Dear Lieutenant Governor Cagle and Senator Williams:

I have vetoed Senate Bills 123, 159, 178, 211, 261, 266, and 267, and Senate Resolution 431, which passed the General Assembly in the 2009 Regular Session.

Article III, Section V, Paragraph XIII of the Georgia Constitution requires that I transmit these bills to you together with the reasons for such vetoes. These bills and corresponding reasons for the vetoes are attached.

/s/ Sonny Perdue

**Veto Number 1**

**HB 56**  House Bill 56 relates to the distribution of local option sales tax proceeds among counties and cities. The bill changes the process whereby counties and cities must renegotiate a new distribution formula after a census. Currently, if the county and qualified cities therein cannot agree on a new distribution formula, the tax is repealed. The bill removes that automatic repeal and allows sales taxes to continue to be distributed under the old formula while cities and counties litigate over a new formula. I believe that the most powerful incentive for local governments to agree is the potential loss of funds for lack of agreement. Because this bill removes the current powerful incentive, I VETO HB 56.

**Veto Number 2**

**HB 100**  House Bill 100 provides changes to Georgia’s student scholarship organization tax credit program enacted in 2008. Among other things, these revisions include allowing a taxpayer to receive both a tax credit and a tax deduction for contributions to a student scholarship organization. Allowing a dollar-for-dollar tax credit as well as a tax deduction would actually reduce the amount of actual contributions available to student scholarship organizations each year, thereby reducing the funds available for scholarship recipients otherwise qualified for the scholarship. I agree that changes are needed to the original student scholarship organization law and I supported HB 394, which would have enacted the changes I believe are necessary. In reviewing legislation, I must consider fairness for all Georgians. If some Georgia taxpayers could reduce their income tax liability by seventy-five percent, it could have a
significantly detrimental impact on other citizens’ educational and other opportunities. For the foregoing reasons, I VETO HB 100.

Veto Number 3

HB 481    Georgia is constitutionally required to maintain a balanced budget: for every dollar in decreased revenue, we must correspondingly cut expenditures. We cannot deficit spend as the federal government does, even if those deficits generate economic growth in the long term. Recognizing this constitutional obligation, my administration, working with the General Assembly, has cut taxes in each year I have been in office. Together, we provided conservative, targeted and job-creating tax relief to Georgians. This year I have continued this approach by signing certain bills that establish or continue tax cuts where possible.

Consistent with the economic downturn experienced across our country, in Fiscal Year 2009 state general fund revenues are expected to be $2.7 billion less than the original revenue forecast for the Fiscal Year 2009 Budget. Given this reduction of 13.3%, the State has drastically and appropriately reduced employment and the purchases of goods and services in order to live within our means. Furthermore, in Fiscal Year 2010 state revenues are currently forecast to be $17.0 billion, an amount that is 16.8% below Fiscal Year 2008 state revenues, demonstrating negative revenue growth in three years. During a period of growth in our economy, the budget may be able to absorb tax cuts that result in short term revenue reductions but provide long term economic benefits. We are not, however, experiencing a growing economy at this point. Accordingly, the current budget environment – where revenues are continuing to decline and not expected to recover in the near term – the short-term revenue reduction resulting from large tax cuts cannot be sustained in a manner consistent with the budgets passed by the General Assembly.

The General Assembly enacted a budget that contemplates current falling revenue but does not incorporate the additional, significant estimated revenue reductions resulting from House Bill 481. While some argue these tax reductions will ultimately generate more revenue, the constitutional restraint of a balanced budget prevents policymakers the luxury of time to allow that growth to overcome the short-term loss of revenue. Should the General Assembly choose to enact a budget next session that incorporates the estimated revenue reductions caused by large tax cuts, I would entertain such cuts at that time.

House Bill 481 combines a number of tax and fee provisions. These provisions include: a suspension of certain business activity filing fees with the Secretary of State; changes to the unemployment tax; a $2,400 per employee tax credit provided to companies hiring employees meeting certain conditions; a phase out of the estimated sales and use tax paid by certain retailers collecting sales and use tax; the elimination of the net worth tax paid by companies; and a reduction in the long term capital gains tax rate. Estimates of
the revenue impact to the State and the related additional cuts in services to residents as well as reductions in state purchases and employment aggregate in excess of $1.5 billion over the next three years, with over $145 million in reductions required in Fiscal Year 2010, which begins on July 1, 2009. Given that (1) Georgia cannot deficit spend; and (2) the additional revenue reduction of over $145 million in Fiscal Year 2010 with even larger reductions projected in the years to follow, more drastic cuts would be necessary in needed services and other expenditures. Such cuts are not supported by the current budget act and the policy decisions expressed therein. In short, while this legislation may be supportable in different economic times, given our constitutional and fiscal constraints, I do not believe this legislation, although well meaning in intent, can be afforded at this time. Therefore, I VETO HB 481.

**Veto Number 4**

**HB 553**   House Bill 553 establishes a Local Government Equipment Financing Authority and a County Government Equipment Financing Authority. These authorities would enable a mix of local governments to come together through these authorities and incur debt to finance purchases of personal property. I have concerns about increasing debt through the use of authorities when there remains an existing non authority based process for local governments to finance purchases, and, therefore, I VETO HB 553.

**Veto Number 5**

**HB 662**    The original version of HB 662 was legislation I supported to move the Capitol Police from the Georgia Building Authority to the Georgia State Patrol, thereby realizing efficiencies by administratively aligning law enforcement agencies. HB 662 was amended during the legislative process to provide the exact opposite. Because I believe the bill as introduced creates more value for Georgians, I VETO HB 662.

**Veto Number 6**

**HB 710**    House Bill 710 amends the South Georgia Regional Information Technology Authority's board membership by adding representation from the Flint River Soil and Water Conservation District. Since the introduction of this legislation, the Flint River and Soil and Water Council has subsequently elected to withdraw from participating in the Authority; consequently, I VETO HB 710.

**Veto Number 7**

**HB 734**    House Bill 734 changes the manner in which the City Commission of Waycross conducts public business. Currently, any person may address the City Commission so long as such person documents a desire to speak at least two business days before the Commission meeting. With HB 734, the General Assembly superseded the local ordinance requires the City Commission to hear any municipal citizen for five minutes if the citizen expresses interest in speaking sometime before the meeting. Because such regulations go to the heart of municipal self-government, they are usually created -- and changed -- by local ordinance. In addition, the City Commission was not
consulted before this legislation was introduced, and input from local constituents was overwhelmingly against the proposal by a margin of two to one; consequently, I VETO HB 734.

Veto Number 8

HB 735 House Bill 735 changes the manner in which the Ware County Commission conducts public business. Currently, any person may address the County Commission so long as such person documents a desire to speak at least one business day before the Commission meeting. With HB 735, the General Assembly superseded the local ordinance requires the County Commission to hear any county citizen for five minutes if the citizen expresses interest in speaking sometime before the meeting. Because such regulations go to the heart of home rule, they are usually created -- and changed -- by local ordinance. In addition, the County Commission was not consulted before this legislation was introduced, and input from local constituents was overwhelmingly against the proposal by a margin of two to one; consequently, I VETO HB 734.

Veto Number 9

SB 123 Senate Bill 123 provides that pharmacy benefit managers must obtain a license from the Georgia Department of Insurance to do business in Georgia. Pharmacy benefit managers have helped lower the cost of administering the State Health Benefit Plan and Medicaid program to Georgia taxpayers; they have also kept insurance premiums lower for Georgians with commercial health insurance. The cost-reduction methods employed by the pharmacy benefits managers, however, have not gone without significant and troubling criticism. I have spoken with the legislative sponsor of SB 123, and I will work toward an administrative solution to address the issues giving rise to this legislation. Accordingly, I VETO SB 123.

Veto Number 10

SB 159 Senate Bill 159 creates a Hemophilia Advisory Board that will make recommendations about the treatment of hemophiliacs and others with blood disorders to the Director of the Division of Public Health and the Commissioner of Insurance. The legislation requires the Advisory Board also to make recommendations on the standards of care for persons with hemophilia and other blood disorders. I believe this could create unnecessary litigation and usurp the role of expert testimony properly qualified by the General Assembly’s adoption of the Daubert standard in O.C.G.A. § 24-9-67.1. I have spoken with the bill’s legislative sponsor and, consequently, I will issue an Executive Order to establish an advisory board similar to the one contemplated by SB 159. For these reasons, I VETO SB 159.

Veto Number 11

SB 178 Senate Bill 178, in its original form, extended the sunset on Georgia’s capital outlay program from June 30, 2010 to June 30, 2011. Late in the legislative
session, three unrelated education provisions were added in a conference committee report. Those provisions included (1) language from HB 278, which granted local school systems temporary waivers from various expenditure controls; (2) HB 400, also known as the BRIDGE bill, which substantially reconfigures our K-12 education system; and (3) language not previously introduced as legislation which would require the State to provide additional funding for dual enrollment programs in career academies and charter schools. I strongly support the extension of the capital outlay program and the temporary waiver of expenditure controls, but have serious concerns about the remainder of SB 178.

I have long supported funding dual enrollment in a manner that covers the costs of the program at both the high school and higher education levels without using taxpayer funds to pay twice for the same student enrolled in the same class. I am working closely with policymakers and persons interested in this issue, the ongoing process has been data-driven, and I am confident that the solution we will reach will be the right one for all parties involved. The solution offered in SB 178, however, imposes a funding requirement that is arbitrary and singles out charter schools and career academies for special treatment while ignoring dual enrollment programs in all other public high schools.

When Members of the General Assembly introduced the BRIDGE legislation last year, a fiscal note by the Department of Audits in conjunction with the Department of Education estimated the cost at $1.2 billion. The General Assembly did not request a fiscal note this year, but the Governor’s Office of Planning and Budget estimated that the current bill will impose an immediate one-time cost of $417 million and an ongoing annual cost of $146 million. Notwithstanding my substantive policy concerns about this bill, the State simply cannot afford it at this time. For these reasons, I VETO SB 178.

**Veto Number 12**

**SB 211** Senate Bill 211 creates a set-aside for the purchase of routine office supplies outside of the established state procurement process. Office supplies currently represent approximately $40 million in annual state spending. The goal of state purchasing should be to obtain the best value for Georgia taxpayers’ funds: purchasing necessary items of adequate quality at the lowest possible price. I am sympathetic to the concerns of small businesses and do not wish to prevent these business from participating in the procurement process, but I am confident that small businesses do not need special legislative set asides to be able to compete to provide the best value for Georgia’s taxpayers. Therefore, I VETO SB 211.

**Veto Numbers 13, 14, and 15**

**SB 261, SB 266, SB 267** Senate Bills 261, 266 and 267 freeze the ad valorem tax rates in the Camden County municipalities of St. Mary’s, Kingsland and Woodbine. On May 5, 2009, I signed into law House Bill 233, which imposes a moratorium on all
increases in the assessed value of all classes of all subjects of property. Consequently, in order to foster uniformity within the municipal ad valorem tax structure, I VETO Senate Bills 261, 266 and 267.

**Veto Number 16**

**SR 431** Senate Resolution resolves that the Georgia Civil War Heritage Trails, Inc. “has the sole authority to plan, construct, and maintain Civil War era historic driving trails upon any roadway in the State of Georgia.” While the efforts of this organization toward the designation of such historic trails are noteworthy, I disagree that this private entity should have the sole authority to plan, construct, and maintain Civil War era historic driving trails upon roadways in the State of Georgia and therefore VETO SR 431.

**SIGNING STATEMENT 1**

**HB 60** House Bill 60 seeks to address the situation where persons may hold themselves out as licensed professional counselors, social workers or marriage and family therapists if they have a different professional license, but not one issued by the Georgia Composite Board of Professional Counselors, Social Workers, and Marriage and Family Therapists. I have spoken with the author of this legislation, and we agree that HB 60 limits an otherwise licensed person from using the term “licensed” or “licensure” immediately preceding or subsequent to the terms “professional counselor,” “social worker” or “marriage and family therapist,” unless that professional has a license issued for the same. The legislation does not, however, prevent a licensed professional from citing his or her license and explaining an expertise or specialty in professional counseling, social work or marriage and family therapy. For example, after my signing of HB 60, a psychologist licensed solely by the Georgia Board of Psychology could lawfully state that he or she is a “licensed psychologist specializing in marriage and family therapy.” The same psychologist could not, however, claim to be a “licensed marriage and family therapist.” If necessary, I will work with the legislative sponsor of HB 60 on any legislative revisions that may be needed in the 2010 session of the General Assembly.

**SIGNING STATEMENT 2**

**HB 186** I have signed House Bill 186, which extends the sunset of the telework tax credit and expands the annual amount of the tax credit available. I signed this bill, as I believe in the intent of this legislation to be helpful in the goals of reducing traffic and emissions caused by traffic. However, I have concerns that the use of this credit may have become broader than the intent of the credit. Therefore, I am asking the Department of Revenue to review the eligibility standards and approval processes required of the Department in order to confirm that such standards and processes are in accordance with the intent and text of the law.
SIGNING STATEMENT 3

HB 189  I signed House Bill 189, which requires private child support collection agencies operating in Georgia to register with the Secretary of State and file sample contracts with consumers with the Office of Consumer Affairs. It prescribes much of what shall be contained in the contract, places a ceiling on the fee the private collection agencies can charge. Importantly, a provision of the law makes plain that a private agency cannot collect more than arrearages and statutory interest owed on past due child support. I have spoken with the legislative sponsor of HB 189, and I expressed my intent that this legislation be interpreted as limiting contingency fees charged by collection agencies to past due child support, not current or baseline child support payments. Put simply, Georgia’s children should not see their current monthly payments decline as a result of my signing HB 189.

HB 119 – FY 2010 Appropriations Bill

Line-Item Vetoes by the Governor
Section 33, pertaining to the Department of Natural Resources, page 222, line 507.1 and 507.100:
The General Assembly appropriated $25,000 in state general funds for the Georgia State Games Commission. State funding for this program is not justified, as the intention of this funding is inconsistent with the mission of the program. Therefore, I veto this appropriation.

Section 50, pertaining to State of Georgia General Obligation Debt Sinking Fund, page 316, line 397.261 BOND:
This language authorizes the appropriation of $22,700 in debt service to finance projects and facilities for the Herty Foundation, specifically for the Herty Advanced Materials Development Center to design and construct a covered biofuels testing facility through the issuance of $250,000 in 20-year bonds. The State of Georgia issued $2,000,000 in bonds for the Herty Foundation to fund renovations and equipment of which remains a balance of $900,000. Of this balance, $250,000 can be redirected to fund the design and construction of the testing facility. The need for this appropriation, therefore, is not evident at this time. Therefore, I veto this language (page 316, line 397.261) in the provisions relative to Section 50 State of Georgia General Obligation Debt Sinking Fund and the state general funds of $22,700.
Section 50, pertaining to State of Georgia General Obligation Debt Sinking Fund, page 320, line 397.605 BOND:
This language authorizes the appropriation of $145,280 in debt service to finance projects and facilities for the University System of Georgia, Board of Regents, specifically to acquire and renovate strategic property for Darton College in Albany, Dougherty County through the issuance of $1,600,000 in 20-year bonds. The Albany Museum of Art is housed on this property. Due to current economic conditions, the museum will remain at this location, which will delay sale of the property to Darton College. Therefore, I veto this language (page 317, line 397.605) in the provisions relative to Section 50 State of Georgia General Obligation Debt Sinking Fund and the state general funds of $145,280.

Certain language contained in this appropriation bill is included for informational purposes and thus does not constitute and appropriation. Because the language is not an appropriation, it is non-binding, and the Governor may authorize the agencies to utilize those funds in accordance with the overall purpose of the appropriation and within the general law authority of the agency. Passages of non-binding information language to disregard are included below.

Intent Language Considered Non-binding

Section 15, pertaining to the Department of Behavioral Health and Developmental Disabilities, page 44-45, line 174.98:
The General Assembly seeks to instruct the department as to the operation of the Adult Developmental Disabilities program. This language dictates a matter controlled by general law and is therefore null and void.

Section 15, pertaining to the Department of Behavioral Health and Developmental Disabilities, page 45, line 176.98:
The General Assembly seeks to instruct the department as to the operation of the Adult Forensic Services program. This language dictates a matter controlled by general law and is therefore null and void.

Section 15, pertaining to the Department of Behavioral Health and Developmental Disabilities, page 47, line 177.98:
The General Assembly seeks to instruct the department as to the operation of the Adult Mental Health Services program. This language dictates a matter controlled by general law and is therefore null and void.

Section 15, pertaining to the Department of Behavioral Health and Developmental Disabilities, page 53, line 188.98:
The General Assembly seeks to instruct the department as to the operation of the Direct Care and Support Services program. This language dictates a matter controlled by general law and is therefore null and void.
Section 16, pertaining to the Department of Community Affairs, page 62, line 57.4:
The General Assembly seeks to appropriate $175,000 in OneGeorgia funds for the Communities of Opportunity grants. The use of OneGeorgia funds is directed through, and requires approval by the OneGeorgia Board and cannot be appropriated through the legislative process. The department should disregard language to fund Communities of Opportunity grants through the OneGeorgia Authority.

Section 16, pertaining to the Department of Community Affairs, page 62, line 57.10:
The General Assembly instructs the Department of Community Affairs to transfer two rural economic development positions to the OneGeorgia Authority. The use of OneGeorgia funds is directed through, and requires approval by, the OneGeorgia Board and cannot be appropriated through the legislative process. The department should disregard language to transfer two rural economic development positions to the OneGeorgia Authority.

Section 16, pertaining to the Department of Community Affairs, page 66, line 61.9:
The General Assembly seeks to appropriate $121,153 in OneGeorgia funds for the Rural Development Council. The use of OneGeorgia funds is directed through, and requires approval by, the OneGeorgia Board and cannot be appropriated through the legislative process. The department should disregard language to fund the Rural Development Council through the OneGeorgia Authority.

Section 16, pertaining to Payments to OneGeorgia Authority, page 68, line 65.2:
The General Assembly seeks to instruct the OneGeorgia Authority to transfer funds for implementation grants for the Communities of Opportunity program to the Department of Community Affairs. However, the use of OneGeorgia funds is directed through, and requires approval by, the OneGeorgia Board and cannot be appropriated through the legislative process. The department should disregard language to fund Communities of Opportunity grants through the OneGeorgia Authority.

Section 16, pertaining to Payments to OneGeorgia Authority, page 68, line 65.3:
The General Assembly seeks to transfer two rural economic development positions to the OneGeorgia Authority. The use of OneGeorgia funds is directed through, and requires approval by, the OneGeorgia Board and cannot be appropriated through the legislative process. The department should disregard language to transfer two rural economic development positions to the OneGeorgia Authority.

Section 16, pertaining to Payments to OneGeorgia Authority, page 68, line 65.4:
The General Assembly seeks to transfer funds for the Rural Development Council. The use of OneGeorgia funds is directed through, and requires approval by, the OneGeorgia Board and cannot be appropriated through the legislative process. The department should disregard language to fund the Rural Development Council through the OneGeorgia Authority.
Section 17, pertaining to the Department of Community Health, page 96, Two Language Paragraphs:
The General Assembly seeks to direct the department to implement a direct bill system for collecting the employer share of premium costs for the State Health Benefit Plan, effective January 1, 2010 and further directs the department to calculate the employer contribution rates utilizing specified percentages of payroll. While this is the general intent of the executive branch, this language dictates a matter controlled by general law and the Board of Community Health, and it is therefore null and void.

Section 22, pertaining to the Department of Economic Development, page 124, line 110.8:
The General Assembly seeks to earmark $98,325 for the Bainbridge Welcome Center within the Tourism program. The department is authorized to utilize these funds to identify the highest-need projects on a state-wide basis in accordance with the purpose of the Tourism program and the general law powers of the Department.

Atlanta, Georgia 30334  

Dear Governor Perdue:

I hereby submit my resignation from the Georgia General Assembly effective today, September 15, 2009.

After thoughtful and prayerful consideration, I have come to the conclusion that the people of the 1st District deserve a full time Senator and my campaign also deserves a full time candidate. While I could do both jobs, it would be impossible to give them both the complete attention and maximum effort they deserve.

I’ve confirmed with the Secretary of State that by resigning today there is sufficient time to conduct the special election in conjunction with the municipal elections scheduled for November of this year. This would prevent the counties of the 1st Senate District from incurring additional costs and ensure a new Senator is in place for the next session of the General Assembly.

It has been an incredible honor to represent the citizens of the 1st State Senate District and to work with you and all of my colleagues to address the concerns of the people of Georgia. I look forward to continuing to work to make Georgia an even better state.

Sincerely,

/s/ Eric Johnson

Dear Bob:

Please let this letter serve as official notice that Senator Donzella James is hereby appointed to the following Senate Committees: Retirement, Education and Youth, Special Judiciary, State Institutions and Property, Urban Affairs, and State and Local Governmental Operations as an Ex-Officio member.

This appointment is effective immediately.

Please contact my office if you have any questions or concerns.

Sincerely,

/s/ Casey Cagle
Lieutenant Governor

Senator Williams of the 19th moved that upon the dissolution of the Joint Session the Senate stand adjourned until 10:00 a.m. Thursday, January 14, 2010.

The President announced the motion prevailed at 10:42 a.m.

The hour for convening the Joint Session of the Senate and House having arrived, the President, accompanied by the Secretary and Senators, proceeded to the Hall of the House of Representatives, and the Joint Session, called for the purpose of hearing a message by His Excellency, Governor Sonny Perdue, was called to order by the Speaker of the House. HR 1089 authorizing the Joint Session of the Senate and House was read by the Clerk of the House.
His Excellency, Governor Sonny Perdue, addressed the Joint Session of the Senate and the House of Representatives as follows:

Mr. President, Mr. Speaker, President Pro Tem Williams, Speaker Pro Tem Jones, members of the General Assembly, Constitutional officers and members of the judiciary, the Consular Corps and other distinguished guests. And, most of all, my fellow Georgians.

Let me begin by congratulating the new Speaker of the House and the new Speaker Pro Tem. I have always enjoyed our past relationships and I look forward to working with you both.

As have previous Governors, I have used this address in past years to talk about the budget, policy issues, and to roll out my legislative agenda.

You’re probably wondering why there isn’t a budget lying on your desk. Actually, it is there, its just really thin.

This year’s message will be different, so let me apologize to you and the press corps in advance; it is much bigger than a budget document.

The encouragement I want to offer goes beyond numbers on a page, beyond line items in a bill and to the very core of why we are here and what we are called to do. I hope you’ll grant me that privilege as I make this last lap around the track.

First off, and before I talk about the tasks that lie ahead, I want to recognize the one Earthly person who has stood out as my inspiration and guide throughout this journey. Mary, you are the person I hope to become. Your kindness and gentleness have not only comforted me, but changed me.

Mary, you have been a constant reminder of our purpose in public office, and I thank you for all that you have done as my loving wife and as the First Lady of Georgia.

At my first State of the State Address, we decided to leave a seat in the gallery empty to represent the children of Georgia who had no one to speak for them. And for the last seven years Mary has been that voice. By launching the Our Children Campaign, she has united and empowered individuals, corporations and faith-based organizations as they touched the face of children in their local communities.

To my children and grandchildren in the audience today, words can not express my gratitude for your patience, love and support over the past seven years.
I often tell people this story about sharing one another’s reputations…

When I was first elected to the State Senate, I sat my children down and told them there are things you can do down here in Bonaire that will make me embarrassed to come up to Atlanta. And there are things that I can do up in Atlanta that will make you embarrassed to go to school in Bonaire. Kids, you not only have never embarrassed me, but you have made me proud.

For seven years, it has been my highest honor to work with those of you in this chamber and to represent nearly ten million Georgians. We have been through a lot together. In that time, we have sent our young men and women to fight in Afghanistan and Iraq, and we have seen the worst drought on record and an economy as difficult as any since the 1930’s.

You don’t need me tell you that the challenge we face is real. But we can rest in the knowledge that America has seen these times before. Just over one year ago as governors gathered with our newly elected President, I sat in the chambers of our nation’s first Capitol at Congress Hall and my mind wandered back to the earliest days of our nation and to the Founding Fathers. There, in those hallowed surroundings, I couldn’t help but reflect on their courage and optimism in the face of ultimate uncertainty. Their hope was against all odds but it was the spirit their time demanded.

Think back to the early months of the Revolutionary War. Families from Savannah to Boston had given their fathers and sons to the American cause and, as it is with war, many would never return to their homes. General George Washington and his army faced seemingly insurmountable odds. It was cold. His men were ill-equipped and outmatched.

It was then, on December 23, 1776, only two days before the pivotal Battle of Trenton, that Washington sought to inspire his small volunteer army by reading aloud from Thomas Paine’s powerful work, Crisis. Today, we can read the very words that ragged band of revolutionaries heard:

“These are the times that try men's souls but he that stands it now, deserves the love and thanks of man and woman. We have this consolation with us, that the harder the conflict, the more glorious the triumph.”

Sure of their cause, they pressed on to victory, and thus began the long, rich history of our nation.

Those early days were not the darkest or most uncertain days our nation would see. Years later the descendants of those revolutionary heroes would face each other, sometimes brother against brother, fighting over the future direction of our growing nation.
The early 20th century brought a war on a scale never before witnessed by mankind. Seventy million soldiers took up arms in a conflict of lethal artillery and machine guns, trench warfare and poison gas. Almost six million would lose their lives in the defense of freedom. In the misery and cold, in muddy trenches along the Western Front, we held strong.

The 1930’s brought a Great Depression, a global downturn so severe that one of every four able-bodied Americans was out of work. Just recently at the Southern Governors Association’s 75th Anniversary down in Warm Springs, I was reminded how deeply the Depression affected Southern families, and how long it took this region to fully emerge from that time.

A decade later, America would join a world war in a fight against totalitarianism and hatred. At an unfathomable cost, America answered the call, persevered and emerged stronger still, an international defender of individual freedom and liberty.

But two world wars weren’t the end of our trials in the 20th century. In Korea and Vietnam, America would lose more than 90,000 soldiers. And while thousands of young men fought in dark jungles across the world, there was another war at home, a war within the national conscience as America strived ever closer to liberty and justice for all. That struggle was led by brave Georgians just blocks from here.

Our nation’s story, unfolding through the centuries, gives us some much needed perspective about where we are and what we face today. It teaches us that each generation has faced their own trial and shouldered their own responsibility. They faced every enemy and bore every cost in their resolve to create a better nation for their children.

What stands out most is each generation’s willingness to pick up the yoke and move our nation forward. It has not always been pretty, but what has never happened in this nation is for one generation to drop the yoke and wait for the next to pick it up. And neither have they weighted them down with unbearable burdens!

This is our time to carry a heavy load, to do the hard thing now for the sake of our children and grandchildren.

For our generation, the economic storm we now find ourselves in is unlike anything we’ve ever seen. These are hard times for Georgians; many have lost jobs and others are working harder and longer for less and checkbooks are harder to balance.

Here in this chamber, this time has forced tough decisions on us.

We spent the first six years of my administration, before this recession even began, making government more responsive, more efficient, more value-driven. And then came the biggest state revenue drop since the Great Depression.
Together, we worked hard to find the best budget solutions and we asked our state team members for more in an effort to maintain services with fewer resources. But if we fail to do the hard thing now, our government will be spread far too thin to ensure that Georgia is educated, healthy, safe and growing.

It would be easy to sit back and point fingers at Washington, but even here in Georgia, we have to avoid the temptation to serve the needs and wants of today at the expense of tomorrow. We must reject the course forward that promises the next generation little more than an expensive bill, crushing entitlements and unfunded mandates.

We cannot vote ourselves ease and comfort at the expense of our children and grandchildren. Alexis de Tocqueville said it well, almost prophetically, two hundred years ago:

“A democracy can only exist until the voters discover that they can vote themselves largesse from the public treasury. From that moment on, the majority always votes for the candidates promising the most benefits from the public treasury with the result that a democracy always collapses over lousy fiscal policy, always followed by a dictatorship. The average of the world’s great civilizations before they decline has been 200 years. These nations have progressed in this sequence: From bondage to spiritual faith; from faith to great courage; from courage to liberty; from liberty to abundance; from abundance to selfishness; from selfishness to complacency; from complacency to apathy; from apathy to dependency; from dependency back again to bondage.”

There has never been a cautionary tale so well-suited to a time and place as this one is to America, here and now.

I love this one story that Thomas Paine recounted from the days of the American Revolution. He told of a tavern keeper at Amboy, who happened to be a closet Tory, for whom Paine had little respect. Paine described the scene:

“He was standing at his door, with as pretty a child in his hand, about eight or nine years old, as I ever saw, and after speaking his mind as freely as he thought was prudent, finished with this unfatherly expression, ‘Well, give me peace in my day. Give me peace in my day.’”

Thomas Paine goes on to say that a loving parent should have said, “If there must be trouble, let it be in my day, that my child may have peace.” And Paine is right. “This single reflection, well applied, is sufficient to awaken every man to duty.” We must recover the spirit of that loving, sacrificing father.

I believe I stand with most Georgians, when I say, I am for doing with a little less if it means a lighter burden and a brighter future for the next generation.
There is honor in sacrifice and we must never pervert it into the disdain of dissatisfaction!

I’ve talked a lot over the last few years about building a culture of conservation here in Georgia, using only what we need and being better stewards of our natural resources. At its core, that culture of conservation is a simple call to be satisfied with only what we truly need and it extends to every aspect of our lives. Going forward, we must forego the excesses of our time and reject the gluttonous instinct of this age.

These times demand that we worry less about bringing home the pork, and more about empowering our people to grow their own hogs. These times call for true leadership in our communities, calling people to create a better Georgia, elevating them out of the easy way of dependency. We have to call every Georgian to build rather than consume; to give rather than take.

And we must begin that transformation here!

When I was sworn in to my second term, I said that the only legacy I sought was the same one any parent or grandparent seeks: to hand off our state, our home, to the next generation in better shape than we found it. We now find ourselves at a moment in history, in which we must do the hard thing now to ensure that bright future for them.

And we can do none of this without one another. Instead of creating an environment of political posturing and blame casting, we can join hands and hearts and work together, Republican and Democrat, rural and urban, experienced veterans and energetic newcomers.

Governing is a team sport and we are all on Team Georgia. You come here to the Capitol each January, from every corner of the state, elected by distinct constituencies that sometimes have little in common. And together, we form a patchwork quilt with our beliefs, ideas and personalities.

That diversity demands a true commitment to cooperation. I think of marriage and remember how the Apostle Paul exhorted husbands and wives at the Church at Ephesus. He called them to mutual respect, to put away any focus on self and to “submit to one another” for the common good.

Those truths have application beyond marriage. They count here! The people who send us here expect us to work together for the good of this state.

Georgians didn’t elect us to see a rugby match with a scrum on every decision. When we don’t work together, our jerseys get so muddy the people can’t even distinguish which team we’re on. And we all come out with mud on our face.
The folks back home have entrusted us to put principles and progress over partisanship and they have asked us to do the hard thing now for the future of this state.

And that means drilling down in every area of government to redefine our responsibilities and commitments going forward. We have to take this mindset and apply it to every corner of state government, including education. For too long, the easy answer in education has been to preserve the status quo. The prevailing winds have often forced us to accept watered-down compromises that, frankly, nibbled around the edges.

That began to change two years ago when you passed our IE squared legislation. Systems around the state are being freed from state mandates, bringing innovative thinking into their schools, while committing contractually to measurable student improvement. This radical move forward in education policy is already producing results.

Yesterday morning, I outlined a proposal that would tie teacher pay to student achievement. Some will defend the status quo, but it’s hard for me to believe that tying pay to performance is anything other than commonsense. Ladies and gentlemen, many young people today have the idea that the salary ceiling is simply too low in teaching. That perception effectively shuts many of our best and brightest out of our classrooms.

Teachers told us overwhelmingly in a survey that they should be evaluated based on both observation of their teaching and student growth.

Let’s make the commitment now to align our compensation with the mission of our schools. Let’s do it for our teachers. Let’s do it for our students and let’s do it for the taxpayers of Georgia! I look forward to working with you on this unique opportunity to drive student achievement.

As we rethink the appropriate role of government in these times, we cannot retreat from our duty to protect those who cannot protect themselves. I am convinced that Georgia can, Georgia must, and Georgia will adequately care for citizens in our state’s mental health program, even though this has been a daunting challenge that precedes my time as Governor.

We took a major step forward last year in creating an agency whose sole focus is caring for the mentally challenged and developmentally disabled.

With a respected mental health professional leading this agency, we have developed a plan that will stabilize hospital staffing and improve care in our institutions. Yes, it will cost more money, but I am confident the additional investment will result in better outcomes for patients.
I want to be clear, my interest is not driven purely by legal mandates, but from my own personal belief that we have a moral obligation to serve those with disabilities. They are our mothers and fathers, our sons and daughters, and our neighbors. And we are our brothers’ keepers.

That obligation should carry a tangible effort. It’s a hard thing to do in these budget times. The budgets that I will release on Friday will include additional investment, $20 million in 2010 and over $50 million in 2011.

Together, we are making concerted efforts to do the right thing for this vulnerable population. I ask for your continued support as well as that of our consumers, providers, advocates, families and communities to help us develop a system of care of which we can be proud.

We have already faced tough decisions with respect to our team of state employees. We have trimmed payrolls and asked employees to do the job that two or even three of their co-workers used to perform. We have asked teachers, caseworkers, law enforcement personnel and agency heads to do more with less. And their commitment to go the extra mile deserves recognition.

So, I want to take a moment to speak directly to my fellow state employees:

Wherever you serve, I want to recognize and thank all of you for putting in the extra effort and the extra hours to meet this challenge. Responsibility and workloads have increased and you have met the call with excellence. That doesn’t go without notice. I notice your good work. Your bosses notice it. Your fellow Georgians notice it. Thank you!

Now I want to brag on our talented state team a little bit. The men and women who make up our team have refused to make excuses and they have found a way to deliver great customer service in the face of cuts. That’s why, as I travel across Georgia, citizens continue to thank me for the services you deliver.

In fact, we’ve asked our customers, and they have given you a customer satisfaction rate above 76 percent. That beats most private businesses and makes us one of the only states that compares favorably with the private sector. State employees will tell you their job satisfaction, which has increased 10 percent in the last two years, comes from helping Georgians.

High employee morale means a satisfied customer and a satisfied employee. I want to continue improving to make Georgia an “employer of choice” that can attract and retain top talent going forward.
And I think it is appropriate at the beginning of this legislative session to ask ourselves if we have that same mindset of service. Now is the time to ask ourselves some very foundational questions anew: “Why are we here?” and “What do the people expect of us?”

To answer those questions, I would like to recall the words of a great Georgian who passed away this year, Dr. Michael Guido. That great sower of the seed had it right: “Greatness doesn’t exist in reducing others to your service, but in reducing yourself to their service.” Not only are those the words one great Georgian lived by, it is an ideal that is distinctly Georgian.

Seven years ago today, at my inaugural, I reminded you of the motto adopted by the Georgia Trustees, General Oglethorpe and the original colonists: “Not for self, but for others.” That was the charge back then. It was the charge seven years ago and it is the charge today!

We are trustees of the people’s will. We owe them our best. That is the sacred trust of democracy. The covenant of service which you and I have with Georgians must always be foremost in our hearts and minds, to do what is right by them, not what is best for ourselves or for our party, even to do the hard things now for a better tomorrow.

All of us in this room have experienced an ego boost upon winning an election. But seven years ago on inauguration day, I was humbled when my son, then just a young 25-year old preacher, gave me this charge from the great prophet Micah: to “perform what the LORD requires. To act justly and to love mercy and to walk humbly with God.”

That charge has stuck with me for these seven years. Circumstances have changed. Many faces have come and gone but that call remains. It echoes in my heart and spirit, and it rings forth to you.

You may have heard the story about the decorated general, undefeated in battle throughout his long career. When he had finally met his match after being lured into an ambush, he called for his bugler to “sound the retreat”.

When the bugler hesitated, he ordered, “Sound the retreat” even louder. Once again the bugler did not respond, and the general angrily demanded him to immediately “Sound the retreat”.

The bugler looked at the general and said, “But sir, I don’t know that call, and our men don’t know how to retreat.”

It would be easy to sit here and dread the tough decisions that lie ahead. But now is not the time to retreat. Now is the time to dig in even deeper and do the hard things so that our children and grandchildren will know a better Georgia.
It’s a tall order, but ours is a high calling, and you wouldn’t be here if you weren’t men and women especially marked by optimism, ambition and an unmovable belief that we should be working to make things the way they ought to be.

I know we can achieve great things together. And I believe we will!

Thank you. May God richly bless each and every one of you. May God bless this state and our great nation!

The Senate Regulated Industries and Utilities Committee offered the following substitute to HB 168:

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 5 of Title 46 of the Official Code of Georgia Annotated, relating to telephone and telegraph service, so as to provide for legislative intent; to provide a short title; to substantially revise the regulation of telecommunications; to modernize telecommunications competition by curtailing unnecessary regulation; to provide for related matters; to provide for an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:
SECTION 1.
It is the intent of the General Assembly to:
(1) Update and modernize Georgia's telecommunications laws to encourage competition and bring about lower prices and better services for the consumer;
(2) Make Georgia a more attractive place for telecommunications investment and encourage the deployment of advanced technologies;
(3) Create and preserve jobs for Georgia workers; and
(4) Reduce the subsidies paid by Georgia consumers.
It is not the intent of the General Assembly to impose any fee or other charge on Georgia consumers.

SECTION 2.
This Act shall be known as and may be cited as the "Telecom Jobs and Investment Act."

SECTION 3.
Chapter 5 of Title 46 of the Official Code of Georgia Annotated, relating to telephone and telegraph service, is amended by revising Code 46-5-166, relating to rates for basic local exchange services, as follows:
"46-5-166.
(a) An electing local exchange company shall have its rates for basic local exchange services determined pursuant to this Code section.
(b) Rates for basic local exchange services for residential and single line business customers in effect on the date the local exchange company becomes subject to alternative regulation described in this article shall be the maximum rates that the local exchange company may charge for basic local exchange services for a period of five years, provided that such maximum rates are subject to review by the commission pursuant to subsection (f) of this Code section under rules promulgated by the commission. During such period, the local exchange company may charge less than the authorized maximum rates for basic local exchange services. Thereafter, rate adjustments for basic local exchange services may be made pursuant to subsection (c) of this Code section.
(b) Rates for basic local exchange services may be adjusted by the electing company subject to an inflation based cap. Inflation shall be measured by the change in the GDP-PI. The electing company is authorized to adjust the cap on an annual basis. The cap requires that the annual percentage rate increase for basic local exchange services shall not exceed the greater of one-half of the percentage change in the GDP-PI for the preceding year when the percentage change in the GDP-PI exceeds 3 percent or the GDP-PI minus 2 percentage points.
(d) In the event the GDP-PI is no longer available, the commission shall select a comparable broad national measure of inflation calculated by the United States Department of Commerce for its use.
(e) The local exchange company, as defined in paragraph (5) of Code Section 46-5-162, shall set rates for all other local exchange services on a basis
that does not unreasonably discriminate between similarly situated customers; provided, however, that all such rates are subject to a complaint process for abuse of market position in accordance with rules to be promulgated by the commission. Competing local exchange companies may resell local exchange services purchased from other local exchange companies.

(1)(b) Except as otherwise provided in this subsection, the rates for switched access by each Tier 1 local exchange company shall be no higher than the rates charged for interstate access by the same local exchange company. The rates for switched access shall be negotiated in good faith between the parties. If the rates for switched access cannot be negotiated between the parties, any party may petition the commission to set reasonable rates, terms, or conditions for switched access. The commission shall render a final decision in any proceeding initiated pursuant to the provisions of this paragraph subsection no later than 60 days after the close of the record except that the commission, by order, may extend such period in any case in which it shall find that the complexity of the issues and the length of the record require an extension of such period, in which event the commission shall render a decision at the earliest date practicable. In no event shall the commission delay the rendering of a final decision in such proceeding beyond the earlier of 120 days after the close of the record or 180 days from the filing of the notice of petition for determination of rates for switched access that initiated the proceeding.

(2)(c) Each Tier 2 local exchange company shall, prior to July 1, 2000, adjust in equal annual increments its intrastate switched access charges to parity with its similar interstate switched access rates. The commission shall have authority to govern the transition of Tier 2 local exchange company switched access rates to their corresponding interstate levels and shall allow adjustment of other rates, including those of basic local exchange services or universal service access funds, as may be necessary to recover those revenues, based on calendar year 2008, lost through the concurrent reduction of the intrastate switched access rates. In no event shall such adjustments exceed the revenues associated with intrastate to interstate access parity as of July 1, 1995. In addition, if access revenues have dropped below July 1, 1995, levels in subsequent years, the adjustment in those years will be based on the reduced balance. Any intrastate to interstate switched access adjustments resulting in increased local rates that have been capped under subsection (b) of this Code section will be allowed and a new cap will be established pursuant to this Code section. In the event that the rates for switched access cannot be negotiated in good faith between the parties, the commission shall determine the reasonable rates for switched access in accordance with the procedures provided in paragraph (1) of this subsection (b) of this Code section. Any Tier 2 local exchange company that is an electing company may elect to become subject to rate of return regulation by certification to the commission of this election no later than December 31, 2010.

(d) Beginning January 1, 2011, and ending December 31, 2020, each telecommunications company holding a certificate of authority or otherwise authorized to provide telecommunications services in this state other than a Tier 2 local exchange
company shall adjust in equal annual increments its intrastate switched access charges to parity with its similar interstate switched access rates.

(g) In accordance with rules to be promulgated by the commission, any electing telecommunications company providing intrastate switched access services shall file tariffs with the commission for basic local exchange intrastate switched access services and other local exchange applicable services that state the terms and conditions of such services and the rates as established pursuant to this Code section.

(f) The commission shall review the intrastate switched access rates as set forth in subsections (c) and (d) of this Code section and shall report the results of its findings and any actions taken to the General Assembly by or before December 31, 2011. Thereafter, the commission shall include in its annual report to the General Assembly required under Code Section 46-5-174 the status of any intrastate switched access rate changes under this Code section."

SECTION 4.
Said chapter is further amended by revising Code Section 46-5-167, relating to the Universal Access Fund, as follows:

"46-5-167.
(a) The commission shall create a Universal Access Fund to assure the provision of reasonably priced access to basic local exchange services throughout Georgia. The fund shall be administered by the commission pursuant to this Code section and under rules to be promulgated by the commission as needed to assure that the fund operates in a competitively neutral manner between competing telecommunications providers.

(b) The commission shall require all telecommunications companies providing telecommunications holding a certificate of authority issued by the commission to provide services within Georgia to contribute quarterly to the fund in a proportionate amount to their gross revenues from sale to end users of such telecommunications services as determined by rules to be promulgated by the commission as provided in this subsection. The commission shall determine the manner of contribution using either one or a combination of the following two contribution methodologies:

(1) A charge for each working telephone number; or

(2) A proportionate amount based on each company's gross intrastate revenues from the provision of telecommunications services to end users.

In calculating such contributions, the commission shall allow a local exchange company holding a certificate of authority issued by the commission that is not a universal access provider with primary headquarters in Georgia and more than 750 employees to utilize Georgia net operating losses on a full dollar-for-dollar basis to reduce up to 50 percent of their contribution to the Universal Access Fund, provided such losses have not expired and are not subsequently used to reduce Georgia taxable revenue. The commission may allow any telecommunications company certified as a competitive local exchange carrier to request a hearing seeking relief from this
contribution requirement upon application, demonstration, and good cause shown that such competitive local exchange carrier does not receive a benefit from the reduction in intrastate switched access charges pursuant to subsection (c) of Code Section 46-5-166.

(c) The commission may also require any telecommunications company to contribute to the fund if, after notice and opportunity for hearing, the commission determines that the company is providing private local exchange services or radio based local exchange services in this state that compete with a telecommunications service provided in this state for which a contribution to the fund is required under this Code section.

(d)(c) Contributions to the fund shall be determined by if, after notice and opportunity for hearing, the commission based upon estimates as to calculates the difference in the reasonable actual costs of basic local exchange services throughout Georgia and the amounts established by law or regulations of the commission as to the maximum amounts that may be charged for such services and shall also account for reductions in intrastate switched access charges pursuant to subsection (c) of Code Section 46-5-166.

(e) Moneys in the fund shall be distributed quarterly to all providers of basic local exchange services upon application and demonstration that the reasonable costs as determined by the commission to provide basic local exchange services exceed the maximum fixed price permitted for such basic local exchange services. The commission may take into account the possibility that a competing local exchange company is providing or could provide lower cost basic local exchange services. Competitive providers shall be entitled to obtain a similar subsidy from the fund to the extent that they provide basic local exchange services; provided, however, that such subsidy shall not exceed 90 percent of the per line amount provided the incumbent local exchange company for existing basic local exchange service or 100 percent of new basic local exchange service.

(d)(1) Nothing in this subsection shall require any Tier 2 local exchange company to raise any of its rates. Nothing in this subsection shall authorize any Tier 2 local exchange company to receive any subsidy from the Universal Access Fund. For purposes of this subsection, the term 'subsidy' means any payment authorized by paragraph (2) of this subsection in excess of the intrastate access charge reductions pursuant to subsection (c) of Code Section 46-5-166.

(2) After notice and opportunity for hearing, the commission shall determine the amount of moneys in the fund that shall be distributed quarterly. Such determination shall be made as follows:

(A) Distributions to carriers that have reduced intrastate switched access charges pursuant to subsection (c) of Code Section 46-5-166 shall be limited to an amount reflective of such access charge reductions and shall also be reduced by the amount per access line, which if added to the carrier's basic local exchange service rate results in an amount that would be equal to 110 percent of the July 1, 2009, residential state-wide weighted average rate for basic local exchange services imputed across all access lines and adjusted annually for inflation measured by the change in GDP-PI. Any distributions pursuant to this subsection shall be limited to a period of no more than ten years; and
(B) Except for those distributions to Tier 2 local exchange companies that have reduced intrastate switched access charges pursuant to subsection (c) of Code Section 46-5-166, distributions to a Tier 2 local exchange carrier subject to rate of return regulation shall also be reduced by the amount per access line, which if added to the carrier's basic local exchange service rate results in an amount that would be equal to 110 percent of the July 1, 2009, residential state-wide weighted average rate for basic local exchange services imputed across all access lines and adjusted annually for inflation measured by the change in GDP-PI. The commission shall determine any such distributions upon application, demonstration, and good cause shown that the reasonable actual costs to provide basic local exchange services exceed the maximum fixed price permitted for such basic local exchange services.

(e) The commission shall require any local exchange company seeking reimbursement from the fund pursuant to subparagraph (d)(2)(B) of this Code section to file the information reasonably necessary to determine the actual and reasonable costs of providing basic local exchange services.

(f) The commission shall have the authority to make adjustments to the contribution or distribution levels based on yearly reconciliations and to order further contributions or distributions as needed between companies to equalize reasonably the burdens of providing basic local exchange service throughout Georgia.

(g) A local exchange company or other company shall not establish a surcharge on customers' bills to collect from customers' contributions required under this Code section.

SECTION 5.
Said chapter is further amended by revising subsection (a) of Code Section 46-5-222, relating to commission has no authority over setting of rates or terms and conditions for the offering of broadband service, voice over Internet protocol, or wireless service, as follows:

"(a) The Public Service Commission shall not have any jurisdiction, right, power, authority, or duty to impose any requirement or regulation relating to the setting of rates or terms and conditions for the offering of broadband service, VoIP, or wireless services. VoIP providers doing business in Georgia shall register with the Secretary of State every name under which the VoIP provider is doing business in this state and the address and telephone number of its business office."

SECTION 6.
Said chapter is further amended by adding a new article to read as follows:

"ARTICLE 9

46-5-250.
As used in this article, the term 'retail telecommunications service' means the offering of two-way interactive communications for a fee directly to end users and does not include the obligations of an incumbent local exchange carrier as defined by 47 U.S.C.
Section 251, pursuant to 47 U.S.C. Sections 251, 252, and 271 and the Federal Communications Commission's rules and regulations implementing such sections.

46-5-251.
(a) Notwithstanding any other provision of law in this chapter or Chapter 2 of this title except the complaint process set forth in subsection (a) of Code Section 46-5-166, as of July 1, 2010, the Public Service Commission shall not have any jurisdiction, right, power, authority, or duty to impose or enforce any requirement, regulation, or rule relating to the setting of rates or terms and conditions for the offering of retail telecommunications service by a telecommunications company not subject to rate of return regulation.
(b) This Code section shall not be construed to affect:
   (1) State laws of general applicability to all businesses, including, without limitation, tax laws, consumer protection laws, general references to utilities and the rights and obligations of utilities in other Code sections, and laws relating to restraint of trade;
   (2) Any authority of the Public Service Commission to receive consumer complaints; or
   (3) Any authority of the Public Service Commission to act in accordance with federal laws or regulations of the Federal Communications Commission, including, without limitation, jurisdiction granted to set rates, terms, and conditions for access to unbundled network elements, intercarrier compensation, and to arbitrate and enforce interconnection agreements.

SECTION 7.
This Act shall become effective on July 1, 2010.

SECTION 8.
All laws and parts of laws in conflict with this Act are repealed.
On the adoption of the amendment, there were no objections, and the Shafer et al. amendment #1 to the committee substitute was adopted.

Senators Shafer of the 48th, Carter of the 1st and Williams of the 19th offered the following amendment #2:

February 12, 2009

The Honorable Howard Maxwell  
State Representative  
State Capitol, Room 402  
Atlanta, Georgia  30334

SUBJECT: State Auditor’s Certification  
Substitute to House Bill 172  
(LC 21 0313S)

Dear Representative Maxwell:

This substitute bill would amend provisions relating to the re-examination of persons receiving disability benefits under the Employees’ Retirement System of Georgia. Specifically, this bill would remove the requirement that the examination be made at the disability beneficiary’s place of residence or other place that is mutually agreed upon. Additionally, this substitute bill would amend provisions relating to disability allowances for persons who first or again become members of the Employees’ Retirement System on or after September 1, 2009. Under the provisions of this bill, the disability benefits of such persons shall include any income payment received from workers’ compensation. In the event workers’ compensation was paid as a lump sum, the monthly disability allowance shall be reduced on an actuarial basis as determined by the actuary of this retirement system. If this legislation is enacted, the provisions of this bill would become effective upon its approval by the Governor or upon its becoming law without such approval.

This is to certify that this substitute bill is a nonfiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

/s/ Russell W. Hinton  
State Auditor

The Senate Retirement Committee offered the following substitute to HB 172:

SECTION 1.

Code Section 47-2-125 of the Official Code of Georgia Annotated, relating to reexamination of persons receiving disability benefits under the Employees' Retirement System of Georgia, effect of refusal to undergo examination, and effect of ability to engage in gainful employment, is amended by revising subsection (a) as follows:

"(a)(1) Once each year during the first five years following the retirement of a member on a disability retirement allowance and once in every three-year period thereafter, the board of trustees may require a disability beneficiary who has not yet attained retirement age as specified in subsection (a) of Code Section 47-2-110 to undergo a medical examination, such examination to be made at the disability beneficiary's place of residence or other place mutually agreed upon, by a physician or physicians designated by the medical board. The disability beneficiary may request such an examination. Should any disability beneficiary who has not yet attained retirement age refuse to submit to such medical examination, the pension of such disability beneficiary may be discontinued by the board of trustees until the withdrawal of such refusal; and should the refusal continue for one year, all rights of the disability beneficiary in and to a pension may be revoked by the board of trustees.

(2) Should the medical board report and certify to the board of trustees that a disability beneficiary is engaged in or is able to engage in a gainful occupation paying more than the difference between the disability beneficiary's retirement allowance and the earnable compensation used to calculate the disability retirement allowance at the time of retirement, the board of trustees may reduce the disability beneficiary's pension to an amount which, together with the disability beneficiary's annuity and the amount earnable by the disability beneficiary, equals the earnable compensation used to calculate the disability retirement allowance at the time of retirement. Should the disability beneficiary's earning capacity be later changed, the amount of the pension may be further modified, provided that the modified pension shall not exceed an amount which, together with the disability beneficiary's annuity and the amount earnable by the disability beneficiary, equals the earnable compensation used to calculate the disability retirement allowance at the time of retirement.

(3) The provisions of this paragraph shall apply to persons who first or again become members of this retirement system on or after September 1, 2010. For purposes of paragraph (2) of this subsection, the amount earnable by the beneficiary shall include
any income payment received from workers' compensation; provided, however, that in the event of a lump sum payment, the monthly disability allowance shall be reduced on an actuarial basis as determined by the actuary of this retirement system."

SECTION 2.
This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 3.
All laws and parts of laws in conflict with this Act are repealed.

SUBJECT: State Auditor’s Certification
Substitute to House Bill 172
(LC 21 0591S)

Dear Senator Heath:

This substitute bill would amend provisions relating to the re-examination of persons receiving disability benefits under the Employees’ Retirement System of Georgia. Specifically, this bill would remove the requirement that the examination be made at the disability beneficiary’s place of residence or other place that is mutually agreed upon. Additionally, this substitute bill would amend provisions relating to disability allowances for persons who first or again become members of the Employees’ Retirement System on or after September 1, 2010. Under the provisions of this bill, the disability benefits of such persons shall include any income payment received from workers’ compensation.
In the event workers’ compensation was paid as a lump sum, the monthly disability allowance shall be reduced on an actuarial basis as determined by the actuary of this retirement system. If this legislation is enacted, the provisions of this bill would become effective upon its approval by the Governor or upon its becoming law without such approval.

This is to certify that this substitute bill is a nonfiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

/s/ Russell W. Hinton
State Auditor

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Code Section 47-2-318 of the Official Code of Georgia Annotated, relating to membership in the Employees' Retirement System of Georgia of officers and employees of the Georgia Environmental Facilities Authority, creditable service, and contributions, is amended as follows:

"47-2-318. (a) As used in this Code section, the term:

(1) 'Georgia Environmental Facilities Finance Authority' or 'authority' means the Georgia Environmental Facilities Finance Authority established by Article 1 of Chapter 23 of Title 50, known as the 'Georgia Environmental Facilities Finance Authority Act.'

(2) 'Officer or employee' means the executive director of the authority and any other full-time employee of the authority employed pursuant to the provisions of paragraph (5) of subsection (b) of Code Section 50-23-5.

(3) 'Proof of prior employment' means pay records, income tax withholding records, or other records of the authority or its predecessor agency which are sufficient to establish to the satisfaction of the board of trustees the prior employment record of an officer or employee of the authority.

(4) 'Predecessor agency' means the Georgia Development Authority provided for by Chapter 10 of Title 50.

(b) Effective July 1, 1988, or on the date of employment, each officer or employee of the authority shall become a member of the retirement system.

(c)(1) This subsection shall apply only to an officer or employee of the authority holding office or employed on July 1, 1988, who, prior to becoming such an officer or employee or an officer or employee of the predecessor agency, had 11 or more years of creditable service under the retirement system for which contributions to the retirement system have not been withdrawn.

(2) An officer or employee of the authority who is subject to the provisions of this subsection shall, upon furnishing proof of prior employment to the board of trustees, be eligible to receive creditable service under this retirement system for prior employment as an officer or employee of the authority or its predecessor agency, subject to the requirements of this subsection. Any such officer or employee must pay to the board of trustees the employee contributions, plus accrued regular interest
thereon, which would have been paid during the period of prior employment if the officer or employee had been a member of the retirement system during such period. The authority shall be authorized to pay from any funds available to the authority the employer contributions, plus accrued regular interest thereon, which would have been paid during such period of prior employment. For a member claiming creditable service for prior employment under this subsection, the board of trustees shall determine the period of time that the payments to the board of trustees provided for under this subsection will fund as creditable service under the retirement system without creating any additional accrued liability of the retirement system. Except as otherwise provided in paragraph (3) of this subsection, the amount of creditable service so determined shall be the creditable service to which the member is entitled.

(3) The authority shall be authorized to supplement, if necessary, the payments made to the board of trustees under paragraph (2) of this subsection in an amount, as determined by the board of trustees, which will fully fund as creditable service the total amount of prior employment of the officer or employee without creating any additional accrued liability of the retirement system. If such supplement is paid to the board of trustees by the authority, the officer or employee shall receive full creditable service under the retirement system for all prior employment as an officer or employee of the authority.

(4) An officer or employee of the authority who is subject to the provisions of this subsection shall have the same membership status under the retirement system which the person had during the person's previous service as a member of the retirement system. Nothing in this subsection shall be construed to limit the right of an officer or employee of the authority who is subject to the provisions of this subsection to retain or reestablish creditable service for previous service as a member of the retirement system.

(d) Any officer or employee of the authority who was already a member of the retirement system on July 1, 1988, and any member of the retirement system who, without any break in service, becomes an officer or employee of the authority on or after July 1, 1988, shall continue in the same membership status without any interruption in membership service and without the loss of any creditable service.

(e) Except as otherwise provided in subsections (c) and (d) of this Code section, an officer or employee of the authority becoming a member of the retirement system pursuant to the provisions of this Code section shall be subject to the provisions of Code Section 47-2-334.

(f) All employer contributions, including employee contributions made by the employer on behalf of members, which are required by this chapter shall be made for members who are subject to the provisions of this Code section from funds appropriated to or otherwise available for the operation of the Georgia Environmental Facilities Authority or Georgia Environmental Finance Authority. The authority shall deduct from the salaries payable to such members the additional employee contributions required by this chapter.
SECTION 2.
This Act shall become effective on July 1, 2010; however, this Act shall only become effective on July 1, 2010, upon the passing of an Act to change the name of the Georgia Environmental Facilities Authority to the Georgia Environmental Finance Authority. If such Act is not passed, this Act shall not become effective and shall stand repealed in its entirety on July 1, 2010.

SECTION 3.
All laws and parts of laws in conflict with this Act are repealed.

   (3) The third party accessing the provider network contract is contractually obligated to comply with all applicable terms, limitations, and conditions of the provider
A contracting entity that grants access to a provider's health care services and contractual discounts pursuant to a provider network contract shall:

2. Maintain an Internet website or other readily available mechanism, such as a toll-free telephone number, through which a provider may obtain a listing, updated at least every 90 days, of the third parties to which the contracting entity or another third party has executed contracts to grant access to such provider's health care services and contractual discounts pursuant to a provider network contract;

5. Notify the third party that contracts with the contracting entity to gain access to the provider network contract of the termination of the provider network contract no later than 30 days after receipt of notice of the termination of the provider network contract; and require those that are by contract eligible to claim the right to access a provider's discounted rate to cease claiming entitlement to those rates or other contracted rights or obligations for services rendered after termination of the provider network contract. The notice required under this paragraph may be provided through any reasonable means, including, but not limited to written notice, electronic communication, or an update to an electronic data base or other provider listing.

2. In accordance with the provider network contract, claims for health care services performed after the termination date of the provider network contract shall not be eligible for processing and payment; and

of this chapter shall be confidential and shall not be disclosed to any person or entity not involved in the provider's practice or the administration thereof without the prior written consent of the contracting entity.

(e) Nothing contained in this chapter shall be construed to prohibit a contracting entity from requiring the provider to execute a reasonable confidentiality agreement to ensure that confidential or proprietary information disclosed by the contracting entity is not used for any purpose other than the provider's direct practice management or billing activities.

33-20C-5.

(a) A third party, having itself been granted access to a provider's health care services and contractual discounts pursuant to a provider network contract, that subsequently grants access to another third party shall be obligated to comply with the rights and responsibilities imposed on contracting entities under Code Sections 33-20C-4 and 33-20C-6.

(c)(1) A third party shall provide to the contracting entity the location of an Internet website, or identify another readily available mechanism such as a toll-free telephone number, which the contracting entity will make available to the providers under the provider network contract accessed through the contracting entity. The website or other readily available mechanism shall identify the name of the person or entity to which the third party subsequently grants access to the provider's health care services and contractual discounts pursuant to the provider network contract.

(2) The website shall allow the providers under the contracting entity's provider network contract access to the information referenced in paragraph (1) of this subsection and shall be updated on a routine basis as additional persons or entities are granted access. The website shall be updated every 90 days to reflect all current persons and entities with access. Upon request, a contracting entity shall make updated access information available to a provider by telephone or through direct notification.

33-20C-6.

(a) It shall be an unfair trade practice for the purposes of Article 1 of Chapter 6 of this title to knowingly access or utilize a provider's contractual discount pursuant to a provider network contract without a contractual relationship with the provider, contracting entity, or third party, as specified in this chapter.

(b) A provider may refuse the discount taken on services referenced on a remittance advice (RA) or explanation of payment (EOP) if the provider did not receive notice by ID card or pursuant to paragraph (2) of subsection (b) of Code Section 33-20C-4 or subsection (c) of Code Section 33-20C-5 prior to the services referenced in the RA or
(c) A contracting entity shall not lease, rent, or otherwise grant to a third party access to a provider network contract unless the third party accessing the health care contract is:

1. A payor or third party administrator or another entity that administers or processes claims on behalf of the payor;
2. A preferred provider organization or preferred provider network, including a physician organization or physician-hospital organization; or
3. An entity engaged in the electronic claims transport between the contracting entity and the payor that does not provide access to the provider's services and discount to any other third party.

A violation of this chapter shall be an unfair trade practice under Article 1 of Chapter 6 of this title and shall be subject to the same enforcement as provided in such article.

For those fully utilized, their repetition here is only to prevent an incorrect implication of their repeal by omission and does not indicate new authority. In addition to all other appropriations, there is hereby appropriated as needed, a specific sum of money equal to each refund authorized by law, which is required to make refund of taxes and other monies collected in error, farmer gasoline tax refund and any other refunds specifically authorized by law.

Section 52: Leases
In accordance with the requirements of Article IX, Section VI, Paragraph Ia of the Constitution of the State of Georgia, as amended, there is hereby appropriated payable to each department, agency, or institution of the State sums sufficient to satisfy the payments required to be made in each year, under existing lease contracts between any department, agency, or institution of the State, and any authority created and activated at the time of the effective date of the aforesaid constitutional provision, as amended, or appropriated for the State fiscal year addressed within this Act. If for any reason any of the sums herein provided under any other provision of this Act are insufficient to make the required payments in full, there shall be taken from other funds appropriated to the department, agency or institution involved, an amount sufficient to satisfy such deficiency in full and the lease payment constitutes a first charge on all such appropriations.

Section 53: Flex
Notwithstanding any other statement of purpose, the purpose of each appropriation of federal funds or other funds shall be the stated purpose, unless such purpose conflicts with state or federal law. If the stated purpose conflicts with state or federal law, then the purpose statement shall be construed as any other lawful purpose consistent with the fund source and the general law powers of the budget unit.
When an agency receives appropriations from the category, "Total Federal Funds," for more than one program or special project, the appropriation is the amount stated, and each program or special project shall also be authorized an additional fifty percent (50%) of the stated amount. However, if the additional authority is used, one or more of the other federal fund appropriations to that agency are reduced in the same total amount, such that the cumulative total in affected appropriations initially stated within the section is not exceeded, except that when an agency receives an appropriation from the category "Total Federal Funds" and such funds are identified "Temporary Assistance for Needy Families" (TANF), the appropriation is the amount stated and the agency may not reduce such funds below the amount stated.

Where federal funds received by an agency or other funds received by an agency and not remitted to the general fund of the state treasury are not otherwise restricted by state or federal law, the agency shall use such funds to supplant appropriated state funds in the following order: first, other funds received by the agency, and second, federal funds.

"Federal Funds" means any federal funding source, whether specifically identified or not specifically identified; "Other Funds" means all other fund sources except State Funds or Federal Funds, including without limitation, Intra-State Government Transfers. This section does not permit an agency to include within its flex the appropriations for an agency attached to it for administrative purposes.

Section 54: Budgetary Control and Interpretation
The appropriations in this Act consist of the amount stated in the right-most column, for each line at the lowest level of detail for the fund source categories, "Total State Funds" and "Total Federal Funds," under a caption beginning with a program or special project number that has a 100 or a higher number after the decimal and a program or special project name. In each case, such appropriation is associated with the immediately preceding program or special project name, number, and statement of program or special project purpose. The program or special project purpose is stated immediately below the program or special project name. For authorizations of general obligation debt in Section 50, the authorizing paragraphs at the end of the section are the lowest level of detail and constitute appropriations in accordance with OCGA 50-8-8(a) and Article VII, Section IV, Paragraph (II)(a)(1) of the Georgia Constitution.

Text in a group of lines that has a number less than 100 after the decimal (01 through 99) is not part of a statement of purpose but constitutes information as to how the appropriation was derived. Amounts in the columns other than the right-most column are for informational purposes only. The summary and lowest level of detail for the fund source categories "Total Agency Funds" and "Total Intra-State Governmental Transfers," are for informational purposes only. The blocks of text and numerals immediately following the section header and beginning with the phrases, "Section Total - Continuation" and "Section Totals - Final" are for informational purposes only. Sections 51, 52, and 53 contain, constitute, or amend appropriations.

Section 55: Effective Date
This Act shall become effective upon its approval by the Governor or upon its becoming law without his approval.

Section 56: Repeal Conflicting Laws
All laws and parts of laws in conflict with this act are repealed.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 43 of Title 33 of the Official Code of Georgia Annotated, relating to medicare supplemental insurance, is amended by revising Code Section 33-43-3, relating to
duplicate benefits prohibited and establishment of standards, as follows:

"33-43-3.

(a) No medicare supplement insurance policy or certificate in force in this state shall contain benefits which duplicate benefits provided by medicare.

(b) Notwithstanding any other provision of Georgia law, a medicare supplement policy or certificate shall not exclude or limit benefits for losses incurred more than six months from the effective date of coverage because it involved a preexisting condition. The policy or certificate shall not define a preexisting condition more restrictively than a condition for which medical advice was given or treatment was recommended by or received from a physician within six months before the effective date of coverage.

(c) The Commissioner shall adopt reasonable regulations to establish specific standards for policy provisions of medicare supplement policies and certificates. Such standards shall be in addition to and in accordance with applicable laws of this state. No requirement of this title relating to minimum required policy benefits, other than the minimum standards contained in this chapter, shall apply to medicare supplement policies and certificates. The standards may cover, but shall not be limited to:

(1) Terms of renewability;
(2) Initial and subsequent conditions of eligibility;
(3) Nonduplication of coverage;
(4) Probationary periods;
(5) Benefit limitations, exceptions, and reductions;
(6) Elimination periods;
(7) Requirements for replacement;
(8) Recurrent conditions; and
(9) Definitions of terms.

(d) The Commissioner shall adopt reasonable regulations to establish minimum standards for benefits, claims payment, marketing practices, compensation arrangements, and reporting practices for medicare supplement policies and certificates.

(e) The Commissioner may adopt from time to time such reasonable regulations as are necessary to conform medicare supplement policies and certificates to the requirements of federal law and regulations promulgated thereunder, including, but not limited to:

(1) Requiring refunds or credits if the policies or certificates do not meet loss ratio requirements;
(2) Establishing a uniform methodology for calculating and reporting loss ratios;
(3) Assuring public access to policies, premiums, and loss ratio information of issuers of medicare supplement insurance;
(4) Establishing a process for approving or disapproving policy forms, certificate forms, and proposed premium increases;
(5) Establishing a policy for holding public hearings prior to approval of premium increases; and
(6) Establishing standards for medicare select policies and certificates.

(f) The Commissioner may adopt reasonable regulations that specify prohibited policy provisions not otherwise specifically authorized by statute which, in the opinion of the
(g) Insurers offering medicare supplement policies in this state to persons 65 years of age or older shall also offer medicare supplement policies to persons in this state who are eligible for and enrolled in medicare by reason of disability or end-stage renal disease. Except as otherwise provided in this Code section, all benefits, protections, policies, and procedures that apply to persons 65 years of age or older shall also apply to persons that are eligible for and enrolled in medicare by reason of disability or end-stage renal disease.

(h) Persons may enroll in a medicare supplement policy at any time authorized or required by the federal government, or within six months of:

1. Enrolling in medicare Part B, or by January 1, 2011, for an individual who is under 65 years of age and is eligible for medicare because of disability or end-stage renal disease, whichever is later;
2. Receiving notice that such person has been retroactively enrolled in medicare Part B due to a retroactive eligibility decision made by the Social Security Administration; or
3. Having had a prior health insurance policy, accident and sickness policy, employer-sponsored medicare supplement insurance policy, or Medicare Advantage plan terminated or cancelled due to the applicant's employment status, a decision of the individual applicant's employer, or an action by an insurer unrelated to the applicant's status or conduct.

(i) No policy or certificate issued pursuant to this chapter shall prohibit payment made by third parties on behalf of individual applicants or individuals within a group applicant so long as full payment is made in a timely manner as provided in the policy.

(j) Premiums for medicare supplemental insurance policies may differ between persons who qualify for medicare who are 65 years of age or older and those who qualify for medicare who are younger than 65 years of age; provided, however, that such differences in premiums shall not be excessive, inadequate, or unfairly discriminatory.

SB 254. By Senator Rogers of the 21st:

A BILL to be entitled an Act to amend Article 2 of Chapter 16 of Title 50 of the Official Code of Georgia Annotated, relating to the "State Properties
Code," so as to provide the State Properties Commission the authority to enter into multiyear lease agreements; to remove the authority of the Department of Labor to manage its own space; to provide for the termination of certain rental and lease agreements; to provide for direct appropriations to the commission; to provide for related matters; to provide an effective date; to repeal conflicting laws; and for other purposes.

The Senate Government Oversight Committee offered the following substitute to SB 254:

A BILL TO BE ENTITLED
AN ACT

To amend Article 2 of Chapter 16 of Title 50 of the Official Code of Georgia Annotated, relating to the "State Properties Code," so as to provide the State Properties Commission the authority to enter into multiyear lease agreements; to remove the authority of the Department of Labor to manage its own space; to provide for the termination of certain rental and lease agreements; to provide for direct appropriations to the commission; to provide for related matters; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1. Article 2 of Chapter 16 of Title 50 of the Official Code of Georgia Annotated, relating to the "State Properties Code," is amended in Code Section 50-16-34, relating to the powers and duties of the State Properties Commission generally, by striking "and" at the end of paragraph (16), by replacing the period at the end of paragraph (17) with a semicolon, and adding new paragraphs to read as follows:

"(18) Locate administrative space for use by state entities and enter into rental agreements for the use of such space; and
(19) Charge, collect, and retain commissions and fees for the purpose of financing the operations of the commission, including, but not limited to, acquiring and disposing of real property, negotiating and entering into rental agreements, and establishing and maintaining reserve funds for the payment of necessary expenses for carrying out the purposes of this article."

SECTION 2. Said article is further amended by revising Code Section 50-16-41, relating to authorizing rental agreements without competitive bidding, limitations, charging the commission with the management of administrative space, standards governing the utilization of administrative space, reassignment of administrative space, and rules and regulations therefore, as follows:

"50-16-41."
(a) Notwithstanding any provisions and requirements of law to the contrary and particularly notwithstanding the requirements of Code Section 50-16-39, the commission is authorized to negotiate, prepare, and enter into in its own name rental agreements whereby a part of the property is rented, without public competitive bidding, to a person for a length of time not to exceed one year and for adequate monetary consideration (in no instance to be less than a rate of $250.00 per year), which shall be determined by the commission, and pursuant to such terms and conditions as the commission shall determine to be in the best interest of the state. The same property or any part thereof shall not be the subject matter of more than one such rental agreement to the same person unless the commission shall determine that there are extenuating circumstances present which would make additional one-year rental agreements beneficial to the state; provided, however, the same property or any part thereof shall not after April 24, 1975, be the subject matter of more than a total of three such one-year rental agreements to the same person.

(b) The commission is given the authority and charged with the duty of managing the utilization of administrative space by all state entities, except that the Board of Regents of the University System of Georgia and the Georgia Department of Labor may manage their own space but only for leases that are within the State of Georgia and required for their core mission. The commission shall manage in a manner that is the most cost efficient and operationally effective and which provides decentralization of state government. Such management shall include the authority to assign and reassign administrative space to state entities based on the needs of the entities as determined by standards for administrative space utilization promulgated by the commission pursuant to subsection (g) of this Code section and shall include the obligation to advise the Office of Planning and Budget and state entities of cost-effective, decentralized alternatives.

(c) The management of the utilization of administrative space by the commission shall include entering into any necessary agreements to rent or lease administrative space, whether existing or to be constructed, and shall include administrative space rented or leased by a state entity from the Georgia Building Authority or from any other public or private person, firm, or corporation. When it becomes necessary to rent or lease administrative space, the space shall be rented or leased by the commission for a term not to exceed ten years and assigned to the state entity or entities requiring the space. When there is a need to terminate an agreement for the rent or lease of administrative space, the state entity to which the space is assigned shall notify the commission of such need no less than 90 days prior to the requested date of termination. No agreement for the rent or lease of administrative space with a term in excess of one year shall be terminated without prior approval of the commission.

(d) If the commission reassigns all or any portion of any administrative space which is leased or rented by one state entity to another state entity, the state entity to which the administrative space is reassigned shall pay to the commission rental charges, as determined by the commission, for the utilization of the space; and the commission shall, in turn, use the rental charges so paid for the purpose of paying or partially
paying, as the case may be, the rent or lease payments due the lessor of the administrative space in accordance with the terms of the lease or rent contract existing at the time of the reassignment of the administrative space. Any such payments to a lessor by the commission shall be on behalf of the state entity which is the lessee of the administrative space reassigned as provided in this Code section.

(e) The management of the utilization of administrative space given to the commission by this Code section shall not be construed to impair the obligation of any contract executed before July 1, 1976, between any state entity and the Georgia Building Authority or between any state entity and any other public or private person, firm, or corporation; and the powers given to the commission by this Code section shall not be implemented or carried out in such a manner as to impair the obligation of any such contract.

(f) The commission is authorized and directed to develop and promulgate standards governing the utilization of administrative space by all state entities which require emphasis on cost effectiveness and decentralization. The standards shall be uniformly applied to all state entities except as otherwise provided by subsection (g) of this Code section, but the standards shall recognize and provide for different types of administrative space required by the various state entities and the different types of administrative space that may be required by a single state entity.

(g) The commission shall be authorized to reassign administrative space to the various state entities in order to bring the utilization of administrative space into conformity with the standards promulgated under subsection (f) of this Code section. Any additional administrative space required by a state entity shall be approved by and obtained through the commission. The commission shall be authorized to grant exceptions to the standards governing the utilization of administrative space when the reassignment of such space would involve unnecessary expenses or the disruption of services being provided by a state entity. The commission shall adopt and promulgate rules and regulations governing the granting of such exceptions, and the rules and regulations shall be uniformly applied by the commission to all state entities requesting an exception to the standards.

(h) For purposes of cost effectiveness and decentralization, the following factors, among other factors, shall be considered:

(1) Dual location of programs within a city should be considered in order to take advantage of possible economies of scale and as a matter of convenience to the general public; or

(2) When all factors are reasonably equivalent, preferences will be given to location of state government programs and facilities in those counties which are determined by the Department of Community Affairs to be the most economically depressed, meaning those 71 tier 1 counties of the state designated as least developed under paragraph (2) of subsection (b) of Code Section 48-7-40.

(i) The commission is authorized and directed to promulgate rules and regulations governing budgetary requirements to receive direct appropriations for all rents due and payable through the budgetary process for administrative space utilized by state entities
in cooperation with the Office of Planning and Budget whereby the entities shall be accountable in the budgetary process for administrative space assigned to and utilized by them. The budgetary requirements may also provide for the payment of rent other payments to the commission by state entities or may otherwise provide procedures for the assessment of rent charges for administrative space utilized by state entities or any combination of the foregoing. The commission shall provide a report annually, no later than September 1 of each year, to the Governor, President of the Senate, and Speaker of the House of Representatives of the total sum of all leasing obligations to be paid by the state for the upcoming fiscal year.

(j) In addition to the standards and rules and regulations specifically provided for by this Code section, the commission is authorized to adopt such other rules and regulations as may be required to carry out this Code section efficiently and effectively."

SECTION 3.
This Act shall become effective on January 1, 2011; provided, however, that this Act shall only become effective on January 1, 2011, upon the ratification of a resolution at the November, 2010, state-wide general election, which resolution amends the Constitution so as to authorize certain agencies to enter into lease and rental contracts exceeding one year. If such resolution is not so ratified, this Act shall not become effective and shall stand repealed in its entirety on January 1, 2011.

SECTION 4.
All laws and parts of laws in conflict with this Act are repealed.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.
Title 32 of the Official Code of Georgia Annotated, relating to highways, bridges, and ferries, is amended by adding a new chapter to read as follows:

"CHAPTER 12

32-12-1. The General Assembly finds that there exist a number of programs designed to provide rural and human services transportation and that frequently these services are provided over large geographic areas through various funding sources which are frequently targeted to narrowly defined client bases. The sheer number of such programs lends itself to a need for coordination among the programs and agencies which implement them so as to best assist economies in purchasing equipment and operating these many programs, to better serve the taxpayers of the state in ensuring the most cost-effective delivery of these services, and to best serve the clients utilizing the transportation services provided through these programs.

32-12-2. There is hereby created the Georgia Coordinating Committee for Rural and Human Services Transportation of the Governor's Development Council.

32-12-3. The Georgia Coordinating Committee for Rural and Human Services Transportation and its advisory subcommittees shall meet not less often than quarterly. Administrative expenses of the committee shall be borne by the Governor's Development Council. The members of the committee shall receive no extra compensation or reimbursement of expenses from the state for their services as members of the committee.

32-12-4. The Georgia Coordinating Committee for Rural and Human Services Transportation shall establish the State Advisory Subcommittee for Rural and Human Services Transportation which shall consist of the State School Superintendent and the commissioners of the Department of Transportation, Department of Human Services, Department of Behavioral Health and Developmental Disabilities, Department of Community Health, Department of Labor, the Governor's Development Council, and the Department of Community Affairs or their respective designees. The commissioner of transportation or his or her designee shall serve as chairperson of the State Advisory
Subcommittee for Rural and Human Services Transportation. The Georgia Coordinating Committee for Rural and Human Services Transportation may also establish such additional advisory subcommittees as it deems appropriate to fulfill its mission which shall consist of a representative of each metropolitan planning organization and representatives from each regional commission in this state and may include other local government representatives; private and public sector transportation providers, both for profit and nonprofit; voluntary transportation programs representatives; public transit system representatives, both rural and urban; and representatives of the clients served by the various programs administered by the agencies represented on the State Advisory Subcommittee for Rural and Human Services Transportation. Members of advisory committees shall be responsible for their own expenses and shall receive no compensation or reimbursement of expenses from the Georgia Coordinating Committee for Rural and Human Services Transportation, the State Advisory Subcommittee for Rural and Human Services Transportation, or the state for their services as members of an advisory committee.

32-12-5.
The Georgia Coordinating Committee for Rural and Human Services Transportation shall examine the manner in which transportation services are provided by the participating agencies represented on the committee. Such examination shall include but not be limited to:

(1) An analysis of all programs administered by participating agencies, including capital and operating costs, and overlapping or duplication of services among such programs, with emphasis on how to overcome such overlapping or duplication;
(2) The means by which transportation services are coordinated among state, local, and federal funding source programs;
(3) The means by which both capital and operating costs for transportation could be combined or shared among agencies, including at a minimum shared purchase of vehicles and maintenance of such vehicles;
(4) An analysis of those areas which might appropriately be consolidated to lower the costs of program delivery without sacrificing program quality to clients, including shared use of vehicles for client trips regardless of the funding source which pays for their trips;
(5) An analysis of state of the art efforts to coordinate rural and human services transportation elsewhere in the nation, including at a minimum route scheduling so as to avoid duplicative trips in a given locality;
(6) A review of any limitations which may be imposed by various federally funded programs and how the state can manage within those limitations as they review possible sharing opportunities;
(7) An analysis of how agency programs interact with and impact state, local, or regional transportation services performed on behalf of the general public through state, local, or regional transit systems;
(8) An evaluation of potential cost sharing opportunities available for clients served...
by committee agencies so as to maximize service delivery efficiencies and to obtain the maximum benefit on their behalf with the limited amount of funds available; and

(9) An analysis of possible methods to reduce costs, including, but not limited to, greater use of privatization.

32-12-6.
No later than July 1 of each year, the Governor's Development Council shall submit the preliminary report of the Georgia Coordinating Committee for Rural and Human Services Transportation to the members of the State Advisory Subcommittee for Rural and Human Services Transportation. Comments and recommendations may be submitted to the Governor's Development Council for a period of 30 days. No later than September 1 of each year, the Governor's Development Council shall submit a final report to the Governor's Office of Planning and Budget for review and consideration. The report shall address each of the specific duties enumerated in Code Section 32-12-5 and such other subject areas within its purview as the Governor's Development Council shall deem appropriate. Each report shall focus on existing conditions in coordination of rural and human services transportation within the state and shall make specific recommendations for means to improve such current practices. Such recommendations shall address at a minimum both their cost implications and impact on client service. No later than January 15 of each year, the Governor's Office of Planning and Budget shall submit the final report of the Governor's Development Council and any affiliated budget recommendations to the presiding officers of the General Assembly, with copies of said report sent to the chairpersons of the transportation committees, the appropriations committees, and the health and human services committees of each chamber of the General Assembly."

SECTION 2.
This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 6.
Said chapter is further amended by revising Code Section 12-5-180.1, relating to allocating water and waste-water usage among tenants and charging tenants for usage, as follows:
"12-5-180.1.
(a) Except as otherwise provided in subsections (c) and (d) of this Code section, the owner or operator of a building containing residential units may install equipment or use an economic allocation methodology to determine the quantity of water that is provided to the tenants and used in the common areas of such a building; and the owner of such a building may charge tenants separately for water and waste-water service based on usage as determined through the use of such equipment or allocation methodology.
(b) Except as otherwise provided in subsections (c) and (d) of this Code section, the owner or operator of a building containing residential units may charge tenants separately for water and waste-water service, provided that the total amount of the charges to the tenants of such a building shall not exceed the total charges paid by the owner or operator for water and waste-water service for such building plus a reasonable
fee for establishing, servicing, and billing for water and waste-water service and
provided, further, that the terms of the charges are disclosed to the tenants prior to any
contractual agreement.

(c) All new multiunit residential buildings permitted on or after July 1, 2012, shall be
constructed in a manner which will permit the measurement by a county, municipal, or
other public water system or by the owner or operator of water use by each unit. This
subsection shall not apply to any building constructed or permitted prior to July 1, 2012, which is thereafter: (1) renovated; or (2) following a casualty or condemnation, rennovated or rebuilt.

(d) All new multiunit retail and light industrial buildings permitted or with a pending
permit application on or after July 1, 2012, shall be constructed in a manner which will
permit the measurement by the owner or operator of water use by each unit. This
subsection shall not apply to any building constructed or permitted prior to July 1,
2012, which is thereafter: (1) renovated; or (2) following a casualty or condemnation,
renovated or rebuilt. This subsection is not intended to apply to newly constructed
multiunit office buildings or office components of mixed use developments. Multiunit
office buildings and the office component of mixed use developments may seek
reimbursement from office tenants for water and waste-water use through an economic
allocation which approximates the water use of each tenant based on square footage.
The retail component of a mixed use development shall be constructed in a manner
which will permit the measurement by the owner or operator of water use by each retail
unit.

(e)(1) A county, municipal, or other public water system, if applicable, or the owner
or operator of a building which is subject to subsection (c) or (d) of this Code section
shall seek reimbursement for water and waste-water usage by the units through an
economic allocation methodology which is based on the measured quantity of water
used by each unit.

(2) The owner or operator of such a building which includes common areas for the
benefit of the units may also seek reimbursement for common area water and waste-
water use through an economic allocation which approximates the portion of the
common area water and waste-water services allocable to each unit.

(3) The total amount of charges to the units under paragraphs (1) and (2) of this
subsection shall not exceed the total charges paid by the owner or operator for water
and waste-water service for the building, plus a reasonable fee for establishing,
servicing, and billing water and waste-water consumption.

(4) The director shall be empowered to issue a temporary waiver of this subsection
upon a showing by an owner or operator of a building subject to this subsection that
compliance with this subsection has temporarily become impracticable due to
circumstances beyond the control of the owner or operator. Such waiver shall be
limited in duration to the period during which such circumstances remain in effect and
beyond the control of the owner or operator to change.

(5) The owner or operator who seeks reimbursement for water and waste-water usage
as required by this chapter shall be relieved of liability for actions or inactions that
occur as a result of errors by an unaffiliated third-party billing or meter-reading company.

(f) A county, municipal, or other public water system shall be prohibited from charging any fee or levy for the installation or use of privately owned meters or other devices which measure or assist in the measurement of water use under subsection (c) of this Code section; provided, however, a county, municipal or other public water system shall be permitted to charge a fee or levy for the installation or use of publicly owned meters or other devices which measure or assist in the measurement of water use.

(g) Subsections (c), (d), and (e) of this Code section shall not apply to any construction of a building the permit for which was granted prior to July 1, 2012."

SECTION 7.

"8-2-3.
(a) On or before July 1, 2012, the department, with the approval of the board, shall amend applicable state minimum standard codes to require the installation of high-efficiency plumbing fixtures in all new construction permitted on or after July 1, 2012.

(b) As used in this Code section, the term:
(1) 'Commercial' means any type of building other than residential.
(2) 'Construction' means the erection of a new building or the alteration of an existing building in connection with its repair or renovation or in connection with making an addition to an existing building and shall include the replacement of a malfunctioning, unserviceable, or obsolete faucet, showerhead, toilet, or urinal in an existing building.
(2) 'Department' means the Department of Community Affairs.
(3) 'Residential' means any building or unit of a building intended for occupancy as a dwelling but shall not include a hotel or motel. 'Lavatory faucet' means a faucet that discharges into a lavatory basin in a domestic or commercial installation.

(5) 'Plumbing fixture fitting' means a device that controls and directs the flow of water. The term includes a sink faucet, lavatory faucet, showerhead, or bath filler.
(6) 'Pressurized flushing device' means a device that contains a valve that:
   (A) Is attached to a pressurized water supply pipe that is of sufficient size to deliver water at the necessary rate of flow to ensure flushing when the valve is open; and
   (B) Opens on actuation to allow water to flow into the fixture at a rate and in a quantity necessary for the operation of the fixture and gradually closes to avoid water hammer.
(7) 'Toilet' means a water closet.
(8) 'Water closet' means a fixture with a water-containing receptor that receives liquid
and solid body waste and on actuation conveys the waste through an exposed integral
trap into a drainage system and which is also referred to as a toilet.

Protection Agency designed to identify and promote water efficient products and
practices.

(b) After April 1, 1992, there shall not be initiated within this state the construction of
any residential building of any type which:

(c) The standards related to high-efficiency plumbing fixtures shall include without
limitation, the following:

paragraph shall not be applicable to one-piece toilets until July 1, 1992; A water
closet or toilet that:

(A) Is a dual flush water closet that meets the following standards:

(i) The average flush volume of two reduced flushes and one full flush may not
exceed 1.28 gallons;

(ii) The toilet meets the performance, testing, and labeling requirements
prescribed by the following standards, as applicable:

(I) American Society of Mechanical Engineers Standard A112.19.2-2008; and

Liter Water Closets Equipped with a Dual Flushing Device'; and

(iii) Is listed to the WaterSense™ Tank-Type High Efficiency Toilet
Specification; or

(B) Is a single flush water closet, including gravity, pressure assisted, and electro-
hydraulic tank types, that meets the following standards:

gallons of water per minute at 60 pounds per square inch of pressure;

(3) Employs a urinal that uses more than an average of 1.0 gallon of water per
flush; and associated flush valve that:

Mechanical Engineers Standard A112.19.3/CSA B45.4, American Society of
Mechanical Engineers Standard A112.19.19/CSA B45.4, or International
Association of Plumbing and Mechanical Officials Z124.9. Nonwater urinals shall be cleaned and maintained in accordance with the manufacturer's instructions after installation. Where nonwater urinals are installed they shall have a water distribution line roughed-in to the urinal location at a minimum height of 56 inches (1,422 mm) to allow for the installation of an approved backflow prevention device in the event of a retrofit. Such water distribution lines shall be installed with shut-off valves located as close as possible to the distributing main to prevent the creation of dead ends. Where nonwater urinals are installed, a minimum of one water supplied fixture rated at a minimum of one water supply fixture unit shall be installed upstream on the same drain line to facilitate drain line flow and rinsing:

4) Employs a lavatory faucet or lavatory replacement aerator that allows a flow of no more than 1.5 gallons of water per minute at a pressure of 60 pounds per square inch in accordance with American Society of Mechanical Engineers Standard A112.18.1/CSA B.125.1 and listed to the WaterSense™ High-Efficiency Lavatory Faucet Specification; or and
