement agency shall verify that the criteria described by subsection (e) or (f) of this Code section have been satisfied. The law enforcement agency shall assess the appropriate boundaries of the alert based on the nature of the suspect and the circumstances surrounding the crime or the last known location of the missing peace officer.

(h) The director shall terminate any activation of the 'Blue Alert' system with respect to a particular incident if:

(1) The suspect or peace officer is located or the incident is otherwise resolved; or
(2) The director determines that the 'Blue Alert' system is no longer an effective tool for locating the suspect or peace officer.

Law enforcement agencies shall notify the director immediately when the suspect is located and in custody or the peace officer is found.

(i) Any entity or individual involved in the dissemination of a 'Blue Alert' generated pursuant to this Code section shall not be liable for any civil damages arising from such dissemination."

RESPECTFULLY SUBMITTED,
Senator Mullis of the 53rd District, Chairman

Pursuant to Senate Rule 2-1.6(a), the following Minority Report on SB 511 was filed
with the Secretary:

Senator Nan Orrock
District 36
327 Coverdell Legislative Office Building
Atlanta, GA 30334

March 18, 2010

RE: Minority Report/SB 511

Dear Mr. President of the Senate:

I respectfully dissent from the committee report on SB511. It is my belief that the
enactment of this legislation will result in a rapid expansion of the volume of waste going
into landfills in Georgia.

Clearly jobs are a major issue in our current economic scenario; passing this bill will
thwart the growth of an industry that is emerging, creating jobs and attracting
investment/development in our state. The proponents for this bill argue that these
trimmings are all going into C&D and inert landfills. With more processing
infrastructure, the compost and mulching industry can begin to divert the much discussed
material now going to inert and C&D landfills to recycled content products to be sold in
our state. Passage of this bill will put Georgia at an economic disadvantage with
competing states as new technologies come on line.

Georgia has a strong and growing infrastructure for recycling and composting that is
working. The number of local governments providing for the collection and disposal of
yard trimmings has increased from 291 in FY 2006 to 349 in FY2008. Repeal of this ban
on yard trimmings in landfills is a clear waste of taxpayer money that has been invested by the state and local governments in yard trimmings diversion programs for the past 14 years; reversing the ban removes the major incentive that keeps these local programs operating.

Experts from the UGA Biological and Agricultural Engineering Center, experienced in the studies of landfill gas recovery for beneficial use, provided a written statement clearly indicating that disposing of yard trimmings at landfills is not the best management option of these resources for power generation. Methane capture at landfills is a highly inefficient way of generating energy. SB511 will cost Georgia jobs and may increase import of waste from other states. The missing of yard trimmings with other waste will reduce the available feed stock required for compost and other yard trimmings processing businesses to remain in business. We should retain our ban on yard trimmings in landfills like half of the states have done.

Respectfully Submitted,

/s/ Nan Orrock
District 36

The Senate Natural Resources and the Environment Committee offered the following substitute to SB 321:

A BILL TO BE ENTITLED
AN ACT

To amend Article 6 of Chapter 5 of Title 12 of the Official Code of Georgia Annotated, relating to water supply, so as to provide for private operation or ownership of new public water facilities in certain cases; to provide for requests for proposals for projects; to provide for reimbursement of project advancement costs; to provide for an evaluation process; to provide for awards; to provide conditions and restrictions; to provide for rules and regulations; to provide a short title; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.
This Act shall be known and may be cited as the "Georgia Public-Private Water Facility and Supply Act of 2010."

SECTION 2.
Article 6 of Chapter 5 of Title 12 of the Official Code of Georgia Annotated, relating to water supply, is amended by adding a new Code section to read as follows:

"12-5-476.2. (a) As used in this Code section, the term 'water facility' means a supply or recapture reservoir, well, collection and distribution system, water transportation system, and any other facility for the impoundment, collection, or distribution of water for public use.
(b) The division or any county, municipality, or local water authority may enter into a reservoir use or water supply agreement with the owner of any private water facility. Any contracts entered into pursuant to this subsection may include user fees for use of the project or water supplied thereby.
(c)(1) After identifying any site as feasible for a water facility pursuant to subsection (c) of Code Section 12-5-472, the division may evaluate a potential project for such site to determine, in the judgment of the division, appropriate or desirable levels of
state, local, or private participation in such project for purposes of supplying water to
the division or any county, municipality, or local water authority for resale. In
making such determination, the division shall be authorized and encouraged to seek
the advice and input of the affected local governing authorities, local water
authorities, and the private financial and construction sectors.
(2) For any project for which private ownership of a new water facility is determined
by the division to be feasible and appropriate for purposes of supplying water to the
division or any county, municipality, or local water authority for resale, the division
may perform management, technical, consultative, training, educational, and other
project development and promotion activities, subject to availability of funds from the
Georgia Reservoir Fund established by Code Section 50-23-28 and the requirement
that the division be fully compensated by the private owner of the water facility for
such expenditures. All such compensation paid to the division shall be deposited in
such fund.
(3) For any project for which private operation or ownership of a new water facility is
determined by the division to be feasible and appropriate for purposes of supplying
water to the division or any county, municipality, or local water authority for resale,
the division, for itself or for any interested local governing authority or local water
authority which has requested the division to act in its behalf, may issue a written
request for proposals indicating in general terms the scope of the project and the
factors that will be used in evaluating the proposals and containing or incorporating
by reference other applicable contractual terms and conditions, including any unique
capabilities or qualifications that will be required of the contractor. Public notice of
such request for proposals shall be made at least 90 days prior to the date set for
receipt of proposals by posting the legal notice on a single website that shall be
procured and maintained for such purposes by the Department of Administrative
Services or in substantially the same manner utilized by the division to solicit requests
for proposals.
(4) Upon receipt of a proposal or proposals responsive to the request for proposals,
the division shall accept written public comment, solicited in the same manner as
provided for notice of proposals, for a period of 30 days beginning at least ten days
after the date set for receipt of proposals. In addition, the division shall hold at least
one public hearing on such proposals not later than the conclusion of the period for
public comment.
(5) In the event the division receives more than one proposal, the division shall
engage in individual discussions with two or more respondents deemed fully
qualified, responsible, and suitable on the basis of initial responses and with emphasis
on professional competence and ability to meet the level of private financial
participation called for by the division. Repetitive informal interviews shall be
permissible. In the event that any county, municipality, or local water authority is a
potential customer of a project that is to be privately owned or operated, a
representative of such local government entity, appointed by the same, may
participate in such discussions and interviews. At the discussion stage, the division
may discuss estimates of total project costs, including, but not limited to, nonbinding estimates of price for services. Proprietary information from competing respondents shall not be disclosed to the public or to competitors and shall not be subject to the provisions of Code Section 50-18-70. At the conclusion of such discussions, on the basis of evaluation factors published in the request for proposal and all information developed in the selection process, the division, with the input of any participating local governing authority or local water authority, shall select in the order of preference two or more respondents whose qualifications and proposed services are deemed most meritorious. Negotiations shall then be conducted with two or more respondents and with the participation of the designated representative of any participating local governing authority or local water authority. The director shall select the respondent who shall implement the project based upon contract terms that are the most satisfactory and advantageous to the division based upon a thorough assessment of value and the ability of the final project's characteristics to further the goals of regional and state-wide water management plans prepared pursuant to Article 8 of this chapter. Before making such selection, the director shall consult with any and all interested local governing authorities or local water authorities. Notwithstanding the foregoing, if the terms and conditions for multiple awards are included in the request for proposal, the director may award contracts to more than one respondent. Should the director determine in writing and in his or her sole discretion that only one respondent is fully qualified, or that one respondent is clearly more highly qualified and suitable than the others under consideration, a contract may be negotiated and awarded to that respondent.

(d)(1) If the division or any county, municipality, or local water authority receives an unsolicited proposal from a private entity for a project for purposes of supplying water to the division or any county, municipality, or local water authority for resale, the division may evaluate the proposed site to determine if such site is feasible for a water facility pursuant to subsection (c) of Code Section 12-5-472.

(2) For any project for which private operation or ownership of a new water facility is determined by the division to be feasible and appropriate for purposes of supplying water to the division or any county, municipality, or local water authority for resale, the division may evaluate such proposed project to determine, in the judgment of the division, appropriate or desirable levels of state, local, or private participation in such project. In making such determination, the division shall be authorized and encouraged to seek the advice and input of the affected local governing authorities, local water authorities, and the private financial and construction sectors.

(3) In determining whether a project involving private ownership of a new water facility is feasible and appropriate for purposes of supplying water to the division or any county, municipality, or local water authority for resale, the division may perform management, technical, consultative, training, educational, and other project development and promotion activities, subject to availability of funds from the Georgia Reservoir Fund established by Code Section 50-23-28 and the requirement that the division be fully compensated by the private owner of the water facility for
such expenditures. All such compensation paid to the division shall be deposited in such fund.

(4) If appropriate after the considerations stated in paragraphs (2) and (3) of this subsection, the division shall negotiate terms with the private entity which made the proposal with the participation of the designated representative of any participating local governing authority or local water authority. The division shall not solicit additional proposals, but it shall consider any concurrent projects affecting the same area under subsection (c) of this Code section in determining whether to award a contract under this subsection. The director shall negotiate contract terms that are the most satisfactory and advantageous to the division based upon a thorough assessment of value and the ability of the final project's characteristics to further the goals of regional and state-wide water management plans prepared pursuant to Article 8 of this chapter. Before making a final approval of such proposal, the director shall consult with any and all interested local governing authorities or local water authorities.

(5) Should the director determine in writing that:
   (A) The proposed site is feasible for a water facility;
   (B) The levels of state, local, or private participation in such project are appropriate or desirable;
   (C) The terms negotiated with the private entity are satisfactory and advantageous to the division; and
   (D) The private entity making the proposal is fully qualified,
then the director or any county, municipality, or local or regional water authority may enter into a contract with such party. Such findings shall be made in writing and the reasons for each such findings shall be fully and thoroughly documented with technical and financial data.

(e) Nothing in this Code section shall require the division to continue negotiations or discussions arising out of any request for proposal.

(f) The authority may promulgate reasonable rules or regulations to assist in the division's evaluation of the proposal and to implement this Code section.

(g) No employee, officer, or member of the division, the authority, the department, Board of Natural Resources, any local governing authority, or any local water authority shall serve as an agent, lobbyist, or board member for any entity directly or indirectly under contract with or negotiating a contract with the division under this Code section for one year after leaving his or her position as such an employee, officer, or member.

(h) The director shall be authorized to delegate such duties and responsibilities under this Code section as he or she deems appropriate from time to time; provided, however, that the final approval of contracts provided for in this Code section shall be by action of the director.

(i) The power of eminent domain shall not be delegated to any private entity with respect to any project commenced or proposed pursuant to this Code section."

SECTION 3.
All laws and parts of laws in conflict with this Act are repealed.

A BILL to be entitled an Act to amend Title 47 of the Official Code of Georgia Annotated, relating to retirement and pensions, so as to repeal certain obsolete and inoperative provisions from such title; to provide a statement of intent; to repeal conflicting laws; and for other purposes.

The following Fiscal Note, as required by law, was read by the Secretary:

Department of Audits and Accounts
270 Washington Street, S.W., Suite 1-156
Atlanta, Georgia 30334-8400
February 16, 2010

The Honorable Bill Heath
State Senator
State Capitol, Room 109
Atlanta, Georgia 30334

SUBJECT: State Auditor’s Certification
Senate Bill 436 (LC 21 0654)

Dear Senator Heath:

This bill would repeal certain obsolete and inoperative provisions from Title 47 of the Official Code of Georgia Annotated. This legislation is not intended to deny, abridge, increase, renew, revive, or in any way affect any rights, benefit, option, credit, or election to which any person was entitled on June 30, 2010. This bill would also amend certain provisions related to creditable service for certain DFACS workers who are members of the Employees’ Retirement System. Specifically, this bill would prohibit certain members who were previously qualified to purchase creditable service from ever exercising such option.

This is to certify that this bill is a nonfiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

/s/ Russell W. Hinton
State Auditor

The Senate Retirement Committee offered the following substitute to SB 436:

A BILL TO BE ENTITLED
AN ACT

To amend Title 47 of the Official Code of Georgia Annotated, relating to retirement and pensions, so as to provide a statement of intent; to repeal certain obsolete and inoperative provisions from such title; to correct typographical, stylistic, and other errors and omissions; to correct capitalization and spelling; to provide for related matters; to provide for effect in the event of conflicts; to provide an effective date; to repeal conflicting laws; and for other purposes.
BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.
The intent of this Act is to repeal obsolete and inoperative provisions and to make certain stylistic corrections in Title 47 of the Official Code of Georgia Annotated. Nothing in this Act shall deny, abridge, increase, renew, revive, or on any way affect any right, benefit, option, credit, or election to which any person was entitled pursuant to such title on June 30, 2010, and the board of trustees of each public retirement system is authorized and directed to provide by regulation for the continuation of any such right, benefit, option, credit, or election not otherwise covered in this Act; provided, however, that any such right, benefit, option, credit, or election shall be subject to the statutory provisions in effect on June 30, 2010.

SECTION 2.
Title 47 of the Official Code of Georgia Annotated, relating to retirement and pensions, is amended by revising Code Section 47-1-9, relating to crediting time toward Georgia Legislative Retirement System, restriction on crediting, options for members, refund of contributions, and construction of conflicting provisions, as follows:

"47-1-9.
(a) Except as provided by subsection (b) of this Code section, any member of the General Assembly holding office on January 1, 1986, may obtain creditable service for membership in the General Assembly obtained on and after that date only for the purposes of the Georgia Legislative Retirement System, and no service as a member of the General Assembly which is obtained after December 31, 1985, by any such member shall be creditable or used as creditable service for the purposes of any other public retirement or pension system of this state.

(b) (1) Subject to the limitations of paragraph (2) of this subsection, the provisions of subsection (a) of this Code section shall not apply to any member of the General Assembly holding office on January 1, 1986, who:

(A) Was a member of the Employees' Retirement System of Georgia on that date; and

(B) Received annual compensation as a member and officer of the General Assembly during calendar year 1985, on which employee contributions to the Employees' Retirement System of Georgia were based, exceeding the average annual compensation of all members of the Employees' Retirement System of Georgia for calendar year 1985.

(2) Any member of the General Assembly subject to the provisions of paragraph (1) of this subsection who continues to receive annual compensation on and after January 1, 1986, as a member and officer of the General Assembly exceeding the average annual compensation of all members of the Employees' Retirement System of Georgia may continue membership in said retirement system. If during any calendar year the annual compensation of any such member of the General Assembly is equal to or less than the average annual compensation of all members of the Employees' Retirement
System of Georgia for that calendar year, then on the first day of January immediately following such calendar year such member of the General Assembly shall be subject to the provisions of subsection (c) of this Code section, and for the purposes of this paragraph, any reference in said subsection (c) to January 1, 1986, shall mean the first day of January immediately following such calendar year.

(e)(1) Any member of the General Assembly holding office on January 1, 1986, who was a member of the Employees' Retirement System of Georgia on that date and who is not subject to the provisions of subsection (b) of this Code section may:

(A) Cease to be an active contributing member of the Employees' Retirement System of Georgia effective on January 1, 1986, and retain all rights existing on that date under the Employees' Retirement System of Georgia by not withdrawing employee contributions from said retirement system;

(B) Withdraw employee contributions from the Employees' Retirement System of Georgia, forfeit all rights under said system, and forfeit the right to become a member of any public retirement or pension system of this state as a member of the General Assembly; or

(C) Transfer all creditable service under the Employees' Retirement System of Georgia to the Georgia Legislative Retirement System effective January 1, 1986, and become an active contributing member of the Georgia Legislative Retirement System effective on that date with all creditable service thereunder which was transferred from the Employees' Retirement System of Georgia.

(2) The members of the General Assembly affected thereby shall exercise the options specified by paragraph (1) of this subsection by not later than December 1, 1985. Any such option shall be exercised by written notification to the board of trustees of each retirement system affected by the option selected. By not later than November 1, 1985, the Board of Trustees of the Employees' Retirement System of Georgia shall provide written notification of the requirements of this paragraph to each member of the General Assembly affected by the provisions of paragraph (1) of this subsection.

(d)(c) Any person becoming a member of the General Assembly after December 31, 1985, shall be eligible to obtain creditable service as a member of the General Assembly only for the purposes of the Georgia Legislative Retirement System, and no service as a member of the General Assembly which is obtained on or after January 1, 1986, by any such person shall be creditable or used as creditable service for the purposes of any other public retirement or pension system of this state.

(e)(d) Notwithstanding any provisions of Chapter 6 of this title or any other law, any member of the General Assembly may withdraw from membership in the Georgia Legislative Retirement System and receive a refund of contributions to such system under Code Section 47-6-85. Any member exercising the option provided by this subsection may not at any time thereafter reestablish membership in the Georgia Legislative Retirement System or become a member of any public retirement or pension system while serving as a member of the General Assembly.

(f)(e) The provisions of this Code section shall control over conflicting or inconsistent provisions of any other law of this state, specifically including any law relating to any
public retirement or pension system of this state. It is the intention of the General Assembly that this Code section may not be repealed, superseded, or modified by implication through the enactment of any other law or through the amendment of any existing law, and any modification or repeal of the requirements of this Code section shall be accomplished only by amendment to or repeal of this specific Code section."

SECTION 3.
Said title is further amended by revising paragraphs (9), (10), and (14) of Code Section 47-2-1, relating to definitions, as follows:

(9) 'Commencement date affecting employers operating under a merit system of personnel administration at the time of the passage of this chapter' means January 1, 1950. Anything in this chapter to the contrary notwithstanding, any employee of an employer which is not operating under the retirement system who, without a break in service, becomes an employee of an employer which is operating under the retirement system, within two years of the commencement date affecting such employer, shall have a commencement date as of the date employment with the latter department became effective; and in such cases all other dates found in this chapter shall be set in the same relation to his commencement date as they would otherwise be set in relation to the commencement date affecting such employer. Reserved.

(10) 'Commencement date affecting employers that after February 3, 1949, operate under a merit system of personnel administration or those employers for which funds are not available on that date under Code Section 47-2-57' means: if the employees of any employer shall hereafter become eligible for inclusion in the Employees' Retirement System of Georgia, the commencement date set for such employer by the board of trustees shall be not less than six months or more than 12 months from the date such employer becomes eligible for membership; and all other dates mentioned in this chapter shall be set in the same relation to this commencement date as they would otherwise be set in relation to the commencement date in the original chapter, provided that in the application of dates to subsection (a) of Code Section 47-2-96, no date shall be later than July 1, 1953. Anything in this chapter to the contrary notwithstanding, any employee of an employer which is not operating under the retirement system who, without a break in service, becomes an employee of an employer which is operating under the retirement system, within two years of the commencement date affecting such employer, shall have a commencement date as of the date employment with the latter employer became effective; and in such cases all other dates found in this chapter shall be set in the same relation to his commencement date as they would otherwise be set in relation to the commencement date affecting such employer. SECTION 4.
Said title is further amended by revising Code Section 47-2-28, relating to tables, calculations, and schedules for operation of the retirement system, simplified tables for estimation of retirement allowances, and effect on existing rights and benefits, as follows: "47-2-28.

(a) Any other law to the contrary notwithstanding, the board of trustees, for the purpose of administering the social security program, may, with due regard for the actuarial soundness of the retirement system and after an actuarial investigation into its benefit structure, adopt such tables, calculations, and compensation and deduction schedules as it shall deem desirable in connection with the proper operation of the retirement system. All tables, calculations, and compensation and deduction schedules adopted under this Code section shall be based on final monthly earnings, which shall mean monthly earnable compensation as reflected by monthly contributions during employment, except that no salary increase by adjustment in compensation in any manner during the last 12 months, which increase is in excess of 10 percent, shall be included. Such tables and calculations as may be adopted shall not diminish or impair the amount of any allowances or benefits which would have been payable to the member by use of tables or calculations that were in effect on January 1, 1959. The board of trustees may also, from time to time, establish rules and regulations for the administration of the funds created under this chapter and for the transaction of its business.

(b) On and after April 1, 1964, the board of trustees is authorized to adopt simplified benefit tables which will enable a member to estimate his or her retirement allowances. Such tables shall (1) be based on an actuarial study, (2) maintain the actuarial soundness of the retirement system, (3) for those members retiring on and after April 1, 1968, be applied to the member's highest average monthly earnable compensation during a period of 24 consecutive calendar months while a member of the retirement system, and (4) be applicable to all members, provided that the application of such tables shall not reduce or impair the amount of any allowances or benefits which would have been payable to the member by use of tables or calculations that were in effect on January 1, 1959. The board of trustees may also, from time to time, establish rules and regulations for the administration of the funds created under this chapter and for the transaction of its business.

(c) The regular service retirement allowance payable to a member pursuant to the provisions of this chapter, prior to the application of any minimum benefit formula otherwise provided under this chapter, shall be determined pursuant to the formula adopted from time to time by the board of trustees for such purpose. Such formula shall be uniformly applicable to all members similarly situated. The board of trustees may establish rules and administrative procedures uniformly applicable to all members similarly situated relating to the calculation of such service retirement allowance."

SECTION 5.
Said title is further amended by revising Code Section 47-2-29, relating to postretirement
benefit adjustments, as follows:

47-2-29.

(a) On a date to be established by the board of trustees, but not before April 1, 1967, the board of trustees is authorized to adopt a method of providing for postretirement benefit adjustments for the purpose of maintaining essentially no less purchasing power for a beneficiary in his postretirement years. Such method shall be based upon:

1. Recommendation of the actuary for the board of trustees;
2. Maintaining the actuarial soundness of the retirement system;
3. Its application to the retirement income of members retiring on or after the adoption of such method by the board of trustees; and
4. Any additional contribution by the member in an amount not to exceed one-fourth of 1 percent of his monthly earnable compensation.

This Code section shall also be applicable to those members retiring before April 1, 1967.

(b)(1) Effective July 1, 1988, the monthly retirement benefit of each beneficiary who was receiving a benefit on July 1, 1981, shall be increased by:

A. One dollar for each full year of creditable service, other than creditable service based on forfeited annual and sick leave and creditable service resulting from any projection of service under the provisions of this chapter, which the member had at the time of retirement; plus

B. One dollar for each full year which has elapsed from the date of retirement until July 1, 1981, provided that, if a beneficiary is receiving a monthly benefit exceeding $1,500.00 on July 1, 1988, no increase shall be granted to such beneficiary under this paragraph nor shall any portion of such increase be granted to a beneficiary which would cause such beneficiary's total monthly benefit as of July 1, 1988, to exceed $1,500.00.

(2) When the postretirement benefit adjustment provided by this subsection has been granted, there shall be no further postretirement benefit adjustments pursuant to the authority of this subsection.

(c)(b) Notwithstanding any other provision of this Code section, no member who becomes a member of this retirement system on or after July 1, 2009, shall be entitled to receive any postretirement benefit adjustment."

SECTION 6.

Said title is further amended by repealing and reserving Code Section 47-2-58, relating to commencement date for contributions to retirement system, as follows:

47-2-58.

No contributions to the retirement system shall be made by a state agency or by any members prior to the commencement date as set forth either in paragraph (9) or (10) of Code Section 47-2-1, except for the contribution of the state agencies to an expense fund in order to pay the expenses of setting up and operating the retirement system prior to that date. The board of trustees shall notify all employers, and the employers shall notify the members, that contributions shall commence on that date. The
provisions of this chapter regarding such contributions will go into effect on that date. In determining the commencement date, the board of trustees shall be governed by the money made available by the state to carry this chapter into effect. Reserved.

SECTION 7.
Said title is further amended by revising Code Section 47-2-70, relating to determination of membership and termination, as follows:

"47-2-70.
(a) After January 1, 1950, any person who becomes an employee of any employer which operates under a merit system of personnel administration and which is covered by the retirement system shall become a member of the retirement system as a condition of his or her employment, except as otherwise specifically excluded.
(b) Any person who was an employee during the fiscal year ending June 30, 1949, or who becomes an employee prior to January 1, 1950, shall become a member unless prior to January 1, 1950, he files with the board of trustees, on a form provided by it, a notice of his election not to be included in the membership of the retirement system, together with a duly executed waiver of all present and prospective benefits which would otherwise accrue to him by participating in the retirement system. Such an employee may thereafter apply for and be admitted to membership, but without credit for service rendered after July 1, 1949, and prior to the time he becomes a member and without prior service credit, unless he pays into the retirement system the amount of deductible contributions that would have been paid by such member together with interest on such amount equal to the amount of interest earned by the retirement system at 3 1/2 percent per annum had the amounts been paid in during the period. Upon making such payments, he shall be entitled to all service credits from the year 1949.
(c) The membership of any person shall terminate if he or she retires under this retirement system, withdraws his or her contributions, or renders less than one year of service within a period of five consecutive years as a member. No benefit under the retirement system shall accrue to a member's account while he or she is not in service as an employee and no contribution shall be made to the retirement system by the member, the state, or any other employer during any such time.
(d) The board of trustees may continue the membership of any person while such person is on leave of absence with stipend for professional training when such leave is approved in writing by the employer for which the employee renders service, provided that a member who receives a stipend while on leave for professional training shall make a monthly contribution to the retirement system, which contribution shall be the same basic percentage of his or her salary as an employee as he or she contributed in the last month prior to the effective date of leave. A member shall be considered as being in service while on such leave."

SECTION 8.
Said title is further amended by revising Code Section 47-2-71, relating to membership in the Employees' Social Security Coverage group, determination of employer tax for social
security coverage, and notice of referendum with regard to social security coverage, as follows:

"47-2-71.

(a) Any other provisions of law to the contrary notwithstanding, and pursuant to Article VII, Section III, Paragraph I and Article III, Section X of the Constitution of Georgia and Chapter 18 of this title, there is established as of July 1, 1956, Division A of the Employees' Retirement System of Georgia as a separate coverage group to be specifically known as the 'Employees' Social Security Coverage Group.'

(b) Any person who was a member of the retirement system as of August 31, 1956, including any new member after that date with prior service or annuity savings credits, shall continue his membership without change in status, which membership shall be designated as the membership of Division B, unless such member expresses in writing to the board of trustees his desire to become a member of Division A.

(c) Any person who becomes a member on or after September 1, 1956, and who does not have either annuity savings or prior service credits shall have his membership established in Division A, unless prior to the execution of the contract extending social security coverage such individual has expressed his desire in writing to the board of trustees to be a member of Division B. After the execution date of the contract extending social security coverage, a member of Division A shall be ineligible for membership in Division B.

(d) Any person who joins the retirement system as a contributing member on or after the execution date of the contract extending social security coverage shall become a member of Division A, unless he has prior service or annuity savings credits, in which case he shall become a member of Division B pursuant to subsection (b) of this Code section. The existence of prior service or annuity savings credits shall be ascertained from the retirement system by the employer at the time of transfer or reemployment. Any person who becomes a member of Division B under this subsection shall, upon written request made prior to a date to be established by the board of trustees, be transferred from Division B to Division A under conditions comparable to the dates and procedures applicable under subsection (b) of this Code section for transfer to Division A.

(e) Upon written request to the board of trustees and favorable decision by it and subject to applicable federal law, any member of Division B shall be transferred to Division A on a date fixed by the board of trustees, which date shall be no later than six months subsequent to the enactment and approval of permissive federal legislation extending social security coverage to employees of the state and further subject to the following conditions:

(1) Each member of Division B who elects to transfer to Division A shall pay to the retirement system a lump sum amount representing all retroactive employee contributions in excess of 2 percent of the first $4,200.00 annual wages as required by the Social Security Act to permit social security coverage to be extended to members of Division B. The equivalent of 2 percent of the first $4,200.00 annual wages contributed by each member of Division B who has elected not to transfer to Division
A, which amount would have otherwise been used for social security contributions, shall be established as a separate record, and such accumulated contributions may be used to provide an additional annuity upon such employee's retirement or a lump sum payment at retirement whenever the Division B benefits are computed on the simplified benefit tables as provided in Code Section 47-2-28;

(2) Each employer is authorized and directed to pay to the retirement system the required retroactive employer contributions which are required by the Social Security Act in order to extend social security coverage to those members of Division B who elect to transfer to Division A, upon notice by the board of trustees of the amount due. The board of trustees is authorized to adopt and approve regulations which it deems appropriate to facilitate and expedite the transfer of any member of Division B to Division A of the retirement system, provided that those regulations conform to the conditions of applicable federal and state laws.

(f) Any other provisions of law to the contrary notwithstanding, the accumulated contributions made on account of prior service by a member of Division A shall be reduced by an amount set forth in tables adopted by the board of trustees on August 10, 1956, so as to assure that the aggregate contributions of the state will remain at the present level, with the exception of any increased employer tax as referred to in subsection (h) of this Code section.

(g) The retirement allowance of any member of Division A who retires under this chapter and accepts employment from any state department or any agency which is supported in whole or in part by state funds, regardless of the source of such funds, shall be suspended during such time of his or her employment. If he or she is employed in a department subject to this chapter, he or she shall again become a member of Division A but shall contribute only the required social security tax. Upon separation of such member from state employment for any cause, all rights shall be vested in such member the same as if he or she had continued under his or her option to retire.

(h) Any other provisions of law to the contrary notwithstanding, any required employee tax for social security coverage not otherwise retained by employer fiscal officers shall be deducted from each Division A member's individual annuity savings account by the retirement system for payment of such required tax. If the member's annuity savings account is insufficient to cover the required amount of employee tax, it shall be the duty of the fiscal officer of his or her employer to deduct from the current salary of the member such amounts as are necessary for payment of the employee tax. For those members of Division A covered for social security, it shall be the duty of the fiscal officers of the various employers to retain from each of the 5 1/2 percent employee-7 1/2 percent employer contributions for retirement system purposes, 2 percent of the member's first $4,200.00 annual wages, such amount to apply toward the employee-employer tax required under the Social Security Act. Any additional rate of employee-employer tax for social security shall result in a corresponding increase in the amount of tax payable by the employee and employer. All employee-employer taxes required under the Social Security Act after December 31, 1956, shall be retained by the fiscal officers of the various employers and reported to the board of trustees in
accordance with rules and regulations established by the board of trustees. In order to facilitate the making of deductions and to simplify the reporting thereof for those members of Division A covered for social security, the board of trustees shall adopt such tables of employer and employee contributions as will result in uniform monthly contributions to the retirement system throughout the year. Such tables as adopted by the board of trustees shall not be placed in effect prior to January 1, 1963.

(i) Any other provisions of this chapter to the contrary notwithstanding, the pension accumulation fund shall be the guaranty fund for guarantee of payment of the employee employer tax required under the Social Security Act that was paid into that fund for the period of July 1, 1956, through December 31, 1956.

(j) Any member of Division A who has reached age 65 may, upon written application to and approval by the board of trustees, discontinue contributions which provide retirement benefits under this chapter. However, the employee tax provided under the Social Security Act shall be paid by the member.

(k) Members of Division A shall be given appropriate notice of a referendum to be held to determine if they will become covered for social security or not. If the referendum is in the affirmative, the board of trustees is authorized to enter into an appropriate agreement on the part of the state for such coverage with an effective date not earlier than July 1, 1956, at which time all provisions in this Code section relative to social security shall become operative."

SECTION 9.
Said title is further amended by revising Code Section 47-2-72, relating to procedure for electing not to become a member, as follows:

"47-2-72.

(a) Any other provision of this article to the contrary notwithstanding, any person who first becomes an employee of an employer at age 60 or later may elect not to become a member of this retirement system. Such election shall be made in writing to the board within 30 days of first becoming an employee of an employer; otherwise, the person shall become a member of this retirement system. The election provided for in this subsection shall be irrevocable.

(b) Any active member of this retirement system on July 1, 1998, who was age 60 or older when he or she first became a member of this retirement system may elect to withdraw his or her membership and receive the total of his or her employee contributions with regular interest thereon. Such election shall be made in writing to the board not later than August 1, 1998; otherwise, the member shall remain a member of this retirement system. The election provided for in this subsection shall be irrevocable."

SECTION 10.
Said title is further amended by revising subsection (b) of Code Section 47-2-90, relating to rules and regulations with regard to credit for service and credit for service with the Georgia National Guard, Georgia State Guard, and General Assembly, as follows:
"(b) In no case shall more than one year of service be creditable for all service in one calendar year, provided that creditable service performed as a member of the General Assembly shall be in addition to all other service."

SECTION 11.
Said title is further amended by repealing and reserving Code Section 47-2-95, relating to credit for service during World War I, World War II, or the Korean Conflict, and credit for service in the Georgia National Guard or the Georgia State Guard, as follows:

"47-2-95.
No more than ten years of creditable service shall be given for prior service during World War I, World War II, or the Korean Conflict; prior service in the Georgia National Guard or Georgia State Guard; or credit for future such service or any combination of such service, notwithstanding that more than ten years of such service may have been rendered. Reserved."

SECTION 12.
Said title is further amended by repealing and reserving Code Section 47-2-96, relating to prior service credit and payments required to obtain credit, as follows:

"47-2-96.
(a) In order to receive prior service credit, a member shall pay the contributions he would have made with respect to his earnable compensation for prior service, had the retirement system been in operation when that service was rendered, together with regular interest on that amount to January 1, 1954, at the rate of regular interest in effect on that date. Such service shall include service to an employer that operates or operated a local retirement fund. In determining the earnable compensation of a member for his prior service, the board of trustees shall use the average annual earnable compensation of the member during the last five years of service immediately prior to January 1, 1954, or if he has less than five years of creditable service prior to January 1, 1954, his average annual earnable compensation during his total creditable service. Anything in this chapter to the contrary notwithstanding, a member's prior service accumulations shall be computed to January 1, 1954, in the manner set forth in this subsection; and the accumulated contributions on that service made by an individual prior to January 1, 1954, shall be used in computing the retirement allowance. This Code section shall also apply to current members who transferred their membership from the Teachers Retirement System of Georgia.

(b) Anything in this chapter to the contrary notwithstanding, any member who received compensation from the state for services rendered by him before January 1, 1954, and any member who before that date rendered service for which prior service credit would be allowable under this Code section shall receive prior service credit for it upon furnishing proper certification to the board of trustees. No credit for any such service shall be allowed for any person first becoming a member after March 31, 1972, nor for any person again becoming a member after March 31, 1972, who had not received credit for such service on or before that date.
(c) Anything in this chapter to the contrary notwithstanding, any present or former employee of this state (1) who was a member as of July 1, 1961, (2) who had at least ten years of service prior to January 1, 1950, for which earnable compensation was paid directly to him by a department of state government, and (3) who becomes entitled to benefits under this chapter, after paying required contributions, shall be eligible for and, upon proper certification, shall receive credit for only those prior service accumulations, either adjusted or otherwise, in the same manner as allowed all other eligible members of the retirement system within the year 1953, provided that such individual shall not be eligible to receive benefits until he shall have served as a member at least five years subsequent to July 1, 1961; provided, further, that no such member who previously elected nonmembership in the retirement system or who transferred his membership and credits to this retirement system shall be eligible under this subsection.

(d) Any other provision of this chapter to the contrary notwithstanding, any former employee of this state (1) who was a member as of July 1, 1957, (2) who had at least 15 years of service prior to July 1, 1953, for which earnable compensation was paid directly to him by a department of state government, and (3) who becomes entitled to benefits under this chapter shall be eligible for and, upon proper certification, shall receive credit for only those prior service accumulations, either adjusted or otherwise, in the same manner as allowed all other eligible members of the retirement system within the year 1953, provided that no such member who previously elected nonmembership or who transferred his membership and credits to this retirement system shall be eligible under this subsection.

(e) Anything in this chapter to the contrary notwithstanding, any member who is otherwise eligible for prior service credits and who served on active duty in the armed forces of the United States prior to January 1, 1954, shall be entitled to credit for such service, provided that:

(1) No such credit shall be given for reserve service;

(2) Credit for such service shall not exceed limits imposed elsewhere in this chapter; and

(3) No credit shall be granted for such service if that service has been or will be used to satisfy requirements for benefits or allowances from any other state or federal retirement program, excluding federal social security and retirement programs under Public Law 810, 80th Congress, as amended; and provided, further, that this shall not prejudice any determination of credit for such service made prior to April 1, 1972. It is not the intent of this subsection to authorize creditable service for any member who retired from active duty in the armed forces of the United States with a benefit or allowance, unless he qualified for his benefit or allowance only because of such injury or disability.

(f) Anything in this chapter to the contrary notwithstanding, any member who was on active duty in the armed forces of the United States during the period of the Vietnam Conflict may receive military service credit for such period of active duty up to a maximum of five years, provided that such member shall pay the regular employee
contribution of 5 percent of the compensation last paid to him as an employee before entering military service or 5 percent of the compensation first paid to him as an employee after returning from military service, plus 4 1/2 percent interest on such employee contributions, compounded annually to date of payment; provided, further, that no service in the armed forces shall be deemed as creditable under any provisions of this chapter if such service has or will be used in the determination of any member's eligibility for retirement benefits or allowances from any other state or federal retirement program, excluding social security and those retirement programs covered under Public Law 810, 80th Congress, as amended. For the purposes of this subsection, the period of the Vietnam Conflict shall extend from August 5, 1964, through May 7, 1975.

(g) Anything in this chapter to the contrary notwithstanding, any member who was on active duty in the armed forces of the United States at any time from January 1, 1954, until August 5, 1964, as determined by the person's official military records, may purchase such active duty military service credit, exclusive of reserve service, by paying the required employee contributions on the compensation last paid to the member as an employee prior to entering military service or the compensation first paid to the member as an employee after returning from military service plus 15 percent interest on said employee contributions, compounded annually to date of payment. No service in the armed forces shall be creditable under the provisions of this subsection if such service has or will be used in the determination of any member's eligibility for retirement benefits or allowances from any other state or federal retirement program, excluding social security and those retirement programs covered under the provisions of Title 10 of the United States Code, Public Law 810, 80th Congress, as amended. To be eligible to receive credit for military service under this subsection or any other subsection, the individual shall purchase such credit prior to January 1, 1988. No military service shall be creditable under the provisions of this subsection if creditable service for the same military service has been obtained under any other provision of this chapter; provided, however, that if creditable service for military service previously obtained under this chapter is withdrawn as creditable service, then creditable service for the same military service may be obtained under the provisions of this subsection. Under no circumstances shall credit for military service obtained pursuant to the authority of this subsection be used to qualify for retirement as a result of involuntary separation.

(h) Anything in this chapter to the contrary notwithstanding, any active member who became a member of this retirement system prior to 1980 as a result of being transferred by operation of law or the action of a state agency from employment by a county hospital authority to employment by a state agency shall be entitled to receive prior service credit for such member's last continuous period of employment with such county hospital authority immediately prior to such transfer, up to a maximum of ten years; provided, however, that in order to receive such creditable service the member shall pay the regular employer and employee contribution paid by or on behalf of him or her upon first becoming an employee of the state agency, plus 5 percent interest
thereon, compounded annually to date of payment; provided, further, that no such
service shall be deemed as creditable under any provisions of this chapter if such
service has or will be used in the determination of any member's eligibility for
retirement benefits or allowances from any other state or federal retirement program,
excluding social security and those retirement programs covered under Public Law 810,
80th Congress, as amended.

(i)(1) Any other provisions of this chapter to the contrary notwithstanding, any
member, other than a member who is subject to the provisions of Code Section 47-2-
334, who served on active duty in the armed forces of the United States during a
period of time provided for in paragraph (2) of this subsection as a member of a
National Guard unit which was called into federal service may receive creditable
service for such active duty military service subject to the limitations and
requirements of this subsection.

(2) If the active duty military service described in paragraph (1) of this subsection
was at any time from August 5, 1964, through May 7, 1975, the member claiming the
creditable service shall pay the employee contributions plus interest described in
subsection (f) of this Code section as a condition of obtaining such creditable service.
If the active duty military service described in paragraph (1) of this subsection was at
any time from January 1, 1954, until August 5, 1964, the member claiming the
creditable service shall pay the employee contributions plus interest described in
subsection (g) of this Code section as a condition of obtaining such creditable service.

(3) No active duty military service shall be creditable under the provisions of this
subsection if such service has been or will be used in the determination of any
member's eligibility for retirement benefits or allowances from any other state or
federal retirement program, excluding social security and those retirement programs
covered under Public Law 810, 80th Congress, as amended. The maximum amount
of creditable service which may be obtained pursuant to the provisions of this Code
section is five years and the total creditable service for all military service shall not
exceed ten years. Creditable service obtained pursuant to the provisions of this
subsection may not be used to attain any level of creditable service to qualify for a
retirement benefit based on involuntary separation from service.

(4) Notwithstanding any other time limitation provided in this chapter for obtaining
creditable service for military service, a qualified member may obtain creditable
service pursuant to the provisions of this subsection until July 1, 1991.

(j) Anything in this chapter to the contrary notwithstanding, any member who was an
active duty in the armed forces of the United States during any period during which a
military draft was in effect, and any member who served an uninterrupted period of
active duty which began during any such period, may receive military service credit for
such period of active duty up to a maximum of two years, provided that such member
shall pay the regular employee contribution of 5 percent of the compensation last paid
to such member as an employee before entering military service or 5 percent of the
compensation first paid to such member as an employee after returning from military
service plus 4 1/2 percent interest on such employee contributions, compounded
annually to date of payment; provided, further, that no service in the armed forces shall be deemed as creditable under any provisions of this chapter if such service has or will be used in the determination of any member's eligibility for retirement benefits or allowances from any other state or federal retirement program, excluding social security and those retirement programs covered under Public Law 810, 80th Congress, as amended. Notwithstanding any other time limitation provided in this chapter for obtaining creditable service for military service, a qualified member may obtain creditable service pursuant to the provisions of this subsection by making application therefor prior to December 31, 2003. Reserved.

SECTION 13.
Said title is further amended by repealing Code Section 47-2-96.1, relating to creditable service for temporary full-time employment by legislative branch, which reads as follows:
"47-2-96.1.
(a) As used in this Code section, 'temporary full-time service' means employment by the legislative branch of the state government prior to July 1, 2006, on a full-time basis for less than nine months in any calendar year that did not qualify the employee to be a member of the retirement system.
(b) Any member who rendered temporary full-time service prior to becoming a permanent full-time employee eligible for membership in the retirement system may obtain no more than ten years of creditable service for such service on a month-for-month basis, subject to the following requirements:
(1) One month of creditable service shall be granted for each 20 days of temporary full-time service, not to exceed 12 months of creditable service for all temporary full-time service rendered during any single calendar year, provided that no creditable service shall be granted for less than 60 days of part-time service during a calendar year; and
(2) The member claiming such creditable service shall pay to the board of trustees the employer and employee contribution that would have been paid to the retirement system if the member had been a member during the period for which creditable service is claimed based on compensation actually received for the temporary full-time service which is claimed as creditable service together with regular interest thereon.
(c) The board of trustees shall require such proof of part-time service and compensation received therefor as may be necessary to carry out the provisions of this Code section.
(d) In order to obtain creditable service under this Code section, a member must make application to the board of trustees not later than January 1, 2007.
(e) Nothing in this Code section shall be construed as to allow any former member of the General Assembly to obtain credit for prior legislative service."
SECTION 14.
Said title is further amended by repealing Code Section 47-2-96.2, relating to creditable service for uncredited full-time service with executive branch, which reads as follows: "47-2-96.2.
(a) As used in this Code section, 'uncredited full-time service' means employment by the executive branch of the state government after January 1, 1980, and prior to January 1, 1986, on a full-time salaried basis for which the employee was authorized to accrue annual and sick leave but which did not qualify the employee to be a member of the retirement system.
(b) A member may not obtain more than three years of creditable service for uncredited full-time service. The member claiming such creditable service shall pay to the board of trustees the employer and employee contribution that would have been paid to the retirement system if the member had been a member during the period for which creditable service is claimed based on compensation actually received for the service which is claimed as creditable service together with regular interest thereon.
(c) The board of trustees shall require such proof of service and compensation received therefor as may be necessary to carry out the provisions of this Code section.
(d) In order to obtain creditable service under this Code section, a member must make application to the board of trustees not later than January 1, 1999."

SECTION 15.
Said title is further amended by repealing and reserving Code Section 47-2-97, relating to applicability of creditable service under Code Section 47-2-93 or subsection (b) of Code Section 47-2-96 toward involuntary separation benefits and requirement as to full-time employment for credit, as follows: "47-2-97.
(a) Any other provisions of law to the contrary notwithstanding, no creditable service of any nature which may be allowed under Code Section 47-2-93 or subsection (b) of Code Section 47-2-96 shall be used in any manner to qualify a member for involuntary separation benefits.
(b) No credit shall be given under Code Section 47-2-93 except for full-time state employment; provided, however, that service after January 1, 1954, as a tax collector, tax receiver, or tax commissioner or as an employee of any such tax official shall be deemed to be full-time state employment for the purposes of this retirement system and any service as a tax commissioner, tax receiver, or tax collector or any employee of such tax officials after January 1, 1954, to the date any such official or employee became a member of the retirement system shall be credited as membership service credit upon payment into the retirement system before January 1, 1977, the employer and employee contributions, plus regular interest thereon, for such service. Reserved."

SECTION 16.
Said title is further amended by revising Code Section 47-2-110, relating to retirement ages, application for a retirement allowance, suspension of retirement allowance upon
reemployment, and health benefits, as follows:
"47-2-110.

(a)(1) Upon written application to the board of trustees, any member in service who has reached 60 years of age or who has 30 years of creditable service may retire on a service retirement allowance, provided that he or she has at least five years of creditable service; provided, further, that if he or she became a member after July 1, 1968, he or she has at least ten years of creditable service. The effective date of retirement shall be the first of the month in which the application is received by the board of trustees, provided that no retirement application will, in any case, be effective earlier than the first of the month following the final month of the applicant's employment. Applications for retirement will not be accepted more than 90 days in advance of the effective date of retirement. Separation from service pending approval of the retirement application shall not affect eligibility for a retirement allowance. The provisions of this subsection regarding the effective date of retirement shall apply to all persons making application for retirement on or after March 15, 1979, and to all persons who have made application prior to March 15, 1979, but to whom payments from the retirement system have not commenced as of that date. Each employer shall certify to the board of trustees the date on which the employee's employment is or will be severed and that no agreement exists to allow the employee to return to service, including service as or for an independent contractor. Any return to employment or rendering of any paid service, including service as or for an independent contractor, for any employer within two consecutive calendar months of the effective date of retirement shall render the severance invalid, nullifying the application for retirement.

(2) Normal retirement age, for purposes of the retirement system, shall be the date the employee has reached 60 years of age, provided that he or she has at least ten years of creditable service or the age of an employee on the date he or she attains 30 years of creditable service; provided, however, that the provisions of this paragraph are subject to change by future legislation in order to comply with federal regulations. For those members who are in service with the Uniform Division of the Department of Public Safety as an officer, noncommissioned officer, or trooper, officers and agents of the Georgia Bureau of Investigation, conservation rangers of the Department of Natural Resources, or in the Department of Revenue as an alcohol and tobacco officer or agent, normal retirement age shall be the date the employee has reached 55 years of age, provided that he or she has at least ten years of creditable service. For purposes of Section 402(l) of the federal Internal Revenue Code regarding distributions from governmental plans for health and long-term care insurance for public safety officers, normal retirement age shall be the earliest date when the employee has satisfied the requirements for a retirement allowance under the retirement system. Except as provided under Article 2 of Chapter 1 of this title, a member's right to his or her retirement allowance is nonforfeitable upon attainment of normal retirement age.

(b)(1) Effective July 1, 1983, no member of the retirement system may be required to retire because of age except the following members:

(A) Those employed as prison guards by the Department of Corrections;
(B) Those employed by the Uniform Division of the Department of Public Safety as officers and troopers;
(C) Those employed by the Department of Natural Resources as conservation rangers;
(D) Those employed by the Department of Revenue as alcohol and tobacco officers or agents;
(E) Those employed as officers or agents of the Georgia Bureau of Investigation;
(F) Those employed by the Department of Transportation as enforcement officers prior to July 1, 2001;
(G) Those employed by the Department of Motor Vehicle Safety as enforcement officers on or after July 1, 2001; and
(H) Those employed by the State Board of Pardons and Paroles as parole officers as well as other employees of said board who possess the power of arrest.

(2) Those members specified by paragraph (1) of this subsection who may be required to retire because of age shall be subject to the laws specifying retirement ages for the various classifications of such members or subject to the rules, regulations, or policies specifying retirement ages of the various state departments or agencies employing such members, provided such rules, regulations, or policies are in compliance with other laws of this state. Any state department or agency specified in paragraph (1) of this subsection shall be authorized to employ or continue the employment of any member, regardless of age, with professional, scientific, or technical skills who is so certified to the board of trustees by the state department or agency.

(e)(b)(1) As used in this subsection, in addition to the definition provided in Code Section 47-2-1, the term 'employer' shall also include the retired member's last employer which reported to the retirement system prior to the member's effective date of retirement. Such term shall also include the Board of Regents of the University System of Georgia.

(2) Except as provided in this subsection, if a member accepts paid employment with or renders services for pay to any employer, including, without limitation, service directly or indirectly as or for an independent contractor, after his or her retirement, payment of his or her retirement allowance shall be suspended and no contributions to the retirement system shall be made on account of such service either by that member or his or her employer, provided that, upon termination of such service, all rights shall vest in that member as if he or she had continued his or her option to retire.

(3) The retirement allowance of a retired member who accepts employment with or renders services to any employer after his or her retirement shall not be suspended if the employee has attained normal retirement age or has not been employed by or rendered service for any employer for at least two consecutive calendar months and performs no more than 1,040 hours of paid employment or paid service, including, without limitation, service as or for an independent contractor, for the employer in any calendar year.

(4) Any employer that employs a retired plan member shall within 30 days of the
employee's accepting employment notify the board of trustees in writing stating the
name of the plan member and the number of hours the employee is expected to work
annually and shall provide such other information as the board may request. If the
retired plan member performs more than 1,040 hours in any calendar year, the
employer shall so notify the board of trustees as soon as such information is available.
Any employer that fails to notify the board of trustees as required by this subsection
shall reimburse the retirement system for any benefits wrongfully paid. It shall be the
duty of the retired plan member seeking employment by the employer to notify the
employer of his or her retirement status prior to accepting such position. If a retired
plan member fails to so notify the employer and the employer becomes liable to the
retirement system, the plan member shall hold the employer harmless for all such
liability.
(c) The board of trustees is authorized to provide by rule or regulation for the
payment of benefits to members or beneficiaries of the retirement system at a time and
under circumstances not provided for in this chapter to the extent that such payment is
required to maintain the retirement system as a 'qualified retirement plan' for the
purposes of federal income tax laws.

SECTION 17.
Said title is further amended by revising Code Section 47-2-111, relating to retirement
allowance for members subject to involuntary separation and persons eligible to retire at
age 55, as follows:

"47-2-111. (a) Any other provision of law to the contrary notwithstanding, any member stated in
subparagraphs (b)(1)(B) through (b)(1)(E) of Code Section 47-2-110 who is subject to
the involuntary separation provisions of Code Section 47-2-123 and who retires upon or
after attaining the age of 55, whether or not retirement at such age is required by law,
shall upon application receive a retirement allowance which shall consist of:
(1) In the case of a member with at least 20 years of service, the service retirement
allowance which would have been payable upon service retirement at age 60 had the
member continued in service to age 60 without further change in compensation;
(2) In the case of a member with at least 25 years of service, 75 percent of the service
retirement allowance which would have been payable upon service retirement at age
65 had the member continued in service without further change in compensation;
or
(3) In the case of a member with at least 30 years of service, the service retirement
allowance which would have been payable upon service retirement at age 65 had the
member continued in service without further change in compensation.
Any provisions of this chapter to the contrary notwithstanding, in the application of
paragraphs (1) through (3) of this subsection relating to allowances other than for
disability or death, projected retirement allowance computations shall be made on the
basis of the member's highest total monthly earnable compensation, as reflected by
monthly contributions made during the last 24 calendar months in which the member
had made contributions, except that no salary increase by adjustment in compensation
in any manner in excess of 10 percent during the last 12 months of membership service shall be included in the projected computation.

(b) Any other provision of this chapter to the contrary notwithstanding, any member employed by the Uniform Division of the Department of Public Safety as an officer, a noncommissioned officer, or a trooper; by the Georgia Bureau of Investigation as an officer or agent; by the Department of Natural Resources as a conservation ranger; or by the Department of Revenue as an alcohol and tobacco officer or agent or as an officer or agent of the Special Investigations Unit shall be eligible to retire at age 55 if he or she has the minimum number of years of creditable service provided in Code Section 47-2-110, and upon retirement such member shall be paid not less than the service retirement allowance which would have been payable to such member upon service retirement at age 65 without a change in compensation and with the same number of years' creditable service to which such member is entitled at the time of retirement."

SECTION 18.
Said title is further amended by revising subsection (a) of Code Section 47-2-120, relating to retirement allowances, as follows:
"(a) Upon service retirement, a member shall receive a service retirement allowance which shall consist of:
(1) An annuity which shall be the actuarial equivalent of his or her accumulated contributions at the time of his or her retirement; and
(2) A pension equal to the annuity allowable at age of retirement, but not to exceed an annuity which would have been allowed at age 65, which pension shall be computed on the basis of his or her contributions made prior to attaining age 65, provided that any member may continue his or her contributions after attaining 65 years of age, and by so doing shall receive membership service credit for such period of time, which shall be used in the computation of retirement allowances; and
(3) If he has a prior service certificate in full force and effect, an additional pension which shall be equal to the annuity allowable at age of retirement, provided that such pension does not exceed the annuity which would have been allowable at age 65 by more than twice the amount of his prior service accumulations as defined in Code Section 47-2-96 with regular interest on such amount as from time to time in effect, which interest shall be figured from the date of establishment until the earlier of the date of his retirement or the date on which he attains 65 years of age."

SECTION 19.
Said title is further amended by repealing Code Section 47-2-142, relating to credit for prior service rendered by persons transferred under load to a federal agency but ineligible for federal service retirement membership who served overseas with the Red Cross during World War II, which reads as follows:
"47-2-142.
Anything in this chapter to the contrary notwithstanding, those persons who were
members of the retirement system on January 1, 1973, and who (1) were transferred under loan from an employer to a federal agency during World War II; (2) during the period of the loan, were selected by the United States government from official registers of the State Personnel Administration, paid according to state salary schedules, but were ruled ineligible for federal civil service retirement membership; (3) were transferred from an employer to a federal agency, but whose work was continued under the supervision and control of the employer; or (4) resigned or took a leave of absence from an employer to accept overseas service with the American Red Cross or other Red Cross organization during World War II and who were subsequently rehired or reinstated by an employer shall be entitled to service credit for periods during which they were so employed."

SECTION 20.
Said title is further amended by repealing and reserving Code Section 47-2-160, relating to inclusion of General Assembly members in retirement system, effect on rights under the Georgia Legislative Retirement System, rules and regulations, and amount and financing of contributions, as follows:

"47-2-160.
(a) Effective May 1, 1971, members of the Georgia Legislative Retirement System under Chapter 6 of this title shall become members of the Employees' Retirement System of Georgia and shall be subject to all conditions and provisions of this chapter, provided that this Code section shall not deny any such member any rights and privileges now provided for under the Georgia Legislative Retirement System.
(b) On and after May 1, 1971, future members of the General Assembly, the Clerk of the House of Representatives, and the Secretary of the Senate and on and after March 27, 1972, doorkeepers and messengers for either house of the General Assembly shall, upon taking office, become members of this retirement system and shall be ineligible for membership in the Georgia Legislative Retirement System.

SECTION 30.
Said title is further amended by revising Code Section 47-2-262, relating to membership in the retirement system of assistant district attorneys and employees of the Prosecuting Attorneys' Council, notice of election to become a member, and contributions, as follows: "47-2-262.

(a) As used in this Code section, the term:

employee contributions required by this chapter.

(c) Any person who was required to become a member of this retirement system by operation of subsection (b) of this Code section but who failed to do so at the time he or she was so required because of an administrative error may receive creditable service for all or a portion of such period of prior service by paying to the board of trustees an amount which would warrant the grant of creditable service without creating any additional actuarial accrued liability as to the retirement system. Such payment may include a transfer of funds from a money purchase pension plan maintained by the employee's employer prior to July 1, 2004, which shall be credited to the employee's annuity account established by the retirement system. The employee's employer is authorized to supplement such amount."

SECTION 31.

(c) Any person becoming a member of the retirement system pursuant to the provisions of this Code section shall be subject to the provisions of Code Section 47-2-334, except that any member of the retirement system who, without any break in service, accepts employment as a judicial employee shall continue in the same membership status possessed by the member immediately prior to accepting such employment without any interruption in membership service and without the loss of any creditable service.

(d) The salary paid from state funds to each judicial employee shall be the basis for employee and employer contributions to the retirement system for the purposes of this
Code section. All employer contributions, including employee contributions made by the employer on behalf of members, shall be paid from funds appropriated or otherwise made available for the operation of the judicial branch of the state government. Employee contributions of members under this Code section shall be deducted and remitted to the board of trustees by the appropriate employing authority.

For prior service as a judicial employee specified in subparagraph (a)(1)(D) of this Code section, the employer contributions plus interest required by this subparagraph shall be paid by the Council of Superior Court Judges of Georgia from funds appropriated or available for the operation of the superior courts.

(2) The employee and employer contributions provided for in paragraph (1) of this subsection shall be determined on the basis of compensation actually received as a judicial employee during the period of prior service for which creditable service is claimed. The employer contributions plus interest thereon provided for in subparagraph (B) of paragraph (1) of this subsection may be paid from any funds of the judicial branch of the state government appropriated or otherwise available to The Council of Superior Court Judges of Georgia or district administrative judges or appropriated or available for the operation of the superior courts.

(3) Any member qualified to obtain creditable service pursuant to the authority of subparagraph (a)(1)(D) of this Code section shall apply to the board of trustees for such creditable service by not later than July 1, 1993."
SECTION 32.
Said title is further amended by revising Code Section 47-2-292, relating to merit system of personnel administration for county revenue employees, membership in retirement system, contributions, and credit for prior service, as follows:

"47-2-292.

(a) The offices of the tax commissioners, tax collectors, and tax receivers of the counties of this state are declared to be adjuncts of the Department of Revenue, such offices assisting in the returning and collecting of state taxes. All tax commissioners, tax collectors, and tax receivers and employees in their offices shall be subject to a merit system of personnel administration, as promulgated by each such office, under which all such officials and employees shall perform services on the basis of merit, fitness, and efficiency.

(b) All individuals who served as such officials and employees on or after December 1, 1956, are eligible to become members of Division A of the retirement system. Any individual who becomes such an official or employee after August 1, 1958, shall become a member of Division A of the retirement system as a condition of his employment.

(c) The official in charge of such office, if he or she is responsible for the payment of the employees in that office, or the governing authority of the county, if the official and the employees are paid by it, shall deduct or collect from each member the employee contributions required by this chapter and shall remit the same to the retirement system as required by regulations. The state revenue commissioner is authorized and directed to pay from the funds appropriated for the operation of the Department of Revenue, the employer contributions required by this chapter, upon receipt of an invoice from the retirement system.

(d) In addition to the regular employer contributions required by this chapter, the state revenue commissioner is authorized and directed to pay from the funds appropriated for the operation of the Department of Revenue an additional contribution, as determined by the board of trustees, in a regular monthly amount sufficient to amortize, within a period of not more than 20 years, the prior service values of such members.

(e) All tax commissioners, tax collectors, tax receivers, and the employees in their offices who were in service on or after December 1, 1956, shall be entitled to all prior service credits authorized under this chapter in the same manner as if they had been members of the retirement system on such date, provided that prior service credits shall be available only to persons who become members at the time coverage was originally extended to them. No prior service credit shall be available to a person who became such an official or employee after August 1, 1958. The value of the prior service credits under this Code section shall not be in excess of the value of 25 years of prior service.

(f) Except for those persons holding office on June 30, 1983, and except as otherwise provided by subsection (h) (f) of this Code section, any person who becomes a tax commissioner, tax collector, or tax receiver at any time after June 30, 1983, shall be a member of the retirement system under the provisions of Code Section 47-2-334 as
a condition of holding office. Any person holding office as a tax commissioner, tax collector, or tax receiver on June 30, 1983, except such officials who are then members of the retirement system and except as otherwise provided by subsection (h) (f) of this Code section, shall have the option of becoming a member of the retirement system, and such option must be exercised by not later than June 30, 1984. Such officials electing membership in the retirement system may obtain creditable service under the retirement system for actual previous service as tax commissioner, tax collector, or tax receiver or as an employee of any such official by paying to the board of trustees the regular employer and employee contributions for each year or portion thereof claimed as previous service, with the computation of such contributions being based on the compensation of the official at the time of becoming a member of the retirement system. In addition to such employer and employee contributions, the official claiming such previous service shall pay interest at the rate of 6 percent per annum on the amount of such contributions compounded annually from the time the previous service was rendered until payment is made to the board of trustees. The payment required for such previous service shall be made to the board of trustees at the time application is made for membership in the retirement system. Except for the right to obtain creditable service for previous service as provided in this subsection, any official holding office on June 30, 1983, who elects membership in the retirement system shall be under the provisions of Code Section 47-2-334.

(g)(c) Except for those persons in employment on June 30, 1983, and except as otherwise provided by subsection (h) (f) of this Code section, any person who becomes an employee of a tax commissioner, tax collector, or tax receiver at any time after June 30, 1983, shall have the option, which must be exercised within 180 days after the date of employment, of becoming a member of the retirement system under the provisions of Code Section 47-2-334. Any person employed by a tax commissioner, tax collector, or tax receiver on June 30, 1983, except such employees who are then members of the retirement system and except as otherwise provided by subsection (h) (f) of this Code section, shall have the option of becoming a member of the retirement system, and such option must be exercised by not later than June 30, 1984. Such employees electing membership in the retirement system may obtain creditable service under the retirement system for actual previous service as an employee of a tax commissioner, tax collector, or tax receiver by paying to the board of trustees the regular employer and employee contributions for each year or portion thereof claimed as previous service, with the computation of such contributions being based on the compensation of the employee at the time of becoming a member of the retirement system. In addition to such employer and employee contributions, the employee claiming such previous service shall pay interest at the rate of 6 percent per annum on the amount of such contributions compounded annually from the time the previous service was rendered until payment is made to the board of trustees. The payment required for such previous service shall be made to the board of trustees at the time application is made for membership in the retirement system. Except for the right to obtain creditable service for previous service as provided in this subsection, any person employed on June 30, 1983, who elects
membership in the retirement system shall be under the provisions of Code Section 47-2-334.

Notwithstanding any other provisions of this Code section, no tax commissioner, tax collector, tax receiver, or any employee of any such official shall be eligible for membership in the retirement system if such official or employee is covered or becomes covered by any other public retirement or pension system, excluding social security coverage and coverage under any county or other local retirement or pension system. The provisions of subsections (a), (c) (b), and (d) (c) of this Code section shall apply to any tax officials or their employees who become members of the retirement system pursuant to subsections (f) (d) and (e) (c) of this Code section."

SECTION 33.

Said title is further amended by revising subsection (c) of Code Section 47-2-298, relating to employees of county departments of family and children services, as follows:

"(c) Employees or former employees of a county department of family and children services were in service on July 1, 1996, and who are subject to the provisions of this Code section shall and who failed to exercise the option provided by this Code section by notification in writing to the board of trustees of this retirement system, the board of trustees or other managing body of the local retirement system, and to the county governing authority in a timely manner shall be forever barred from exercising such option. Such notification must be made by not later than December 31, 1996. For employees or former employees of a county department of family and children services who become members of this retirement system after July 1, 1996, such election and notification must be made within six months of becoming a member of this retirement system. Any such employee failing to exercise the option granted by this Code section within such time limitation shall not at any time thereafter be eligible to become a member of this retirement system as an employee of a county department of family and children services. Any such employee shall make payment to the board of trustees of this retirement system of a sum equal to their employee contributions which had been paid to the local retirement system during the years of service for which credit is being claimed and thereafter shall not be entitled to receive any benefit from the local retirement system."

SECTION 34.

Said title is further amended by repealing Code Section 47-2-299, relating to creditable service for service as employee of private nonprofit hospital, which reads as follows:

break in service, became an employee of the community service board in the same position he or she held with the private hospital. Such credit shall be granted regardless of whether any prior service has been used or may be used in the determination of the member's eligibility for retirement benefits or allowances in a private retirement system.

(b) In order to obtain creditable service as provided by this Code section, the member shall make application to the board of trustees in such form as the board deems proper, accompanied by such evidence of prior employment as the board deems necessary and payment of such amount as determined by the actuary as necessary to grant such benefit without creating any accrued actuarial liability as to this retirement system.

(c) Application for the creditable service provided by this Code section must be made not later than December 31, 2002."

SECTION 35.
Said title is further amended by repealing and reserving Code Section 47-2-311, relating to credit for service by persons formerly employed by the Georgia Warm Springs Foundation and payments required in order to obtain credit, as follows:

"47-2-311.
Any member who was formerly an employee of the Georgia Warm Springs Foundation but who became an employee of the state under the terms of an agreement, effective November 1, 1973, between the state and the Georgia Warm Springs Foundation and who became a member of the retirement system shall be eligible to receive credit for previous employment service with the Georgia Warm Springs Foundation, upon payment to the retirement system of his accrued liability, as determined by the board of trustees. This option must be exercised by such member not later than December 31, 1974. Any member electing this option may purchase all or any portion of his previous employment service with the Georgia Warm Springs Foundation and full payment for the accrued liability of such service shall be made at the time of such election. Each such member shall be allowed one election and no additional service may subsequently be purchased. Reserved."

SECTION 36.
Said title is further amended by repealing and reserving Code Section 47-2-319, relating to membership in the retirement system of officers and employees of the Georgia Hazardous Waste Management Authority and contributions, as follows:

"47-2-319.
(a) As used in this Code section, the term 'Georgia Hazardous Waste Management Authority' or 'authority' means the Georgia Hazardous Waste Management Authority established by Article 4 of Chapter 8 of Title 12.
(b) Effective on July 1, 1990, or on first becoming officers or employees of the Georgia Hazardous Waste Management Authority, all officers and employees of the Georgia Hazardous Waste Management Authority shall become members of the retirement system. Any officer or employee of the authority who was already a member
of the retirement system on July 1, 1990, and any member of the retirement system who, without any break in service, becomes an officer or employee of the authority on or after July 1, 1990, shall continue in the same membership status without any interruption in membership service and without the loss of any creditable service. Except as otherwise provided in this subsection, any person becoming a member of the retirement system pursuant to the provisions of this Code section shall be subject to the provisions of Code Section 47-2-334.

(c) All employer contributions, including employee contributions made on behalf of members, which are required by this chapter shall be made for members who are subject to the provisions of this Code section from funds appropriated or otherwise available for the operation of the Georgia Hazardous Waste Management Authority. The authority shall deduct from the salaries payable to such members the additional employee contributions required by this chapter. Reserved."

SECTION 37.
Said title is further amended by repealing and reserving Code Section 47-2-325, relating to membership in retirement system of prior employees of the Foundation for Public Broadcasting in Georgia, Inc., as follows:
"47-2-325.
Any member who was formerly an employee of the Foundation for Public Broadcasting in Georgia, Inc., who became an employee of the Georgia Public Telecommunications Commission created July 1, 1990, by Chapter 13 of Title 20, and who became a member of this retirement system at that time shall be eligible to receive credit for previous employment service with the Foundation for Public Broadcasting in Georgia, Inc., upon payment to the retirement system of his or her accrued liability, as determined by the board of trustees. Such option must be exercised by such member not later than December 31, 1998. Any member electing such option may purchase all or any portion of his or her previous employment service with the Foundation for Public Broadcasting in Georgia, Inc., and full payment for the accrued liability of such service shall be made at the time of such election. Each such member shall be allowed one election and no additional service may subsequently be purchased. Reserved."

SECTION 38.
Said title is further amended by revising paragraph (2) of subsection (f) of Code Section 47-2-334, relating to service retirement allowance, calculation, employee membership contributions, employer contributions, optional membership, conditions, and construction of provision, as follows:
"(2) Except as otherwise provided in subsection (j) of Code Section 47-2-96, in Code Sections 47-2-96.1, 47-2-96.2, 47-2-204, 47-2-225, and 47-2-266, and in paragraph (3) of this subsection and except as otherwise expressly provided in this chapter, no service shall constitute creditable service except membership service for which the full rate of employee membership contributions and employer contributions is made pursuant to subsections (c) and (d) of this Code section; and"
SECTION 39.
Said title is further amended by revising subsection (a) of Code Section 47-2-354, relating to conditions, rights, privileges, obligations, and duties, as follows:
"(a) Members subject to this article shall be subject to the following conditions:
(1) The following provisions shall not be applicable to members subject to this article:
   (A) Subsection (d) of Code Section 47-2-120;
   (B) Paragraph (1) of subsection (c) of Code Section 47-2-123;
   (C) Code Section 47-2-124; and
   (D) Code Section 47-2-334;
(2) Except as provided in Chapter 1 of this title and in Code Sections 47-2-99 and 47-2-100, no service shall constitute creditable service except membership service for which the full rate of employee membership contributions and employer contributions is made pursuant to Code Section 47-2-352. The provisions of this paragraph shall not affect the transfer of creditable service between public retirement systems created by this title under such conditions as are now or may hereafter be provided by law;
(3) The provisions of Code Section 47-2-91 shall be applicable to members subject to this article; provided, however, that such benefits shall be subject to reduction or repeal by subsequent legislation and shall not be considered an element of any contract of employment;
(4) Disability benefits shall be calculated as provided in paragraph (2) of subsection (c) of Code Section 47-2-123; provided, however, that the disability benefits of persons entitled to the provisions of Code Section 47-2-221 shall be calculated as provided in such Code section but with the benefit computed on 1 percent of the member's monthly earnable compensation;
(5) Members subject to the provisions of this article shall not be entitled to group term life insurance coverage pursuant to Code Section 47-2-128 or 47-2-129; and
(6) Members subject to Code Section 47-2-244 shall be entitled to the provisions of such Code section; and
(7) Members subject to the provisions of Code Section 47-2-223 or 47-2-224 shall be entitled to retire as provided in subsection (b) of each such Code section but shall receive a monthly benefit based on 1 percent of his or her highest average compensation rather than the percentage stated in such subsections."

SECTION 40.
Said title is further amended by revising paragraph (20) of Code Section 47-3-1, relating to definitions, as follows:
"(20) 'Prior service' means service rendered prior to January 1, 1945, for which credit is allowable under Code Sections 47-3-83; and 47-3-86, and 47-3-87."
"47-3-60.
(a) Any person who becomes a teacher after January 1, 1944, shall become a member of the retirement system as a condition of his or her employment, except as otherwise provided in this chapter.
(b) Any person who was a teacher on January 1, 1943, or became a teacher prior to January 1, 1944, shall be a member unless prior to January 1, 1944, he or she filed with the board of trustees, on a form provided by it, a notice of his or her election not to be included in the membership of the retirement system and a duly executed waiver of all present and prospective benefits which would otherwise accrue to him or her by participating in the retirement system. Such a teacher who elected not to become a member may at any time thereafter apply for and be admitted to membership, but without credit for that service rendered after July 1, 1943, and before the time he or she becomes a member, and without prior service credit.
(c) Any teacher who was alive as of March 28, 1947, who has reached the age of 60, who had taught for at least 35 years as of March 19, 1943, in the public schools of the state operated by the Department of Education or any of the state educational institutions financed by this state and who retired from service in such schools or educational institutions before March 19, 1943, shall be deemed a member of the retirement system. Benefits to be paid to such a member shall be computed on the average earnings received by such a member for the last five years of actual service rendered in such schools and educational institutions. Reserved.
(d) A teacher otherwise eligible shall be classified as a member only while he or she is in the service of an employer not operating a local retirement system.
(e) The membership of any member shall terminate upon the member's:
   (1) Death;
   (2) Retirement under this retirement system;
   (3) Withdrawal of his or her contributions;
   (4) Rendering less than one year of service in a period of five consecutive years as a member; or
   (5) Employment by an employer which operates a local retirement fund, unless the member has ten or more years of creditable service with this retirement system, in which case the member may elect to continue membership in this retirement system, subject to the same terms and conditions as other members.
(e.1) A member who has not withdrawn the member's contributions to the retirement system and who has a break in service of more than four years but not more than five years may be reinstated to membership if the member pays a sum equal to 12 1/2 percent of the member's salary for the last year of service prior to the break in service. A member who has not withdrawn the member's contributions to the retirement system and who has a break in service of more than five years but not more than six years may be reinstated to membership if the member pays a sum equal to 25 percent of the member's salary for the last year of service prior to the break in service. A member who has not withdrawn the member's contributions to the retirement system may be reinstated to membership without paying the reinstatement fees after the member
renders at least one year of membership service subsequent to the break in service. All interest credits shall cease after any such break in service but shall begin again on the date of payment of the sum required for reinstatement to membership or on the first day of July immediately following the completion of one year of membership service following the break in service. The board of trustees may approve the continued membership of a member while in the armed forces of the United States or other emergency wartime service of the United States, or a member whose membership would be terminated because of illness which prevents the member from rendering the service otherwise required by this Code section. The board of trustees may also grant an additional year of leave to a teacher for each child born to or adopted by such teacher while on authorized leave.

(f)(1) In the event a member desires to pursue a program of full-time study which will require that he or she render less than one year of service in a period of five consecutive years and which would otherwise result in termination of his or her membership, the board of trustees may approve a leave of absence for study purposes in addition to the normal four-year break in service which the member could otherwise take, so that the combined break in service does not exceed six years. Such study leave shall be continuous. In no event shall such a member's account remain in an active status for longer than six consecutive years for such purpose.

(2) A member who undertakes full-time graduate study designed to advance or improve his or her training or abilities as a teacher is entitled to receive creditable service for a period of graduate study under the following conditions:

(A) The member must have been a full-time teacher in the public schools of this state or in the University System of Georgia under the board of regents immediately prior to the period of graduate study. Any such period of graduate study interrupted solely for a period of active duty military service begun during a period in which the military draft is in effect shall be deemed not to have been interrupted for purposes of this subparagraph;

(B) The member must submit a transcript or similar document to the retirement system as verification of the graduate study pursued;

(C) The member must return to full-time employment as a teacher in the public schools of this state or in the University System of Georgia under the board of regents for a minimum of five years following such period of graduate study;

(D) The member must pay the appropriate member contributions plus applicable accrued interest in accordance with regulations adopted by the board of trustees on the basis of the salary the member was receiving for full-time employment as a teacher immediately prior to the period of graduate study; and

(E) Either the member's present employer or the member must pay the appropriate employer contributions and applicable accrued interest thereon if the source of funds from which the member was paid immediately prior to his or her period of graduate study was other than state funds.

(3) The foregoing provisions of this subsection shall apply to periods of graduate study heretofore and hereafter granted, but nothing contained in this subsection shall
be construed to rescind any creditable service granted prior to July 1, 1981, pursuant to this subsection or its predecessors.

(g) Any other provisions of law to the contrary notwithstanding, if a member with ten or more years' creditable service after becoming a member is employed by an employer operating a local retirement fund, his or her membership does not automatically terminate and he or she may elect to maintain his or her membership rather than participate in the local retirement fund, subject to the same terms and conditions as other members of the retirement system.

(h) New certified professional personnel employed for the first time by the State Board of Education or by the State Department of Education on and after July 1, 1983, shall become members of the retirement system as a condition of employment, unless such personnel elect membership in the Employees' Retirement System of Georgia at the time of their employment. Such election shall be made in writing to the board of trustees of this retirement system and to the board of trustees of the Employees' Retirement System of Georgia. Once such election is made by such personnel, the election is irrevocable during the tenure of employment with the State Board of Education or the State Department of Education. The State Board of Education shall provide by regulation for informing prospective employees who are to be employed as certified professional personnel of the option provided for by this subsection so that such personnel may choose membership in this retirement system or the Employees' Retirement System of Georgia at the time of their employment.

(h.1) Personnel employed for the first time by the State Board of Education or by the State Department of Education on or after July 1, 1988, who, at the time of becoming so employed, are members of this retirement system shall continue as members of this retirement system unless such personnel elect membership in the Employees' Retirement System of Georgia at the time of their employment. Such election shall be made in writing to the board of trustees of this retirement system and to the board of trustees of the Employees' Retirement System of Georgia. Once such election is made by such personnel, the election is irrevocable during the tenure of employment with the State Board of Education or the State Department of Education. The State Board of Education shall provide by regulation for informing prospective employees who are subject to the provisions of this subsection of the option provided for by this subsection so that such personnel may choose to continue membership in this retirement system or become members of the Employees' Retirement System of Georgia at the time of their employment.

(i)(1) This subsection shall apply to certified professional personnel in the unclassified service of the State Personnel Administration who are employed by the State Board of Education or the State Department of Education on July 1, 1986, and who are members of the Employees' Retirement System of Georgia and have at least five years of membership service in said retirement system as of July 1, 1986.

(2) This subsection shall also apply to any personnel employed by the State Board of Education or by the State Department of Education at any time before July 1, 1988, who are members of the Employees' Retirement System of Georgia and who, at the
time of becoming employed by said state board or department, had ten or more years of membership service in this retirement system.

(3) At any time from July 1, 1988, until not later than July 1, 1989, personnel described in paragraphs (1) and (2) of this subsection are authorized to transfer service credits and membership, including employer and employee contributions, from the Employees' Retirement System of Georgia to this retirement system. Any such personnel electing to transfer such service credits and membership to this retirement system shall be required to make additional contributions to this retirement system so that the annuity account balance of the transferring person shall be the same as though the transferring person had been a member of this retirement system during the period of time for which service credits are transferred from the Employees' Retirement System of Georgia to this retirement system or, in the absence of such payment, the board of trustees of this retirement system shall adjust the transferring person's credits in proportion to the contributions transferred from the Employees' Retirement System of Georgia to this retirement system. Any such personnel shall exercise the authority provided by this paragraph by written notification to the board of trustees of each of the retirement systems.

(4) If any person who transfers to this retirement system pursuant to the authority of this subsection subsequently becomes employed in a position where membership in the Employees' Retirement System of Georgia is required, any creditable service obtained under this retirement system for teaching service in school systems of other states pursuant to Code Section 47-3-89 shall not be eligible for transfer as creditable service to the Employees' Retirement System of Georgia, notwithstanding the provisions of Code Section 47-2-92 or any other provision of Chapter 2 of this title, relating to the Employees' Retirement System of Georgia.

(j)(1) Newly hired professional personnel employed for the first time by the Technical College System of Georgia on and after July 1, 1985, and all full-time nonprofessional personnel employed for the first time after July 1, 1987, by postsecondary vocational-technical schools governed by the state board shall become members of the Teachers Retirement System of Georgia as a condition of employment if otherwise eligible under laws, rules, and regulations, unless such personnel elect membership in the Employees' Retirement System of Georgia and are otherwise eligible under laws, rules, and regulations. Once such election is made by such personnel, the election is irrevocable during the tenure of employment with the Technical College System of Georgia or any postsecondary vocational-technical school governed thereby. Newly hired employees not eligible for membership in the Teachers Retirement System of Georgia or the Employees' Retirement System of Georgia shall become members of the Public School Employees Retirement System as a condition of employment if eligible. The Technical College System of Georgia shall provide by regulation for informing prospective employees who are to be employed as certified professional personnel of the option provided for by this subsection so that such personnel shall choose membership in the Teachers Retirement System of Georgia or the Employees' Retirement System of Georgia or
the Public School Employees Retirement System at the time of their employment.

(2) All full-time employees of a postsecondary vocational-technical school formerly
operated by a local board of education or area postsecondary vocational education
board as of July 1, 1987, or the date on which the state board assumes governance of
the postsecondary vocational-technical school shall elect either to continue
membership in the Teachers Retirement System of Georgia or to become members of
the Employees' Retirement System of Georgia. Once such election is made by such
personnel, the election is irrevocable during the tenure of employment with the
Technical College System of Georgia or any postsecondary vocational-technical
school governed thereby. All employees who are members of the Public School
Employees Retirement System may elect to continue their membership in the Public
School Employees Retirement System or to become members of the Teachers
Retirement System of Georgia or the Employees' Retirement System of Georgia if
otherwise eligible under laws, rules, or regulations.

(3) If any person who transfers to this retirement system pursuant to the authority of
this subsection subsequently becomes employed in a position where membership in
the Employees' Retirement System of Georgia is required, any creditable service
obtained under this retirement system for teaching service in school systems of other
states pursuant to Code Section 47-3-89 shall not be eligible for transfer as creditable
service to the Employees' Retirement System of Georgia, notwithstanding the
provisions of Code Section 47-2-92 or any other provision of Chapter 2 of this title.

(k) Any other provisions of law to the contrary notwithstanding, any person at least 60
years of age who first becomes a teacher on or after July 1, 1987, and any former
member of the retirement system at least 60 years of age who has withdrawn from the
retirement system employee contributions made during such former membership again
becoming a teacher on or after July 1, 1987, shall have the right to decline membership
in the retirement system. The right shall be exercised by sending written notice to the
board of trustees on a form provided by the board for such purpose. The right must be
exercised within 90 days after becoming a teacher. Any person declining membership
in the retirement system pursuant to this subsection shall not at any time thereafter be
eligible for membership in the retirement system. Any person failing to exercise the
right provided by this subsection within 90 days after becoming a teacher shall become
and remain a member of the retirement system as a condition of continued employment.
Any employee contributions made during the first 90 days as a teacher by a person who
exercises the right provided by this subsection shall be reimbursed to the person within
30 days after the board of trustees receives the written notice declining membership in
the retirement system.

(l) Any other provisions of this chapter or of Chapter 2 of this title to the contrary
notwithstanding, any member of this retirement system with five or more years of
continuous membership service who is employed by Central State Hospital and who,
without any break in employment, becomes employed in a position where membership
in the Employees' Retirement System of Georgia is ordinarily required shall have the
option to remain a member of this retirement system, notwithstanding the change in the
member's employment status. Such option shall be exercised by notification, in writing, to the boards of trustees of this retirement system and the Employees' Retirement System of Georgia. The employer of any such member who exercises the option provided by this subsection shall be an employer for the purposes of this chapter. (m) Any other provision of law to the contrary notwithstanding, any person who is entitled pursuant to the provisions of this article to make an election between membership in this retirement system and membership in any other retirement system and who subsequently retires and is rehired by the same employer which employed him or her immediately prior to retirement shall continue membership in the retirement system under which he or she initially retired and shall not be entitled to elect membership in any other retirement system."

SECTION 42.
Said title is further amended by repealing and reserving Code Section 47-3-61, relating to membership of persons who teach in both public and private school systems and payment of employer contributions for such persons, as follows:
"47-3-61.
Any person who is a teacher in both a public school and a private school system on July 1, 1969, who has been in that system for the immediately preceding five years, and who is a member of the retirement system on that date shall be eligible to continue his membership, provided that the employer's contribution shall be paid by the system in which such person is teaching. Reserved."

SECTION 43.
Said title is further amended by revising Code Section 47-3-65, relating to membership, rights, and benefits in local retirement funds, issuance of prior service certificates, dissolution of local retirement fund, and election of additional contributions and benefits, as follows:
"47-3-65.
(a) Except as otherwise provided by paragraph (5) of subsection (e) of Code Section 47-3-60, teachers in the service of an employer operating a local retirement fund shall not be members of the Teachers Retirement System of Georgia. Such teachers shall make no contributions to this retirement system and shall be eligible for pension benefits under this retirement system only under this Code section. If such a teacher retires under his or her local retirement fund and if at the time of his or her retirement he or she would have been eligible for service retirement under this retirement system had he or she been a member, the board of trustees shall pay from this retirement system to the managing board of the local retirement fund a pension equal to the pension for membership service which would have been payable under this retirement system in respect to the part of his or her earnable compensation payable from state funds if such member had been classified as a member of this retirement system immediately prior to the time of his or her retirement, and, if he has a prior service certificate in full force and effect pursuant to subsection (b) of this Code section, the
board of trustees shall also pay the pension that would have been payable on account of
the prior service accumulations certified thereon, provided that the excess of any such
pension payable under this retirement system over the retirement income provided by
the local retirement fund from contributions of the employer shall be payable directly to
the retired teacher and not to the local retirement fund; provided, however, upon service
retirement of any teacher who is a member of a local retirement fund, the local
retirement fund under which such teacher retired shall receive a service retirement
pension on account of his or her service thereunder, in accordance with the provisions
of this Code section, which shall consist of:

(1) A pension equal to the annuity which would have been allowable at age of
retirement if such teacher had been a member of this retirement system and had made
contributions of 5 percent of his or her earnable compensation payable from state
funds, but not to exceed an annuity allowable at age 65, computed on the basis of such
contributions as would have been made prior to age 65; and

(2) If he or she has a prior service certificate in full force and effect, an additional
pension equal to the annuity which would have been provided at age of retirement,
but not to exceed an annuity which would have been provided at age 65 by three times
the amount of his or her prior service accumulations as heretofore defined, with
regular interest thereon from time to time in effect from the date of establishment until
the date of his or her retirement, but not beyond age 65.

It shall be the duty of the employers operating local retirement funds to report to the
board of trustees annually or at such other intervals as shall be set by the board of
trustees the earnable compensation paid from state funds of each teacher in their
employ who is paid from state funds and such other information as may be needed for
establishing the prospective benefit of the member.

(b) Each employer that operates under a local retirement fund shall report to the Board
of Trustees of the Teachers Retirement System of Georgia a complete list of all teachers
in his employ, giving for each such teacher the date of birth, years of service, and
salary, showing the amount of such salary which is paid from state funds, and such
other information as is needed by the board of trustees in order to establish for each
teacher the prior service credits to which he is entitled on account of payment of his
salary from state funds. The board of trustees shall then issue to such teacher a prior
service certificate which shall continue in force so long as such teacher remains in
the employ of such employer or in the service of an employer that does not operate under a
local retirement fund, without a break in service of the kind which would have resulted
in the canceling of such certificate had the teacher been a member of this retirement
system.

(c) If a member of this retirement system enters the employ of an employer operating a
local retirement fund, he shall cease to contribute to this retirement system and shall
become subject to the provisions of the local retirement fund, unless he has elected to
continue his membership in this retirement system under paragraph (5) of subsection (e)
of Code Section 47-3-60. He shall not lose his previously accrued credits in the
retirement system so long as he continues in the service of such employer, and he shall
(d) If a teacher in the service of an employer operating a local retirement fund becomes a member of this retirement system by entrance into the service of an employer which does not operate under a local retirement fund, he shall contribute to this retirement system while so employed and shall retain the credits in the retirement system which he had at the time of becoming a member.

(e) Notwithstanding any other provisions of this chapter, the actuary in determining the normal and accrued liability contributions and the board of trustees in setting such contributions and the amount of the appropriations to be paid by the state to the pension accumulation fund shall include the liabilities on account of the state compensation paid to teachers in the employ of employers having local retirement funds; and the pensions payable from the pension accumulation fund shall include those payable on account of teachers in the service of employers operating local retirement funds.

(f) If a majority of teachers in the service of an employer operating a local retirement fund vote to discontinue the local retirement fund and the employer approves such discontinuance, the local retirement fund shall be dissolved and its operation discontinued as of a date to be set by the employer. Teachers in the employ of such employer shall thereupon become eligible for membership in this retirement system. Within one year after the dissolution of the local retirement fund, its managing board shall pay to each teacher covered by the local retirement fund the amount, if any, which would have been payable under the local retirement fund as a withdrawal benefit had his employment terminated on the date of dissolution. If the assets of the local fund are not sufficient to make such payments in full to or with respect to all teachers, the payments made shall be reduced in the ratio that the amount of such assets bears to the total of such payments if made in full. If a balance remains after making such payments in full to or in respect to all teachers, such balance shall be paid to the employer by the managing board of the local retirement fund. Upon the dissolution of any local retirement fund, in accordance with this subsection, the employer shall become liable for and shall pay all pensions entered upon and in effect at the time the local retirement fund is dissolved.

(g) If any local retirement fund is dissolved pursuant to subsection (f) of this Code section within six months after the commencement date, teachers in the service of such employer shall be entitled to become members of this retirement system as of the date of such dissolution, shall be entitled to prior service credits pursuant to Code Section 47-3-86 for service before July 1, 1943, and shall be entitled to creditable service after the date of such dissolution.

(h) Anything in this Code section to the contrary notwithstanding, an employer operating a local retirement fund may elect to have benefits payable under this retirement system in respect to earnable compensation in excess of the part of earnable compensation payable from the state funds, subject to the approval of the board of trustees. If the board of trustees approves, an actuarial valuation shall be made by the actuary of this retirement system in order to determine the amount of the additional contribution payable by the employer to provide such additional benefits. Upon
agreement of the employer to provide such additional contributions by uniform payments over a period of not more than 20 years, such additional credits shall be allowed to the members in the employ of such employer as will result in the payment of such additional benefits at retirement."

SECTION 44.
Said title is further amended by revising Code Section 47-3-66, relating to membership of teachers who are employed by independent school systems, creditable service, employee and employer contributions, and effect of failure to pay required contributions, as follows:
"47-3-66.
(a) As used in this Code section, the term:
   (1) 'Independent school system' means the independent school system of a municipality.
   (2) 'Local retirement fund' means a local retirement fund covering teachers employed by an independent school system.
   (3) 'Municipality' means any municipality of this state having a population of 300,000 or more according to the United States decennial census of 1970 or any future such census.
   (4) 'Teacher' means any teacher as defined by Code Section 47-3-1 who is employed by an independent school system.
(b) Any teacher who is employed by an independent school system after July 1, 1979, shall become a member of the retirement system as a condition of employment, and such teacher shall not be eligible for membership in a local retirement fund.
(c) Teachers who are actively employed on July 1, 1979, by an employer operating under a local retirement fund may elect to transfer from membership in the local retirement fund to membership in the Teachers Retirement System of Georgia, effective July 1, 1979. Such election must be made before July 1, 1979, in a manner prescribed by the board of trustees. All such teachers who transfer their membership to the retirement system under this Code section shall receive creditable service under the retirement system, equivalent to the creditable service such teachers had under the local retirement fund as of the date all payments are made as provided in subsections (d) and (e) of this Code section, provided that no creditable service shall be granted for service which would not otherwise be allowable under the retirement system. The board of trustees shall cause the records of such transferred teachers, after verification in the manner prescribed by the board of trustees, to reflect such creditable service.
(d) For each teacher becoming a member of the retirement system pursuant to subsection (c) of this Code section, the fiscal authority or other governing body, by whatever name designated, of the local retirement fund shall be empowered and shall have the duty to pay to the board of trustees the amount of contributions paid by such teacher to the local retirement fund and credited to each such teacher under it, together with applicable accrued regular interest, as determined by the board of trustees, to the date of payment. The fiscal authority or other governing body shall have the duty to
notify the board of trustees as to the amount paid on behalf of each such teacher. Such payment shall be made to the board of trustees by not later than October 1, 1979, or by the date of retirement of any teachers who retire prior to October 1, 1979, whichever is earlier.

(c) Each teacher who becomes a member of the retirement system pursuant to subsection (c) of this Code section shall pay to the board of trustees the amount of contributions which would have been paid by the teacher to the retirement system had the teacher been a member of the retirement system during the period of creditable service established pursuant to subsection (c) of this Code section, plus interest, as provided in this subsection, which would have accumulated on such contributions, less the amount paid on behalf of each such teacher pursuant to subsection (d) of this Code section. Interest which would have accumulated on such contributions shall be computed on the basis of regular accrued interest until January 1, 1982, and on the basis of 16 percent per annum from January 1, 1982, until the payment required by this subsection is made. The board of trustees shall determine the amount to be paid as interest. Such payment shall and must be made to the board of trustees in the manner prescribed by the board of trustees by not later than December 31, 1983, or by the date of retirement for any teacher who retires prior to December 31, 1983, whichever is earlier.

(f) The fiscal authority or other governing body, by whatever name designated, of the local retirement fund or the independent school system, or both, or their successors in interest, shall be empowered and shall have the duty to pay to the board of trustees an amount of employer contributions (not less than zero) actuarially determined by the board of trustees under the following formula:

\[
A = B - [(C \div D) \times E]
\]

\[A=\text{Amount of employer contributions payable to the board of trustees under this subsection.}\]

\[B=\text{Unfunded accrued liability, determined as of June 30, 1979, of those teachers who transfer to the retirement system pursuant to subsection (c) of this Code section and determined on the basis of the same methods and assumptions used in preparing the regular annual actuarial evaluation, as if those teachers who transfer had been members of the retirement system on June 30, 1979, less the payments made pursuant to subsections (d) and (e) of this Code section.}\]

\[C=\text{Unfunded accrued liability, determined as of June 30, 1979, of the retirement system, determined without regard to any teacher in the employ of an independent school system as defined in subsection (a) of this Code section.}\]

\[D=\text{The total annual earnable compensation for the fiscal year ending June 30, 1979, of members of the retirement system,}\]
plus the annual state compensation for the fiscal year ending June 30, 1979, of members of local retirement funds other than a local retirement fund as defined in subsection (a) of this Code section.

\[ E = \text{The total earnable compensation for the fiscal year ending June 30, 1979, of those teachers who transfer to the retirement system pursuant to subsection (c) of this Code section.} \]

(g) Payment of the amount determined under subsection (f) of this Code section shall be made to the board of trustees in 39 equal annual installments to be paid by June 30 of each year beginning on June 30, 1980, and in the manner prescribed by the board of trustees. In addition to payment of the installments of the amount determined under subsection (f) of this Code section, annual interest shall be added to each payment computed on the unpaid balance of such amount at a rate equal to the average rate of return on fixed income investments made by the retirement system during the preceding calendar year. By May 1 of each year, the board of trustees shall notify the fiscal authority or other governing body, by whatever name designated, of the local retirement fund or the independent school system, or both, or their successors in interest, as to the amount due by the following June 30. The amount in the notification will include the interest as computed pursuant to this subsection and shall and must be paid by the following June 30. The fiscal authority or other governing body, by whatever name designated, of the local retirement fund or the independent school system, or both, or their successors in interest, shall be empowered and shall have the duty to pay this interest.

(h) The employer of any teachers who become members of this retirement system under this Code section and any such teachers shall have all the rights, obligations, and duties under this Code section and as provided by any other provisions of this chapter.

(i) If the fiscal authority or other governing body, by whatever name designated, of the local retirement fund or the independent school system, or both, or their successors in interest, refuse or fail to make any payment required by this Code section, it shall be the duty of the board of trustees to notify the Office of Treasury and Fiscal Services and the State Board of Education of such refusal or failure; and thereupon it shall be the duty of the Office of Treasury and Fiscal Services and the State Board of Education to withhold from such fiscal authority or other governing body any state appropriations or any other funds which would be allocated or allocable for educational purposes to such fiscal authority or other governing body until the Office of Treasury and Fiscal Services and the State Board of Education receives authorization from the board of trustees to release such funds. The Office of Treasury and Fiscal Services and the State Board of Education are authorized and directed, upon certified request of the board of trustees, to remit to the board of trustees from such withheld funds the amount necessary to cover the amount which the fiscal authority or other governing body has refused or failed to pay to the board of trustees under this Code section. It shall be illegal for the Office of Treasury and Fiscal Services and the State Board of Education to pay out or release
such funds, after notice from the board of trustees, until and unless compliance with this Code section is achieved. The Office of Treasury and Fiscal Services and the State Board of Education are authorized to release the remainder of all such withheld funds upon authorization from the board of trustees.

(j) Notwithstanding any of the provisions of this Code section to the contrary, if the fiscal authority or other governing body, by whatever name designated, of the local retirement fund or the independent school system, or both, or their successors in interest, refuses or fails to make the payments specified in subsections (d), (f), and (g) of this Code section and if subsection (i) of this Code section fails sufficiently and completely to cover the amount of such nonpayment or payment failure, the teachers transferring to the retirement system pursuant to subsection (c) of this Code section shall incur a pro rata reduction in creditable service or retirement allowances, or both, to be determined by the board of trustees, sufficient to compensate financially and actuarially for the failure or refusal of payment or the inability or nonavailability of funds from which to cover the payment failure or refusal of payment.

(k) The fiscal authority or other governing body, by whatever name designated, of the local retirement fund or the independent school system, or both, or their successors in interest, shall make such certifications as are requested by the board of trustees to implement and effectuate this Code section.

(l) No provision of this Code section shall be construed to result in any increase in the rate of employer contributions paid by employers based on the part of the earnable compensation of members not payable from state teachers' salary funds or from other funds of the state.

(m) No provision of this Code section shall be construed to result in any increase in the rate of employee contributions paid by employees other than those employees who become members of this retirement system pursuant to this Code section.

SECTION 45.
Said title is further amended by revising Code Section 47-3-67, relating to membership of teachers who are employed by certain county school systems, transfer from local retirement fund, creditable service, contributions, and failure to pay contributions, as follows:

"47-3-67.

(a) As used in this Code section, the term:

(1) 'Continuous service' means active continuous employment in the county school system interrupted only by a leave duly authorized and granted by the county school system.

(2) 'County' means any county of this state having a population of 550,000 or more according to the United States decennial census of 1980 or any future such census.

(3) 'County school system' means the local school system of a county.

(4) 'Local retirement fund' means a local retirement fund covering teachers employed by a county school system.

(5) 'Teacher' means any teacher as defined by paragraph (28) of Code Section 47-3-1
who is employed by a county school system.

(6) 'Transferred teacher' means a teacher who is transferred from membership in a local retirement fund to membership in the Teachers Retirement System of Georgia by subsection (c) of this Code section.

(b) Any teacher who becomes employed by a county school system on or after July 1, 1988, shall become a member of the retirement system as a condition of employment, and such teacher shall not be eligible for membership in a local retirement fund.

(c) Effective on July 1, 1988, all teachers who are actively employed by a county school system on that date and who were so employed prior to that date and who are enrolled on that date under the local retirement fund in a retirement plan with an effective date on or after April 1, 1962, shall be transferred to and become members of the Teachers Retirement System of Georgia and, subject to the provisions of subsection (d) of this Code section, shall cease to be members of the local retirement fund, except that any such teacher who has previously retired from the Teachers Retirement System of Georgia shall be excluded from such transfer. Each such transferred teacher shall receive creditable service under the Teachers Retirement System of Georgia equivalent to the creditable service the teacher had under the local retirement fund as of July 1, 1988, provided that creditable service shall not be granted for service which would not be allowable as creditable service under the Teachers Retirement System of Georgia.

(d) If the benefit which becomes payable to a transferred teacher upon the teacher's retirement or to another beneficiary of a transferred teacher is less under this retirement system than it would have been under the local retirement fund had membership in the local retirement fund continued, then the fiscal authority or other governing body, by whatever name designated, of the local retirement fund shall pay to the retired transferred teacher or to the other beneficiary of such a teacher an additional benefit equal to the amount by which the benefit which would be payable under the local retirement fund exceeds the benefit which becomes payable under this retirement system, with the benefit under this retirement system being computed for purposes of this Code section as if the teacher had retired with a retirement allowance determined under Code Section 47-3-120. The calculation of the additional benefit, if any, which is to be paid by the local retirement fund under this subsection shall be based on the rights that a transferred teacher had under the local retirement fund on June 30, 1988, plus rights which would have accrued under the local retirement fund after that date only for continuous service as a teacher in the employ of the county school system; provided, however, that any change made in the local retirement fund after that date shall not be considered in the determination of such rights; provided, further, that any amendment to any such local retirement fund made after June 30, 1988, which provides for the calculation of benefits on a nine-month basis, provides for optional spouses' benefits, or provides for the continuation of spouses' benefits after remarriage shall be considered in the determination of such rights. The benefits payable under this subsection shall be made only if the transferred teacher shall have timely paid to the local retirement fund all amounts which such teacher would have paid to such fund, had he or she continued to be a member of such fund, less such amounts as were actually paid to the Teachers
Retirement System of Georgia by or on behalf of such teacher.

(d.1) Until such time as the rate of employee contribution required of all members of the Teachers Retirement System of Georgia shall be increased, no transferred teacher who remains in the employ of the county school system shall be required to pay any greater percentage of the teacher's salary to the Teachers Retirement System of Georgia than such transferred teacher would have been required to pay to the local retirement fund had such teacher remained a member of the local retirement fund. In the event that a contribution in excess of such amount shall be required by the Teachers Retirement System of Georgia, such excess contribution shall be made by the county school system; provided, however, that any increase in the rate of employee contribution required of all members of the Teachers Retirement System of Georgia after July 1, 1988, shall be paid for by the transferred teacher.

(e)(1) For each transferred teacher, the fiscal authority or other governing body, by whatever name designated, of the local retirement fund shall pay to the board of trustees the amount of employee contributions which would have been paid by the teacher to the retirement system had the teacher been a member of the retirement system during the period of creditable service established pursuant to subsection (c) of this Code section, plus applicable accrued regular interest thereon, as determined by the board of trustees, to the date of payment.

(2) The board of trustees shall make the determination of the amount to be paid to the board under paragraph (1) of this subsection and the fiscal authority or other governing body, by whatever name designated, of the local retirement fund shall pay the amount so determined to the board of trustees by not later than August 1, 1988.

(e.1)(1) Any excess employee contributions paid to the Teachers Retirement System of Georgia pursuant to the provisions of subsection (d.1) of this Code section shall be paid into the pension accumulation fund and shall not constitute 'accumulated contributions' within the meaning of paragraph (1) of Code Section 47-3-1 or for the purposes of Code Section 47-3-128.

(2) From the funds paid to the board of trustees pursuant to the provisions of subsection (e) of this Code section, that portion thereof representing employee contributions paid to the local retirement fund by the transferred teacher shall be paid into the annuity savings fund and shall constitute 'accumulated contributions' within the meaning of paragraph (1) of Code Section 47-3-1 and for the purposes of Code Section 47-3-128; and the remaining portion shall be paid into the pension accumulation fund and shall have the same status as excess employee contributions described in paragraph (1) of this subsection.

(3) The board of trustees shall keep appropriate records to identify the funds paid into the pension accumulation fund pursuant to paragraphs (1) and (2) of this subsection. In the event a transferred teacher ceases to be a member of the Teachers Retirement System of Georgia and withdraws accumulated contributions pursuant to the provisions of Code Section 47-3-128, the board of trustees shall refund to the county school system an amount equal to the funds paid into the pension accumulation fund pursuant to paragraphs (1) and (2) of this subsection plus regular interest on that
amount.

(e.2)(1) If a transferred teacher who has maintained continuous service with the county school system or a beneficiary of such a transferred teacher does not qualify to receive a monthly benefit under this retirement system but would be qualified to receive a monthly benefit under the local retirement fund if the transferred teacher's membership in the local retirement fund had continued, such transferred teacher or the beneficiary of such transferred teacher may elect to receive a monthly benefit under the provisions of subsection (d) of this Code section. If such transferred teacher or a beneficiary of such transferred teacher thereafter qualifies to receive a monthly benefit under this retirement system, the amount payable to the transferred teacher or beneficiary under subsection (d) of this Code section shall be reduced accordingly.

(2) A transferred teacher or a beneficiary of a transferred teacher who makes the election provided for in paragraph (1) of this subsection shall not be entitled to a refund of the accumulated contributions which have been credited to the transferred teacher's account at the time of said election. If such a transferred teacher subsequently returns to active service, this paragraph shall not apply to accumulated contributions credited to the transferred teacher's account after returning to active service.

(3) If a transferred teacher who makes the election provided for in paragraph (1) of this subsection does not at any time thereafter qualify to receive a monthly benefit under this retirement system and if no beneficiary of the transferred teacher is qualified to receive a monthly benefit under this retirement system upon the death of the transferred teacher, then upon the death of such transferred teacher, the board of trustees shall pay to the county school system an amount equal to the accumulated contributions of the deceased transferred teacher and an amount equal to the funds paid into the pension accumulation fund pursuant to paragraphs (1) and (2) of subsection (e.1) of this Code section, plus regular interest on that amount. The board of trustees shall maintain such records as may be necessary to comply with the provisions of this paragraph.

(f) The fiscal authority or other governing body, by whatever name designated, of the local retirement fund or the county school system, or both, or their successors in interest, shall be empowered and shall have the duty to pay to the board of trustees an amount of employer contributions for transferred teachers (not less than zero) actuarially determined by the board of trustees under the following formula:

\[ A = B - \left( \frac{C}{D} \times E \right) \]

\[ A = \] Amount of employer contributions payable to the board of trustees under this subsection.

\[ B = \] Unfunded accrued liability, determined as of June 30, 1988, of transferred teachers and determined on the basis of the same methods and assumptions used in preparing the regular annual actuarial evaluation, except that the value of the assets of the retirement system shall be determined on the greater of market value
or book value of such assets, as if such transferred teachers had been members of the retirement system on June 30, 1988, less the payment made to the board of trustees pursuant to subsection (e) of this Code section.

\[ C = \text{Unfunded accrued liability, determined as of June 30, 1988, with the value of assets being determined on the greater of market value or book value of such assets, of the retirement system, determined without regard to any teacher in the employ of a county school system as defined in subsection (a) of this Code section.} \]

\[ D = \text{The total annual earnable compensation for the fiscal year ending June 30, 1988, of members of the retirement system, plus the annual state compensation for the fiscal year ending June 30, 1988, of members of local retirement funds other than a local retirement fund as defined in subsection (a) of this Code section.} \]

\[ E = \text{The total earnable compensation for the fiscal year ending June 30, 1988, of transferred teachers.} \]

(g) The amount determined under subsection (f) of this Code section shall be reduced by a 1986-87 retirement system funding allowance determined as follows:

(1) Determine the total amount which was intended to be withheld from the county school system for the 1986-87 fiscal year pursuant to the provisions of the 'Quality Basic Education Act' which was to be withheld for the purpose of paying the employer's portion of the cost of membership in the Teachers Retirement System of Georgia for teacher members of the local retirement fund;

(2) Subtract from the total amount determined under paragraph (1) of this subsection that portion of such amount which was actually paid to the county school system for the 1986-87 fiscal year; and

(3) The amount resulting from the calculations under paragraphs (1) and (2) of this subsection shall be the 1986-87 retirement system funding allowance.

(h) Payment of the amount determined under subsections (f) and (g) of this Code section shall be made to the board of trustees in not more than 39 equal annual installments to be paid by June 30 of each year beginning on June 30, 1990, in the manner prescribed by the board of trustees; provided, however, an interest payment must be paid by June 30, 1989, and the amount of such interest payment shall be determined by the board of trustees as provided in this subsection. In addition to payment of the installments of the amount determined under subsections (f) and (g) of this Code section, annual interest shall be added to each payment computed on the unpaid balance of such amount at a rate equal to the average rate of return, as determined by the board of trustees, on fixed income investments made by the retirement system during the preceding calendar year but not to exceed 9 percent per annum. The rate of interest for the interest payment to be paid by June 30, 1989, shall be determined in the same manner and shall accrue from July 1, 1988, until the date of
payment on the amount determined under subsections (f) and (g) of this Code section. Beginning in 1989, for the interest payment, by May 1 of each year, the board of trustees shall notify the fiscal authority or other governing body, by whatever name designated, of the local retirement fund or the county school system, or both, or their successors in interest, as to the amount due by the following June 30. The amount in the notification will include the interest as computed pursuant to this subsection and shall and must be paid by the following June 30. The fiscal authority or other governing body, by whatever name designated, of the local retirement fund or the county school system, or both, or their successors in interest, shall be empowered and shall have the duty to pay this interest. The fiscal authority or other governing body, by whatever name designated, of the local retirement fund or the county school system, or both, or their successors in interest, shall have the right at any time to pay the full amount of the balance then remaining under the provisions of this subsection, and, in that event, there shall be no prepayment penalty of any kind.

(i) The employer of any teachers who become members of this retirement system under this Code section and any such teachers shall have all the rights, obligations, and duties under this Code section and as provided by any other provisions of this chapter.

(j) If the fiscal authority or other governing body, by whatever name designated, of the local retirement fund or the county school system, or both, or their successors in interest, refuse or fail to make any payment required by this Code section, it shall be the duty of the board of trustees to notify the Office of Treasury and Fiscal Services and the State Board of Education of such refusal or failure; and thereupon it shall be the duty of the Office of Treasury and Fiscal Services and the State Board of Education to withhold from such fiscal authority or other governing body any state appropriations or any other funds which would be allocated or allocable for educational purposes to such fiscal authority or other governing body until the Office of Treasury and Fiscal Services and the State Board of Education receives authorization from the board of trustees to release such funds. The Office of Treasury and Fiscal Services and the State Board of Education are authorized and directed, upon certified request of the board of trustees, to remit to the board of trustees from such withheld funds the amount necessary to cover the amount which the fiscal authority or other governing body has refused or failed to pay to the board of trustees under this Code section. It shall be illegal for the Office of Treasury and Fiscal Services and the State Board of Education to pay out or release such funds, after notice from the board of trustees, until and unless compliance with this Code section is achieved. The Office of Treasury and Fiscal Services and the State Board of Education are authorized to release the remainder of all such withheld funds upon authorization from the board of trustees.

(k) The fiscal authority or other governing body, by whatever name designated, of the local retirement fund or the county school system, or both, or their successors in interest, shall make such certifications as are requested by the board of trustees to implement and effectuate this Code section.

(l) No provision of this Code section shall be construed to result in any increase in the rate of employer contributions paid by employers based on the part of the earnable
compensation of members not payable from state teachers’ salary funds or from other funds of the state.

(m) Any full-time public school lunchroom managers or supervisors, full-time public school maintenance managers or supervisors, full-time public school transportation managers or supervisors, or full-time public school warehouse managers or supervisors who become members of this retirement system pursuant to the provisions of this Code section or Code Section 47-3-66 shall have the right to obtain creditable service under this retirement system pursuant to the provisions of subsection (b) of Code Section 47-3-63 on the same basis that other members of this retirement system who are subject to the provisions of Code Section 47-3-63 obtain creditable service."

SECTION 46.
Said title is further amended by repealing and reserving Code Section 47-3-87, relating to accumulated contributions for prior service, local retirement fund service included, and determination of earnable compensation received during prior service, as follows:

"47-3-87.
A member's prior service accumulations shall be equal to the amount of the contributions he would have made with respect to his earnable compensation for such service had the retirement system then been in operation, together with regular interest on such amounts to January 1, 1945, at the rate of regular interest in effect on that date. Service in a school system in this state which operated a local retirement fund shall be included as prior service for purposes of calculating prior service accumulations. In determining the earnable compensation of any member during his prior service, the board of trustees, in lieu of the actual compensation received by the member during his prior service, may use the rates of compensation which, if they had progressed during such prior service in accordance with the tables adopted by the board of trustees under Code Section 47-3-23, would have resulted in the same average final compensation on January 1, 1945, as the records show the member actually received. Reserved."

SECTION 47.
Said title is further amended by repealing and reserving Code Section 47-3-94, relating to credit for service while employed by nonprofit corporation under contract with state agency and requirements, as follows:

"47-3-94.
(a) Any member may, subject to the requirements of subsection (b) of this Code section, obtain creditable service under the retirement system for any period between January 1, 1977, and December 31, 1980, during which the member was employed by a nonprofit corporation under contract with a state agency in a program wholly or partially funded by a state or federal grant and which had as its purpose facilitating early childhood development and during which period the member held a four-year degree from an accredited college or university.
(b) A member who desires to establish creditable service under this Code section must:
(1) Submit to the board not later than July 1, 2003, satisfactory evidence of the period of absence from employment which qualifies for creditable service under this Code section; and
(2) Pay to the board of trustees such amount as determined by the actuary as necessary to grant such benefit without creating any accrued actuarial liability as to this retirement system. Reserved.

SECTION 48.
Said title is further amended by revising paragraphs (8) and (9) of Code Section 47-4-2, relating to definitions, as follows:

"(8) 'Delayed retirement date' means the date of retirement under subsection (b) of Code Section 47-4-100. Reserved.
(9) 'Early retirement date' means the date of retirement under subsection (d) of Code Section 47-4-100."

SECTION 49.
Said title is further amended by revising Code Section 47-4-80, relating to determination of membership service, prior service credit and prior service certificate, creditable service, credit for military service, and credit for membership in the Teachers Retirement System, as follows:

"47-4-80.
(a) The board shall fix and determine by appropriate rules and regulations how much service in any year is equivalent to one year of membership service, but in no case shall more than one year of service be creditable for all service in one calendar year. In developing rules and regulations to determine how much service in any year is equivalent to one year of membership service, the board shall be guided by the nature of the employment being considered and the number of months, weeks, days, and hours normally worked to carry out the normal duties associated with the employment. Service rendered for a regular school year shall be equivalent to one year of service in any case.
(b) Under such rules and regulations as the board shall adopt, each member who was a public school employee at any time from July 1, 1945, until the commencement date shall be entitled to file a detailed statement of all services as a public school employee rendered by him prior to the commencement date and for which he claims credit. If any person who would otherwise have qualified under this subsection is on leave in the armed forces of the United States, such person shall have six months after termination of his military service to qualify under this subsection for prior service credit. Upon verification of such statement of service, the board shall issue a prior service certificate based on the member's statement of service and certifying to the member the period of service prior to the commencement date with which he is credited. As long as a membership continues, a prior service certificate shall be final and conclusive proof of such service for retirement purposes. A member may within one year from the date of issuance or modification of his prior service certificate request the board to modify or
correct such certificate. When membership ceases, such prior service certificate shall become void.

(c) Creditable service at retirement on which the retirement allowance of a member shall be based shall consist of the membership service rendered by him or her since he last became a member and, if he or she has a prior service certificate in full force and effect, the amount of the service certified on his or her prior service certificate.

(d) Any person who leaves public school employment at any time after January 1, 1970, to enter military service may return to public school employment at any time within five years after being released from military service and shall receive credit for such active military service upon the payment of employee contributions which would have been paid during his or her absence while in military service, plus the regular interest that would have accrued on such contributions.

(e) Any person who left public school employment to enter military service at any time prior to January 1, 1970, and returned to public school employment within five years after being released from military service shall receive credit for such active military service upon the payment of employee contributions that would have been paid during his absence while in service, plus the regular interest that would have accrued on such contributions.

(f) Any provision of this chapter to the contrary notwithstanding, any person, who was at least 65 years of age on June 30, 1970, and who would have been able to establish a minimum of ten years of prior service credit under this chapter if he had been employed as a public school employee on January 1, 1970, may be employed as a public school employee at any time during the period beginning July 1, 1974, and ending December 31, 1974. Upon becoming employed as a public school employee during such period of time, such person shall become a member and may establish prior service credit under subsection (b) of this Code section, notwithstanding the fact that he was not a public school employee at any time between January 1, 1970, and July 1, 1970. On or before June 1, 1974, the board shall inform all public school systems in this state of the contents of this subsection.

(g) Any provision of this chapter to the contrary notwithstanding, any person who was 60 years of age or older on January 1, 1975, who on January 1, 1970, had at least 14 years of service as a public school employee and who becomes employed as a public school employee at any time during the period beginning with March 26, 1975, and ending July 1, 1975, shall become a member and may establish prior service credit under subsection (b) of this Code section, notwithstanding the fact that he was not a public school employee at any time between January 1, 1970, and July 1, 1970. The board shall inform all public school systems in this state of the contents of this subsection by March 26, 1975.

(h) Any provision of this chapter to the contrary notwithstanding, any person who was at least 55 years of age on June 30, 1970, and who would have been able to establish a minimum of ten years of prior service credit under this chapter if he had been employed as a public school employee on January 1, 1970, may be employed as a public school employee at any time during the period beginning July 1, 1977, and ending December
31, 1980. Upon becoming employed as a public school employee during such period of time, such person shall become a member and may establish prior service credit under subsection (b) of this Code section, notwithstanding the fact that he was not a public school employee at any time between January 1, 1970, and July 1, 1970. On or before June 1, 1977, the board shall inform all public school systems in this state of the contents of this subsection.

(i) Any member who, if credited with service rendered prior to January 1, 1970, would have at least ten years of creditable service shall receive prior service credit for all service as a public school employee rendered by him at any time between January 1, 1945, and January 1, 1970.

(j)(d) Any member who was a member of the Teachers Retirement System of Georgia because the member held a position which required membership in that retirement system and who, during membership in said teachers retirement system, also held a position as a public school employee for which creditable service under this retirement system has not been obtained shall have the right to obtain credit for such prior service as a public school employee by paying to the board of trustees the employee contributions that would have been paid to this retirement system during the period of such prior service plus regular interest thereon compounded annually from the time the prior service was rendered until the date of payment. Any member wishing to obtain credit for prior service under this subsection shall apply therefor to the board of trustees."

SECTION 50.
Said title is further amended by revising Code Section 47-4-100, relating to normal, early, and delayed retirement and vesting of right to a retirement benefit, as follows:
"47-4-100.
(a) The normal retirement date of a member shall be the first day of the month coinciding with or next following the date he or she reaches the age of 65, except that the normal retirement date of a member who is age 64 or over on January 1, 1970, shall be January 1, 1971. A member shall retire on his or her normal retirement date except as otherwise provided in subsections (b) through (e) subsection (c) of this Code section.
(b) At the request of his local unit of administration, a member may remain actively employed beyond his normal retirement date on a year-to-year basis as shall be mutually agreed upon by the member and his local unit of administration. In such cases, the member shall retire on the first day of the month coinciding with or next following the end of the last agreed upon period of employment, which date shall be the delayed retirement date of the member.
(c) Any person who was a public school employee for a period of ten or more years at any time after July 1, 1945, and who on April 14, 1971, had attained age 60 or over shall be eligible for membership and may retire. The effective date of such individual's retirement shall be the first day of the first month which occurs at least 30 days after receipt of his application for retirement by the board of trustees. Such effective date shall be the early retirement date of the member.
(d) Except as provided in subsection (c) of this Code section, the early retirement date of a member shall be the first day of the month coinciding with or next following the date he or she attains the age of 60. A member may elect to retire at his or her early retirement date and receive the retirement benefit provided by subsection (d) of Code Section 47-4-101.

The right to a retirement benefit under this chapter shall vest in a member who has ten or more years of creditable service if the member has not withdrawn the member's contributions. Except as otherwise provided in Article 2 of Chapter 1 of this title, a member's accumulated contributions shall be 100 percent vested and nonforfeitable at all times. A member shall be 100 percent vested in all benefits under the plan upon attainment of normal retirement age. Upon attaining the member's normal retirement age or the member's early retirement age, the member shall begin receiving the appropriate retirement benefit provided by Code Section 47-4-101."

SECTION 51.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.
This Act shall be known and may be cited as the "Water System Interconnection, Redundancy, and Reliability Act."

SECTION 2.
Article 3 of Chapter 5 of Title 12 of the Official Code of Georgia Annotated, relating to wells and drinking water, is amended by adding a new part to read as follows:

"Part 6

12-5-200.
The General Assembly finds that:
(1) Water is an essential resource, the continued provision of which is necessary for the health, safety, and welfare of the State of Georgia; and
(2) It is in the best interests of the State of Georgia for public water systems in metropolitan North Georgia to evaluate their withdrawal, treatment, and distribution systems and to take proactive measures to reduce the risk of catastrophic interruptions of water service during emergencies.

12-5-201.
As used in this part, the term:
(1) 'Authority' means the Georgia Environmental Facilities Authority created by Code Section 50-23-3.
(2) 'District' means the Metropolitan North Georgia Water Planning District created by Code Section 12-5-572.
(3) 'Emergency plan' means the written emergency water supply plan developed as provided in Code Section 12-5-202.
(4) 'Essential water needs' means the minimum amount of water needed for eating, drinking, toilet flushing, fire fighting, hospital use, and critical asset use and a portion of the system's unaccounted for water.
(5) 'Qualified system' means any public water system owned and operated by a city, county, or water authority in the district.

(a) Subject to authorization as provided in subsection (c) of Code Section 12-5-203, not later than September 1, 2010, the authority shall issue a request for proposal for a
thorough and detailed engineering study developing a district-wide emergency plan covering every qualified system. Such plan shall identify sufficient emergency water supply sources and detailed steps required to modify a qualified system's operations to accept or share water with adjacent water providers during emergencies to supply essential water needs.

(b) The emergency plan shall evaluate risks and, where feasible, plan for a district-wide interconnection reliability target for immediate implementation of approximately 35 percent of the annual average daily demand and a long-range district-wide interconnection reliability planning goal of approximately 65 percent of the annual average daily demand.

(c) Such plan shall be based on the 2035 water demand forecasted by the district in 2009 and shall include or be based upon:

(1) An evaluation of factors affecting water system reliability, including raw and finished water storage, infrastructure conditions, equipment redundancy, and existing interconnection capability;
(2) Detailed hydraulic studies to determine overall distribution system improvements required to meet projected demands;
(3) A consideration of various emergency situations, including, without limitation:
   (A) The failure of the largest water treatment facility of a qualified system;
   (B) The full unavailability of major raw water sources due to federal or state government actions;
   (C) The limited or reduced availability of major raw water sources due to federal or state government actions;
   (D) The short-term catastrophic failure of a water distribution system;
   (E) The short-term contamination of a water supply system; and
   (F) The short-term contamination of a raw water source making it unsuitable for use;

provided, however, that the results of poor planning or inadequate infrastructure investments by a qualified system shall not constitute an emergency situation.

(4) An evaluation of the feasibility and cost effectiveness of providing multidirectional flows at existing and future interconnections with a pipe diameter equal to or greater than 12 inches;

(5) A continuously updated inventory of distribution system components, including good system maps;

(6) Steps that need to be taken to receive water from an adjacent utility or to provide water to another utility, including required new infrastructure and the location of such infrastructure for both the interconnection reliability target for immediate implementation and the long-range interconnection planning goal;

(7) Consideration of chemical compatibility, treatment requirements, water quality, operating pressure, and impact on water withdrawal permits;

(8) A detailed estimate of the costs of implementation for both the interconnection reliability target for immediate implementation and the long-range interconnection planning goal;
(9) A model intergovernmental agreement for sharing and pricing of water during emergency situations; and

(10) Creative financing options for implementation of recommended interconnection projects.

d) Each qualified system shall coordinate with and assist the authority in the development of the emergency plan.

e) The authority and its consultant shall meet at least once every three months with the district water supply technical coordinating committee to review the progress of the plan. The authority and its consultants shall receive and may incorporate the comments of the committee into the plan.

12-5-203.

(a) There shall be a technical panel as provided in this subsection. The Governor, the President of the Senate, and the Speaker of the House of Representatives shall each appoint one member of the technical panel, each of whom shall be the director of a public water system located within the district. The Governor, the President of the Senate, and the Speaker of the House of Representatives or such officers' designees shall also serve on the technical panel.

(b) The authority and the technical panel shall use the provisions of Code Section 12-5-202 as a basis fully to define the water shortage scenarios to be evaluated in the emergency plan. The authority and the technical panel shall also prepare a preliminary scope of work statement for the plan consistent with the defined scenarios and Code Section 12-5-202.

(c) The authority shall submit by July 15, 2010, the preliminary scope of work statement to the Governor, the President of the Senate, and the Speaker of the House of Representatives to receive authorization to issue a request for proposals based on such preliminary scope of work statement not later than September 1, 2010.

(d) The authority shall modify the preliminary scope of work statement or the preparation of the emergency plan if specific water allocations are provided by final federal courts rulings, state compacts, or other mechanisms. The plan shall be based on such allocations.

12-5-204.

(a) The authority shall ensure the completion of the emergency plan not later than September 1, 2011, and shall submit the emergency plan to the director of the Environmental Protection Division of the Department of Natural Resources, the director of the Georgia Emergency Management Agency, the Governor, Lieutenant Governor, Speaker of the House of Representatives, and chairpersons of the Senate and House Committees on Natural Resources and Environment and of the Senate and House Committees on Appropriations not later than September 15, 2011.

(b) The authority shall update the emergency plan on the same schedule as updates for the district's water supply and water conservation management plans.

(c) The costs of producing the emergency plan shall be borne by the authority."
SECTION 3.
This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 4.
All laws and parts of laws in conflict with this Act are repealed.

By inserting after Section 2 the following:
SECTION 2A.
Said chapter is further amended in subsection (n) of Code Section 12-5-31, relating to permits for withdrawal, diversion, or impoundment of surface waters, by deleting "and" at the end of paragraph (1) and adding a new paragraph to read as follows:

"(1.1) The regulation of interbasin transfers shall be informed by scientific knowledge, shall respect natural systems, and shall protect the basins of origin and the receiving basins. When deciding whether to grant any new permit or modify or renew any existing permit that would or does involve an interbasin transfer of surface waters, the director's review and assessment of the application shall include the following factors:

   (v) The impact of the proposed transfer on water conservation;
   (vi) The applicant's efforts to explore all reasonable options for use of reclaimed water and recycling of available resources to meet the needs of the receiving basin; and
   (vii) Assessment of the adequacy of treatment capacity and current water quality conditions; and

(C) Considerations affecting both basins, including but not limited to:
   (i) The economic feasibility, cost effectiveness, and environmental effects of the proposed transfer in relation to alternative sources of water supply;
   (ii) The cumulative effects of the current and proposed interbasin transfers in each basin;
(iii) The requirements of the state and federal agencies with authority related to water resources;
(iv) The availability of water for responding to emergencies, including but not limited to drought, in the donor basin and the receiving basin;
(v) The effects, whether beneficial or detrimental, on off stream and in stream uses;
(vi) The quantity, quality, location, and timing of water returned to the donor basin, receiving basin, and basins downstream;
(vii) Effects on interstate water use;
(viii) The cumulative effect on the donor basin and the receiving basin of any water transfer or consumptive use that is authorized or forecast; and
(ix) Such other factors as are reasonably necessary to carry out the purposes of this chapter; and"

A BILL TO BE ENTITLED
AN ACT

To amend Part 1 of Article 1 of Chapter 10 of Title 13 of the Official Code of Georgia Annotated, relating to bonds for contracts for public works in general, so as to provide certain contractual and purchasing preferences for materials and in letting contracts to materialmen, contractors, builders, architects, engineers, and laborers who reside within this state; to provide standards for construction projects; to amend Title 20 of the Official Code of Georgia Annotated, relating to education, so as to provide certain contractual and purchasing preferences for vendors who reside within this state; to provide for related matters; to provide for an effective date and applicability; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Part 1 of Article 1 of Chapter 10 of Title 13 of the Official Code of Georgia Annotated, relating to bonds for contracts for public works in general, is amended by adding a new Code section to read as follows:
"13-10-3.
(a) Whenever the state contracts for the doing of a public work, it shall give preference in the purchase of materials and in letting contracts to materialmen, contractors, builders, architects, engineers, and laborers who reside within this state whenever such material can be purchased or the services of such materialmen, contractors, builders, architects, engineers, and laborers can be employed at no greater expense than that which the state would incur if such purchase was made from, contract let to, or employment given to a person residing beyond the limits of this state. For the purpose of determining residency under this subsection, a Georgia resident business shall include any business that regularly maintains a place from which business is physically conducted in Georgia for at least one year prior to any bid or proposal submitted pursuant to this Code section or a new business that is domiciled in Georgia which regularly maintains a place from which business is physically conducted in Georgia; provided, however, that a place of business shall not include a post office box, site trailer, or temporary structure. However, these requirements shall in no way impair the ability of the state to compare the quality of materials proposed for purchase and to compare the qualifications, character, responsibility, and fitness of materialmen, contractors, builders, architects, engineers, and laborers proposed for employment in its consideration of the purchase of materials or employment of persons. This subsection shall not apply to transportation projects for which federal aid funds are available.
(b) Whenever the state contracts for the doing of a public work, materialmen, contractors, builders, architects, engineers, and laborers resident in the State of Georgia are to be granted the same preference over materialmen, contractors, builders, architects, engineers, and laborers resident in another state in the same manner, on the same basis, and to the same extent that preference is granted in awarding bids for the same goods or services by such other state to materialmen, contractors, builders, architects, engineers, and laborers resident in such other state over materialmen, contractors, builders, architects, engineers, and laborers resident in the State of Georgia.
(c) All state agencies, authorities, departments, commissions, boards, and similar entities shall adhere to the policies and procedures contained in the State Construction Manual for project management and procurement of, and contracting for, design, construction, and other project related professional services for all state owned buildings in Georgia funded by state bonds or other state revenue. The State Construction Manual shall be jointly edited and posted on a state website by the Georgia State Financing and Investment Commission and the Board of Regents and shall be updated on a periodic basis to reflect evolving owner needs and industry best practices after consultation with other state agency and industry stakeholders."

SECTION 2.
Title 20 of the Official Code of Georgia Annotated, relating to education, is amended by revising Code Section 20-2-500, relating to promulgation of rules and regulations by the State Board of Education for contracts or purchases over $100.00, as follows:
"20-2-500.
(a) The State Board of Education is authorized to promulgate rules and regulations to regulate contracts or purchases which involve the aggregate sum of $100.00 or more for or on behalf of students of any public elementary or secondary school supported in whole or in part from public funds.

(b)(1) Such rules shall provide that such contracts for or purchases of supplies, materials, equipment, or agricultural products, including but not limited to school buses but not including instructional materials or beverages for immediate consumption, for public elementary and secondary schools supported in whole or in part from public funds shall give preference as far as may be reasonable and practicable to such supplies, materials, equipment, and agricultural products as may be manufactured or produced in this state. Such preference shall not sacrifice quality.

(2) Such rules shall provide that, in determining whether such a preference is reasonable in any case where the value of a contract for or purchase of such supplies, materials, equipment, or agricultural products exceeds $100,000.00, the local school district shall consider, among other factors, information submitted by the bidder which may include the bidder's estimate of the multiplier effect on gross state domestic product and the effect on public revenues of the state and the effect on public revenues of political subdivisions resulting from acceptance of a bid or offer to sell Georgia manufactured or produced goods as opposed to out-of-state manufactured or produced goods. Any such estimates shall be in writing. No local school district shall divide a contract or purchase which exceeds $100,000.00 for the purpose of avoiding the requirements of this paragraph.

(c) Vendors resident in the State of Georgia are to be granted the same preference over vendors resident in another state in the same manner, on the same basis, and to the same extent that preference is granted in awarding bids for the same goods or services by such other state to vendors resident therein over vendors resident in the State of Georgia.

(d) Nothing in this Code section shall negate the requirements of Code Section 50-5-73."

SECTION 3.
This Act shall become effective on July 1, 2010, and shall apply to all contracts which are first advertised or otherwise given public notice on or after that date.

SECTION 4.
All laws and parts of laws in conflict with this Act are repealed.

The Senate Insurance and Labor Committee offered the following substitute to SB 407:

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 29A of Title 33 of the Official Code of Georgia Annotated, relating to individual health insurance coverage, so as to provide for legislative intent; to provide
definitions; to authorize the Commissioner of Insurance to authorize insurers to offer individual medical and surgical health insurance policies in Georgia that have been approved for issuance in selected other states; to authorize the Commissioner of Insurance to initiate a multi-state consortium for the establishment of reciprocity agreements allowing the sale of individual medical and surgical health insurance policies among the participating states as a single entity; to provide for minimum standards for such policies; to provide for certain notices; to provide for examinations of such insurers; to authorize the Commissioner of Insurance to adopt rules and regulations; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.
Chapter 29A of Title 33 of the Official Code of Georgia Annotated, relating to individual health insurance coverage, is amended by adding a new article to read as follows:

"ARTICLE 3

33-29A-40. The General Assembly recognizes the high number of uninsureds in the state and the need of individuals seeking medical and surgical health insurance coverage in this state to have the opportunity to choose among competitive medical and surgical health insurance plans that are affordable and flexible. Therefore, the General Assembly seeks to increase the competitive availability of medical and surgical health insurance coverage by allowing insurers authorized to engage in the business of insurance in this state who are also authorized to engage in the business of insurance in selected other states to issue individual medical and surgical health policies in Georgia based upon their policy approval in the other selected states. In addition, the General Assembly seeks to initiate cooperation of like-minded states to create a multi-state consortium with reciprocity agreements for approval; offer; sale; rating, including medical underwriting; renewal; and issuance of individual medical and surgical health insurance policies. Under the current state-by-state approval process, it may take years before an insurer introduces a new lower cost product in Georgia. By creating a consortium of states with reciprocity agreements, the larger population of several states with a single approval for sale in multiple states will be attractive to insurers to develop and rapidly introduce lower cost effective products to Georgians.

33-29A-41. As used in this article, the term:

(1) 'Comprehensive individual medical and surgical insurance policy' shall have the same meaning as 'accident and sickness insurance policy' as that term is defined in Code Section 33-29-1 including, at a minimum, comprehensive major medical coverage for medical and surgical benefits.
(2) 'High deductible health plan' means accident and sickness insurance plans sold or maintained under the applicable provisions of Section 223 of the Internal Revenue Code.

(3) 'Primary state' means the state designated by the issuer as the state whose covered laws shall govern the health insurance issuer in the sale of such coverage.

(4) 'Secondary state' means any state that is not the primary state.

33-29A-42.
In accordance with the provisions of this article, the Commissioner shall identify at least five states with insurance laws sufficiently consistent with Georgia laws and regulations. For those states so identified, the Commissioner shall approve for sale in Georgia selected comprehensive individual medical and surgical insurance policies that have been approved for issuance in those other states where the insurer is authorized to engage in the business of insurance so long as the insurer is also authorized to engage in the business of insurance in this state and provided that any such policy meets the requirements set forth in this article. High deductible health plans that meet national standards for comprehensive medical and surgical coverage should be among the policies automatically approved in Georgia if approved in the states identified as acceptable by the Commissioner.

33-29A-43.
(a) Any insurer selling an insurance policy pursuant to this article, and any plan approved under this article, shall satisfy actuarial standards and insurer solvency requirements set forth by the National Association of Insurance Commissioners (NAIC) and adopted by regulation promulgated by the Commissioner or as otherwise prescribed by regulation promulgated by the Commissioner so long as any such regulation is not inconsistent with such NAIC standards.

(b) Any policy sold in Georgia under the coverage and administrative laws and regulations of another state that are not covered by a guarantee association or similar association of that state will be protected under the Georgia Life and Health Insurance Guaranty Association under Chapter 38 of this title.

(c) The Commissioner shall have the authority to determine whether an insurer satisfies the standards required by this Code section and may not approve a policy or plan that he or she finds lacking in compliance with this Code section. The Commissioner shall have the authority to determine whether the policies sold pursuant to this article continue to satisfy the requirements set forth in this Code section in the same manner as he or she does with an individual accident and sickness insurance policy approved pursuant to this title. The Commissioner shall have the authority to suspend or revoke new sales of out-of-state policies if the laws and regulations of those states are determined to substantially harm Georgians. Upon such suspension or revocation, the issuers of the out-of-state policies shall be required to notify in writing all affected Georgia policyholders of such determination by the Commissioner.
33-29A-44.  
(a) Each written application for participation in an out-of-state health benefit plan shall contain the following language in boldface type at the beginning of the document:

'This policy is primarily governed by the laws of (insert state where the master policy is filed); therefore, all of the rating laws applicable to policies filed in this state do not apply to this policy, which may result in increases in your premium at renewal that would not be permissible in a Georgia-approved policy. Any purchase of individual health insurance should be considered carefully since future medical conditions may make it impossible to qualify for another individual health policy. FOR INFORMATION CONCERNING INDIVIDUAL HEALTH COVERAGE UNDER A GEORGIA-APPROVED POLICY, PLEASE CONSULT YOUR INSURANCE AGENT OR THE INSURANCE DEPARTMENT.'

(b) Each out-of-state health benefit policy shall contain the following language in boldface type at the beginning of the document:

'The benefits of this policy providing your coverage are governed primarily by the laws of a state OTHER than Georgia. While this health benefit plan may provide you a more affordable health insurance policy, it may also provide fewer health benefits than those normally included as state-mandated health benefits in policies in Georgia. PLEASE CONSULT YOUR INSURANCE AGENT TO DETERMINE WHICH STATE-MANDATED HEALTH BENEFITS ARE EXCLUDED UNDER THIS POLICY.'

33-29A-45.  
(a) The Commissioner shall take the lead in creating a consortium of like-minded states in establishing rules of reciprocity for the approval of comprehensive individual medical and surgical health insurance policies among the participating states.

(b) At a minimum, the rules of approval reciprocity shall include terms and conditions to protect Georgians similar to the following:

(1) An issuer, with respect to a particular policy, may only designate one state as its primary state with respect to all such coverage it offers. Such an issuer may not change the designated primary state with respect to individual health insurance coverage once the policy is issued; provided, however, that such a change may be made upon renewal of the policy with approval of the policyholder. With respect to such designated primary state, the issuer must be licensed and approved to be doing business in that state;

(2) In the case of a health insurance issuer that is selling a policy in, or to a resident of, a secondary state, the issuer must be licensed and approved to be doing business in that secondary state; and

(3) The covered laws of the primary state shall apply to individual health insurance coverage offered by a health insurance issuer in the primary state and policies sold in any secondary state. The coverage and issuer shall comply with the terms and conditions with respect to the offering of coverage in Georgia.

(c) Except as provided in this Code section, a health insurance issuer with respect to its
offer; sale; rating, including medical underwriting; renewal; and issuance of comprehensive individual medical and surgical health insurance coverage in Georgia is exempt from any covered laws of Georgia as the secondary state and any rules, regulations, agreements, or orders sought or issued by Georgia under or related to such covered laws to the extent that such laws would:

(1) Make unlawful or regulate, directly or indirectly, the operation of the health insurance issuer operating in the Georgia as a secondary state, except that any Georgia may require such an issuer:

(A) To pay on a nondiscriminatory basis applicable premium and other taxes, including high risk pool assessments, which are levied on insurers and surplus lines insurers, brokers, or policyholders under the laws of the State of Georgia;
(B) To register with and designate the Commissioner as its agent solely for the purpose of receiving service of legal documents or process;
(C) To submit to an examination of its financial condition by a state insurance commissioner in any state in which the issuer is doing business to determine the issuer's financial condition, if the state insurance commissioner of the primary state has not done an examination within the period recommended by the National Association of Insurance Commissioners; and any such examination is conducted in accordance with the examiners' handbook of the National Association of Insurance Commissioners and is coordinated to avoid unjustified duplication and unjustified repetition;
(D) To comply with a lawful order issued in a delinquency proceeding commenced by the Commissioner if there has been a finding of financial impairment under subparagraph or in a voluntary dissolution proceeding;
(E) To comply with an injunction issued by a court of competent jurisdiction, upon a petition by the Commissioner alleging that the issuer is in hazardous financial condition;
(F) To participate, on a nondiscriminatory basis, in any insurance insolvency guaranty association or similar association to which a health insurance issuer in the state is required to belong;
(G) To comply with any state law regarding fraud and abuse, except that if the state seeks an injunction regarding the conduct described in this subparagraph, such injunction must be obtained from a court of competent jurisdiction;
(H) To comply with any state law regarding unfair claims settlement practices; and
(I) To comply with the applicable requirements for independent review with respect to coverage offered in the state;

(2) Require any individual health insurance coverage issued by the issuer to be countersigned by an insurance agent or broker residing in that secondary state; or

(3) Otherwise discriminate against the issuer issuing insurance in both the primary state and in any secondary state.

(d) A health insurance issuer shall provide the following notice, in 12-point bold type, in any insurance coverage offered in Georgia by such a health insurance issuer and at any renewal of the policy, with the blank spaces being appropriately filled with the
name of the health insurance issuer, the name of the primary state, and the name of the secondary state, respectively, for the coverage concerned:

'Notice: This policy is issued by [insert state name] and is governed by the laws and regulations of the State of [insert state name], and it has met all the laws of that state as determined by that state's Department of Insurance. This policy may be less expensive than others because it is NOT subject to all of the insurance laws and regulations of Georgia, including coverage of some services or benefits mandated by the law of the State of Georgia. Additionally, this policy is NOT subject to all of the consumer protection laws or restrictions on rate changes of the State of Georgia. As with all insurance products, before purchasing this policy, you should carefully review the policy and determine what health care services the policy covers and what benefits it provides, including any exclusions, limitations, or conditions for such services or benefits.'

(e) A health insurance issuer that provides individual health insurance coverage in a primary or secondary state shall not upon renewal:

(1) Move or reclassify the individual insured under the health insurance coverage from the class such individual is in at the time of issue of the contract based on the health-status related factors of the individual;
(2) Increase the premiums assessed the individual for such coverage based on a health status-related factor or change of a health status-related factors not defined at the issuance of the policy; or
(3) Increase premiums assessed the individual for past or prospective claims experience of the insured individual.

(f) Nothing in this Code section shall be construed to prohibit a health insurance issuer:

(1) From terminating or discontinuing coverage or a class of coverage in accordance with the laws of the primary state;
(2) From raising premium rates for all policy holders within a class based on claims experience in accordance with the laws of the primary state;
(3) From changing premiums or offering discounted premiums to individuals who engage in wellness activities at intervals prescribed by the issuer, if such premium changes or incentives in accordance with the laws of the primary state:
   (A) Are disclosed to the consumer in the insurance contract;
   (B) Are based on specific wellness activities that are not applicable to all individuals; and
   (C) Are not obtainable by all individuals to whom coverage is offered;
(4) From reinstating lapsed coverage; or
(5) From retroactively adjusting the rates charged an insured individual if the initial rates were set based on material misrepresentation by the individual at the time of issue.

(g) A health insurance issuer may not offer for sale individual health insurance coverage in Georgia unless that coverage is currently offered for sale in the primary state.

(h) A person acting, or offering to act, as an agent or broker for a health insurance
issuer with respect to the offering of individual health insurance coverage must obtain a license from Georgia, with commissions or other compensation subject to the provisions of the laws of Georgia, except that Georgia may not impose any qualification or requirement which discriminates against a nonresident agent or broker.

(i) Each health insurance issuer issuing individual health insurance coverage in both primary and secondary states shall submit to the insurance commissioner of each state in which it intends to offer such coverage before it may offer individual health insurance coverage in such state:

1. A copy of the plan of operation or feasibility study or any similar statement of the policy being offered and its coverage which shall include the name of its primary state and its principal place of business;
2. Written notice of any change in its designation of its primary state; and
3. Written notice from the issuer of the issuer's compliance with all the laws of the primary state; and
4. To the insurance commissioner of each secondary state in which it offers individual health insurance coverage, a copy of the issuer's quarterly financial statement submitted to the primary state, which statement shall be certified by an independent public accountant and contain a statement of opinion on loss and loss adjustment expense reserves made by a member of the American Academy of Actuaries; or a qualified loss reserve specialist.

(j) Nothing in this Code section shall be construed to affect the authority of any federal or state court to enjoin:

(1) The solicitation or sale of individual health insurance coverage by a health insurance issuer to any person or group who is not eligible for such insurance; or
(2) The solicitation or sale of individual health insurance coverage that violates the requirements of the law of a secondary state.

(k) Nothing in this Code section shall be construed to affect the authority of any state to enjoin conduct in violation of that state's laws.

33-29A-46.

(a) If a policy holder exhausts the primary state's policy holder's rights and privileges, then all claims under health benefit plans sold to Georgia residents by out-of-state companies shall be subject to the provisions of Article 2 of Chapter 20A of this title, and no out-of-state company seeking to offer health benefit plans in this state shall receive approval to offer health benefit plans in this state unless such company agrees to comply with this Code section.

(b) Out-of-state companies offering health benefit plans under this article shall be subject to regulation by the Commissioner with regard to enforcement of the contractual benefits under the health benefit plan, including the requirements regarding prompt payment of claims for benefits pursuant to Code Section 33-24-59.5.

(c) Nothing in this article shall be construed to limit the ability of the Commissioner to establish requirements for consumer protection beyond those otherwise available to the policy holder in the primary state.
33-29A-47.
(a) The Commissioner shall adopt rules and regulations necessary to implement this article.
(b) Any dispute resolution mechanism or provision for notice and hearing in this title shall apply to insurers issuing and delivering plans pursuant to this article.

SECTION 2.

(3) Such a temporary renewal license shall be in the form of a paper receipt indicating the date on which the court received the renewal application and shall show the name, address, sex, age, and race of the applicant and that the temporary renewal license expires 90 days from the date of issue.

(4) During its period of validity the temporary renewal permit, if carried on or about the holder's person together with the holder's previous license, shall be valid in the same manner and for the same purposes as a five-year license.

Dear Senator Seabaugh:

This bill would transfer the duties of processing applications and issuing weapons carry licenses from the probate courts to the Office of Secretary of State (SOS), effective January 1, 2012. The bill also clarifies provisions regarding the carrying and possession of weapons as well as stipulates various licensing exceptions regarding handguns and long guns.

The bill’s fiscal impact to the SOS would be a net cost of approximately $885,000 annually, which consists of annual costs to the SOS less the dollar amount of application fees collected. There would also be a one-time cost to the SOS for a new database system with the capability of handling issuance, registration, and payments. Although the SOS was unable to readily provide an accurate cost for the database, they estimated this cost may total around $500,000.

The estimated annual cost to the SOS totals about $2.31 million, which is comprised of additional personnel, operating expenses, and the cost of hearings for revoked licenses. Of this total, $1.34 million would be for the following 25 additional personnel (including salaries and benefits):

- 20 licensing staff to handle processing of new and renewal applications as well as to update changes in eligibility of licensees;
- 3 analysts to process fingerprint and background check information; and
- 2 customer service specialists.

The remaining $970,000 in annual costs would include: about $800,000 for the SOS to use its current vendor for printing secure weapons permit cards and about $170,000 for operating expenses, such as supplies, telecommunications, and court hearings regarding revoked licenses.
The fees collected for new applications and renewals would offset the estimated $2.31 million annual cost by about $1.4 million. This fee revenue estimate was calculated by using current licensing information, which shows that there are about 400,000 licensees. As a license is valid for five years, an estimated 80,000 licenses would be renewed each year, plus 15,000 new applications are expected each year. At a fee of $15 per license application or renewal, the resulting revenue estimate totals $1,425,000.

As a result of this function transitioning to the SOS, probate courts would likely experience some savings. These savings would not be state funds, however, as, according to the Administrative Office of the Courts (AOC), probate courts are funded by county governments. Although the probate courts collect and retain license fees, the AOC indicated that these fees do not cover the full cost for performing the function. Consequently, some savings may be expected at the county level if this function transferred to the SOS.

Respectfully,

/s/ Russell W. Hinton  
State Auditor

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Part 3 of Article 4 of Chapter 11 of Title 16 of the Official Code of Georgia Annotated, relating to carrying and possession of firearms, is amended by revising subsection (e) of Code Section 16-11-127, relating to carrying deadly weapons to or at public gatherings, as follows:

"(e) A person licensed or permitted to carry a firearm by this part shall be permitted to carry such firearm, subject to the limitations of this part, in all parks, historic sites, and recreational areas, including all publicly owned buildings located in such parks, historic sites, and recreational areas and in wildlife management areas, notwithstanding Code Section 12-3-10, in wildlife management areas notwithstanding Code Section 27-3-1.1 and 27-3-6, and in public transportation notwithstanding Code Sections 16-12-122
through 16-12-127; provided, however, that a person shall not carry a firearm into a place prohibited by federal law. A person licensed or permitted to carry a firearm by this part shall also be permitted to carry such firearm, subject to the limitations of this part, in his or her vehicle while dropping off and picking up passengers at airports and airport facilities."

SECTION 2.
Said part is further amended by revising Code Section 16-11-129, relating to license to carry pistol or revolver, as follows:

"16-11-129.
(a)(1) Application for license or renewal license; term. The judge of the probate court of each county may, on application under oath and on payment of a fee of $15.00, issue a license or renewal license valid for a period of five years to any person whose domicile is in that county or who is on active duty with the United States armed forces and who is not a domiciliary of this state but who either resides in that county or on a military reservation located in whole or in part in that county at the time of such application, which license or renewal license shall authorize that person to carry any pistol or revolver in any county of this state notwithstanding any change in that person's county of residence or state of domicile. Applicants shall submit the application for a license or renewal license to the judge of the probate court on forms prescribed and furnished free of charge to persons wishing to apply for the license or renewal license. An applicant who is not a United States citizen shall provide sufficient personal identifying data, including without limitation his or her place of birth and United States issued alien or admission number, as the Georgia Bureau of Investigation may prescribe by rule or regulation. An applicant who is in nonimmigrant status shall provide proof of his or her qualifications for an exception to the federal firearm prohibition pursuant to 18 U.S.C. Section 922(y). Forms shall be designed to elicit information from the applicant pertinent to his or her eligibility under this Code section, including citizenship, but shall not require data which is nonpertinent or irrelevant, such as serial numbers or other identification capable of being used as a de facto registration of firearms owned by the applicant. The Department of Public Safety shall furnish application forms and license forms required by this Code section. The forms shall be furnished to each judge of each probate court within the state at no cost.

(2) At least 90 days before the expiration of a license issued under this subsection, the judge of the probate court shall notify the license holder in writing at the license holder's last known address that such license is expiring and provide forms for renewing such license. If the license holder desires to renew the license, the license holder shall submit the forms for renewal to the judge of the probate court of his or her county of domicile or residence, as applicable, in this state not less than 45 days prior to the expiration of such license along with a fee of $15.00. The forms for renewal shall be completed fully by the applicant, shall affirm under oath that the license holder still meets the qualifications for eligibility for the license, and shall
contain sufficient information to allow the judge of the probate court to cause a criminal history records check to be performed on the license holder to verify such eligibility for a license. Within two business days after receiving the forms for license renewal with the required fees, the judge of the probate court shall cause a criminal history records check from the Georgia Crime Information Center and the Federal Bureau of Investigation to be conducted for purposes of determining the eligibility of the license holder for a renewal license, and an appropriate report shall be returned to the judge of the probate court with the results of such check. Such check shall be conducted and the report returned to the judge of the probate court within 30 days. After receiving the results of the criminal history check, the judge of the probate court shall verify the eligibility of the license holder for a renewal license within ten days after receiving such report. The judge of the probate court shall date stamp the report to show the date on which the report was received by the judge of the probate court. Upon verifying the license holder’s eligibility, the judge of the probate court shall issue the license holder a renewal license which shall be valid for a period of five years. The Georgia Bureau of Investigation may charge such fee as is necessary to cover the cost of the records search which shall be added to the fee for the license renewal and shall be paid at the time of making the application for license renewal. When a person who is not a United States citizen applies for renewal of a license under this paragraph, the judge of the probate court shall cause a search to be made of the records maintained by United States Immigration and Customs Enforcement to verify the eligibility of the license holder for renewal of such license. As a condition to the issuance of a renewal of a license, a license holder who is in nonimmigrant status shall provide proof of his or her qualifications for an exception to the federal firearm prohibition pursuant to 18 U.S.C. Section 922(y). If the judge of the probate court finds that the person is not eligible for a license under this Code section, the judge of the probate court shall deny the license renewal and shall notify the license holder in writing of the reasons for such denial. The Department of Public Safety shall furnish license renewal forms required by this paragraph. The forms shall be furnished to each judge of each probate court within the state at no cost.

(b) Licensing exceptions. No license or renewal license shall be granted to:

(1) Any person who is prohibited from possessing firearms pursuant to 18 U.S.C. Section 922;

and has not been free of all restraint or supervision in connection therewith for at least five seven years or any person who has been convicted of a violation of Code Section 16-11-126, 16-11-127, or 16-11-128 and has not been free of all restraint or supervision in connection therewith for at least three years, immediately preceding the date of the application;

(4) Any individual who has been hospitalized as an inpatient in any mental hospital or alcohol or drug treatment center within five years of the date of his or her application. The probate judge may require any applicant to sign a waiver authorizing any mental hospital or treatment center to inform the judge whether or not the applicant has been an inpatient in any such facility in the last five years and authorizing the superintendent of such facility to make to the judge a recommendation regarding whether a license to carry a pistol or revolver should be issued. When such a waiver is required by the probate judge, the applicant shall pay to the probate judge a fee of $3.00 for reimbursement of the cost of making such a report by the mental health hospital, alcohol or drug treatment center, or the Department of Human Resources, which the probate judge shall remit to the hospital, center, or department. The judge shall keep any such hospitalization or treatment information confidential. It shall be at the discretion of the probate judge, considering the circumstances surrounding the hospitalization and the recommendation of the superintendent of the hospital or treatment center where the individual was a patient, to issue the license or renewal license;

(6) Any person not lawfully present in the United States.

c) Fingerprinting.

Following completion of the application for a license or the renewal of a license, the judge of the probate court shall require the applicant to proceed to an appropriate law enforcement agency in the county with the completed application. The appropriate local law enforcement agency in each county shall then capture the fingerprints of the
applicant for a license or renewal license to carry a pistol or revolver, place the fingerprint required by subsection (f) of this Code section on a blank license form which has been furnished to the law enforcement agency by the judge of the probate court, and place the name of the applicant on the blank license form. The law enforcement agency shall be entitled to a fee of $5.00 from the applicant for its services in connection with the application.

(d) Investigation of applicant; issuance of license; renewal.

(1) For both license applications and requests for license renewals, the judge of the probate court shall within two business days following the receipt of the application or request direct the law enforcement agency to request a fingerprint-based criminal history records check from the Georgia Crime Information Center and Federal Bureau of Investigation for purposes of determining the suitability of the applicant and return an appropriate report to the judge of the probate court. Fingerprints shall be in such form and of such quality as prescribed by the Georgia Crime Information Center and under standards adopted by the Federal Bureau of Investigation. The Georgia Bureau of Investigation may charge such fee as is necessary to cover the cost of the records search.

(2) For both license applications and requests for license renewals, the judge of the probate court shall within two business days following the receipt of the application or request also direct the law enforcement agency to conduct a background check using the Federal Bureau of Investigation's National Instant Criminal Background Check System and return an appropriate report to the probate judge.

(3) When a person who is not a United States citizen applies for a license or renewal of a license under this Code section, the judge of the probate court shall direct the law enforcement agency to conduct a search of the records maintained by the United States Bureau of Immigration and Customs Enforcement. As a condition to the issuance of a license or the renewal of a license, an applicant who is in nonimmigrant status shall provide proof of his or her qualifications for an exception to the federal firearm prohibition pursuant to 18 U.S.C. Section 922(y).

(4) The law enforcement agency shall report to the judge of the probate court within 30 days, by telephone and in writing, of any findings relating to the applicant which may bear on his or her eligibility for a license or renewal license under the terms of this Code section. When no derogatory information is found on the applicant bearing on his or her eligibility to obtain a license or renewal license, a report shall not be required. The law enforcement agency shall return the application and the blank license form with the fingerprint thereon directly to the judge of the probate court within such time period. Not later than ten days after the judge of the probate court receives the report from the law enforcement agency concerning the suitability of the applicant for a firearms license, the judge of the probate court shall issue such applicant a license or renewal license to carry any pistol or revolver unless facts establishing ineligibility have been reported or unless the judge determines such applicant has not met all the qualifications, is not of good moral character, or has failed to comply with any of the requirements contained in this Code section.
judge of the probate court shall date stamp the report from the law enforcement agency to show the date on which the report was received by the judge of the probate court.

(c) Revocation, loss, or damage to license. If, at any time during the period for which the license was issued, the judge of the probate court of the county in which the license was issued shall learn or have brought to his or her attention in any manner any reasonable ground to believe the licensee is not eligible to retain the license, the judge may, after notice and hearing, revoke the license of the person upon adjudication of falsification of application, mental incompetency, chronic alcohol or narcotic usage, conviction of any felony or forcible misdemeanor, or for violation of Code Section 16-11-126, 16-11-127, or 16-11-128. It shall be unlawful for any person to possess a license which has been revoked, and any person found in possession of any such revoked license, except in the performance of his or her official duties, shall be guilty of a misdemeanor. It shall be required that any license holder under this Code section have in his or her possession his or her valid license whenever he or she is carrying a pistol or revolver under the authority granted by this Code section, and his or her failure to do so shall be prima-facie evidence of a violation of Code Section 16-11-128. Loss of any license issued in accordance with this Code section or damage to the license in any manner which shall render it illegible shall be reported to the judge of the probate court of the county in which it was issued within 48 hours of the time the loss or damage becomes known to the license holder. The judge of the probate court shall thereupon issue a replacement for and shall take custody of and destroy a damaged license; and in any case in which a license has been lost, he or she shall issue a cancellation order and notify by telephone and in writing each of the law enforcement agencies whose records were checked before issuance of the original license. The judge shall charge the fee specified in subsection (k) of Code Section 15-9-60 for such services.

(f) License specifications. Licenses issued as prescribed in this Code section shall be printed on durable but lightweight card stock, and the completed card shall be laminated in plastic to improve its wearing qualities and to inhibit alterations. Measurements shall be 3 1/4 inches long, and 2 1/4 inches wide. Each shall be serially numbered within the county of issuance and shall bear the full name, residential address, birth date, weight, height, color of eyes, sex, and a clear print of the right index finger and gender of the licensee. If the right index fingerprint cannot be secured for any reason, the print of another finger may be used but such print shall be marked to identify the finger from which the print is taken. The license shall show the date of issuance, the expiration date, and the probate court in which issued and shall be signed by the licensee and bear the signature or facsimile thereof of the judge. The seal of the court shall be placed on the face before the license is laminated. The reverse side of the license shall have imprinted thereon in its entirety Code Section 16-11-127.

(g) Alteration or counterfeiting of license; penalty. A person who deliberately alters or counterfeits such a license card commits a felony and, upon conviction thereof, shall be punished by imprisonment for a period of not less than one nor more than five years.
Licenses for former law enforcement officers. SECTION 1.
The General Assembly declares its intent to develop a State-wide Autism Task Force due to the increased numbers of children diagnosed with autism, a complex brain disorder with a range of symptoms and syndromes that has no cure. This task force will serve as a "brain trust" for Georgia so that it may establish policy by gathering scientific minds, researchers, physicians, and parents of children affected by this disease to create better screening, education, treatment, and services for those children and to recommend a unified and coordinated agenda for addressing autism in the State of Georgia. Early
therapeutic treatment for these children has been shown to reduce costs to families and to
the State of Georgia. The goal of this task force will be to review prevalence data for
autism spectrum disorders, review current programs and funding, determine gaps in
services and access issues, review best practices in the field, and provide for a
comprehensive plan with recommendations and identifiable needs.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.
Chapter 8 of Title 35 of the Official Code of Georgia Annotated, relating to the employment and training of peace officers, is amended by revising Code Section 35-8-8, relating to the requirements for appointment or certification of persons as peace officers and pre-employment attendance at a basic training course, as follows:

(3) Have a high school diploma or its recognized equivalent;
(4) Not have been convicted by any state or by the federal government of any crime the punishment for which could have been imprisonment in the federal or state prison or institution nor have been convicted of sufficient misdemeanors to establish a pattern of disregard for the law, provided that, for the purposes of this paragraph, violations of traffic laws and other offenses involving the operation of motor vehicles when the applicant has received a pardon shall not be considered;
(5) Be fingerprinted for the purpose of conducting a fingerprint based search at the Georgia Bureau of Investigation and the Federal Bureau of Investigation to determine the existence of any criminal record;
(6) Possess good moral character as determined by investigation under procedure established by the council and fully cooperate during the course of such investigation;

Such examination shall be administered prior to entrance to the basic course provided for in Code Sections 35-8-9 and 35-8-11. The council may change or modify such examination and shall establish the criteria for determining satisfactory performance on such examination. Peace officers who do not perform satisfactorily on the
examination shall be ineligible to retake such examination for a period of six months after an unsuccessful attempt. The provisions of this paragraph establish only the minimum requirements of academy entrance examinations for peace officer candidates in this state; each law enforcement unit is encouraged to provide such additional requirements and any preemployment examination as it deems necessary and appropriate.

(2) Where an investigation is conducted for the purpose of hiring, certifying, or continuing the certification of a peace officer, an employer shall disclose employment related information to the investigating law enforcement agency upon receiving a written request from such agency. Disclosure shall only be required under this subsection if the law enforcement agency's request is accompanied by a copy of a signed, notarized statement from the applicant, candidate, or peace officer releasing and holding harmless such employer from any and all liability for disclosing complete and accurate information to the law enforcement agency.

(3) An employer may charge a reasonable fee to cover actual costs incurred in copying and furnishing documents to a requesting law enforcement agency, including retrieving and redacting costs, provided such amount shall not exceed $25.00 or $0.25 per page, whichever is greater.

(4) No employer or law enforcement agency shall be subject to any civil liability for any cause of action by virtue of disclosing complete and accurate information to a law enforcement agency in good faith and without malice pursuant to this subsection. In any such cause of action malice or bad faith shall only be demonstrated by clear and convincing evidence. SECTION 2.
Said chapter is further amended by revising subsections (a) and (b) of Code Section 32-6-27, relating to enforcement of load limitations on vehicles, as follows:

"(a) Any person who violates the load limitation provisions of Code Section 32-6-26 shall be conclusively presumed to have damaged the public roads, including bridges, of this state by reason of such overloading and shall recompense the state for such damage in accordance with the following schedule:

(1) Five cents per pound for all excess weight over the allowed weight limitations, including any applicable variances; or

(2) For the following vehicles, damages for excess weight shall be assessed at 125 percent times the rate imposed on offending vehicles operating without a permit:

   (A) Where a vehicle is authorized to exceed the weight limitations of Code Section 32-6-26 by a permit issued pursuant to Code Section 32-6-28, the term 'excess weight' means that weight which exceeds the weight allowed by such permit; and

   (B) Where a vehicle is authorized to exceed the weight limitations of Code Section 32-6-26 by a permit issued pursuant to Code Section 32-6-28 as a superload permit or superload plus permit, the term 'excess weight' means:

      (i) Any single axle weight which exceeds any single axle weight allowed by such permit; and

      (ii) All weight greater than 150,000 pounds when the gross weight of the vehicle and load exceeds the gross weight allowed by such permit or when any axle spacing is less than that specified by such permit; or

For such vehicles, damages for excess weight shall be assessed according to the following schedule: 125 percent times the rate imposed on offending vehicles operating without a permit.

(3) Any vehicle that utilizes idle reduction technology shall not have any penalty for violating Code Section 32-6-26, except for subsections (f) and (h), calculated by reducing from the actual gross weight, single axle weight, tandem axle weight, or the allowed weight on any group of two or more axles the manufacturer's certified weight of the idle reducing technology or 400 pounds, whichever is less. The operator of the vehicle shall present written certification from the manufacturer specifying the weight of the idle reducing technology and demonstrate that the idle reducing technology is fully functional at all times when so requested by any law enforcement officer or employee of the Department of Public Safety.

(b) The schedules listed in paragraphs (1) and (2) of subsection (a) of this Code section shall apply separately to:

   (1) The excess weight of the gross load; and

   (2) The sum of the excess weight or weights of any axle or axles; provided, however, that where both gross load and axle weight limits are exceeded, the owner or operator shall be required to recompense the state only for the largest of the money damages imposed under paragraphs (1) and (2) of this subsection."
SECTION 3.
Said chapter is further amended by revising Code Section 32-6-28, relating to permits for excess weights and dimensions, as follows:

"32-6-28.
(a) Generally.
(1)(A) The commissioner or an official of the department designated by the commissioner may, in his or her discretion, upon application in writing and good cause being shown therefor, issue a permit in writing authorizing the applicant to operate or move upon the state's public roads a motor vehicle or combination of vehicles and loads whose weight, width, length, or height, or combination thereof, exceeds the maximum limit specified by law, provided that the load transported by such vehicle or vehicles is of such nature that it is a unit which cannot be readily dismantled or separated; and provided, further, that no permit shall be issued to any vehicle whose operation upon the public roads of this state threatens to unduly damage a road or any appurtenance thereto, except that the dismantling limitation specified in this Code section shall not apply to loads which consist of cotton, tobacco, concrete pipe, and plywood that do not exceed a width of nine feet or of round bales of hay that do not exceed a width of 11 feet and which are not moved on part of The Dwight D. Eisenhower System of Interstate and Defense Highways. However, vehicles transporting portable buildings and vehicles not exceeding 65 feet in length transporting boats on roads not a part of The Dwight D. Eisenhower System of Interstate and Defense Highways, regardless of whether the nature of such buildings or boats is such that they can be readily dismantled or separated, may exceed the lengths and widths established in this article, provided that a special permit for such purposes has been issued as provided in this Code section, but no such special permit shall be issued for a load exceeding 12 feet in width when such load may be readily dismantled or separated. A truck tractor and low boy type trailer may, after depositing its permitted load, return to its point of origin on the authorization of its original permit.
(B) Notwithstanding the provisions of subparagraph (A) of this paragraph, the commissioner or an official of the department designated by the commissioner may, in his or her discretion, upon application in writing and good cause being shown therefor, issue to a specific tow vehicle a permit in writing authorizing the applicant to operate or move upon the state's public roads a motor vehicle or combination of vehicles and loads for transporting not more than two modular housing units or sectional housing units if the total weight, width, length, and height of the vehicle or combination of vehicles, including the load, does not exceed the limits specified in Code Section 32-6-22 and Code Section 32-6-26. Permission to transport two modular housing units is only authorized when the modular unit transporter meets the minimum specifications contained in subparagraph (C) of this paragraph. No permit shall be issued to any vehicle or combination of vehicles whose operation upon the public roads of this state threatens the safety of others or threatens to damage unduly a road or any appurtenance thereto.
(C) A modular unit transporter shall meet all requirements of the Federal Motor Carrier Safety Administration and all state safety requirements, rules, and regulations. The modular unit transporter shall be properly registered and have a proper, current license plate. At a minimum, the modular unit transporter shall:

(i) Be constructed of 12 inch steel I beams doubled and welded together;
(ii) Have all axles equipped with brakes;
(iii) Have every floor joist on each modular section securely attached to the beams with lag bolts and washers, or lag bolts, washers, and cable winches; and
(iv) Have an overall length not to exceed 80 feet including the hitch.

(2) Permits may be issued, on application to the department, to persons, firms, or corporations without specifying license plate numbers in order that such permits which are issued on an annual basis may be interchanged from vehicle to vehicle. The department is authorized to promulgate reasonable rules and regulations which are necessary or desirable to govern the issuance of such permits, provided that such rules and regulations are not in conflict with this title or other provisions of law.

(3) Every such permit shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by any police officer, state trooper, or authorized agent of the department.

(4) The application for any such permit shall specifically describe the type of permit applied for, as said types of permits are described in subsection (c) of this Code section. In addition, the application for a single-trip permit shall describe the points of departure and destination.

(5) The commissioner or an official of the department designated by the commissioner is authorized to withhold such permit or, if such permit is issued, to establish seasonal or other time limitations within which the vehicles described may be operated on the public road indicated, or otherwise to limit or prescribe conditions of operation of such vehicles when necessary to ensure against undue damage to the road foundation, surfaces, or bridge structures, and to require such undertaking or other security as may be deemed necessary to compensate the state for any injury to any roadway or bridge structure.

(6) For just cause, including, but not limited to, repeated and consistent past violations, the commissioner or an official of the department designated by the commissioner may refuse to issue or may cancel, suspend, or revoke the permit and any permit privileges of an applicant or permittee. The specific period of time of any suspension shall be determined by the department. In addition, any time the restrictions or conditions within which a permitted vehicle must be operated are violated, the permit may be immediately declared null and void.

(7) The department is authorized to promulgate rules and regulations necessary to enforce the suspension of permits authorized in this Code section.

(8) The department shall issue rules to establish a driver training and certification program for drivers of vehicles escorting oversize/overweight loads. Any driver operating a vehicle escorting an oversize/overweight load shall meet the training requirements and obtain certification under the rules issued by the department.
pursuant to this Code section. The rules may provide for reciprocity with other states having a similar program for escort certification. Certification credentials of the driver of an escort vehicle shall be carried in the escort vehicle and be readily available for inspection by law enforcement personnel or an authorized employee of the department. The department shall implement the vehicle escort driver training and certification program on or before July 1, 2010, and the requirements for training and certification shall be enforced beginning on January 1, 2011.

(9) Permit holders shall be required to meet the following minimum insurance standards:

(A) For loads where the gross vehicle weight is less than or equal to 10,000 pounds:
   (i) For bodily injury a limit of $50,000.00 per person for injury or death as a result of any one occurrence; and
   (ii) For property damage a limit of $50,000.00 for damage to property of others in any one occurrence; or
(B) For commercial motor carriers where the gross vehicle weight is greater than 10,000 pounds:
   (i) For bodily injury a minimum of $300,000.00 for each person and $1 million for multiple persons for injury or death as a result of any one occurrence; and
   (ii) For property damage a minimum of $1 million for damage to property of others in any one occurrence.

(b) Duration and limits of permits.

(1) Annual permit. The commissioner or an official of the department designated by the commissioner may, pursuant to this Code section, issue an annual permit which shall permit a vehicle to be operated on the public roads of this state for 12 months from the date the permit is issued even though the vehicle or its load exceeds the maximum limits specified in this article. However, except as specified in paragraph (2) of this subsection, an annual permit shall not authorize the operation of a vehicle:
   (A) Whose total gross weight exceeds 100,000 pounds;
   (B) Whose single axle weight exceeds 25,000 pounds;
   (C) Whose total load length exceeds 100 feet;
   (D) Whose total width exceeds 102 inches or whose load width exceeds 144 inches; or
   (E) Whose height exceeds 14 feet and six inches.

Furthermore, an annual permit to operate a vehicle which exceeds the height limitations set forth in Code Section 32-6-22 shall be issued only on condition of payment of an indemnity bond or proof of insurance protection for $300,000.00. Such bond or insurance protection, conditioned for payment to the department, shall be held in trust for the benefit of the owners of bridges and appurtenances thereto, traffic signals, signs, or other highway structures damaged by a vehicle operating under authority of such overheight permit. The liability under the bond or insurance certificate shall be absolute and shall not depend on proof of negligence or fault on the part of the permittee, his or her agents, or operators.

(2) STAA annual Annual permit plus. Vehicles and loads that meet the requirements
for an annual permit may apply for a special annual permit to carry wider loads on the STAA system of roads NHS. The wider load limits shall be a maximum of 14 feet wide from the base of the load to a point 10 feet above the pavement and 14 feet and eight inches for the upper portion of the load.

(2.1) Six-month permit. Six-month permits may be issued for loads of tobacco or unginned cotton the widths of which do not exceed nine feet, provided that such loads shall not be operated on The Dwight D. Eisenhower System of Interstate and Defense Highways.

(3) Single trip. Pursuant to this Code section, the commissioner may issue a single-trip permit to any vehicle or load allowed by federal law.

(c) Fees. The department may promulgate rules and regulations concerning the issuance of permits and charge a fee for the issuance thereof as follows:

1. Annual. Charges for the issuance of annual permits shall be $150.00 per permit.
2. STAA Annual permit plus. Charges for the issuance of STAA annual permits plus shall be $500.00 per permit.
3. Six months. The charges for the issuance of six-month permits for loads of tobacco or unginned cotton shall be $25.00 per permit.
4. Single trip. Charges for the issuance of single-trip permits shall be as follows:
   A.    C. Superload plus permit – Any load having a weight exceeding the maximum limit therefor specified in subparagraph (B) of this paragraph ... 500.00

(d) Notwithstanding any provision of Code Section 48-2-17 to the contrary, all fees collected in accordance with this Code section shall be paid to the treasurer of the department to help defray the expenses of enforcing the limitations set forth in this article and may also be used for public road maintenance purposes in addition to any sums appropriated therefor to the department.

SECTION 4.

Title 40 of the Official Code of Georgia Annotated, relating to motor vehicles and traffic, is amended by revising Code Section 40-1-1, relating to definitions regarding motor vehicles and traffic, by adding a new paragraph to read as follows:

When two vehicles approach or enter an intersection with an inoperative traffic light, the driver of each vehicle shall be required to stop in the same manner as if a stop sign were facing in each direction at the intersection. Drivers shall not be required to stop if the traffic signal is properly signed as a pedestrian hybrid beacon and operating in the unactivated dark mode. When a flashing indication is given, the driver shall stop for the flashing red signal and exhibit caution while passing through a flashing yellow indication."

WHEREAS, the landscape of the battle was one where neither army wanted to fight, and the thick forest limited visibility to 150 feet, less than the range of a rifle; cannon were useless, and often the fighting was hand-to-hand; and

WHEREAS, during the battle, soldiers were cared for in the nearby homes and adjacent buildings, with many Union doctors remaining behind to care for the wounded after the Southern victory, and many parched and wounded soldiers of both sides drank from the town's bubbling Crawfish Spring, still active today; and

WHEREAS, the corridor of the highway dedicated in this resolution follows the general route of march for the army that fought in the Battle of Chickamauga; and

WHEREAS, it is only fitting to honor the brave men who fought and died here with a lasting memorial to their sacrifice.

**PART II**

WHEREAS, the Honorable Frank Milton Gleason served with distinction in various leadership roles in Walker and surrounding counties in Northwest Georgia; and

WHEREAS, he was instrumental in establishing several banks in the area, including the Rossville Bank; and

WHEREAS, he also served as the county attorney for Catoosa, Dade, and Walker counties; and

WHEREAS, it is only fitting and proper that Mr. Gleason's accomplishments be publicly recognized.
PART III

WHEREAS, Mr. Bates was born in Atlanta, Georgia, a beloved son of the late Robert Bates, Sr., and Lois Hilderbrand Bates; and

WHEREAS, he served as a guardian of this nation's freedom and liberty during World War II, and upon his return home he took over his father's business, Bates Hardware Company, where he worked until his retirement in 1973; and

WHEREAS, Mr. Bates was active in his trade, belonging to associations such as the Atlanta Retail Hardware Association and the National Retail Hardware Association, and served as president of the Northside Business Association and the Georgia-Florida Retail Hardware Association; and

WHEREAS, in honor of his 50 years of dedicated service to the hardware industry, Mr. Bates was awarded the prestigious Gold Hammer; and

WHEREAS, he was devoted to his community and served as a civic leader as a member of the Cartersville Chamber of Commerce, the Mason Lodge, the Yaraab Shrine Temple, and the Elks Lodge #1969; and

WHEREAS, Mr. Bates was united in love and marriage for 59 years to his lovely wife Wynell Hogeland Bates, and he was surrounded by the love of his daughter and son-in-law, Linda and Chuck Walker; his adoring grandchildren, Tony, Kristy, and Christopher; and his delightful great-granddaughters, Kayla and Ashlyn; and

WHEREAS, the devotion, patience, and understanding he demonstrated provided the foundation and framework of success in which all of his family members have developed and flourished; and

WHEREAS, a compassionate and generous man, Mr. Bates will long be remembered for his love of family and friendship, and this loyal husband, father, neighbor, and friend will be missed by all who had the great fortune of knowing him and it is only fitting that a permanent memorial be established in his memory.

PART IV

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Code Section 20-2-55 of the Official Code of Georgia Annotated, relating to the per diem reimbursement, insurance benefits, and expenses of local school board members, is amended by revising subsection (a) as follows:

"(a)(1) In any local school system for which no local Act is passed, members of the local board of education shall, when approved by the local board affected, receive a per diem of $50.00 for each day of attendance at meetings of the board and while meeting and traveling within or outside the state as a member of a committee of the board on official business first authorized by a majority of the board, plus reimbursement for actual expenses necessarily incurred in connection therewith; provided, however, that in any independent school system with a full-time equivalent (FTE) program count of less than 4,000 students for which no local Act is passed, members of the local board of education may, when approved by the affected local
board, receive a per diem of not less than $50.00 and not more than $100.00 for each
day of attendance at meetings of the board and while meeting and traveling within or
outside the state as a member of a committee of the board, plus reimbursement for
actual expenses. The accounts for such service and expenses shall be submitted for
approval to the local school superintendent. In all school districts the compensation of

member may appeal to the State Board of Education in writing the loss of per diem
reimbursement or salary within ten days of being notified of such loss. If the State

shall return the per diem reimbursement or salary to the local board member."

(b) Such meetings shall be open to the public to the extent required by law and notice to the public of emergency meetings shall be made as fully as is reasonably possible in accordance with Code Section 50-14-1 of the O.C.G.A. or such other applicable laws as are or may hereafter be enacted.

SECTION 6.12.
Occupation and business taxes.

The city council, by ordinance, shall have the power to levy such occupation or business taxes as are not denied by law. SECTION 6.13.
Regulatory fees; permits.

The city council, by ordinance, shall have the power to require businesses or practitioners doing business within this city to obtain a permit for such activity from the city and pay a

Franchises.

(a) The city council shall have the power to grant franchises for the use of this city's streets and alleys for the purposes of railroads, street railways, telephone companies, electric companies, electric membership corporations, cable television and other telecommunications companies, gas companies, transportation companies, and other similar organizations. The city council shall determine the duration, terms, whether the same shall be exclusive or nonexclusive, and the consideration for such franchises; provided, however, no franchise shall be granted unless the city receives just and adequate compensation therefor. The city council shall provide for the registration of all franchises with the city clerk in a registration book kept by the clerk. The city council may provide by ordinance for the registration within a reasonable time of all franchises previously granted.

(b) If no franchise agreement is in effect, the city council has the authority to impose a tax on gross receipts for the use of this city's streets and alleys for the purposes of railroads, street railways, telephone companies, electric companies, electric membership corporations, cable television and other telecommunications companies, gas companies, transportation companies, and other similar organizations.

If unpaid, such charges shall be collected as provided in Section 6.18 of this charter.
SECTION 6.17.
Construction; other taxes and fees.

This city shall be empowered to levy any other tax or fee allowed now or hereafter by law, and the specific mention of any right, power, or authority in this article shall not be construed as limiting in any way the general powers of this city to govern its local affairs.

SECTION 6.18.
Collection of delinquent taxes and fees.

The city council, by ordinance, may provide generally for the collection of delinquent taxes, fees, or other revenue due the city under Sections 6.10 through 6.17 of this charter by whatever reasonable means as are not precluded by law. This shall include providing for the dates when the taxes or fees are due; late penalties or interest; issuance and execution of fi.fas.; creation and priority of liens; making delinquent taxes and fees personal debts of the persons required to pay the taxes or fees imposed; revoking city permits for failure to pay any city taxes or fees; and providing for the assignment or transfer of tax executions.

SECTION 6.19.
General obligation bonds.

The city council shall have the power to issue bonds for the purpose of raising revenue to carry out any project, program, or venture authorized under this charter or the laws of the state. Such bonding authority shall be exercised in accordance with the laws governing bond issuance by municipalities in effect at the time such issue is undertaken.

The city may enter into multiyear lease, purchase, or lease-purchase contracts for the acquisition of goods, materials, real and personal property, services, and supplies,
provided that the contract terminates without further obligation on the part of the municipality at the close of the calendar year in which it was executed and at the close of each succeeding calendar year for which it may be renewed. Contracts must be executed in accordance with the requirements of Code Section 36-60-13 of the O.C.G.A. or other such applicable laws as are or may hereafter be enacted.

SECTION 6.23.
Fiscal year.

The city council shall set the fiscal year by ordinance. This fiscal year shall constitute the budget year and the year for financial accounting and reporting of each and every office, department, agency, and activity of the city government.

SECTION 6.24.
Preparation of budgets.

The city council shall provide an ordinance on the procedures and requirements for the preparation and execution of an annual operating budget, a capital improvement plan, and a capital budget, including requirements as to the scope, content, and form of such budgets and plans.

SECTION 6.25.
Submission of operating budget to city council.

On or before a date fixed by the city council but not later than 45 days prior to the beginning of each fiscal year, the city administrator shall submit to the city council a proposed operating budget for the ensuing fiscal year. The budget shall be accompanied by a message from the city administrator containing a statement of the general fiscal policies of the city, the important features of the budget, explanations of major changes recommended for the next fiscal year, a general summary of the budget, and other pertinent comments and information. The operating budget and the capital budget provided for in Section 6.29 of this charter, the budget message, and all supporting documents shall be filed in the office of the city clerk and shall be open to public inspection.

SECTION 6.26.
Action by city council on budget.

(a) The city council may amend the operating budget proposed by the city administrator, except that the budget as finally amended and adopted must provide for all expenditures required by state law or by other provisions of this charter and for all debt service requirements for the ensuing fiscal year, and the total appropriations from any fund shall not exceed the estimated fund balance, reserves, and revenues.
(b) The city council by ordinance shall adopt the final operating budget for the ensuing fiscal year not later than the December council meeting of each year. If the city council fails to adopt the budget by this date, the amounts appropriated for operation for the current fiscal year shall be deemed adopted for the ensuing fiscal year on a month-to-month basis, with all items prorated accordingly, until such time as the city council adopts a budget for the ensuing fiscal year, but not for a period to exceed six months. Adoption of the budget shall take the form of an appropriations ordinance setting out the estimated revenues in detail by sources and making appropriations according to fund and by organizational unit, purpose, or activity as set out in the budget preparation ordinance adopted pursuant to Section 6.24 of this charter.

(c) The amount set out in the adopted operating budget for each organizational unit shall constitute the annual appropriation for such, and no expenditure shall be made or encumbrance created in excess of the otherwise unencumbered balance of the appropriations or allotment thereof to which it is chargeable.

SECTION 6.27.

Tax levies.

The city council shall levy by ordinance such taxes as are necessary. The taxes and tax rates set by such ordinance shall be such that reasonable estimates of revenues from such levy shall at least be sufficient, together with other anticipated revenues, fund balances, and applicable reserves, to equal the total amount appropriated for each of the several funds set forth in the annual operating budget for defraying the expenses of the general government of this city.

SECTION 6.28.

Changes in appropriations.

The city council by ordinance may make changes in the appropriations contained in the current operating budget at any regular, special, or emergency meeting called for such purpose, but any additional appropriations may be made only from an existing unexpended surplus.

SECTION 6.29.

Capital budget.

(a) On or before the date fixed by the city council, but not later than 60 days prior to the beginning of each fiscal year, the city administrator shall submit to the city council a proposed capital improvements plan with a recommended capital budget containing the means of financing the improvements proposed for the ensuing fiscal year. The city council shall have power to accept, with or without amendments, or reject the proposed plan and proposed budget. The city council shall not authorize an expenditure for the construction of any building, structure, work, or improvement unless the appropriations
for such project are included in the capital budget, except to meet a public emergency as provided in Section 2.24 of this charter.

(b) The city council shall adopt by ordinance the final capital budget for the ensuing fiscal year not later than the December council meeting of each year. No appropriation provided for in a prior capital budget shall lapse until the purpose for which the appropriation was made shall have been accomplished or abandoned; provided, however, the city administrator may submit amendments to the capital budget at any time during the fiscal year, accompanied by recommendations. Any such amendments to the capital budget shall become effective only upon adoption by ordinance.

SECTION 6.30.
Independent audit.

There shall be an annual independent audit of all city accounts, funds, and financial transactions by a certified public accountant selected by the city council. The audit shall be conducted according to generally accepted auditing principles. Any audit of any funds by the state or federal governments may be accepted as satisfying the requirements of this charter. Copies of annual audit reports shall be available at printing costs to the public.

SECTION 6.31.
Contracting procedures.

No contract with the city shall be binding on the city unless:
(1) It is in writing;
(2) It is drawn by or submitted and reviewed by the city attorney and, as a matter of course, is signed by the city attorney to indicate such drafting or review; and
(3) It is made or authorized by the city council and such approval is entered in the city council journal of proceedings pursuant to Section 2.20 of this charter.

SECTION 6.32.
Centralized purchasing.

The city council shall by ordinance prescribe procedures for a system of centralized purchasing for the city.

SECTION 6.33.
Sale and lease of city property.

(a) The city council may sell and convey or lease any real or personal property owned or held by the city for governmental or other purposes as now or hereafter provided by law.
(b) The city council may quitclaim any rights it may have in property not needed for public purposes upon report by the city administrator and adoption of a resolution, both finding that the property is not needed for public or other purposes and that the interest of
the city has no readily ascertainable monetary value.
(c) Whenever in opening, extending, or widening any street, avenue, alley, or public
place of the city a small parcel or tract of land is cut off or separated by such work from a
larger tract or boundary of land owned by the city, the city council may authorize the
administrator to sell and convey said cut-off or separated parcel or tract of land to an
abutting or adjoining property owner or owners where such sale and conveyance
facilitates the enjoyment of the highest and best use of the abutting owner's property.
Included in the sales contract shall be a provision for the rights of way of said street,
avenue, alley, or public place. Each abutting property owner shall be notified of the
availability of the property and given the opportunity to purchase said property under
such terms and conditions as set out by ordinance. All deeds and conveyances heretofore
and hereafter so executed and delivered shall convey all title and interest the city has in
such property, notwithstanding the fact that no public sale after advertisement was or is
hereafter made.

MEMORANDUM

MEMO TO: Bob Ewing  
Secretary of the Senate
FROM: Gail Buckner, Senate District 44
RE: Senate Resolution 801

Today, March 30, 2010, I voted “no” on SR 801, and therefore, request that this statement be entered into the Senate Journal for clarification:

My vote today is not to express non-support for the United State’s ability to drill for oil off-shore, because I am an advocate for off-shore drilling when executed with a professional and thoughtful approach. My “no” vote is in response to conflicting information that has been used as a political weapon rather than an unbiased attempt to inform citizens.

Thank you,

/s/ Gail Buckner

The President resumed the Chair.
Senator Pearson of the 51st was excused for business outside the Senate Chamber.

HB 231. By Representatives Jerguson of the 22nd, Powell of the 29th and Williams of the 4th:

Senate Sponsor: Senator Rogers of the 21st.

The Senate Regulated Industries and Utilities Committee offered the following substitute to HB 231:

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 4 of Title 43 of the Official Code of Georgia Annotated, relating to architects, so as to clarify the scope of practice of registered interior designers; to provide certain definitions; to change certain provisions relating to documents requiring the seal of a registered architect or a registered interior designer; to amend Code Section 50-22-2 of the Official Code of Georgia Annotated, relating to definitions relative to managerial control over acquisition of professional services, so as to correct a cross-reference; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 4 of Title 43 of the Official Code of Georgia Annotated, relating to architects, is amended by revising Code Section 43-4-1, relating to definitions relative to architects, as follows:

"43-4-1.

As used in this chapter, the term:
(1) 'Architect' means an individual technically and legally qualified to engage in the practice of architecture.
(2) 'Architectural construction contract administration services' shall include at a minimum the following services:
(A) Visiting the construction site on a regular basis to determine that the work is
proceeding in accordance with the technical submissions submitted to the building official at the time the building permit was issued; and

(B) Processing shop drawings, samples, and other submissions required of the contractor by the terms of construction contract documents.

(3) 'Board' means the Georgia State Board of Architects and Interior Designers.

(4) 'Building' means any structure consisting of foundation, floors, walls, columns, girders, beams, and roof or a combination of any of these parts, with or without other parts or appurtenances.

(5) 'Building official' shall mean the person appointed by the county, municipality, or other political subdivision of the state having responsibility for the issuance of building permits and the administration and enforcement of the Georgia State Minimum Construction Codes, or a state fire marshal where there is not such local official.

(6) 'Building shell' means a building framework, perimeter and exterior walls, the building core and columns, and other structural, mechanical, and load-bearing elements of the building.

(7) 'Building shell system' means a mechanical, plumbing, fire protection, electrical, structural, or motorized vertical transportation system designed for or located within a building shell.

(8) 'Interior construction document' means detailed drawings and specifications sealed and signed by a registered interior designer certifying compliance with applicable current building codes, ordinances, laws, and regulations that define the work to be constructed in such form as is required for approval of a construction permit by a building official or fire marshal. Such document may be combined with documents prepared under the responsible control, seal, and signature of other registered or licensed professionals.

(9)(A) 'Interior design' means the rendering of or the offering to render designs, consultations, studies, planning, drawings, specifications, contract documents, or other technical submissions and the administration of interior construction and contracts relating to nonstructural interior construction of a building by a registered interior designer. Such term includes:

(i) Space planning, finishes, furnishings, and the design for fabrication of nonstructural interior construction within interior spaces of buildings;

(ii) Responsibility for life safety design of proposed or modification of existing nonstructural and nonengineered elements of construction such as partitions, doors, stairways, and paths of egress connecting to exits or exit ways; and

(iii) Modification of existing building construction so as to alter the number of persons for which the egress systems of the building are designed.

(B) Registered interior designers shall collaborate and coordinate their work with other registered or licensed professionals for work that is excluded by this definition, including without limitation:

(i) The design of or responsibility for the building shell or any building shell systems; or
(ii) Construction which materially affects building life safety systems pertaining to fire safety protection such as fire-rated vertical shafts in multistory structures and fire-rated protection of structural elements with the exception of incidental restoration of fire protection to elements impacted by nonstructural elements of construction, smoke evacuation, emergency sprinkler systems, and emergency alarm systems.

(10) 'Nonstructural interior construction' means the construction of elements which do not include a load-bearing wall, a load-bearing column, or other load-bearing elements of a building essential to the structural integrity of the building.

(11) 'Practice of architecture' means the rendering of or offer to render the following services in connection with the design, construction, enlargement, or alteration of a building or group of buildings and the space within and surrounding such buildings, which may have human occupancy or habitation: planning, providing preliminary studies, designs, drawings, specifications, and other technical submissions; the architectural administering of construction contracts; and coordinating elements of technical submissions prepared by others including, as appropriate and without limitation, consulting engineers, registered interior designers, and landscape architects. As part of the practice of architecture, a registered architect may perform such engineering work as is incidental to his or her work. Nothing in this paragraph shall be construed to prohibit a licensed engineer from coordinating technical submittals related to the practice of engineering. Nothing in this paragraph shall be construed to prohibit a registered interior designer from coordinating submittals related to the practice of interior design.

(9)(12) 'Registration' means the certificate of registration issued by the board.

(7)(13) 'Registered architect' means a person who is technically and legally qualified and currently registered with the board to practice architecture in the State of Georgia.

(8)(14) 'Registered interior designer' means a person who is registered under Article 2 of this chapter as being qualified by education, experience, and examination to use the title 'registered interior designer' in the State of Georgia and as further defined in Code Section 43-4-30. Nothing in this paragraph or in this article shall be construed as prohibiting or restricting the practice or activities of an interior decorator or individual offering interior decorating services, including, but not limited to, selection of surface materials, window treatments, wall coverings, paints, floor coverings, and lighting fixtures.

(10)(15) 'Responsible control' means the amount of control over and detailed knowledge of the content of technical submissions during their preparation as is ordinarily exercised by registered architects or licensed professionals applying the required professional standard of care, as defined by rules and regulations adopted by the board.

(a) In order to safeguard health, safety, and welfare, no person shall be allowed to practice architecture unless he or she has the qualifications and competency required by this article. Any person who is practicing architecture as defined in paragraph (6)(11) of Code Section 43-4-1 shall be required to register under this article and to secure all renewals of such registration before beginning or continuing to practice architecture.

(b) The Construction documents for the following structures do not require the seal of a registered architect:

1. One and two-family residences and domestic outbuildings regardless of cost;
2. Any building classified as an agricultural occupancy upon any farm for the use of any farmer; any state owned farmer's market;

The Honorable Howard Maxwell
State Representative
State Capitol, Room 402

SUBJECT: State Auditor’s Certification
Substitute to House Bill 969
(LC 21 0588S)

Dear Representative Maxwell:

This substitute bill would amend general provisions within Title 47 of the Official Code of Georgia Annotated relative to all public retirement systems. This bill would also amend provisions relating to definitions, employee contributions, and retirement eligibility under the Teachers Retirement System. These revisions are intended to ensure
that provisions within Title 47 are in compliance with requirements outlined in the Federal Internal Revenue Code. Specifically, this legislation would:

- Authorize the payment of death benefits if a member of a retirement system dies while performing qualified military service;
- Clarify provisions regarding the distribution of benefits for persons who have reached the age of 70 1/2;
- Specify that earnable compensation for members of the Teachers Retirement System will include deferral contributions as defined by the Internal Revenue Code;
- Clarify the definition of “plan year” for the Teachers Retirement System;
- Stipulate that “pick-up” contributions paid by employers as pre-tax employee contributions must be paid as retirement contributions that are 100% vested and cannot be received by the members in cash; and
- Require the employer to certify the retirement date for a member of the Teachers Retirement System and to certify that no agreement exists to allow the employee to return to service.

This substitute bill would also amend other provisions within the Teachers Retirement System. Specifically, this bill would require members who wish to purchase additional creditable service to file their application and make their payment at the same time that they file their application for retirement. Currently, members of the Teachers Retirement System are authorized to apply for the additional creditable service in advance of a pending retirement. By enacting this legislation, the System would avoid the need to recalculate a new cost for the member at the time of retirement. Additionally, this bill would make technical corrections to ensure that 60 is the age reported as the normal retirement age in all sections of the Code that directly refer to the Teachers Retirement System.

Finally, this substitute bill would amend provisions relating to the return to service of retired members under the Public School Employees Retirement System. Currently, if a retired member returns to service before they have reached normal retirement age, the benefits being paid to the member will cease and the member must reestablish active membership. However, current provisions do not specifically address retired members who return to service after reaching normal retirement age. This legislation would clarify that such retired members have the option to continue receiving benefits and receive no additional creditable service or to discontinue receiving benefits and reestablish active membership in the System. Furthermore, this legislation would require employers who employ retired members who have reached normal retirement age to notify the Board of Trustees of the option selected.

This is to certify that this substitute bill is a nonfiscal retirement bill as defined in the Public Retirement Systems Standards Law.
Respectfully,

/s/ Russell W. Hinton
State Auditor

The following bill was taken up to consider House action thereto:

SB 56. By Senators Butler of the 55th, Seay of the 34th, Adelman of the 42nd, Brown of the 26th, Reed of the 35th and others:

A BILL to be entitled an Act to amend Chapter 3 of Title 35 of the Official Code of Georgia Annotated, relating to the Georgia Bureau of Investigation, so as to establish the Georgia StopMeth Log for electronically recording the identity of those individuals purchasing certain medications used for the production of methamphetamine, including pseudoephedrine; to provide a statement of purpose; to provide for definitions; to provide for a misdemeanor penalty for noncompliance; to provide for related matters; to repeal conflicting laws; and for other purposes.

The House substitute was as follows:

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 3 of Title 35 of the Official Code of Georgia Annotated, relating to the Georgia Bureau of Investigation, so as to establish the Georgia StopMeth Log for electronically recording the identity of those individuals purchasing certain medications used for the production of methamphetamine, including pseudoephedrine; to provide a statement of purpose; to provide for definitions; to provide for a misdemeanor penalty for noncompliance; to amend Article 5 of Chapter 4 of Title 26 of the Official Code of Georgia Annotated, relating to prescription drugs, so as to limit a pharmacist from substituting a drug as part of immunosuppressive therapy or a drug prescribed for the treatment of epilepsy; to provide for related matters; to repeal conflicting laws; and for other purposes.
The purpose of this Act is to reduce and prevent the operation of clandestine methamphetamine laboratories and the contamination of private property by such laboratories in Georgia. At this time, the state does not have a centralized real-time electronic logbook able to record purchases of products containing ephedrine, pseudoephedrine, and phenylpropanolamine. The failure to have such a centralized electronic data base permits and encourages criminals to illegally purchase large quantities of such products for the production of methamphetamine by going from store to store, and, sometimes, from state to state. Georgia law enforcement officials need this critical tool to combat methamphetamine production. Other states have adopted similar measures, thereby encouraging methamphetamine producers to relocate to states, such as Georgia, that are unable to track their unlawful activities. Immediate action is needed by the General Assembly to protect Georgia's citizens, especially Georgia's children, from the increasing harm caused by methamphetamine producers.

Chapter 3 of Title 35 of the Official Code of Georgia Annotated, relating to the Georgia Bureau of Investigation, is amended by adding a new article to read as follows:

"ARTICLE 2A

35-3-50. As used in this article, the term:
(1) 'Pharmacy or retailer' shall mean any place or business authorized to make retail sales of products containing ephedrine, pseudoephedrine, or phenylpropanolamine to consumers.
(2) 'StopMeth Log' shall mean Georgia's real-time electronic logbook system maintained by the Georgia Bureau of Investigation for the purpose of recording information relating to the purchase of products containing ephedrine, pseudoephedrine, or phenylpropanolamine and for monitoring such information for the prevention of illegal purchases of such products.

35-3-51. (a) To the extent funds are available, the Georgia Bureau of Investigation is authorized to establish the StopMeth Log and may utilize any federal, state, or other grant funds available or donations of funds or property for purposes relating to the initiation, implementation, and operation of the electronic log.
(b) Where the Georgia Bureau of Investigation has provided access to the StopMeth Log by making the system available through the Internet, a pharmacy or retailer shall be required to enter into the StopMeth Log information pertaining to each transaction involving the sale of a product containing ephedrine, pseudoephedrine, or
phenylpropanolamine as required by this article. Information to be entered on the StopMeth Log shall include the full name, address, and date of birth of the purchaser, the date of purchase, the quantity purchased or attempted to be purchased, and such other Information as required by the Georgia Bureau of Investigation.

(c) A person purchasing, receiving, or otherwise acquiring or attempting to acquire a product containing ephedrine, pseudoephedrine, or phenylpropanolamine shall be required to produce current, valid photographic identification of such purchaser and sign a written or electronic log or receipt that documents the date of the transaction, the full name, address, and date of birth of the person, and the quantity of ephedrine, pseudoephedrine, or phenylpropanolamine purchased, received, or otherwise acquired or attempted to be acquired. No person shall purchase or attempt to purchase an amount of ephedrine, pseudoephedrine, or phenylpropanolamine in violation of state or federal law.

(d) A person who violates any provision of this Code section shall upon conviction be guilty of a misdemeanor. Each separate purchase or attempted purchase made in violation of this statute shall constitute a separate offense. Each transaction where records are not generated or maintained shall constitute a separate offense. An offense created by this Code section shall not merge with any other charge or offense.

35-3-52.

(a) To the extent funds are available, the Georgia Bureau of Investigation shall make the StopMeth Log available through the Internet to pharmacies and retailers in this state. The Georgia Bureau of Investigation may conduct pilot projects or designate areas of operation which include less than all areas of this state.

(b) The StopMeth Log shall have the capability to calculate both state and federal ephedrine, pseudoephedrine, or phenylpropanolamine purchase limitations, to match similar identification information, and to alert pharmacies and retailers of potential illegal purchases. Except as authorized by this article, the Georgia Bureau of Investigation shall not disclose any information entered, collected, recorded, transmitted, or maintained on the StopMeth Log.

(c) The Georgia Bureau of Investigation shall provide Internet access to information maintained in the StopMeth Log to the following:

(1) Any person who is authorized to prescribe or dispense products containing ephedrine, pseudoephedrine, or phenylpropanolamine for the purpose of providing medical care or pharmaceutical care;

(2) Any local, state, or federal law enforcement official or a local, state, or federal prosecutor;

(3) A local, state, or federal official who requests access for the purpose of facilitating a product recall necessary for the protection of the public health and safety; and

(4) The State Board of Pharmacy for the purpose of investigating misconduct or a suspicious transaction committed by a pharmacy, an employee of a pharmacy, or pharmacist.
(d) The Georgia Bureau of Investigation shall promulgate rules necessary to implement the provisions of this article and to ensure that the StopMeth Log enables a pharmacy or retailer to monitor the sales of ephedrine, pseudoephedrine, or phenylpropanolamine occurring at a pharmacy or retailer. The Georgia Bureau of Investigation shall prescribe the manner in which a pharmacy or retailer shall enter the information required by the bureau under this article. Records maintained within the StopMeth Log may be destroyed at such time as the Georgia Bureau of Investigation determines is appropriate but not sooner than three years from the date of the entry of such record."

SECTION 2A.
Article 5 of Chapter 4 of Title 26 of the Official Code of Georgia Annotated, relating to prescription drugs, is amended by adding a new Code section to read as follows:
"26-4-81.1.
(a) A pharmacist shall not engage in drug product selection or substitution of any primary immunosuppressant pharmaceutical that is prescribed as a part of immunosuppressive therapy for a patient who has received an organ or tissue transplant without first notifying the patient or his or her designee. The pharmacist shall notify the prescribing physician prior to the substitution by means of phone, facsimile, or electronic transmission. The prescribing physician shall indicate on the prescription the diagnosis 'for organ or tissue transplant patient.'
(b) A pharmacist shall not engage in drug product selection or substitution of any drug prescribed for the treatment of epilepsy or to treat and prevent seizures that is prescribed as a part of the treatment for epilepsy or seizures. The pharmacist shall notify the prescribing physician prior to the substitution by means of phone, facsimile, or electronic transmission. The prescribing physician shall indicate on the prescription the diagnosis 'for epilepsy' or 'for seizures.'"

SECTION 3.

SUBJECT: State Auditor’s Certification
House Bill 916 (LC 21 0517)

Dear Representative Maxwell:

This bill would amend provisions relating to retirement and eligibility for a retirement allowance under the Employees’ Retirement System. Specifically, this bill would clarify that retired state employees may not return to service, including service as an independent contractor, during the two calendar months following the effective date of retirement. If a retired employee returns to service during such time, the application for retirement will be nullified. Additionally, this legislation would specify that a retired employee who has reached normal retirement age may return to service at any time if they work as an independent contractor for another company. The employing agency would be required to certify that the contractual relationship with the company was not created to allow a retired employee to continue employment in a similar position to the one he or she held before retirement.

This is to certify that this bill is a nonfiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

/s/ Russell W. Hinton
State Auditor

Senate Sponsor: Senator Weber of the 40th.
The Senate Education and Youth Committee offered the following substitute to HB 908:

A BILL TO BE ENTITLED
AN ACT

To amend Article 6 of Chapter 2 of Title 20 of the Official Code of Georgia Annotated, relating to the "Quality Basic Education Act," so as to temporarily waive certain expenditure controls relating to funds earned for direct instructional costs, media center costs, staff and professional development costs, and additional days of instruction; to provide for automatic repeal; to provide for financial exigencies relating to school year requirements; to temporarily provide for system average maximum class sizes in kindergarten through grade 8; to provide for blanket waivers or variances of class size requirements; to provide for related matters; to provide for an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.
Article 6 of Chapter 2 of Title 20 of the Official Code of Georgia Annotated, relating to the "Quality Basic Education Act," is amended by revising Code Section 20-2-167, relating to funding for direct instructional, media center, and staff development costs, by adding a new subsection to read as follows:

"(f)(1) For school years 2009-2010, 2010-2011, 2011-2012, and 2012-2013 only, the expenditure controls contained in subsection (a) of this Code section relating to direct instructional costs, media center costs, and staff and professional development costs shall be waived and shall not apply to nor be enforceable against a local school system.
(2) Each local school system shall report to the Department of Education its budgets and expenditures of the funds received pursuant to this Code section as a part of its report in October for the FTE count and on March 15.
(3) No penalty shall be applied to a local school system for failure to comply with expenditure controls set out in subsection (a) of this Code section, notwithstanding any law to the contrary, as long as such local school system complies with this subsection.
(4) Nothing in this Code section shall be construed to repeal any other provision of this Code section or this chapter.
(5) This subsection shall be automatically repealed on July 1, 2013."

SECTION 2.
Said article is further amended by revising subsection (c) of Code Section 20-2-168, relating to the minimum school year, as follows:

"(c)(1) Except as otherwise provided in this Code section, public elementary and secondary schools of this state receiving state aid under this article may provide each
eligible student with access to no less than 180 school days of education each fiscal year, or the equivalent thereof as determined in accordance with State Board of Education guidelines. The State Board of Education shall define a school year, which shall be no less than 180 days of instruction in accordance with the provisions of this subsection, or the equivalent thereof, and shall define the length of the school day, based on a 180 day school year, and equivalent lengths; provided, however, that for school years 2010-2011, 2011-2012, and 2012-2013 only, a local board of education may, upon notice to the state board but without the necessity of authorization from the state board, elect not to complete up to ten days of its school year, including any combination of planning days and up to five instructional days in the event that a condition of financial exigency occurs, as determined by the local board. The State Board of Education shall provide that all public elementary and secondary schools, beginning in the 2010-2011 school year, may be closed for instruction on November 11 of each year to enable students, teachers, and administrators to participate in Veterans Day programs to honor veterans of the armed forces.

(2) Any provision of this subsection or this article to the contrary notwithstanding, when the President of the United States proclaims a national emergency or when the Governor proclaims a state of emergency or when, because of emergency, disaster, act of God, civil disturbance, or a shortage of vital and critical material, supplies, or fuel, the continued operation of the public schools according to the definitions of school year, school month, or school day is impractical or impossible, then the state board shall have the power to authorize local boards of education to depart from a strict interpretation of these definitions, and such departure need not be uniform throughout the state.

(3) A local board of education may, without the necessity of authorization from the state board, elect not to complete, as make-up days, up to four additional days otherwise needed which are the result of days when school was closed due to emergency, disaster, act of God, civil disturbance, or shortage of vital or critical material, supplies, or fuel. In any such case, the school year applicable to that local board of education may terminate, in the discretion of the local board, at the end of the last school day originally designated by the local board as the end of the school year, regardless of the day of the week on which the school calendar was scheduled to end. The provisions of this paragraph shall not limit the authority of the state board under paragraph (2) of this subsection.

(4) Each fiscal year shall begin on July 1 and end on June 30 of the following year.

(5) For purposes of this subsection, the term:
(A) 'Disaster' means any happening that causes great harm or damage.
(B) 'Emergency' means a sudden, generally unexpected occurrence or set of circumstances demanding immediate action.
(C) 'Financial exigency' means circumstances which cause a shortfall in state appropriations and local revenue for operation of local school systems as compared with projected expenditures over the same period and such shortfall would have a material adverse effect on the operation of public schools.
SECTION 3.

Said article is further amended by revising subsection (i) of Code Section 20-2-182, relating to maximum class size, as follows:

"(i)(1) It is the intent of this paragraph to provide a clear expectation to parents and guardians as to the maximum number of students that may be in their child's classroom in kindergarten through eighth grade. Beginning with the 2006-2007 school year, for the following regular education programs, the maximum individual class size for mathematics, science, social studies, and language arts classes shall be:

(A) Kindergarten program (without full-time aide) .................... 18
(B) Kindergarten program (with full-time aide) ..................... 20
(C) Primary grades program (1-3) ................................. 21
(D) Upper elementary grades program (4-5) ................... 28
(E) Middle grades program (6-8) and middle school program (6-8) as defined in Code Section 20-2-290 .............................. 28

For school years 2010-2011, 2011-2012, and 2012-2013 only, the system average maximum class size for each instructional program covered under this paragraph shall be the same as the maximum individual class size for each such program, and local boards of education shall be considered in compliance with this paragraph as long as the system average maximum class size is not exceeded; provided, however, that if the State Board of Education approves a blanket waiver or variance pursuant to subsection (h) of Code Section 20-2-244, such maximum individual class sizes shall be the system average maximum class sizes for purposes of this paragraph.

(2) The State Board of Education shall adopt for each instructional program authorized pursuant to Part 3 of this article except those programs included in paragraph (1) of this subsection the maximum number of students which may be taught by a teacher in an instructional period. For the remedial education, vocational laboratory, alternative education, and early intervention programs, the State Board of Education shall provide for a system average maximum class size that shall not exceed the funding class size by more than 20 percent, unless specifically authorized by the State Board of Education; provided, however, that the system average maximum class size for special education, gifted, and English for speakers of other languages classes shall be set by the State Board of Education. For each instructional program covered under this paragraph, the maximum number of students who may be taught by a teacher in an instructional period shall not exceed the system average maximum class size for the program by more than two students; provided, however, that a system average maximum class size which results in a fractional full-time equivalent shall be rounded up to the nearest whole number; provided, however, that this provision shall not apply to general education programs in mathematics, science, social studies, and language arts for grades 9 through 12. Beginning with the 2007-2008 school year, each local board of education shall be allowed to exceed maximum
class sizes set by the state board pursuant to this paragraph for general education
programs in mathematics, science, social studies, and language arts for grades 9
through 12 and may establish such maximum class sizes that shall not exceed the
funding class size by more than 39 percent and shall annually report to the state board
and to each school council in its school system such class sizes established. For a
period not to exceed seven years, beginning with the 2000-2001 school year, local
school systems shall be allowed to exceed the maximum class sizes set forth in this
subsection in a manner consistent with State Board of Education rules and subsection
(k) of this Code section, except for those programs included in paragraph (1) of this
subsection beginning with the 2006-2007 school year. The State Board of Education
shall lower the current maximum class sizes set by state board rules in effect for the
1999-2000 school year, beginning with the 2000-2001 school year, by an amount so
that, beginning with the 2007-2008 school year, State Board of Education rules are in
compliance with this subsection; provided, however, that this shall not apply to the
programs included in paragraph (1) of this subsection beginning with the 2006-2007
school year.

(3) The maximum individual class size for the kindergarten and primary grades
programs is defined as the number of students in a physical classroom. The
maximum individual class size for all other purposes shall be defined as the maximum
number of students that may be taught by a teacher in a class segment. Maximum
class sizes for the programs covered in paragraph (2) of this subsection that result in a
fractional full-time equivalent shall be rounded up to the nearest whole number as
needed.

(4) The number of students taught by a teacher at any time after the first 15 school
days of a school year may not exceed the maximum such number unless authorization
for a specific larger number is requested of the state board after the first FTE count of
a school year as required in subsection (a) of Code Section 20-2-160. The state board
may approve said request only in the limited circumstance where educationally
justified and where an act of God or other unforeseen event led to the precipitous rise
in enrollment within that school system or led to another occurrence which resulted in
the local board's inability to comply with this subsection. The state board shall not
reduce class sizes without the authorization of the General Assembly if this reduction
necessitates added costs for facilities, personnel, and other program needs. Local
boards of education may reduce class sizes, build additional facilities, and provide
other resources at local cost if such actions are in the best interest of the local school
systems' programs as determined by the local boards of education.

SECTION 4.
Said article is further amended by revising Code Section 20-2-184.1, relating to funding
for additional days of instruction, as follows:
"20-2-184.1.
(a) The program weights for the kindergarten, kindergarten early intervention, primary,
primary grades early intervention, upper elementary, upper elementary grades early
intervention, middle grades, middle school, and remedial programs and the program weights for the high school programs authorized pursuant to paragraph (4) of subsection (b) of Code Section 20-2-151, when multiplied by the base amount, shall reflect sufficient funds to pay the beginning salaries for instructors needed to provide 20 additional days of instruction for 10 percent of the full-time equivalent count of the respective program. Such funds shall be used for addressing the academic needs of low-performing students with programs including, but not limited to, instructional opportunities for students beyond the regular school day, Saturday classes, intersession classes, and summer school classes. Following the midterm adjustment, the state board shall issue allotment sheets for each local school system. Each local school system shall spend 100 percent of the funds designated for additional days of instruction for such costs at the system level. Up to 15 percent of funds designated for additional days of instruction may be spent for transportation costs incurred for transporting students who are attending the additional classes funded by these designated funds.

(b)(1) For school years 2010-2011, 2011-2012, and 2012-2013 only, the expenditure controls contained in subsection (a) of this Code section relating to additional days of instruction shall be waived and shall not apply to nor be enforceable against a local school system.

(2) Each local school system shall report to the Department of Education its budgets and expenditures of the funds received pursuant to this Code section as a part of its report in October for the FTE count and its report on March 15.

(3) No penalty shall be applied to a local school system for failure to comply with expenditure controls set out in subsection (a) of this Code section, notwithstanding any law to the contrary, as long as such local school system complies with this subsection.

(4) Nothing in this Code section shall be construed to repeal any other provision of this Code section or this chapter.

(5) This subsection shall be automatically repealed on July 1, 2013."

SECTION 5.

Said article is further amended by revising subsection (g) and adding a new subsection to Code Section 20-2-244, relating to maximum class size, as follows:

"(g) On and after July 1, 2008, except as provided for in subsection (h) of this Code section, the State Board of Education shall not authorize any waivers or variances pursuant to this Code section to any local school system for the following:

(1) Class size requirements in Code Section 20-2-182; provided, however, that the state board shall be authorized to waive class size requirements pursuant to this Code section on and after July 1, 2008, in the event that a local school system can demonstrate a hardship pursuant to a waiver request;

(2) Expenditure controls in Code Section 20-2-171 and categorical allotment requirements in Article 6 of this chapter;

(3) Certification requirements in Code Section 20-2-200; or

(4) Salary schedule requirements in Code Section 20-2-212.
A local school system which has received a waiver or variance pursuant to this Code section prior to entering into a contract pursuant to Article 4 of this chapter shall be required to include such waiver or variance in such contract.

(h) The State Board of Education shall be authorized to provide a blanket waiver or variance of the class size requirements in Code Section 20-2-182 for all local school systems for a specified school year in the event that a condition of financial exigency occurs, as determined by the state board. For purposes of this subsection, 'financial exigency' means circumstances which cause a shortfall in state appropriations and local revenue for operation of local school systems as compared with projected expenditures over the same period and such shortfall would have a material adverse effect on the operation of public schools. Subsections (c) and (f) of this Code section shall not apply to blanket waivers or variances issued pursuant to this subsection."

SECTION 6.
This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 7.
All laws and parts of laws in conflict with this Act are repealed.

SUBJECT: Fiscal Note
House Bill 1023 Substitute
(LC 18 8944S)

Dear Chairman O’Neal:

The Georgia State University Fiscal Research Center provided the following narrative on the revenue impact of this bill:
This legislation consists of multiple sections that will affect revenues. Sections 2, 3, and 4 would temporarily suspend collections of certain fees for filings with the Secretary of State related to businesses. Section 5 would provide a credit to employers who hire workers that were unemployed and receiving unemployment insurance benefits. This credit would be against the employer’s unemployment insurance tax obligations. Sections 6 and 7 would exclude from taxable income 50% of long-term capital gains income. This section would only become effective after the state’s revenue shortfall reserve has reached $500 million. Section 8 would provide a tax credit for employers that employ workers who were unemployed for at least thirteen weeks immediately prior to becoming employed, remain so employed by the employer for at least 24 consecutive months and during the entire period of such employment receive average monthly compensation at least equal to 180% of the poverty level. Section 9 creates an angel investor tax credit program. Section 10 would eliminate the corporate net worth tax.

Sections 2, 3 and 4
Sections 2, 3 and 4 would suspend collection of filing fees required of domestic corporations, limited partnerships or limited liability companies that are newly formed or first doing business in Georgia provided they file on-line. This suspension would take effect July 1, 2010, and end on June 30, 2011. Based on FY 2009 filing activity levels, this suspension would reduce revenues by $5.2 million.

Section 5
Section 5 would create a credit against employer’s unemployment insurance tax obligations. The credit would be for employees who were first employed on or after July 1, 2010, were eligible for and receiving unemployment benefits immediately prior to being employed, have been profiled by the Department of Labor as likely to exhaust benefits, and have at least eight weeks of benefits remaining. The credit can be claimed for four quarters. The credit amount is between $25 and $125 per quarter. The Commissioner is to periodically determine the appropriate credit. The credit will be in place permanently.

A variety of data were used to estimate the impact of this legislation. These include:
- Estimates of hiring rates, quit rates and total separations rates for the South region. These account for expected labor market activity without any impact from the proposed credit.
- Georgia non-farm employment.
- Georgia unemployment level and duration of unemployment based on U.S. unemployment.
- Georgia labor force estimates.
- Estimates of the incentive impact of the proposed credit on hiring rates.

Thus, this analysis first accounts for the continual churn in the labor market. On a monthly basis, the dynamics of the labor market are substantial. A significant number of
workers are hired each month, quit each month or are laid off each month. The analysis uses this data to estimate the number of workers that are hired each month that meet the eligibility standards of the credit and extrapolates this to a final number that would still be employed by the original employer at the end of each quarter for the four quarters after hiring. These workers would be expected to be hired without the incentive. Finally, the incentive effect of the proposed credit is measured.

Since the incentive effect leads to hiring of workers that would not occur without the credit, the hiring of these workers reduces payments from the unemployment insurance fund and generates income tax revenue from the incomes of these added workers and sales tax revenues from the additional spending of these workers. The table below summarizes the expected reduction in unemployment insurance due to the credit for the range of credit values specified in the legislation.

Sections 6 and 7
Sections 6 and 7 would exclude 50% of long-term capital gains from corporate and individual income tax. Currently, long-term capital gains are fully taxed and taxed at the taxpayer’s marginal tax rate. This provision would not take effect until the tax year beginning on January 1 of the calendar year immediately following the year in which the Revenue Shortfall Reserve (RSR) is funded at the level of $500 million. For tax year 2007, the Department of Revenue processed individual and corporate federal return information to estimate the taxes paid on long-term capital gains by Georgia taxpayers. This estimate is $895.0 million.
Since 2007, financial asset prices have fallen sharply but recovered somewhat and real estate asset values have declined. Thus, capital gains income is likely lower than in 2007. The Congressional Budget Office has estimated capital gains realizations for 2008 and 2009 and forecasted future values into the future. Assuming that Georgia capital gains mirror that of the U.S., the table below summarizes expected income tax revenue from capital gains for 2007 – 2015. It is unknown when the RSR will reach the threshold value to trigger the exclusion. Once the trigger date is known, it is likely that asset owners will time sales of capital gains to defer such gains until after the exclusion becomes effective.

**Section 8**

Section 8 would create an income tax credit for employers that hire one or more creditable employees. The credit amount is $2,400 per qualified employee. Creditable employees are defined to have been hired after the effective date of the legislation but prior to July 1, 2011, were unemployed for 13 or more weeks immediately prior to being employed, remain employed for 24 consecutive months, and receive monthly compensation at least equal to 180% of the poverty level. To earn the credit, the employer must increase employment and maintain that higher level for 24 months. This reduces the amount of the on-going employment churn that could be eligible for the job credit.

Assuming that the legislation is effective July 1, 2010, the earliest that a worker can complete 24 months of employment is June 2012. Thus, no credits could be earned prior to July 2012 which is the start of FY 2013. Similarly, all credits would be earned by the end of FY 2013.

This section replicates the analysis of Section 5 but with specific labor market parameters specified in this section. First, the level of net new hiring of workers that would be eligible for the credit is estimated assuming the credit is not in place. Next the incentive effect of the credit is measured. One issue is that 180% of poverty is the wage standard
for a job qualifying for the credit. However, 180% of poverty depends upon the number of persons in a household. For a single person household, the 180% of poverty is just over $20,000. For a household of four, this rises to over $39,000.

There are several factors that suggest that the incentive effect will be small. First, the credit (as a percent of two years of wages) is about 3% of wages for a $40,000 a year job. Second, the credit is deferred for two years; thus employers would have to hire additional workers now for an incentive that isn’t paid for two years. Third, earning the credit is uncertain since the credit is earned only if the worker stays for two full years. Given the dynamics of the labor market, a significant number of workers would be expected to leave before the credit is earned, particularly if the labor market improves.

The elasticity impact is assumed to be 1.0%. The elasticity impact measures the additional workers hired solely due to the tax credit as a percent of total new hiring for qualified jobs. The table below summarizes the credit costs for FY 2013. Note that these are credits available. It may be that some firms whose hiring is eligible will not take advantage of the credit or may not have sufficient income to claim the credit.

The workers hired solely due to the incentive will pay income tax and sales tax with the income that they earn that would not have been earned without the tax credit. The table below summarizes the additional income and sales tax revenues paid by these workers. This revenue flow starts when the worker is hired. It is expected that the spending from these additional hires will generate additional economic activity.

Section 9

Section 9 creates a tax credit for qualified investors that invest in qualified businesses. The legislation defines a qualified business as one domiciled in Georgia, employing 20 or fewer employees, with gross annual sales in any year of less than $500,000, obtaining not more than $1 million in aggregate gross cash proceeds from the issuance of equity or debt instruments, and having a net worth of $3 million or less. Qualified investors can be certain pass-through entities. A qualified investor cannot be a venture capital fund, a hedge fund or a commodity fund with institutional investors.
In general, the legislation allows qualified investors a tax credit against their individual income tax liability in the second year following the year the investment was made. Certain pass through investors are allowed a tax credit against their individual income tax liability for qualified investments for the tax year in which the investment was made and the two following tax years. A pass through entity with an excess of $5 million in committed capital assets or a pass through entity that is a qualified Georgia business is not eligible for the tax credits. No credit is allowed in excess of a taxpayer’s tax liability and unused credits cannot be carried forward. The aggregate amount of credit allowed to an individual for one or more qualified investments cannot exceed $50,000 per tax year or an amount equal to 50 percent of the aggregate amount of such investments in a single year. The total aggregate amount of tax credits allowed by all taxpayers may not exceed $10 million per year. No tax credit shall be allowed for any investments made after calendar year 2014 and no tax credits shall be claimed after calendar year 2016.

There is limited data on angel investment activity. Using national data on angel investment activity and state data on the percent of national venture capital investments in Georgia companies, of the estimated $18 billion in angel investments for 2009, 1.9 percent or $351 million was invested in Georgia companies and of the $19 billion of angel investments in 2008, $371 million is estimated to have been invested in Georgia companies. It is not known whether all these investments would be considered qualified investments but, in general, angel investments meet the criteria outlined in the legislation. In addition, there exist at least 4 angel investor groups or networks already established in Georgia. Therefore, it is conceivable that the $10 million cap could be met in any given year. Thus, the fiscal impact of this legislation is estimated to be $10 million, annually. If the $10 million cap is eliminated or increased, the fiscal impact of this legislation is anticipated to increase.

Section 10
Section 10 would eliminate the corporate net worth tax effective January 1, 2011. The annual revenue from this tax has averaged $33.6 million per year over the last three fiscal years. It is assumed that the annual loss will equal $33.6 million per fiscal year. The net worth tax is paid and determined in conjunction with the corporation’s annual tax return. Since corporate return dates are determined by the corporation’s fiscal year, it is assumed that net worth taxes will be proportional across the fiscal year. FY 2011 will incur a loss of approximately half that amount since the provision takes effect mid-year.

Sincerely,

(b) The General Assembly intends through the enactment of this Act, during this time of economic decline, to stimulate the state's economy overall by providing for tax relief, encouraging employment opportunities and business stimulation, and providing revenue support for hospitals and nonprofit health care clinics.

SECTION 2.

Chapter 8 of Title 31 of the Official Code of Georgia Annotated, relating to the care and protection of indigent and elderly patients, is amended by adding a new article to read as follows:

"ARTICLE 6C

31-8-179.

(1) 'Department' means the Department of Revenue.
(2) 'Hospital' means an institution licensed pursuant to Chapter 7 of this title which is primarily engaged in providing to inpatients, by or under the supervision of physicians, diagnostic services and therapeutic services for medical diagnosis, treatment, and care of injured, disabled, or sick persons or rehabilitation services for the rehabilitation of injured, disabled, or sick persons. Such term includes public, private, rehabilitative, geriatric, osteopathic, and other specialty hospitals but shall not include psychiatric hospitals as defined in paragraph (7) of Code Section 37-3-1, critical access hospitals as defined in paragraph (3) of Code Section 33-21A-2, or any state owned or state operated hospitals.
(3) 'Net patient revenue' means the total gross patient revenue of a hospital less contractual adjustments; charity care; bad debt; Hill-Burton commitments; and indigent care as defined by and calculated in the Department of Community Health's annual hospital financial survey.
(4) 'Provider payment' means the payment imposed pursuant to this article for the privilege of operating a hospital.
(5) 'Segregated account' means an account for the dedication and deposit of provider payments which is established within the Indigent Care Trust Fund created pursuant to Code Section 31-8-152.
(6) 'Trust fund' means the Indigent Care Trust Fund created pursuant to Code Section 31-8-152.

31-8-179.2.
There is established within the trust fund a segregated account for revenues raised through the imposition of the provider payment. All revenues raised through provider payments from hospitals shall be credited to the segregated account within the trust
fund. All funds shall be invested in the same manner as authorized for investing other moneys in the state treasury. Contributions and transfers to the trust fund pursuant to Code Sections 31-8-153 and 31-8-153.1 shall not be deposited into the segregated account.

31-8-179.3.
(a) Each hospital shall be assessed a provider payment, assessed uniformly upon all hospitals, in the amount of 1.45 percent of the net patient revenue of the hospital; provided, however, that hospitals with a designated trauma center, as defined in paragraph (1) of Code Section 31-11-100, shall be assessed a provider payment in the amount of 1.38 percent of the net patient revenue of the hospital.
(b) The provider payment shall be paid quarterly by each hospital to the department. The assessment shall be based on the Department of Community Health's annual hospital financial survey. Payment of the provider payment shall be due at end of each calendar quarter; the first payment shall be due on September 30.
(c) The amount of provider payment paid by a hospital under this article shall be credited by the Department of Community Health toward any indigent or charity care commitment imposed by the Department of Community Health on such hospital as a condition of the grant of a certificate of need pursuant to subsection (c) of Code Section 31-6-40.1 and reported pursuant to Code Section 31-6-70.

31-8-179.4.
(a) The department shall collect the provider payments imposed pursuant to Code Section 31-8-179.3. All revenues raised pursuant to this article shall be deposited into the segregated account. Such funds shall be dedicated and used for the sole purpose of obtaining federal financial participation for medical assistance payments to providers on behalf of Medicaid recipients pursuant to Article 7 of Chapter 4 of Title 49.
(b) The department shall prepare and distribute a form upon which each hospital shall submit information to comply with this article.
(c) Each hospital shall keep and preserve for a period of three years such books and records as may be necessary to determine the amount for which it is liable under this article. The department shall have the authority to inspect and copy the records of a hospital for purposes of auditing the calculation of the provider payment. All information obtained by the department pursuant to this article shall be confidential and shall not constitute a public record.
(d) In the event the department determines that a hospital has underpaid or overpaid the provider payment, the department shall notify the hospital of the balance of the provider payment or refund that is due. Such payment or refund shall be due within 30 days of the department's notice.
(e) Any hospital that fails to pay the provider payment pursuant to this article within the time required by this article shall pay, in addition to the outstanding provider payment, a 6 percent penalty for each month or fraction thereof that the payment is overdue. If a provider payment has not been received by the department by the last day
of the month, the department shall recommend that the Department of Community
Health withhold an amount equal to the provider payment and penalty owed from any
medical assistance payment due such hospital under the Medicaid program. The
provider payment levied by this article shall constitute a debt due the state and may be
collected by civil action and the filing of tax liens in addition to such methods provided
for in this article. Any penalty that accrues pursuant to this subsection shall be credited
to the segregated account.

31-8-179.5.
(a) Notwithstanding any other provision of this chapter, the General Assembly is
authorized to appropriate as state funds to the Department of Community Health for use
in any fiscal year all revenues dedicated and deposited into the segregated account.
Such appropriations shall be made for the sole purpose of obtaining federal financial
participation for medical assistance payments to providers on behalf of Medicaid
recipients pursuant to Article 7 of Chapter 4 of Title 49. Any appropriation from the
segregated account for any purpose other than such medical assistance payments shall
be void.
(b) Revenues appropriated to the Department of Community Health pursuant to this
Code section shall be used to match federal funds that are available for the purpose for
which such trust funds have been appropriated.
(c) Appropriations from the segregated account to the Department of Community
Health shall not lapse to the general fund at the end of the fiscal year.

31-8-179.6.
The Department of Community Health shall report annually to the General Assembly
on its use of revenues deposited into the segregated account and appropriated to the
Department of Community Health pursuant to this article.

31-8-179.7.
Except where inconsistent with this article, the provisions of Article 7 of Chapter 4 of
Title 49, the 'Georgia Medical Assistance Act of 1977,' shall apply to the department
and the Department of Community Health in carrying out the purposes of this article.

31-8-179.8.
This article shall stand repealed on June 30, 2013."

SECTION 3.
Title 34 of the Official Code of Georgia Annotated, relating to labor and industrial
relations, is amended by revising Code Section 34-8-156, relating to the State-wide
Reserve Ratio and reduction in tax rate, by adding a new subsection to read as follows:
"(g)(1) The Commissioner shall make an expedited request within 15 days of the
effective date of this Act for a determination by the United States secretary of labor
that implementation of paragraph (3) of this subsection is in conformity with federal
law. If the United States secretary of labor determines that paragraph (3) of this subsection is not in conformity with federal law and cannot be adjusted procedurally by the Commissioner pursuant to Code Section 34-8-93 pending action of the General Assembly to bring about conformity with federal law, paragraph (3) of this subsection shall not become effective. Upon such determination the Commissioner shall take all necessary steps to obtain a waiver of conformity with federal law from the United States secretary of labor. If such waiver is granted, paragraph (3) of this subsection shall become effective immediately upon the granting of the waiver. If the United States secretary of labor determines that paragraph (3) of this subsection could be implemented in conformity with federal law if procedurally adjusted by the Commissioner, the Commissioner shall exercise the authority granted under Code Section 34-8-93 to make such adjustments and paragraph (3) of this subsection shall become effective immediately following such adjustment. If the United States secretary of labor determines that paragraph (3) of this subsection is in conformity with federal law, paragraph (3) of this subsection shall become effective immediately upon such determination.

(2) In the event paragraph (3) of this subsection becomes effective, it shall not be implemented unless the Commissioner determines that the employer contribution and reimbursement liability shall not increase as a result of such implementation.

(3) If this paragraph becomes effective, for calendar quarters beginning on or after July 1, 2010, there shall be a credit to be known as the Georgia Works Tax Credit. The amount of the credit shall be not less than $25.00 and not more than $125.00 per individual employee per calendar quarter, as further described in this paragraph. The determination of the amount of the credit, within the permissible range, shall be made and periodically revised by the Commissioner based on the Commissioner's evaluation of conditions in the Georgia labor market, the state of the economy, and the State-wide Reserve Ratio. The credit may be claimed by an employer for up to four calendar quarters for each individual hired by that employer for services to be performed in this state under the following conditions:

(A) Such individual:
   (i) Has filed a claim for unemployment compensation in this state and is currently receiving weekly unemployment compensation benefits on that claim under the provisions of Article 7 of this chapter and such benefits are chargeable to the experience rating account of an employer under Code Section 34-8-157;
   (ii) Has been profiled by the department as likely to exhaust benefits;
   (iii) Has no return-to-work date or promise of future employment; and
   (iv) Has at least eight weeks of benefit eligibility remaining on his or her current claim at the time the employer hires the individual;

(B) The credit for each such hired individual per calendar quarter may be claimed on the reports required to be filed under Code Section 34-8-165 as a reduction from amounts otherwise due in each of the four calendar quarters immediately following the hire date of the individual; provided, however, that the credit may not be claimed for any individual who has been hired more than once by the employer.
claiming the credit or for more than four calendar quarters for that one hiring;
(C) For each calendar quarter for which the credit is claimed, such individual shall be continuously employed by the employer claiming the credit, and such individual's employment with that employer shall consist of at least 30 hours per week during each week of that calendar quarter;
(D) The credit shall be timely claimed for the calendar quarter to which the credit is applicable, and in no event later than the last day of the reporting month following the end of the calendar quarter to which the credit is applicable. The credit shall not be refundable. The credit cannot reduce tax liability below zero; provided, however, that the credit, if properly and timely claimed, may be carried forward and applied against contributions due in any subsequent calendar quarter in the same calendar year as claimed. Any unused credit remaining at the end of a calendar year shall not be carried forward to another calendar year and shall be deemed to have expired; and
(E) No credit shall be claimed or taken by any employer who fails to timely file any report or to timely pay all amounts otherwise due for all calendar quarters during the calendar year for which the credit is claimed. In the event an employer has claimed a credit under this Code section and fails to timely file any report or to timely pay all amounts otherwise due during the year the credit is claimed, the amount of any credits claimed for that calendar year shall be canceled and become delinquent as of the date originally due under Code Section 34-8-165 and subject to all the provisions of this article as if no credit had ever been available or claimed.

SECTION 4.
Title 48 of the Official Code of Georgia Annotated, the "Georgia Public Revenue Code," is amended in Code Section 48-7-21, relating to taxation of corporations, by adding at the end of subsection (b) a new paragraph (17) to read as follows:
"(17)(A) For the taxable year beginning on or after January 1 of the calendar year immediately following the state fiscal year in which the revenue shortfall reserve is funded at the level of $500 million or more as certified to the commissioner in writing by the state auditor, and prior to January 1 of the next succeeding taxable year, there shall be subtracted from taxable income an amount equal to 25 percent of the excess of the net long-term capital gain, over the net short-term capital loss included in Georgia taxable net income.
(B) For all taxable years beginning on or after January 1 of the taxable year next succeeding the taxable year specified in subparagraph (A) of this paragraph, there shall be subtracted from taxable income an amount equal to 50 percent of the excess of the net long-term capital gain, over the net short-term capital loss included in Georgia taxable net income.
(C) For purposes of this paragraph, the terms 'net long-term capital gain' and 'net short-term capital loss' shall mean the same as defined in Section 1222 of the Internal Revenue Code."
SECTION 5.
Said title is further amended in subsection (a) of Code Section 48-7-27, relating to computation of taxable net income of individuals, by deleting "and" at the end of paragraph (14); replacing the period at the end of paragraph (15) with "; and"; and adding a new paragraph (16) to read as follows:

"(16)(A) For the taxable year beginning on or after January 1 of the calendar year immediately following the state fiscal year in which the revenue shortfall reserve is funded at the level of $500 million or more as certified to the commissioner in writing by the state auditor, and prior to January 1 of the next succeeding taxable year, an amount equal to 25 percent of the excess of the net long-term capital gain, over the net short-term capital loss included in Georgia taxable net income.
(B) For all taxable years beginning on or after January 1 of the taxable year next succeeding the taxable year specified in subparagraph (A) of this paragraph, an amount equal to 50 percent of the excess of the net long-term capital gain, over the net short-term capital loss included in Georgia taxable net income.
(C) For purposes of this paragraph, the terms 'net long-term capital gain' and 'net short-term capital loss' shall mean the same as defined in Section 1222 of the Internal Revenue Code."

SECTION 6.
Said title is further amended by adding a new Code section to read as follows:

"48-7-40.29.
(a) The General Assembly finds that entrepreneurial businesses significantly contribute to the economy of the state. The intent of this Code section is to achieve the following:
(1) To encourage individual investors to invest in early stage, innovative, wealth-creating businesses;
(2) To enlarge the number of high quality, high paying jobs within the state both to attract qualified individuals to move to and work within this state and to retain young people educated in Georgia's universities and colleges;
(3) To expand the economy of Georgia by enlarging its base of wealth-creating businesses; and
(4) To support businesses seeking to commercialize technology invented in Georgia's universities and colleges.
(b) As used in this Code section, the term:
(1) 'Allowable credit' means the credit as it may be reduced pursuant to subparagraph (3) of subsection (i) of this Code section.
(2) 'Headquarters' means the principal central administrative office of a business located in this state which conducts significant operations of such business.

(4) 'Pass-through entity' means a partnership, an S-corporation, or a limited liability company taxed as a partnership.
(5) 'Professional services' means those services specified in paragraph (2) of Code
Section 14-7-2 or any service which requires as a condition precedent to the rendering of such service the obtaining of a license from a state licensing board pursuant to Title 43.

(6) 'Qualified business' means a registered business that:
   (A) Is either a corporation, limited liability company, or a general or limited partnership located in this state;
   (B) Was organized no more than three years before the qualified investment was made;

   (E) Has had in any complete fiscal year before registration gross annual revenue as determined in accordance with the Internal Revenue Code of $500,000.00 or less on a consolidated basis;
   (F) Has not obtained during its existence more than $1 million in aggregate gross cash proceeds from the issuance of its equity or debt investments, not including commercial loans from chartered banking or savings and loan institutions;
   (G) Has not utilized the tax credit described in Code Section 48-7-40.26;
   (H) Is primarily engaged in manufacturing, processing, online and digital warehousing, online and digital wholesaling, software development, information technology services, research and development, or a business providing services other than those described in subparagraph (I) of this paragraph; and
   (I) Does not engage substantially in:
      (i) Retail sales;
      (ii) Real estate or construction;
      (iii) Professional services;
      (iv) Gambling;
      (v) Natural resource extraction;
      (vi) Financial, brokerage, or investment activities or insurance; or
      (vii) Entertainment, amusement, recreation, or athletic or fitness activity for which an admission or membership is charged.

A business shall be substantially engaged in one of the above activities if its gross revenue from such activity exceeds 25 percent of its gross revenues in any fiscal year or it is established pursuant to its articles of incorporation, articles of organization, operating agreement or similar organizational documents to engage as one of its primary purposes such activity.

(7) 'Qualified investment' means an investment by a qualified investor of cash in a qualified business for common or preferred stock or an equity interest or a purchase for cash of qualified subordinated debt in a qualified business; provided, however, that funds constituting a qualified investment cannot have been raised or be raised as a result of other tax incentive programs. Furthermore, no investment of common or
preferred stock or an equity interest or purchase of subordinated debt shall qualify as a qualified investment if a broker fee or commission or a similar remuneration is paid or given directly or indirectly for soliciting such investment or purchase.

(8) 'Qualified investor' means an accredited investor as that term is defined by the United States Securities and Exchange Commission who is:

(A) An individual person who is a resident of this state or a nonresident who is obligated to pay taxes imposed by this chapter; or

(B) A pass-through entity which is formed for investment purposes, has no business operations, has committed capital under management of equal to or less than $5 million, and is not capitalized with funds raised or pooled through private placement memoranda directed to institutional investors. A venture capital fund or commodity fund with institutional investors or a hedge fund shall not qualify as a qualified investor.

(9) 'Qualified subordinated debt' means indebtedness that is not secured, that may or may not be convertible into common or preferred stock or other equity interest, and that is subordinated in payment to all other indebtedness of the qualified business issued or to be issued for money borrowed and no part of which has a maturity date less than five years after the date such indebtedness was purchased.

(10) 'Registered' or 'registration' means that a business has been certified by the commissioner as a qualified business at the time of application to the commissioner.

(c) A qualified business shall register with the commissioner for purposes of this Code section. Approval of such registration shall constitute certification by the commissioner for 12 months after being issued. A business shall be permitted to renew its registration with the commissioner so long as, at the time of renewal, the business remains a qualified business.

(d) Any individual person making a qualified investment directly in a qualified business in the 2011, 2012, or 2013 calendar year shall be allowed a tax credit of 20 percent of the amount invested against the tax imposed by this chapter commencing on January 1 of the second year following the year in which the qualified investment was made as provided in this Code section.

(e) Any pass-through entity making a qualified investment directly in a qualified business in the 2011, 2012, or 2013 calendar year shall be allowed a tax credit of 20 percent of the amount invested against the tax imposed by this chapter commencing on January 1 of the second year following the year in which the qualified investment was made as provided in this Code section. Each individual who is a shareholder, partner, or member of an entity shall be allocated the credit allowed the pass-through entity in an amount determined in the same manner as the proportionate shares of income or loss of such pass-through entity would be determined. If an individual's share of the pass-through entity's credit is limited due to the maximum allowable credit under this Code section for a taxable year, the pass-through entity and its owners may not reallocate the unused credit among the other owners.

(f) Tax credits claimed pursuant to this Code section shall be subject to the following conditions and limitations:
(1) The qualified investor is not eligible for the credit for the taxable year in which the qualified investment is made but shall be eligible for the credit for the second taxable year beginning after the qualified investment is made as provided in subsection (d) or (e) of this Code section;
(2) The aggregate amount of credit allowed an individual for one or more qualified investments in a single taxable year under this Code section, whether made directly or by a pass-through entity and allocated to such individual, shall not exceed $30,000.00;
(3) In no event shall the amount of the tax credit allowed an individual under this Code section for a taxable year exceed such individual's net income tax liability. Any unused credit amount shall be allowed to be carried forward for five years from the close of the taxable year in which the qualified investment was made. No such credit shall be allowed against prior years' tax liability;
(4) The qualified investor's basis in the common or preferred stock, equity interest, or subordinated debt acquired as a result of the qualified investment shall be reduced for purposes of this chapter by the amount of the allowable credit;
(5) The credit shall not be transferrable by the qualified investor except to the heirs and legatees of the qualified investor upon his or her death and to his or her spouse or incident to divorce; and
(6) To be eligible for the credit provided in this Code section, the qualified investor must file an application for the credit with the commissioner on or before June 30 of the year following the calendar year in which the qualified investment was made.

(g) The registration of a business as a qualified business shall be subject to the following conditions and limitations:
(1) If the commissioner finds that any of the information contained in an application of a business for registration under this Code section is false, the commissioner shall revoke the registration of such business. The commissioner shall not revoke the registration of a business solely because it ceases business operations for an indefinite period of time, as long as the business renews its registration;
(2) A registration as a qualified business may not be sold or otherwise transferred, except that, if a qualified business enters into a merger, conversion, consolidation, or other similar transaction with another business and the surviving company would otherwise meet the criteria for being a qualified business, the surviving company retains the registration for the 12 month registration period without further application to the commissioner. In such a case, the qualified business must provide the commissioner with written notice of the merger, conversion, consolidation, or similar transaction and such other information as required by the commissioner; and
(3) The commissioner shall report to the House Committee on Ways and Means and the Senate Finance Committee each year all of the businesses that have registered with the commissioner as a qualified business. The report shall include the name and address of each business, the location of its headquarters, a description of the types of business in which it engages, the number of jobs created by the business during the period covered by the report, and the average wages paid by these jobs.

(h) Any credit claimed under this Code section shall be recaptured in the following
situations and shall be subject to the following conditions and limitations:
(1) If within two years after the qualified investment was made, the qualified investor transfers any of the securities or subordinated debt received in the qualified investment to another person or entity, other than a transfer resulting from one of the following:
   (A) The death of the qualified investor;
   (B) A transfer to the spouse of the qualified investor or incident to divorce; or
   (C) A merger, conversion, consolidation, sale of the qualified business's assets, or similar transaction requiring approval by the owners of the qualified business under applicable law, to the extent the qualified investor does not receive cash or tangible property in such merger, conversion, consolidation, sale, or other similar transaction;
(2) Except as provided in paragraph (1) of this subsection, if within five years after the qualified investment was made, the qualified business makes a redemption with respect to the securities received or pays any principal of the subordinated debt;
(3) If within two years after the qualified investment was made, the qualified investor participates in the operation of the qualified business. For the purpose of this paragraph, a qualified investor participates in the operation of a qualified business if the qualified investor, or the qualified investor's spouse, parent, sibling, or child, or a business controlled by any of these individuals, provides services of any nature to the qualified business for compensation, whether as an employee, a contractor, or otherwise. However, a person who provides uncompensated professional advice to a qualified business whether as an officer, a member of the board of directors or managers or otherwise or participates in a stock or membership option or stock or membership plan, or both, shall be eligible for the credit;
(4) The amount of the credit recaptured shall apply only to the qualified investment in the particular qualified business in which the investment was made;
(5) The amount of the recaptured tax credit determined under this subsection shall be added to the qualified investor's income tax liability for the taxable year in which the recapture occurs under this subsection; and
(6) In the event the credit is recaptured because the qualified business ceases business operations, dissolves, or liquidates, the qualified investor may claim either the credit authorized under this Code section or any capital loss the qualified investor otherwise would be able to claim regarding that qualified business, but shall not be authorized to claim and be allowed both.

(i) (1) A qualified investor seeking to claim a tax credit provided for under this Code section must submit an application to the commissioner for tentative approval of such tax credit between September 1 and October 31 of the year for which the tax credit is claimed or allowed. The commissioner shall promulgate the rules and forms on which the application is to be submitted. Amounts specified on such application shall not be changed by the qualified investor after the application is approved by the commissioner. The commissioner shall review such application and shall tentatively approve such application upon determining that it meets the requirements of this Code
(2) The commissioner shall provide tentative approval of the applications by the date provided in paragraph (3) of this subsection as follows:

(A) The total aggregate amount of all tax credits allowed to qualified investors or pass-through entities for investments made in the 2011 calendar year and claimed and allowed in the 2013 taxable year shall not exceed $10 million in such year;

(B) The total aggregate amount of all tax credits allowed to qualified investors or pass-through entities for investments made in the 2012 calendar year and claimed and allowed in the 2014 taxable year shall not exceed $10 million in such year; and

(C) The total aggregate amount of all tax credits allowed to qualified investors or pass-through entities for investments made in the 2013 calendar year and claimed and allowed in the 2015 taxable year shall not exceed $10 million in such year.

(3) The commissioner shall notify each qualified investor of the tax credits tentatively approved and allocated to such qualified investor by December 31 of the year in which the application was submitted. In the event that the credit amounts on the tax credit applications filed with the commissioner exceed the maximum aggregate limit of tax credits under this subsection, then the tax credits shall be allocated among the qualified investors who filed a timely application on a pro rata basis based upon the amounts otherwise allowed by this Code section. Once the tax credit application has been approved and the amount approved has been communicated to the applicant, the qualified investor may then apply the amount of the approved tax credit to its tax liability for the tax year for which the approved application applies.

(j) The commissioner shall promulgate any rules and regulations necessary to implement and administer this Code section.

Such term includes public, private, rehabilitative, geriatric, osteopathic, and other specialty hospitals but shall not include psychiatric hospitals as defined in paragraph (7) of Code Section 37-3-1, critical access hospitals as defined in paragraph (3) of Code Section 33-21A-2, or any state owned or state operated hospitals.
(3) 'Net patient revenue' means the total gross patient revenue of a hospital less contractual adjustments; charity care; bad debt; Hill-Burton commitments; and indigent care as defined by and calculated in the Department of Community Health's annual hospital financial survey.

Such appropriations shall be made for the sole purpose of obtaining federal financial participation for medical assistance payments to providers on behalf of Medicaid recipients pursuant to Article 7 of Chapter 4 of Title 49. Any appropriation from the segregated account for any purpose other than such medical assistance payments shall be void.
(b) Revenues appropriated to the Department of Community Health pursuant to this Code section shall be used to match federal funds that are available for the purpose for which such trust funds have been appropriated.
(c) Appropriations from the segregated account to the Department of Community Health shall not lapse to the general fund at the end of the fiscal year.

(2) Notwithstanding any provision of this Code section or any other law to the contrary, whenever any county has acquired property for the creation or development of a lake, including but not limited to property the acquisition of which was reasonably necessary or incidental to the creation or development of that lake, and the governing authority of such county thereafter determines that all or any part of the property or any interest therein is no longer needed for such purposes because of changed conditions because of a decision by the county to not construct the lake, that county is authorized to dispose of such property or interest therein as provided in this subsection.

The county shall place a notice of a sale proposed pursuant to this subparagraph once in the county legal organ. If after 45 days from the date of such publication the original owner's spouse, child, or grandchild has not come forward, or if the tract from which the county acquired its property has been subsequently sold, the county shall notify the owner of abutting land holding title through the owner from whom the county acquired its property as provided in subparagraph (A) of this paragraph. January 22, 2010

The Honorable Howard Maxwell
State Representative
State Capitol, Room 402
Atlanta, Georgia 30334
Dear Representative Maxwell:

This bill would amend provisions relating to social security coverage for employees of the State and political subdivisions of the State. Currently, the Employees’ Social Security Coverage Group is under the jurisdiction and control of the Board of Trustees of the Employees’ Retirement System. If this legislation is enacted, the administration of the Group would be moved to the State Personnel Board. Any expenses associated with the administration of the Group would now be funded with State appropriations. This bill also repeals provisions within Chapter 18 of Title 47 of the Official Code of Georgia that are no longer applicable to the administration of this coverage.

This is to certify that this bill is a nonfiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

/s/ Russell W. Hinton
State Auditor

AN ACT

To amend Code Section 50-17-22 of the Official Code of Georgia Annotated, relating to the State Financing and Investment Commission, so as to provide for certain powers of the State Financing and Investment Commission in order to meet the requirements of the American Recovery and Reinvestment Act of 2009, Public Law 111-5; to provide for related matters; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Code Section 50-17-22 of the Official Code of Georgia Annotated, relating to the State Financing and Investment Commission, is amended by revising subparagraph (d)(6)(B) as follows:

"(B) Without limitation, the commission may:
(i) Deposit, or arrange for, federal funds to be deposited into the State of Georgia General Obligation Debt Sinking Fund or into the State of Georgia Guaranteed Revenue Debt Common Reserve Fund, and the fiscal officer of the state shall accept such deposits;
(ii) Arrange for the disbursement of federal funds directly to trustees, paying agents, or other persons for the payment of public debt;
(iii) Cooperate with any public agency, authority, or officer in applying for, accepting, and administering federal funds for public purposes mutual to the commission and any other agency, authority, or officer;

(iv) Apply or arrange to participate in and take all actions the commission determines appropriate to obtain the benefits of federal programs which provide tax credits, incentives, or other inducements to the state or to holders of public debt;

(v) Apply or arrange to participate in federal programs which require the allocation of funds or bonding authority among geographical areas, governmental jurisdictions and entities, or other categories, and perform such allocation, including mandating, requiring, treating, or deeming the waiver of any local allocation by way of resolution or policy of the commission, unless another officer, agency, or instrumentality is explicitly authorized by state law to perform such allocation and all officers, agencies, or instrumentalities are required to provide such assistance, cooperation, and information as the commission directs related to any federal programs. In such cases where the commission has allocated funds or bonding authority or mandated, required, treated, or deemed the waiver of any allocation, any local governmental entity desiring to issue obligations of any type that are dependent upon a waived allocation shall only be lawfully permitted to do so in a manner that is consistent with the actions of the commission; and any notice to the district attorney or the Attorney General, pursuant to Code Section 36-82-20 or 36-82-74 or any similar provision of law, by any local governmental entity shall include a certification that the issuance of such obligations is consistent with the actions of the commission. No court shall have jurisdiction to consider any petition regarding the validation of any such obligations, whether pursuant to Article 2 or Article 3 of Chapter 82 of Title 36 or any other similar provision of law, in the absence of such certification when required by this division; and

(vi) Establish and apply criteria for determining a reasonable expectation of the state that an allocation made pursuant to division (v) of this subparagraph will not be used by a local governmental entity so that the commission may mandate, require, treat, or deem such allocation as waived; and

(vii) Apply or arrange to participate in any other federal program which provides benefits consistent with state law and supportive of functions of the commission."
