BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Part 2 of Article 6 of Chapter 2 of Title 20 of the Official Code of Georgia Annotated, relating to competencies and core curriculum for elementary and secondary students under the "Quality Basic Education Act," is amended by adding a new Code section to read as follows:

"20-2-149.1.
(a) Each elementary and secondary school in this state which receives in any manner funds from the state shall hold an educational program on the governing principles of the United States Constitution on or around September 17 of each year for the students served by the school.
(b) Compliance with Section 111(b) of Public Law 108-447 by an elementary or secondary school shall be deemed to be compliance with this Code section."

SECTION 2.

Part 1 of Article 16 of Chapter 2 of Title 20 of the Official Code of Georgia Annotated, relating to school attendance in elementary and secondary education, is amended by revising Code Section 20-2-690.1, relating to mandatory education for children, as follows:

"20-2-690.1.
(a) Mandatory attendance in a public school, private school, or home school program shall be required for children between their sixth and sixteenth birthdays. Such mandatory attendance shall not be required where the child has successfully completed
all requirements for a high school diploma. Any parent, guardian, or other person having control or charge of any child or children subject to mandatory attendance pursuant to this subsection who becomes a new resident of a local school system in this state shall, within 15 days of such new residency or by the start date of school if such new residency occurs prior to such start date, enroll such child or children in a public school, a private school, or a home study program that meets the requirements for a public school, a private school, or a home study program. Failure to enroll such child or children within 15 days of such new residency or the start date of school if such new residency occurs prior to such start date shall constitute a violation of this Code section.

(b) Every parent, guardian, or other person residing within this state having control or charge of any child or children during the ages of mandatory attendance as required in subsection (a) of this Code section shall enroll and send such child or children to a public school, a private school, or a home study program that meets the requirements for a public school, a private school, or a home study program; and such child shall be responsible for enrolling in and attending a public school, a private school, or a home study program that meets the requirements for a public school, a private school, or a home study program under such penalty for noncompliance with this subsection as is provided in Chapter 11 of Title 15, unless the child's failure to enroll and attend is caused by the child's parent, guardian, or other person, in which case the parent, guardian, or other person alone shall be responsible; provided, however, that tests and physical exams for military service and the National Guard and such other approved absences as provided for by law or by the local board of education shall be excused absences. The requirements of this subsection shall apply to a child during the ages of mandatory attendance as required in subsection (a) of this Code section who has been assigned by a local board of education or its delegate to attend an alternative public school program established by that local board of education, including an alternative public school program provided for in Code Section 20-2-154.1, regardless of whether such child has been suspended or expelled from another public school program by that local board of education or its delegate, and to the parent, guardian, or other person residing in this state who has control or charge of such child. Nothing in this Code section shall be construed to require a local board of education or its delegate to assign a child to attend an alternative public school program rather than suspending or expelling the child.

c) Any parent, guardian, or other person residing in this state who has control or charge of a child or children and who shall violate this Code section shall be guilty of a misdemeanor and, upon conviction thereof, shall be subject to a fine not less than $25.00 and not greater than $100.00, imprisonment not to exceed 30 days, community service, or any combination of such penalties, at the discretion of the court having jurisdiction. Each day's absence from school in violation of this part after the child's school system notifies the parent, guardian, or other person who has control or charge of a child of five unexcused days of absence for a child shall constitute a separate offense. After two reasonable attempts to notify the parent, guardian, or other person who has control or charge of a child of five unexcused days of absence without
response, the school system shall send a notice to such parent, guardian, or other person by certified mail, return receipt requested. Public schools shall provide to the parent, guardian, or other person having control or charge of each child enrolled in public school a written summary of possible consequences and penalties for failing to comply with compulsory attendance under this Code section for children and their parents, guardians, or other persons having control or charge of children. The parent, guardian, or other person who has control or charge of a child or children shall sign a statement indicating receipt of such written statement of possible consequences and penalties; children who are age ten years or older by September 1 shall sign a statement indicating receipt of such written statement of possible consequences and penalties. After two reasonable attempts by the school to secure such signature or signatures, the school shall be considered to be in compliance with this subsection if it sends a copy of the statement, via certified mail, return receipt requested, to such parent, guardian, other person who has control or charge of a child, or children. Public schools shall retain signed copies of statements through the end of the school year.

(d) Local school superintendents in the case of private schools or home study programs and visiting teachers and attendance officers shall have authority and it shall be their duty to file proceedings in court to enforce this subpart.

(d)(1) Local school system officials or other persons may make and file a report to the appropriate enforcement agency regarding any parent, guardian, or other person having control or charge of any child or children subject to mandatory attendance requirements pursuant to subsection (a) of this Code section whose child or children are not regularly attending school including a child who has been assigned by a local board of education or its delegate to attend an alternative public school program established by that local board of education, including an alternative public school program provided for in Code Section 20-2-154.1, regardless of whether such child has been suspended or expelled from another public school program by that local board of education or its delegate pursuant to subsection (b) of this Code section.

(2) Local school system officials or other persons shall make and file a report to the appropriate enforcement agency regarding any parent, guardian, or other person having control or charge of any child or children subject to mandatory attendance requirements pursuant to subsection (a) of this Code section who have accumulated 30 days of unexcused absences.

(3) Local school systems shall cooperate in the investigation and prosecution of mandatory attendance violations in accordance with Code Section 20-2-694.

(e) No case shall constitute a violation of this Code section unless said child has accumulated five or more days of unexcused absences. Each day's absence from school in violation of this part after the child's school system or its delegate notifies the parent, guardian, or other person who has control or charge of a child of five unexcused days of absence for a child shall constitute a separate offense. After two or more reasonable attempts to notify the parent, guardian, or other person who has control or charge of a child of five unexcused days of absence without response, the school system shall send
a notice to such parent, guardian, or other person by certified mail, return receipt requested, or first class mail and upon doing so, the school system shall be considered to be in compliance with this subsection.

(e)(f) An unemancipated minor who is older than the age of mandatory attendance as required in subsection (a) of this Code section who has not completed all requirements for a high school diploma who wishes to withdraw from school shall have the written permission of his or her parent or legal guardian prior to withdrawing. Prior to accepting such permission, the school principal or designee shall convene a conference with the child and parent or legal guardian within two school days of receiving notice of the intent of the child to withdraw from school. The principal or designee shall make a reasonable attempt to share with the student and parent or guardian the educational options available, including the opportunity to pursue a general educational development (GED) diploma and the consequences of not having earned a high school diploma, including lower lifetime earnings, fewer jobs for which the student will be qualified, and the inability to avail oneself of higher educational opportunities. Every local board of education shall adopt a policy on the process of voluntary withdrawal of unemancipated minors who are older than the mandatory attendance age. The policy shall be filed with the Department of Education no later than January 1, 2007. The Department of Education shall provide annually to all local school superintendents model forms for the parent or guardian signature requirement contained in this subsection and updated information from reliable sources relating to the consequences of withdrawing from school without completing all requirements for a high school diploma. Such form shall include information relating to the opportunity to pursue a general educational development (GED) diploma and the consequences of not having earned a high school diploma, including lower lifetime earnings, fewer jobs for which the student will be qualified, and the inability to avail oneself of higher educational opportunities. Each local school superintendent shall provide such forms and information to all of its principals of schools serving grades six through twelve for the principals to use during the required conference with the child and parent or legal guardian.

(g)(1) Any parent, guardian, or other person residing in this state who has control or charge of a child or children and who shall fail to send such child or children to a public school, a private school, or a home study program in accordance with this Code section shall be guilty of a misdemeanor and, upon conviction thereof, shall be subject to a fine not less than $25.00 and not greater than $100.00, imprisonment not to exceed 30 days, community service, or any combination of such penalties, at the discretion of the court having jurisdiction.

(2) Any parent, guardian, or other person residing in this state who has control or charge of a child or children and who shall fail to enroll such child or children in a public school, a private school, or a home study program in accordance with this Code section shall be guilty of a misdemeanor and, upon conviction thereof, shall be subject to punishment as for a misdemeanor with the exception that any imprisonment portion of the sentence shall not exceed 30 days.
Nothing in this Code section shall be construed to authorize the State Board of Education, local boards of education, or any officers thereof or appropriate enforcement agencies to impose any additional requirements on private schools or home study programs beyond that specifically included in subsection (a) of this Code section and in Code Section 20-2-690."

SECTION 3.
Part 2 of Article 2 of Chapter 3 of Title 20 of the Official Code of Georgia Annotated, relating to the university system, is amended by adding a new Code section to read as follows:
"20-3-69.
(a) Each college and university in this state which receives in any manner funds from the state shall hold an educational program on the governing principles of the United States Constitution on or around September 17 of each year for the students served by the college or university.

"13-10-3.
(a) For the purpose of determining residency under this Code section, a Georgia resident business shall include any business that regularly maintains a place from which business is physically conducted in Georgia for at least one year prior to any bid or proposal submitted pursuant to this Code section or a new business that is domiciled in Georgia which regularly maintains a place from which business is physically conducted in Georgia; provided, however, that a place of business shall not include a post office box, site trailer, or temporary structure.

However, these requirements shall in no way impair the ability of the state to compare the quality of materials proposed for purchase and to compare the qualifications, character, responsibility, and fitness of materialmen, contractors, builders, architects, engineers, and laborers proposed for employment in its consideration of the purchase of materials or employment of persons. This subsection shall not apply to transportation projects for which federal aid funds are available.

Affidavits shall be maintained by the public employer for five years from the date of receipt.

(2) No contractor or subcontractor who enters a contract pursuant to this chapter with a public employer or a contractor of a public employer shall enter into such a contract or subcontract in connection with the physical performance of services within this state unless the contractor or subcontractor registers and participates in the federal work authorization program to verify information of all newly hired employees. Any employee, contractor, or subcontractor of such contractor or subcontractor shall also be required to satisfy the requirements of this paragraph.

(3) Upon contracting with a new subcontractor, a contractor or subcontractor shall, as a condition of any contract or subcontract entered into pursuant to this chapter, provide a public employer with notice of the identity of any and all subsequent subcontractors hired or contracted by that contractor or subcontractor. Title 20 of the Official Code of Georgia Annotated, relating to education, is amended by revising Code Section 20-2-500, relating to promulgation of rules and regulations by the State Board of Education for contracts or purchases over $100.00, as follows:

"20-2-500.
(a) The State Board of Education is authorized to promulgate rules and regulations to regulate contracts or purchases which involve the aggregate sum of $100.00 or more for or on behalf of students of any public elementary or secondary school supported in whole or in part from public funds.

(b)(1) Such rules shall provide that such contracts for or purchases of supplies, materials, equipment, or agricultural products, including but not limited to school buses but not including instructional materials or beverages for immediate consumption, for public elementary and secondary schools supported in whole or in part from public funds shall give preference as far as may be reasonable and practicable to such supplies, materials, equipment, and agricultural products as may be manufactured or produced in this state. Such preference shall not sacrifice quality.

(2) Such rules shall provide that, in determining whether such a preference is reasonable in any case where the value of a contract for or purchase of such supplies, materials, equipment, or agricultural products exceeds $100,000.00, the local school district shall consider, among other factors, information submitted by the bidder which may include the bidder's estimate of the multiplier effect on gross state domestic product and the effect on public revenues of the state and the effect on public revenues of political subdivisions resulting from acceptance of a bid or offer to sell Georgia manufactured or produced goods as opposed to out-of-state manufactured or produced goods. Any such estimates shall be in writing. No local school district shall divide a contract or purchase which exceeds $100,000.00 for the purpose of
avoiding the requirements of this paragraph.

(c) Vendors resident in the State of Georgia are to be granted the same preference over vendors resident in another state in the same manner, on the same basis, and to the same extent that preference is granted in awarding bids for the same goods or services by such other state to vendors resident therein over vendors resident in the State of Georgia.

(e)(d) Nothing in this Code section shall negate the requirements of Code Section 50-5-73."

SECTION 4.
This Act shall become effective on July 1, 2010, and shall apply to all contracts which are first advertised or otherwise given public notice on or after that date.

SECTION 5.
All laws and parts of laws in conflict with this Act are repealed.

The term may include retired employees. The policy may provide that the term 'employees' shall include the trustees or their employees, or both, if their duties are principally connected with such trusteeship;"

(d) Obtaining a license as an administrator does not exempt the applicant from other licensing requirements under this title.

(e) Obtaining a license as an administrator subjects the applicant to the provisions of Code Sections 33-24-59.5 and 33-24-59.13.

(f) An administrator shall be subject to Code Sections 33-24-59.5 and 33-24-59.13 unless the administrator provides sufficient evidence that the self-insured health plan failed to properly fund the plan to allow the administrator to pay any outside claim.

(3) 'Insurer' means an accident and sickness insurer, fraternal benefit society, nonprofit hospital service corporation, nonprofit medical service corporation, health care corporation, health maintenance organization, provider sponsored health care corporation, or any similar entity and any self-insured health benefit plan not subject to the exclusive jurisdiction of the federal Employee Retirement Income Security Act of 1974, 29 U.S.C. (b) All benefits under a health benefit plan will be payable by the insurer which is
obligated to finance or deliver health care services under that plan upon such insurer's receipt of written or electronic proof of loss or claim for payment for health care goods or services provided. The insurer shall within 15 working days for electronic claims or 30 calendar days for paper claims after such receipt mail or send electronically to the insured or other person claiming payments under the plan payment for such benefits or a letter or electronic notice which states the reasons the insurer may have for failing to pay the claim, either in whole or in part, and which also gives the person so notified a written itemization of any documents or other information needed to process the claim or any portions thereof which are not being paid. Where the insurer disputes a portion of the claim, any undisputed portion of the claim shall be paid by the insurer in accordance with this chapter. When all of the listed documents or other information needed to process the claim has been received by the insurer, the insurer shall then have 15 working days for electronic claims or 30 calendar days for paper claims within which to process and either mail payment for the claim or a letter or notice denying it, in whole or in part, giving the insured or other person claiming payments under the plan the insurer's reasons for such denial.

(2) Receipt of any proof, claim, or documentation by an entity which administers or processes claims on behalf of an insurer shall be deemed receipt of the same by the insurer for purposes of this Code section.

(c) Each insurer shall pay to the insured or other person claiming payments under the health benefit plan interest equal to 12\% per annum on the proceeds or benefits due under the terms of such plan for failure to comply with subsection (b) of this Code section.

(d) An insurer may only be subject to an administrative penalty by the Commissioner as authorized by the insurance laws of this state when such insurer processes less than 95 percent of all claims in a standard financial quarter in compliance with paragraph (1) of subsection (b) of this Code section. Such penalty shall be assessed on data collected by the Commissioner.

(e) This Code section shall be applicable when an insurer is adjudicating claims for its fully insured business or its business as a third-party administrator.

On the motion, the yeas were 33, nays 16; the motion prevailed, and the Senate agreed to the House amendment to SB 411.

Senator Brown of the 26th recognized Kareem Jackson. Kareem Jackson addressed the Senate briefly.

The President recognized His Excellency, Governor Sonny Perdue. Governor Sonny Perdue addressed the Senate:

Well, congratulations on a very productive session. It seems like it was almost a lifetime ago, but to be exact, it was 106 days ago that I stood before you and asked you to work with me to do the hard things now for a better tomorrow in Georgia. That was the charge. That was the challenge. That was the call.

Then, and in many conversations since, we have talked about putting aside political and provincial differences and coming together for the good of our state. And we have done that.

You passed a historic water conservation measure, a transportation plan that will drive Georgia’s future growth, and an ethics bill that builds on what we passed back in 2005 and provides even more transparency and broadens the powers of the Ethics Commission.

And when faced with a financial situation unlike any Georgian has seen in generations, you passed a budget filled with the tough choices necessary to protect our core mission.

It hasn’t been easy, but I am reminded of the Parable of the talents, in which three servants are given 1, 5, and 10 talents. The message is clear. The rewards for good stewardship do not change no matter how many talents are entrusted to us.

I believe we have been good stewards, we have accomplished important work on behalf of Georgians and we have done it together with input and support from members on both sides of the aisle.

Some may be surprised by that, but I am not. I have learned over my years here at the State Capitol that while we sometimes disagree on how to get there, we all want a better Georgia for tomorrow.

On the most important issues facing Georgia, we have a history of coming together. We fought to protect private property rights and we have supported our soldiers deployed overseas and their families back here in Georgia. When Hurricane Katrina devastated
our neighboring states, we cared for those who no longer had homes, who no longer had incomes, who no longer had hope.

Over the last eight sessions we have placed a priority on funding education, and it is now a larger percentage of the state budget than ever before. We put graduation coaches in every middle and high school, and watched graduation rates soar to the highest levels in state history.

Together we protected lottery funds, and as a result we saw the millionth student receive the HOPE scholarship in 2007, and the millionth child enroll in Pre-K in February of this year.

Together we bent the cost curve in healthcare, reducing the yearly increase in Medicaid expenses from double digits to less than five percent. Those efforts have saved Georgia taxpayers more than a billion dollars each year for the past five years now. Just think what our budget deficit would have been had we not made those difficult choices.

We joined efforts to lobby Washington to ensure that Peachcare is funded and designed in a way that actually helps our kids.

Together we have maintained Georgia’s long history of conservative fiscal management. We continue to stand in a select group of states with a Triple-A bond rating, which has saved more than $100 million in debt service.

Together we have made Georgia a state where companies want to invest in their future and ours. Fortune 500 companies NCR and Newell Rubbermaid could have chosen anywhere in the world for their Headquarters, and they chose Georgia. When Kia looked for a talented workforce and a fertile business environment, they chose West Point for their first U.S. manufacturing plant and brought more than 6,000 jobs to West Georgia.

And together we have set our sights on becoming the best managed state in the nation. Those of you who know me best know how passionate I am about this effort. For me, this is really about ensuring Georgians are getting value from their tax dollar. Our efforts have resulted in Georgia being graded the best managed state in the Southeast, and among the best in the nation.

We can argue all day long about how much we should collect from our citizens, but we should never have to argue about whether or not we should spend what we collect wisely.

That’s why we have placed a focus on customer service that is receiving national attention. That’s why we hired agency heads with expertise in their field rather than political connections. And friends, state government today works better for Georgians, even with fewer employees. In fact, you have to go back to 2000 to find a state workforce this lean and, at that time, they were serving 1.7 million fewer people.
Team Georgia is working smarter and harder than ever and they are delivering. Customer service is the mantra and government is faster, friendlier and easier.

I came to this job with the perspective of someone who has sat in your seat. For some of you, Atlanta is a long way from home, but for all of you, the duty you have taken on here requires hard work and real sacrifice.

I know about the committee meetings that pop up at the last minute and force you to choose between career and public service. I understand the difficulty of balancing the needs of your family and the needs of your constituents.

There is no question that these are tough times; no other administration in Georgia’s history has had to deal with economic downturns like we’ve seen at the beginning and end of our years. But as it says in Proverbs, “iron sharpens iron, so one man sharpens another.” Georgia will be more prepared to lead the nation in economic recovery because we have worked together, encouraging each other, putting our state ahead of ourselves.

I want to thank each and every one of you for supporting me, at one point or another, during my time in office. I’d like to especially thank those of you who served as floor leaders, and I am so proud to see so many of you progressing into leadership positions. You carried some heavy loads for my team and your commitment to this administration is appreciated.

Again, thank you for your service, for your support, and most of all, for your friendship. God bless you and may God bless the great state of Georgia!

The House substitute was as follows:

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 1 of Title 42 of the Official Code of Georgia Annotated, relating to general provisions pertaining to penal institutions, so as to require the Department of Corrections and the State Board of Pardons and Paroles participate in the United States Immigration and Customs Enforcement Rapid Removal of Eligible Parolees Accepted for Transfer (REPAT) Program or similar federal deportation program; to provide for legislative intent; to provide for definitions; to provide for release on a reprieve; to provide for an expedited procedure for the deportation of certain alien prisoners; to provide for waiver of a violator's extradition; to amend Code Section 42-9-43.1 of the Official Code of Georgia Annotated, relating to citizenship status of a prisoner and deportation, so as to authorize conditional deportation parole release; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:
SECTION 1.
It is the intent of the General Assembly to ensure that alien prisoners subject to deportation are not released from prison into the Georgia community. It is further the intent of this legislative body to reduce the costs and expenses of operating state prisons by reducing the number of alien prisoners incarcerated in the Georgia penal system and to expedite the deportation process of such prisoners. Moreover, Georgia should support the rearrest and revocation of parole of any alien prisoner who reenters the United States in violation of a release on a reprieve with a detainer to United States Immigration and Customs Enforcement. The General Assembly intends to require state agencies to take part in the Immigration and Customs Enforcement Rapid Removal of Eligible Parolees Accepted for Transfer (REPAT) Program funded and operated by the United States government and take all measures to fully cooperate and communicate with state, local, and federal agencies for the implementation of such program.

SECTION 2.
Chapter 1 of Title 42 of the Official Code of Georgia Annotated, relating to general provisions relating to penal institutions, is amended by adding a new Code section to read as follows:
"42-1-11.1,
(a) As used in this Code section, the term:
(1) 'Alien prisoner' means a person who is not a citizen or national of the United States who is serving a sentence under the supervision of the department.
(2) 'Board' means the State Board of Pardons and Paroles.
(3) 'Department' means the Department of Corrections.
(4) 'Release on a reprieve' means being released on a reprieve with a detainer to United States Immigration and Customs Enforcement.
(b) The department and board shall establish a process and agreements among multiple state, local, and federal agencies for the implementation of the United States Immigration and Customs Enforcement Rapid Removal of Eligible Parolees Accepted for Transfer (REPAT) Program or similar federal program, by whatever name, for the purpose of deporting alien prisoners in the state prison system who are eligible for deportation.
(c) The department shall include as a part of the intake process a procedure to identify alien prisoners eligible for deportation. The department shall coordinate with the federal authorities to determine an alien prisoner's immigration status and eligibility for removal. The identity and information regarding alien prisoners eligible for deportation shall be provided expeditiously to the board, and the board shall then consider such alien prisoner for a release on a reprieve. Alien prisoners who would otherwise be ineligible for parole shall not become eligible by reason of eligibility for a release on a reprieve.
(d) Upon an alien prisoner's acceptance into the federal deportation program, the board may establish a tentative release month for the alien prisoner to be transferred into federal custody.
(e) No tentative parole release month based on a release on a reprieve shall be set until the alien prisoner is otherwise eligible for parole. No tentative parole release month shall be set for any date prior to the effective date of a final deportation removal order.

(f) The board shall provide notice and obtain acknowledgment in writing that notice was given to each alien prisoner who is eligible for a release on a reprieve that illegal reentry into the United States shall subject such alien prisoner to being returned to the custody of the department to complete the remainder of his or her court-imposed sentence. Prior to granting a release on a reprieve, the alien prisoner shall make a knowing, voluntary, and intelligent waiver in writing of all rights of extradition which would challenge the alien prisoner's parole revocation and return the alien prisoner to the department to complete the remainder of his or her sentence in the event such alien prisoner violates a condition of the release on a reprieve.

(g) An alien prisoner shall not be eligible for a release on a reprieve if the federal authorities determine that the alien prisoner's removal is not reasonably foreseeable.

(h) The department shall maintain exclusive control and responsibility for the custody and transportation of alien prisoners to and from federal facilities.

SECTION 3.

Code Section 42-9-43.1 of the Official Code of Georgia Annotated, relating to citizenship status of a prisoner and deportation, is amended as follows:

"42-9-43.1. (a) In determining whether to grant parole the board shall be authorized to make inquiry into whether the prisoner is lawfully present in the United States under federal law.

(b) If the board determines that the prisoner is not lawfully present in the United States, the board shall be authorized to make inquiry into whether the prisoner would be legally subject to deportation from the United States while on parole.

(c) If the board determines that the prisoner would be legally subject to deportation from the United States while on parole, the board may:

(1) Consider the interest of the state in securing certain and complete execution of its judicial sentences in criminal cases;

(2) Be authorized to consider the likelihood that deportation may intervene to frustrate that state interest if parole is granted; and

(3) Where appropriate, be authorized to decline to grant parole in furtherance of the state interest in certain and complete execution of sentences.

(d) Any grant of parole to an alien prisoner, as such term is defined in Code Section 42-1-11.1, who is subject to deportation shall be conditioned upon the deportation of such prisoner pursuant to a final removal order and a further condition that such prisoner abide by the deportation order and all immigration laws of the United States."

SECTION 4.

All laws and parts of laws in conflict with this Act are repealed.

A BILL TO BE ENTITLED

AN ACT

To amend Part 1 of Article 4 of Chapter 12 of Title 45 of the Official Code of Georgia Annotated, relating to management of budgetary and financial affairs by the Office of Planning and Budget, so as to require tax expenditure reviews as a part of the budget report; to provide powers, duties, and responsibilities of the Office of Planning and Budget, the Department of Audits and Accounts, and the Department of Revenue; to provide for a definition; to provide for contents and requirements of each report; to provide for related matters; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Part 1 of Article 4 of Chapter 12 of Title 45 of the Official Code of Georgia Annotated, relating to management of budgetary and financial affairs by the Office of Planning and Budget, is amended in Code Section 45-12-71, relating to definitions regarding management of such affairs by such office, by adding a new paragraph to read as follows:

"(15) 'Tax expenditure' means any statutory provision which exempts, in whole or in part, any specific class or classes of persons, income, goods, services, or property from the impact of established state taxes, including but not limited to tax deductions, tax allowances, tax exclusions, tax credits, preferential tax rates, and tax exemptions. Such term shall also include any expenditure of state tax proceeds to local governments for homeowner tax relief grants or local government assistance grants authorized by or required by any provision of Article VII of the Constitution."

SECTION 2.

Said part is further amended in Code Section 45-12-75, relating to the budget report, by revising paragraphs (7) and (8) and adding a new paragraph to read as follows:

"(7) A draft of a proposed General Appropriations Act or Acts embodying the Governor's budget report and recommendations for appropriations for the next fiscal year and drafts of such revenue and other Acts as may be recommended for putting into effect the proposed financial plan. The recommended appropriation for each budget unit shall be specified in a separate section of the General Appropriations Act. The total amount of appropriations recommended shall not exceed the cash resources available to meet expenditures under such appropriations; and

(8) A tax expenditure review for the state. Such review shall be prepared by the Department of Audits and Accounts and provided to the Office of Planning and Budget in a timely manner for inclusion as part of the budget report. Such review shall detail for each tax expenditure item that amount of tax revenue foregone for at least a three-year period, including the period covered in the Governor's budget submitted the preceding January, the current budget, and an estimate of one future
year; a citation of the statutory or other legal authority for the expenditure; the year in which it was enacted; and the tax year in which it became effective. The tax expenditure information required under this paragraph shall be tracked and compiled by the Department of Revenue and provided in a timely manner to the Department of Audits and Accounts. Taxes included in this report shall cover all state taxes collected by the Department of Revenue. The Department of Revenue shall be authorized to provide estimations in the event the required tax expenditure information cannot be actually determined from available information. The Department of Revenue shall not be authorized to impose additional reporting requirements on any person or entity in order to track and compile any tax expenditure information. Nothing in this paragraph shall preclude the Department of Audits and Accounts from contracting out the preparation and analysis associated with the development of such report to any member institution of The University System of Georgia; and
(9) Such other information as the Governor deems desirable or as is required by law."

SECTION 3.
This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.
Code Section 45-12-92 of the Official Code of Georgia Annotated, relating to revenue collections to be paid to the state treasury on a monthly basis, is revised as follows:

"45-12-92.

(a) All departments, agencies, and budget units charged with the duty of collecting taxes, fees, assessments, or other moneys, the collection of which is imposed by law, if required, shall pay all revenues collected by them into the state treasury on a monthly basis on or before the fifteenth day of each month for the immediately preceding month's collections, according to such rules and regulations as may be prescribed by the Office of Planning and Budget. No allotment of funds shall be made to any budget unit which has failed to comply fully with this Code section.

(b)(1) As used in this subsection, the term 'user fee' shall mean voluntary or mandatory payments made in exchange for a government good or service provided specifically to the fee payer. A revenue source meets this definition if the authorization for the fee explicitly or implicitly ties the fee to the activities of a specific program, such as a licensing fee charged by a regulatory program. Fines, penalties, late fees, or similar punitive charges are not included in this definition.

(2) All departments, agencies, and budget units charged with the duty of collecting user fees, the collection of which is authorized by law or regulation, shall compile a separate annual report to be submitted to the Office of Planning and Budget showing:

(A) The statute or regulation authorizing a user fee;
(B) The user fee amount;
(C) The goods or services associated with the user fee and the estimated cost of such goods or services;
(D) The total amount collected from the user fee in the current fiscal year; and
(E) Whether the user fee has been retained by the department, agency, or budget unit or remitted to the state treasury.

(3) The report provided for in paragraph (2) of this subsection shall also contain any proposal that the budget unit may have to:

(A) Create a new fee, or change, reauthorize, or terminate an existing fee, which shall include a description of the associated service or product provided, or the regulatory function performed; and
(B) Adjust an existing fee rate or amount. Each new or adjusted fee rate shall be accompanied by information justifying the proposed rate adjustment, which may include:

(i) The relationship between the revenue to be raised by the fee or change in the fee and the cost or change in the cost of the service, product, or regulatory
function supported by the fee, with costs construed as actual costs incurred;
(ii) The inflationary pressures that have arisen since the fee was last set;
(iii) The effect on budgetary adequacy if the fee is not increased;
(iv) The existence of comparable fees in other jurisdictions;
(v) Policies that might affect the acceptance or the viability of the fee amount;
(vi) Any proposal to designate, or redesignate, the fund into which revenue from a
fee is to be deposited; and
(vii) Other relevant considerations.
(4) The Office of Planning and Budget shall compile and publish on the Open
Georgia website, open.georgia.gov, a report showing for each department, agency, or
other budget unit the data collected pursuant to this subsection."

SECTION 2.
This Act shall become effective upon its approval by the Governor or upon its becoming
law without such approval.

SECTION 3.
All laws and parts of laws in conflict with this Act are repealed.

Senator Goggans of the 7th moved that the Senate adopt the Conference Committee

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Section 2 of this Act shall be known and may be cited as the "Water System Interconnection, Redundancy, and Reliability Act."
SECTION 2.
Article 3 of Chapter 5 of Title 12 of the Official Code of Georgia Annotated, relating to wells and drinking water, is amended by adding a new part to read as follows:

"Part 6

12-5-200. The General Assembly finds that:
(1) Water is an essential resource, the continued provision of which is necessary for the health, safety, and welfare of the State of Georgia; and
(2) It is in the best interests of the State of Georgia for public water systems in the Metropolitan North Georgia Water Planning District to evaluate their withdrawal, treatment, and distribution systems and to take proactive measures to reduce the risk of catastrophic interruptions of water service during emergencies.

12-5-201. As used in this part, the term:
(1) 'Authority' means the Georgia Environmental Facilities Authority created by Code Section 50-23-3.
(2) 'District' means the Metropolitan North Georgia Water Planning District created by Code Section 12-5-572.
(3) 'Emergency plan' means the written emergency water supply plan developed as provided in Code Section 12-5-202.
(4) 'Essential water needs' means the minimum amount of water needed for residential and commercial means for food processing, drinking, toilet flushing, fire fighting, hospital use, and critical asset use and a portion of the system's unaccounted for water.
(5) 'Qualified system' means any public water system owned and operated by a city, county, or water authority in the district.

12-5-202. Subject to authorization as provided in subsection (c) of Code Section 12-5-203, not later than September 1, 2010, the authority shall issue a request for proposal for a thorough and detailed engineering study developing a district-wide emergency plan covering every qualified system. Such plan shall identify sufficient emergency water supply sources and detailed steps required to modify a qualified system's operations to accept or share water with adjacent water providers within the Metropolitan North Georgia Water Planning District during emergencies to supply essential water needs.
(b) The emergency plan shall evaluate risks and, where feasible, plan for a district-wide interconnection reliability target for immediate implementation of approximately 35 percent of the annual average daily demand and a long-range district-wide interconnection reliability planning goal of approximately 65 percent of the annual average daily demand.
(c) Such plan shall be based initially on the 2035 water demand forecasted by the district in 2009 and updated by a revised forecast every five years thereafter and shall include or be based upon:

1. An evaluation of factors affecting water system reliability, including raw and finished water storage, infrastructure conditions, equipment redundancy, and existing interconnection capability;
2. Detailed hydraulic studies to determine overall distribution system improvements required to meet projected demands;
3. A consideration of various emergency situations, including, without limitation:
   A. The failure of the largest water treatment facility of a qualified system;
   B. The full unavailability of major raw water sources due to federal or state government actions;
   C. The limited or reduced availability of major raw water sources due to federal or state government actions;
   D. The short-term catastrophic failure of a water distribution system;
   E. The short-term contamination of a water supply system; and
   F. The short-term contamination of a raw water source making it unsuitable for use;

provided, however, that the results of poor planning or inadequate infrastructure investments by a qualified system shall not constitute an emergency situation.

4. An evaluation of the feasibility and cost effectiveness of providing multidirectional flows at existing and future interconnections with a pipe diameter equal to or greater than 12 inches;

5. A continuously updated inventory of distribution system components, including good system maps;

6. Steps that need to be taken to receive water from an adjacent utility within the Metropolitan North Georgia Water Planning District or to provide water to another utility within the district, including required new infrastructure and the location of such infrastructure for both the interconnection reliability target for immediate implementation and the long-range interconnection planning goal;

7. Consideration of chemical compatibility, treatment requirements, water quality, operating pressure, and impact on water withdrawal permits;

8. A detailed estimate of the costs of implementation for both the interconnection reliability target for immediate implementation and the long-range interconnection planning goal;

9. A model intergovernmental agreement for sharing and pricing of water during emergency situations; and

10. Creative financing options for implementation of recommended interconnection projects.

(d) Each qualified system shall coordinate with and assist the authority in the development of the emergency plan.

(e) The authority and its consultant shall meet at least once every three months with the district water supply technical coordinating committee to review the progress of the
plan. The authority and its consultants shall receive and may incorporate the comments of the committee into the plan.

12-5-203.
(a) There shall be a technical panel as provided in this subsection. The Governor, the President of the Senate, and the Speaker of the House of Representatives shall each appoint one member of the technical panel, each of whom shall be the director of a public water system located within the district. The Governor, the President of the Senate, and the Speaker of the House of Representatives or such officers' designees shall also serve on the technical panel.
(b) The authority and the technical panel shall use the provisions of Code Section 12-5-202 as a basis fully to define the water shortage scenarios to be evaluated in the emergency plan. The authority and the technical panel shall also prepare a preliminary scope of work statement for the plan consistent with the defined scenarios and Code Section 12-5-202.
(c) The authority shall submit by July 15, 2010, the preliminary scope of work statement to the Governor, the President of the Senate, and the Speaker of the House of Representatives to receive authorization to issue a request for proposals based on such preliminary scope of work statement not later than September 1, 2010.
(d) The authority shall modify the preliminary scope of work statement or the preparation of the emergency plan if specific water allocations are provided by final federal courts rulings, state compacts, or other mechanisms. The plan shall be based on such allocations.

12-5-204.
(a) The authority shall ensure the completion of the emergency plan not later than September 1, 2011, and shall submit the emergency plan to the director of the Environmental Protection Division of the Department of Natural Resources, the director of the Georgia Emergency Management Agency, the Governor, Lieutenant Governor, Speaker of the House of Representatives, and chairpersons of the Senate and House Committees on Natural Resources and Environment and of the Senate and House Committees on Appropriations not later than September 15, 2011.
(b) The authority shall update the emergency plan on the same schedule as updates for the district's water supply and water conservation management plans.
(c) The costs of producing the emergency plan shall be borne by the authority.

SECTION 3.
Part 2 of Article 1 of Chapter 23 of Title 50 of the Official Code of Georgia Annotated, relating to the water supply division of the Georgia Environmental Facilities Authority, is amended by adding a new Code section to read as follows:
(a) The division may make loans and grants to a local government to pay all or any part of the cost of expanding and increasing the capacity of existing reservoirs. Such loans
and grants shall be made as provided in Code Section 50-23-6. The criteria used in consideration for requests for assistance shall include, but not be limited to:

1. The effect of recurring drought on the region;
2. Interconnectivity of the requesting entity's water supply system with one or more surrounding local governments; and
3. Unique regional conditions.

(b) Beginning in 2010, on July 1 of each year in which adequate funds are available, the division shall give public notice that it will accept applications for loans and grants as provided in subsection (a) of this Code section. Requests shall be submitted and awards shall be made according to such schedules and deadlines as may be provided by the division."

SECTION 4.
This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 5.

The council may change or modify such examination and shall establish the criteria for determining satisfactory performance on such examination. (3) An employer may charge a reasonable fee to cover actual costs incurred in copying and furnishing documents to a requesting law enforcement agency, including retrieving and redacting costs, provided such amount shall not exceed $25.00 or $0.25 per page, whichever is greater. No employer shall be required to prepare or create any document not already in the employer's possession at the time a request for employment related information is received. Any employment related information provided pursuant to this subsection that is not subject to public disclosure while in the possession of a prior employer shall continue to be privileged and protected from public disclosure as a record of the requesting law enforcement agency.

(4) No employer or law enforcement agency shall be subject to any civil liability for any cause of action by virtue of disclosing complete and accurate information to a law enforcement agency in good faith and without malice pursuant to this subsection. In any such cause of action malice or bad faith shall only be demonstrated by clear and
convincing evidence. Nothing contained in this subsection shall be construed so as to affect or limit rights or remedies provided by federal law.

(5) Before taking final action on an application for employment based, in whole or in part, on any unfavorable employment related information received from a previous employer, a law enforcement agency shall inform the applicant, candidate, or peace officer that it has received such employment related information, and that the applicant, candidate, or peace officer may inspect and respond in writing to such information. Upon the applicant's, candidate's, or peace officer's request, the law enforcement agency shall allow him or her to inspect the employment related information and to submit a written response to such information. The request for inspection shall be made within five business days from the date that the applicant, candidate, or peace officer is notified of the law enforcement agency's receipt of such employment related information. The inspection shall occur not later than ten business days after said notification. Any response to the employment related information shall be made by the applicant, candidate, or peace officer not later than three business days after his or her inspection."

50-5-77.

(1) 'Agency' means every state department, agency, board, bureau, and commission including without limitation the Board of Regents of the University System of Georgia.

(2) 'Authority' means the Georgia Environmental Facilities Authority.

(3) 'Benefits based funding project' means any governmental improvement project in which payments to vendors depend upon the realization of specified savings or revenue gains attributable solely to the improvements, provided that each benefits based funding project is structured as follows:

(A) The vendor promises, or accepts the condition, guarantees that the improvements will generate actual and quantifiable savings or enhanced revenues;

(B) The agency develops a measurement tool for calculating the savings or enhanced revenues realized from the project; and

(C) The funding for the project shall be attributable solely to its successful implementation for the period specified in the contract, or, where applicable, from sums remitted by the vendor or surety to remedy a deficit in guaranteed savings or revenue gains.

(4) 'External oversight committee' means a committee composed of the executive director of the Georgia Technology Authority, the commissioner of administrative services, the director of the Office of Planning and Budget, the state auditor, the state accounting officer, the Governor's designee, the chairperson of the House Committee on Appropriations, and the chairperson of the Senate Finance Committee on Appropriations.

(5) 'Measurement tool' means the formula used to measure the actual savings or

Baseline parameters must be defined based on historical costs or revenues for a minimum of one year. The measurement tool shall use the baseline parameters to forecast savings or enhanced revenues and to determine the overall benefits and fiscal feasibility of the proposed project.

(5)(6) 'Special dedicated fund' means any fund established pursuant to this Code section from which the vendor or vendors are compensated as part of a benefits based funding project. The moneys in the special dedicated fund shall be deemed contractually obligated and shall not lapse at the end of each fiscal year.

(3)(2) The contract may be renewed only by a positive action taken by the agency;

(3) In addition to any other remedies available to the agency, the contract shall provide that at such time as the agency determines that actual savings or incremental revenue gains are not being generated to satisfy the obligations under the contract, the vendor shall be required to remedy the deficit in actual savings or incremental revenue gains by remitting to the state an amount equal to the deficit. The vendor shall also be required to provide at contract execution and upon execution of any contract renewals an energy savings guarantee bond, a bank letter of credit, escrowed funds, a corporate guarantee from a corporation with an investment grade credit rating, or other surety instrument acceptable to the agency equal to the value of the project's annual savings or revenue gains;

(4) The contract shall state the total obligation of the agency for repayment for the fiscal year of execution and shall state the total obligation for repayment which will be incurred in each fiscal year renewal term, if renewed; and

(5) The term of the contract, including any renewal periods, may not exceed extend past the date that is ten years from the date of the completion of the project that is the subject of the contract; and
(6) The agency's financial obligations under the contract are limited to and cannot exceed the savings or incremental revenue gains, as calculated using the measurement tool, actually generated by the benefits-based funding project, even if no savings or enhanced revenues are realized from the project.

(c) Any contract developed under this Code section containing the provisions enumerated in subsection (b) of this Code section shall be deemed to obligate the agency only for those sums payable during the fiscal year of execution or, in the event of a renewal by the agency, for those sums payable in the individual fiscal year renewal term and only to the extent that savings or enhanced revenues are attributable to the benefits-based funding project calculated using the measurement tool and, where applicable, sums remitted by the vendor or surety to remedy a deficit in guaranteed savings or revenue gains.

(d) No contract developed and executed pursuant to this Code section shall be deemed to create a debt of the state for the payment of any sum beyond the fiscal year of execution or, in the event of a renewal, beyond the fiscal year of such renewal.

(e) Any such contract may provide for the payment by the agency of interest or the allocation of a portion of the contract payment to interest, provided that the contract is in compliance with this Code section.

(f) During the term of the contract, including any renewal periods, the agency shall, using the measurement tool, periodically calculate the total amount of the savings or enhanced revenues attributable to the implementation of the benefits-based funding project. To the extent that savings or enhanced revenues are realized, the agency shall transfer from its budget into the special dedicated fund an amount up to but not to exceed the amount owed on the contract for the then current fiscal year term's obligation to provide for payments, or, where applicable, sums remitted by the vendor or surety to remedy a deficit in guaranteed savings or revenue gains may be transferred to the special dedicated fund by the agency.

(g) During the term of the contract, including any renewal periods, the agency shall, using the measurement tool, calculate the total amount of the savings or enhanced revenues attributable to the implementation of the benefits-based funding project during the then current fiscal year at least 30 days prior to the end of the then current fiscal year. If the agency renews the contract and to the extent that savings or enhanced revenues are realized in excess of the amount due on the contract in the then current fiscal year term, the agency shall transfer prior to the end of the then current fiscal year from its budget into the special dedicated fund an amount up to but not to exceed the next fiscal year's obligation to provide for future payments.

(h) Promptly upon nonrenewal, termination, or expiration of the contract, any moneys remaining in the special dedicated fund shall be deposited in the general fund of the state.

(i) Each agency is authorized to accept title to property subject to the benefits-based funding contract and is authorized to transfer title back to the vendor in the event the contract is not fully consummated.

(j) Payments to which a vendor is entitled under the contract may not be assigned
without the approval of the agency. In its discretion, the agency may agree that the vendor may assign the payments to which it is entitled under the benefits based funding contract to a third party, provided that the agency will be made party to the assignment agreement and that any such assignment agreement will not alter the obligations of the agency under the contract, specifically including, but not limited to, the provisions required by subsection (b) of this Code section; and provided that the vendor, at the time of the request that the agency agree to an assignment of payments, must provide to the agency an energy savings guarantee bond, a bank letter of credit, escrowed funds, a corporate guarantee from a corporation with an investment grade credit rating, or other surety instrument acceptable to the agency equal to the guaranteed savings for the total project duration including any anticipated renewal periods and the energy savings guarantee bond, bank letter of credit, escrowed funds, corporate guarantee from a corporation with an investment grade credit rating, or other surety instrument acceptable to the agency must remain in force for the entire project duration including any renewal periods. As savings are realized and verified by the measurement tool during the term of the contract including renewal periods, the value of the energy savings guarantee bond, bank letter of credit, escrowed funds, corporate guarantee from a corporation with an investment grade credit rating, or other surety instrument acceptable to the agency may decrease proportionately.

(i)(k) The external oversight committee shall have the responsibility to review and advise the authority to perform reviews and to recommend approval of all benefits based funding projects advising:

(1) The overall feasibility of the benefits based funding project;
(2) The measurement tool;
(3) The projected savings or enhanced revenues; and
(4) The dollars to be set aside for vendor payments.

(l) At the recommendation of the authority, each benefits based funding project and the proposed contract shall be approved by the external oversight committee prior to execution of the contract and prior to any renewal thereof shall be subject to further review by the authority or the external oversight committee at any time.

(1)(m) Each agency shall prepare and certify an annual report to be sent to the external oversight committee, the Governor, and the General Assembly on all contracts entered into pursuant to this Code section, describing the benefits based funding project, its projects, the progress of the projects, its the consolidated savings or enhanced revenues of such projects, and such other information as may be relevant. This annual report shall be sent to the authority on behalf of the external oversight committee at a date determined by the authority. The authority shall review and consolidate all agency reports and submit a consolidated report to the Governor, the General Assembly, and the external oversight committee."

(11) 'State agency' means every state agency, authority, board, bureau, commission, and department, including, without limitation, the Board of Regents of the University System of Georgia.

50-37-3.
(a) A governmental unit may enter into a guaranteed energy savings performance contract with a qualified provider in accordance with the provisions of this chapter or in accordance with another statutorily authorized procurement process.

(b) If in accordance with applicable law the award of a contract by a governmental unit requires action at a public meeting, a governmental unit may award a guaranteed energy savings performance contract at a public meeting, if it has provided public notice in the manner prescribed under applicable law relating to open meetings, and the notice shall include the names of the parties to the contract and the purpose of the contract. For governmental units that are not required to take actions on contracts at public meetings, the governmental unit may award a guaranteed energy savings performance contract in accordance with the procedures adopted by the governmental unit and the requirements of all applicable laws.

(c) Selection of qualified energy services provider. The process of implementing guaranteed energy savings performance contracts for governmental units shall include:

(1) Prequalification of qualified energy services providers. The authority shall be authorized to assemble a list of prequalified energy services providers. The director shall attempt to use objective criteria in the selection process. The criteria for evaluation shall include the following factors to assess the capability of the qualified energy services provider in the areas of design, engineering, installation, maintenance, and repairs associated with guaranteed energy savings performance contracts; post-installation project monitoring, data collection, and verification of and reporting of
savings; overall project experience and qualifications; management capability; ability to access long-term sources of project financing; experience with projects of similar size and scope; and other factors determined by the director to be relevant and appropriate and relate to the ability to perform the project. The prequalification term of the established list of qualified energy service providers shall be three years. The director shall again assemble a list of prequalified energy service providers every three years from the commencement of each prequalification term. A qualified energy services provider may be removed from the list upon a determination by the director that said provider fails to meet the criteria for continued inclusion; and

(2) Request for proposals. Before entering into a guaranteed energy savings performance contract under this chapter, a governmental unit may and a state agency shall issue a request for proposals from at least three qualified energy services providers on the prequalifications list prepared and maintained by the director. A governmental unit may thereafter award the guaranteed energy savings performance contract to the qualified energy services provider that best meets the needs of the governmental unit, which need not be the lowest cost provided. A preliminary technical proposal shall be prepared by the qualified energy services provider in response to the request for proposals. Factors to be included in selecting the most qualified energy services provider for award of the guaranteed energy savings performance contract shall include, but not be limited to, the comprehensiveness of the proposal, comprehensiveness of cost-saving measures, experience, quality of technical approach, overall benefits to the governmental unit, and other factors determined by the governmental unit to be relevant to the implementation of the project.

(d) The governmental unit shall select the qualified energy services provider that best meets the needs of the governmental unit in accordance with criteria established by the governmental unit. For governmental units that are not required to take actions on contracts at public meetings, the governmental unit shall provide public notice of the award of the guaranteed energy savings performance contract within 30 days. The notice shall include the names of the parties to the contract and the purpose of the contract. For governmental units that are required to take actions on contracts at public meetings, the public notice shall be made at least ten days prior to the meeting. After reviewing the proposals pursuant to subsection (e) of this Code section, a governmental unit may enter into an investment grade energy audit agreement with the selected qualified energy services provider for the provision of the energy audit report described in subsection (e) of this Code section.

(e) Before executing the guaranteed energy savings performance contract, the qualified energy services provider shall provide the governmental unit with an energy audit report summarizing recommendations for energy conservation measures based on anticipated energy, operational water, or waste-water cost savings or revenue increases resulting from the energy conservation measures. The energy audit report shall include estimates of all costs of installation, maintenance, repairs, and debt service and estimates of the amounts by which energy or operating costs will be reduced.
(f) Notwithstanding any other provision of law governing the letting of public contracts, a governmental unit may enter into guaranteed energy savings performance contracts with each qualified energy services provider selected in accordance with the provisions of this chapter. The governmental unit may elect to implement the energy conservation measures in one or more phases with the selected qualified energy services provider.

50-37-4.
(a) A guaranteed energy savings performance contract may provide that all payments, except obligations on termination of the contract before its scheduled expiration, shall be made over a period of time. The contract shall require the energy performance contractor to provide to the governmental unit an annual reconciliation of the guaranteed energy cost savings. The energy performance contractor shall be liable for any annual savings shortfall which may occur. In the event that such reconciliation reveals an excess in annual energy cost savings, such excess savings shall not be used to cover potential energy cost savings shortages in subsequent contract years. The guaranteed energy savings performance contract shall be for a firm fixed price. The governmental unit may require the qualified energy services provider to provide a payment and performance bond relating to the installation of energy conservation measures in the amount equal to 100 percent of the guaranteed energy savings performance contract.

(b) A guaranteed energy savings performance contract shall include a written guarantee that energy, water, waste-water, or operating cost savings or revenue increases will meet or exceed the cost of the energy conservation measures to be evaluated, recommended, designed, implemented, or installed under the contract within a 20 year period from the date of final acceptance of installation or implementation. Calculation of the energy, water, waste-water, or operating cost savings or revenue increases may take into account rebates, grants, incentives, or similar payments available under published programs which are reasonably anticipated to be received by the governmental unit as a direct result of the work performed by the qualified energy services provider even though such payments are not included in the qualified energy services provider's contractual guarantee. Escalations and other financial considerations assumed in savings calculations shall be defined in the contract if they are included in the savings calculations and are required to meet the payback criteria and life cycle analysis. Performance guarantees with stipulated savings that have been measured in accordance with the International Performance Measurement and Verification Protocol or other recognized and documented industry engineering standard are allowable and shall be explicitly stated in the contract.

(c) A governmental unit may enter into a third-party installment payment or lease purchase agreement to finance the costs associated with the guaranteed energy savings performance contract and any related hazardous materials abatement. The installment payment or lease purchase agreement may provide for payments over a period of time not to exceed 20 years.
(d) An improvement that is not causally connected to an energy conservation measure may be included in a guaranteed energy savings performance contract if:

1. The total value of the improvement does not exceed 15 percent of the total value of the guaranteed energy savings performance contract; and

2. Either:
   A. The improvement is necessary to conform to a law, a rule, or an ordinance; or
   B. An analysis within the guaranteed energy savings performance contract demonstrates that there is an economic advantage to the governmental unit implementing an improvement as part of the guaranteed energy savings performance contract, and the savings justification for the improvement is documented by industry engineering standards.

(e) A facility alteration which includes expenditures that are required to properly implement other energy conservation measures may be included as part of a guaranteed energy savings performance contract without being included in the savings guarantee. In such case, notwithstanding any other provision of law, the installation of these additional measures may be supervised by the contractor performing the guaranteed energy savings performance contract.

(f) The guaranteed energy savings performance contract shall include an agreement for the provision of measurement and verification services to be paid for from the energy and operational cost savings generated by the project for the term of the contract. It may include maintenance services for the measures installed under the contract. The measurement and verification services shall be performed in accordance with industry standard methods for measuring and verifying savings and equipment performance. Savings which are stipulated shall be specifically noted as such in the guaranteed energy savings performance contract.

(g) Reporting. Upon execution of a guaranteed energy savings performance contract, the governmental unit shall provide written notice to its utility providers describing the energy conservation measures to be installed. Additionally, the authority shall make publicly available an annual list of all guaranteed energy savings performance contracts that are signed in each calendar year.

50-37-5.

(a) A governmental unit may use funds designated for operating, utilities, or capital expenditures for any guaranteed energy savings performance contract, including, without limitation, for purchases on an installment payment or lease purchase basis.

(b) During the life of the contract, grants, subsidies, or other payments from the state to a governmental unit shall not be reduced as a result of energy savings obtained as a result of a guaranteed energy savings performance contract.

50-37-6.

Every governmental unit shall periodically review all proposed capital improvement projects for potential applicability of this chapter and shall first consider proceeding with a guaranteed energy savings performance contract under this chapter where appropriate.
Requirements for state agencies:

(1) The director shall be authorized to promulgate any rules, regulations, stipulations, and policies necessary to carry out the terms and provisions of this Code section regarding contracting and procurement procedures for state agencies. Any rules, regulations, and policies as prescribed by the director shall be published, and state agencies shall be furnished with copies of the same. (3) With regard to the authority's procedures for awarding multiyear guaranteed energy savings performance contracts, the Georgia State Financing and Investment Commission may establish a total multiyear contract value based upon the Governor's revenue estimate for subsequent fiscal years and other information as the Georgia State Financing and Investment Commission may require. In setting the multiyear guaranteed energy savings performance contract authority, the Georgia State Financing and Investment Commission shall take into consideration the known and anticipated obligations of the state agencies proposing to enter into multiyear guaranteed energy savings performance contracts, including, but not limited to, any multiyear guaranteed energy savings performance contracts the state agencies have entered into previously. The Georgia State Financing and Investment Commission may set a total multiyear contract value authority for the authority each fiscal year and may, during the fiscal year, revise such contract value authority as necessary as determined by the Georgia State Financing and Investment Commission. Any multiyear guaranteed energy savings performance contract entered into by state agencies that is not in compliance with the multiyear contract value authority set by the Georgia State Financing and Investment Commission shall be void and of no effect;

(4) At the beginning of each fiscal year, a governmental unit's appropriations shall be encumbered for the estimated payments for multiyear guaranteed energy savings performance contract work to be performed in the appropriation fiscal year. Payment for multiyear guaranteed energy savings performance contract work performed pursuant to contract in any fiscal year other than the current fiscal year shall be subject to appropriations by the General Assembly. Multiyear guaranteed energy savings performance contracts shall contain a schedule of estimated completion progress, and any acceleration of this progress shall be subject to the approval of the
authority, provided funds are available. State agencies shall have the right to terminate without further obligation any multiyear guaranteed energy savings performance contract, provided that the cancellation is subject to the termination provisions of the multiyear guaranteed energy savings performance contract, if the state agency determines that adequate funds will not be available for all of the payment obligations of the state agency. The state agency's determination regarding the availability of funds for its obligations shall be conclusive and binding on all parties to the contract. In the event of termination of any contract, the contractor shall be given a written notice of termination at least 60 days before completion of scheduled work for which funds are available. In the event of termination, the contractor shall be paid for the work already performed in accordance with the contract specifications:

(5) The provisions of paragraph (6) of this Code section shall be incorporated verbatim in all multiyear guaranteed energy savings performance contracts;

The determination of the administrator under this subsection shall be final and not subject to judicial review.

(c) With the exception of consent judgments entered before any testimony is taken, a final judgment under this Code section shall be admissible as prima-facie evidence of such specific findings of fact as may be made by the court which enters the judgment in subsequent proceedings by or against the same person or his or her successors or assigns.

(d) When a receiver is appointed by the court pursuant to this part, he shall have the power to sue for, collect, receive, and take into his possession all the goods and chattels, rights and credits, moneys and effects, lands and tenements, books, records, documents, papers, choses in action, bills, notes, and property of every description derived by means of any practice declared to be illegal and prohibited by this part, including property with which such property has been mingled if it cannot be identified in kind because of such commingling, and to sell, convey, and assign the same and hold and dispose of the proceeds thereof under the direction of the court. In the case of a partnership or business entity, the receiver may, in the discretion of the court, be authorized to dissolve the business and distribute the assets under the direction of the court. The court shall have jurisdiction of all questions arising in such proceedings and may make such orders and judgments therein as may be required.

(1) Whenever the administrator issues a cease and desist order to any person regarding the use of a telephone number which when called automatically imposes a per-call charge or other costs to the consumer, other than a regular charge imposed for long distance service, including, but not limited to, a telephone number in which the local prefix is 976 or in which the long distance prefix is 900, the administrator may certify to the appropriate local or long distance carrier responsible for billing consumers for the charges that billing for the charges or for certain of the charges should be suspended. The carrier shall then suspend such billing with reasonable promptness to preserve the assets of consumers in accordance with the certification, without incurring any liability to any person for doing so. For the purposes of this Code section, 'reasonable promptness to preserve the assets of consumers' shall mean to act as quickly as the carrier would act to preserve its own assets, provided that the carrier cannot be required to make any changes to its existing systems, technologies, or methods used for billing, other than any minimal procedural changes necessary to actually suspend the billing. The carrier shall not be made a party to any proceedings under this part for complying with this requirement but shall have a right to be heard as a third
party in any such proceedings.

(2) The suspension of billing under this subsection shall remain in effect until the administrator certifies to the carrier telecommunications company that the matter has been resolved. The administrator shall certify to the carrier telecommunications company with reasonable promptness when the matter has been resolved. In this certification, the administrator shall advise the carrier telecommunications company to collect none of, all of, or any designated part of the billings in accordance with the documents or orders which resolved the matter. The carrier telecommunications company shall collect or not collect the billings in the manner so designated and shall not incur any liability to any person for doing so.

(3) Nothing contained in this subsection shall limit or restrict the right of the carrier telecommunications company to place its own restrictions, guidelines, or criteria, by whatever name denominated, upon the use of such telephone—service telecommunications services, provided such restrictions, guidelines, or criteria do not conflict with the provisions of this subsection."

SECTION 3.
This Act shall become effective on January 1, 2011.

SECTION 1.
Chapter 11 of Title 15 of the Official Code of Georgia Annotated, relating to juvenile proceedings, is amended by revising Code Section 15-11-30.3, relating to commission of designated felony act of burglary by a child 15 years of age or older, by adding a new subsection to read as follows:
"(e) The provisions of this Code section shall not apply to a smash and grab burglary."

SECTION 2.
Said chapter is further amended by adding a new Code section to read as follows: "15-11-40.1.
(a) For purposes of this Code section, the term:
   (1) 'Department' means the Department of Juvenile Justice.
   (2) 'Graduated sanctions' means:
      (A) Verbal and written warnings;
      (B) Increased restrictions and reporting requirements;
      (C) Community service;
      (D) Referral to treatment and counseling programs in the community;
      (E) Weekend programming;
      (F) Electronic monitoring, as such term is defined in Code Section 42-8-151;
      (G) Curfew;
      (H) An intensive supervision program; or
      (I) A home confinement program.
   (3) 'Hearing officer' means a department employee or county juvenile probation office employee, as applicable, who has been selected and appointed by the department or county juvenile probation office, as applicable, to hear cases alleging violations of probation for administrative sanctioning. A hearing officer shall not be a probation officer who has direct supervision over the child who is the subject of the hearing.
   (4) 'Probation management program' means a special condition of probation that includes graduated sanctions.
   (5) 'Secure probation sanctions program' means secure confinement of seven, 14, or 30 days.
(b) In addition to any other terms or conditions of probation provided for under this chapter, the court may require that children who receive a disposition of probation:
   (1) Be ordered to a probation management program; or
(2) Be ordered to a secure probation sanctions program by a probation officer or hearing officer.

c) Where a child has been ordered to a probation management program or secure probation sanctions program, the court shall retain jurisdiction throughout the period of the probated sentence and may modify or revoke any part of a probated sentence as provided in Code Section 15-11-40.

d)(1) The department in jurisdictions where the department is authorized to provide probation supervision, or the county juvenile probation office in jurisdictions where probation supervision is provided directly by the county, as applicable, shall be authorized to establish rules and regulations for graduated sanctions as an alternative to judicial modifications or revocations for probationers who violate the terms and conditions of a probation management program.

(2) The department or county juvenile probation office, as applicable, shall not sanction probationers for violations of conditions of probation if the court has expressed an intention in a written order that such violations be heard by the court.

e) The department or county juvenile probation office, as applicable, shall impose only those restrictions equal to or less restrictive than the maximum sanction established by the court.

(f) The secure probation sanctions program shall be established by the department. Exclusion of a child from a secure probation sanctions program otherwise authorized by this Code section to enter such program shall be mutually agreed upon by the Council of Juvenile Court Judges and the department. The secure probation sanctions program shall be available to the juvenile courts to the extent that each secure facility has capacity for such offenders within its facilities. Prior to reaching full capacity, the department shall inform the various juvenile courts of its capacity constraints.

(g)(1) When requesting the secure probation sanctions program, probation officers supervising a child under a probation management program shall provide an affidavit to the court specifying:

(A) The elements of the child's probation program;

(B) The child's failures to respond to graduated sanctions in the community; and

(C) The child's number of violations and the nature of each violation.

(2) If a probation officer fails to document the violations and specify how the child has failed to complete a probation management program, such child shall be ineligible to enter the secure probation sanctions program.

(3) A child may enter the secure probation sanctions program if ordered by the court and:

(A) The probation officer has complied with the provisions of paragraph (1) of this subsection and the criteria set by the department for entrance into such program and the child has had three or more violations of probation; or

(B) A child in a probation management program and his or her parent or guardian, or a child in such program and his or her attorney, admit to three or more violations of such program and sign a waiver accepting the sanction proposed by the probation officer.
(4) Each new violation of a condition of a probated sentence may result in a child being sentenced to the secure probation sanctions program; provided, however, that if a child is sentenced to the secure probation sanctions program and completes all program components in the seven, 14, and 30 day programs, such child shall be ineligible to attend the secure probation sanctions program for a future violation of a condition of the same probated sentence.

(h)(1) When a violation of a condition of probation occurs, a child may have an administrative hearing conducted by a hearing officer. If the hearing officer determines by a preponderance of the evidence that such child violated the conditions of probation, the probation officer shall be authorized to impose graduated sanctions or a secure probation sanctions program. A child's failure to comply with a sanction imposed under this paragraph shall constitute another violation of probation.

(2) The hearing officer's decision shall be final unless such child files, within five days of the service of such decision, a written demand with the hearing officer for review of such decision. Such demand shall not stay the sanction decision. The hearing officer shall issue a response to such demand within five days of receiving such demand.

(3) If the hearing officer insists on the sanction, such decision shall be final unless the child files an appeal in the court that originally adjudicated the child. Such appeal shall be filed within ten days of the date of the decision of the hearing officer.

(4) The appeal shall first be reviewed by the court upon the record. At the court's discretion, a de novo hearing may be held on the decision. The filing of the appeal shall not stay the sanction decision.

(5) Where the court does not act on the appeal within 15 days of the date of the filing of the appeal, the sanction decision shall be affirmed by operation of law."

A BILL TO BE ENTITLED
AN ACT

To amend Title 36 of the Official Code of Georgia Annotated, relating to local government, so as to authorize counties and municipal corporations to grant conservation easements; to define certain terms; to provide for related matters; to provide for an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.
Title 36 of the Official Code of Georgia Annotated, relating to local government, is amended by revising Code Section 36-9-3, relating to disposition of county real property generally, the right of certain counties to make private sale, and the right of county to
negotiate and consummate private sales of recreational set-asides, by adding a new subsection to read as follows:

"(i)(1) As used in this subsection, the terms 'conservation easement' and 'holder' shall have the meanings as set forth in Code Section 44-10-2.

(2) Notwithstanding any provision of this Code section or of any other law, ordinance, or resolution to the contrary, whenever the governing authority of any county determines that the establishment of a conservation easement would be of benefit to the county and to its citizens by way of retaining or protecting natural, scenic, or open-space values of real property; assuring the availability of the property for agricultural, forest, recreational, or open-space use; protecting natural resources; maintaining or enhancing air or water quality; or preserving the historical, architectural, archeological, or cultural aspects of the property, such governing authority may sell or grant to any holder a conservation easement over any of its real property, including but not limited to any of its real property set aside for use as a park. These powers shall be cumulative of other powers and shall not be deemed to limit their exercise in any way; provided, however, that a conservation easement shall not be created, granted, or otherwise conveyed for the purpose of preventing, frustrating, or interfering with the exercise of the power of eminent domain by any public utility or other entity authorized to exercise the power of eminent domain."

SECTION 2.

Said title is further amended by revising Code Section 36-37-6, relating to the sale or disposition of municipal property, as follows:

"36-37-6.

(a) Except as otherwise provided in subsections (b) through (i) of this Code section, the governing authority of any municipal corporation disposing of any real or personal property of such municipal corporation shall make all such sales to the highest responsible bidder, either by sealed bids or by auction after due notice has been given. Any such municipal corporation shall have the right to reject any and all bids or to cancel any proposed sale. The governing authority of the municipal corporation shall cause notice to be published once in the official legal organ of the county in which the municipality is located or in a newspaper of general circulation in the community, not less than 15 days nor more than 60 days preceding the day of the auction or, if the sale is by sealed bids, preceding the last day for the receipt of proposals. The legal notice shall include a general description of the property to be sold if the property is personal property or a legal description of the property to be sold if the property is real property. If the sale is by sealed bids, the notice shall also contain an invitation for proposals and shall state the conditions of the proposed sale, the address at which bid blanks and other written materials connected with the proposed sale may be obtained, and the date, time, and place for the opening of bids. If the sale is by auction, the notice shall also contain the conditions of the proposed sale and shall state the date, time, and place of the proposed sale. Bids received in connection with a sale by sealed bidding shall be opened in public at the time and place stated in the legal notice. A tabulation of all bids
received shall be available for public inspection following the opening of all bids. All such bids shall be retained and kept available for public inspection for a period of not less than 60 days from the date on which such bids are opened. The provisions of this subsection shall not apply to any transactions authorized in subsections (b) through (j) of this Code section.

(b) The governing authority of any municipal corporation is authorized to sell personal property belonging to the municipal corporation which has an estimated value of $500.00 or less and lots from any municipal cemetery, regardless of value, without regard to subsection (a) of this Code section. Such sales may be made in the open market without advertisement and without the acceptance of bids. The estimation of the value of any such personal property to be sold shall be in the sole and absolute discretion of the governing authorities of the municipal corporation or their designated agent.

(c) Nothing in this Code section shall prevent a municipal corporation from trading or exchanging real property belonging to the municipal corporation for other real property where the property so acquired by exchange shall be of equal or greater value than the property previously belonging to the municipal corporation; provided, however, that within six weeks preceding the closing of any such proposed exchange of real property, a notice of the proposed exchange of real property shall be published in the official organ of the municipal corporation once a week for four weeks. The value of both the property belonging to the municipal corporation and that to be acquired through the exchange shall be determined by appraisals and the value so determined shall be approved by the proper authorities of said municipal corporation.

(d) The governing authority of any municipal corporation is authorized to sell real property in established municipal industrial parks or in municipally designated industrial development areas for industrial development purposes without regard to subsection (a) or (b) of this Code section.

(e)(1) This Code section shall not apply to any municipal corporation which has a municipal charter provision setting forth procedures for the sale of municipal property and existing as of January 1, 1976, so long as such charter provision thereafter remains unchanged and as long as such charter provision contains the minimum notice requirements as set forth in subsection (a) of this Code section.

(2) This Code section shall not apply to the disposal of property:

(A) Which is acquired by deed of gift, will, or donation and is subject to such conditions as may be specified in the instrument giving or donating the property;

(B) Which is received from the United States government or from this state pursuant to a program which imposes conditions on the disposal of such property;

(C) Which is disposed of pursuant to the powers granted in Chapter 61 of this title, the 'Urban Redevelopment Law,' or a homesteading program;

(D) Which is sold or transferred to another governing authority or government agency for public purposes; or

(E) Which is no longer needed for public road purposes and which is disposed of pursuant to Code Section 32-7-4.
(f) Notwithstanding any provision of this Code section or of any other law or any ordinance to the contrary, the governing authority of any municipal corporation is authorized to sell real property within its corporate limits for museum purposes to either a public authority or a nonprofit corporation which is classified as a public foundation (not a private foundation) under the United States Internal Revenue Code, for the purpose of building, erecting, and operating thereon a museum or facility for the development or practice of the arts. Such sale may be made in the open market or by direct negotiations without advertisement and without the acceptance of bids. The estimation of the value of any property to be sold shall be in the sole and absolute discretion of the governing authority of the municipality or its designated agent; provided, however, that nothing shall prevent a municipality from trading or swapping property with another property owner if such trade or swap is deemed to be in the best interest of the municipality.

(g) Notwithstanding any provision of this Code section or of any other law or ordinance to the contrary, the governing authority of any municipal corporation is authorized to sell and convey parcels of narrow strips of land, so shaped or so small as to be incapable of being used independently as zoned or under applicable subdivision or other development ordinances, or as streets, whether owned in fee or used by easement, to abutting property owners where such sales and conveyances facilitate the enjoyment of the highest and best use of the abutting owner's property without first submitting the sale or conveyance to the process of an auction or the solicitation of sealed bids; provided, however, that each abutting property owner shall be notified of the availability of the property and shall have the opportunity to purchase said property under such terms and conditions as set out by ordinance.

(h) Notwithstanding any provision of this Code section to the contrary or any other provision of law or ordinance to the contrary, whenever any municipal corporation determines that the establishment of a facility of the state or one of its authorities or other instrumentalities or of a bona fide nonprofit resource conservation and development council would be of benefit to the municipal corporation, by way of providing activities in an area in need of redevelopment, by continuing or enhancing local employment opportunities, or by other means or in other ways, such municipal corporation may sell or grant any of its real or personal property to the state or to any of its authorities or instrumentalities or to a bona fide nonprofit resource conservation and development council and, further, may sell or grant such lesser interests, rental agreements, licenses, easements, and other dispositions as it may determine necessary or convenient. These powers shall be cumulative of other powers and shall not be deemed to limit their exercise in any way.

(i)(1) As used in this subsection, the term 'lake' means an impoundment of water in which at least 1,000 acres of land were to be submerged.

(2) Notwithstanding any provision of this Code section or any other law to the contrary, whenever any municipality has acquired property for the creation or development of a lake, including but not limited to property the acquisition of which was reasonably necessary or incidental to the creation or development of that lake,
and the governing authority of such municipality thereafter determines that all or any part of the property or any interest therein is no longer needed for such purposes because of changed conditions, that municipality is authorized to dispose of such property or interest therein as provided in this subsection.

(3) In disposing of property, as authorized under this subsection, the municipality shall notify the owner of such property at the time of its acquisition or, if the tract from which the municipality acquired its property has been subsequently sold, shall notify the owner of abutting land holding title through the owner from whom the municipality acquired its property. The notice shall be in writing delivered to the appropriate owner or by publication if such owner's address is unknown; and such owner shall have the right to acquire, as provided in this subsection, the property with respect to which the notice is given. Publication, if necessary, shall be in a newspaper of general circulation in the municipality where the property is located.

(4) When an entire parcel acquired by the municipality or any interest therein is being disposed of, it may be acquired under the right created in paragraph (3) of this subsection at such price as may be agreed upon, but in no event less than the price paid for its acquisition. When only remnants or portions of the original acquisition are being disposed of, they may be acquired for the market value thereof at the time the municipality decides the property is no longer needed.

(5) If the right of acquisition is not exercised within 60 days after due notice, the municipality shall proceed to sell such property as provided in subsection (a) of this Code section. The municipality shall thereupon have the right to reject any and all bids, in its discretion, to readvertise, or to abandon the sale.

(j)(1) As used in this subsection, the term:

(A) 'Conservation easement' shall have the same meaning as set forth in Code Section 44-10-2.

(B) 'Holder' shall have the same meaning as set forth in Code Section 44-10-2.

(2) Notwithstanding any provision of this Code section or of any other law or ordinance to the contrary, whenever the governing authority of any municipal corporation determines that the establishment of a conservation easement would be of benefit to the municipal corporation and to its citizens, such governing authority may sell or grant to any holder a conservation easement over any of its real property, including but not limited to any of its real property set aside for use as a park. These powers shall be cumulative of other powers and shall not be deemed to limit their exercise in any way provided, however, that a conservation easement may not be created, granted, or otherwise conveyed for the purpose of preventing, frustrating, or interfering with the exercise of the power of eminent domain by any public utility or other entity authorized to exercise the power of eminent domain.

(k)(1) Notwithstanding any provision of this Code section or any other law to the contrary, the General Assembly by local Act may authorize the governing authority of any municipal corporation to lease or enter into a contract for a valuable consideration for the operation and management, and renewals and extensions thereof, of any real or personal property comprising fairgrounds, ballfields, golf courses, swimming pools,
or other like property used primarily for recreational purposes for a period not to exceed five years to a nonprofit corporation which is qualified as exempt from taxation under the provisions of Section 501(c)(3) of the Internal Revenue Code of 1986 that will covenant to use and operate the property for annual regional fair purposes or to continue the recreational purpose for which the property was formerly used and intended on a nondiscriminatory basis for the use and benefit of all citizens of the community; provided, however, that nothing in this subsection shall have the effect of authorizing alienation of title to such property in derogation of rights, duties, and obligations imposed by prior deed, contract, or like document of similar import or that would cause the divesting of title to property dedicated to public use and not subsequently abandoned; and provided further, that the lessee or contractee under a management contract shall not mortgage or pledge the property as security for any debt or incur any encumbrance that could result in a lien or claim of lien against the property. The lease or management contract may provide for options to renew such lease or management contract for not more than three renewal periods and each such renewal period shall not be greater than the original length of such lease or management contract. As a condition of any lease or management contract, the lessee or contractee shall provide and maintain in force and effect throughout the term of such lease or management contract sufficient liability insurance, in an amount not less than $1 million per claim, no aggregate, naming the municipality as a named insured; shall assume sole responsibility for or incur liability for any injury to person or property caused by any act or omission of such person while on the property; and shall agree to indemnify the municipality and hold it harmless from any claim, suit, or demand made by such person. As an additional condition of any such lease or management contract, the lessee or contractee shall provide to and maintain with the municipality a current copy of the liability insurance policy, including any changes in such policy or coverages as such changes occur, and shall provide proof monthly in writing to the municipality that the lessee or contractee has in force and effect the liability insurance required by this paragraph which the municipality shall retain on file. As a further condition of any lease or management contract, the lessee or contractee shall agree to indemnify the municipality and hold it harmless from any claim, suit, or demand arising out of any improvements to the property or any indebtedness or obligations incurred by the lessee or contractee in making any such improvements to such property. When the lessee or contractee charges any person to enter or go upon the land for the purpose of attending the annual regional fair or for attending or participating in recreational purposes, the consideration received by the municipal corporation for the lease or management contract shall not be deemed a charge within the meaning of Article 2 of Chapter 3 of Title 51.

(2) Any governing authority entering into a lease as provided in paragraph (1) of this subsection shall have the right unilaterally to terminate such lease after giving three months' notice of its intention to do so.

(3) Any lease entered into as provided in paragraph (1) of this subsection shall be automatically terminated upon conviction of the lessee or contractee for any offense...
involving the conduct of unlawful activity. In such event, any improvements to the
property made by the lessee shall be forfeited. The municipality shall not be liable in
any manner or subject to suit for any indebtedness or other obligations of the lessee or
contractee associated with any such improvements to the property and shall take such
improvements free and clear of any such indebtedness or other obligations.

(l)(1) In addition to any other authorization or power, the governing authority of any
municipal corporation may lease or enter into a contract for valuable consideration for
the use, operation, or management of any real or personal property of the municipal
corporation; provided, however, that:

(A) Any lease or contract for the use, operation, or management of any real or
personal property for longer than 30 days shall be by sealed bids or by auction as
provided in subsection (a) of this Code section;

(B) Nothing in this subsection shall have the effect of authorizing alienation of title
to such property in derogation of rights, duties, and obligations imposed by prior
deed, contract, or like document of similar import or shall cause the divesting of title
to property dedicated to public use and not subsequently abandoned; and

(C) The lessee or contractee shall not mortgage or pledge the property, lease or
contract the property as security for any debt, or incur any encumbrance that could
result in a lien or claim of lien against the property, lease, or contract.

(2) As a condition of any lease or contract for the use, operation, or management of
any real or personal property for longer than 30 days:

(A) The lessee or contractee shall provide and maintain in force in effect
throughout the term of such lease or contract sufficient liability insurance, in an
amount not less than $1 million per claim, no aggregate, naming the municipality as
a named insured;

(B) The lessee or contractee shall assume sole responsibility for or incur liability
for any injury to person or property caused by any act or omission of any person
while on the property and shall agree to indemnify the municipality and hold it
harmless from any claim, suit, or demand made by any person; and

(C) The lessee or contractee shall agree to indemnify the municipality and hold it
harmless from any claim, suit, or demand arising out of any improvements to the
property or any indebtedness or obligations incurred by the lessee or contractee in
making any such improvement to such property.

(3) The initial term of a lease or contract for the use of real property shall be no
longer than five years and there may be one renewal period of no longer than five
years, after which the lease or contract shall again be subject to sealed bids or auction.
When the lessee or contractee charges any person to enter or go upon the real property
for recreational purposes, the consideration received by the municipal corporation for
the lease or contract shall not be deemed a charge within the meaning of Article 2 of
Chapter 3 of Title 51.

(4) This subsection shall apply to any lease or contract entered into or renewed on or
after July 1, 2010. This subsection shall not effect any provisions of subsection (k) of
this Code section."
SECTION 3.
This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 4.
All laws and parts of laws in conflict with this Act are repealed.

A BILL TO BE ENTITLED
AN ACT

To amend Title 12 of the Official Code of Georgia Annotated, relating to conservation and natural resources, so as to create the Georgia Geospatial Advisory Council; to provide for its members and purposes; to provide for reports; to provide for automatic repeal; to provide for related matters; to provide for an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Title 12 of the Official Code of Georgia Annotated, relating to conservation and natural resources, is amended by adding a new Code section to read as follows:

"12-5-9.
(a) As used in this Code section, the term:
(1) 'Director' means the director of the division.
(2) 'Division' means the Environmental Protection Division of the department.
(b) It is the intent of the General Assembly to provide the general public with access to reliable geospatial data, including but not limited to flood map modernization."
Currently, Georgia lacks many of the components which would provide for reliable data such as geospatial coordination and collaboration, policies, standards, state-wide geospatial datasets, current inventory, state-wide license agreements, business and strategic plans, trained work force, data life cycle support, and contract and program management support.

(b)(1) In order to provide reliable geospatial data to the public, there shall be created the Georgia Geospatial Advisory Council. The division shall coordinate the creation of such council. The division shall coordinate with state executive branch departments and agencies to appoint members of the council, which may consist of representatives from state departments and agencies, local governments, universities, regional commissions, or any other entity the division determines to be a stakeholder active in the development or consumption of reliable geospatial resources.

(2) The council shall meet initially upon the call of the director and shall elect a chairperson at the initial meeting. Subsequent meetings shall be called by the chairperson. The members of the council shall serve at the pleasure of the director. Councilmembers shall receive no compensation for their services as members of the council, but their travel expenses, if any, related to the performance of their official duties may be covered by the departments, agencies, or organizations they represent.

(3) The council shall audit Georgia's geospatial capabilities at county, regional, and state levels. The audit shall contain a complete status update and recommendations for utilizing the geospatial capabilities in Georgia to meet Federal Emergency Management Agency notification requirements, recommendations for moving forward to achieve governmental data interoperability and enhanced delivery of services to Georgia citizens through the geospatial approach, and any other information determined by the council to be necessary for the advancement of geospatial technology.

(4) The council shall closely coordinate its efforts with the Georgia Technology Authority to ensure compliance with all state and federal standards, contracts, and procedures.

(5) The reports generated by the council shall be made available on an annual basis by the department to the members of the General Assembly, all departments and agencies of state government, and all county and municipal governments and shall be posted on the Internet website of the department.

(c) The Board of Natural Resources shall promulgate such rules and regulations as may be reasonable and necessary for the administration of this Code section.

(d) This Code section shall stand repealed on June 30, 2012.

SECTION 2.
This Act shall become effective on July 1, 2010.

SECTION 3.
All laws and parts of laws in conflict with this Act are repealed.

(II) The period for which the lease applies must be no less than 30 days;
The lease agreement must provide, and the surrounding facts must reflect, that the leased equipment is exclusively committed to the lessee's use for the term of the lease;

All such reflectors shall be not less than four inches in diameter. The grand jury shall submit to the judge the names of ten such electors, a number of electors equal to twice the number of persons to be appointed and the appointment shall be made therefrom and shall be entered on the minutes of the court. When making such appointments when appropriate, the judge will designate one of the registrars as chief registrar who shall serve as such during such registrar's term of office, and such designation shall likewise be entered on the minutes of the court. It shall be the duty of the clerk of the superior court to certify the appointments and designation to the Secretary of State within 30 days after the appointments and designation, and commissions shall be issued as for county officers. When certifying such names to the Secretary of State, the clerk of the superior court shall also list the addresses of the registrars. Such judge will have the right to remove one or more of such registrars at any time for cause after notice and hearing. In the event the grand jury is in session at the time of any such death, removal, or resignation, such grand jury shall immediately submit the names of such electors to the judge for such appointment. Each such appointment or change in designation shall be entered on the minutes of the court and certified as provided in this Code section.

(b)(1) Appointees Except as otherwise provided in this subsection, appointees under this article shall serve for a term of four years and until their successors are appointed and qualified, except in the event of resignation or removal as provided in subsection (a) of this Code section. Their terms shall commence on July 1 and expire on June 30 four years thereafter.

(2) The first new grand jury which convenes in each county in the year 1965, and

From this list, the judge shall appoint two registrars to serve two-year terms of office and until their respective successors are appointed and qualified and not more than three registrars to serve four-year terms of office and until their respective successors are appointed and qualified. Thereafter, the first new grand jury which convenes in each county in each odd-numbered year shall submit to the judge a list of names equal to twice the number of registrars whose terms are to expire that year. From this list, the judge shall appoint successors to the registrars whose terms are expiring that year who shall then serve terms of office of four years and until their respective successors are selected and qualified.

(3) Such list of names shall be submitted to the judge, who shall appoint the registrars and designate the chief registrar, as needed, prior to June 30. No appointment for a full term shall be made prior to January 1 of the year in which the appointee is to take office. If no such grand jury is convened or, if convened but failed to recommend, the judge shall appoint the registrars without the necessity of any recommendation. In the event that a registrar holds over beyond the end of the registrar's term of office due to the failure to have a successor timely appointed and qualified, the successor shall be appointed to serve the remainder of the term of office and shall not receive a new four-year term of office."

"(a) The Secretary of State shall design, publish, and distribute voter registration application forms with which a person may apply to register to vote by completing and mailing the form to the Secretary of State or to the board of registrars of the person's county of residence. The Secretary of State shall forward the applications that he or she receives to the appropriate county board of registrars to determine the eligibility of the applicant and, if found eligible, to add the applicant's name to the list of electors and to place the applicant in the correct precinct and voting districts."
SECTION 10.
Said chapter is further amended by revising subsections (e) and (g) of Code Section 21-2-224, relating to official list of electors, as follows:

"(e) The county board of registrars shall deliver to the chief registrar of the municipality, upon a basis mutually agreed upon between the county board of registrars and the governing authority of the municipality, a copy of the list of electors for the municipality for the primary or election. Such list shall be delivered at least 14 days earlier than the fifth Monday prior to a primary or election and not later than 21 days prior to such primary or election for the purpose of permitting the chief registrar of the municipality to check the accuracy of the list. The municipal registrar shall, upon receipt of the county registration list, or as soon as practicable thereafter but in no event later than five days prior to such primary or election, review such list and identify in writing to the county board of registrars any names on the electors list of persons who are not qualified to vote at such primary or election, stating the reason for disqualification. The county board of registrars shall challenge the persons identified in accordance with Code Section 21-2-228. In addition, the county board of registrars shall provide a list of inactive electors for the municipality. The municipal registrar shall certify such lists and file with the city clerk a copy showing the names of electors entitled to vote at such primary or election."

"(g) The official list of electors and the official list of inactive electors prepared and distributed to the poll officers of each precinct shall include only the elector's name, address, ZIP Code, date of birth, voter identification number, a designation of whether the elector registered for the first time in this state and is required to comply with Code Section 21-2-216, a designation of whether the elector registered for the first time in this state by mail and is required to comply with Code Sections 21-2-220 and 21-2-417, congressional district, state Senate district, state House district, county commission district, if any, county or independent board of education district, if any, and municipal governing authority district designations, if any, and such other voting districts, if any. The official list of electors and the official list of inactive electors prepared and distributed to the poll officers of each precinct may also include codes designating that an elector has voted by absentee ballot, has been challenged, or has been sent mail by the registrars which has been returned marked undeliverable. No person whose name does not appear on the official list of electors shall vote or be allowed to vote at any election, except as otherwise provided in this article. The county registrars shall ensure that the information required to notify poll officers that an elector registered to vote for the first time in this state by mail and must comply with subsection (c) of Code Section 21-2-220 and subsection (c) of Code Section 21-2-417 is placed on each list of electors to be used at a polling place."

SECTION 11.
Said chapter is further amended by revising subsection (b) of Code Section 21-2-225, relating to confidentiality of original registration applications, as follows:

"(b) Except as provided in Code Section 21-2-225.1, all data collected and maintained

Information regarding an elector's year of birth shall be available for public inspection."

SECTION 12.
Said chapter is further amended by revising subsection (i) of Code Section 21-2-230, relating to challenge of persons on list of electors by other electors, as follows:
"(i) If the challenged elector appears at the polls to vote and it is not practical to conduct a hearing prior to the close of the polls or if the registrars begin a hearing and subsequently find that a decision on the challenge cannot be rendered within a reasonable time, the challenged elector shall be permitted to vote by casting a challenged ballot on the same type of ballot that is used by the county or municipality for mail-in absentee ballots. Such challenged ballot shall be sealed in double envelopes as provided in Code Section 21-2-384 and, after having the word 'Challenged' and the elector's name written across the back of the elector's ballot outer envelope, the ballot shall be deposited by the person casting such ballot in a secure, sealed ballot box notwithstanding the fact that the polls may have closed prior to the time the registrars make such a determination, provided that the elector proceeds to vote immediately after such determination of the registrars. In such cases, if the challenge is based upon the grounds that the challenged elector is not qualified to remain on the list of electors, the registrars shall proceed to finish the hearing prior to the certification of the consolidated returns of the election by the election superintendent. If the challenge is based on other grounds, no further action shall be required by the registrars. The election superintendent shall not certify such consolidated returns until such hearing is complete and the registrars have rendered their decision on the challenge. If the registrars deny the challenge, the superintendent shall proceed to certify the consolidated returns. If the registrars uphold the challenge, the name of the challenged elector shall be removed from the list of electors and the ballot of the challenged elector shall be rejected and not counted and, if necessary, the returns shall be adjusted to remove any votes cast by such elector. The elector making the challenge and the challenged elector may appeal the decision of the registrars in the same manner as provided in subsection (e) of Code Section 21-2-229."
SECTION 13.
Said chapter is further amended by revising subsection (a) of Code Section 21-2-235, relating to inactive list of electors, as follows:
"(a) In addition to the official list of electors, the Secretary of State shall also maintain an inactive list of electors. Notwithstanding any other provision of law to the contrary, the names of electors on the inactive list of electors shall not be counted in computing the number of ballots required for an election, the number of voting devices needed for a precinct, the number of electors required to divide or constitute a precinct, or the number of signatures needed on any petition. However, any elector whose name appears on the inactive list shall be eligible to sign a petition and such petition signature, if valid and regardless of the validity of the petition as a whole, shall be sufficient to return the elector to the official list of electors if the elector still resides at the address listed on the elector's registration records and shall be grounds to proceed under Code Section 21-2-234 to confirm the change of address of the elector if the elector provides a different address from the address which appears on the elector's registration records."

SECTION 14.
Said chapter is further amended by revising subsection (f) of Code Section 21-2-284, relating to the form of the official primary ballot, as follows:

"21-2-291.
Any other provision of law to the contrary notwithstanding, in the event there is no opposed candidate in a precinct in a special or general election, no special or general election shall be held in such precinct unless more than one write-in candidate has qualified as provided by law or unless there are issues to be submitted to the electorate. Except as provided in Code Section 21-2-158, each such unopposed candidate shall be deemed to have voted for himself or herself. Where feasible, the superintendent shall provide notice reasonably calculated to inform the affected electorate that no special or general election is to be conducted. The superintendent shall certify such unopposed candidate as elected in the same manner as he or she certifies other candidates as elected pursuant to Code Section 21-2-493."

SECTION 16.

(b) At least 30-45 days before a general primary or election or during the ten days before a special primary or election and at least 21 days before a municipal general primary or election or during the ten days before a municipal special primary or election, the superintendent shall place on public exhibition, in such public places and at such times as the superintendent shall deem most suitable for the information and instruction of the electors, a sample ballot to be used in such election. The sample ballot shall show the offices and questions to be voted upon, the names and arrangements of the political parties and bodies, and the names and arrangements of the candidates to be voted for. Such sample ballots shall be under the charge and care of a person who is, in the opinion of the superintendent, competent and qualified as an instructor concerning such ballots and voting procedures.

SECTION 17.

(b) An elector who requests an absentee ballot by mail or who casts an absentee ballot in person at the registrar's office or absentee ballot clerk's office shall

SECTION 18.
Said chapter is further amended by revising subsection (a) of Code Section 21-2-381, relating to making of application for an absentee ballot, as follows:

"(a)(1)(A) Except as otherwise provided in Code Section 21-2-219, not more than 180 days prior to the date of the primary or election, or runoff of either, in which the elector desires to vote, any absentee elector may make, either by mail, by facsimile transmission, or in person in the registrar's or absentee ballot clerk's office, an application for an official ballot of the elector's precinct to be voted at such primary, election, or runoff. Persons who are entitled to vote by absentee ballot under the federal Uniformed and Overseas Citizens Absentee Voting Act, 42 U.S.C. Section 1973ff, et seq., as amended, may additionally make application for an official ballot by electronic transmission.

(B) In the case of an elector residing temporarily out of the county or municipality or a physically disabled elector residing within the county or municipality, the application for the elector's absentee ballot may, upon satisfactory proof of relationship, be made by such elector's mother, father, grandparent, aunt, uncle, sister, brother, spouse, son, daughter, niece, nephew, grandchild, son-in-law, daughter-in-law, mother-in-law, father-in-law, brother-in-law, or sister-in-law of the age of 18 or over.

(C) The application shall be in writing and shall contain sufficient information for proper identification of the elector; the permanent or temporary address of the elector to which the absentee ballot shall be mailed; the identity of the primary, election, or runoff in which the elector wishes to vote; the reason for requesting the absentee ballot, if applicable; and the name and relationship of the person requesting the ballot if other than the elector.

(D) Except in the case of physically disabled electors residing in the county or municipality, no absentee ballot shall be mailed to an address other than the permanent mailing address of the elector as recorded on the elector's voter registration record or a temporary out-of-county or out-of-municipality address.

(E) Relatives applying for absentee ballots for electors must also sign an oath stating that facts in the application are true.

(F) If the elector is unable to fill out or sign such elector's own application because of illiteracy or physical disability, the elector shall make such elector's mark, and the person filling in the rest of the application shall sign such person's name below it as a witness.

(G) One timely and proper application for an absentee ballot for use in a primary or election shall be sufficient to require the mailing of the absentee ballot for such primary or election as well as for any runoffs resulting therefrom and for all primaries and elections for federal offices and any runoffs therefrom, including presidential preference primaries, held during the period beginning upon the receipt
of such absentee ballot application and extending through the second regularly scheduled general election in which federal candidates are on the ballot occurring thereafter to an eligible absentee elector who lives outside the county or municipality in which the election is held and is also a member of the armed forces of the United States, a member of the merchant marine of the United States, or a spouse or dependent of a member of the armed forces or the merchant marine residing with or accompanying said member or overseas citizen. (H) Any elector meeting criteria of advanced age or disability specified by rule or regulation of the State Election Board may request in writing on one application a ballot for a primary as well as for any runoffs resulting therefrom and for the election for which such primary shall nominate candidates as well as any runoffs resulting therefrom. If not so requested by such person, a separate and distinct application shall be required for each primary, run-off primary, election, and run-off election. Except as otherwise provided in this subparagraph, a separate and distinct application for an absentee ballot shall always be required for the presidential preference primary held pursuant to Article 5 of this chapter and for any special election or special primary.

(2) A properly executed registration card submitted under the provisions of subsection (b) of Code Section 21-2-219, if submitted within 180 days of a primary or election in which the registrant is entitled to vote, shall be considered to be an application for an absentee ballot under this Code section, or for a special absentee ballot under Code Section 21-2-381.1, as appropriate.

(3) All applications for an official absentee ballot that are distributed by a person, entity, or organization shall list thereon all of the legally acceptable categories of absentee electors contained in Code Section 21-2-380 and shall require the elector to select the category which qualifies the elector to vote by absentee ballot, if applicable. Such applications, if properly completed by the elector or other authorized person and returned to the registrar or absentee ballot clerk, as appropriate, shall be processed by the registrar or absentee ballot clerk and, if the elector is found to be qualified, an absentee ballot shall be mailed or delivered in the office of the registrar or absentee ballot clerk to such elector.

(4) In extraordinary circumstances as described in Code Section 21-2-543.1, the registrar or absentee ballot clerk shall determine if the applicants are eligible to vote under this Code section and shall either mail or issue the absentee ballots for the election for representative in the United States Congress to an individual entitled to make application for absentee ballot under subsection (d) of this Code section the same day any such application is received, so long as the application is received by 3:00 P.M., otherwise no later than the next business day following receipt of the application. In such cases, the absentee ballots shall be coded in such a way that the ballot of a challenged voter can be separated from other valid ballots at the time of tabulation until the challenge is resolved."

SECTION 21.
Said chapter is further amended by revising subsection (c) of Code Section 21-2-385, relating to procedure for voting by absentee ballot, as follows:
"(c) When an elector applies in person for an absentee ballot, after the absentee ballots have been printed, the absentee ballot shall may be issued to the elector at the time of the application therefor within the confines of the registrar's or absentee ballot clerk's office or may be mailed to the elector, depending upon the elector's request. If the ballot is issued to the elector at the time of application, and the elector shall then and there within the confines of the registrar's or absentee ballot clerk's office vote and return the absentee ballot as provided in subsections (a) and (b) of this Code section. The superintendent shall count such person's votes which were cast for candidates in those races for which the person was entitled to vote but shall not count the votes cast for candidates in those races in which such person was not entitled to vote. The superintendent shall order the proper election official at the tabulating center or precinct to prepare an accurate duplicate ballot containing only those votes cast by such person in those races in which such person was entitled to vote for processing at the tabulating center or precinct, which shall be verified in the presence of a witness. Such duplicate ballot shall be clearly labeled with the word 'Duplicate,' shall bear the designation of the polling place, and shall be given the same serial number as the original ballot. The original ballot shall be retained.

The candidate receiving the highest number of the votes cast in such run-off primary, special primary runoff, run-off election, or special election runoff to fill the nomination or public office sought shall be declared the winner. The name of a write-in candidate eligible for election in a runoff shall be printed on the election or special election run-off ballot in the independent column. The run-off primary, special primary runoff, run-off election, or special election runoff shall be a continuation of the primary, special primary, election, or special election for the particular office concerned. Only the electors who were duly registered to vote and not subsequently deemed disqualified to vote in the primary, special primary, election, or special election for candidates for that particular office shall be entitled to vote therein, and only those votes cast for the persons designated as candidates in such run-off primary, special primary runoff, run-off election, or special election runoff shall be counted in the tabulation and canvass of the votes cast. SECTION 1.

Title 48 of the Official Code of Georgia Annotated, relating to revenue and taxation, is amended by adding a new Code section to read as follows:

"48-7-40.29.
(a) As used in this Code section, the term:
(1) 'Cost' means the aggregate funds actually invested and expended by a taxpayer to put into service the qualified equipment."
(2) "Energy efficient equipment' means all machinery and equipment certified pursuant to rules and regulations promulgated for purposes of this Code section by the commissioner of natural resources, as effective in reducing business or domestic energy usage. Such certifications may include, by way of example and not limitation, any dishwasher, clothes washer, furnace, air conditioner, central heating and air conditioning system, ceiling fan, fluorescent light bulb, dehumidifier, programmable thermostat, refrigerator, energy efficient water heater, skylighting system, whole house fan, energy use meter, light-emitting diode lighting system, geothermal heating system, door, window, or window film which has been designated by the United States Environmental Protection Agency and the United States Department of Energy as meeting or exceeding each such agency's energy saving efficiency requirements or which have been designated as meeting or exceeding such requirements under each such agency's Energy Star program.

(3) 'Qualified equipment' means energy efficient equipment or water efficient equipment.

(4) 'Water efficient equipment' means all machinery and equipment certified pursuant to rules and regulations promulgated for purposes of this Code section by the commissioner of natural resources as effective in reducing business or domestic water usage. Such certifications shall include, by way of example and not limitation, water conservation systems capable of storing rain water or gray water for future use and reusing the collected water for the same residential or commercial property and other products used for the conservation or efficient use of water which have been designated by the United States Environmental Protection Agency as meeting or exceeding such agency's water saving efficiency requirements or which have been designated as meeting or exceeding such requirements under such agency's Water Sense program.

(b) Rules and regulations of the commissioner of natural resources shall establish classifications or categories of qualified equipment, and no item of such qualified equipment shall be included in more than one classification or category for purposes of claiming a tax credit under this Code section. The commissioner of natural resources, may take all reasonable and necessary steps to identify qualified equipment and to bring such equipment to the attention of taxpayers in this state qualified to install such equipment.

(c) After the effective date of this Code section, any taxpayer who is the ultimate purchaser of an item of qualified equipment for installation as part of new construction or for retrofit in this state shall be allowed a credit against the tax imposed under this article in the taxable year in which such qualified equipment was placed in service. The amount of the credit allowed under this Code section shall be 25 percent of the cost of the qualified equipment or $2,500.00, whichever is less.

(d) The credit granted under subsection (c) of this Code section shall be subject to the following conditions and limitations:

(1) The aggregate amount of credit which shall be claimed and allowed by taxpayers in any taxable year under this Code section shall be limited solely and exclusively to
the amount of federal funds granted to the state for purposes of this Code section. In any tax year in which no federal funds are available for such purposes, no credit shall be claimed and allowed under this Code section.

(2) A taxpayer that claims a credit allowed under this Code section shall not be eligible to claim such qualified equipment for the clean energy property credit provided in Code Section 48-7-29.14; and

(3) To claim a credit allowed by this Code section, the taxpayer shall provide any information required by the Department of Natural Resources or the department. Every taxpayer claiming a credit under this Code section shall maintain and make available for inspection by the Department of Natural Resources or the department any records that either entity considers necessary to determine and verify the amount of the credit to which the taxpayer is entitled. Any unused credit amount shall be allowed to be carried forward for five years from the close of the taxable year in which the qualified equipment was placed in service. No such credit shall be allowed the taxpayer against prior years' tax liability.

(f) After the qualified equipment is placed in service, a taxpayer seeking to claim any tax credit provided for under this Code section must submit an application to the commissioner for tentative approval of such tax credit. The commissioner shall promulgate the rules and forms on which the application is to be submitted. The commissioner shall review such application and shall tentatively approve such application upon determining that it meets the requirements of this Code section within 60 days after receiving such application.

(g) The commissioner shall allow the tax credits on a first come, first served basis. In no event shall the aggregate amount of tax credits approved by the commissioner for all taxpayers under this Code section exceed the amount of federal funds granted to the state for purposes of this Code section.

(h) The Department of Natural Resources and the department shall be authorized to adopt rules and regulations to provide for the administration of the tax credit provided by this Code section. Specifically, the Department of Natural Resources and the department shall create a mechanism to track and report the status and availability of credits for the public to review at a minimum on a quarterly basis."

(10) 'Registered' or 'registration' means that a business has been certified by the commissioner as a qualified business at the time of application to the commissioner.

(c) A qualified business shall register with the commissioner for purposes of this Code section. Approval of such registration shall constitute certification by the commissioner for 12 months after being issued. A business shall be permitted to renew its registration with the commissioner so long as, at the time of renewal, the business remains a qualified business.
(d) Any individual person making a qualified investment directly in a qualified business in the 2011, 2012, or 2013 calendar year shall be allowed a tax credit of 35 percent of the amount invested against the tax imposed by this chapter commencing on January 1 of the second year following the year in which the qualified investment was made as provided in this Code section.

(e) Any pass-through entity making a qualified investment directly in a qualified business in the 2011, 2012, or 2013 calendar year shall be allowed a tax credit of 35 percent of the amount invested against the tax imposed by this chapter commencing on January 1 of the second year following the year in which the qualified investment was made as provided in this Code section. Each individual who is a shareholder, partner, or member of an entity shall be allocated the credit allowed the pass-through entity in an amount determined in the same manner as the proportionate shares of income or loss of such pass-through entity would be determined. If an individual's share of the pass-through entity's credit is limited due to the maximum allowable credit under this Code section for a taxable year, the pass-through entity and its owners may not reallocate the unused credit among the other owners.

(f) Tax credits claimed pursuant to this Code section shall be subject to the following conditions and limitations:

1. The qualified investor is not eligible for the credit for the taxable year in which the qualified investment is made but shall be eligible for the credit for the second taxable year beginning after the qualified investment is made as provided in subsection (d) or (e) of this Code section;

2. The aggregate amount of credit allowed an individual for one or more qualified investments in a single taxable year under this Code section, whether made directly or by a pass-through entity and allocated to such individual, shall not exceed $50,000.00;

3. In no event shall the amount of the tax credit allowed an individual under this Code section for a taxable year exceed such individual's net income tax liability. Any unused credit amount shall be allowed to be carried forward for five years from the close of the taxable year in which the qualified investment was made. No such credit shall be allowed against prior years' tax liability;

4. The qualified investor's basis in the common or preferred stock, equity interest, or subordinated debt acquired as a result of the qualified investment shall be reduced for purposes of this chapter by the amount of the allowable credit;

6. To be eligible for the credit provided in this Code section, the qualified investor must file an application for the credit with the commissioner on or before June 30 of the year following the calendar year in which the qualified investment was made.

(g) The registration of a business as a qualified business shall be subject to the following conditions and limitations:

1. If the commissioner finds that any of the information contained in an application of a business for registration under this Code section is false, the commissioner shall
revoke the registration of such business. The commissioner shall not revoke the registration of a business solely because it ceases business operations for an indefinite period of time, as long as the business renews its registration;

(2) A registration as a qualified business may not be sold or otherwise transferred, except that, if a qualified business enters into a merger, conversion, consolidation, or other similar transaction with another business and the surviving company would otherwise meet the criteria for being a qualified business, the surviving company retains the registration for the 12 month registration period without further application to the commissioner. In such a case, the qualified business must provide the commissioner with written notice of the merger, conversion, consolidation, or similar transaction and such other information as required by the commissioner; and

(3) The commissioner shall report to the House Committee on Ways and Means and the Senate Finance Committee each year all of the businesses that have registered with the commissioner as a qualified business. The report shall include the name and address of each business, the location of its headquarters, a description of the types of business in which it engages, the number of jobs created by the business during the period covered by the report, and the average wages paid by these jobs.

(h) Any credit claimed under this Code section shall be recaptured in the following situations and shall be subject to the following conditions and limitations:

(1) If within two years after the qualified investment was made, the qualified investor transfers any of the securities or subordinated debt received in the qualified investment to another person or entity, other than a transfer resulting from one of the following:
   (A) The death of the qualified investor;
   (B) A transfer to the spouse of the qualified investor or incident to divorce; or
   (C) A merger, conversion, consolidation, sale of the qualified business's assets, or similar transaction requiring approval by the owners of the qualified business under applicable law, to the extent the qualified investor does not receive cash or tangible property in such merger, conversion, consolidation, sale, or other similar transaction;

(2) Except as provided in paragraph (1) of this subsection, if within five years after the qualified investment was made, the qualified business makes a redemption with respect to the securities received or pays any principal of the subordinated debt;

(3) If within two years after the qualified investment was made, the qualified investor participates in the operation of the qualified business. For the purpose of this paragraph, a qualified investor participates in the operation of a qualified business if the qualified investor, or the qualified investor's spouse, parent, sibling, or child, or a business controlled by any of these individuals, provides services of any nature to the qualified business for compensation, whether as an employee, a contractor, or otherwise. However, a person who provides uncompensated professional advice to a qualified business whether as an officer, a member of the board of directors or managers or otherwise or participates in a stock or membership option or stock or membership plan, or both, shall be eligible for the credit:
(4) The amount of the credit recaptured shall apply only to the qualified investment in the particular qualified business in which the investment was made;
(5) The amount of the recaptured tax credit determined under this subsection shall be added to the qualified investor's income tax liability for the taxable year in which the recapture occurs under this subsection; and
(6) In the event the credit is recaptured because the qualified business ceases business operations, dissolves, or liquidates, the qualified investor may claim either the credit authorized under this Code section or any capital loss the qualified investor otherwise would be able to claim regarding that qualified business, but shall not be authorized to claim and be allowed both.

(i)(1) A qualified investor seeking to claim a tax credit provided for under this Code section must submit an application to the commissioner for tentative approval of such tax credit between September 1 and October 31 of the year for which the tax credit is claimed or allowed. The commissioner shall promulgate the rules and forms on which the application is to be submitted. Amounts specified on such application shall not be changed by the qualified investor after the application is approved by the commissioner. The commissioner shall review such application and shall tentatively approve such application upon determining that it meets the requirements of this Code section.
(2) The commissioner shall provide tentative approval of the applications by the date provided in paragraph (3) of this subsection as follows:
   (A) The total aggregate amount of all tax credits allowed to qualified investors or pass-through entities for investments made in the 2011 calendar year and claimed and allowed in the 2013 taxable year shall not exceed $10 million in such year;
   (B) The total aggregate amount of all tax credits allowed to qualified investors or pass-through entities for investments made in the 2012 calendar year and claimed and allowed in the 2014 taxable year shall not exceed $10 million in such year; and
   (C) The total aggregate amount of all tax credits allowed to qualified investors or pass-through entities for investments made in the 2013 calendar year and claimed and allowed in the 2015 taxable year shall not exceed $10 million in such year.
(3) The commissioner shall notify each qualified investor of the tax credits tentatively approved and allocated to such qualified investor by December 31 of the year in which the application was submitted. In the event that the credit amounts on the tax credit applications filed with the commissioner exceed the maximum aggregate limit of tax credits under this subsection, then the tax credits shall be allocated among the qualified investors who filed a timely application on a pro rata basis based upon the amounts otherwise allowed by this Code section. Once the tax credit application has been approved and the amount approved has been communicated to the applicant, the qualified investor may then apply the amount of the approved tax credit to its tax liability for the tax year for which the approved application applies.

(j) The commissioner shall promulgate any rules and regulations necessary to implement and administer this Code section.
SECTION 3.
Said title is further amended in Code Section 48-7-29.14, relating to the income tax credit for certain clean energy property, by revising subparagraph (b)(4)(B) as follows:

"(B) The commissioner shall allow the tax credits on a first come, first served basis. In no event shall the aggregate amount of tax credits approved by the commissioner for all taxpayers under this Code section in a calendar year exceed the limitations specified in paragraph (3) of this subsection. In the event a taxpayer filed a timely application for such credit but is not allowed all or part of the credit amount to which such taxpayer would be authorized to receive because the limitations specified in paragraph (3) of this subsection have reached, such taxpayer may reapply in the following taxable year for a tax credit for those same eligible costs, and in such event, that taxpayer shall have priority over other taxpayers for credit allocation in the year of such reapplication;"

SECTION 4.
Said title is further amended by repealing and reserving Code Section 48-7A-1, relating to legislative findings and purposes regarding income tax credits for low-income residents.

SECTION 5.
Said title is further amended in Code Section 48-7A-3, relating to claiming and allowing low-income tax credits, by revising subsections (a) and (c) as follows:

"(a) Except as otherwise provided in subsection (e) of this Code section, each resident taxpayer who files an individual income tax return for a taxable year and who is not claimed or is not otherwise eligible to be claimed as a dependent by another taxpayer for federal or Georgia individual income tax purposes may claim a tax credit against the resident taxpayer's individual income tax liability for the taxable year for which the individual income tax return is being filed; provided that:

(1) A husband and wife filing a joint return shall each be deemed a dependent for purposes of such joint return; and

(2) A husband and wife filing separate returns for a taxable year for which a joint return could have been filed by them shall claim only the tax credit to which they would have been entitled had a joint return been filed; and

(3) A resident individual who has no income or no income taxable under Chapter 7 of this title and who is not claimed or is not otherwise eligible to be claimed as a dependent by a taxpayer for federal or Georgia individual income tax purposes may also claim a tax credit as set forth in this Code section."

"(c) The tax credit claimed by a resident taxpayer pursuant to this Code section shall be deductible from the resident taxpayer's individual income tax liability, if any, for the tax year in which it is properly claimed. In the event the tax credit claimed by a resident taxpayer exceeds the amount of income tax payment due from the resident taxpayer, the excess of the credit over payments due shall be refunded to the resident taxpayer, provided that a tax credit properly claimed by a resident individual who has no income
tax liability shall be paid to the resident individual; provided, further, that no refunds or payment on account of the tax credit allowed by this Code section shall be made for amounts less than $1.00.; provided, however, that in no event shall the total amount of the tax credit under this Code section for a taxable year exceed the taxpayer's income tax liability. Any unused credit amount shall not be allowed to be carried forward to the taxpayer's succeeding years' tax liability. No such credit shall be allowed the taxpayer against prior years' tax liability."

SECTION 6.
Said title is further amended in Code Section 48-8-203, relating to discontinuance of the water and sewer projects and costs tax and limitations on its reimposition, by revising paragraphs (2) and (3) of subsection (c) as follows:

"(2) A municipality in which a tax authorized by this article is in effect may, while the tax is in effect, adopt a resolution or ordinance calling for a reimposition of a tax as authorized by this article upon the termination of the tax then in effect; and a referendum may be held for this purpose while the tax is in effect. Proceedings for such reimposition shall not be conducted more than two three times; shall be in the same manner as proceedings for the initial imposition of the tax as provided for in Code Section 48-8-202 and shall be solely within the discretion of the governing authority of the municipality without regard to any requirement of county participation otherwise specified under subsection (a) of Code Section 48-8-201. Such newly authorized tax shall not be imposed until the expiration of the tax then in effect; provided, however, that in the event of emergency conditions under which a municipality is unable to conduct a referendum so as to continue the tax then in effect without interruption, the commissioner may, if feasible administratively, waive the limitations of subsection (a) of this Code section to the minimum extent necessary so as to permit the reimposition of a tax, if otherwise approved as required under this Code section, without interruption, upon the expiration of the tax then in effect.

(3) Following the expiration of a tax under this article which has been renewed two three times under paragraph (2) of this subsection, a municipality shall not be authorized to initiate proceedings for the reimposition of a tax under this article or to reimpose such tax."

SECTION 7.
(a) Except as otherwise provided in subsections (b) and (c) of this section, this Act shall become effective upon its approval by the Governor or upon its becoming law without such approval. Sections 3, 4, and 5 of this Act shall be applicable to all taxable years beginning on or after January 1, 2010.

(b) Section 2 of this Act shall become effective on January 1, 2011.

(c) Section 1 of this Act shall become effective on January 1 of the year following the year in which federal funds are made available for the purpose of funding the credit provided by Section 1 of this Act and in which the state auditor certifies in writing to the commissioner of natural resources and the state revenue commissioner that such funds
have been received, have been deposited in the general fund, and are available for purposes of Section 1 of this Act.

The following bill was taken up to consider House action thereto:

HB 1322. By Representatives Chambers of the 81st, Martin of the 47th, Powell of the 171st and Teilhet of the 40th:

A BILL to be entitled an Act to amend Code Section 50-18-72, relating to when public disclosure not required and disclosure of exempting legal authority, so as to make legislative findings; to define certain terms; to provide
that certain photographs fewer than five years old which are in the custody of a
law enforcement agency which show graphic images of the sexual organs or
the dismemberment of the dead body of a crime victim whose identity is
known shall not be subject to public disclosure; to provide for applicability; to
provide an effective date; to repeal conflicting laws; and for other purposes.

The House amendment to the Senate substitute was as follows:

Amend the Senate substitute to HB 1322 by striking lines 1 through 41 and inserting in
lieu thereof the following:

To amend Code Section 45-16-27 of the Official Code of Georgia Annotated, relating to
when inquest to be held, special situations, coroner's fee, issuance of subpoenas for
books, records, or papers, cost of copying, and limited disclosure of photographs, so as to
provide a short title; to provide for legislative findings; to provide that certain crime
scene material shall not be subject to the provisions of Article 4 of Chapter 18 of Title 50
of the Official Code of Georgia Annotated; to provide for release to a victim's next of
kin; to provide for judicial action; to provide for notification; to provide for viewing of
such material by the press; to provide for applicability; to provide an effective date; to
repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.
This Act shall be known and may be cited as the "Meredith Emerson Memorial Privacy
Act."

SECTION 2.
The General Assembly finds that photographs or video recordings of certain crime scene
photos depict the deceased in graphic and often disturbing fashion. Such photographs or
video may depict or describe the deceased nude, grossly dismembered, or decapitated.
As such photographs or video recordings are highly sensitive depictions of the deceased
which, if viewed, copied, or publicized, could result in trauma, sorrow, humiliation, or
emotional injury to the immediate family of the deceased, as well as injury to the memory
of the deceased. The legislature finds that the existence of certain publications and the
Internet and the proliferation of personal computers throughout the world encourages and
promotes the wide dissemination of photographs and video recordings 24 hours a day and
that widespread unauthorized dissemination of such images would subject the immediate
family of the deceased to continuous injury.

SECTION 3.
Code Section 45-16-27 of the Official Code of Georgia Annotated, relating to when
inquest to be held, special situations, coroner's fee, issuance of subpoenas for books,
records, or papers, cost of copying, and limited disclosure of photographs, is amended by
adding a new subsection to read as follows:

"(e)(1) Crime scene photographs and video recordings, including photographs and video recordings created or produced by a state or local agency or by a perpetrator or suspect at a crime scene, which depict or describe a deceased person in a state of dismemberment, decapitation, or similar mutilation including, without limitation, where the deceased person's genitalia are exposed, shall not be subject to disclosure pursuant to Article 4 of Chapter 18 of Title 50; provided, however, that this subsection shall not prohibit disclosure of such material to the deceased's next of kin or to an individual who has secured a written release from the next of kin. It shall be the responsibility of the next of kin to show proof of the familial relationship. For purposes of such access, the deceased's next of kin shall be:

(A) The spouse of the deceased if living;
(B) If there is no living spouse of the deceased, an adult child of the deceased; or
(C) If there is no living spouse or adult child, a parent of the deceased.

(2) Subject to the provisions of paragraph (3) of this subsection, in the case of closed criminal investigations a superior court may order the disclosure of such photographs or video recordings upon findings in writing that disclosure is in the public interest and outweighs any privacy interest that may be asserted by the deceased person's next of kin. In making such determination, the court shall consider whether such disclosure is necessary for public evaluation of governmental performance, the seriousness of the intrusion into the family's right to privacy, and whether such disclosure is the least intrusive means available considering the availability of similar information in other public records. In any such action, the court shall review the photographs in question in camera with the custodian of crime scene materials present and may condition any disclosure on such condition as the court may deem necessary to accommodate the interests of the parties.

(3) Prior to releasing any crime scene material described in paragraph (1) of this subsection, the custodian of such material shall give the deceased person's next of kin at least two weeks' notice. No court shall order a disclosure pursuant to paragraph (2) of this subsection which would disregard or shorten the duration of such notice requirement.

(4) The provisions of this subsection shall apply to all undisclosed material which is in the custody of a state or local agency on the effective date of this subsection and to any such material which comes into the custody of a state or local agency after such date.

(5) This subsection shall not apply to disclosure of crime scene material to counsel representing a convicted defendant in a habeas corpus action pursuant to Chapter 14 of Title 9, on an extraordinary motion for new trial under Code Section 5-5-40 or 5-5-41, or in a federal habeas corpus action under Section 2254 or 2255 of Title 28 of the United States Code for the purpose of preparing to file or litigating such proceedings. Counsel may disclose such materials to his or her client and any expert or investigator assisting counsel but shall not otherwise disseminate such materials, except to the extent they may be necessary exhibits in court proceedings. A request pursuant to this
paragraph shall clearly state that such request is being made for the purpose of preparing to file and litigate proceedings enumerated in this paragraph.

(6) The director of the Georgia Bureau of Investigation and the Board of Public Safety shall promulgate rules and regulations governing the viewing of materials described in paragraph (1) of this subsection by bona fide credentialed members of the press."

SECTION 4.
This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 5.
All laws and parts of laws in conflict with this Act are repealed.

The department shall include language in the uniform traffic citation stating that failure to appear and respond to such citation shall result in the suspension of the violator's driver's license or nonresident driving privilege. The language reflected on a uniform traffic citation issued in this state shall be sufficient notice of said suspension to support a conviction for a violation of Code Section 40-5-121 if such person drives subsequent to the imposition of such a suspension following his or her failure to appear. Notwithstanding the foregoing, the department shall send notice of any suspension imposed pursuant to this Code section. Such notice shall be sent via certified mail to the address reflected on its records as the person's mailing address. The mailing of such notice by the department shall be deemed conclusively to be notice to such person of the suspension of his or her driver's license and shall be deemed to satisfy all notice requirements of law, and no further
notice to the owner shall be required for the suspension provided for in this Code section. Proof of receipt of said notice shall be admissible to support a conviction for a violation of Code Section 40-5-121 if such person drives subsequent to the imposition of such a suspension following his or her failure to appear."

SECTION 14.
Said title is further amended in Code Section 40-5-64, relating to limited driving permits for certain offenders, by revising subsections (d) and (e) as follows:

"(d) Conditions attached. A limited driving permit shall be endorsed with such conditions as the commissioner deems necessary to ensure that such permit will be used by the permittee only to avoid the conditions of extreme hardship. Such conditions may include the following restrictions:

A person may apply to the department for a limited driving permit immediately following such conviction if he or she has surrendered his or her driver's license to the court in which the conviction was adjudged or to the department if the department has processed the citation or conviction. Upon the applicant's execution of an affidavit attesting to such facts and to the fact that the court had not imposed a suspension or revocation of his or her driver's license or driving privileges inconsistent with the driving privileges to be conferred by the limited driving permit applied for, the department may issue such person a limited driving permit. Permits issued pursuant to this Code section are renewable upon payment of a renewal fee of $5.00. Permits may be renewed until the person has his or her license reinstated for the violation that was the basis of the issuance of the permit. Upon payment of a fee in an amount the same as that provided by Code Section 40-5-25 for issuance of a Class C driver's license, a person may be issued a replacement for a lost or destroyed probationary driver's license limited driving permit issued to him or her."

Any court in which such conviction is had shall require the permittee to surrender the permit to the court, and the court shall forward it to the department within ten days after the conviction, with a copy of the conviction. Any person whose limited driving permit has been revoked shall not be eligible to apply for a driver's license until six months from the date such permit was surrendered to the department."

"(i) Notwithstanding any other provision of this chapter to the contrary, the suspension imposed pursuant to this Code section shall be in addition to and run consecutively to any other suspension imposed by the department at the time of the conviction that results in said suspension. If the person has never been issued a driver's license in the State of Georgia or holds a driver's license issued by another state, the person shall not be eligible for a driver's license for the applicable period of suspension following his or her submission of an application for issuance thereof."

Amend Code Section 50-18-72, relating to exceptions to the requirement for disclosure of public records, so as to provide for exemption from disclosure of certain law enforcement and emergency response records which contain audio or video recordings of personal suffering; to provide for release to a victim's next of kin; to provide for judicial action; to provide for notification; to provide for viewing of such material by the press; to provide for disclosure under certain conditions;

By renumbering Section 2 as Section 3.

By striking "and" at the end of line 44, by striking the period and quotation mark and inserting "; and" at the end of line 47, and by inserting after line 47 the following:

(D) Funds for such purposes are distributed pursuant to an intergovernmental agreement between the local governments whose citizens are served by the emergency 9-1-1 system proportionately by population determined by using the most recently completed United States decennial census figures."

SECTION 2.

Code Section 50-18-72, relating to exceptions to the requirement for disclosure of public records, is amended by adding to subsection (a) a new paragraph to read as follows: "(2.1)(A) As used in this paragraph, the term 'natural disaster' means any natural disaster for which a state of emergency is proclaimed by the Governor.

(B) Records of an emergency 9-1-1 system containing audio recordings when:

(i) Such audio recordings consist of or contain the personal suffering leading up to the death of a victim of a natural disaster, including expressions of physical pain, distress, or terror; and

(ii) Public dissemination of such records would cause emotional distress to the person whose suffering was so recorded or to the family of such person.

(C) Records described in this paragraph shall be exempt from disclosure under this article by the law enforcement agency or other agency in possession; and if such
records are used in evidence in any judicial or administrative proceeding, the tribunal may place such records under seal or otherwise prohibit their reproduction or distribution.

(D) This paragraph shall not prohibit disclosure of such material to the deceased's next of kin or to an individual who has secured a written release from the next of kin. It shall be the responsibility of the next of kin to show proof of the familial relationship. For purposes of such access, the deceased's next of kin shall be:

(ii) If there is no living spouse of the deceased, an adult child of the deceased; or
(iii) If there is no living spouse or adult child, a parent of the deceased.

(E) Subject to the provisions of subparagraph (F) of this paragraph, in the case of closed criminal investigations a superior court may order the disclosure of such recordings upon findings in writing that disclosure is in the public interest and outweighs any privacy interest that may be asserted by the deceased person's next of kin. In making such determination, the court shall consider whether such disclosure is necessary for public evaluation of governmental performance and the seriousness of the intrusion into the family's right to privacy. In any such action, the court shall review the recordings in question in camera with the custodian of crime scene materials present and may condition any disclosure on such condition as the court may deem necessary to accommodate the interests of the parties.

(F) Prior to releasing any recordings described in subparagraph (B) of this paragraph, the custodian of such material shall give the deceased person's next of kin at least two weeks' notice. No court shall order a disclosure pursuant to subparagraph (E) of this paragraph which would disregard or shorten the duration of such notice requirement.

(G) The provisions of this paragraph shall apply to all undisclosed material which is in the custody of a state or local agency on the effective date of this subsection and to any such material which comes into the custody of a state or local agency after such date.

(H) This paragraph shall not apply to disclosure of crime scene material to counsel representing a convicted defendant in a habeas corpus action pursuant to Chapter 14 of Title 9, or in an extraordinary motion for new trial under Code Section 5-5-40 or 5-5-41, or in a federal habeas corpus action under Section 2254 or 2255 of Title 28 of the United States Code for the purpose of preparing to file or litigating such proceedings. Counsel may disclose such materials to his or her client and any expert or investigator assisting counsel but shall not otherwise disseminate such materials, except to the extent they may be necessary exhibits in court proceedings. (e) The agency may prepare a plan to provide electronic data base prescription information to a prescription review program in another state if the confidentiality, security, privacy, and utilization standards of the requesting state are determined to be equivalent to those of the agency.

(f) Any person who receives electronic data base prescription information or related reports relating to Code Sections 16-13-57 through 16-13-64 from the agency shall not provide such data or reports to any other person except by order of a court of competent jurisdiction or as otherwise permitted pursuant to Code Sections 16-13-57 through 16-13-64.

(g) Any permissible user identified in Code Sections 16-13-57 through 16-13-64 who directly accesses electronic data base prescription information shall implement and maintain a comprehensive information security program that contains administrative, technical, and physical safeguards that are appropriate to the user's size and complexity and to the sensitivity of the personal information obtained. The permissible user shall identify reasonably foreseeable internal and external risks to the security, confidentiality, and integrity of personal information that could result in the unauthorized disclosure, misuse, or other compromise of the information and shall assess the sufficiency of any safeguards in place to control the risks.

16-13-61.

(a) There is established an Electronic Database Review Advisory Committee for the
purposes of consulting with and advising the agency solely on matters related to implementation of Code Sections 16-13-57 through 16-13-64. This shall include, but shall not be limited to, data collection, regulation of access to data, evaluation of data to identify irregular patterns indicating possible illegal abuse, communication to prescribers and dispensers as to the intent of the data collection and analysis and how to use the data base, and security of data collected.

(b) The advisory committee shall consist of eight members as follows:

(1) A representative from the agency;
(2) A representative from the Georgia Composite Medical Board, appointed by the Governor;
(3) A representative from the Georgia Board of Dentistry, appointed by the Lieutenant Governor;
(4) A consumer representative, appointed by the Speaker of the House of Representatives;
(5) A representative from the Georgia Chapter of the American Society of Addictive Medicine, appointed by the Governor;
(6) A representative from the Georgia Society of Clinical Oncology, appointed by the Speaker of the House of Representatives;
(7) A representative from a hospice or hospice organization, appointed by the Lieutenant Governor; and
(8) A representative from the State Board of Pharmacy, appointed by the Governor.

(c) Each member of the advisory committee shall serve a three-year term or until the appointment and qualification of such member's successor.

(d) The advisory committee shall elect a chairperson and vice chairperson from among its membership to serve a term of one year; provided, however, that the member appointed pursuant to paragraph (1) of subsection (b) of this Code section shall not be eligible to serve as the chairperson or vice chairperson. The vice chairperson shall serve as the chairperson at times when the chairperson is absent.

(e) The advisory committee shall meet at the call of the chairperson or upon request by at least three of the members and shall meet at least one time per year. Five members of the committee shall constitute a quorum.

(f) The members shall receive no compensation or reimbursement of expenses from the state for their services as members of the advisory committee.

16-13-62.

(a) The advisory committee established in Code Section 16-13-61 shall establish rules and regulations to implement the requirements of Code Sections 16-13-57 through 16-13-64. Nothing in Code Sections 16-13-57 through 16-13-64 shall be construed to authorize the advisory committee to establish policies, rules, or regulations which limit, revise, or expand or purport to limit, revise, or expand any prescription or dispensing authority of any prescriber or dispenser subject to Code Sections 16-13-57 through 16-13-64. Nothing in Code Sections 16-13-57 through 16-13-64 shall be construed to impede, impair, or limit a prescriber from prescribing pain medication in accordance...
with the pain management guidelines developed and adopted by the Georgia Composite Medical Board.

(b) Rules established by the advisory committee pursuant to this Code section shall be adopted, promulgated, and implemented as provided in this Code section and in Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act,' except that the advisory committee shall not be required to comply with subsections (c) through (g) of Code Section 50-13-4.

(c) The advisory committee shall transmit three copies of the notice provided for in paragraph (1) of subsection (a) of Code Section 50-13-4 to the legislative counsel. The copies shall be transmitted at least 30 days prior to the advisory committee's intended action. Within five days after receipt of the copies, if possible, the legislative counsel shall furnish the presiding officer of each house with a copy of the notice and mail a copy of the notice to each member of the Senate Health and Human Services Committee, the House Committee on Health and Human Services, the Senate Judiciary Committee, and the House Committee on Judiciary, Non-civil. Each such rule and any part thereof shall be subject to the making of an objection by any such committee within 30 days of transmission of the rule to the members of such committees. Any rule or part thereof to which no objection is made by two or more such committees may become adopted by the advisory committee at the end of such 30 day period. The advisory committee shall not adopt any such rule or part thereof which has been changed since having been submitted to those committees unless:

1. That change is to correct only typographical errors;
2. That change is approved in writing by such committees and that approval expressly exempts that change from being subject to the public notice and hearing requirements of subsection (a) of Code Section 50-13-4;
3. That change is approved in writing by such committees and is again subject to the public notice and hearing requirements of subsection (a) of Code Section 50-13-4; or
4. That change is again subject to the public notice and hearing requirements of subsection (a) of Code Section 50-13-4 and the change is submitted and again subject to committee objection as provided in this subsection.

Nothing in this subsection shall prohibit the advisory committee from adopting any rule or part thereof without adopting all of the rules submitted to the committees if the rule or part so adopted has not been changed since having been submitted to the committees and objection thereto was not made by such committees.

(d) Any rule or part thereof to which an objection is made by two or more committees within the 30 day objection period under subsection (c) of this Code section shall not be adopted by the advisory committee and shall be invalid if so adopted. A rule or part thereof thus prohibited from being adopted shall be deemed to have been withdrawn by the advisory committee unless the advisory committee, within the first 15 days of the next regular session of the General Assembly, transmits written notification to each member of the objecting committees that the advisory committee does not intend to withdraw that rule or part thereof but intends to adopt the specified rule or part effective the day following adjournment sine die of that regular session. A resolution objecting
to such intended adoption may be introduced in either branch of the General Assembly after the fifteenth day but before the thirtieth day of the session in which occurs the notification of intent not to withdraw a rule or part thereof. In the event the resolution is adopted by the branch of the General Assembly in which the resolution was introduced, it shall be immediately transmitted to the other branch of the General Assembly. It shall be the duty of the presiding officer of the other branch to have that branch, within five days after receipt of the resolution, consider the resolution for purposes of objecting to the intended adoption of the rule or part thereof. Upon such resolution being adopted by two-thirds of the vote of each branch of the General Assembly, the rule or part thereof objected to in that resolution shall be disapproved and not adopted by the advisory committee. If the resolution is adopted by a majority but by less than two-thirds of the vote of each such branch, the resolution shall be submitted to the Governor for his or her approval or veto. In the event of a veto, or if no resolution is introduced objecting to the rule, or if the resolution introduced is not approved by at least a majority of the vote of each such branch, the rule shall automatically become adopted the day following adjournment sine die of that regular session. In the event of the Governor's approval of the resolution, the rule shall be disapproved and not adopted by the advisory committee.

(e) Any rule or part thereof which is objected to by only one committee under subsection (c) of this Code section and which is adopted by the advisory committee may be considered by the branch of the General Assembly whose committee objected to its adoption by the introduction of a resolution for the purpose of overriding the rule at any time within the first 30 days of the next regular session of the General Assembly. It shall be the duty of the advisory committee in adopting a proposed rule over such objection to notify the chairpersons of the Senate Health and Human Services Committee, the House Committee on Health and Human Services, the Senate Judiciary Committee, and the House Committee on Judiciary, Non-civil within ten days after the adoption of the rule. In the event the resolution is adopted by such branch of the General Assembly, it shall be immediately transmitted to the other branch of the General Assembly. It shall be the duty of the presiding officer of the other branch of the General Assembly to have such branch, within five days after the receipt of the resolution, consider the resolution for the purpose of overriding the rule. In the event the resolution is adopted by two-thirds of the votes of each branch of the General Assembly, the rule shall be void on the day after the adoption of the resolution by the second branch of the General Assembly. In the event the resolution is ratified by a majority but by less than two-thirds of the votes of either branch, the resolution shall be submitted to the Governor for his or her approval or veto. In the event of a veto, the rule shall remain in effect. In the event of the Governor's approval, the rule shall be void on the day after the date of approval.

(f) Any proceeding to contest any rule on the ground of noncompliance with this Code section must be commenced within two years from the effective date of the rule.

(g) For purposes of this Code section, 'rules' shall mean rules and regulations.

(h) The agency shall ensure that the prescription information in the data base shall only
be used or reviewed for the purposes delineated in Code Section 16-13-57. No review or access to prescription information shall be authorized except in accordance with the guidelines established by the advisory committee. No prescription information shall be accessed on a random basis but shall only be accessed based on patterns detected through the data base indicating possible illegal abuse, which may include factors such as multiple prescriptions in a relatively short period of time to the same individual for the same monitored controlled substance from the same prescriber. No agency staff member, contractor, or agent or other individual accessing the data base shall be authorized to review or access individual or other prescription information in the data base except in accordance with this Code section.

(i) Upon detection of a pattern indicating possible illegal abuse, the agency shall be authorized to investigate the circumstances and, based on their findings, shall be authorized to refer an incident, as appropriate, to the board responsible for regulating the dispenser or prescriber, to appropriate law enforcement authorities, or to both.

(j) The agency shall annually report to the General Assembly aggregated, nonidentifying data on the number of occurrences identified for investigation and the resolution, if known.

16-13-63.
Nothing in Code Sections 16-13-57 through 16-13-64 shall require a dispenser or prescriber to obtain information about a patient from the prescription monitoring program established pursuant to Code Sections 16-13-57 through 16-13-64. A dispenser or prescriber shall not have a duty and shall not be held liable for damages to any person in any civil, criminal, or administrative action for injury, death, or loss to person or property on the basis that the dispenser or prescriber did or did not seek or obtain information from the electronic prescriptions data base established pursuant to Code Section 16-13-57.

16-13-64.
(a) A dispenser who knowingly and intentionally fails to submit electronic data base prescription information to the agency as required by Code Sections 16-13-57 through 16-13-64 or knowingly and intentionally submits incorrect prescription information shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished for each such offense by imprisonment for a period not to exceed 12 months, a fine not to exceed $1,000.00, or both, and such actions shall be reported to the board responsible for issuing such dispenser's dispensing license for action to be taken against such dispenser's license.

(b)(1) An individual authorized to access electronic data base prescription information pursuant to Code Sections 16-13-57 through 16-13-64 who negligently uses, releases, or discloses such information in a manner or for a purpose in violation of Code Sections 16-13-57 through 16-13-64 shall be guilty of a misdemeanor. Any person who is convicted of negligently using, releasing, or disclosing such information in violation of Code Sections 16-13-57 through 16-13-64 shall, upon the
second or subsequent conviction, be guilty of a felony and shall be punished by imprisonment for not less than one nor more than three years, by a fine not to exceed $5,000.00, or by both.

(2) Any individual who accesses electronic data base prescription information who knowingly and intentionally uses, releases, or discloses such information in a manner or for a purpose in violation of Code Sections 16-13-57 through 16-13-64 shall be guilty of a felony and, upon conviction thereof, shall be punished by imprisonment for not less than two nor more than ten years, by a fine not to exceed $100,000.00, or by both. Any person who is convicted of knowingly and intentionally using, releasing, or disclosing such information in violation of Code Sections 16-13-57 through 16-13-64 shall, upon the second or subsequent conviction, be guilty of a felony and shall be punished by imprisonment for not less than three nor more than 15 years, by a fine not to exceed $250,000.00, or by both.

(c) Any person who knowingly requests, obtains, or attempts to obtain electronic data base prescription information pursuant to Code Sections 16-13-57 through 16-13-64 under false pretenses, or who knowingly communicates or attempts to communicate electronic data base prescription information to any board, agency, or person except in accordance with Code Sections 16-13-57 through 16-13-64, or any member, officer, employee, or agent of the agency or the advisory council, or any person who knowingly falsifies electronic data base prescription information or any records relating thereto shall be guilty of a felony and, upon conviction thereof, shall be punished for each such offense by imprisonment for not less than one year nor more than two years, by a fine not to exceed $5,000.00, or by both.

(d) Any person who is injured by reason of any violation of Code Sections 16-13-57 through 16-13-64 shall have a cause of action for the actual damages sustained and, where appropriate, punitive damages. Such person may also recover attorney's fees in the trial and appellate courts and the costs of investigation and litigation reasonably incurred.

(e) The penalties provided by this Code section are intended to be cumulative of other penalties which may be applicable and are not intended to repeal such other penalties."

SECTION 3.
This Act shall become effective on July 1, 2010.

SECTION 4.
All laws and parts of laws in conflict with this Act are repealed.

(0.5) 'Addiction' means a primary, chronic, neurobiologic disease with genetic, psychosocial, and environmental factors influencing its development and manifestations. It is characterized by behaviors that include the following: impaired control drug use, craving, compulsive use, and continued use despite harm. Physical dependence and tolerance are normal physiological consequences of extended opioid therapy for pain and are not the same as addiction.

(1) 'Administer' means the direct application of a controlled substance, whether by injection, inhalation, ingestion, or by any other means, to the body of a patient or research subject by:

(A) A practitioner or, in his or her presence, by his or her authorized agent; or

(B) The patient or research subject at the direction and in the presence of the practitioner.

(2) 'Agent' of a manufacturer, distributor, or dispenser means an authorized person who acts on behalf of or at the direction of a manufacturer, distributor, or dispenser. It does not include a common or contract carrier, public warehouseman, or employee of the carrier or warehouseman.

   (A) A controlled substance which, or the container or labeling of which, without authorization, bears the trademark, trade name, or other identifying mark, imprint, number, or device, or any likeness thereof, of a manufacturer, distributor, or dispenser other than the person who in fact manufactured, distributed, or dispensed the controlled substance;
   (B) A controlled substance or noncontrolled substance, which is held out to be a controlled substance or marijuana, whether in a container or not which does not bear a label which accurately or truthfully identifies the substance contained therein; or

Adaptation that is manifested by drug class specific signs and symptoms that can be produced by abrupt cessation, rapid dose reduction, decreasing blood level of the drug, and administration of an antagonist. Physical dependence, by itself, does not equate with addiction.

(9) 'Dispense' means to deliver a controlled substance to an ultimate user or research subject by or pursuant to the lawful order of a practitioner, including the prescribing, administering, packaging, labeling, or compounding necessary to prepare the substance for that delivery, or the delivery of a controlled substance by a practitioner, acting in the normal course of his or her professional practice and in accordance with this article, or to a relative or representative of the person for whom the controlled substance is prescribed.

substances for long-term care patients or inpatient hospice facilities;
(B) An institutional pharmacy that serves only a health care facility, including, but not limited to, a nursing home, an intermediate care home, a personal care home, or a hospice program, which provides inpatient care and which pharmacy dispenses such substances to be administered and used by a patient on the premises of the facility;

controlled substance in the course of his or her professional practice; or

for the purpose of, or as an incident to, research, teaching, or chemical analysis and
not for sale.

"16-13-57.
(a) Subject to funds as may be appropriated by the General Assembly or otherwise available for such purpose, the board shall, in consultation with members of the Georgia Composite Medical Board, establish and maintain a method to electronically record into a data base prescription information which results in the dispensing of Schedule II or III controlled substances and to electronically review such prescription information that has been entered into such data base. The purpose of such electronic data base and review process shall be to assist in the reduction of the abuse of controlled substances, to improve, enhance, and encourage a better quality of health care by promoting the proper use of medications to treat pain and terminal illness, and to reduce duplicative prescribing and overprescribing of controlled substance practices.
(b) Such electronic data base and review process shall be administered by the board at the direction and oversight of the board.

16-13-58.
(a) The board shall apply for available grants and may accept any gifts, grants, donations, and other funds, including funds from the disposition of forfeited property, to assist in developing and maintaining the electronic data base established pursuant to Code Section 16-13-57.
(b) The board shall be authorized to grant funds to dispensers for the purpose of covering costs for dedicated equipment and software for dispensers to use in complying with the reporting requirements of Code Section 16-13-59. Such grants shall be funded by gifts, grants, donations, or other funds, including funds from the disposition of forfeited property, received by the board for the operation of the electronic data base established pursuant to Code Section 16-13-57. The board shall be authorized to establish standards and specifications for any equipment and software purchased pursuant to a grant received by a dispenser pursuant to this Code section. Nothing in Code Sections 16-13-57 through 16-13-64 shall be construed to require a dispenser to incur costs to purchase equipment and software to comply with such Code sections.
(c) Nothing in Code Sections 16-13-57 through 16-13-64 shall be construed to require any appropriation of state funds.

16-13-59.

(b) Each dispenser shall submit the prescription information in accordance with transmission methods and frequency requirements established by the board on a weekly basis and shall report, at a minimum, prescriptions dispensed up to 72 hours prior to data submission. If a dispenser is temporarily unable to comply with this subsection due to an equipment failure or other circumstances, such dispenser shall notify the board.

(c) The board may issue a waiver to a dispenser that is unable to submit prescription information by electronic means acceptable to the board. Such waiver may permit the dispenser to submit prescription information to the board by paper form or other means, provided all information required in subsection (a) of this Code section is submitted in this alternative format subject to the frequency requirements of subsection (b) of this Code section. Requests for waivers shall be submitted in writing to the board.

Where a local sales or use tax has been paid with respect to tangible personal property
by the purchaser either in another local tax jurisdiction within the state or in a tax
jurisdiction outside the state, the tax may be credited against the tax authorized to be
imposed by this article upon the same property. If the amount of sales or use tax so
paid is less than the amount of the use tax due under this article, the purchaser shall pay
an amount equal to the difference between the amount paid in the other tax jurisdiction
and the amount due under this article. The commissioner may require such proof of
payment in another local tax jurisdiction as he or she deems necessary and proper. No
credit shall be granted, however, against the tax imposed under this article for tax paid
in another jurisdiction if the tax paid in such other jurisdiction is used to obtain a credit
against any other local sales and use tax levied in the county or municipality or in a
special district which includes the county or municipality.

48-8-251.
No tax provided for in this article shall be imposed upon the sale of tangible personal
property which is ordered by and delivered to the purchaser at a point outside the
delivery area of the county in which the tax is imposed regardless of the point at
which title passes if the delivery is made by the seller's vehicle, United States mail, or
common carrier or by private or contract carrier licensed by the Interstate Commerce
Commission or the Georgia Public Service Commission.

48-8-252.
No tax provided for in this article shall be imposed upon the sale or use of building and
construction materials when the contract pursuant to which the materials are purchased
or used was advertised for bid prior to the voters' approval of the levy of the tax and the
contract was entered into as a result of a bid actually submitted in response to the
advertisement prior to approval of the levy of the tax.

48-8-253.
The commissioner shall have the power and authority to promulgate such rules and
regulations as shall be necessary for the effective and efficient administration and
enforcement of the collection of the tax authorized to be imposed by this article.
48-8-254.
The tax authorized by this article shall be in addition to any other local sales and use tax. The imposition of any other local sales and use tax within a county, municipality, or special district shall not affect the authority of the governing authority of the county on behalf of the special district to impose the tax authorized by this article and the imposition of the tax authorized by this article shall not affect the imposition of any otherwise authorized local sales and use tax within the county, municipality, or special district.

48-8-255.
(a) The proceeds received from the tax authorized by this article shall be used by the authorized recipients within the special district exclusively for the purposes specified in the resolution calling for imposition of the tax. Such proceeds shall be kept in a separate account from other funds and shall not in any manner be commingled with other funds prior to the expenditure.

(b) The authorized recipient receiving any proceeds from the tax shall maintain a record of each and every purpose for which the proceeds of the tax are used. A schedule shall be included in each annual audit which shows for each purpose in the resolution calling for imposition of the tax the original estimated cost of any capital item, the current estimated cost if it is not the original estimated cost, amounts expended in prior years, and amounts expended in the current year. The auditor shall verify and test expenditures sufficient to provide assurances that the schedule is fairly presented in relation to the financial statements. The auditor's report on the financial statements shall include an opinion, or disclaimer of opinion, as to whether the schedule is presented fairly in all material respects in relation to the financial statements taken as a whole.

48-8-256.
(a) The governing authority of the county within the special district receiving any proceeds from the tax under this article shall maintain a record of each and every purpose for which the proceeds of the tax are used. Not later than December 31 of each year, the governing authority of the county within the special district receiving any proceeds from the tax under this article shall publish annually, in a newspaper of general circulation in the boundaries of such special district, a simple, nontechnical report which shows for each purpose in the resolution calling for imposition of the tax the original estimated cost for any capital item, the current estimated cost if it is not the original estimated cost, amounts expended in prior years, and amounts expended in the current year.

(b) The county within the special district shall not be held liable for an artist and support organization, qualified local cultural organization, qualified local cultural initiative, or supervising organization that fails to meet or comply with any of the requirements of this article. The county within the special district shall not be held liable if an artist and support organization, qualified local cultural organization,
qualified local cultural initiative, or supervising organization is not qualified to receive funds under this article."

SECTION 2.
Said title is further amended in Code Section 48-8-3 of the Official Code of Georgia Annotated, relating to exemptions from sales and use tax, by revising division (57)(D)(i) to read as follows:
"(D)(i) The exemption provided for in this paragraph shall not apply to any local sales and use tax levied or imposed at any time by or pursuant to Article 3 or 5 of this chapter."
